Risk and Reward Profile

Lower risk Higher risk
Potentially lower rewards Potentially higher rewards

- The lowest category does not mean a risk free investment.
- The risk and reward profile may change over time.
- Historical data may not be a reliable indication for the future.
- Repayment of the initial investment is not guaranteed.
- This Fund is in category 4, since the share price has a moderate volatility and therefore the risk of loss as well as the expected reward is generally medium.

The following risks may not be fully captured by the risk and reward indicator:

- The investment in debt instruments bears a credit risk insofar as the issuer

may refuse or be in a position where it is not able to reimburse all or part of the interests or even of the principal due on the debt instruments. This may result in significant or even total losses of the value of the investments in these debt instruments. This risk is higher in case of investment in high yield debt instruments.

- The investment in emerging markets exposes the Fund to risks related to political, regulatory, financial or fiscal instabilities or uncertainties that may negatively affect the value of the investments or even question the ownership title of the Fund. Settlement and delivery systems in these markets may be less well organized which may lead to additional risks (risk of late or cancelled settlement of transactions, losses for the Fund due to the default of the counterparty). Certain emerging markets in which the Fund may invest, may be of small size. This may result in the risk that the investments of the Fund in these markets are more difficult to buy or sell at an adequate price.
- Other risk factors, that an investor shall take into account with regards to his own situation and specific current and future circumstances, may exist.

Additional information concerning the risks of investment in the Fund is indicated in the corresponding section of the prospectus of the Company which is available at the Management Company and on www.lvamfunds.com.
