### Important Information

Asia Ex-Japan Equity Portfolio (the “Portfolio”) is a portfolio of ACMBernstein (the “Fund”). The Fund is a mutual investment fund established in Luxembourg on 21 August 1991 for an unlimited duration as an unincorporated co-proprietorship managed in the interest of its unitholders by AllianceBernstein (Luxembourg) S.à r.l. (the “Management Company”) and is organized as an umbrella fund under Part I of the law of 17 December 2010 relating to undertakings for collective investment (the “Law of 2010”). Outside of Germany, Austria and Switzerland, the Fund conducts business under the name AllianceBernstein. The Fund comprises several portfolios which, together with their Share classes are described in the Prospectus.

### Investment Objective

The investment objective of the Portfolio is long-term growth of capital and income.

### Investment Policy

The Portfolio seeks to achieve its investment objective by investing in a portfolio of equity securities of companies in the Asia ex-Japan region that are determined by the Investment Manager to be undervalued. The Portfolio’s investment universe will consist of countries contained in the MSCI AC (All Country) Asia ex Japan Index and the MSCI Frontier Markets Index, although the Portfolio may invest in securities outside the MSCI AC (All Country) Asia ex Japan Index and the MSCI Frontier Markets Index.

The Investment Manager believes that, over time, a company’s stock price will come to reflect its intrinsic economic value. The Investment Manager’s fundamental value approach to equity investing generally defines value by reference to the relationship between a security’s current price and its intrinsic economic value as measured by long-term earnings prospects.

This approach seeks to identify, in the first instance, a universe of Asia ex-Japan securities that are considered to be undervalued because they are attractively priced relative to their future earnings power. Accordingly, forecasting corporate earnings and cash generation is the heart of the fundamental value approach.

Under normal market conditions the Portfolio will invest in a portfolio of approximately 60-100 companies.

**Description of Currency Strategy.** The Investment Manager may employ a currency overlay strategy. This strategy involves the adjustment of the Portfolio’s various currency exposures to take into account the risk and return outlook of both the Portfolio’s base currency and of other currencies. Accordingly, at any time, the Investment Manager may adjust the Portfolio’s currency exposures depending on the expected return and risk characteristics which its research indicates those currencies are likely to offer.

**Use of Derivatives.** The Investment Manager may employ financial derivative instruments for investment, efficient portfolio management and hedging purposes. These financial derivative instruments may include, but are not limited to, “local access products” (such as equity linked certificates, participation notes, and warrants), and securities convertible into common stock, futures, and options on futures on stock indices.

**Risk Measurement.** The Investment Manager will utilize a Value-at-Risk (“VaR”) methodology to monitor risk for the Portfolio.

### Currency Hedged Share Classes

One or more of the Portfolio’s share classes offered in a particular currency (each, an “Offered Currency”) may be hedged to such Offered Currency. Any such share class will constitute a “Currency Hedged Share Class.” Currency Hedged Share Classes aim to provide investors a return more closely correlated to the Portfolio’s base currency return by reducing the effect of exchange rate fluctuations between the Portfolio’s base currency (i.e., US Dollars) and the relevant Offered Currency, taking into account practical considerations such as transaction costs. The hedging strategy employed is designed to reduce, but may not eliminate, currency exposure between the Portfolio’s base currency and the Offered Currency.

Currency Hedged Share Classes do not affect the investment management of the Portfolio’s underlying assets since it is only the net asset value (NAV) of the Currency Hedged Share Classes, not the Portfolio’s underlying assets, which is hedged to the Offered Currency. Expenses incurred as a result of such hedging activity will be borne by the Currency Hedged Share Class in relation to which such expenses are incurred.

For additional information on share class hedging, see “How to Purchase Shares—Currency Hedged Share Classes” in Section II of the Prospectus.

### Risk Profile

---

The Portfolio is classified as a “Sophisticated” portfolio. The Portfolio shall employ the Value-at-Risk (“VaR”) approach.

Investments of the Portfolio are subject to high risks inherent in equity investments. In general, the value of equity investments may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market, economic, political and natural conditions that are difficult to predict. Such factors include the possibility of sudden or prolonged market declines and risks associated with individual companies. Historically, equity securities have provided greater long-term returns and have entailed greater short-term risks than other investment choices.

The Portfolio is subject to market, interest rate and currency fluctuations and to other risks inherent in investing in securities. Therefore, no assurance can be given that the investment objective will be achieved, that invested capital will be preserved, or that capital appreciation will occur. Investment results may vary substantially on a monthly, quarterly or annual basis. An investment in the Portfolio does not represent a complete investment program.

More details on the risks related to investment in the Portfolio are included in the Prospectus. See “Risk Factors and Special Considerations” in Section II of the Prospectus.

### Profile of the Typical Investor

---

It is intended that the Portfolio will make use of financial derivative instruments and be classified as a “Sophisticated”

## ACMBernstein—Asia Ex-Japan Equity Portfolio

portfolio. The Portfolio shall employ the Value-at-Risk (“VaR”) approach.

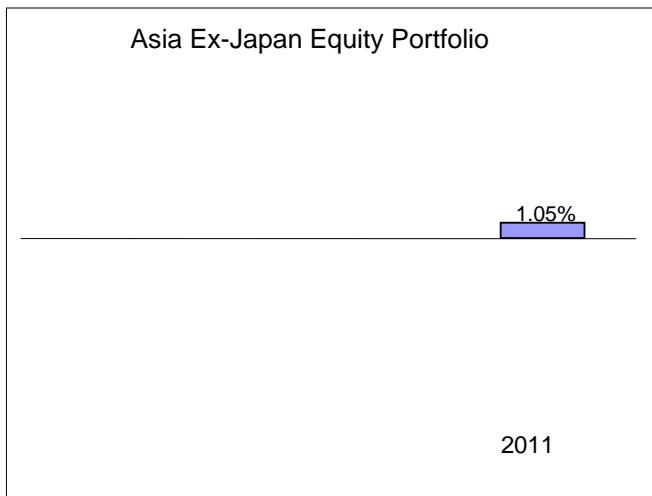

The Portfolio will suit high risk-tolerant investors seeking the longer-term rewards of equity investment. Investors are encouraged to consult their independent financial advisors regarding the suitability of Shares of the Portfolio for their investment needs.

The Management Company has resolved to prevent the ownership of Shares by any “United States Person,” as such term is defined in the Prospectus.

Class S and S1 Shares shall only be placed with institutional investors within the meaning of article 174 of the Law of 2010. Transfers of Class S and S1 Shares shall be restricted to transfers to such institutional investors.

### Historical Performance

The following graph illustrates past performance of class A shares of the Portfolio for the Fund’s last fiscal year. Information for prior years is not available as the Portfolio was established on 30 November 2009.

*Past performance is no guarantee of future results. Total returns, provided by the Investment Manager, reflect the percentage change in Net Asset Value of class A shares*

*of the Portfolio for each of the twelve-month fiscal periods ending 31 August of each year indicated. Class A share performance since 31 August 2011 may differ, perhaps significantly, from performance shown. In addition, the performance of other share classes may be higher or lower due to the different fees and charges associated with such share classes. Returns provided assume the reinvestment of distributions, if any, paid on class A shares for the period shown, but do not reflect any sales charges. Accordingly, these figures do not represent actual returns to an investor. The investment return and principal value of an investment in the Portfolio will fluctuate as the prices of the individual securities in which it invests fluctuate, so that an investor's Shares, when redeemed, may be worth more or less than their original cost.*

### Purchase, Redemption and Exchanges

Purchase, redemption and exchange orders for a given Trade Date may be accepted up to 4:00 p.m. U.S. Eastern time on such Trade Date for USD-Denominated Share Classes and up to 6:00 p.m. Central European time on such Trade Date for JPY-Denominated Share Classes and Currency Hedged Share Classes. Valid and complete orders received and accepted by the Management Company or its agents within this time frame are processed as of such Trade Date at the Net Asset Value determined as of the Valuation Point for such Trade Date. Orders received and accepted after the relevant cut-off time are processed on the next Business Day at the appropriate Net Asset Value determined as of the Valuation Point on such Business Day. The Management Company may limit or suspend the redemption of Shares as provided in the Prospectus and maximum or minimum investment amounts with respect to any share class may be waived by the Management Company in its sole discretion. Shareholders may exchange their Shares to the extent provided in the Prospectus. The Management Company currently does not charge any administrative or other fees in connection with exchanges. However, Shareholders who hold their Shares through accounts with a dealer should contact such dealer to determine if any such fees apply in connection with exchanges. For more information, see “How to Purchase Shares,” “How to Redeem Shares,” and “How to Exchange Shares” in Section II of the Prospectus.

1 The Management Company, Administrator, Custodian and Transfer Agent are entitled to receive, out of the assets of the Portfolio, fees as described under "Other Portfolio Information—Management Company, Administrator, Custodian and Transfer Agent Fees" in Section I of the Prospectus. The Portfolio also bears all of its other expenses. See "How to Purchase Shares" and "Additional Information—Fees and Expenses" in Section II of the Prospectus. The Management Company has voluntarily undertaken, until the Management Company on behalf of the Fund notifies Shareholders to the contrary, that if, in any fiscal year, the aggregate fees and expenses with respect to the following share classes of the Portfolio (including any management fee and all other fees and expenses set out in "Additional Information—Fees and Expenses" in Section II of the Prospectus, including Luxembourg Taxe d'Abonnement but exclusive of certain other taxes, brokerage (if applicable) and interest on borrowings) exceed the following percentages of the Portfolio's average Net Asset Value for the fiscal year attributable to the Portfolio's class A, AD, AY, B, BD, BY, C, I, ID, S and S1 shares (and each applicable H shares), respectively: 2.05%, 2.05%, 2.05%, 3.05%, 3.05%, 2.52%, 2.50%, 1.25%, 1.25%, 0.30% and 1.20%, the Fund may deduct from the payment to be made to the Management Company, or the Management Company will otherwise bear, such excess fees and expenses.

2 After six years from the date of purchase (for class B or BD) and after seven years from the date of purchase (for class BY), Shareholders of B, BD or BY will have the right to request a conversion to class A, AD or AY shares, respectively, without charge from either the Fund or the Management Company. For further details on the conversion right, please refer to "How to Exchange or Convert Shares—Conversion of CDSC Shares" in Section II of the Prospectus.

3 As a percentage of purchase price.

4 As an annual percentage of average daily Net Asset Value. With respect to certain share classes, the management fee may also include a component that is paid to distributors or other financial intermediaries and service providers. For further details on the management fee, please refer to "Additional Information—Fees and Expenses" in Section II of the prospectus.

5 As an annual percentage of average daily Net Asset Value.

6 For all relevant share classes except BY, as a percentage of the lesser of the current Net Asset Value or original cost of the Shares being redeemed and based upon the duration that such Shares are held. For class BY shares, as a percentage of the original cost of the shares being redeemed and based upon the duration that such shares are held. CDSC Shares may only be purchased through a dealer authorized by the Distributor to offer such shares. Those investors considering an investment in CDSC Shares should speak with their financial advisor for details. With respect to class C or CD shares, a dealer may elect to waive the contingent deferred sales charge in certain circumstances.

7 As reflected in the Fund's latest annual report dated 31 August 2011. Calculated by dividing the total operating expenses of the Portfolio, including security transaction fees, by its average daily Net Asset Value. Includes all fees and administrative costs, including without limitation Management Company, Custodian and Transfer Agent fees; legal fees; and administrative and production costs. Does not include sales charge, contingent deferred sales charge, or other fees paid directly by the investor. Current or future total expenses may be higher or lower due to varying administrative costs.

8 Class S shares are reserved for institutional investors that have entered into an agreement with the Management Company and are being charged an investment management fee separately.

9 Does not apply to automatic investment plans, where offered.

10 May be waived by the Management Company in its sole discretion.

11 Annual Luxembourg tax payable quarterly by the Portfolio.

12 This charge will be applicable as from 31 March 2012.

### Distributions

For class A, B, C, I, S and S1 shares (and each applicable H shares), the Management Company currently does not intend to pay dividends with respect to the Shares. Therefore, any net income and net realized profits attributable to the Shares will be reflected in the respective Net Asset Value of the Shares.

For class AD, BD and ID shares (and each applicable H shares), the Management Company intends to declare and pay

monthly distributions equal to all or substantially all of the Portfolio's net income attributable to each class of Shares.

For class AY and class BY shares, the Management Company has discretion to declare and pay dividends based on the Portfolio's net income attributable to each class of Shares.

The Management Company also may determine if and to what extent distributions paid include realized capital gains and/or are paid out of capital attributable to the relevant class of

Shares. To the extent the net income and net realized profits attributable to these Shares exceed the amount declared payable, the excess return will be reflected in the respective Net Asset Value of such Shares. These distributions may be automatically reinvested at the election of the Shareholder.

### Portfolio Turnover Rate

The portfolio turnover rate of the Portfolio is 80.61%, as reflected in the Fund's latest annual report dated 31 August 2011. The portfolio turnover rate is calculated by dividing the lesser of the annual total value of purchases or sales of portfolio securities (excluding short term transactions) by the average annual market value of the portfolio.

### Taxation

The following summary does not purport to be complete in all respects and do not constitute investment or tax advice and investors should consult their own professional advisers as to the tax implications under the laws of the countries of their nationality, residence, domicile or incorporation of an investment in the Portfolio.

**Luxembourg Taxation.** The Fund is not liable for any Luxembourg tax on profits or income, nor are distributions paid by the Fund subject to any Luxembourg withholding tax. The Fund is, however, liable in Luxembourg for a tax of 0.05% per annum of its Net Asset Value, such tax being payable quarterly on the basis of the value of the aggregate net assets of the Portfolio at the end of the relevant calendar quarter.

A reduced tax at an annual rate of 0.01% is applicable to classes of shares restricted to institutional investors, such as the class S and S1 shares, within the meaning of article 174 of the Law of 2010.

No such tax is payable on the value of assets which consist of units or Shares of other Luxembourg funds that have already been subject to such tax. No stamp duty or other tax is payable in Luxembourg on the issue of Shares. No Luxembourg tax is payable on the realized capital appreciation of the assets of the Fund.

### Additional Information
