Notes to the financial statements

For the financial period ended 31 December 2015

1. General information

Red Arc Global Investments (Ireland) plc (the "Company") is an investment company with variable capital incorporated on 1 February 2008 and authorised in Ireland as an Undertaking for Collective Investment in Transferable Securities pursuant to the European Communities UCITS Regulations 2011, as amended (the "UCITS Regulations").

The table below reflects the active share classes on each of the sub-funds. All active share classes of the sub-funds are listed on the Irish Stock Exchange.

Sub-fund	Share Classes	Sub-fund launch date
UK Autocall Fund	GBP Class A, GBP Class A2	7 April 2010
80% Protected Dynamic Allocation Fund	USD Class A, EUR Class A, GBP Class A, GBP Class A2	18 July 2011
Equity Balanced-Beta US Fund	USD Class I, USD Class A, USD Class C, EUR Class I	21 March 2012
Equity Balanced-Beta Eurozone Fund	USD Class C, EUR Class I, EUR Class A, EUR Class C	21 March 2012
Equity Balanced-Beta UK Fund	USD Class I, USD Class C, GBP Class I, GBP Class C	8 August 2012

Please see the respective supplements for further information on the above sub-funds.

2. Significant accounting policies

(a) Basis of preparation

The financial statements have been prepared in accordance with IAS 34 "Interim financial reporting" and International Financial Reporting Standards ("IFRS") 1 "First time adoption of IFRS".

The interim report and condensed unaudited financial statements do not contain all of the information and disclosures required in the full annual financial statements and should be read in conjunction with the audited financial statements for the year ended 30 June 2015, which have been prepared in accordance with IFRS and Irish statute comprising the Companies Act 2014 and the UCITS Regulations. The financial results presented for Harness Macro Currency Fund were prepared under the termination basis of accounting as the sub-fund was fully redeemed and terminated on 6 July 2015.

The preparation of financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the period. Actual results could differ from those estimates and these differences could be material.

(b) Change in accounting framework

The Company's financial statements for the financial period ended 31 December 2015 are the first set of interim financial statements prepared in accordance with IFRS. The financial statements were previously prepared in accordance with accounting standards generally accepted in Ireland ("Irish GAAP").

In line with IFRS 1, each interim report, if any, that it presents in accordance with IAS 34 for part of the period covered by its financial statements will present reconciliations showing the effect of the change in accounting framework on net assets and increase/(decrease) in net assets attributable to holders of redeemable participating shares for the comparable interim period of the immediately preceding financial year. There was no adjustment required for net assets and the increase/(decrease) in net assets attributable to holders of redeemable participating shares in accordance with IFRS for the financial period ended 31 December 2014.

The Company's transition date is 1 July 2014 and the Company prepared its opening IFRS statement of financial position at this date. IFRS 1 also requires a reconciliation of the impact on net assets at the transition date and at the end of the latest period presented in the Company's most recent annual financial statements. There was no adjustment required for net assets in accordance with IFRS as at 1 July 2014 and 30 June 2015.

The effects of transition from Irish GAAP to IFRS on the financial statements are primarily presentation and disclosure changes. These have been reflected in these financial statements and include;

- Inclusion of a cash flow statement;
- · Presentation of a third balance at the conversion date.

(c) Change in accounting policy

From 2015, the Company changed its accounting policy in relation to the valuing of the swap. The Directors take the view that this change in policy provides a more accurate presentation of the value of the swap. In prior accounts, note 3(i) reflected the value of the swap as being made up of the investment in the total return swap along with fees payable and residual cash balances. The presentation has been updated so that the fees payable and cash balances are reflected directly on the statement of financial position. This change represents a change in accounting policy under the guidance of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors ("IAS 8"). Comparatives for 1 July 2014, the Company's transition date to IFRS, have been adjusted to reflect this change and does not impact the performance of the Company.

In addition, collateral is no longer presented on the statement of financial position and is disclosed instead in note 16. The effect of this is to reduce the total assets by EUR 338,194,581 (30 June 2015: 356,067,544) and the total liabilities by EUR 338,194,581 (30 June 2015: 356,067,544).

(d) Foreign exchange translation

(i) Functional currency

The functional currency of Equity Balanced-Beta Eurozone Fund is Euro ("EUR"). The functional currency of UK Autocall Fund and Equity Balanced-Beta UK Fund is British Pound ("GBP"), while the functional currency of 80% Protected Dynamic Allocation Fund, Balanced-Beta US Fund and Harness Macro Currency Fund is US Dollars ("USD"). The Company has adopted the EUR as its presentation currency.

For the financial period ended 31 December 2015

- 2. Significant accounting policies (continued)
- (d) Foreign exchange translation (continued)
- (ii) Foreign currency translation

Assets and liabilities denominated in currencies other than the functional currencies of the sub-funds are translated into the functional currency using exchange rates prevailing at the reporting date. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation, at the reporting date exchange rates, of assets and liabilities denominated in foreign currencies, are recognised in the statement of comprehensive income in the year in which they arise. Transactions in currencies other than the functional currencies are recorded at the rate of exchange prevailing on the dates of the transaction.

Red Arc Global Investments (Ireland) plc

(iii) Notional foreign exchange adjustment

The foreign exchange adjustment arises due to the use of exchange rates at the reporting date to translate sub-funds that have a functional currency that differs to the presentation currency of the Company. The translation of the sub-funds' functional currencies into the presentation currency of the Company is recognised separately through the statement of changes in net assets attributable to holders of redeemable participating shares. For the reporting date 31 December 2015, the translation adjustment was a notional gain of €3,057,710 (31 December 2014: notional gain of €29,269,775); which has no impact on the net asset value ("NAV") of each individual sub-fund.

For the financial period ended 31 December 2015

3. Financial assets and financial liabilities at fair value through profit or loss (continued)

(ii) Fair value of financial instruments

IFRS 13 – Fair Value Measurement ("IFRS 13") establishes a fair value hierarchy for inputs used in measuring fair value that classify investments according to how observable the inputs are. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company's assumptions, made in good faith, about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy is categorised into three levels based on the inputs as follows:

Level 1 - Valuations based on quoted prices in active markets for identical assets or liabilities;

Level 2 - Valuations based on quoted prices in markets that are not active or inputs other than quoted prices for which all significant inputs are observable, either directly (as prices) or indirectly (derived from prices); and

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The following table details the categories of financial assets and financial liabilities held by the Company at the reporting date:

All other assets and liabilities held by the sub-funds at the reporting dates 31 December 2015, 30 June 2015 and 1 July 2014 are carried at amortised cost; their carrying values are a reasonable approximation of fair value. Cash and cash equivalents have been classified at level 1, due to the liquid nature of the asset. All other assets and liabilities have been classified at level 2.

4. Derivatives

UK Autocall Fund

The investment objective of the sub-fund is to provide Shareholders of each Class with a return reflecting the performance of the Reference Asset. The Reference Asset is the UK Autocall Strategy (the "Strategy"). In order to achieve the investment objective, the Company on behalf of the sub-fund will enter into separate Derivative Contracts for each Share Class which will provide exposure to the Reference Asset in accordance with the terms of the Prospectus. The Net Asset Value per Share of each Share Class will therefore depend on the value of the relevant Derivative Contract. In order to comply with the investment restrictions applicable to the Company, each Derivative Contract will be collateralised.

The investment objective is achieved by gaining exposure to the Strategy which notionally pays a pre-defined growth amount if the official closing level of the Underlying Index is at or above a pre-specified level (which is called an Auto-Call Trigger Level) on an Auto-Call Observation Date. In return for this defined growth profile, investors do not benefit if the Underlying Index performs more strongly.

The Underlying Index is a market-capitalisation weighted index representing the performance of the 100 largest UK-domiciled blue chip companies, which pass screening for size and liquidity. The underlying index represents approximately 79.24 per cent (30 June 2015: 79.55 per cent) of the UK's market capitalisation and is suitable as the basis for investment products, such as funds, derivatives and exchange-traded funds. The underlying index also accounts for 6.92 per cent (30 June 2015: 7.21 per cent) of the world's equity market capitalisation (based on the FTSE All-World Index as at 31 December 2015). The underlying index components are all traded on the London Stock Exchange's SETS trading system.

80% Protected Dynamic Allocation Fund

The investment objective of the sub-fund is to provide Shareholders in each Class with investment exposure to the performance of a notional Reference Asset and partial capital protection in an amount equal to 80% of the highest ever Net Asset Value per Share of the relevant Class achieved on any day from the Initial Issue Date (the "Protected Amount"). The Protected Amount of the relevant Class on any day may be equal to or higher than 80% of the Initial Issue Price, depending on the performance of the Reference Asset since the Initial Issue Date.

The Reference Asset for each Class is a notional portfolio (denominated in the currency of the relevant Class of Shares) comprising: (i) the Reference Portfolio, which is a notional multi-asset portfolio selected by BlackRock Investment Management (UK) Limited (the "Portfolio Advisor") on an ongoing basis and providing exposure to a range of asset classes (including equities, bonds and commodities) through positions in collective investment schemes (CISs), exchange traded funds (ETFs) and certain derivative positions, and (ii) the Reserve Asset, which is a notional portfolio of cash instruments denominated in the currency of the relevant Class of Shares, bearing interest at a rate equal to the prevailing overnight interest rate in the relevant currency minus 0.125% per annum, floored at zero per cent.

The balance of the allocation of the Reference Asset for each Class between the Reference Portfolio and the Reserve Asset is adjusted from time to time in accordance with a fixed set of systematic allocation rules (the "Dynamic Allocation Rules") which are designed to maximise the allocation to the Reference Portfolio (up to a maximum of 100% of the value of the Reference Asset), whilst at least preserving a value reflecting the Protected Amount of the relevant Class. Through following the Investment Policy, the Fund will receive, under the Derivative Contracts in respect of each Class, an amount reflecting the Protected Amount of the relevant Class even if the Dynamic Allocation Rules fail to achieve this through the rebalancing process.

In order to achieve its investment objective, the Company on behalf of the sub-fund intends to use the net proceeds of any issue of Shares to: (i) physically invest in certain Direct Investments, and (ii) enter into Derivative Contracts in respect of each Class with the Approved Counterparty in the form of: (a) an unfunded asset swap transaction (the "Asset swap"), and (b) a funded total return swap transaction (the "Total Return Swap", and together with the Asset Swap, the Derivative Contracts).

There were no direct investments held during the financial period ended 31 December 2015 (30 June 2015: Nil).

For the financial period ended 31 December 2015

4. Derivatives (continued)

Equity Balanced-Beta US Fund

The investment objective of the sub-fund is to provide Shareholders in each Class with exposure to the performance of the Citi Volatility Balanced-Beta (VIBE) Equity US Net Total Return Index (the "Index"), developed by Citigroup Global Markets Limited.

The constituents of the Index are drawn from the S&P 100 Index ("S&P 100") and weighted according to the Citi Volatility Balanced-Beta ("VIBE") methodology, a proprietary risk-weighting model developed by the Index Sponsor. As described in more detail below, the VIBE methodology determines the percentage weight within the Index of each constituent on a quarterly basis such that the risk contribution of each constituent is equal. In determining the risk contribution of each constituent, the VIBE methodology relies exclusively on market price volatility (both historic and implied) as a measure of risk. The S&P 100 measures the performance of the US's leading blue chip companies. The S&P 100 is made up of 100 constituents selected from the S&P 500 Index ("S&P 500") on the basis of sector balance and the availability of individual stock options for each constituent.

In order to achieve the investment objective, the Company on behalf of the sub-fund intends to invest the net proceeds of any issue of shares in sub-fund assets. The sub-fund assets (i) will include a single total return swap, which will be fully funded or partially funded from the net proceeds of any issue of shares, to obtain an exposure to the performance of the Index; (ii) will include, where the total return swap is partially funded, a single reverse repurchase agreement, to enable the Company to hold assets in a more cost-effective manner and (iii) will include one-month foreign exchange currency forward contracts, which will be used to smooth out the currency exposures to which the Company on behalf of the sub-fund will be exposed in respect of the classes the currencies of which are not the same as the base currency of the sub-fund.

For the financial period ended 31 December 2015, the anticipated tracking error was 0.25% (30 June 2015: 0.25%) and the actual tracking error was 0.35% (30 June 2015: +0.19%), the difference is due to a number of factors including, but not limited to, spreads on subscriptions and redemptions, trading costs, fund expenses and residual cash balances held and these are not material.

The difference between the performance of the Fund and the performance of the index was -0.40% for the period (year ended 30 June 2015: -0.94%) and the difference is due to a number of factors including, but not limited to, spreads on subscriptions and redemptions, trading costs, fund expenses and residual cash balances held and these are not material.

Equity Balanced-Beta Eurozone Fund

The investment objective of the sub-fund is to provide Shareholders in each Class with exposure to the performance of the Citi Volatility Balanced-Beta (VIBE) Equity Eurozone Net Total Return Index (the "Index"), developed by Citigroup Global Markets Limited.

The constituents of the Index are drawn from the S&P Euro 75 Index ("S&P Euro 75") and weighted according to the Citi Volatility Balanced-Beta ("VIBE") methodology, a proprietary risk-weighting model developed by the Index Sponsor. The VIBE methodology determines the percentage weight within the Index of each constituent on a quarterly basis such that the risk contribution of each constituent is equal. In determining the risk contribution of each constituent, the VIBE methodology relies exclusively on market price volatility (both historic and implied) as a measure of risk. The S&P Euro 75 measures the performance of the Eurozone's leading blue chip companies. The S&P Euro 75 is made up of 75 constituents, which are drawn from a universe comprising the constituent stocks of the broad S&P Eurozone Broad Market Index ("Eurozone BMI"), domiciled in the Eurozone and trading in Euro.

In order to achieve the investment objective, the Company on behalf of the sub-fund intends to invest the net proceeds of any issue of shares in sub-fund assets. The sub-fund assets (i) will include a single total return swap, which will be fully funded or partially funded from the net proceeds of any issue of shares, to obtain an exposure to the performance of the Index; (ii) will include, where the total return swap is partially funded, a single reverse repurchase agreement, to enable the Company to hold assets in a more cost-effective manner and (iii) will include one-month foreign exchange currency forward contracts, which will be used to smooth out the currency exposures to which the Company on behalf of the sub-fund will be exposed in respect of the classes the currencies of which are not the same as the base currency of the sub-fund.

For the financial period ended 31 December 2015, the anticipated tracking error was 0.15% (30 June 2015: 0.15%) and the actual tracking error was 0.67% (30 June 2015: +0.26%), the difference is due to a number of factors including, but not limited to, spreads on subscriptions and redemptions, trading costs, fund expenses and residual cash balances held and these are not material.

The difference between the performance of the Fund and the performance of the index was -0.24% for the period (year ended 30 June 2015: -1.08%) and the difference is due to a number of factors including, but not limited to, spreads on subscriptions and redemptions, trading costs, fund expenses and residual cash balances held and these are not material.

Equity Balanced-Beta UK Fund

The constituents of the Index are drawn from the S&P United Kingdom Index ("S&P UK") and weighted according to the Citi Volatility Balanced-Beta ("VIBE") methodology, a proprietary risk-weighting model developed by the Index Sponsor. The VIBE methodology determines the percentage weight within the Index of each constituent on a quarterly basis such that the risk contribution of each constituent is equal. In determining the risk contribution of each constituent, the VIBE methodology relies exclusively on market price volatility (both historic and implied) as a measure of risk. The S&P UK measures the performance of the UK's leading blue chip companies. The S&P UK is made up of stocks that have been analyzed for size and liquidity, as well as sector representation. The S&P UK is made up of a varying number of constituents, based on certain qualifying criteria. A stock's weight in the S&P UK is determined by the float-adjusted market capital of the stock. The float-adjustment seeks to exclude "strategic holdings", which are holdings by founders, directors of the company, corporate or government holdings that are considered long-term. A minimum liquidity, based on float turnover, is also required for inclusion. For the financial period ended 31 December 2015, the anticipated tracking error was 0.20% (30 June 2015: 0.20%) and the actual tracking error was 0.25% (30 June 2015: +0.16%), the difference is due to a number of factors including, but not limited to, spreads on subscriptions and redemptions, trading costs, fund expenses and residual cash balances held and these are not material.

The difference between the performance of the Fund and the performance of the index was -0.62% for the period (year ended 30 June 2015: -1.22%) and the difference is due to a number of factors including, but not limited to, spreads on subscriptions and redemptions, trading costs, fund expenses and residual cash balances held and these are not material.

For the financial period ended 31 December 2015

4. Derivatives (continued)

Equity Balanced-Beta UK Fund (continued)

In order to achieve the investment objective, the Company on behalf of the sub-fund intends to invest the net proceeds of any issue of shares in sub-fund assets. The sub-fund assets (i) will include a single total return swap, which will be fully funded or partially funded from the net proceeds of any issue of shares, to obtain an exposure to the performance of the Index; (ii) will include, where the total return swap is partially funded, a single reverse repurchase agreement, to enable the Company to hold assets in a more cost-effective manner and (iii) will include one-month foreign exchange currency forward contracts, which will be used to smooth out the currency exposures to which the Company on behalf of the sub-fund will be exposed in respect of the classes the currencies of which are not the same as the base currency of the sub-fund.

Harness Macro Currency Fund

In order to achieve the investment objective, the Company on behalf of the sub-fund invested the net proceeds of any issue of shares in the sub-fund's assets. The Investment Manager made investment decisions and entered into and invested in total return swaps on behalf of the sub-fund in order to achieve its investment objective. The sub-fund's assets included (i) a total return swap, which was fully funded from the net proceeds of the issue of shares and provided exposure to Harness Macro Currency Strategy (a notional foreign exchange trading strategy, which is owned and operated by the Investment Manager) and (ii) one-month foreign exchange currency forward contracts, which were used to smooth out the currency exposure to classes which were denominated in currencies other than the base currency of the sub-fund.

As detailed in note 20, the Fund fully redeemed and terminated effective 6 July 2015.

The Company also holds or issues forward currency contracts. The Company records these forward activities on a mark-to-market basis.

A **forward currency contract** involves an obligation to purchase or sell a specific currency at a future date, at a price set at the time the contract is made. Forward currency contracts will be valued by reference to the forward price at which a new forward contract of the same size and maturity could be undertaken at the valuation date. The unrealised gain or loss on open forward currency contracts is calculated as the difference between the contract rate and this forward price, and this difference is recognised in the statement of comprehensive income.

5. Swap Fee Receivable

80% Protected Dynamic Allocation Fund

Under the terms of the Asset Swap in respect of each Class, the Fund will pay to the Approved Counterparty the performance and any income received in respect of Direct Investments held by the Fund. In return, the Approved Counterparty will pay to the Fund (i) the performance of the Reference Asset, together with (ii) monthly amounts equal to the relevant proportion of the monthly Management Fee ("Swap fee receivable").

UK Autocall Fund

The Net Asset Value of the Shares of each Class will be reduced by certain fees and expenses, as disclosed in note 6, which will be funded by payments made by the Approved Counterparty under the relevant Derivatives Contract.

6. Fees and Expenses

The Company pays out of the assets of the sub-funds amounts in respect of a management fee (the "Management Fee") and other costs and expenses ("Other Costs and Expenses") to the Manager. Together the Management Fee and Other Costs and Expenses are referred to as "Fund Fees".

The Manager, on behalf of the Company, pays out of the Fund Fees the following: fees and expenses of the Manager, the Distributor and any other delegates and service providers appointed by the Manager, the Investment Manager (if any), the Investment Advisor, the Custodian, the Administrator, Directors' fees attributable to the relevant Fund; the fees and expenses of sub-custodians which will be at normal commercial rates; any fees in respect of circulating details of the Net Asset Value; secretarial fees; any costs incurred in respect of meetings of Shareholders, marketing and distribution costs; costs incurred in respect of the distribution of income to Shareholders; the fees and expenses of any paying agent or representative appointed in compliance with the requirements of another jurisdiction; all sums payable in respect of Directors' and officers' liability insurance cover; the fees and expenses of the auditors, tax and legal advisers; fees connected with listing any Shares on the Irish Stock Exchange or other stock exchange and registering any Shares for sale in other jurisdictions; costs of printing and distributing, the relevant Annex, reports, accounts and any explanatory memoranda; any necessary translation fees; costs of publishing prices; costs incurred as a result of periodic updates of the Prospectus, or of a change in law or the introduction of any new law (including any costs incurred as a result of compliance with any applicable code, whether or not having the force of law).

Given the fixed nature of the Fund Fees and under the terms of its agreement with the Manager, the Distributor and not the Shareholders takes the risk of any price increases to the cost of the services covered by the Fund Fees and takes the risk of expense levels relating to such services increasing above the Fund Fees as a result of a decrease in net assets. Conversely, the Distributor, and not the Shareholders, would benefit from any price decrease in the cost of services covered by the Fund Fees, including decreased expense levels resulting from an increase in net assets.

Particulars of the Fund Fees in respect of each Fund are outlined below.

UK Autocall Fund

Effective 8 April 2015 the Company on behalf of the sub-fund pays, in respect of each Class, a fee out of the assets of the Fund attributable to such Class (the "Management Fee"). The Management Fee in respect of each Class is an amount up to 0.20 per cent. The Management Fee accrues on each Business Day, and is calculated on each Business Day with reference to the Net Asset Value of such Class on the immediately preceding Business Day. Prior to this date a fee of up to 0.90 per cent was charged in relation to Class A shares.

80% Protected Dynamic Allocation Fund

A Management Fee of up to 1.25 per cent per annum of the aggregate NAV per share of each Class issued in respect of the sub-fund is paid by the Company on behalf of the sub-fund out of the assets of the sub-fund attributable to the relevant class. The Management Fee accrues daily and is calculated on each Business Day using the Net Asset Value of the relevant Class on the immediately preceding Business Day. The maximum fee was charged during the financial period ended 31 December 2015 and the financial year ended 30 June 2015.

For the financial period ended 31 December 2015

6. Fees and Expenses (continued)

Equity Balanced-Beta US Fund

The Company on behalf of the sub-fund pays a Management Fee of 0.40 per cent per annum of the Class I shares, 1.20 per cent of the Class A shares and 0.80 per cent of the Class C shares out of the assets of the sub-fund attributable to each Class. The Management Fee in respect of each Class accrues on each Business Day, and is calculated on each Business Day with reference to the Net Asset Value of such Class on the immediately preceding Business Day.

Other costs & expenses of 0.20 per cent, which form part of the Fund Fees, are also paid by the Company on behalf of the sub-fund.

Equity Balanced-Beta Eurozone Fund

The Company on behalf of the sub-fund pays a Management Fee of 0.40 per cent per annum of the Class I shares, 1.20 per cent of the Class A shares and 0.80 per cent of the Class C shares out of the assets of the sub-fund attributable to each Class. The Management Fee in respect of each Class accrues on each Business Day, and is calculated on each Business Day with reference to the Net Asset Value of such Class on the immediately preceding Business Day.

Other costs & expenses of 0.20 per cent, which form part of the Fund Fees, are also paid by the Company on behalf of the sub-fund.

Equity Balanced-Beta UK Fund

The Company on behalf of the sub-fund pays a Management Fee of 0.40 per cent per annum of the Class I shares, 1.20 per cent of the Class A shares and 0.80 per cent of the Class C shares out of the assets of the sub-fund attributable to each Class. The Management Fee in respect of each Class accrues on each Business Day, and is calculated on each Business Day with reference to the Net Asset Value of such Class on the immediately preceding Business Day.

Other costs & expenses of 0.20 per cent, which form part of the Fund Fees, are also paid by the Company on behalf of the sub-fund.

Harness Macro Currency Fund

The Company on behalf of the sub-fund pays a Management Fee of 0.20 per cent per annum of the Class I shares out of the assets of the sub-fund attributable to each Class. The Management Fee in respect of each Class accrues on each Business Day, and is calculated on each Business Day with reference to the Net Asset Value of such Class on the immediately preceding Business Day.

Other costs & expenses of 0.20 per cent, which form part of the Fund Fees, are also paid by the Company on behalf of the sub-fund.

The Investment Manager also received a fixed strategy fee of 1% per annum (the "Fixed Strategy Fee"). The Fixed Strategy Fee is calculated on a daily basis and reflected (as a deduction) in the Strategy Level calculated in respect of each Strategy Valuation Day. The Fixed Strategy Fee is paid to the Investment Manager in its capacity as operator of the Strategy and covers the operational costs of the Strategy. The Investment Manager received \$48 in relation to the financial period ended 31 December 2015 (30 June 2015; \$814,609)

Additionally, the Strategy provides for the deduction of a strategy performance fee of 15% of any positive performance of the Strategy (after the deduction of the Fixed Strategy Fee) subject to a lifetime high-water-mark of the highest ever quarter-end cumulative performance of the Strategy (the "Strategy Performance Fee" and together with the Fixed Strategy Fee, the "Strategy Fees").

As set out above, the Investment Manager, in its capacity as the operator of the Strategy is also entitled to receive the Strategy Performance Fee in respect of performance in excess of the highest ever quarter-end cumulative performance of the Strategy. The Investment Manager did not receive a fee in relation to the financial period ended 31 December 2015 (30 June 2015: \$1,142,834). As both the Fixed Strategy Fee and the Strategy Performance fee are embedded in the swap contracts these amounts are presented as part of the 'net gain/(loss) on financial assets and liabilities at fair value through profit or loss and foreign exchange' in the statement of comprehensive income.

7. Transaction Costs

Transaction costs are incremental costs, which are separately identifiable and directly attributable to the acquisition, issue or disposal of a financial asset or financial liability.

For Equity Balanced-Beta US Fund, Equity Balanced-Beta Eurozone Fund and Equity Balanced-Beta UK Fund the Company, on behalf of the subfund, pays a swap fee of 0.20 per cent of the notional size of the total return swap to the TRS Counterparty for the provision and hedging of the total return swap. This is classified in the statement of comprehensive income as transaction costs.

For Harness Macro Currency Fund, the Company, on behalf of the sub-fund, pays 0.40 per cent per annum of the notional size of the total return swap to the TRS Counterparty for the provision and hedging of the total return swap. This fee is not separately identifiable and is included within 'net gain/(loss) on financial assets and liabilities at fair value through profit or loss and foreign exchange' in the statement of comprehensive income. The total swap fee paid by the sub-fund for the financial period ended 31 December 2015 was \$59 (30 June 2015: \$332,832).

8. Exchange rates

The following exchange rates were used as at the reporting date:

Currency	31 December 2015 Rate to EUR	30 June 2015 Rate to EUR
GBP	1.356818	1.411496
USD	0.920560	0.897500

For the financial period ended 31 December 2015

9. Share capital

Authorised

The authorised share capital of the Company is 1,000,000,000,000 shares of no par value initially designated as unclassified shares.

Subscriber Shares

The issued share capital of the Company is represented by 2 shares (the "subscriber shares") issued for the purposes of the incorporation of the Company at an issue price of earrow1 per share which are fully paid up. The subscriber shares do not form part of the NAV of the Company and are thus disclosed in the financial statements by way of this note only.

10. Reconciliations of the effects of transition from Irish GAAP to IFRS

There was no adjustment required for net assets and the increase/(decrease) in net assets attributable to holders of redeemable participating shares for the financial period ended 31 December 2014.

The effects of transition from Irish GAAP to IFRS on the financial statements are primarily presentation and disclosure changes. These have been reflected in these financial statements and include:

- Inclusion of a cash flow statement;
- Presentation of a third balance at the conversion date.

11. Net asset value reconciliation

The published NAV is adjusted for subscriptions receivable and redemptions payable which have a value date of the last NAV of each sub-fund in the accounting period.

There was no adjustment required for the financial year ended 30 June 2015.

As at 31 December 2015

	UK Autocall Fund GBP	80% Protected Dynamic Allocation Fund USD	Equity Balanced Beta US Fund USD	Equity Balanced Beta Eurozone Fund EUR	Equity Balanced Beta UK Fund GBP

¹ Subscriptions and redemptions effective for the last valuation date

12. Connected party transactions

The Central Bank (Supervision and Enforcement) Act 2013 (section 48 (1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015 (the "Central Bank Regulations") states that any transaction carried out with a UCITS by a management company or depositary to a UCITS; and the delegates or sub-delegates of such a management company or depositary (excluding any nongroup company sub-custodians appointed by a depositary); and any associated or group company of such a management company, depositary, delegate or sub-delegate ("connected person") must be carried out as if conducted at arm's length. Transactions must be in the best interests of the shareholders.

The Directors of the Company are satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in Regulation 78 (4) (a) are applied to all transactions with connected parties; and the Directors are satisfied that transactions with connected parties entered into during the year complied with the obligations set out in Regulation 41 (1) (a) and (b) of the Central Bank Regulations.

13. Related party disclosures

In accordance with IAS 24 'Related Party Disclosures' the related parties of the Company and the required disclosures relating to material transactions with parties are outlined below.

Manager

The Manager is considered a related party to the Company as it is considered to have significant influence over the Company in its role as manager. The Manager receives fees as set out in note 6.

Investment Manager

The Investment Managers are also deemed to be related parties as they have significant influence over the sub-funds. Citigroup First Investment Management Limited is Investment Manager to the 80% Protected Dynamic Allocation Fund and Harness Investment Group Limited was Investment Manager to the Harness Macro Currency Fund. Citigroup First Investment Management Limited did not receive a fee in its capacity of Investment Manager during the financial period ended 31 December 2015 (30 June 2015: Nil). Details of fees paid to Harness Investment Group Limited are outlined below:

	Financial period ended 31 December 2015	Financial period ended 31 December 2014
Fixed Strategy Fee paid to Harness Investment Group Limited	\$48	\$483,963
Fixed Strategy Performance Fee paid to Harness Investment Group Limited	-	\$1.142.834

Investment Advisor, Distributor & Index Sponsor

Citigroup Global Markets Limited and/or affiliates (together, "Citigroup") is deemed to be related party as they have significant influence over the subfunds where they act as investment advisor. Citigroup act as investment advisor to all sub-funds except for 80% Protected Dynamic Allocation Fund and Harness Macro Currency Fund.

Given the fixed nature of the Fund Fees and under the terms of its agreement with the Manager, the Distributor and not the Shareholders takes the risk of any price increases to the cost of the services covered by the Fund Fees and takes the risk of expense levels relating to such services increasing above the Fund Fees as a result of a decrease in net assets. Conversely, the Distributor, and not the Shareholders, would benefit from any price decrease in the cost of services covered by the Fund Fees, including decreased expense levels resulting from an increase in net assets. Citigroup act as Distributor in respect of the shares of the Company.

For the financial period ended 31 December 2015

13. Related party disclosures (continued)

Investment Advisor, Distributor & Index Sponsor (continued)

The Distributor is entitled to receive fees from the Manager, payable from the Fund Fees of each sub-fund. Citigroup also acts as index sponsor to the sub-funds. Citigroup received €543,253 in fees during the financial period ended 31 December 2015 (31 December 2014: €266,518) as a result of fund fees received being in excess of the cost of the services covered.

Citigroup is entitled to receive a fee (the "Swap Fee"), in their capacity as approved counterparty, as outlined in note 6.

Directors

The Directors are also considered related parties of the Company. All transactions between related parties are conducted at arm's length and can be summarised as follows:

Aggregate directors' fees charged during the six month period ended 31 December 2015 amounted to €22,548 (year ended 30 June 2015: €48,000). The Directors held no shares in the Company during the financial period ended 31 December 2015 (30 June 2015: Nil).

Other related parties

John Donohoe, Director of the Company is principal at Carne Global Financial Services Limited. Des Fullam, employed by Carne Global Financial Services Limited is the Money Laundering Reporting Officer ("MLRO") for the Company. Total fees charged by Carne Global Financial Services Limited during the financial period ended 31 December 2015 were €2,500, excluding VAT (30 June 2015: €2,255, excluding VAT).

Related party shareholder transactions

The table below discloses the shares held by related parties at the reporting date:

31 December 2015

Related Party	Related Party Type	Sub-fund	Class	Holdings
Citigroup	Distributor	Equity Balanced-Beta US Fund	EUR Class I	30.00
30 June 2015				
Related Party	Related Party Type	Sub-fund	Class	Holdings
Citigroup	Distributor	Equity Balanced-Beta US Fund	EUR Class I	30.00

14. Distributions

The Directors decide the dividend policy and arrangements relating to each sub-fund and details are set out where applicable in the relevant supplement. Under the Articles, the Directors are entitled to declare dividends out of the relevant sub-fund being: (i) the accumulated revenue (consisting of all revenue accrued including interest and dividends) less expenses of the relevant sub-fund and/or (ii) realised and unrealised capital gains on the disposal/valuation of investments and other funds less realised and unrealised accumulated capital losses of the relevant sub-fund and/or (iii) the capital of the relevant sub-fund. Where dividends will be paid out of the capital of the relevant sub-fund, this will be disclosed in the relevant supplement. There were no dividends declared or paid during the financial period ended 31 December 2015 (30 June 2015: Nil).

15. Soft commission arrangements

There were no soft commission arrangements in place during the period (30 June 2015: Nil).

16. Collateral

All collateral is held in a collateral account with J.P. Morgan Bank (Ireland) plc.

The below table summarises the collateral held by each sub-fund.

As at 31 December 2015

	C	Counterparty Risk	Collateral as a % of Counterparty	Regulatory Collateral

Damulatam

For the financial period ended 31 December 2015

17. Efficient portfolio management

The Company on behalf of a sub-fund may employ techniques and instruments for efficient portfolio management ("EPM") purposes relating to transferable securities and/or other financial instruments in which it invests.

Any over-the-counter ("OTC") derivatives must be with an approved counterparty (being a counterparty with which a UCITS may enter into OTC derivative contracts) and in accordance with the requirements of the Central Bank.

During the year, forward currency transactions were entered into for the purpose of EPM. Details of all open transactions at the reporting date are disclosed in the schedule of investments and note 3.

18. Portfolio movements

The sub-funds invest in derivative swaps and therefore do not make purchases or sales of investments. The 80% Protected Dynamic Allocation Fund may invest in direct investments but during the financial period ended 31 December 2015 no direct investments were made (30 June 2015: Nil).

On this basis a statement of significant portfolio movements has not been presented.

19. Changes to the prospectus

There were no material changes to the prospectus during the period.

20. Significant events during the year

Effective 6 July 2015, Harness Macro Currency Fund fully redeemed and terminated.

21. Events after the reporting date

There were no significant events up to the date of approval of the financial statements to report.

22. Approval of financial statements

The financial statements were authorised for issue by the Board of Directors on 4 February 2016.
