

## DB PLATINUM CROCI SECTORS FUND

Share Class: I3C (ISIN: LU0419225759), (WKN: A0RLWP), (Currency: EUR)

a sub fund of DB Platinum. The Fund is managed by Deutsche Asset Management S.A., part of the Deutsche Bank Group.

### Objectives & Investment Policy

The aim of the Fund is to invest in a portfolio of shares issued by large companies in the United States, Europe and Japan, selected using the CROCI Sectors Strategy (Strategy) which selects shares on the basis of an economic valuation using the CROCI (Cash Return On Capital Invested) methodology (CROCI Methodology). The CROCI Methodology and Strategy are developed and licensed by the Deutsche Asset Management (UK) Limited CROCI Investment Strategy and Valuation Group (CROCI Group).

The Strategy identifies the three industry sectors (excluding financial and real estate) with the lowest median CROCI economic price-earnings ratio (CROCI Ratio). The Strategy may exclude shares with low liquidity and which are not covered by the CROCI Group. The Strategy then selects approximately ten companies from each such sector with the lowest positive CROCI Ratios. If fewer than ten shares in a selected sector have a positive CROCI Ratio then that sector will include only those

shares that do have a positive CROCI Ratio and the Portfolio will have fewer than 30 shares.

The CROCI Methodology compares company valuations by making adjustments to company reported financial statements providing the CROCI Ratios used to select the shares with the lowest valuations due to their price potential.

The shares comprising the Strategy are reviewed periodically and weighted equally upon each rebalancing. Two selection buffers are implemented, which prevent the replacement of (i) an existing sector unless its median CROCI Ratio is sufficiently higher than the proposed replacement sector and (ii) an existing share unless its CROCI Ratio is sufficiently higher than that of the proposed replacement share.

To achieve the aim, the Fund will invest in the shares selected by the Strategy in the same proportions as the Strategy.

No dividends will be paid on your shares.

You may redeem your investment on demand on a daily basis.

### Risk and Reward Profile

The risk and reward category is calculated using historical data which may not be a reliable indicator of the Fund's future risk profile.

The risk and reward category may shift over time and is not a target or a guarantee.

The lowest category (i.e. Category 1) does not mean a risk-free investment.

The Fund is in Category 6 because of the high range and frequency of price movements (volatility) of the underlying investments referenced by the Fund.

The following are additional risks not covered by the risk and reward category.

The Fund aims to invest in a portfolio selected on the basis of the Strategy. However, exceptional circumstances may arise, such as, but not limited to, disruptive market conditions, additional costs/taxes or extremely volatile markets, which may cause the Fund's portfolio composition to be different from the portfolio composition of the Strategy resulting in a divergence of performance between the Fund and the Strategy.

Deutsche Asset Management entities and related companies may act in several roles in relation to the Fund such as distributor, management company and CROCI data provider which may involve conflicts of interest.

The Fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up.

The value of an investment in shares will depend on a number of factors including, but not limited to, market and economic conditions, sector, geographical region and political events.

The Strategy is rules-based and is not capable of being adjusted to take into account changing market circumstances. As a result you might not benefit from any such change.

CROCI is a registered trademark of Deutsche Asset Management or its affiliates. The Strategy is used under license from the CROCI Group. Whereas the CROCI Group is responsible for devising the Strategy, it is not responsible for the management of the Fund. The Strategy is provided without any representations or warranties of any kind and the CROCI Group shall not be responsible for any error or omission in the Strategy.

More information in relation to risks in general may be found in the "Risk Factors" section of the prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
