Wells Fargo (Lux) Worldwide Fund - U.S. Premier Growth Fund, a sub-fund of Wells Fargo (Lux) Worldwide Fund Class I (GBP) Shares-acc. (LU0791592552)

Management Company: Wells Fargo Asset Management Luxembourg S.A.

Objectives and Investment Policy

The fund seeks long-term capital appreciation by investing, under normal market conditions, at least 80% of its total assets in equity securities of large and mid-capitalization companies (currently considered to be those with market capitalizations of at least $2 billion at the time of purchase), at least 55% of its total assets in equity securities of large and mid-capitalization U.S. companies, and up to 25% of its total assets in equity securities of non-U.S. issuers through ADRs, CDRs, EDRs, GDRs, IDRs and similar depositary receipts as well as equities denominated in U.S. dollars issued by non-U.S. issuers. U. S. companies are companies with their principal office in the United States or exercising a predominant part of their economic activities in the United States.

The fund may invest in any sector, and at times may emphasize one or more particular sectors. The fund may use futures, forward contracts, options or swap agreements, as well as other derivatives, for hedging or efficient portfolio management purposes.

The fund invests principally in equity securities of U.S. companies that it believes have prospects for robust and sustainable growth of revenues and earnings. The fund uses bottom-up research, emphasizing companies whose management teams have a history of successfully executing their strategy and whose business model has sufficient profit potential.

This share class does not distribute dividends. Income is reinvested in the fund.

You may sell your shares on each business day when banks in Luxembourg are open for normal business and the New York Stock Exchange is open for trading (a "Business Day").

Risk and Reward Profile

This rating system is based on the volatility of the fund's returns over the past 5 years, using returns for an appropriate index for periods before the start of the class. Please note past returns may not be a reliable indicator of the future risk and reward profile of the fund; the rating may change over time based on future returns; and category 1 does not mean a risk-free investment.

Lower Risk < Typically Lower Rewards — **Higher Risk** Typically Higher Rewards >

1	2	3	4	5	**6**	7

The class of the fund is in category 6 because the average amount returns varied each year over the past 5 years was equal to or above 15.0% and less than 25.0%.

The following additional risks may impact the fund's returns:

Derivatives Risk – The fund may incur a loss if the other party to an investment contract, such as a derivative, fails to fulfill its contractual obligation to the fund. The use of derivatives can lead to losses, particularly when they are used to enhance return rather than offset risk.

Smaller Company Securities Risk – Securities of companies with smaller market capitalizations tend to be more volatile and less liquid than larger company stocks.

The fund may not achieve its objective and/or you could lose money on your investment in the fund. For more information about the fund's risks, please see "Investment Objectives and Policies" and "Risk Warnings" in the prospectus, which is available at wellsfargoworldwidefund.com.
