

EDMOND
DE ROTHSCHILD

KEY INVESTOR INFORMATION

This document provides you with key investor information about this UCITS. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this UCITS. You are advised to read it so you can make an informed decision about whether to invest.

EDMOND DE ROTHSCHILD EQUITY EURO CORE

(EdR Equity Euro Core)

Unit: L - ISIN: FR0011401710

UCITS subject to French law

managed by Edmond de Rothschild Asset Management (France), part of the Edmond de Rothschild Group

OBJECTIVES AND INVESTMENT POLICY

Investment objective: The UCITS' investment objective is to seek performance through exposure to equity markets, primarily in the Eurozone, by selecting, on a discretionary basis, securities from an investment scope comparable to the MSCI EMU index.

Benchmark index: MSCI EMU (NR), net dividends reinvested

Investment policy: The UCITS implements an active stock-picking management strategy, selecting listed stocks from an investment scope comprising mainly eurozone securities.

External analysts' reports are used to assist managers in conducting their own research on a reduced number of stocks included in the investment scope. The choice of external analysts is also subject to a selection procedure defined by the management company.

At least 75% of the UCITS' net assets will be exposed to European equities, with a minimum of 65% in eurozone equities. The level of equities outside the eurozone will not exceed 10% of the net assets. The portfolio aims to always meet the eligibility requirements of the PEA (French equity savings plan). Depending on the manager's expectations of developments on the equity markets, and in order to leverage or protect performance, the UCITS may invest in convertible bonds issued by entities in the eurozone, subject to a maximum of 25% of the net assets or, for European bonds issued outside of the eurozone, up to a 10% limit.

These convertible bonds, without restriction in terms of maturity, will be selected from among private, public or assimilated "investment grade" issues, on the basis of their expected yield and correlation with the underlying equities.

Subject to a limit of 100% of the net assets, the UCITS may invest in financial contracts traded on international regulated, organised or over-the-counter markets.

Exposure to currency risk will remain limited to 10% of net assets.

AMF classification: Euro zone equity Euro

Recommended holding period more than 5 years

Frequency of unit buying or selling: Daily, with the exception of public holidays in France and days when the French markets are closed (official calendar of Euronext Paris S.A.), for all orders received by the transfer agent on each NAV calculation day before 12.30 p.m. on that day's net asset value.

Income allocation: Accumulation

Allocation of net realised gains: Accumulation

RISK AND REWARD PROFILE

Lower risk, Higher risk,
potentially lower return potentially higher return

1	2	3	4	5	6	7
---	---	---	---	---	---	---

This rating system is based on the average fluctuations of the net asset value over the past five years, that is the scale of variation of the whole portfolio upwards and downwards. If the net asset value is less than 5 years old, the rating is determined by other regulatory calculation methods. Historic data such as those used to calculate the synthetic indicator may not be a reliable indication of the future risk profile. The current category is neither a guarantee nor an objective. Category 1 does not signify a risk-free investment.

This UCITS is rated in category 6, in line with the type of securities and geographic regions detailed under the heading "Objectives and investment policy", as well as the currency of the unit.

Significant risks not taken into account in this indicator:

Credit risk: risk that the issuer of the debt securities or money market securities may not be able to meet its obligations or that its credit rating may be downgraded. It may also be the result of an issuer defaulting on repayment at maturity.

Liquidity risk: risk linked to the low level of liquidity on the underlying markets, which makes them sensitive to significant purchase/sale trends.

Risk linked to derivatives: the use of derivatives may cause a greater drop in the value of net assets than that of the markets it is invested in.

Counterparty risk: this is the risk that a market participant will default, preventing them from honouring their commitments in respect of your portfolio.

The occurrence of any of these risks may negatively impact the net asset value.

CHARGES

The charges and fees you pay are used to cover the costs of running the UCITS, including the costs of marketing and distributing the units. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	3.00%
Exit charge	0.00%

Charges taken from the fund over a year*

Ongoing charges, L unit	1.05 %
-------------------------	--------

Charges taken from the fund under certain specific conditions

Performance fee** Method: 15% per year of the outperformance compared with the benchmark index, the MSCI EMU (NR) Index	0.00 %
--	--------

This is the maximum that might be taken out of your money before it is invested or paid out. Investors may obtain the actual amount of entry and exit charges from their advisor or distributor. In certain cases you may pay less.

*The figure is based on expenses calculated at the end of December 2017

This figure may vary from year to year. It excludes performance fees and intermediary fees except entry and exit charges paid by the UCITS when buying or selling units and/or shares of other UCIs and investment funds.

** The figure corresponds to the performance fee payable after calculating the last net asset value of the reference period.

More detailed information on charges can be found under the "Charges and fees" heading in the prospectus, including, where applicable, information on performance fees and how they are calculated, and is available from the website www.edram.fr

PAST PERFORMANCE

Past annual performance for Edmond de Rothschild Equity Euro Core L unit in pounds sterling (in %)

Unit creation date: January 2013

Past performance is not an indication of future performance. Performance may vary over time. The indicated performance does not take into account costs and fees on issues and redemptions of units, but does include ongoing charges and intermediary fees as well as any performance fees charged.

Performance calculations are made in British Pounds with net dividends reinvested for the unit and the index.

Performances displayed before 01.06.2010 were achieved under a different investment strategy.

A: Until 18/02/2013, the benchmark index was the MSCI EMU (PI)
B: Since 19/02/2013, the benchmark index has been the MSCI EMU (NR)
