GLOSSARY OF INVESTMENT TERMS

We produce a glossary to assist you in case you find any of the investment terms we've used in this factsheet unfamiliar. This is available from our website <http://www.baring.com/ucm/groups/public/documents/marketingmaterials/021092.pdf> or free on request by calling +44 (0) 333 300 0372.

UNCOMMITTED CASH POLICY

On a daily basis and subject to Fund restrictions / Investment Manager discretion, uncommitted cash may be placed overnight into money market funds (currently funds managed by Northern Trust). These money market funds are reviewed on an ongoing basis and the intention is only to use funds that are rated Aaa/MR1+ by Moody's (or an equivalent rating by another ratings agency). The money is placed in these funds to diversify risk on uncommitted cash. The money market funds are not guaranteed and their value may go down as well as up.

NOTES

¹ Unless otherwise stated, all Fund portfolio figures within this factsheet are as at the end of the month shown at the top of page one. The 'Cash' weight, where applicable, may include cash on deposit, holdings in cash funds, short dated T-Bills (or equivalent), forward FX, income receivable, futures, initial margin and cash backing deposits. The valuation data used to calculate asset allocation and top 10 holdings is based on the last published closing price or last traded price where available, and is without any adjustment for swing pricing considerations. Where the portfolio contains illiquid/unquoted securities these have been valued in accordance with the Barings Pricing Policy. Source: Barings/Northern Trust.

² Performance figures are shown net of fees and charges, in US dollars on a NAV per share basis, with gross income reinvested. Performance for the period 15/12/06 to 16/06/10 is that of the Baring Emerging Income Fund. From 17th June 2010 we have introduced a comparison for risk management and performance measurement purposes. Source: Morningstar/Barings. The information contained herein: (1) is proprietary to Morningstar; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. Past performance is no guarantee of future results.

³ The Ongoing Charges Figure ("OCF") reflects the payments and expenses which cover aspects of operating the fund and is deducted from the assets over the period. It includes fees paid for investment management, trustee/custodian, and administration charges.

⁴ The distribution yield reflects the amount that may be expected to be distributed over the next twelve months. The underlying yield reflects the annualised income that is expected to be received over the next twelve months, net of expenses of the fund calculated in accordance with relevant accounting standards. All yields are calculated as a percentage of the mid-market unit price of the fund and are based on a snapshot of the portfolio on that day. They do not include any preliminary charge and investors may be subject to tax on distributions. The distribution yield is higher than the underlying yield because a portion of the Fund's expenses are charged to capital. This has the effect of increasing the distribution(s) for the year by 1.73% (Class A USD Inc) and 1.66% (Class I USD Inc) and constraining the Fund's capital performance to an equivalent extent. Yields are not guaranteed.

The Fund was previously known as the Baring Emerging Market Income Fund until the 17th June 2010 when the fund converted to the Baring Emerging Markets Debt Local Currency Fund.
