FUND RATINGS

Source & Copyright: Morningstar and Morningstar OBSR ratings © 2016 Morningstar. All Rights Reserved. Ratings are collected on the first business day of the month.

Performance data covering periods prior to share class launch include synthetic returns calculated using the fund's primary share class, adjusted to reflect the annual management charge of the Sterling W (Acc.) share class. The data assumes that all other charges are consistent. Synthetic results do not represent actual investment returns nor costs and are not a reliable indicator of future performance. Performance data covering the period since share class launch is a record of actual returns achieved.

KEY RISKS ASSOCIATED WITH THIS FUND

- There is no guarantee that the Fund will achieve its objective.
- This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.
- The Fund may use derivatives to reduce costs and/or the overall risk of the Fund (i.e. Efficient Portfolio Management (EPM)). Derivatives involve a level of risk, however, for EPM, they should not increase the overall riskiness of the Fund.
- The Fund may invest in emerging markets. These markets have additional risks due to less developed market practices.
- A fall in the value of a single investment may have a significant impact on the value of the Fund because it typically invests in a limited number of investments.
- The Fund takes its charges from the income of the Fund in the first instance. The impact of Fund charges may be material on the value of any income you receive from your investment. There is potential for capital erosion if insufficient income is generated by the Fund to cover these charges.
- Certain share classes are denominated in a different currency from the base currency (i.e. the reporting currency) of the Fund. Changes in the exchange rate between the share class currency and the base currency may affect the value of your investment.
- A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".

Before subscribing, investors should read the most recent Prospectus, financial reports and KIID for each fund in which they want to invest. Go to www.bnymellonim.com.
