Wells Fargo (Lux) Worldwide Fund - Global Opportunity Bond Fund,

a sub-fund of Wells Fargo (Lux) Worldwide Fund

Class I (GBP) Shares - acc. (hedged) (LU0791594178)

Management Company: Wells Fargo Asset Management Luxembourg S.A.

Objectives and Investment Policy

The fund seeks total return, consisting of a high level of current income and capital appreciation by investing, under normal market conditions, at least 70% of its total assets in debt securities rated investment grade at the time of purchase of government, agency, or corporate issuers worldwide, up to 30% of its total assets in below investment grade government, agency or corporate debt securities from issuers worldwide, which may include emerging markets countries, denominated in U.S. dollars, Euros, Yen, Swiss Francs, or Sterling, and up to 20% of its total assets in asset-backed securities. The fund does not intend to be concentrated geographically. Investment grade securities either have received a rating of investment grade at the time of purchase from a U.S. nationally recognized statistical ratings organization (i.e., Baa or higher by Moody's or BBB or higher by Standard & Poor's) or, if unrated, are deemed to be of comparable quality by the fund.

The below investment grade securities in which the fund invests either have received a rating of below investment grade at the time of purchase from a U.S. nationally recognized statistical ratings organization (i.e., lower than Baa by Moody's or BBB by Standard & Poor's) or, if unrated, are deemed of comparable quality by the fund.

The fund will hedge a minimum of 60% of its currency exposure to the U.S. dollar, and at times, may be 100% hedged to the U.S. dollar. The fund may enter into foreign currency exchange contracts to gain exposure, for hedging purposes or to manage risk, and may purchase a foreign currency on a spot or forward basis in order to benefit from potential appreciation of such currency relative to the U.S. dollar or to other currencies.

The fund uses macro "top-down" quantitative models in conjunction with its investment experience and allied to a "bottom-up" security selection process in order to assess and highlight areas of relative value around the world.

This share class does not distribute dividends. Income is reinvested in the fund. This share class will seek to be 100% hedged to USD, however it may not be possible to always hedge the class 100% against fluctuations of the reference currency.

You may sell your shares on each business day when banks in Luxembourg are open for normal business and the New York Stock Exchange is open for trading (a "Business Day").

The fund is actively managed but uses the Bloomberg Barclays Global Aggregate Bond Index (USD Hedged) for performance comparison. The investments of the fund may deviate significantly from the components of and their respective weightings in the benchmark.

Risk and Reward Profile

This rating system is based on the volatility of the fund's returns over the past 5 years. Please note past returns may not be a reliable indicator of the future risk and reward profile of the fund; the rating may change over time based on future returns; and category 1 does not mean a risk-free investment.

Lower Risk

< Typically Lower Rewards

Higher Risk

Typically Higher Rewards >

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The class is in category 3 because the average amount returns varied each year over the past 5 years was equal to or above 2.0% and less than 5.0%.

The following additional risks may impact the fund's returns:

Counter-Party Risk - The fund may incur a loss if the other party to an investment contract, such as a repurchase or reverse repurchase agreement or certain derivative contracts, fails to fulfill its contractual obligation to the fund.

Custodial and Sub-Custodial Risk - Since the fund may invest in markets where custodian and/or settlement systems are not fully developed, the fund's assets may be exposed to risk in circumstances whereby the custodian will have limited or no liability.

Debt Securities Risk - The issuer of a debt security may fail to pay interest or principal when due, and changes in market interest rates may reduce the value of debt securities or reduce the fund's returns.

Derivatives Risk - The fund may incur a loss if the other party to an investment contract, such as a derivative, fails to fulfill its contractual obligation to the fund. The use of derivatives can lead to losses, particularly when they are used to enhance return rather than offset risk.

Emerging Markets Risk - The risks for investments in non-U.S. securities are greater in emerging markets, which can be more vulnerable to recessions, currency volatility, inflation and market failure.

U.S. Government Obligations Risk - U.S. Government obligations may be adversely impacted by changes in interest rates, and may not be backed by the full faith and credit of the U.S. Government.

The fund may not achieve its objective and/or you could lose money on your investment in the fund. For more information about the fund's risks, please see "Investment Objectives and Policies" and "Risk Warnings" in the prospectus, which is available at wellsfargoworldwidefund.com.

Charges for this Fund

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested.	

Charges taken from the fund over a year	
Ongoing Charges	0.50%
Charges taken from the fund under certain specific conditions	
Performance Fee	None

The **entry** and **exit charges** shown are the highest possible charges you would pay. Please consult your advisor or distributor to find out your actual charges, which might be less. The **ongoing charges** are based on a change to the capped expense ratio that was implemented on 19 September 2018. Ongoing charges may vary from year to year. The **ongoing charges** do not include the portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

For more information about the fund's charges, please see "Fees and Expenses" in the prospectus.

Past Performance

Past performance is not a guide to future performance. Performance calculations are based on the net asset value, include ongoing charges but exclude entry and exit charges, if any, and are calculated in GBP with income reinvested. The base currency of the fund is USD.

Fund launch date: 2012. Share Class launch date: 2012.

The chart shows performance against the Bloomberg Barclays Global Aggregate Bond Index (USD Hedged). The fund does not track the index.
