

DB PLATINUM IV CROCI EURO

Share Class: R0C-E (ISIN: LU0871989363), (WKN: A1KBB5), (Currency: EUR)

a sub fund of DB Platinum IV. The Fund is managed by Deutsche Asset Management S.A., part of the Deutsche Bank Group.

Objectives & Investment Policy

The aim of the Fund is to invest in a portfolio of shares issued by large companies in the Eurozone, selected using the CROCI Euro Strategy (Strategy). The Strategy selects shares on the basis of an economic valuation using the Deutsche Asset Management CROCI (Cash Return On Capital Invested) methodology (CROCI Methodology). The CROCI Methodology and Strategy are developed and licensed by the Deutsche Asset Management (UK) Limited CROCI Investment Strategy and Valuation Group (CROCI Group).

The selection universe contains the 100 largest companies by market capitalisation in the Eurozone covered by the CROCI Group, excluding companies from the financial and real estate sectors. The Strategy selects approximately thirty companies with the lowest positive CROCI economic price-earnings ratio (CROCI Ratio) from the selection universe. If fewer than thirty shares have a positive CROCI Ratio then the Strategy will include only those shares that do have a positive CROCI Ratio. The Strategy may exclude from selection shares with low liquidity.

The CROCI Methodology enables the comparison of company valuations across sectors and regions on an equal basis by making certain adjustments to company reported financial statements. This provides the source of the CROCI Ratios used to select the shares with the lowest valuations due to their price potential.

The shares comprising the Strategy are reviewed periodically and weighted equally upon each rebalancing. A selection buffer is implemented, which prevents the replacement of an existing share unless its CROCI Ratio is sufficiently higher than that of the proposed replacement share.

The Strategy operates on a total return basis, re-investing any dividends received in the purchase of additional shares.

The Fund may lend its securities to Deutsche Bank in return for a fee.

To achieve the aim, the Fund will invest in the shares selected by the Strategy in the same proportions as the Strategy.

No dividends will be paid on your shares.

You may redeem your investment on demand on a daily basis.

Risk and Reward Profile

The risk and reward category is calculated using historical data which may not be a reliable indicator of the Fund's future risk profile.

The risk and reward category may shift over time and is not a target or a guarantee.

The lowest category (i.e. Category 1) does not mean a risk-free investment.

The Fund is in Category 6 because of the high range and frequency of price movements (volatility) of the underlying investments referenced by the Fund.

The following are additional risks not covered by the risk and reward category.

The Fund aims to invest in a portfolio selected on the basis of the Strategy. However, exceptional circumstances may arise, such as, but not limited to, disruptive market conditions, additional costs/taxes or extremely volatile markets, which may cause the Fund's portfolio composition to be different from the portfolio composition of the Strategy resulting in a divergence of performance between the Fund and the Strategy.

Deutsche Asset Management entities and related companies may act in several roles in relation to the Fund such as distributor, securities lending agent, management company and CROCI data provider which may involve conflicts of interest.

The Fund may enter into securities lending with a counterparty (initially Deutsche Bank). If the counterparty becomes insolvent this may result in your investment suffering a loss.

The Fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up.

The value of an investment in shares will depend on a number of factors including, but not limited to, market and economic conditions, sector, geographical region and political events.

The Fund is exposed to market movements in a single country or region which may be adversely affected by political or economic developments, government action or natural events that do not affect a fund investing in broader markets.

The Strategy is rules-based and is not capable of being adjusted to take into account changing market circumstances. As a result you might not benefit from any such change.

CROCI is a registered trademark of Deutsche Asset Management or its affiliates. The Strategy is used under license from the CROCI Group. Whereas the CROCI Group is responsible for devising the Strategy, it is not responsible for the management of the Fund. The Strategy is provided without any representations or warranties of any kind and the CROCI Group shall not be responsible for any error or omission in the Strategy. More information in relation to risks in general may be found in the "Risk Factors" section of the prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest		The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser or distributor.
Entry charge	None	
Exit charge	None	
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).		The ongoing charges figure is based on expenses for the year ending October 2017. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any.
Charges taken from the Fund over a year		
Ongoing charges	0.65%	
Charges taken from the Fund under certain specific conditions		More detailed charges information may be found in the "Fees and Expenses" section of the prospectus.
Performance fee	None	

Past Performance

Please be aware that past performance is not a reliable indicator of future results.

The fees for the ongoing Fund charges are included in the calculation of past performance. The entry/exit fees are excluded from the calculation of past performance.

The Fund was launched in 2004 and the share class was launched in 2014.

Past performance has been calculated in EUR.
