

**Key Investor Information Document:** This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## Baring Eastern Europe Fund - Class I EUR Acc

**ISIN:** (IE00B3L6NY24) a sub fund of Baring Global Umbrella Fund

The Fund is a Unit Trust. Baring International Fund Managers (Ireland) Limited are the Managers of the Fund.

### Objective & Investment Policy

**Objective:** To provide long term capital growth.

**Investment Policy:** To invest in the shares of companies from European emerging market countries or companies where the predominant part of their income and assets are derived from European emerging market countries.

The Fund may invest in other types of financial instruments such as other funds and American and Global depositary receipts (which represent shares of companies and are traded on stock markets around the world). The Fund may also hold cash on deposit.

The Fund may invest in derivatives (such as futures, options and swaps) which are linked to the rise and fall of other assets. The Fund may use these derivatives to provide exposure to markets that are not easily accessible and also to protect against currency movements.

The Fund may invest in emerging European markets (e.g. Armenia, Hungary and Turkey) which are countries whose economies are still developing. There is no limit to the extent of direct investment in Russia.

The fund may also invest outside of emerging markets including developed and frontier markets as well as in fixed income instruments and cash.

**Distribution Policy:** Income is added to the value of the Fund.

**Dealing Frequency:** Normally 12 noon (Irish time) Monday to Friday unless it is an Irish or UK public holiday.

**Minimum recommended holding term:** This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

For full details on the Objective, Investment Policy and the Distribution Policy please refer to the prospectus.

### Risk and Reward Profile

The indicator above is not a measure of the risk of capital loss, but a measure of the Fund's price movement over time, the higher the number the greater the price movement both up and down. It is calculated using simulated historical data and is not a reliable indication of the future risk profile of the Fund. The risk category shown is not guaranteed and may change over time. The lowest category does not mean a risk-free investment. The Fund is classified in the category indicated above due to the nature of its investments which include the risks listed below. There is no capital guarantee. The value of investments and the income from them may go down as well as up and investors may not get back the amount they invest.

- Changes in exchange rates between the currency of the Fund and the currencies in which the assets of the Fund are valued

can have the effect of increasing or decreasing the value of the Fund and any income generated.

- Derivative instruments can make a profit or a loss and there is no guarantee that a financial derivative contract will achieve its intended outcome. The use of derivatives can increase the amount by which the Fund's value rises and falls and could expose the Fund to losses that are significantly greater than the cost of the derivative as a relatively small movement may have a larger impact on derivatives than the underlying assets.
- Emerging markets or less developed countries may face more political, economic or structural challenges than developed countries. Coupled with less developed regulation, this means your money is at greater risk.
- Regional Funds have a narrower focus than those which invest broadly across markets and are therefore considered to be more risky.
- Losses may occur if an organisation through which we buy an asset (such as a bank) fails to meet its obligations.

## Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including marketing and distributing costs. These charges reduce the potential growth of your investment.

---

One-off charges taken before or after you invest.

**Entry charge** None

**Exit charge** None

---

Charges taken from the Fund over a year

**Ongoing charges** 1.00%

---

Charges taken from the Fund under certain specific conditions

**Performance fee** None

The entry and exit charges shown are maximum figures. This is the maximum that might be taken out of your money before it is invested and before proceeds of your investment are paid out, respectively. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charges figure shown here is an estimate of the charges and may vary from year to year. An estimate has been used as it provides a more accurate figure. It excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

The Fund will incur portfolio transaction costs which are paid from the assets of the Fund.

For more information on charges, please refer to the relevant sections of the Prospectus.

## Past Performance

Please note: past performance is not shown until the share class has a full calendar year performance record.
