Report of the Board of Directors of the Company to the shareholders

For the year ended 31 December 2018

The following pages contain the audited financial report for the year ended 31 December 2018 for the 19 funds that comprise Capital International Fund (CIF).

Global stocks declined on an annual basis for the first time since 2015, pressured by rising interest rates and a decidedly unfriendly global trade environment. Tighter US monetary policy and a brewing trade war involving the US, China and Europe reverberated around the world, threatening to halt one of the longest-running bull markets in history.

Cyclical stocks posted the biggest losses, underscored by double-digit declines in the financials, industrials and materials sectors. Technology stocks fell sharply in the fourth quarter but lost relatively little overall due to strong gains earlier in the year. Traditionally defensive sectors such as health care and utilities fared better.

US equities fared better than most but still declined on an annual total return basis for the first time since 2008. European and Japanese stocks declined precipitously, while emerging markets equities tumbled after two consecutive years of strong gains.

US Treasury bonds rose modestly, boosted by safe-haven buying as volatile financial markets sent investors fleeing for cover. The positive gains, however, masked a more tumultuous year as rising US interest rates jolted markets around the world. Investment-grade and high-yield corporate bonds finished the year in negative territory, as did emerging markets debt.

The Federal Reserve raised interest rates four times during the year, citing a strong US economy, moderate inflation and a tight labour market. In foreign exchange markets, the US dollar rallied against the euro, the British pound and most emerging markets currencies.

In this environment, all but two of the funds under the CIF umbrella in existence as at 1 January 2018 posted negative absolute returns in 2018.¹

Across all asset classes, the funds' portfolio managers are singularly focused on delivering superior, consistent results using high-conviction portfolios, rigorous research and individual accountability.

Significant activity in 2018

- Capital Group Global Corporate Bond Fund (LUX) was launched on 13 February 2018.
- Capital Group Capital Income Builder (LUX) was launched on 21 September 2018, Capital Group Global Absolute Income Grower Fund (LUX) was merged into Capital Group Capital Income Builder (LUX) at launch.

Assets and cash flow

During the year, CIF's combined total net assets increased to €7.8 billion, up from €7.0 billion. This increase was largely the result of market movement and net inflows of €1.2 billion. Changes in the total net assets for each fund are shown in the Historical data table on pages 23 to 30.

The table on pages 13 to 22 gives an overview of the funds' results in their accounting currency. Results in other currencies can be found online on the Management Company's webpage at capitalgroup.com/international.

Risks associated with the UK leaving the EU ("Brexit")

The UK has voted in a referendum to leave the EU, known as Brexit. It is expected that Brexit Day will occur on 29 March 2019, although it is possible that Brexit Day will be delayed or deferred. The political, economic and legal consequences of Brexit are not yet fully known.

The figures stated in this report are historical and not representative of future results.

¹ All returns for the year to 31 December 2018 are stated net of fees in base currency terms. All returns are in share class C – except Capital Group US Corporate Bond Fund (LUX), which uses share class Z.

The Funds have been registered under the UK temporary permissions regime with the UK Financial Conduct Authority to allow the Funds to continue being temporarily marketed in the UK after Brexit Day.

The impact of Brexit on the Funds is difficult to predict but there may be implications for the value of certain of the Funds' investments, or their ability to enter into transactions or to value or realize such investments.

The Funds as well as UK domiciled investors in the Funds may be negatively impacted by changes in law and tax treatment. This will all be dependent on the terms of the UK's exit, which are to be negotiated by the UK and the rest of the EU, and UK law following such an exit.

The Board of Directors has regularly reviewed the preparedness of the Management Company regarding risks for the Funds or their investors resulting from the UK's departure from the EU, including appropriate measures to mitigate the relevant risks.

Thank you for your investment and we look forward to reporting to you again in the semi-annual report at the end of June 2019.

The Board of Directors of the Company

Why do different share classes have different returns?

Each share class is designed to support the needs of different investor types and has a different total expense ratio that affects the investment returns for that share class. For example:

- Class A4, A7, A9, A11, C shares and their equivalent classes, where available, are only available to institutional investors who qualify for the reduced Luxembourg tax of 0.01% (rather than 0.05%).
- Class B, N, T, Z and ZL shares and their equivalent classes, where available, are primarily designed for distribution to individual investors. The management fee for class B, N, T shares and their equivalent classes, where available, is higher than for the other share classes to allow for compensation to distributors and other intermediaries for day-to-day services to investors or similar services in relation to investments made with their assistance.
- The management fee for class C shares and its equivalent classes, where available, is charged to shareholders outside the fund by specific separate agreement. Actual returns to shareholders of class C and its equivalent classes, where available, will be lower than those published.
- In addition, the returns of hedged equivalent classes and dividend distributing hedged equivalent classes are impacted by the passive currency-hedging overlay programme (see note 7 to the financial statements).

¹ Returns are with net dividends reinvested for unhedged share classes. Lifetime returns relate to a period of less than a year and are not annualised.

² Launch date is the date as of which shares are first issued by a fund, and hence the date on which the fund or share was first priced. Prior results back to the launch of the fund relate to the older share classes, adjusted where necessary to reflect the management fee of the recipient share class.

³ Investment results are shown in the currency referred to in the relevant class's designation. Lifetime returns are from launch date to 31 December 2018.

⁴ Shown for indicative purposes only.

⁵ Capital International Fund - Capital Group Global Absolute Income Grower (LUX) merged into Capital International Fund - Capital Group Capital Income Builder (LUX) on 21 September 2018.

⁶ Lifetime returns relate to a period of less than a year and are not annualised.

The accompanying notes form an integral part of these financial statements.

¹ Bank overdraft could be the result of fund accounting cash settlements that do not appear to be duly covered by an available cash balance. The fund is typically sufficiently covered with cash held in the JPMorgan Liquidity Funds and overdraft balances are the consequence of a delay of the accounting records to reflect a net positive cash and cash related holdings as at any given value date.

Notes to the financial statements

As at 31 December 2018

1) Capital International Fund (CIF)

a. Legal structure

CIF is an investment company (the "Company") organised as a Société d'Investissement à Capital Variable (SICAV) in the Grand Duchy of Luxembourg and is established as an Undertaking for Collective Investment in Transferable Securities (UCITS) under Part 1 of the amended law of 17 December 2010. CIF has been converted from a self-managed SICAV into a SICAV managed by a management company, namely Capital International Management Company, Sàrl (the "Management Company"), on 1 February 2013. CIF commenced operations on 30 December 1969.

b. Funds

CIF has adopted a multiple-compartment (or "umbrella") structure. CIF currently comprises the following funds (the "funds"): Capital Group New Perspective Fund (LUX), Capital Group Global Equity Fund (LUX), Capital Group Global Growth and Income Fund (LUX), Capital Group World Dividend Growers (LUX), Capital Group New World Fund (LUX), Capital Group Japan Equity Fund (LUX), Capital Group European Growth and Income Fund (LUX), Capital Group AMCAP Fund (LUX), Capital Group Investment Company of America (LUX), Capital Group Capital Income Builder (LUX) (launched on 21 September 2018), Capital Group Global Allocation Fund (LUX), Capital Group Global Bond Fund (LUX), Capital Group Global Intermediate Bond Fund (LUX), Capital Group Euro Bond Fund (LUX), Capital Group Global Corporate Bond Fund (LUX) (launched on 13 February 2018), Capital Group Euro Corporate Bond Fund (LUX), Capital Group US Corporate Bond Fund (LUX), Capital Group Global High Income Opportunities (LUX) and Capital Group US High Yield Fund (LUX).

On 21 September 2018, Capital Group Global Absolute Income Grower (LUX) was merged into Capital Group Capital Income Builder (LUX).

c. Share classes and currencies

Shares of each fund may be divided into class A4, A7, A9, A11, A13, A15, B, C, N, P, T, Z and ZL shares. In addition, some classes of some funds may be further broken down into equivalent classes.

The funds publish net asset values (NAVs) and offer dealing and reporting in various payment currencies, except hedged equivalent and dividend-distributing hedged equivalent classes for which the funds publish NAVs and offer dealing in the currency referred to in the relevant class's designation only. A detailed list of all active share classes as at 31 December 2018 is disclosed on pages 13 to 22. Furthermore, the list of all active share classes, available payment currencies and other details can be found online on the Management Company's webpage at capitalgroup.com/international.

The accounting currency of the funds, i.e. the currency in which the financial accounts are prepared, which may be different from the base currency, is euro except for CGNPLU, CGGGILU, CGWDGLU, CGNWLU, CGAMCAPLU, CGICALU, CGCIBLU, CGGALU, CGGBLU, CGGIBLU, CGGCBLU, CGUSCBLU, CGGHIOLU and CGUSHYLU which are expressed in US dollars and CGJPELU which is expressed in Yen.

The combined statement of net assets and the combined statement of operations and changes in net assets are the sum of the statement of net assets, the statement of operations and changes in net assets of each fund converted into the Company's accounting currency using an exchange rate as at 31 December 2018.

d. Dividend policy

- Classes A4, A7, A9, A11, A13, A15, B, C, N, P, T, Z, ZL and hedged equivalent classes, where available: it is not at present intended that dividends be distributed to shareholders of these classes in any fund.
- Dividend-distributing equivalent classes and dividend-distributing hedged equivalent classes: the Board of Directors of the Company intends to recommend that dividends be distributed to shareholders of all these classes.

Dividend-distributing equivalent classes and dividend-distributing hedged equivalent classes marked with a “d” or a “dh”

The dividend will generally represent all of the net investment income (i.e., investment income net of withholding taxes less expenses) of such classes. A given class may not actually pay a dividend in any given accounting period if it has no or no significant net investment income.

Dividend-distributing equivalent classes and dividend-distributing hedged equivalent classes marked with a “gd” or a “gdb”

The dividend will generally represent a substantial part of the gross investment income (i.e., investment income net of withholding taxes but gross of expenses) of such classes. A given class may not actually pay a dividend in any given accounting period if it has no or no significant gross investment income.

Dividend-distributing equivalent classes and dividend-distributing hedged equivalent classes marked with an “ad” or an “adh”

The dividend will generally represent all of the net investment income (i.e., investment income net of withholding taxes less expenses) plus all realised foreign exchange gain and/or loss of such classes. A given class may not actually pay a dividend in any given accounting period if it has no or no significant net income.

Dividend-distributing equivalent classes marked with a “fd”

The dividend will generally represent a substantial part of the gross investment income (i.e. investment income net of withholding taxes but gross of expenses) of such classes. The Board of Directors of the Company intends to recommend that dividends be distributed every month to shareholders of such classes. The amount paid out as dividends may exceed that of their net investment income and may include capital gains, as well as partially be paid out of capital.

Details of actual distributions from this year can be found in note 4 to the financial statements.

e. Accounting year

The accounting year of CIF begins on 1 January and terminates on 31 December in each year.

2) Significant accounting policies

a. General

These financial statements are prepared in accordance with Luxembourg laws, regulations and practices relating to investment funds.

b. Valuation of investments

- i. Except as otherwise provided in (v) below, securities which are listed on an official stock exchange or traded on any other regulated market are valued at the last traded or otherwise available price at the time the NAV is calculated on the principal market on which they are traded, as published by such market or furnished by a pricing service approved by the Board of Directors of the Company; and other securities are valued at prices furnished by, or yield equivalents obtained from, one or more dealers or such pricing service.

- ii. Securities issued by UCITS or UCIs will be valued at their last available NAV on the relevant valuation date; they may be valued in accordance with item (i) above where such securities are listed.
- iii. Money market instruments will be valued at nominal value plus any accrued interest or using an amortised cost method, provided that this method of valuation ensures that such assets will be valued at their fair value as determined in good faith pursuant to the procedure established by the Board of Directors of the Company.
- iv. The liquidating value of OTC derivatives shall be determined based on information provided by pricing services approved by the Board of Directors of the Company.
- v. If a price representative of a security's fair value is not readily available from the pricing sources described under (i) through (iv) above, or if the accuracy of a portfolio's valuation, as established pursuant to (i) above, is materially affected by events that occur prior to the NAV being calculated, the relevant security or securities will be valued at the fair value, as determined by or under the direction of the Board of Directors of the Company. Use of such fair valuation procedures is intended to result in more representative NAVs and to eliminate or substantially reduce potential arbitrage opportunities at the expense of shareholders that might otherwise be available to short-term investors.

c. Foreign currencies

Assets and liabilities in currencies other than euros have been translated into euros at the prevailing exchange rates as at 31 December 2018. Transactions during the year in currencies other than euros have been translated at rates prevailing at the time of the transaction. The variation of the net unrealised exchange gains or losses on open forward currency exchange contracts and on other assets and liabilities between 31 December 2017 and 31 December 2018 is disclosed in "net change in unrealised appreciation/(depreciation) on foreign currency transactions". The net realised gains or losses on exchange, including on open forward currency exchange contracts expired during the year, are disclosed in "net realised gain/(loss) on foreign currency transactions".

The principal exchange rate applied as at 31 December 2018 is 1 EUR = 125.579927 YEN and 1 EUR = 1.145749985 USD.

d. Income

Dividends are taken into income on the date upon which the relevant securities are first listed as ex-dividend. Interest income is accrued on a daily basis.

Premiums and discounts on convertible bonds, sinkable bonds, sinkable-callable bonds, index-linked assets, inflation linked assets, dirty priced bonds and unitised bonds are amortised using an effective interest rate (EIR) methodology. Premiums and discounts on all other fixed income securities are amortised on a straight-line basis.

e. Realised gain or loss on sale of investments

The realised gain or loss on sale of equities is determined on the average cost basis and the methodology of calculating gains or losses on disposal of fixed income securities is first-in-first-out (FIFO).

f. Mortgage related securities - To Be Announced securities contracts (TBAs)

TBA contracts are forward contracts on agency mortgage pass-through securities issued by agencies such as Fannie Mae, Freddie Mac and Ginnie Mae. The particular securities (i.e., specified mortgage pools) to be delivered or received are not identified at the trade date, but are "to be announced" on the notification date which is two days before the settlement date. However, securities to be delivered must meet specified criteria, including face value, coupon rate and maturity, and be within industry-accepted "good delivery" standards. TBAs settle once each month based on a calendar published by the Securities Industry and Financial Markets Association.

TBA positions are disclosed in the schedule of investments. The purchase of this type of security has not been settled and as a consequence, the amount corresponding to the payable due when the transaction is settled, is disclosed under "Payable for To Be Announced contracts" in the statement of net assets.

Negative positions in the schedule of investments reflect the fund's sale commitments of TBAs. The amount corresponding to the receivable due when the transaction is settled, is disclosed under "Receivable for To Be Announced contracts" in the statement of net assets.

The realised gain/(loss) on TBAs and changes in unrealised appreciation/(depreciation) are disclosed in the statement of operations and changes in net assets respectively under the headings "Net realised gain/(loss) on sale of investments" and "Net change in unrealised appreciation/(depreciation) on investments".

g. Swing pricing adjustment

A fund may suffer dilution of the net asset value as a result of large subscriptions, redemptions or switches. Such dilution would arise from shareholders buying or selling shares at a net asset value which would not accurately reflect the dealing and other costs incurred when securities are traded to accommodate cash inflows or outflows. In order to counter such dilution impact, the Company adopts a swing pricing mechanism as part of its valuation policy. If on any valuation date, the net aggregate amount of subscriptions or redemptions in shares of a fund exceeds a pre-determined threshold expressed as a percentage of the net asset value of that fund, the net asset value may be adjusted upwards or downwards to reflect the costs attributable to the underlying trade in securities undertaken by the Investment Advisers to accommodate inflows or outflows as the case may be.

Any swing pricing adjustment to such net asset value will be applied systematically and consistently based on predefined factors. The price adjustment may vary from fund to fund and will normally not exceed 2% of the original net asset value. The Company may decide to suspend the application of any swing pricing adjustment to the net asset value of any particular fund or increase this price adjustment limit in exceptional circumstances to protect the interests of shareholders. Such price adjustment is available on the Management Company's webpage at capitalgroup.com/international concomitantly with the publication of the relevant net asset value. The Company, relying on the Management Company and its Conducting Officers' ongoing review, will reassess on a periodic basis the price adjustment factors to reflect an approximation of current dealing and other costs.

As at year end, no swing pricing factor was applied on the Net Asset Value of the Funds.

3) Fees and expenses

a. Management fee

CIF pays the management fee at the annual rates specified below. This fee is used to compensate the Management Company which can in turn use it to compensate the Investment Advisers for their investment advisory services and the distributors and other intermediaries, as applicable, for services to investors or similar services in relation to investments made with their assistance.

c. Related party transactions

Professional services in the statement of operations and changes in net assets include an amount of €1,420,352 charged by the Management Company for administrative services rendered during the year ended 31 December 2018.

d. Reimbursement of expenses

Each share class is designed to support the needs of different investor types and has a different total expense ratio that affects the returns to shareholders. The CIF prospectus, available on the Management Company's webpage at capitalgroup.com/international, explains further the differences between share classes.

The Management Company established a reimbursement threshold so that each fund's total expense ratio (excluding management fee) did not exceed the annual rates specified below:

CGNPLU, CGGELU, CGGGILU, CGNWLU, CGJPELU, CGAMCAPLU, CGEGILU, CGICALU, CGCIBLU, CGGHIOLU, CGUSHYLU

5) Taxation

a. Taxe d'abonnement

In Luxembourg, CIF is subject only to a tax ("taxe d'abonnement") at the annual rate of 0.05% of the total net assets of each share class in each fund. However, as provided by the relevant Luxembourg laws in respect of share classes wholly held by institutional investors, a reduced rate of 0.01% per annum was applied in respect of class A4, A7, A9, A11, C and equivalent share classes, where available, for the year ended 31 December 2018. It should be noted that there can be no guarantee that the benefit of such reduced rate will not be denied or that, once obtained, it will continue to be available in the future. Such tax is accrued daily, payable quarterly and calculated on the total NAV of each share class at the end of the relevant quarter.

b. Foreign taxes

Capital gains and income on securities may be subject to respectively capital gain taxes and withholding taxes. CIF is not expected to recover such taxes in full, but may have the possibility to reclaim a portion of the withholding taxes in accordance with the tax relief provided for in the double tax treaties in place between Luxembourg and some foreign countries.

It is CIF's policy to accrue for withholding taxes and any other significant liability for foreign capital gain taxes.

Under certain circumstances, CIF may file claims with the tax authorities of some foreign countries, when the tax treatment it has been subject to could be considered as contestable or discriminatory. The nature of these claims is complex and subject to each jurisdiction's local procedural rules and case law. In such cases, in view of the uncertainty of success, and in accordance with the accounting principle of prudence applied in Luxembourg, CIF does not accrue for the potential tax refund. When a claim is successful, any withholding tax or capital gain tax reimbursement is only recognised as "other income" or "net realised gain on sale of investments" respectively upon notification of the final judgment.

6) Forward currency exchange contracts

In order to achieve the most appropriate currency distribution, the funds enter into forward currency exchange contracts aiming to reduce the risk of the depreciation in the value of specific currencies. The funds do not intend to systematically hedge currency exposures back to any currency, except in the case of hedged equivalent classes, as described in note 7 to the financial statements.

Forward currency exchange contracts are valued on the basis of forward currency exchange rates prevailing on the relevant reporting date and the resulting net change in unrealised gain or loss is included in the statement of operations and changes in net assets.

7) Hedged equivalent classes¹

The hedged equivalent classes seek to limit the exposure of their shareholders to currencies other than the currency referred to in the relevant class's designation, through a systematic passive currency-hedging overlay performed by J.P. Morgan Chase Bank, N.A. on a significant part of the assets of the relevant fund attributable to these classes.

In the case of a net asset flow to or from such a class or fluctuation in the net asset value of the class, the passive currency-hedging overlay may not, or not immediately, be adjusted, unless the flow or fluctuation is significant. Passive currency-hedging overlay will not completely eliminate the exposure to currency movements, and proxy hedging may, for instance, be used when the underlying currency is not liquid or is closely linked to another currency. Shareholders of hedged equivalent classes should note that returns of hedged equivalent classes may be significantly different over time than those of unhedged classes and that passive currency-hedging overlay may limit their ability to benefit from the currency diversification undertaken within the portfolio (including partially offsetting the currency hedging undertaken at the level of the fund's portfolio).

The cost of passive currency-hedging overlay and gains/losses from hedging transactions are borne by the relevant hedged equivalent class(es).

These classes are marked by a "h" and a reference to the currency being hedged into.

The actual passive currency-hedging overlay methodology varies from fund to fund, as described hereafter.

Capital Group New Perspective Fund (LUX)

CGNPLU hedged share classes aim at hedging with a reasonable margin of tolerance the main currency exposures of the fund back into the currency referred to in the relevant class's designation. It is expected that the resulting effective hedge ratio will typically be in the range of 80% to 100%.

Capital Group New World Fund (LUX)

The Class will aim at hedging 100% (with a reasonable margin of tolerance) of its total net assets, from USD (regardless of the underlying current exposure of the portfolio to USD) into the currency referred to in the relevant class's designation.

¹ In this note, "hedged equivalent classes" include "dividend-distributing hedged equivalent classes" as well.

Capital Group Japan Equity Fund (LUX)

CGJPELU hedged share classes aim at hedging 100% (with a reasonable margin of tolerance) of the main currency exposure of the fund, back into the currency referred to in the relevant class's designation.

Capital Group European Growth and Income Fund (LUX)

CGEGILU hedged share classes aim at hedging 100% (with a reasonable margin of tolerance) of the main currency exposure of the fund back into the currency referred to in the relevant class's designation.

Capital Group AMCAP Fund (LUX)

CGAMCPLU hedged share classes aim at hedging 100% (with a reasonable margin of tolerance) of the main currency exposure of the fund back into the currency referred to in the relevant class's designation.

Capital Group Investment Company of America (LUX)

CGICALU hedged share classes aim at hedging 100% (with a reasonable margin of tolerance) of the main currency exposure of the fund back into the currency referred to in the relevant class's designation.

Capital Group Capital Income Builder (LUX)

CGCIBLU hedged share classes aim at hedging 100% (with a reasonable margin of tolerance) of its total net assets from USD (regardless of the underlying current exposure of the portfolio to USD) into the currency referred to in the relevant Class's designation.

Capital Group Global Allocation Fund (LUX)

CGGALU hedged share classes aim at hedging with a reasonable margin of tolerance the main currency exposure of the fund back into the currency referred to in the relevant class's designation. It is expected that the resulting effective hedge ratio will typically be in the range of 80% to 100%.

Capital Group Global Bond Fund (LUX)

CGGBLU hedged share classes aim at hedging with a reasonable margin of tolerance the main currency exposures of the Fund's investment universe (represented by a relevant representative index) back into the currency referred to in the relevant class's designation. It is expected that the resulting effective hedge ratio will typically be in the range of 80% to 100%.

Capital Group Global Intermediate Bond Fund (LUX)

The Fund will aim at hedging 100% (with a reasonable margin of tolerance) of its total net assets, from USD (regardless of the underlying current exposure of the portfolio to USD) into the currency referred to in the relevant class's designation.

Capital Group Euro Bond Fund (LUX)

CGEBLU hedged share classes aim at hedging with a reasonable margin of tolerance the main currency exposure of the fund back into the currency referred to in the relevant class's designation. It is expected that the resulting effective hedge ratio will typically be in the range of 80% to 100%.

Capital Group Global Corporate Bond Fund (LUX)

CGGCBLU hedged share classes aim at hedging 100% (with a reasonable margin of tolerance) of its total net assets, from USD (regardless of the underlying current exposure of the portfolio to USD) into the currency referred to in the relevant Class's designation.

Capital Group Global High Income Opportunities (LUX)

CGGHIOLU hedged share classes aim at hedging with a reasonable margin of tolerance their total net assets from USD (regardless of the underlying current exposure of the portfolio to USD) into the currency referred to in the relevant class's designation. It is expected that the resulting effective hedge ratio will typically be in the range of 80% to 100%.

Capital Group US High Yield Fund (LUX)

CGUSHYLU hedged share classes aim at hedging 100% (with a reasonable margin of tolerance) of the main currency exposure of the fund back into the currency referred to in the relevant class's designation.

8) Credit Default Swaps contracts

In order to obtain exposure to a diversified portfolio of credits or to hedge against existing credit risks, the funds may invest in credit default swap indices contracts ("CDXs"). A CDX is based on a portfolio of credit default swaps with similar characteristics, such as credit default swaps on high-yield bonds. In a typical CDX transaction, one party – the protection buyer – is obligated to pay the other party – the protection seller – a stream of periodic payments over the term of the contract. If a credit event, such as a default or restructuring, occurs with respect to any of the underlying reference obligations, the protection seller must pay the protection buyer the loss on those credits. The fund may enter into a CDX transaction as either protection buyer or protection seller.

The unrealised gain/(loss) is disclosed in the statement of net assets under "Unrealised gain/(loss) on swap contracts". Realised gain/(loss) and changes in unrealised gain/(loss) as a result thereof are included in the statement of operations and changes in net assets respectively under "Net realised gain/(loss) on swap contracts" and "Net change in unrealised appreciation/depreciation) on swap contracts".

9) Interest Rate Swaps

An interest rate swap is a bilateral agreement in which each party agrees to exchange a series of interest payments for another series of interest payments (usually fixed/floating) based on a notional amount that serves as a computation basis which is usually not exchanged.

Interest rate swaps are marked to market at each NAV calculation date. The market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models. The unrealised gain/(loss) is disclosed in the statement of net assets under "Unrealised gain/(loss) on swap contracts." Realised gain/(loss) and changes in unrealised gain/(loss) as a result thereof are included in the statement of operations and changes in net assets respectively under "Net realised gain/(loss) on swap contracts" and "Net change in unrealised appreciation/depreciation) on swap contracts".

10) Futures contracts

Futures contracts provide for the delayed delivery of the underlying instrument at a fixed price or for a cash amount based on the change in the value of the underlying instruments at a specific date in the future.

Upon entering into futures contract, the sub-fund is required to deposit with the broker, cash or securities in an amount equal to a certain percentage of the contract amount which is referred to as the initial margin account. Subsequent payments, referred to as variation margin, are made or received by the sub-fund periodically and are based on changes in the market value of open futures contracts.

The unrealised gain/(loss) on future contracts is disclosed in the statement of net assets under “Unrealised gain/(loss) on financial futures contracts”. Changes in the market value of open future contracts are recorded as unrealised gain/(loss) in the statement of operations and changes in net assets under “Net change in unrealised appreciation/(depreciation) on financial futures contracts”. Realised gains or losses, representing the difference between the value of the contract at the time it was opened and the value at the time it was closed, are reported at the closing or expiration of futures contracts in the statement of operations and changes in net assets under “Net realised gain/(loss) on financial futures contracts”.

11) Collateral

As at 31 December 2018, the collateral received or paid which is composed of cash and non-cash collateral granted to or received from brokers and counterparties for the purpose of transactions in OTC derivatives is as follows:

	Sub-fund Currency	Counterparty/ Broker	Type of Collateral	Collateral Amount received	Collateral Amount paid
Capital Group Capital Income Builder (LUX)	USD	Citigroup	Bond	–	29,000
Capital Group Global Allocation Fund (LUX)	USD	Citigroup	Bond	–	65,000
Capital Group Global Allocation Fund (LUX)	USD	Goldman Sachs	Bond	–	42,000
Capital Group Global Bond Fund (LUX)	USD	Citigroup	Bond	–	156,000
Capital Group Global Bond Fund (LUX)	USD	Goldman Sachs	Bond	–	334,000
Capital Group Global Intermediate Bond Fund (LUX)	USD	Citigroup	Bond	–	152,482
Capital Group Global Intermediate Bond Fund (LUX)	USD	Goldman Sachs	Bond	–	163,645
Capital Group Euro Bond Fund (LUX)	EUR	Citigroup	Bond	–	10,000
Capital Group Euro Bond Fund (LUX)	EUR	Goldman Sachs	Bond	–	99,000

Capital Group Global High Income Opportunities (LUX)	USD	Goldman Sachs	Cash	–	496,000

12) Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect

Some funds may invest via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect (collectively “Stock Connects”). The Shanghai-Hong Kong Stock Connect is a securities trading and clearing linked program developed by Hong Kong Exchanges and Clearing Limited (“HKEx”), Shanghai Stock Exchange (“SSE”) and China Securities Depository and Clearing Corporation Limited (“ChinaClear”) and the Shenzhen-Hong Kong Stock Connect is a securities trading and clearing linked program developed by HKEx, Shenzhen Stock Exchange (“SZSE”) and ChinaClear, both aiming to achieve mutual stock market access between the People’s Republic of China (“PRC”) and Hong Kong. Hong Kong Securities Clearing Company Limited (HKSCC), a wholly-owned subsidiary of HKEx, and ChinaClear will be responsible for the clearing, settlement and the provision of depository, nominee and other related services of the trades executed by their respective market participants and/or investors.

The Shanghai-Hong Kong Stock Connect comprises a Northbound Shanghai Trading Link and a Southbound Hong Kong Trading Link. Under the Northbound Shanghai Trading Link, Hong Kong and overseas investors, through their Hong Kong brokers and a securities trading service company established by the Hong Kong Stock Exchange (“SEHK”), may be able to trade eligible China A Shares listed on the SSE by routing orders to SSE. Under the Southbound Hong Kong Trading Link under Shanghai-Hong Kong Stock Connect, investors in the PRC will be able to trade certain stocks listed

on the SEHK. Under a joint announcement issued by the SFC and China Securities Regulatory Commission (“CSRC”) on 10 November 2014 the Shanghai-Hong Kong Stock Connect commenced trading on 17 November 2014.

The Shenzhen-Hong Kong Stock Connect comprises a Northbound Shenzhen Trading Link and a Southbound Hong Kong Trading Link. Under the Northbound Shenzhen Trading Link, Hong Kong and overseas investors, through their Hong Kong brokers and a securities trading service company established by SEHK, may be able to trade eligible China A Shares listed on the SZSE by routing orders to SZSE. Under the Southbound Hong Kong Trading Link under Shenzhen-Hong Kong Stock Connect investors in the PRC will be able to trade certain stocks listed on the SEHK. The Shenzhen - Hong Kong Stock Connect was launched in December 2016.

The trading is subject to rules and regulations issued from time to time. Trading under the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are both subject to a daily quota (“Daily Quota”). Northbound Shanghai Trading Link and Southbound Hong Kong Trading Link under the Shanghai-Hong Kong Stock Connect as well as Northbound Shenzhen Trading Link and Southbound Hong Kong Trading Link under the Shenzhen-Hong Kong Stock Connect will be subject to a separate set of Daily Quota. The Daily Quota limits the maximum net buy value of crossboundary trades under the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect each day.

13) China Interbank Bond Market

Some Funds may invest on the China Interbank Bond Market. Market volatility and potential lack of liquidity due to low trading volume of certain debt securities in the China Interbank Bond Market may result in prices of certain debt securities traded on such market fluctuating significantly. The relevant Fund investing in such market is therefore subject to liquidity and volatility risks. The bid and offer spreads of the prices of such securities may be large, and the relevant Fund may therefore incur significant trading and realisation costs and may even suffer losses when selling such investments.

To the extent that a Fund transacts in the China Interbank Bond Market, the Fund may also be exposed to risks associated with settlement procedures and default of counterparties. The counterparty which has entered into a transaction with the Fund may default in its obligation to settle the transaction by delivery of the relevant security or by payment for value. Since the relevant filings and account opening for investment in the China Interbank Bond Market have to be carried out via an onshore settlement agent, the relevant Fund is subject to the risks of default or errors on the part of the onshore settlement agent.

The China Interbank Bond Market is also subject to regulatory risks. The relevant rules and regulations on investment in the China Interbank Bond Market are subject to change which may have potential retrospective effect. In the event that the relevant Chinese authorities suspend account opening or trading on the China Interbank Bond Market, the Funds' ability to invest in the China Interbank Bond Market will be limited and, after exhausting other trading alternatives, the relevant Fund may suffer substantial losses as a result.

Reforms or changes in macro-economic policies, such as the monetary and tax policies might affect interest rates. Consequently, the price and the yield of the bonds held in a portfolio would/could also be affected.

14) Bond Connect

Some Funds may invest via the Bond Connect. Bond Connect is the historic opening up of China's Interbank Bond Market (CIBM) to global investors through the China-Hong Kong mutual access program. The program allows foreign and Mainland China investors the ability to trade in each other's bond market through a connection between the Mainland and Hong Kong based financial infrastructure institutions.

Bond Connect aims to enhance the efficiency and flexibility of investing in the China Interbank Bond Market. This is accomplished by easing the access requirements to enter the market, the use of the Hong Kong trading infrastructure to connect to China Foreign Exchange Trading System (CFETS), removal of the investment quota and Bond Settlement Agent, all which are required to invest in the CIBM directly.

Market volatility and potential lack of liquidity due to low trading volume of certain debt securities in the CIBM may result in prices of certain debt securities traded on such market fluctuating significantly. The relevant Fund investing in such market is therefore subject to liquidity and volatility risks. The bid and offer spreads of the prices of such securities may be large, and the relevant Fund may therefore incur significant trading and realisation costs and may even suffer losses when selling such investments.

15) Transaction costs

For the year ended 31 December 2018, the amounts are as follows:

Capital Group New Perspective Fund (LUX)	US\$2,215,006
Capital Group Global Equity Fund (LUX)	€350,317
Capital Group Global Growth and Income Fund (LUX)	US\$232,408
Capital Group World Dividend Growers (LUX)	US\$189,874
Capital Group New World Fund (LUX)	US\$1,681,254
Capital Group Japan Equity Fund (LUX)	¥12,715,532
Capital Group European Growth and Income Fund (LUX)	€711,910
Capital Group AMCAP Fund (LUX)	US\$16,990
Capital Group Investment Company of America (LUX)	US\$255,567
Capital Group Capital Income Builder (LUX)	US\$20,554
Capital Group Global Absolute Income Grower (LUX)	US\$169,057
Capital Group Global Allocation Fund (LUX)	US\$262,332
Capital Group Global Bond Fund (LUX)	US\$17,289
Capital Group Global Intermediate Bond Fund (LUX)	US\$1,912
Capital Group Euro Bond Fund (LUX)	€3
Capital Group Global Corporate Bond Fund (LUX)	US\$1,222
Capital Group Global High Income Opportunities (LUX)	US\$9,957
	€5,591,521

There are no brokerage fees charged separately for transactions on fixed income instruments. The transaction costs are included in the transaction price, which is known as "marked up". For this reason there is currently no data available to disclose for Capital Group Euro Corporate Bond Fund (LUX), Capital Group US Corporate Bond Fund (LUX) and Capital Group US High Yield Fund (LUX).

16) Calculation method of the risk exposure

The methodology used by all sub-funds in order to calculate the global exposure resulting from the use of financial derivative instruments is the commitment approach in accordance with the CSSF Circular 11/512.

General information

Annual General Meeting

The Annual General Meeting of the shareholders of Capital International Fund (CIF) is held at the registered office of CIF in Luxembourg on the last Tuesday of April in each year at 11:00 am or, if such day is not a Luxembourg business day, on the next business day. Notices of all general meetings are sent to shareholders at their addresses in the register of shareholders by post at least eight days prior to the meeting.

Information available to investors

The Prospectus, Key Investor Information Document (KIID), Articles of Incorporation, audited Annual Report, unaudited Semi-annual Report and a Statement of changes in the investment portfolio for each fund for the year ended 31 December 2018 are made available free of charge at the registered office of CIF or at the authorised representatives of CIF in various jurisdictions in accordance with Luxembourg law and with the laws of all relevant jurisdictions – see Authorised Agents and Country Paying Agents on pages 293 and 294. In addition, for investors in the Federal Republic of Germany, the above documents may be obtained free of charge in paper form from the German paying and information agent.

The net asset value per share can be obtained from the registered office of CIF. In addition, information about the funds is available on the Management Company's webpage at capitalgroup.com/international.

Presentation of results information

■ Pre-merger funds

Some of the funds are a consequence of the merger of pre-existing SICAVs into Capital International Fund in 2002. For these funds, lifetime results relate to the pre-existing SICAVs.

■ The euro

The euro came into being on 1 January 1999. Historical results in euros for Capital Group Global Equity Fund (LUX) and Capital Group Global Bond Fund (LUX) relating to time periods prior to 1 January 1999 are calculated using the ECU composite and are shown for illustrative purposes only.

The Investment Adviser disclosure

The Investment Adviser and Affiliates (the "Affiliates") will place trades with brokers who provide certain brokerage and/or investment research services to the Affiliates, but only when in the Affiliates judgement the broker is capable of providing best execution for that transaction. For the year ended 31 December 2018, there were no transactions through connected brokers and hence no commissions were paid to connected brokers since none of the Affiliates operate any brokerage activity. These services permit the Affiliates to supplement their own research and analysis, which contributes to the efficient management of investment portfolios by Affiliates for the benefit of investors. Although Affiliates may enter into arrangements with brokers with the expectation that these services will be provided, Affiliates do not incur any obligation with any broker to pay for research by generating trading commissions. Affiliates also pay cash for certain third-party research they receive. In addition, Affiliates' employees are governed by a global Code of Ethics, which includes rigorous personal investing and gifts and entertainment policies. Affiliates may also provide the Company with other services to support its business development, including, but not limited to, product development, fund registration and any other similar support as may be required, for which they receive a reasonable compensation.

Audit report

To the Shareholders of
Capital International Fund

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Capital International Fund and of each of its sub-funds (the "Fund" or the "Company") as at 31 December 2018, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund's financial statements comprise:

- the combined statement of net assets as at 31 December 2018;
- the schedule of investments as at 31 December 2018;
- the combined statement of operations and changes in net assets for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Company is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Company for the financial statements

The Board of Directors of the Company is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Company is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Company either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “Réviseur d'entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Company;
- conclude on the appropriateness of the Board of Directors of the Company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation;

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Remuneration related information

The Management Company (“Capital International Management Company”) has implemented a Remuneration Policy that is designed not to encourage taking excessive risks.

The details of the up-to-date Management Company remuneration policy, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits, including the composition of the remuneration committee, are available on the website https://www.capitalgroup.com/eu/remuneration_policy.

A paper copy of the remuneration policy will be made available free of charge upon request.

As per UCITS V Directive as regards depositary functions, remuneration policies and sanctions, it is confirmed that

- the remuneration policy is consistent with and promotes sound and effective risk management and does not encourage risk taking which is inconsistent with the risk profiles, rules or instruments of incorporation of the UCITS that the management company manages;
- the remuneration policy is in line with the business strategy, objectives, values and interests of the Management Company and the UCITS that it manages and of the Shareholders in such UCITS, and includes measures to avoid conflicts of interest;
- the assessment of performance is set in a multi-year framework appropriate to the holding period recommended to the Shareholders of the UCITS managed by the management company in order to ensure that the assessment process is based on the longer-term performance of the UCITS and its investment risks and that the actual payment of performance-based components of remuneration is spread over the same period;
- fixed and variable components of total remuneration are appropriately balanced and the fixed component represents a sufficiently high proportion of the total remuneration to allow the operation of a fully flexible policy on variable remuneration components, including the possibility to pay no variable remuneration component.

The Management Company paid a total of EUR 0.9m to 7 beneficiaries during the period ending 31 December 2018. This figure is comprised of fixed remuneration of EUR 0.6m and variable remuneration of EUR 0.3m*. The total amount paid to senior management was EUR 0.6m and to other members having a material impact on the risk profile of the fund was EUR 0.2m.

The Management Company has contractual delegation arrangements in place with Capital International Sàrl (CISA) and Capital Research and Management Company (CRMC) regarding the accomplishment of portfolio management activities. CISA and CRMC comply with their applicable remuneration regime and apply the same principles as the Management Company.

As remuneration for above mentioned delegations, the Management Company paid EUR 1m to CISA and CRMC which was included in the compensation and benefits of 8 beneficiaries having a material impact on the risk profile of the fund during the period ending 31 December 2018. This figure is comprised of fixed remuneration of EUR 0.8m and variable remuneration of EUR 0.2m*.

Fixed remuneration consists of salaries paid, pension contributions and other benefits such as health insurance. Variable remuneration consists of annual bonuses paid in the period in accordance with remuneration policy. For staff that perform roles for other group companies, only the proportion of remuneration that is attributable to the Management Company or the UCITS funds it manages is included in these amounts.

* Figures may not add up to the total due to rounding
