Auditor

PricewaterhouseCoopers, Société coopérative, 2 Rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg, Grand Duchy of Luxembourg.

Information

Establishment

PARVEST (the "Fund", the "Company") is an open-ended investment company (*Société d'Investissement à Capital Variable - SICAV*) incorporated under Luxembourg law on 27 March 1990 for an indefinite period.

The Company is currently governed by the provisions of Part I of the law of 17 December 2010 governing undertakings for collective investment, as amended, as well as by Directive 2009/65 and the provisions of Regulation 2017/1131.

The Articles of Association have been modified at various times, most recently at the Extraordinary General Meeting on 14 January 2019, published in the *Mémorial, Recueil Spécial des Sociétés et Associations* on 23 January 2019. The latest version of the Articles of Association has been filed with the Trade and Companies' Register of Luxembourg, where any interested party may consult it and obtain a copy.

The Company is registered in the Luxembourg Trade and Companies' Register under the number B 33 363.

The minimum capital amounts to EUR 1 250 000. It is at all times equal to the total net assets of the various sub-funds. It is represented by fully paid-up shares issued without a designated par value. The capital varies automatically without the notification and specific recording measures required for increases and decreases in the capital of limited companies.

Listing

The shares of the Company are not listed on a Stock Exchange.

Information to the Shareholders

Net Asset Values and Dividends

Net Assets values are calculated every full bank business day in Luxembourg.

The Company publishes the legally required information in the Grand Duchy of Luxembourg and in all other countries where the shares are publicly offered.

This information is also available on the website: www.bnpparibas-am.com.

Financial Year

The Company's financial year starts on 1 January and ends on 31 December.

Financial Reports

The Company publishes an annual report closed on the last day of the financial year, certified by the auditors, as well as a non-certified, semi-annual interim report closed on the last day of the sixth month of the financial year. The Company is authorised to publish a simplified version of the financial report when required.

The financial reports of each sub-fund are published in the accounting currency of the sub-fund, although the combined accounts of the Company are expressed in euro.

The annual report is made public within four months of the end of the financial year and the interim report within two months of the end of the half-year.

Documents for Consultation

The Articles of Association, the Prospectus, the KIID and periodic reports may be consulted at the Company's registered office and at the establishments responsible for the Company's financial service. Copies of the Articles of Association and the annual and interim reports are available upon request.

Except for the newspaper publications required by Law, the official media to obtain any notice to shareholders will be the website www.bnpparibas-am.com.

Documents and information are also available on the website: www.bnpparibas-am.com.

Parvest Equity World LOW Volatility	21 Juin 2019	Activation of the share class "Classic H CZK - Capitalisation"

Notes to the financial statements at 30/06/2019

Note 2 - Principal accounting methods

a) Net asset value

This semi-annual report is prepared on the basis of the last net asset value as at 28 June 2019.

b) Globalised statements for the various sub-funds

PARVEST's (combined) financial statements are expressed in EUR by converting the financial statements of the sub-funds denominated in currencies other than EUR at the exchange rate prevailing at the end of the financial period.

c) Currency conversion

The accounts of each sub-fund are kept in the currency in which its net asset value is expressed, and the financial statements are expressed in that currency.

The purchase price of securities purchased in a currency other than that of the sub-fund is converted into the currency of the sub-fund on the basis of the exchange rates prevailing on the date of purchase of the securities.

The income and expenses denominated in a currency other than that of the sub-fund are converted into the currency of the sub-fund on the basis of the exchange rates prevailing on the transaction date.

On the closing date, the market values of the securities (determined by the method described below), the claims, bank deposits and debt denominated in a currency other than that of the sub-fund are converted into the currency of the sub-fund on the basis of the exchange rates prevailing on that date, with any exchange differentials resulting from the conversion of the securities, claims, bank deposits and debt being included in the net result for the financial period.

d) Presentation of the financial statements

The financial statements are presented on the basis of the latest net asset value calculated during the financial period. In accordance with the prospectus, the net asset values were calculated using the latest exchange rates known at the time of calculation. The stock market prices and exchange rates are the latest available as at 30 June 2019. This principle has been applied uniformly and consistently for all the sub-funds. By way of information, a certain lead time is required before indicative prices become available for certain illiquid securities, so that for these securities it was impossible for material reasons to use prices as at 30 June 2019 in the last net asset value of the financial period.

However, these net asset values would not have been significantly different from those shown in the semi-annual accounts.

The statement of operations and changes in net assets covers the financial period from 1 January 2019 to 30 June 2019.

e) Valuation of the securities portfolio

The valuation of all securities listed on a stock exchange or any other regulated market, which functions regularly, is recognised and accessible to the public, is based on the last known closing price on the Valuation Day, and, if the securities concerned are traded on several markets, on the basis of the last known closing price on the major market on which they are traded. If the last known closing price is not a true reflection, the valuation shall be based on the probable sale price estimated by the Board of Directors in a prudent and bona fide manner.

The Board of Directors uses this possibility for the valuation of the securities listed on East Asia, South Asia, Southeast Asia and Oceania markets. In these cases, the aforesaid last known closing price is adjusted by using a method monitored by the Management Company to reflect a fair value price of the concerned assets.

Unlisted securities or securities not traded on a stock exchange or another regulated market which functions in a regular manner, is recognised and accessible to the public, shall be valued on the basis of the probable sale price estimated in a prudent and bona fide manner by a qualified professional appointed for this purpose by the Board of Directors.

If permitted by market practice, liquid assets, money market instruments and all other instruments may be valued at their nominal value plus accrued interest or according to the linear amortisation method. Any decision to value the assets in the portfolio using the linear amortisation method must be approved by the Board of Directors, which will record the reasons for such a decision. The Board of Directors will put in place appropriate checks and controls concerning the valuation of the instruments.

Notes to the financial statements at 30/06/2019

The value of shares or units in undertakings for collective investment shall be determined on the basis of the last net asset value available on the Valuation Day. If this price is not a true reflection, the valuation shall be based on the probable sale price estimated by the Board of Directors in a prudent and bona fide manner.

With regards to ETFs, the rule of thumb for valuation is based on the last known closing price, followed by the NAV as secondary source. However, valuation of ETFs issued by BNP Paribas (internal ETF) shall follow the last NAV available as first priority. Some exceptions may exist due to the mismatch between the investment zone and the quotation zone, as well as the low liquidity of some instruments.

f) Valuation of forward foreign exchange contracts

Forward foreign exchange contracts remaining open at the closing date are valued by reference to the forward foreign exchange rate corresponding to the remaining life of the contract. Any unrealised gains and losses are included when determining the result of the transactions.

To calculate the net positions per currency, the positions are converted at the forward exchange rates corresponding to the remaining life of the contract.

g) Valuation of financial instruments

Financial futures are valued at their last-known market price. The other financial instruments are valued at the prices at which the position would be able to be liquidated, depending on the conditions prevailing on the market at the valuation date.

Realised and unrealised profits or losses resulting there from are included in the "Statement of operations and changes in net assets" and in the "Statement of net assets".

To calculate the net positions per currency on financial instruments, the positions are converted at the exchange rate effective on the closing date.

h) Valuation of credit default swaps

The value of a Credit Default Swap shall be determined by comparing the value of the protection swap leg and the value of the premium swap leg. The value of the premium leg is obtained by discounting the future premium flows using the relevant risk-adjusted discount. The value of the protection leg is the present value of the expected loss inherent to the contract. Default probabilities used to compute the expected loss are derived from the structure of par market swap rates. Par market swap rates will be obtained from a cross-section of market counterparties.

i) Valuation of total return swaps and performance swaps

A Total Return Swap (TRS) is a bilateral agreement in which each party agrees to exchange payments based on the performance of an underlying instrument represented by a security, commodity, basket or index thereof for a fixed or variable rate. One party pays out the total return of a specific reference asset, and in return, receives a regular stream of payments. The total performance will include gains and losses on the underlying, as well as any interest or dividends during the contract period according to the type of underlying. The cash flows to be exchanged are calculated by reference to an agreed upon notional amount or quantity.

Total return swaps are marked to market at each NAV calculation date. The unrealised appreciation/(depreciation) is disclosed in the Statement of net assets under "Net Unrealised gain on financial instruments" or "Net Unrealised loss on financial instruments". Realised gains/(losses) and change in unrealised appreciation/(depreciation) as a result thereof are included in the Statement of operations and changes in net assets respectively under "Net realised result on Financial instruments" and "Movement on net unrealised gain/(loss) on Financial instruments".

j) Valuation of options

Options contracts traded over-the-counter are valued at the prices at which the position could be liquidated under the market conditions prevailing at the valuation date. The liquidation value of options contracts traded on regulated markets will be based on the latest available settlement price of these contracts on the regulated markets on which these option contracts are traded by the SICAV; provided that if an options contract cannot be liquidated on the day on which the net assets are valued, the basis that will be used to determine the liquidation value of this contract will be determined fairly and reasonably by the Board of Directors.

Notes to the financial statements at 30/06/2019

k) Valuation of securities lending, reverse repurchase and repurchase agreements

Securities lending attracts remuneration for the sub-fund according to the contracts and is accounted for in the "Statement of operations and changes in net assets" under "Income on investments and assets, net".

Securities that have been lent are shown in the net assets of the sub-fund in question, at their market value.

Securities reverse repurchase (or repurchase) transactions are treated as borrowing (or lending) transactions guaranteed by the underlying securities. They are transactions by which the transferor transfers ownership of securities to another person (the transferee) and by which the transferor irrevocably undertakes to repurchase them and the transferee irrevocably undertakes to retrocede them, at an agreed price and date.

Securities reverse repurchase agreements are valued at their purchase price expressed in the original currency, irrespective of the market value of the underlying securities, the interest accrued pro rata since the purchase date being shown under the heading "Other assets".

Securities repurchase agreements are valued at their market value.

l) Valuation of inflation swaps

Inflation swaps are bilateral agreements which allow investors looking to hedge an investment to secure an inflation-linked return against an inflation index.

The inflation buyer (inflation receiver) pays a predetermined fixed or floating rate (minus a spread). In exchange, the inflation buyer receives from the inflation seller (inflation payer) one or more inflation-linked payments.

The principal risk associated with an inflation swap lies in its sensitivity to interest rates and inflation: the inflation payer takes on the risk of inflation or, in other words, of changes likely to affect the inflation curve. The payer also bears a risk relating to interest rates or, in other words, to changes in the nominal yield curve. In order to value inflation swaps, a "forward zero coupon" swap curve (seasonally adjusted for inflation) is constructed, facilitating the calculation of future inflation cash flows.

m) Valuation of interest rate swaps

Interest rate swaps are valued on the basis of the difference between the value of all future interest payable by the Company to its counterparty on the valuation date at the zero coupon swap rate corresponding to the maturity of these payments and the value of all future interest payable by the counterparty to the Company on the valuation date at the zero coupon swap rate corresponding to the maturity of these payments.

n) Valuation of volatility swaps

The OTC Pricing team is responsible for the daily valuation of Volatility Swaps with the use of Bloomberg's BVAL tool. The valuation model used, in line with market practice, is the Monte Carlo Stochastic Local Volatility model. The valuations produced are checked against those provided daily by the counterparties.

o) Average maturity for floating rate bonds

The maturities disclosed in the security description in the securities portfolio are not the maturities used to calculate the average maturity, the call maturity date is used.

p) Valuation of Contracts for Difference (CFD)

CFDs are valued by reference to the market value of the underlying asset, taking into account the costs inherent in the transaction. Realised profits or losses and the change in unrealised profits or losses are included in the Statement of operations and Changes in Net Assets.

q) Interest

Interest is recognized on a prorata basis after deduction of any withholding taxes that may be applicable. Due to negative interest rates during the financial period, income on bonds can be negative in the caption "Income on investments and assets, net".

Notes to the financial statements at 30/06/2019

r) Comparisons

Concerning the sub-funds that merged during the financial period and that were still open on 30 June 2019, mergers involving absorption of the net assets of the absorbed sub-funds or funds were recorded in the accounts by means of a subscription in the absorbing sub-funds at the merger dates. Consequently, the line "Net subscriptions/(redemptions)" in the "Statement of operations and changes in net assets" includes the net assets of the absorbed sub-funds or funds at the merger dates.

s) Geographic distribution

The geographic distribution of the securities portfolio is based on the issuing country.

t) "To be announced"

The Mortgage Back Securities "To be announced" are subject to current commercial market practices in relation to securities guaranteed by mortgages, according to which a party will buy/sell a basket of mortgage loans for a fixed price at a later date.

At the time of the purchase/sale, the exact security is not known but its principal features are. Even if a price is agreed at the time of purchase/sale, the final face value will not yet have been fixed.

The "To-be-announced ("TBA") Mortgage Back Securities" positions are shown in the securities portfolio as at 30 June 2019.

At the closing date, the purchase/sale of these securities had not yet been settled. As a result, the amounts relating to payables/receivables on securities are included under "Other liabilities"/"Other assets" in the "Statement of net assets".

u) Cross-investments

The value of the cross-investments of the sub-funds has not been deducted for the calculation of the combined total net assets of the Company.

The total value of those cross-investments as at 30 June 2019 amounted to:

Sub-funds investing in other PARVEST sub-funds	Sub-funds held by other PARVEST sub-funds	Currency of the sub-fund investing	Market Value (in EUR)
Bond Asia Ex-Japan	Bond RMB	USD	5 957 737
Bond Best Select World Emerging	Bond RMB	USD	7 024 823
Bond Euro	Flexible Bond Euro	EUR	9 938 425
Bond Euro Corporate	Bond Euro Short Term Corporate	EUR	4 513 386
Bond Euro Corporate	Bond World High Yield Short Duration	EUR	25 837 438
Bond Euro High Yield	Bond World High Yield Short Duration	EUR	10 474 337
Bond World	Bond RMB	EUR	457 719
Bond World Emerging Local	Bond RMB	USD	13 026 947
Diversified Dynamic	Cross Asset Absolute Return	EUR	64 045 756
Enhanced Cash 6 Months	Flexible Bond Euro	EUR	9 148 475
Equity Europe Small Cap	Equity Nordic Small Cap	EUR	13 763 293
Flexible Opportunities	Multi-Asset Income Emerging	EUR	2 945 621
Multi-Asset Income Emerging	Equity Asia Ex - Japan Small Cap	USD	4 013 223
Sustainable Bond Euro	Green Bond	EUR	10 247 000
Sustainable Bond World Corporate	Green Bond	USD	5 123 499
		Total	186 517 679

The net assets at the end of the financial period of combined figures would be EUR 41 631 508 810 without taking into account the cross-investments values.

Notes to the financial statements at 30/06/2019

Note 3 - Management and advisory fees (maximum per annum)

The maximum annual fee payable monthly is calculated on the average net asset value of each share class for each sub-fund over the past month. For certain sub-funds a reduced management fee was charged during the financial year/period. The fee is paid to the Management Company and covers remuneration of the investment managers and also distributors in connection with the marketing of the Company's stock.

The management fees applicable to the "Classic" category are applicable to all share sub-categories and classes with the word "Classic" in their denomination, and to "N" category.

The management fees applicable to the "I" category are also applicable to all share sub-categories and classes with the word "I" in their denomination.

The management fees applicable to the "Privilege" category are also applicable to all share sub-categories and classes with the word "Privilege" in their denomination.

No management fee is charged for the "X" category.

A sub-fund may not invest in a UCITS, or other UCIS, with a management fee exceeding 3.00% per annum.

A maximum advisory fee of 0.15% is applied to all the share classes of the sub-funds Equity High Dividend USA, Equity Japan Small Cap and Equity USA Mid Cap (until 10 June 2019), excepted to the "X" share class.

An indirect fee of maximum 1.00% is applied for the sub-funds Diversified Dynamic, Flexible Multi-Asset (absorbed on 7 June 2019) and Flexible Opportunities (launched on 7 June 2019), Premia Opportunities.

Note 4 - Distribution fees

Distribution fees are calculated and deducted monthly from the average net assets of a sub-fund, share category, or share class, paid to the Management Company and serve to cover remuneration of the distributors, supplemental to the share of the management fee that they receive.

Notes to the financial statements at 30/06/2019

Note 5 - Performance fees: calculation method and summary table

BNP PARIBAS ASSET MANAGEMENT Luxembourg will receive a performance fee if the performance of the sub-fund's share category for the relevant reference period ⁽¹⁾ is:

- first, positive,
- and second, better than the performance of the benchmark index or hurdle rate indicated in the table below, when the High Water Mark (HWM) principle is applied. The High Water Mark will be the last Net Asset Value in the previous financial year for which a performance fee was paid (the reference value). This means that, for sub-funds that calculate a performance fee by comparison with a benchmark index, the performance fee may be paid if the relevant share category outperformed the benchmark index and if the net asset value per share is greater than the reference value, on the understanding that the share category's net asset value may not be at its all-time highest at that particular moment in time.

For sub-funds that calculate a performance fee by comparison with a hurdle rate, this means that the performance fee will only be paid if:

- the relevant share category has outperformed the hurdle rate, and
- the share category's net asset value has reached an all-time high.

For the purposes of the calculation:

- A performance fee will be provisionally allocated to each net asset value that is calculated. The annual fee will correspond to the results obtained by adding the fees thus allocated over the year. The performance fee will be paid at the end of the financial year.
- If shares of the category are redeemed during the period, the fraction of the provisioned performance fee that corresponds to the total amount redeemed for the category will still be charged and paid at the end of the financial period.
- The performance fee for distributing class shares will be adjusted to take into account any dividends paid. In this case, the High Water Mark for distributing class shares will be adjusted at the end of the financial year to reflect dividends paid over the year.
- Benchmark indexes, hurdle rates and performance fee rates may only be modified at the end of a financial year.

Summary table of the sub-funds with Performance fee

The Performance Fee is charged for the following share categories depending on the sub-funds:

Sub-fund	Categories	Annual performance fee rate	Benchmark index	Hurdle rate
Bond Absolute Return V350	I	15%	-	EONIA, Libor or Stibor ^(*)
Bond Absolute Return V700	I	15%	-	EONIA, Libor or Stibor ^(**)
Bond Best Selection World Emerging	I Plus	20%	-	50% JPM GBI-EM Global Diversified (RI) + 50% JPM EMBI Global Diversified (RI)
Cross Asset Absolute Return	All categories	15%	-	EONIA ^(***)
Global Equity Absolute Return Strategy ("GEARS")	All categories except for X	20%	-	Euribor, Libor or Stibor ^(****)
PREMIA Opportunities	All categories	15%	-	EONIA + 2%

(*) 15% with EONIA ("I"), Libor CHF 1M ("I RH CHF") and Stibor 1M SEK ("I RH SEK") as hurdle rate.

(**) 15% with EONIA ("I"), Libor GBP 1M ("I RH GBP"), Libor USD 1M ("I RH USD") and Stibor 1M SEK ("I RH SEK") as hurdle rate.

(***) 15% with EONIA (Libor USD Overnight for the "RH USD" classes) as hurdle rate.

(****) 20% with 1M Libor USD; 1M Libor GBP for RH shares in GBP, Euribor 1 month for RH shares in EUR, 1M SIBOR for RH shares in SGD, 1M ICE LIBOR JPY for RH shares in JPY, and 1M ASX Australian Bank Bill Short Term Rates for RH shares in AUD.

⁽¹⁾ The reference period shall mean the SICAV's financial year, unless the share category's net asset value at the beginning of the financial year is less than the reference value or HWM. In that case, the reference period shall run from the HWM date. When a sub-fund introduces a performance fee mid-year, the first reference year shall run from the day the fee is introduced and shall end at the end of that financial year.

Notes to the financial statements at 30/06/2019

Note 6 - Other fees

Other fees are calculated and deducted monthly from the average net assets of a sub-fund, share category, or share class and serve to cover general custody assets expenses (remuneration of the Depositary) and daily administration expenses (NAV calculation, record and book keeping, notices to the shareholders, providing and printing the documents legally required for the shareholders, domiciliation, auditors cost and fees...), except for brokerage fees, commissions for transactions not related to the depositary, director fees, interest and bank fees, extraordinary expenses, reporting cost in relation with regulation requirements including the European Market Infrastructure Regulation (EMIR), and the “*taxe d’abonnement*” in force in Luxembourg, as well as any other specific foreign tax and other regulators levy.

Note 7 - Taxes

At the date of the Prospectus, the Company is not liable to any Luxembourg income tax or capital gains tax.

The Company is liable to an annual “*taxe d’abonnement*” in Luxembourg representing 0.05% of the net asset value. This rate is reduced to 0.01% for:

- a) sub-funds with the exclusive objective of collective investments in money market instruments and deposits with credit institutions;
- b) sub-funds with the exclusive objective of collective investments in deposits with credit institutions;
- c) sub-funds, categories, or classes reserved for Institutional Investors, Managers, and UCIs.

The following are exempt from this “*taxe d’abonnement*”:

- a) the value of assets represented by units or shares in other UCIs, provided that these units, or shares have already been subject to the “*taxe d’abonnement*”;
- b) sub-funds, share categories and/or classes:
 - (i) whose securities are reserved to Institutional Investors, Managers or UCIs and
 - (ii) whose sole object is the collective investment in money market instruments and the placing of deposits with credit institutions, and
 - (iii) whose weighted residual portfolio maturity does not exceed 90 days, and
 - (iv) that have obtained the highest possible rating from a recognised rating agency;
- c) sub-funds, share categories and/or classes reserved to:
 - (i) institutions for occupational retirement pension or similar investment vehicles, set up at the initiative of one or more employers for the benefit of their employees, and
 - (ii) companies having one or more employers investing funds to provide pension benefits to their employees;
- d) sub-funds whose main objective is investment in microfinance institutions;
- e) sub-funds, shares categories and/or classes:
 - (i) whose securities are listed or traded on at least one stock exchange or another regulated market operating regularly that is recognised and open to the public, and
 - (ii) whose exclusive object is to replicate the performance of one or several indices.

When due, the “*taxe d’abonnement*” is payable quarterly based on the relevant net assets and calculated at the end of the quarter for which it is applicable.

In addition, the Company may be subject to foreign UCI’s tax, and/or other regulators levy in the country where the sub-fund is registered for distribution.

Notes to the financial statements at 30/06/2019

a) Indian Tax

Each sub-fund may be subject to corporation taxes in certain countries in which it invests. Capital gains realised when disposing of Indian securities held by a sub-fund are subject to capital gains tax in India, which is disclosed in the "Statement of operations and changes in net assets" under the heading "Taxes". The tax is computed on net realised gains, and net realised losses in excess of gains at the end of the financial year in India may, under certain conditions, be carried forward for up to 8 subsequent financial years to offset against future gains. In this respect, short term capital losses (i.e. when shares are held for less than 12 months) can be offset either against long term or short term capital gains whereas long term capital losses may only be offset against long term capital gains. Indian tax law imposes a tax of 15% (plus additional surcharge and health and education cess) on net realised gains from Indian securities sold within one year from the date of purchase and a tax of 10% (plus additional surcharge and health and education cess) if the Indian securities are sold more than 12 months after the acquisition. This tax of 10% on long term capital gains realised on Indian securities has been introduced with effect from 1 April 2018.

In 2019, a daily provision has been booked in the accounts of the sub-fund EQUITY INDIA. These provisions are presented in the caption "Other liabilities" of the Statement of net assets.

Note 8 - Dividends

For the "MD - Distribution" share classes, which pay monthly dividends, the following dividends were paid:

- Payment dates

Month	Record Date ⁽¹⁾	NAV ex-Dividend Date ⁽²⁾	Payment Date ⁽³⁾
January	18	21	31 January 2019
February	15	18	28 February 2019
March	19	20	1 April 2019
April	15	16	30 April 2019
May	17	20	31 May 2019
June	19	20	1 July 2019

⁽¹⁾ If this day is not a bank business day in Luxembourg, the record date will be the next following bank business day.

⁽²⁾ Dates are based on a valuation simulation. As a consequence, dates may change depending on the composition of the portfolio at this date. If for a particular reason, the day in question the valuation was not possible, the ex-date would be put off to the valuation day possible immediately afterwards.

⁽³⁾ If this day is not a bank business day in Luxembourg, the payment date will be the next following bank business day. If for a particular reason, the settlement is not possible (e.g. bank holiday on a specific currency or country), settlement will be made the 1st business day after or any other day communicated by the local agent.

Notes to the financial statements at 30/06/2019

Note 9 - Share currencies

The net asset value per share is priced in the currency of the share class and not in the currency of the sub-fund in the section "Key figures relating to the last 3 years".

Note 10 - Exchange rates

The exchange rates used for consolidation and for the conversion of share classes denominated in a currency other than the reference currency of the relevant sub-fund as at 30 June 2019 were the following:

EUR 1 =	AUD 1.62280
EUR 1 =	BRL 4.36460
EUR 1 =	CHF 1.11035
EUR 1 =	CNH 7.82695
EUR 1 =	CZK 25.44400
EUR 1 =	GBP 0.89480
EUR 1 =	HKD 8.89690
EUR 1 =	HUF 322.77500
EUR 1 =	JPY 122.69435
EUR 1 =	NOK 9.70950
EUR 1 =	PLN 4.24680
EUR 1 =	SEK 10.56600
EUR 1 =	SGD 1.54075
EUR 1 =	USD 1.13880
EUR 1 =	ZAR 16.05855

Note 11 - Futures contracts

As at 30 June 2019, the following positions were outstanding:

Note 13 - Swaps

Credit Default Swaps

The Company has entered into credit default swaps agreements whereby it exchanges fixed income for income linked to changes in credit events, whether with respect to an index or a bond (see details in the tables below), and vice versa. These amounts are calculated and recognised at each calculation of the Net Asset Value; the amount of the unrealised capital gain is stated under "Net Unrealised gain on financial instruments" in the Statement of net assets, and the amount of net unrealised capital loss is given under "Net Unrealised loss on financial instruments" in the Statement of net assets.

Interest Rate Swaps

The Company has entered into interest rate swaps agreements whereby it exchanges fixed income (sum of the notional amount and the fixed rate) for variable income (sum of the notional amount and the floating rate) and vice versa. These amounts are calculated and recognised at each calculation of the Net Asset Value; the receivable amount is stated under "Other assets" in the Statement of net assets, while the payable amount is given under "Other liabilities" in the Statement of net assets.

Inflation Swaps

The Company has entered into inflation swaps agreements whereby it exchanges fixed income (sum of the notional amount and the fixed rate) for variable income (sum of the notional amount and the floating rate) and vice versa. These amounts are calculated and recognised at each calculation of the Net Asset Value; the receivable amount is stated under "Other assets" in the Statement of net assets, while the payable amount is given under "Other liabilities" in the Statement of net assets.

Total Return Swaps

A Total Return Swap (TRS) is an agreement to exchange the total performance of a bond or other underlying asset (share, index, etc.) for a benchmark rate plus a spread. The total performance includes the interest coupons, dividends and profits and losses on the underlying asset over the life of the agreement, depending on the type of underlying concerned. The risk in this type of agreement is linked to the fact that the benefit for each counterparty will depend on how the underlying asset performs over time, which is unknown at the time at which the agreement is entered into.

Volatility Swaps

A volatility swap is a forward contract on the future realised volatility of a given underlying asset. These amounts are calculated and recognised at each calculation of the Net Asset Value; the receivable amount is stated under "Other assets" in the Statement of net assets, while the payable amount is given under "Other liabilities" in the Statement of net assets.

Note 14 - Contracts for Difference (CFD)

Contracts for Difference (CFDs) are over-the-counter financial contracts used to gain exposure to fluctuations (positive or negative depending on the direction of the transaction) in financial instruments, baskets of financial instruments or indices without having to own or borrow the underlying financial instruments.

Net unrealised gain/(loss) at 0 are due to CFD Resets which are taking place on a monthly basis. On each reset day, the outstanding positions are closed and reopened at the new reset price (being the close price of the underlying on reset day).

As at 30 June 2019, the following positions were outstanding:

Swaptions

A type of option between two parties that can be exercised on a swap where the buyer of the swap has the right, but not obligation to, receive an agreed upon fixed interest rate. The buyer pays a premium for the right to swap at this fixed rate. Short for a call swap option, a call swaption can be used as a hedging tool to avoid risk if a bond issuer believes interest rates might decrease.

 Royal Bank of Scotland, United Kingdom

Note 16 - Securities lending

As at 30 June 2019, the Company has not concluded securities lending agreement.

Note 17 - Global overview of collateral

In order to limit counterparty risk on forward exchange traded and swap agreements, the SICAV has put a collateralisation process in place.

As at 30 June 2019, the SICAV pledged the following collaterals in favour of forward exchange traded and swap agreement counterparties:

Sub-fund	Currency	OTC collateral	Type of collateral
Bond Absolute Return V350	EUR	20 000	Cash
Bond Absolute Return V700	EUR	430 000	Cash
Bond Asia ex-Japan	USD	1 831 961	Cash

Note 18 - Related party transactions

The related parties may, in their capacity as portfolio managers, also conduct transactions or invest in currencies or other financial products for the account of each sub-fund for which the related parties act as broker or for their own account or as counterparty for their clients, including in the case in which the related parties or their clients have the option of conducting transactions for their own account at the same time as for the account of each sub-fund.

When handling purchases and sales of securities for each sub-fund, the related parties may also have acted as counterparty at the best market conditions.

The Company considers that the commissions, increases and reductions invoiced by the related parties are competitive, although it is in the related parties' interests to receive favorable commission rates, for each sub-fund.

Note 19 - Change in the composition of the securities portfolio

The list of changes to the composition of the securities portfolio during the period is available free of charge at the Management Company's registered office and from local agents.

Notes to the financial statements at 30/06/2019

Notes to the financial statements at 30/06/2019

Note 21 - Transaction fees

Transaction fees incurred by the Fund relating to purchase or sale of transferable securities, money market instruments, derivatives or other eligible assets are mainly composed of standard fees, sundry fees on transaction, stamp fees, brokerage fees, custody fees, VAT, stock exchange fees, RTO fees (Reception and Transmission of Orders) and dilution levy.

In line with bond market practice, a bid-offer spread is applied when buying or selling securities and other financial instruments. Consequently, in any given transaction, there will be a difference between the purchase and sale prices quoted by the broker, which represents the broker's remuneration.

The bid-offer spread is not included in the caption "transaction fees" of the "statement of operations and of changes in net assets".

Note 22 - Tax claims as part of the Aberdeen/Fokus Bank Project

In several European Union member states, community law grants undertakings for collective investments (UCIs) the right to file claims with a view to recovering taxes they have been unjustly forced to pay. When one member state imposes a greater tax burden on a foreign UCI than on a resident UCI, this constitutes discrimination under community law.

This principle was confirmed by the ruling of the Court of Justice of the European Union (CJEU) in the "Aberdeen" case (18 June 2009). This ruling acknowledges that a non-resident UCI can be subject to discriminatory taxation, which constitutes an obstacle to freedom of establishment and/or the free movement of capital. Other CJEU rulings have subsequently confirmed this jurisprudence. Key examples are the rulings in the Santander (10 May 2010) and Emerging Markets (10 April 2014) cases regarding French and Polish tax legislation, respectively.

In light of this jurisprudence and in order to safeguard the right of UCIs to receive tax rebates, the management company has decided to file claims with the tax authorities in several member states whose discriminatory legislation fails to comply with community law. Preliminary studies will be carried out to determine whether or not the claims are viable, i.e. for which funds, in which member states and over what period of time it is necessary to request a rebate.

To date, there is no European legislation establishing a uniform framework for this type of claim. As a result, the time taken to receive a rebate and the complexity of the procedure vary depending on the member state in question. This means that it is necessary to constantly monitor developments in this regard.

Due to the uncertainty of the recoverability of the amounts, no accrual is recorded and it is booked under the caption "Income on investments and assets, net" when received.

Note 23 - Eligibility for the "Plan Epargne en Actions" (PEA)

Owing to their eligibility for French share savings schemes (PEA), the sub-funds of the PARVEST SICAV listed below permanently invest at least 75% of their net assets in shares and rights that are eligible for the PEA and are issued by companies established in France, another Member State of the European Union or in Iceland or Norway and which are subject to corporation tax or an equivalent regime.

Note 24 - Consideration of environmental, social and governance (ESG) criteria

BNP PARIBAS ASSET MANAGEMENT applies a Responsible Investment Policy which sets out a certain number of ESG criteria applicable to our investment decisions. This policy is based on the criteria of the United Nations Global Compact, an international framework built on international conventions relating to human rights, labour, the environment and anti-corruption. This global initiative is supplemented by criteria aimed at controlling investment in certain business sectors, such as nuclear and coal-fired power stations, and prohibiting investment in controversial products, such as anti-personnel mines and cluster bombs. The investment criteria and implementation principles included in our Responsible Investment Policy can be consulted on our website at www.bnpparibas-am.com.

Notes to the financial statements at 30/06/2019

Furthermore, with regard to this UCITS, BNP PARIBAS ASSET MANAGEMENT has applied a Sustainable Responsible Investment (SRI) policy, the principles of which are available on our website at www.bnpparibas-am.com for the following sub-funds:

- Aqua
- Climate Impact
- Equity USA Value DEFI
- Global Environment
- Green Bond
- Green Tigers
- Human Development
- QIS multi Factor Credit Euro IG
- SMaRT Food
- Sustainable Bond Euro

Note 25 - Regulation on transparency of Securities Financing Transactions and Reuse of collateral (SFTR)

This collateral applies to all OTC activity of this fund. There is no way to distinguish it upon type of instrument it is related to.

Data on cost and return

There are no fee sharing arrangements on Total Return Swaps and 100% of the costs/returns generated are recognised in Fund's primary statements.

Note 26 - Money Market Funds

On 14 June 2017, The European Parliament and The Council of the European Union released the Regulation 2017/1131 on money market funds (the "MMF Regulation") with effect as of 20 July 2018.

As at 30 June 2019, the following sub-funds of the SICAV are qualified as short-term variable asset value money market funds and are in the scope of the article 16.4 of the MMF Regulation, but invest less than 10% of their assets in other money market funds:

- Money Market EURO
- Money Market USD

Notes to the financial statements at 30/06/2019
