## CUMULATIVE PERFORMANCE NET OF FEES (GBP)<sup>2</sup>

Past performance will not necessarily be repeated and is not indicative of future results. Net performance figures reflect the reinvestment of all dividends and earnings, and the deduction of investment management and performance fees, excluding initial charges. In addition, the typical fees and expenses charged to a fund will offset the funds trading profits. The specific fee structure for BlueBay Funds - BlueBay Investment Grade Bond Fund C - GBP is detailed in the Key Investor Information document or the Fund's prospectus.

## INVESTMENT OBJECTIVE

The Fund aims to make a return for you through a mixture of generating income and growing the amount you originally invested. It mainly invests in bonds that pay a fixed interest.

## INVESTMENT POLICY

The Fund targets better returns than its benchmark, the iBoxx Euro Corporates Index. The Fund may invest substantially away from this index if justified by market conditions. At least two-thirds of the Fund's investments will be in fixed income bonds rated investment grade and issued by governments, banks and corporates based in European countries with a sovereign investment grade rating. At least two-thirds of the Fund's investments will be denominated in currencies of European Union countries. Up to one-third of the Fund's assets may be denominated in currencies of non-European countries whose sovereign long term debt rating is investment grade. Up to 15% of the Fund's assets may be invested in fixed income bonds rated below investment grade, provided that such bonds are not rated below B-/B3 or an equivalent rating by a credit rating agency. The Fund may use derivatives (such as futures, options and swaps, which are linked to the rise and fall of other assets) to achieve the investment objective and to reduce risk or manage the Fund more efficiently.

RISK CONSIDERATIONS

- When investing in investment grade debt instruments there may be cases where an organisation (usually a financial institution such as bank) with which we trade assets or derivatives may be unable to fulfil its obligations, which means you may lose some or all of your original investment
- There is also risk that the market for investment grade bonds may dry up, which could make it difficult to sell these bonds, or the Fund may only be able to sell them at a discount
- BlueBay could suffer from a failure of its processes, systems and controls - or from such a failure at an organisation on which we rely in order to deliver our services – which could lead to losses for the Fund
- Where a subscription involves a foreign exchange transaction, changes in rates of exchange may have an adverse effect on the value of investments
