Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Bank of America Merrill Lynch

Merrill Lynch Investment Solutions – OCH-ZIFF EUROPEAN MULTI-STRATEGY UCITS FUND – EUR Z (acc)

ISIN Code: LU0860709525

a sub-fund of Merrill Lynch Investment Solutions (the "Fund")

Management Company: CM Investment Solutions Limited

Objectives and investment policy

The investment objective of the Fund is to achieve consistent, positive returns.

This is done primarily by seeking to take advantage of pricing inefficiencies in equity and debt securities of European companies, companies that have significant operations in, or derive a significant portion of their revenue from, Europe or are involved in cross-border activities or other significant events with a company domiciled in Europe, through the use of various strategies: (1) Long/Short Equity Special Situations - where the Fund gains exposure to companies involved in extraordinary corporate events; (2) Merger Aribitrage - which involves the purchase and sale of securities of companies involved in corporate reorganizations; (3) Convertible/Derivative Arbitrage - where the Fund will seek gains from pricing differences between equity securities and convertible securities; and (4) Credit - which targets debt related investment opportunities such as bond investments and distressed debt securities in various stages of the economic and credit cycle.

The currency of the Fund is the USD and your shares will be denominated in EUR. Your shares will be hedged with the aim of protecting them from exchange rate fluctuations between their denominated currency and the currency of the Fund.

Your shares are non-distributing (i.e. any income arising from your shares will be included in their value).

You may redeem your shares on demand on any Wednesday that is a Luxembourg, London and United States banking day.

Risk and reward profile

Lower risk — Higher risk

Potentially lower reward — Potentially higher reward

1	2	3	**4**	5	6	7

The risk category has been calculated based upon simulation of the Fund's performance using historical data, which may not be a reliable indicator of the Fund's future risk profile.

The risk category shown is not guaranteed and may change over time.

The lowest category (category 1) does not mean that the investment is risk-free.

The Fund is rated 4 due to the nature of its investments which include the following risks:

- Credit risk – the risk that the issuer of the fixed-income security or related instrument held within the Fund may not pay income or repay capital to the Fund when due. Potential or actual credit rating downgrades may increase the level of perceived risk.
- Derivative risk – the Fund may use derivatives for investment purposes. Derivatives are highly sensitive to changes in the value of the asset on which they are based, which may result in greater fluctuations in the value of the Fund. The impact to the Fund can be greater where derivatives are used in an extensive or complex way.
- Interest rate risk – the risk that the investment's value may change due to uncertain future interest rates.
- Equity risk – the risk that the value of equities and equity-related securities within the Fund may be affected by stock market movements.
- Leverage risk – the Fund may operate with additional leverage. Leverage occurs when the economic exposure created by the use of derivatives is greater than the amount invested. Leverage makes the Fund more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

The following are additional risks which are not captured in the risk category:

- Counterparty risk – the risk that the other party to a transaction with the Fund may fail to fulfil its contractual obligations and may expose the Fund to financial losses.

Your investment is not guaranteed and its value can go down as well as up. For more information about risk, please see the 'Risk Factors' section of the prospectus, which is available at www.invest.baml.com/funds.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	up to 5.00%
Exit charge	None
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	2.01%
Charges taken from the fund under certain specific conditions	
Performance fee	20.00% of New Net Appreciation. Actual performance fee charged last year: 0.00%

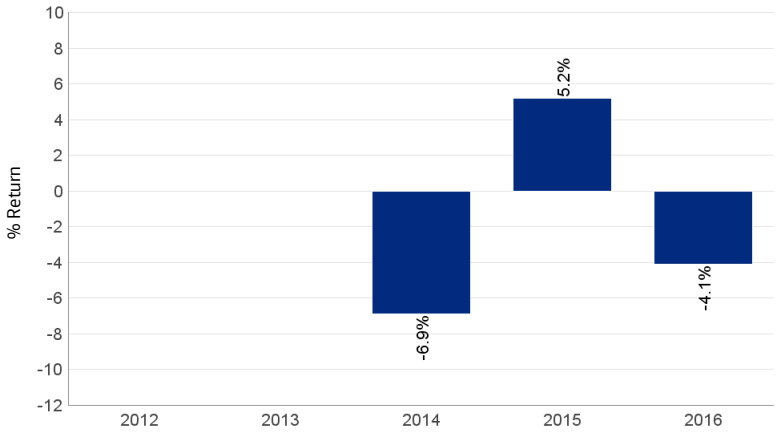

The **entry** and **exit** charges shown are maximum figures. In some cases you might pay less, you can find this out from your financial advisor.

The **ongoing** charges figure is based on expenses for the year ending December 2016, this figure may vary from year to year. It excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another fund.

For more information about charges, please see the "Fees, Compensation and Expenses borne by the Company" section of the prospectus, which is available at www.invest.baml.com/funds.
