FP Argonaut European Alpha Fund, a sub-fund of FP Argonaut Funds

Class A (GBP) Retail Income (ISIN: GB00B5LJR434)
Class A (GBP) Retail Accumulation (ISIN: GB00B4ZRCD05)
Class A (EUR) Retail Accumulation (ISIN: GB00B6TQCC60)

The Fund is managed by Fund Partners Limited

Objective and investment policy

Objective:

To achieve above average returns and attempt to perform a top quartile profile when measured against competing funds in the same sector.

Policy:

- at least 80% of investment is in shares of companies which are established in Europe and Ireland (but not the UK).
- the Fund can also invest in companies from outside Europe who do substantial business in Europe and are listed on a recognised stock exchange.
- the Fund will hold shares in 30-60 companies.
- the Fund may also invest in other types of shares, bonds (contracts to repay borrowed money with interest at fixed intervals), regulated funds (which are schemes where investors' money is pooled to buy investments), cash and similar cash-like investments, as well as money market instruments (which are a type of security where cash can be deposited for short periods) and other types of investments which are mainly bought or sold on recognised stock exchanges.
- we may lend the Fund's assets to others for a fee and use derivatives (contracts whose value is linked to the expected future price movements of an underlying asset) for efficient portfolio management which should not lead to an increase in risk to the Fund.

Other information:

- we carry out investors' requests, to buy, sell or switch, at midday on each working day (which excludes UK public holidays). If we receive a request after midday, we deal with it on the next working day.
- If you hold income shares, income from your investment is paid out to you twice a year.
- if you hold accumulation shares, income from investments in the Fund will be rolled up into the value of your shares.
- we use derivatives in order to reduce the risks otherwise associated with making investments in currencies other than the Fund's accounting currency (Sterling).
- the Fund has discretion in its choice of investments and, except as detailed in the policy above, is not restricted by the industry or sector it trades in.
- Class A (GBP) Retail Income Shares and Class A (GBP) Retail Accumulation Shares are denominated in Sterling. Class A (EUR) Retail Accumulation Shares are denominated in Euro.

- recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

	Typically lower rewards Lower risk			Typically higher rewards Higher risk		
Class A (GBP) Retail Income Shares	1	2	3	4	5	6
Class A (GBP) Retail Accumulation Shares	1	2	3	4	5	6
Class A (EUR) Retail Accumulation Shares	1	2	3	4	5	6

- this indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- the risk category shown is not guaranteed to remain unchanged and may shift over time.
- the lowest category does not mean 'risk free'.
- the Class A Shares above appear as "6" on the scale. This is partly because the Fund invests in the shares of companies, whose values tend to vary more widely. Additionally, the Class A Shares (depending on their currency denomination) may be affected by currency exchange rates.

The indicator above does not take account of the following risks of investing in the Fund:

- the Fund will hold a limited number of investments which may increase the chance of gains but can lead to more risk than where investments are held more widely.
- there is a risk that a bank or building society could face financial problems, leading to the loss of some or all of any money on deposit.
- there is a risk that third parties that the Fund enters into investment contracts with will fail to meet their obligations and the Fund may suffer a loss.

For full details of the Fund's risks please see Section 5 of the Fund's Prospectus.
