Share class information (further share classes available at capitalgroup.com/europe)

Class	NAV	Management fee p.a.	TER	Dividend yield	Min. investment	Bloomberg	ISIN	SEDOL

Dividend yield is the income return on the share class and is shown for distributing share classes only. It is calculated over the last 12 months as income earned by the fund after withholding taxes, fees and expenses. Where hedged share classes are listed, for the purpose of currency hedging all assets attributable to them in this fund will be deemed to constitute exposure to USD. The fund will aim to hedge 50% (with reasonable margin of tolerance) of this deemed currency exposure back into the currency referred to in the relevant Class's designation.

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. In addition to the Total Expense Ratio (TER), entry charges may apply according to provisions described in the Prospectus. Data is likely to change over time and does not constitute a commitment from the management company. Past results are not a guarantee of future results.

Total Expense Ratio (TER) is calculated over the last 12 months with a one month lag. TER data is therefore as at 31 December 2019.
