AXA World Funds - Emerging Markets Short Duration Bonds

A Sub-Fund of AXA World Funds SICAV

Share class: AXA World Funds - Emerging Markets Short Duration Bonds A Capitalisation USD (ISIN : LU0800597873)

This Sub-Fund is managed by AXA Funds Management S.A., part of the AXA IM Group

Objective and Investment Policy

Investment Objective

The Sub-Fund's investment objective is to seek performance, in USD, by investing mainly in short duration debt securities issued in the emerging debt universe over a medium term period.

Investment Policy

The Sub-Fund is actively managed in order to capture opportunities in short duration debt securities issued in the emerging debt universe worldwide. The following investment decisions are undertaken after comprehensive macro and microeconomic analysis of the market:

- geographical allocation
- duration positioning (duration measures, in number of years, the portfolio's sensitivity to interest rate variations)
- yield curve positioning (the yield curve illustrates the relationship between investment term and bond yield)
- issuer selection

The Sub-Fund invests in transferable debt securities issued by emerging countries governments, corporations, public or private companies and supranational entities in non-local currency, including investment in warrants. The Sub-Fund may invest up to 100% of its assets in debt securities rated sub-investment grade or unrated (i.e. neither the security itself nor its issuer has a credit rating).*

The Sub-Fund may invest up to 100% in sovereign debt securities but it is not the current intention that the Sub-Fund will invest more than 10% of its assets in sub-investment grade securities issued or guaranteed by any single country (including its government, public or local authority of that country). The Sub-Fund may invest up to 15% of its assets in local currency bonds.*

The selection of credit instruments is not exclusively and mechanically based on their publicly available credit ratings but also on an internal credit or market risk analysis. The decision to buy or sell assets is also based on other analysis criteria of the Investment Manager.*

The Sub-Fund may invest up to one-third of its assets in money market instruments and up to 49% of its assets in anticipation of or during unfavourable market conditions.

The Sub-Fund will not invest in equity and equity related instruments.

The Investment Manager anticipates that the average duration of the Sub-Fund's investments will generally be three years or less.

The Sub-Fund may invest up to 5% of net assets in contingent convertible bonds (CoCos).

Within the limit of 200% of the Sub-Fund's net assets, the investment strategy

may be achieved by direct investments and/or through derivatives, including Credit Default Swaps. Derivatives may also be used for hedging purposes. The use of derivatives for investment purposes is limited to 50% of the Sub-Fund's net assets.

Income

For Capitalisation share classes (Cap), the dividend is reinvested.

Sub-Fund Currency

The reference currency of the Sub-Fund is USD.

Investment Horizon

This Sub-Fund may not be suitable for investors who plan to withdraw their contribution within 3 years.

Processing of subscription and redemption orders

The subscription, conversion or redemption orders must be received by the Registrar and Transfer Agent on any Valuation Day no later than 3 p.m. Luxembourg time. Orders will be processed at the Net Asset Value applicable to the following Valuation Day. The investor's attention is drawn to the existence of potential additional processing time due to the possible involvement of intermediaries such as Financial Advisers or distributors.

The Net Asset Value of this Sub-Fund is calculated on a daily basis.

Risk and Reward Profile

The risk category is calculated using historical performance data and may not be a reliable indicator of the Sub-Fund's future risk profile.

The risk category shown is not guaranteed and may shift over time.

The lowest category does not mean risk free.

Why is this Sub-Fund in this category?

The capital of the Sub-Fund is not guaranteed. The Sub-Fund is invested in financial markets and uses techniques and instruments which are subject to some levels of variation, which may result in gains or losses.

Additional Risks

Counterparty Risk: Risk of bankruptcy, insolvency, or payment or delivery failure of any of the Sub-Fund's counterparties, leading to a payment or delivery default.

Impact of any techniques such as derivatives: Certain management strategies involve specific risks, such as liquidity risk, credit risk, counterparty risk, legal risk, valuation risk, operational risk and risks related to the underlying assets. The use of such strategies may also involve leverage, which may increase the effect of market movements on the Sub-Fund and may result in significant risk of losses.

Geopolitical Risk: investments in securities issued or listed in different countries may imply the application of different standards and regulations. Investments may be affected by movements of foreign exchange rates, changes in laws or restrictions applicable to such investments, changes in exchange control regulations or price volatility.

Liquidity Risk: risk of low liquidity level in certain market conditions that might lead the Sub-Fund to face difficulties valuing, purchasing or selling all/part of its assets and resulting in potential impact on its net asset value.

Credit Risk: Risk that issuers of debt securities held in the Sub-Fund may default on their obligations or have their credit rating downgraded, resulting in a decrease in the Net Asset Value.

Impact of any techniques such as derivatives: Certain management strategies involve specific risks, such as liquidity risk, credit risk, counterparty risk, legal risk, valuation risk, operational risk and risks related to the underlying assets.

The use of such strategies may also involve leverage, which may increase the effect of market movements on the Sub-Fund and may result in significant risk of losses.
