Baring International Bond Fund - Class I USD Acc

ISIN: (IE00B3BCB137) a sub fund of Baring International Umbrella Fund

The Fund is a Unit Trust. Baring International Fund Managers (Ireland) Limited are the Managers of the Fund.

Objective & Investment Policy

Objective: To provide income and long term capital growth.

Investment Policy: To invest in bonds (which are loans that pay a rate of interest for a set period of time) issued by governments and companies anywhere in the world.

The bonds will mainly be investment grade securities rated "A" grade or better as determined by Standard & Poor's or another international ratings agency, (or the Manager where no agency rating is provided). Bonds are rated to indicate the probability that the issuer will repay the loan. Investment grade bonds are considered to have a lower risk of the issuer not repaying the loan. There are no restrictions on the investment grade of Governments issuing bonds in their own currency.

The Fund may invest in derivatives (such as futures, options and swaps) which are linked to the rise and fall of other assets. The Fund

may use these derivatives to generate additional capital or income for the Fund and also to protect against currency movements.

Distribution Policy: Income is added to the value of the Fund.

Dealing Frequency: Normally 12 noon (Irish time) Monday to Friday unless it is an Irish or UK public holiday.

Minimum recommended holding term: This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

For full details on the Objective, Investment Policy and the Distribution Policy please refer to the prospectus.

Risk and Reward Profile

The indicator above is not a measure of the risk of capital loss, but a measure of the Fund's price movement over time, the higher the number the greater the price movement both up and down. It is calculated using simulated historical data and is not a reliable indication of the future risk profile of the Fund. The risk category shown is not guaranteed and may change over time. The lowest category does not mean a risk-free investment. The Fund is classified in the category indicated above due to past movements in the Fund's price. There is no capital guarantee. The value of investments and the income from them may go down as well as up and investors may not get back the amount they invest.

- Changes in exchange rates between the currency of the Fund and the currencies in which the assets of the Fund are valued can have the effect of increasing or decreasing the value of the Fund and any income generated.

- There is no guarantee that a bond issuer will pay the interest due or repay the loan. Bond values are likely to fall if interest rates rise.
- Where a bond market has a low number of buyers and/or a high number of sellers, it may be harder to sell fund investments at an anticipated price or in a timely manner. This could have a negative impact on the value of your investment. In extreme conditions, this could affect the Fund's ability to meet investors' redemption requests.
- Derivative instruments can make a profit or a loss and there is no guarantee that a financial derivative contract will achieve its intended outcome. The use of derivatives can increase the amount by which the Fund's value rises and falls and could expose the Fund to losses that are significantly greater than the cost of the derivative as a relatively small movement may have a larger impact on derivatives than the underlying assets.
- Losses may occur if an organisation through which we buy an asset (such as a bank) fails to meet its obligations.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including marketing and distributing costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest.

Entry charge None

Exit charge None

Charges taken from the Fund over a year

Ongoing charges 0.75%

Charges taken from the Fund under certain specific conditions

Performance fee None

The entry and exit charges shown are maximum figures. This is the maximum that might be taken out of your money before it is invested and before proceeds of your investment are paid out, respectively. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charges figure shown here is an estimate of the charges and may vary from year to year. An estimate has been used as it provides a more accurate figure. It excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

The Fund will incur portfolio transaction costs which are paid from the assets of the Fund.

For more information on charges, please refer to the relevant sections of the Prospectus.

Past Performance

The graph shows annual performance in USD for the class with a launch date: 28 January 2014

- Past performance is not a guide to future performance and may not be repeated.
- The performance shown is based on the net asset value, after the deduction of all ongoing charges and portfolio transaction costs, with distributable income reinvested.
- The entry charge is excluded from the calculation of past performance.
- The Fund, of which this share class is a constituent, was launched in July 1978.
