

The Directors of the Company, whose names appear in the **Management and Administration** section herein, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

THIS IS A CONSOLIDATED PROSPECTUS CONSISTING OF THE PROSPECTUS NOTED BY CENTRAL BANK OF IRELAND ON 29 NOVEMBER 2019 AND ADDITIONAL INFORMATION FOR INVESTORS IN AUSTRIA, DENMARK, GERMANY, HONG KONG, LATIN AMERICAN COUNTRIES, LUXEMBOURG, SAUDI ARABIA, SINGAPORE AND THE UNITED KINGDOM.

THIS CONSOLIDATED PROSPECTUS DATED 07 JANUARY 2020 DOES NOT CONSTITUTE A PROSPECTUS FOR THE PURPOSES OF IRISH APPLICABLE LAW AND IS SOLELY FOR USE IN RELATION TO INVESTORS IN AUSTRIA, DENMARK, GERMANY, HONG KONG, LATIN AMERICAN COUNTRIES, LUXEMBOURG, SAUDI ARABIA, SINGAPORE AND THE UNITED KINGDOM.

Wellington Management Funds (Ireland) plc (the "Company") is an investment company with variable capital and segregated liability between sub-funds (the "Funds") incorporated on 25 June 1997 and is authorised in Ireland as a UCITS pursuant to the Regulations. Such authorisation is not an endorsement or guarantee of the Company or any Fund by the Central Bank, nor is the Central Bank responsible for the contents of this Prospectus.

The authorisation of the Company by the Central Bank shall not constitute a warranty as to the performance of the Company and the Central Bank shall not be liable for the performance or default of the Company.

The value of and income from the Shares in the Company may go up or down and you may not get back the amount you have invested in the Company. Fees and expenses charged to a Fund will also negatively affect that Fund's investment return, and you should refer to the Charges and Expenses section below. Where a subscription and/or redemption charge is provided for the difference at any one time between the preliminary and repurchase price of Shares in the relevant Fund of the Company means that the investment should be viewed as medium to long term. As described in the section entitled Dividend Policy dividends may be paid out of capital, for example where the Directors do not wish them to be paid out of profits or other sources. In this instance the capital of the relevant Fund will be eroded, the dividend is achieved by foregoing the potential for future

capital growth and the cycle may continue until all capital is depleted. Dividends out of capital may have different tax implications to dividends out of income and you should seek advice in this regard. Before investing in the Company, you should consider the risks involved in such investment. Please see relevant Risk Factors below.

If you are in any doubt about the contents of this Prospectus you should consult your Stockbroker, Bank Manager, Solicitor, Accountant or other financial adviser.

Potential subscribers and purchasers of Shares should inform themselves as to (a) the possible tax consequences, (b) the legal requirements, (c) any foreign exchange restrictions or exchange control requirements and (d) any other requisite governmental or other consents or formalities which they might encounter under the laws of the countries of their incorporation, citizenship, residence or domicile and which might be relevant to the subscription, purchase, holding or disposal of Shares.

Any information given or representations made, by any dealer, salesman or other person not contained in this Prospectus, a Key Investor Information Document or in any reports and accounts of the Company forming part hereof must be regarded as unauthorised and accordingly must not be relied upon. Neither the delivery of this Prospectus or a Key Investor Information Document nor the offer, issue or sale of Shares shall under any circumstances constitute a representation that the information contained in this Prospectus is correct as of any time subsequent to the date of this Prospectus. To reflect material changes, this Prospectus may from time to time be updated and intending subscribers should enquire of the Company or the relevant Investment Manager as to the issue of any later Prospectus or as to the issue of any reports and accounts of the Company.

This Prospectus may not be used for the purpose of an offer or solicitation in any jurisdiction or in any circumstances in which such offer or solicitation is unlawful or not authorised. In particular: the Shares have not been registered under the United States Securities Act of 1933 (as amended) and may not, unless otherwise permitted by the Company in its sole discretion, be directly or indirectly offered or sold in the United States or to any United States Person. The Company will not be registered under the United States Investment Company Act of 1940 (as amended).

The Articles of Association of the Company give powers to the Directors to impose restrictions on the holding of Shares by (and consequently to redeem Shares held by), or the transfer of Shares to, United States Persons or by any person who appears to be in breach of the laws or requirements of any country or government authority or by any person or persons in circumstances (whether directly or indirectly affecting such person or persons, and whether taken alone or in conjunction with any other persons, connected or not, or any other circumstances appearing to the Directors to be relevant) which, in the opinion of the Directors, might result in the Company incurring any liability to taxation or suffering any other pecuniary, reputational or regulatory disadvantages which the Company might not otherwise have incurred or suffered including where the Company suspects market timing. The Articles of Association also permit the Directors where necessary to repurchase and cancel Shares held by a person who is or is deemed to be or is acting on behalf of a Taxable Irish Person on the occurrence of a chargeable event for taxation purposes.

THE COMPANY

The Company is an open-ended investment company with variable capital and segregated liability between Funds incorporated with registered number 267944 and is authorised in Ireland as a UCITS pursuant to the Regulations.

The Company is structured as an umbrella fund. Each Class of Shares issued relates to a particular Fund the assets of which will be invested in accordance with the investment objective applicable to such Fund. A separate pool of assets shall not be maintained for each Class of Shares within the same Fund.

The creation of further Share Classes must be notified to, and cleared in advance with the Central Bank. On the introduction of any new Class of Shares, the Company will prepare and the Directors will issue documentation setting out the relevant details of each such Class of Shares.

The names of all Funds approved at the date of this Prospectus are listed in the Global Supplement. The following Funds are currently closed to further investment:

- Wellington Emerging and Sovereign Opportunities Fund
- Wellington Global Strategic Sovereign Fund
- Wellington Hedged Alpha Opportunities Fund
- Wellington Global Infrastructure Equity Fund
- Wellington Global Smaller Companies Equity Fund
- Wellington Opportunistic Themes Fund
- Wellington Multi-Asset Absolute Return Fund
- US Focused Equity Fund

Shares of these Funds are no longer offered to, and are not available for subscription by, new subscribers or existing Shareholders. An application has been or will be made to the Central Bank for withdrawal of approval of these Funds.

Profile of a typical investor

The Wellington Global Currency Absolute Return Fund is suitable for investors seeking an absolute return and investors in these Funds must be able to afford to set aside the invested capital for the medium to long term. All other Funds are suitable for investors seeking long-term total return.

All of the Funds are suitable for investors who are prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time and each Fund is suitable as an investment in a well-diversified portfolio. The Supplement for each Fund contains further information on the investors for whom the Fund is suitable.

INVESTMENT OBJECTIVES AND POLICIES OF THE FUNDS

Details of the investment objective and policies for each Fund of the Company are set forth in the Supplement for that Fund. Any change in the investment objective or a material change in investment policy of a Fund may only be made with the approval on the basis of a majority of votes cast at general meeting of the Shareholders of the relevant Fund. In the event of a change of investment objective or policy of a Fund a reasonable notification period will be provided by that Fund to enable Shareholders to redeem their Shares prior to the implementation of the changes.

Details of the investment restrictions laid down in accordance with the Central Bank's Rulebook are set out in Appendix II. Such restrictions apply to each Fund and apply at the time of purchase or entry into each relevant transaction. The Directors may from time to time impose such further investment restrictions on any Fund as shall be compatible with or in the interests of Shareholders, in order to comply with the laws and regulations of the countries where Shareholders of the Company are located.

Where a Fund utilises financial derivative instruments, further detail in relation to the relevant financial derivatives instrument and the potential effect of such financial derivatives instrument is set out in the section entitled **Types and Description of FDI**s and in the Supplement for that Fund.

Information on other assets that the Funds may invest in can be found in the sections entitled **All Funds** and **Risk Factors** and in the Supplement for each Fund.

From time to time, the Funds which seek exposure to fixed income securities may be exposed to the performance of Transferable Securities and Money Market Instruments issued or guaranteed by an EU Member State, its local authorities, non-EU Member States or public international bodies of which one or more EU Member States are members (an "Issuer"). In such instances, the relevant Fund may have an exposure of in excess of 35% of its Net Asset Value to the Transferable Securities or Money Market Instruments of a single Issuer. In all instances, the diversification requirements applicable to such instruments shall be adhered to.

ALL FUNDS

Benchmark Regulations

The Benchmark Regulations entered into force in June 2016 and became fully applicable in the EU on 1 January 2018 (save that certain provisions, including those related to 'critical benchmarks', took effect as at 30 June 2016), subject to certain transitional provisions. The Benchmark Regulations apply to 'contributors' to, 'administrators' of, and 'users' of benchmarks in the EU. They, among other things, (a) require EU benchmark administrators to be authorised or registered and to comply with requirements relating to the administration of benchmarks, (b) prohibit the use in the EU of benchmarks provided by EU administrators which are not authorised or registered in accordance with the Benchmark Regulations, and (c) prohibit the use in the EU of benchmarks provided by non-EU administrators which are not (i) authorised or registered and subject to supervision in a jurisdiction in respect of which an 'equivalence' decision has been adopted in accordance with the Benchmark Regulations, or (ii) where such equivalence decision is pending, 'recognised' by the competent authorities of the applicable EU Member State(s). An exception to this is that a benchmark provided by a non-EU administrator can itself be endorsed for use in the EU by an EU authorised or registered administrator or an EU-based supervised entity, following authorisation of the endorsement by the relevant competent authority.

As required by the Benchmark Regulations the Company maintains a contingency plan setting out the actions that it would take in the event that a benchmark (as defined by the Benchmark Regulations) materially changes or ceases to be provided.

The Company is required under the Benchmark Regulations to use only benchmarks which are provided by authorised benchmark administrators that are present in the register of administrators maintained by the European Securities and Markets Authority, pursuant to Article 36 of the Benchmark Regulations.

Borrowing and Lending Powers

The Company may borrow up to 10% of a Fund's Net Asset Value at any time for the account of such Fund and may charge the assets of such Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Company to invest in Transferable Securities, the Company may not lend to, or act as guarantor on behalf of, third parties. A Fund may acquire debt securities and securities which are not fully paid.

Cash and Cash Equivalents

Each Fund may also hold cash and cash equivalents for investment purposes or as ancillary liquid assets. Cash equivalents include bank deposits and fixed or floating rate instruments, including but not limited to commercial paper, floating rate notes, certificates of deposit, freely transferable promissory notes, debentures, asset backed securities and government or corporate bonds. All such investments shall generally be of investment grade or, if unrated, be deemed to be of investment grade by the Investment Manager and may be denominated in any currency.

Credit Rating

The Investment Manager will under no circumstances rely exclusively or automatically on external ratings in determining the credit risk of a financial instrument, and in addition the Investment Manager will perform its own credit assessment with respect to each investment.

Hedged Share Class Transactions

A Fund may invest in securities denominated both in its Base Currency and other currencies and may establish Classes in currencies other than the Base Currency of a Fund. Currency may be hedged on an opportunistic basis. Hedged Share Classes may be created for the purpose of (i) effecting currency hedging at the Share Class level or; (ii) hedging the denomination of the assets of a Fund; for other arrangements considered on a case-by-case basis by the Central Bank.

Hedged Share Classes may be created subject to the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time, which, in accordance with the investment style of the Fund, may include hedging (i) the Dealing Currency against the Base Currency of the Fund; (ii) the Dealing Currency against the other currencies in which the assets of the relevant Fund may be denominated (based on either actual exposure or benchmark weights). There can be no assurance that the hedging strategy chosen by the Investment Manager will be successful. Details of the hedging types used are included in the Supplement for each Fund.

Where the Company creates Hedged Share Classes for the purpose of effecting currency hedging at the Share Class level, over-hedged or under-hedged positions may occur due to factors outside the control of the Fund. Over-hedged positions will not exceed 105% of the Net Asset Value of each Hedged Share Class, under-hedged positions will not fall short of 95% of the portion of the Net Asset Value of each Hedged Share Class which is to be hedged and hedged positions will be kept under review to ensure that positions do not exceed permitted levels and to ensure that positions materially in excess of 100% of the Net Asset Value of the relevant Hedged Share Class will not be carried forward from month to month.

To the extent that currency hedging is successful for a particular Hedged Share Class, the performance of the Hedged Share Class is likely to move in line with the performance of the underlying assets.

Other Share Class Transactions

Currency hedging transactions will also be executed at Share Class level for the SC and TC Share Classes. These transactions will hedge the Dealing Currency against the Base Currency as described above. However the objective of these transactions, in combination with the currency derivatives put in place by the Investment Manager within the portfolio itself, is to ensure that the Shareholders in the SC or TC Share Classes, being the non-USD Share classes, have substantially the same currency exposures as the Shareholders in the SB or TB Share Classes respectively, being the USD Share Classes, and therefore receive similar investment returns. The investment returns will differ to the extent of the costs of these currency hedging transactions at Share Class level and also the difference in interest rates between the Dealing Currency and the Base Currency which may have a positive or negative impact on returns.

These Share Class currency hedging transactions will comply with the requirements of the Central Bank (including the limits regarding over-hedging described in the **Hedged Share Class Transactions** section above). The class level transactions will be clearly attributable to the relevant SC or TC Share Class and gains, losses and costs of the relevant transactions will accrue solely to the relevant Share Class. SC or TC Share Classes will only be created where the Investment Manager believes that they will not prejudice the interests of the holders of other Share Classes. Furthermore, the derivative transactions to which the Share Class relates will not result in a leveraged return per Share Class.

There can be no assurance that the above strategy will be successful.

Securities Financing Transactions Regulation

The Company is subject to the provisions of the European Regulation on Reporting and Transparency of Securities Financing Transactions (the "SFTR"). The SFTR sets out certain disclosure requirements regarding the use of securities financing transactions ("SFTs") and total return swaps, as set out below.

The types of SFTs the Funds may use consist of repurchase or reverse-repurchase transactions, and securities lending transactions. The Funds may use these SFTs for efficient portfolio management purpose and may use total return swaps for efficient portfolio management purposes and/or investment purposes in accordance with the Funds' investment objective and policy and within the limits set out in the Supplement for each Fund.

Subject to the limitations referred to in the Supplement for each Fund and in the section titled **Borrowing and Lending Powers**, any assets of a Fund may be the subject of such SFTs and total return swaps. SFTs will only be entered into with counterparties meeting the requirements as set out in the Regulations and other than the requirements of the Regulations, there are no pre-specified restrictions on the legal status, country of origin or minimum credit rating of any counterparty in such transactions. The current maximum and expected proportion of each Fund's assets which may be subject to total return swaps or SFTs, expressed as the gross sum of notionals as a percentage of the Net Asset Value, is set out in the relevant Supplement. None of the Funds currently enter into securities lending transactions.

The types of acceptable collateral received by the Funds in respect of SFTs, total return swaps and other FDIs, as well as the diversification requirements, valuation requirements and limitations on reuse of collateral, are explained below under the heading **Collateral**.

The section of this Prospectus entitled **Risk Factors** provides a description of the risks associated with the use of SFTs, total return swaps and other FDIs.

The treatment of costs related to the SFTs the Funds may use is as set out in the section below titled **Securities Lending and Other Transactions**. In respect of total return swaps, all of the revenues arising from total return swaps, net of direct and indirect financing costs, will be retained by the relevant Fund.

The Company will disclose in its annual report certain information regarding its use of SFTs.

Financial Derivative Instruments (FDIs)

The investment policy of a Fund may state that it can invest “indirectly” in various asset classes. This means that, subject to the specific investment policies and restrictions for a Fund, the Company, on behalf of a Fund, may enter into FDIs transactions to gain exposure to those asset classes and may also hold outright short positions synthetically through the use of FDIs for investment and efficient portfolio management purposes. A Fund may be leveraged through the use of FDIs.

The risk management techniques used by the Investment Manager to assess market risk and to seek to ensure that their use of FDIs is within regulatory limits are set out in the Supplement for each Fund.

Types and Description of FDIs

Below are examples of some of the types of FDIs that the Funds may enter into from time to time:

Options. Subject to the requirements laid down by the Central Bank, each Fund may purchase or sell options contracts (including currency, interest rate, bond, equity, index, inflation, futures, swap options, options on UCITS eligible exchange traded commodities and notes and commodity indices and contingent options, whose payoff depends on the performance of two different assets). A call option on a security is a contract under which the purchaser, in return for a premium paid, has the right to buy the securities underlying the option at the specified exercise price at any time during the term of the option. The writer (seller) of the call option, who receives the premium, has the obligation, upon exercise of the option, to deliver the underlying securities against payment of the exercise price. A put option is a contract that gives the purchaser, in return for a premium paid, the right to sell the underlying securities at the specified exercise price during the term of the option. The writer of the put, who receives the premium, has the obligation to buy the underlying securities, upon exercise, at the exercise price. A swap option is an option to enter into an interest rate swap.

Each Fund may also enter into options traded over-the-counter (or OTC options). Unlike exchange traded options, which are standardised with respect to the underlying instrument, expiration date, contract size, and strike price, the terms of OTC options are generally established through negotiation with the other party to the option contract. While this type of arrangement allows a Fund great flexibility to tailor the option to its needs, OTC options generally involve greater risk than exchange-traded options, which are guaranteed by clearing organisations of the exchanges where they are traded.

Futures. Subject to the requirements laid down by the Central Bank, each Fund may also enter into certain types of futures contracts (including interest rate, index (including credit index), bond and currency futures). The sale of a futures contract creates an obligation by the seller to deliver the type of financial instrument called for in the contract in a specified delivery month for a stated price. The purchase of a futures contract creates an obligation by the purchaser to pay for and take delivery of the type of financial instrument called for in the contract in a specified delivery month, at a stated price. A contract for difference is an arrangement made in a futures contract whereby differences in settlement are made through cash payments, rather than the delivery of physical securities. The purchase or sale of a futures contract differs from the purchase or sale of a security or option in that no price or premium is paid or received. Instead, an amount of cash, U.S. Government Securities or other liquid assets must

be deposited with the broker. This amount is known as initial margin. Subsequent payments to and from the broker, known as variation margin, are made on a daily basis as the price of the underlying futures contract fluctuates making the long and short positions in the futures contract more or less valuable, a process known as “marking to market.” In most cases futures contracts are closed out before the settlement date without the making or taking of delivery. Closing out a futures contract sale is effected by purchasing a futures contract for the same aggregate amount of the specific type of financial instrument or commodity and the same delivery date. If the price of the initial sale of the futures contract exceeds the price of the offsetting purchase, the seller is paid the difference and realises a gain. Conversely, if the price of the offsetting purchase exceeds the price of the initial sale, the seller realises a loss. Similarly, the closing out of a futures contract purchase is effected by the purchaser entering into a futures contract sale. If the offsetting sale price exceeds the purchase price, the purchaser realises a gain, and if the purchase price exceeds the offsetting sale price, a loss will be realised.

Swaps. Subject to the requirements laid down by the Central Bank, each Fund may enter into transactions in swaps or options on swaps (including credit default swaps, interest rate swaps, total return swaps, inflation swaps, currency swaps, equity swaps, swaps on an index, contracts for difference and swaps on UCITS eligible exchange traded commodities and notes and commodities indices). The purchase of a cap entitles the purchaser, to the extent that a specified index exceeds a predetermined value, to receive payments on a notional principal amount from the party selling the cap. The purchase of a floor entitles the purchaser, to the extent that a specified index falls below a predetermined value, to receive payments on a notional principal amount from the party selling the floor. A collar combines elements of buying a cap and selling a floor. A total return swap is a bilateral financial contract, which allows a Fund to enjoy all of the cash flow benefits of an asset without actually owning this asset (the Reference Asset). A Fund will have to pay a periodic fee (fixed or floating payment) in exchange for its right to receive the total return of the Reference Asset (coupons or capital gains or losses). The Reference Asset can be almost any asset, index or basket of assets, which constitute an eligible investment for a Fund.

A Fund may enter into credit default swap agreements. A Fund may be either the buyer or seller in a credit default swap transaction. The “buyer” in a credit default contract is obligated to pay the “seller” a periodic stream of payments over the term of the contract provided that no event of default on an underlying reference obligation has occurred. If a Fund is a buyer and no event of default occurs, the Fund will lose its investment and recover nothing. On the other hand, if the Fund is a buyer and an event of default does occur, the Fund (the buyer) will receive the full notional value of the reference obligation that may have little or no value. Conversely, if the Fund is a seller and an event of default occurs, the Fund (the seller) must pay the buyer the full notional value, or “par value”, of the reference obligation in exchange for the reference obligation. As a seller, a Fund receives a fixed rate of income throughout the term of the contract, which typically is between six months and three years, provided that there is no default event. If an event of default occurs, the seller must pay the buyer the full notional value of the reference obligation. A credit-linked note is a security that is structured by embedding a credit default swap agreement in a funded asset to form an investment that has credit risk and cash flow characteristics resembling a bond or a loan. An inflation swap transfers inflation risk from one party to another through an exchange of cash flows. An interest rate swap involves the exchange by a Fund with another party of their respective commitments to pay or receive cash flows (e.g., an exchange of floating rate payments for fixed-rate payments). A contract for difference (“CFD”) is an arrangement made between two parties to exchange the difference between the opening and closing prices of specified financial instruments. The differences in settlement are made through cash payments, rather than the delivery of physical securities. Purchases of CFDs may be used to gain exposure to a wide range of assets and indices. Leverage is created as the payment of a low margin or premium can provide a Fund with a large exposure relative to its outlay and a small change in the price of the

underlying security can produce a disproportionately larger profit or loss. CFDs are usually traded OTC and carry counterparty risk.

Swap agreements, including caps, floors and collars, can be individually negotiated and structured to include exposure to a variety of different types of investments or market factors. Depending on their structure, swap agreements may increase or decrease the overall volatility of a Fund's investments and its share price and yield because, and to the extent, these agreements affect the Fund's exposure to long- or short-term interest rates, foreign currency values, mortgage-backed securities values, corporate borrowing rates or other factors such as security prices or inflation rates. Swap agreements will tend to shift a Fund's investment exposure from one type of investment to another. For example, if a Fund agrees to exchange payments in US Dollars for payments in the currency of another country, the swap agreement would tend to decrease the Fund's exposure to U.S. interest rates and increase its exposure to the other country's currency and interest rates. Caps and floors have an effect similar to buying or writing options.

Forward Contracts. A forward currency exchange contract or a bond forward, which involves an obligation to purchase or sell a specific currency or bond at a future date at a price set at the time of the contract, reduces a Fund's exposure to changes in the value of the currency or bond it will deliver and increases its exposure to changes in the value of the currency or bond it will receive for the duration of the contract. Such forwards may also be non-deliverable and structured so as to be cash settled, usually on a thinly traded currency or bond or non-convertible currency.

A Fund may enter into these contracts to hedge against exchange risk, to increase exposure to a currency or bond or to shift exposure to currency fluctuations from one currency to another.

Each Fund may buy and sell currencies on a spot and forward basis, subject to the limits and restrictions adopted by the Central Bank from time to time to reduce the risks of adverse changes in exchange rates, as well as to enhance the return of a Fund by gaining an exposure to a particular foreign currency. The effect on the value of a Fund is similar to selling securities denominated in one currency and purchasing securities denominated in another currency. Suitable hedging transactions may not be available in all circumstances and there can be no assurance that a Fund will engage in such transactions at any given time or from time to time. Also, such transactions may not be successful and may eliminate any chance for a Fund to benefit from favourable fluctuations in relevant foreign currencies. A Fund may use one currency (or a basket of currencies) to hedge against adverse changes in the value of another currency (or a basket of currencies) when exchange rates between the two currencies are positively correlated.

Bond forwards are used in the same manner as interest rate futures in markets or where futures contracts are not available or lack suitable liquidity. Bond forwards have the same duration risk as the bond as it is simply a forward settlement of a purchase or sale.

A contract to sell currency or a bond would limit any potential gain, which might be realised if the value of the hedged currency or bond increases.

Forward rate agreements are over the counter contracts used to limit or manage exposure to an interest rate at a future start date for a determined amount and maturity. These contracts carry a single payment based on the difference between the agreed interest rate and the market rate prevailing at that future date.

To-be-Announced Securities. A "to-be-announced" ("TBA") security is structured so that the actual security that will be delivered to fulfil a TBA trade is not designated at the time the trade is made. The

securities are "to be announced" prior to the actual trade settlement date. To that extent they are deemed to have a forward element.

Warrants. A warrant is a contract which gives the contract holder the right, but not the obligation, to exercise a feature of the warrant, such as buying a specified quantity of a particular product, asset or financial instrument, on, or up to and including, a future date (the exercise date). Another feature of a warrant may be to enhance the return of a sovereign debt security according to a specific trigger such as country GDP. The 'writer' (seller) has the obligation to honour the specified feature of the contract. Warrants have similar characteristics to call options, but are typically issued together with preferred stocks or bonds or in connection with corporate actions and are usually of little value. Warrants are longer-dated options and are generally traded over the counter. The commercial purpose of warrants can be to hedge against the movements of a particular market or financial instrument, including futures, or to gain exposure to a particular market or financial instrument instead of using a physical security.

Convertible Securities. These include bonds or other convertible securities that can be converted into a predetermined amount of shares of common stock in the issuing company at certain times during its life, usually at the discretion of the bond holder or on the occurrence of a specific event. A convertible security may be viewed as a security with an embedded option to exchange the security for equity. A Fund may receive convertible securities from time to time through corporate actions.

Structured Notes. In order to gain access to certain markets where direct investment may not be possible, a Fund may invest in securities issued by a financial institution or special purpose entity, the performance of which depends on the performance of a corresponding asset. Typically the redemptions or repayment proceeds from the Structured Notes replicate the underlying asset. However, such Structured Notes may embed a derivative which has the effect of adjusting the proceeds received. As a result, the note's coupon, average life, and/or redemption values can become exposed to the forward movement in various indices, equity prices, foreign exchange rates or mortgage backed security prepayment speeds.

The Company employs a risk-management process which enables it to accurately measure, monitor and manage at any time the risk of each Fund's financial derivatives positions and their contribution to the overall risk profile of the Fund. Market risk and leverage is measured using an advanced risk management method in accordance with the Central Bank's requirements. Counterparty risk exposure to any OTC derivative transactions should not exceed the limits permitted under the Central Bank's Rulebook. Before investing in any financial derivative instruments on behalf of a Fund, the Company must file a risk management process statement with the Central Bank and in accordance with particular requirements of the Central Bank and shall specify, for that purpose, the types of derivative instruments, the underlying risks, the quantitative limits and the methods which are chosen in order to estimate the risks associated with transactions in any derivative instruments applicable to a Fund.

Use of techniques and instruments which relate to Transferable Securities and Money Market Instruments and which are used for the purposes of efficient portfolio management shall be understood as a reference to techniques and instruments which fulfil the following criteria:

- (i) they are economically appropriate in that they are realised in a cost effective way;
- (ii) they are entered into for one or more of the following specific aims:
 - (i) the reduction of risk;
 - (ii) the reduction of cost; or

- (iii) the generation of additional capital or income for the Fund with a level of risk which is consistent with the risk profile of the Fund and the risk diversification rules set out in the Central Bank's Rulebook.
- (iii) their risks are adequately captured in the risk management process; or
- (iv) they cannot result in a change to the Fund's declared investment objective or add substantial supplementary risks in comparison to the general risk policy as described in its sales documents.

The Company will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments.

FDIs used for efficient portfolio management must also comply with the Central Bank's Rulebook. Any FDIs not included in the risk management process will not be utilised by a Fund until such time as a revision of the risk management process is provided to the Central Bank for review.

Global Depository Notes. A global depository note is a debt instrument issued by a depository bank, which gives the holder beneficial ownership of a specific underlying local security but which trades, settles, and pays interest and principal in US dollars. Global depository notes expand the universe of emerging market debt securities available to investors wishing to invest in emerging market debt instruments where such local currency debt instruments may be unavailable to offshore investors. Global depository notes may be settled via Euroclear, Clearstream or DTC.

Leverage

Funds using a value at risk ("VaR") approach to calculate their global exposure also disclose the expected range of their levels of leverage. This range is an indicative range and not a regulatory limit. A Fund's level of leverage may exceed the top end of the range from time to time as long as the Fund remains within its risk profile and complies with the applicable VaR limit. The actual level of leverage over the previous financial year for any Fund is disclosed in the annual report of the Funds.

Leverage is a measure of FDIs usage and the reinvestment of collateral in relation to efficient portfolio management transactions. It is calculated as the sum of notionals of all FDIs contracts entered into by the Fund expressed as a percentage of the Fund's Net Asset Value and any additional leverage generated by the reinvestment of collateral in relation to efficient portfolio management transactions.

The leverage calculation methodology neither distinguishes between FDIs used for investment or hedging purposes such that strategies aiming to reduce risk will contribute to an increased level of leverage for the Fund; nor does the methodology allow netting of FDIs positions such that FDIs roll-overs and combinations of long-short positions contribute to a significant increase in the level of leverage even though they do not increase or only cause a moderate increase in risk to the Fund; and nor does the methodology take into account the underlying assets' volatility or draw a distinction between long-dated and short-dated assets such that a Fund that has a high level of leverage may not necessarily be riskier than a Fund that has a lower level of leverage. The Supplement for each Fund provides for a maximum figure in respect of such leverage. That maximum figure includes 300% percentage for Share Class related hedging. Whilst these percentage amounts are included at a Fund level such higher rates of leverage will generally only concern holders of currency Hedged Share Classes, as well as investors in the SC and TC Share Classes.

Master Limited Partnerships

A Fund may invest in Master Limited Partnerships that are eligible for investment by the Fund. Master Limited Partnerships are limited partnerships that will be listed/traded on the exchanges and markets listed in Appendix I to the Prospectus. As a result they offer the day to day tradability of common stock. They engage in certain businesses, mostly pertaining to the use of natural resources, such as petroleum and natural gas extraction and transportation. They combine the tax advantages of a partnership and higher dividend yields with the day to day tradability of common stock. The limited partners are responsible for paying taxes on their individual portfolios of the Partnership's income (even if the Partnership does not pay a cash distribution), gains, losses and deductions. They issue distributions that will form part of the Net Asset Value of the Fund. These may be classified as a return of the capital of the Partnership which may have the effect of reducing the value of Fund's investment in the Partnership. They consist of a general partner who manages the operations and limited partners who own the units of the Partnership and contribute capital to the Partnership.

Investment in Other Investment Funds

Each Fund may invest in investment funds managed or sponsored by the Investment Managers or their affiliates, which meet the conditions laid down by the Central Bank, and which have investment objectives consistent with the relevant Fund's investment objective, provided, where a Fund invests in other investment funds managed or sponsored by the Investment Managers or its affiliates, that there is no duplication of investment management fees due to such investments.

Private Placements

Each Fund may hold private placements of freely Transferable Securities and restricted or unregistered freely Transferable Securities, the liquidity of which is deemed by the relevant Investment Manager to be appropriate.

Transferable Securities and Money Market Instruments

Transferable securities and money market instruments in which a Fund will invest will (save for permitted unlisted investments) be either admitted to official listing on a stock exchange or dealt on a market listed in Appendix I.

Cluster Munitions

Ireland ratified the Oslo Treaty on Cluster Bombs through the Cluster Munitions and Anti-Personnel Mines Act (the "Act") of 3 December 2008. The Act does not cover private investments but expressly prohibits direct and indirect investment of public moneys in companies in the manufacture of prohibited munitions or the components thereof. Accordingly the Company prohibits the investment by the Company in such companies.

Securities Lending and Other Transactions

The Directors reserve the right to enter into collateralised securities lending transactions on behalf of the Funds from time to time which will be carried out in accordance with and subject to the condition and with the limit laid down by the Central Bank from time to time. SFTs and dollar roll transactions are permitted subject to the conditions and within the limits set out in the Central Bank's Rulebook. These may only be used for efficient portfolio management purposes.

The Company may deduct direct and indirect operational costs and fees incurred in the use of these techniques from the revenue delivered to the relevant Fund from the use of such techniques. These costs and fees shall be charged at normal commercial rates and shall not include hidden revenue. The Investment Managers do not receive reimbursements for costs or fees for techniques of this type. The entities to which such costs and fees are paid (including whether such entities are related to the Company or the Depositary) will be disclosed in the annual report.

Collateral

Permitted Types of Collateral

Non-Cash Collateral

Non-cash collateral must at all times meet with the following requirements:

- (i) **Liquidity:** Non-cash collateral should be highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation. Collateral received should also comply with the provisions of the Central Bank's Rulebook;
- (ii) **Valuation:** Collateral must be capable of being valued on at least a daily basis and assets that exhibit high price volatility should not be accepted as collateral unless suitably conservative haircuts are in place;
- (iii) **Issuer credit quality:** Collateral received should be of high quality. Where the issuer was subject to a credit rating by an agency registered and supervised by the European Securities and Markets Authority ("ESMA"), that rating shall be taken into account in the credit assessment process. Where an issuer is downgraded below the two highest short-term credit ratings by this credit rating agency this shall result in a new credit assessment being conducted of the issuer without delay;
- (iv) **Correlation:** Collateral received should be issued by an entity that is independent from the counterparty and is not expected to display a high correlation with the performance of the counterparty;
- (v) **Diversification (asset concentration):** Collateral should be sufficiently diversified in terms of country, markets and issuers with a maximum exposure to a given issuer of 20% of the Net Asset Value. When Funds are exposed to different counterparties, the different baskets of collateral should be aggregated to calculate the 20% limit of exposure to a single issuer;
- (vi) **Immediately available:** Collateral received should be capable of being fully enforced by the Company at any time without reference to or approval from the relevant counterparty; and
- (vii) **Non-cash collateral received cannot be sold, pledged or reinvested by the Company.**

The Company will derogate from the diversification requirement at paragraph (v) and may receive collateral up to 100% of the relevant Fund's Net Asset Value where the collateral received is either transferable securities or money market instruments issued or guaranteed by an EU Member State, one or more local authorities, a third country or a public international body to which one or more EU Member States belong. The permitted issuers for these purposes are listed at paragraph 2.12 of Appendix II. Where the Company relies on this derogation it should receive securities from at least six

different issues, but securities from any single issue should not account for more than 30% of the relevant Fund's Net Asset Value.

Cash collateral

Reinvestment of cash collateral must at all times, meet with the following requirements:

- (i) Cash received as collateral may only be invested in the following:
 - (a) deposits with an EU credit institution, a credit institution authorised in the remaining Member States of the European Economic Area ("EEA") (Norway, Iceland, Liechtenstein), a credit institution authorised by a signatory state, other than an EU Member State or a Member State of EEA, to the Basle Capital Convergence Agreement of July 1988 (including Switzerland, Canada, Japan, United States, United Kingdom) or a credit institution in a third country deemed equivalent pursuant to Article 107(4) of the Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012 of the European Parliament and of the Council of 4 July 2012 on OTC derivatives, central counterparties and trade repositories);
 - (b) high quality government bonds;
 - (c) reverse repurchase agreements provided the transactions are with credit institutions subject to prudential supervision and the Company is able to recall at any time the full amount of cash on an accrued basis; and
 - (d) short-term money market funds as defined in the ESMA Guidelines on a Common Definition of European Money Market Funds (ref CESR/10-049);
- (ii) meet the requirements in section (v) under **Non-Cash Collateral** above, where applicable;
- (iii) Invested cash collateral may not be placed on deposit with the counterparty or a related entity.

Level of collateral required

In respect of OTC derivative contracts such collateral will be required as is necessary in order to ensure that counterparty exposure is managed within the limits set out in Appendix II.

Otherwise the Funds will require collateral where the exposure to a counterparty has reached a minimum threshold level. That minimum threshold level will be determined by the relevant Investment Manager on a counterparty by counterparty basis and will depend on many factors including legal requirements and the credit quality of the counterparty.

Haircuts

The Company typically only accepts non-cash collateral that does not exhibit high price volatility and therefore a haircut policy is not required. If any of the Funds did hold non-cash collateral that exhibited high price volatility, then the relevant Investment Manager would negotiate appropriate haircuts taking into account such factors as the issuer credit quality and price volatility of the collateral and, where relevant, the outcome of any stress tests.

Stress Testing

If a Fund receives collateral for 30% or more of its assets then the collateral received will be incorporated into the liquidity stress testing to ensure that the liquidity risk attached to the collateral is assessed, any reporting required is put in place and mitigation action taken.

Other

Any investment by a Fund in REITs will not affect that Fund's ability to meet its redemption obligations. Any common stock received in exchange for debt will be sold within six months, unless the Investment Manager believes it to be in the client's best interests to retain the holding.

RISK FACTORS

AN INVESTMENT IN A FUND INVOLVES A NUMBER OF RISKS INCLUDING A POSSIBLE LOSS OF THE AMOUNT INVESTED. MOREOVER, THERE CAN BE NO GUARANTEE OR ASSURANCE THAT A FUND WILL ACHIEVE ITS INVESTMENT OBJECTIVE.

THE DISCUSSION BELOW IS OF GENERAL NATURE AND IS INTENDED TO DESCRIBE VARIOUS RISK FACTORS WHICH MAY BE ASSOCIATED WITH AN INVESTMENT IN THE SHARES OF A FUND. THE FOLLOWING ARE A NUMBER OF RISK FACTORS WHICH MAY BE ASSOCIATED WITH AN INVESTMENT IN THE SHARES OF A FUND TO WHICH THE ATTENTION OF INVESTORS IS DRAWN. HOWEVER, THESE ARE NOT INTENDED TO BE EXHAUSTIVE AND THERE MAY BE OTHER CONSIDERATIONS THAT SHOULD BE TAKEN INTO ACCOUNT IN RELATION TO AN INVESTMENT. INVESTORS SHOULD CONSULT THEIR OWN ADVISERS BEFORE CONSIDERING AN INVESTMENT IN THE SHARES OF A PARTICULAR FUND. WHAT FACTORS WILL BE OF RELEVANCE TO THE SHARES OF A PARTICULAR FUND WILL DEPEND UPON A NUMBER OF INTERRELATED MATTERS INCLUDING, BUT NOT LIMITED TO, THE NATURE OF THE SHARES AND THE UNDERLYING INVESTMENTS AND ASSETS OF EACH FUND. INVESTORS SHOULD ALSO REVIEW THE SECTION HEADED RISK FACTORS IN EACH SUPPLEMENT IN THIS REGARD.

NO INVESTMENT SHOULD BE MADE IN THE SHARES OF A PARTICULAR FUND UNTIL CAREFUL CONSIDERATION OF ALL THOSE FACTORS HAS BEEN MADE.

Central Clearing

A central clearing counterparty (CCP) stands between over-the-counter (OTC) derivatives counterparties, insulating them from each other's default. Effective clearing seeks to mitigate systemic risk by lowering the risk that defaults spread from counterparty to counterparty. However, the extent to which CCPs mitigate the likelihood and severity of knock-on defaults that arise from the failure of a large counterparty is unclear.

Central Securities Depositories

In accordance with the UCITS Directive, entrusting the custody of the Company's assets to the operator of a securities settlement system ("SSS") is not considered as a delegation by the Depositary and the Depositary is exempted from the strict liability of restitution of assets. A central securities depository ("CSD") being a legal person that operates a SSS and provides in addition other core services should not be considered as a delegate of the Depositary irrespective of the fact that the custody of the

Company's assets have been entrusted to it. There is however some uncertainty around the meaning to be given to such exemption, the scope of which may be interpreted narrowly by some supervisory authorities, notably the European supervisory authorities.

Collateral Reuse

Where a Fund reinvests collateral it receives from a counterparty under a trading agreement, there is a risk that such collateral reinvestment could result in a reduction of the value of the collateral capital (because the investment declines in value). This, in turn, may cause losses to the Fund because it is obliged to return collateral to the counterparty. The Funds are limited to how they can reinvest collateral as set out in the section titled **Collateral**.

Where a Fund provides collateral under a trading agreement to a counterparty and that counterparty exercises a right of reuse of that collateral, the Fund will be subject to the following collateral re-use risks and consequences:

- its rights, including any proprietary rights, in that collateral will be replaced by an unsecured contractual claim for delivery of equivalent collateral subject to the terms of the relevant collateral arrangement;
- the collateral may not be held by the counterparty in accordance with client asset rules, and may not benefit from any client asset protection rights;
- in the event of the counterparty's insolvency or default, the Fund's claim against the counterparty for delivery of equivalent collateral may not be secured and will be subject to the terms of the relevant collateral arrangement and applicable law and, accordingly, the Fund may not receive such equivalent collateral or recover the full value of the financial instruments;
- in the event that the counterparty is not able to readily obtain equivalent collateral to deliver to the Fund at the time required: the Fund may be unable to fulfil its settlement obligations under a hedging or other transaction it has entered into in relation to those particular collateral assets.

Common Reporting Standard

The Company may be subject to the Standard for Automatic Exchange of Financial Account Information in Tax Matters and its Common Reporting Standard ("CRS") as set out in the Irish law on the Common Reporting Standard (the "CRS Law").

Under the terms of the CRS Law, the Company is likely to be treated as an Irish Reporting Financial Institution. As such, as of 30 June 2017 and without prejudice to other applicable data protection provisions as set out in the Company documentation, the Company will be required to annually report to the Irish tax authorities personal and financial information related, inter alia, to the identification of, holdings by and payments made to (i) investors that are reportable persons under the CRS Law, and (ii) Controlling Persons (as defined below) of certain non-financial entities which are themselves reportable persons. This information, as exhaustively set out in the CRS Law, will include personal data related to the reportable persons (the "CRS Information").

The Company's ability to satisfy its reporting obligations under the CRS Law will depend on each investor providing the Company with the required CRS Information, as explained above, along with the required supporting documentary evidence. In this context, the investors are hereby informed that,

as data controller, the Company will process such CRS Information for the purposes as set out in the CRS Law. The investors undertake to inform their controlling persons, if applicable, of the processing of their CRS Information by the Company.

For the purposes of this section, "Controlling Person" means the natural persons who exercise control over an entity. In the case of a trust, the settlor(s), the trustee(s), the protector(s) (if any), the beneficiary(ies) or class(es) of beneficiaries, and any other natural person(s) exercising ultimate effective control over the trust, and in the case of a legal arrangement other than a trust, such term means persons in equivalent or similar positions. The term "Controlling Persons" must be interpreted in a manner consistent with the Financial Action Task Force Recommendations.

Investors are further informed that the CRS Information related to reportable persons within the meaning of the CRS Law will be disclosed to the Irish tax authorities annually for the purposes set out in the CRS Law. In particular, reportable persons are informed that certain operations performed by them will be reported to them through the issuance of statements, and that part of this information will serve as a basis for the annual disclosure to the Irish tax authorities. Similarly, investors undertake to inform the Company within thirty (30) days of receipt of these statements should any personal data not be accurate. The investors further undertake to immediately inform the Company of and provide the Company with all supporting documentary evidence of any changes related to the CRS Information after occurrence of such changes. Any investor that fails to comply with the Company's CRS Information or documentation requests may be held liable for penalties imposed on the Company and attributable to such investor's failure to provide the CRS Information or subject to disclosure of the CRS Information by the Company to the Irish tax authorities. The Company may, in its sole discretion, redeem such Shareholder's shares. While the Company will make reasonable efforts to seek documentation from Shareholders to comply with these rules and to allocate any penalties imposed to be deducted under CRS to Shareholders whose noncompliance caused the imposition or deduction of the tax, it is possible that complying Shareholders in the Company may be affected by the presence of such non-complying Shareholders.

Concentration

Concentration of investments in a relatively small number of securities, certain sectors or specific regions or countries will make a Fund susceptible to higher volatility since the value of the Fund will vary more in response to changes in the market value of these securities, sectors, regions or countries.

The portfolio of certain Funds will be concentrated in specific sectors, for example the health care or technology sectors, and therefore may be subject to more rapid changes in value than would be the case if the relevant portfolio was more widely diversified among industry sectors. The securities of companies in the health care and technology sectors, especially those of smaller, research-oriented companies, tend to be more volatile than the overall market. The success of investments in the health care and technology sectors is often based upon expectations about future products, research progress, and/or new product filings with regulatory authorities. In addition, a number of these companies may have limited operating histories. As a result, these companies may face undeveloped or limited markets, have limited products, have no proven profit-making history, operate at a loss, have limited access to capital and/or be in the developmental stages of their businesses.

The health care and technology sectors are subject to extensive government regulation. These industries will be affected by government regulatory requirements, regulatory approval for new drugs and medical products, patent protection considerations, product liability concerns, and similar significant matters. As these factors impact the industries, the value of the Funds whose investments are concentrated in such industries may fluctuate significantly over relatively short periods of time.

Further, many companies within the health care and technology sectors may rely on a combination of patent and trade secret protection and non-disclosure agreements to establish and protect their proprietary rights, which are frequently essential to the growth and profitability. There can be no assurance that a particular company will be able to protect these rights or will have the financial resources to do so, or that competitors will not develop or patent technologies that are substantially equivalent or superior to the products of a company in which the Funds invest.

Contractual Settlement

The Investment Manager will on behalf of all investors and Shareholders place orders for the purchase of securities for the account of the relevant Fund before receipt of payment of subscription proceeds, as a means to reduce the impact of subscriptions on the performance of the Fund. While this protocol is made available equally to benefit all Shareholders, there is a possibility that a particular subscriber may settle his purchase order late, or fail to settle it entirely. In that case, the relevant Fund will be exposed to interest costs and/or possible market losses. Although the Company on behalf of the relevant Fund should in that case have a valid claim to recoup any damages from the defaulting subscriber, there is no guarantee that such a claim will either be successful or enforceable in judgment, which could result in a Fund (and its Shareholders) suffering a loss on their investment.

Convertibles, including Contingent Convertible and Contingent Capital Securities (CoCos)

The market value of convertible bonds tends to decline as interest rates rise. Because of the conversion feature the market value of convertible bonds also tends to vary with fluctuations in the market value of the underlying common or preferred security.

Due to contingent write-down, write-off and conversion features of contingent convertible securities, such high-yielding instruments may have substantially greater risk than other forms of securities in times of credit stress. This means that, if a trigger level is breached, depending on the terms, the security may be automatically written-down, written-off or converted. This action could have an adverse effect on a Fund's ability to achieve its investment objective because a conversion may occur before the Fund might otherwise prefer. The Fund may even suffer a complete loss with no chance of recovery even if the issuer remains in existence.

CoCos have terms which vary from issuer to issuer and may expose investors to additional risks. Coupon payment risk is where coupon payments may be indefinitely deferred or cancelled with no interest accumulation and potentially no restriction on the issuer to pay dividends to equity holders or coupons to bond holders which rank *pari passu* or junior to the CoCo bond holders. Coupon cancellation may be at the option of the issuer or its regulator but may also be mandatory under the European Capital Requirements Directive (CRD IV) and related applicable laws and regulation. This mandatory deferral may be at the same time that equity dividends and bonuses may also be restricted, but some CoCo structures allow the bank at least in theory to keep on paying dividends whilst not paying CoCo holders. Mandatory deferral is dependent on the amount of required capital buffers a bank is asked to hold by regulators. In addition it is possible in certain circumstances, e.g., issuer discretion not to pay and / or insufficient distributable profits to pay interest in full or in part, for interest payments on certain CoCos to be cancelled in full or in part by the issuer, without prior notice to bondholders. Therefore, there can be no assurances that investors will receive payments of interest in respect of CoCos. Unpaid interest may not be cumulative or payable at any time thereafter, and bondholders shall accordingly have no right, whether in a liquidation, dissolution or winding-up or otherwise, to claim the payment of any foregone interest which may impact the value of the Fund.

Issuers of CoCos operate within the financial services sector so investment in such instruments may entail concentration risk as described above.

Counterparty

The institutions, including brokerage firms and banks, with which a Fund (directly or indirectly) will trade or invest, or to which its assets will be entrusted for custodial purposes, may encounter financial difficulties that impair the operational capabilities or the capital position of a Fund.

Credit and Index Linked Securities

Credit and index linked securities are derivative instruments which may entail substantial risks. Such instruments may be subject to significant price volatility. The company issuing the instrument may fail to pay the amount on maturity. The underlying investment or security may not perform as expected by the Investment Manager. Markets, underlying securities and indexes may move in a direction that was not anticipated by the Investment Manager.

Cross Liability

The Company is structured as an umbrella fund with segregated liability between its Funds. As a matter of Irish law, the assets of one Fund will not be available to meet the liabilities of another. However, the Company is a single entity that may operate or have assets held on its behalf or be subject to claims in other jurisdictions that may not necessarily recognise such segregation of liability.

Currency

Because a Fund may invest in securities and hold active currency positions that are denominated in currencies other than its Base and/or Dealing Currency, each Fund may be exposed to currency exchange risk. For example, changes in exchange rates between currencies or the conversion from one currency to another may cause the value of a Fund's investments to diminish or increase. Currency exchange rates may fluctuate over short periods of time. They generally are determined by supply and demand in the currency exchange markets and the relative merits of investments in different countries, actual or perceived changes in interest rates and other complex factors. Currency exchange rates can be affected unpredictably by intervention (or the failure to intervene) by government or central banks, or by currency controls or political developments. Certain Funds, but not all, have placed limits on the percentage of such Funds' Net Asset Value that may be exposed to currencies other than the Base Currency of the relevant Fund.

Subject to the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time, the appropriate hedging strategy used will be at the discretion of the Investment Manager in accordance with the investment style of the Fund. This may include hedging the Dealing Currency against the Base Currency of the Fund or against the other currencies in which the assets of the relevant Fund may be denominated (based on either actual exposure or benchmark weights). There can be no assurance that the strategy chosen by the Investment Manager will be successful.

Cyber Security

The Company and its service providers are susceptible to operational and information security and related risks of cyber security incidents. In general, cyber incidents can result from deliberate attacks or unintentional events. Cyber security attacks include, but are not limited to, gaining unauthorised access to digital systems (e.g., through "hacking" or malicious software coding) for purposes of misappropriating assets or sensitive information, corrupting data or causing operational disruption.

Cyber-attacks also may be carried out in a manner that does not require gaining unauthorised access, such as causing denial-of-service attacks on websites (i.e., efforts to make services unavailable to intended users). Cyber security incidents affecting the Company, the Administrator or the Depositary or other service providers such as financial intermediaries have the ability to cause disruptions and impact business operations, potentially resulting in financial losses, including by interference with the ability to calculate the Net Asset Value of the Company; impediments to trading for the Company's portfolio; the inability of Shareholders to transact business with the Company; violations of applicable privacy, data security or other laws; regulatory fines and penalties; reputational damage; reimbursement or other compensation or remediation costs; legal fees; or additional compliance costs. Similar adverse consequences could result from cyber security incidents affecting issuers of securities in which the Company invests, counterparties with which the Company engages in transactions, governmental and other regulatory authorities, exchange and other financial market operators, banks, brokers, dealers, insurance companies and other financial institutions and other parties. While information risk management systems and business continuity plans have been developed which are designed to reduce the risks associated with cyber security, there are inherent limitations in any cyber security risk management systems or business continuity plans, including the possibility that certain risks cannot be and/or have not been identified.

Depositary

The Investment Manager may decide from time to time to invest in a country where the Depositary has no correspondent. In such a case, the Depositary will have to identify and appoint after due diligence a local custodian. This process may take time and in the meantime deprive the Investment Manager of investment opportunities.

In the same manner, the Depositary shall assess on an ongoing basis the custody risk of the country where the Company's assets are safe-kept. The Depositary may identify from time to time a custody risk in a jurisdiction and recommend to the Investment Manager to realise the investments in that jurisdiction immediately. In doing so, the price at which such assets will be sold may be lower than the price the Company would have received in normal circumstances, potentially affecting the performance of the relevant Funds.

As a continuing security for the payment of its duties under the Depositary Agreement (like the fees to be paid to the Depositary for its services or also overdraft facilities offered by the Depositary), the Depositary shall have a pledge granted by the Company over the assets the Depositary or any third party may from time to time hold directly for the account of the Company, in any currency.

In certain circumstances, the third party to whom the Depositary has delegated safekeeping duties might use nominee companies which are wholly owned subsidiaries of such third party and created for the sole purpose of doing acts which are strictly necessary to maintain the holding of the Company's assets on behalf of the Depositary. Those nominee companies might not meet the conditions laid down by the UCITS Directive relating to third parties to whom the safekeeping can be delegated by the Depositary, notably they might not be subject to prudential supervision.

Under the UCITS Directive, cash is to be considered as a third category of assets beside financial instruments that can be held in custody and other assets. The UCITS Directive imposes specific cash flow monitoring obligations. Depending on their maturity, term deposits could be considered as an investment and consequently would be considered as other assets and not as cash.

Duration

Duration is a measure of the expected life of a debt obligation on a present value basis. Duration takes the length of the time intervals between the present time and the time that the interest and principal payments are scheduled or, in the case of a callable bond, the time the principal payments are expected to be received, and weights them by the present values of the cash to be received at each future point in time. For debt obligations with interest payments occurring prior to the payment of principal, duration will usually be less than maturity. In general, all else being equal, the lower the stated or coupon rate of the interest of a fixed income security, the longer the duration of the security; conversely, the higher the stated or coupon rate of a fixed income security, the shorter the duration of the security.

Holding long futures or call option positions will lengthen the duration of a Fund's portfolio. Holding short futures or put options will shorten the duration of a Fund's portfolio.

A swap agreement on an asset or group of assets may affect the duration of the Fund depending on the attributes of the swap. For example, if the swap agreement provides a Fund with a floating rate of return in exchange for a fixed rate of return, the duration of the Fund would be modified to reflect the duration attributes of a similar security that the Fund is permitted to buy.

There are some situations where even the standard duration calculation does not properly reflect the interest rate exposure of a security. For example, floating- and variable-rate securities often have final maturities of ten or more years; however, their interest rate exposure corresponds to the frequency of the coupon reset. Another example where the interest rate exposure is not properly captured by maturity is mortgage pass-through securities. The stated final maturity of such securities is generally 30 years, but current prepayment rates are more critical in determining the securities' interest rate exposure. Finally, the duration of the debt obligation may vary over time in response to changes in interest rates and other market factors.

Emerging Markets

A Fund faces a number of additional risks because of any investments in securities of companies located in emerging markets, including:

Investment and repatriation restrictions: A number of emerging markets restrict, to varying degrees, foreign investment in securities. Restrictions may include maximum amounts foreigners can hold of certain securities, and registration requirements for investment and repatriation of capital and income. New or additional restrictions may be imposed subsequent to a Fund's investment in a given market.

Currency fluctuations can be severe in emerging markets that have both floating and/or "fixed" exchange rate regimes. The latter can undergo sharp one-time devaluations.

Potential market volatility: Many emerging markets are relatively small, have low trading volumes, suffer periods of illiquidity and are characterised by significant price volatility. Regulation and oversight of trading activity may not be up to the standards of developed countries.

Political instability and government interference in the private sector: This varies country by country, and may evolve to the detriment of Fund holdings. In particular, some emerging markets have no legal tradition of protecting shareholder rights.

Financial disclosure and accounting standards: Potential investments may be difficult to evaluate given lack of information as well as the use in emerging markets of accounting, auditing and financial reporting standards that differ from country to country and from those of developed countries.

Settlement: The trading and settlement practices of some of the stock exchanges or markets on which a Fund may invest may not be the same as those in more developed markets, which may increase settlement risk and/or result in delays in realising investments made by a Fund.

Custodial risk: Local custody services remain underdeveloped in many emerging market countries and there is a transaction and custody risk involved in dealing in such markets. In certain circumstances a Fund may not be able to recover or may encounter delays in the recovery of some of its assets. Such circumstances may include uncertainty relating to, or the retroactive application of, legislation, the imposition of exchange controls or improper registration of title. In some emerging market countries evidence of title to shares is maintained in "book-entry" form by an independent registrar who may not be subject to effective government supervision, which increases the risk of the registration of a Fund's holdings of shares in such markets being lost through fraud, negligence or mere oversight on the part of such independent registrars. The costs borne by a Fund in investing and holding investments in such markets will generally be higher than in organised securities markets.

Taxation: Taxation of dividends and capital gains varies among countries and, in some cases, is comparatively high. In addition, emerging markets typically have less-well-defined tax laws and procedures and such laws may permit retroactive taxation, so that a Fund could in the future become subject to local tax liability that had not been reasonably anticipated when an investment was made.

Where a Fund invests more than 20% of its Net Asset Value in emerging markets an investment in that Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Equity

Equity shares of companies will fluctuate in value due to market, economic, political and other factors. Such fluctuations may be substantial, and the fluctuation of small and mid-cap companies may be greater than would occur in similar market conditions for the equity shares of larger capitalisation companies. There is frequently less market liquidity for the shares of small and mid-cap companies than for larger capitalisation companies. In the case of companies located in or deriving substantial revenue from emerging markets, fluctuations in value due to market, economic, political and other factors may be substantial, and may be greater than would occur in similar market conditions for the equity shares of companies domiciled in OECD countries. Shares purchased in an initial public offering will relate to a company that has no track record operating as a public company. Such shares may be more volatile than those issued by more seasoned companies.

Exchange Traded Funds

A Fund may invest in the securities of Exchange Traded Funds ("ETFs") in different asset classes and sectors. Shares or units in ETFs represent interests in (i) fixed funds of equity shares or debt securities designed to track the price and dividend yield performance of broad-based securities indices (such as the S&P 500 or NASDAQ 100); (ii) "baskets" of industry-specific securities; or (iii) commodities. Shares or units in ETFs are traded on an exchange like equities, and the value of such shares or units fluctuate in relation to changes in the value of the underlying asset of the ETF. However, the market price of shares or units in ETFs may not be equivalent to the pro rata value of the underlying asset of the ETF. Shares and units of ETFs are subject to the risks of an investment in a broad-based Fund of equity shares or to the risks of a concentrated, industry-specific investment in equity shares. Furthermore, certain ETFs in which the Funds may invest may leverage their assets, thereby significantly increasing the potential volatility of such ETFs.

Financial Derivatives Instruments

Certain risks may be associated with the use by a Fund of derivative instruments as follows:

Market Risk: This is a general risk that the value of a particular derivative may change in a way which may be detrimental to a Fund's interests and the use of derivative techniques may not always be an effective means of, and sometimes could be counter-productive to, a Fund's investment objective.

Control and Monitoring: Derivative instruments are highly specialised and require specific techniques and risk analysis. In particular, the use and complexity of derivative instruments require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative instrument may add to a Fund and the ability to forecast the relative price, interest rate or currency rate movements correctly.

Liquidity Risk: Liquidity risk exists when a particular instrument is difficult to purchase or sell. If a derivative transaction is particularly large or if the relevant market is illiquid (as is the case with many privately negotiated derivatives), it may not be possible to initiate a transaction to liquidate a position at an advantageous price, to assess or value a position or to assess the exposure to risk. An adverse price movement in a derivative position may also require a cash payment to counterparties that might in turn require, if there is insufficient cash available in a Fund, the sale of investments under disadvantageous conditions.

Counterparty Risk: A Fund may enter into derivative transactions in over-the-counter markets, which will expose the Fund to the credit of its counterparties and their ability to satisfy the terms of such contracts. A Fund may be exposed to the risk that the counterparty may default on its obligations to perform under the relevant contract. In the event of the bankruptcy or insolvency of a counterparty, a Fund could experience delays in liquidating the position as well as significant losses, including declines in value during the period in which the Fund seeks to enforce its rights, the inability to realise any gains during such period and fees and expenses incurred in enforcing its rights.

Legal Risk: There is a possibility that the agreements governing the derivative techniques may be terminated due, for instance, to supervening illegality or change in the tax or accounting laws relative to those at the time the agreement was originated. There is also a risk if such agreements are not legally enforceable or if the derivative transactions are not documented correctly.

Leverage Risk: Leverage may be employed as part of the investment strategy when using derivatives. Derivatives may contain a leverage component and consequently any adverse changes in the value or level of the underlying asset can result in a loss greater than the amount invested in the derivative itself.

Other Risks: Other risks in using derivative instruments include the risk of differing valuations of derivative instruments arising out of different permitted valuation methods and the inability of derivative instruments to correlate perfectly with underlying securities, rates and indices. Many derivative instruments, in particular over-the-counter derivative instruments, are complex and often valued subjectively and the valuation can only be provided by a limited number of market professionals which often are acting as counterparties to the transaction to be valued. Inaccurate valuations can result in an increased cash payment to counterparties or a loss of value to a Fund. Derivative instruments do not always perfectly or even highly correlate or track the value of the securities, rates or indices they are designed to track.

The swaps market is a relatively new market and is largely unregulated. It is possible that developments in the swaps market, including potential government regulation, could adversely affect a Fund's ability to terminate existing swap agreements or to realise amounts to be received under such agreements. Whether a Fund's use of swap agreements will be successful will depend on the

Investment Manager's ability to correctly predict whether certain types of investments are likely to produce greater returns than other investments. A Fund bears the risk of loss of the amount expected to be received under a swap agreement in the event of the default or bankruptcy of a swap agreement counterparty. The risk arising to a Fund in a total return swap is credit risk in the event that the counterparty is unable to meet its payment obligations to the Fund under the terms of the total return swap. Further as noted under **Derivatives Generally** below, the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act") and the European Markets and Infrastructure Regulation ("EMIR") include provisions that require increased regulation of derivatives markets. Notably in relation to swaps the Dodd-Frank Act and EMIR have introduced mandatory execution and clearing of certain swaps, as well as new record keeping and reporting requirements. This increased regulation may increase the costs of entering into certain transactions.

Derivatives Generally: There has been an international effort to increase the stability of the over-the-counter derivatives market in response to the recent financial crisis. In the United States, the Dodd-Frank Act includes provisions that comprehensively regulate the over-the-counter derivatives markets. In Europe, the European Parliament has adopted EMIR, a regulation on over-the-counter derivatives, central counterparties and trade repositories, which also comprehensively regulates the over-the-counter derivatives markets. These regulations will impose compliance costs on the Company. They will also increase the dealers' costs, which are expected to be passed through to other market participants in the form of higher fees and less favourable dealer marks. They may also render certain strategies in which the Company might otherwise engage impossible or so costly that they will no longer be economical to implement. The overall impact of these regulations on the Company is highly uncertain and it is unclear how the over-the-counter derivatives markets will adapt to this new regulatory regime.

Central clearing risk: A central clearing counterparty ("CCP") stands between over-the-counter ("OTC") derivatives counterparties, insulating them from each other's default. Effective clearing seeks to mitigate systemic risk by lowering the risk that defaults propagate from counterparty to counterparty. However, the extent to which CCPs mitigate the likelihood and severity of knock-on defaults that propagate from the failure of a large counterparty is unclear.

Fixed Income and Other Debt Securities

Fixed income securities and other debt securities are subject to many risk factors, including economic conditions, government regulations, market sentiment, and local and international political events. The market value of these securities in which a Fund invests will fluctuate in response to changes in creditworthiness of the issuer, interest rates, currency values, and other economic, political and market factors. Such fluctuations may be substantial. There is a risk that one or more issuers of securities held by a Fund may default in payment of interest and/or principal. That portion of any Fund invested in securities which are rated below investment grade, or are deemed equivalent thereto by the Investment Manager, are subject to significantly greater risk of such defaults. Pass through instruments such as mortgage related and asset backed securities are subject to prepayment risk, which is the possibility that the principal of the loans underlying the securities may be prepaid at any time. As a general rule, prepayments increase during a period of falling interest rates and decrease during a period of rising interest rates.

A Fund may invest in debt securities which rank junior to other outstanding securities and obligations of the issuer, all or a significant portion of which may be secured by substantially all of that issuer's assets. The Fund may invest in debt securities which are not protected by financial covenants or limitations on additional indebtedness. This would expose the Fund to credit and liquidity risks. In addition, the market for credit spreads is often inefficient and illiquid, making it difficult to accurately

calculate discounting spreads for valuing financial instruments. Investment in a debt instrument will normally involve the assumption of interest rate risk.

A substantial number of the securities which a Fund holds may be debt securities rated below “investment grade” (Baa3 by Moody’s and BBB- by Standard & Poor’s) or unrated securities of comparable quality, sometimes known as “junk bonds” or high yield bonds. **Where a Fund invests more than 30% of its Net Asset Value in below investment grade securities an investment in that Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.** These lower rated bonds are considered by credit rating agencies to be speculative and to carry a high level of risk. The lower rated securities in which a Fund will invest will have a significantly greater risk of default in payments of interest, principal, or both, than the risk of default for investment grade bonds. Issuers of below investment grade securities present a higher risk of bankruptcy or reorganisation than issuers of investment grade bonds, or may have recently been in bankruptcy or reorganisation proceedings.

The secondary market for lower rated securities is typically much less liquid than the market for investment grade bonds, frequently with significantly more volatile prices and larger spreads between bid and asked price in trading. The market price of lower rated securities will be affected by the bond market’s perception of credit quality and the effect of stronger or weaker economic growth as well as political developments.

The market price of lower rated securities will also be affected by general changes in interest rates (decreasing as rates rise, and increasing as rates fall) that affect the market price of all bonds, although lower rated securities may be less sensitive to interest rate changes than investment grade bonds. The below investment grade security market at times will be very illiquid. Market prices of lower rated securities may be affected by imbalances in sell and buy orders among institutional investors and dealers. In addition to credit risk and liquidity risk concerns, the market price of lower rated securities in particular may be adversely impacted by legislative or regulatory developments, such as determinations that certain categories of institutional investors must divest their below investment grade holdings, or changes in rules regarding taxation or corporate reorganisations.

A Fund may also have to sell holdings of below investment grade securities at unfavourable prices in order to raise proceeds to pay for redemptions of Shares.

Any default in the payment of interest by an issuer of below investment grade securities will adversely affect a Fund if a distribution has already been made by the Fund on the basis of such interest being due and payable to the Fund.

The Investment Manager seeks to mitigate the risk of high yield investing by carefully selecting below investment grade securities which it believes offer an investment return that reasonably compensates a Fund for the investment risk assumed, and by diversifying the Fund to minimise the adverse effect of default or substantial reduction in the market price of any below investment grade security in the Fund. The Investment Manager will actively manage the Funds, and will buy and sell portfolio securities based upon economic, financial, political and issuer credit analysis. There is no assurance that the Investment Manager will succeed in avoiding or mitigating the risks associated with below investment grade security investing.

A Fund’s net income may decline or increase, based upon changes in the prevailing interest rates in the bond market at the times that it purchases bonds with proceeds from additional net investments in the Fund, or the proceeds from the sale of other portfolio securities in the Fund.

High Turnover

The investment strategy of a Fund may involve the taking of frequent trading positions, as well as investment positions. As a result of portfolio turnover and brokerage commissions, expenses of that Fund may significantly exceed those of other Funds of comparable size that trade less frequently.

Indian Rupee Repatriation Risk

A Fund investing in the Indian market will have a standing instruction in place with the custodian/sub-custodian to convert all principals and profits denominated in Rupee back to the relevant Fund in its Base Currency and repatriate out of India. Such amounts are fully repatriable subject to payment of applicable tax (withholding tax on interest income and capital gains tax) and submission of tax consultant's certificate. While the relevant Fund will appoint a local sub-custodian in India, the Depository will take responsibility for the local sub-custodian in India or any other sub-custodian appointed in place of an earlier sub-custodian (on account of cancellation of the custodian license of the earlier sub-custodian or any other reasons as agreed with the earlier sub-custodian). The exchange rate used for converting principals and/or profits denominated in Rupee back to the Base Currency of the relevant Fund and repatriating out of India will be determined based on market rates on the day the currency is converted. In case of redemption of Shares, the valuation date for the redeeming Shareholder will precede the conversion date by several days, which will expose the remaining Shareholders of the Fund to currency risk and potential losses in case of depreciation of the Rupee between the valuation date and the conversion date. An official exchange rate is released by the Reserve Bank of India (RBI) every working day. Currently, there are no regulations/restrictions imposed on foreign institutional investors (FIIs)/sub-accounts under Indian laws, which restrict repatriation of funds by the FIIs/sub-accounts. Investments made by FIIs/sub-accounts in Indian securities are on fully repatriable basis. The RBI has extended the same treatment to foreign portfolio investors as well.

Investment in China

Bond Connect

Risks linked with dealing in securities in China via Bond Connect

Some Funds may seek exposure to fixed income securities dealt on the CIBM through Bond Connect ("Bond Connect Securities"). Bond Connect is a mutual bond market access between Hong Kong and the PRC established by China Foreign Exchange Trade System (CFETS) & National Interbank Funding Centre, China Central Depository & Clearing Co., Ltd, Shanghai Clearing House (together, the "Mainland Financial Infrastructure Institutions"), and Hong Kong Exchanges and Clearing Limited and Central Moneymarkets Unit (CMU) (together, the "Hong Kong Financial Infrastructure Institutions"). Eligible foreign investors are allowed to invest in Bond Connect Securities through a cross border platform, which facilitates the efficient trading by overseas institutional investors in the PRC bond market (Northbound link). Northbound Trading will follow the current policy framework for overseas participation in the CIBM.

There will be no investment quota for Northbound Trading.

To the extent that a Fund's investments in China are dealt via Bond Connect, such dealing may be subject to additional risk factors.

Regulatory risks: Bond Connect rules and regulations are relatively new. The application and interpretation of such investment regulations are therefore relatively untested and there is no certainty as to how they will be applied as the PRC authorities and regulators have been given wide discretion

in such investment regulations and there is no precedent or certainty as to how such discretion may be exercised now or in the future. In addition, there can be no assurance that the Bond Connect rules and regulations will not be abolished in the future. A Fund(s), which invests in Bond Connect Securities, may be adversely affected as a result of any such changes or abolition.

Custody risks: Under the prevailing regulations in PRC, eligible foreign investors who wish to invest in Bond Connect Securities may do so via an offshore custody agent approved by the Hong Kong Monetary Authority (“HKMA”) (“Offshore Custody Agent”), who will be responsible for the account opening with the relevant onshore custody agent approved by PBOC. Since the account opening for investment in the CIBM market via Bond Connect has to be carried out via an offshore custody agent the relevant Fund is subject to the risks of default or errors on the part of the Offshore Custody Agent.

Trading risks: Trading in securities through the Bond Connect may be subject to clearing and settlement risk. If the PRC clearing house defaults on its obligation to deliver securities / make payment, the Fund may suffer delays in recovering its losses or may not be able to fully recover its losses.

Market and Liquidity Risks: Market volatility and potential lack of liquidity due to low trading volumes of certain debt securities may result in prices of certain debt securities traded on the CIBM to fluctuate significantly. The Funds investing in the CIBM are therefore subject to liquidity and volatility risks and may suffer losses in trading PRC bonds. The bid and offer spreads of the prices of such PRC bonds may be large, and the relevant Funds may therefore incur significant trading and realisation costs and may even suffer losses when selling such investments.

Investment restrictions: Investments into Bond Connect are not subject to any quota but should the relevant Chinese authorities suspend account opening or trading via Bond Connect, the relevant Fund’s ability to invest in CIBM will be limited and, and the relevant Fund may not be able to effectively pursue its investment strategy or it may have an adverse effect on the relevant Fund’s performance as the relevant Fund may be required to dispose of its CIBM holdings. The relevant Fund may also suffer substantial losses as a result.

Chinese Local Credit Rating Risk: Certain Funds may invest in securities the credit ratings of which are assigned by Chinese local credit rating agencies. However, the rating criteria and methodology used by such agencies may be different from those adopted by most of the established international credit rating agencies. Therefore, such rating system may not provide an equivalent standard for comparison with securities rated by international credit rating agencies. Investors should be cautious when they refer to ratings assigned by Chinese local credit agencies, noting the differences in rating criteria mentioned above. If assessments based on credit ratings do not reflect the credit quality of and the risks inherent in a security, investors may suffer losses, possibly greater than originally envisaged.

Operational Risk: Trading through Bond Connect is performed through newly developed trading platforms and operational systems. There is no assurance that such systems will function properly or will continue to be adapted to changes and developments in the market. In the event that the relevant systems fail to function properly, trading through Bond Connect may be disrupted. A Fund’s ability to trade through Bond Connect (and hence to pursue its investment strategy) may therefore be adversely affected. In addition, where a Fund invests in the CIBM through Bond Connect, it may be subject to risks of delays inherent in the order placing and/or settlement systems.

Beneficial owner of Bond Connect Securities

The Funds’ Bond Connect Securities will be held following settlement in an investors segregated securities account at the Central Moneymarkets Unit (“CMU”) as central securities depository in Hong

Kong by custodians as clearing participants. The CMU in turn holds Bond Connect Securities of all its participants through an omnibus securities account (Linkage Securities Account) in the name of the HKMA at the China Central Depository & Clearing Co., Ltd and the Shanghai Clearing House in the PRC. Because CMU is only a nominee holder and not the beneficial owner of Bond Connect Securities, in the unlikely event that CMU becomes subject to winding up proceedings in Hong Kong, investors should note that Bond Connect Securities will not be regarded as part of the general assets of CMU available for distribution to creditors even under PRC a law. However, CMU will not be obliged to take any legal action or enter into court proceedings to enforce any rights on behalf of investors in Bond Connect Securities in PRC. Funds investing through the Bond Connect holding the Bond Connect Securities through CMU are the beneficial owners of the assets and are therefore eligible to exercise their rights through the nominee only.

However, physical deposit and withdrawal of Bond Connect Securities are not available under the Northbound trading for the Funds. In addition, the Fund's title or interests in, and entitlements to Bond Connect Securities (whether legal, equitable or otherwise) will be subject to applicable requirements, including laws relating to any disclosure of interest requirement or foreign bondholding restriction, if any. It is uncertain whether the Chinese courts would recognise the ownership interest of the investors to allow them standing to take legal action against the Chinese entities in case disputes arise.

Not protected by Investor Compensation Fund

Investors should note that any trading under Bond Connect will not be covered by Hong Kong's Investor Compensation Fund nor the China Securities Investor Protection Fund and thus investors will not benefit from compensation under such schemes. Hong Kong's Investor Compensation Fund is established to pay compensation to investors of any nationality who suffer pecuniary losses as a result of default of a licensed intermediary or authorised financial institution in relation to exchange-traded products in Hong Kong. Examples of default are insolvency, in bankruptcy or winding up, breach of trust, defalcation, fraud, or misfeasance.

Difference in trading day and trading hours

Due to differences in public holiday between Hong Kong and PRC or other reasons such as adverse weather conditions, there may be a difference in trading days and trading hours on the CIBM and the CMU.

Bond Connect will thus only operate on days when both markets are open for trading and when banks in both markets are open on the corresponding settlement days. So it is possible that there are occasions when it is a normal trading day for the PRC markets but it is not possible to carry out any Bond Connect Securities trading in Hong Kong.

The recalling of eligible bond and trading restriction

A bond may be recalled from the scope of eligible stocks for trading via Bond Connect for various reasons, and in such event the stock can only be sold but is restricted from being bought. This may affect the investment portfolio or strategies of the Investment Manager.

Trading costs

In addition to paying trading fees and other expenses in connection with Bond Connect Securities trading, the Funds carrying out Northbound trading via Bond Connect should also take note of any new portfolio fees, dividend tax and tax concerned with income arising from transfers which would be determined by the relevant authorities.

Currency risks

Northbound investments by Funds in the Bond Connect Securities will be traded and settled in Renminbi (RMB). If a Fund holds a class of shares denominated in a local currency other than RMB, the Fund will be exposed to currency risk if the Fund invests in a RMB product due to the need for the conversion of the local currency into RMB. During the conversion, the Fund will also incur currency conversion costs. Even if the price of the RMB asset remains the same when the Fund purchases it and when the Fund redeems / sells it, the Fund will still incur a loss when it converts the redemption / sale proceeds into local currency if RMB has depreciated.

Risk of CMU default

A failure or delay by the CMU in the performance of its obligations may result in a failure of settlement, or the loss, of Bond Connect Securities and/or monies in connection with them and the Fund and its investors may suffer losses as a result. Neither the Funds nor the Investment Manager shall be responsible or liable for any such losses.

PRC tax risks in relation to Bond Connect Securities

Unless a specific exemption or reduction is available, entities not tax resident in the PRC are subject to CIT on a withholding basis generally at a rate of 10% on PRC passive sourced income. However, interest derived from government bonds issued by the in-charge Finance Bureau of the State Council and/or local government bonds approved by the State Council are exempt from CIT. Further, on 22 November 2018, a three-year CIT and Value Added Tax ("VAT") exemption on interest income derived by foreign investors from investments in PRC bond markets was confirmed from 7 November 2018 to 6 November 2021, pursuant to Caishui 2018 No.108.

Currently, there is no specific rule governing the taxation of capital gains derived by foreign investors trading PRC debt securities (including PRC debt securities traded through Bond Connect). Based on verbal comments from the PRC tax authorities, such gains should be non-PRC sourced income and thus would not be subject to PRC withholding tax. However, there are no written tax regulations issued by the PRC tax authorities to confirm that interpretation. As a matter of practice, the PRC tax authorities have not levied PRC withholding tax on capital gains realised by foreign investors from the trading of debt securities.

Pursuant to Caishui 2016 No.36, gains realised from trading of marketable securities and interest income would generally be subject to VAT at 6%, unless specifically exempted under laws and regulations. If VAT is applicable, there are also other surtaxes that could apply. Gains realised by recognised foreign investors from trading RMB-denominated debt securities in the PRC inter-bank bond market are exempted from VAT, and interest received by foreign investors from government bonds and local government bonds are also exempt from VAT.

Investors should seek their own advice on their tax position with regard to their investment in a Fund with investments in China dealt via Bond Connect.

Stock Connect

Risks linked with dealing in securities in China via Stock Connect

Some of the Funds may seek exposure to stocks issued by companies listed on China stock exchanges via Stock Connect. Stock Connect is a mutual market access programme through which non-PRC

investors can deal in select securities listed on a PRC stock exchange, currently the Shanghai Stock Exchange (“SSE”) and the Shenzhen Stock Exchange (“SZSE”), through a platform organised by the Hong Kong Stock Exchange (“SEHK”) via a broker in Hong Kong and PRC domestic investors can deal in select securities listed on the SEHK through a platform put in place by a PRC stock exchange, currently the SSE and SZSE.

China A Shares accessed via Stock Connect shall be referred to hereinafter as “Stock Connect Shares”.

Under the Stock Connect programme, investors in Hong Kong and Mainland China can trade and settle shares listed on the other market via the exchanges and clearing houses in both jurisdictions. Stock Connect is subject to quota limitations, which may restrict a Fund’s ability to deal via Stock Connect on a timely basis. This may impact that Fund’s ability to implement its investment strategy effectively. Currently, the scope of Stock Connect includes all constituent stocks of the SSE 180 Index, the SSE 380 Index, the SZSE Component Index, the SZSE Small/Mid Cap Innovation Index (with market capitalisation of RMB 6 billion or above) as well as all China A Shares dual-listed on either the SSE or SZSE and the SEHK, except for listed shares which are not traded in RMB and/or which are included under 'risk alert' or under delisting arrangements. Investors should note that a security may be recalled from the scope of Stock Connect as set out below. This may adversely affect the Fund’s ability to meet its investment objective, e.g. when it wishes to purchase a security which is recalled from the scope of Stock Connect.

Under Stock Connect, China A Shares listed companies and trading of China A Shares are subject to market rules and disclosure requirements of the China A Shares market. Any changes in laws, regulations and policies of the China A Shares market or rules in relation to Stock Connect may affect share prices. Foreign shareholding restrictions are also applicable to China A Shares.

The Investment Manager will be subject to restrictions on trading (including restriction on retention of proceeds) in China A Shares as a result of its interest in the China A Shares. The Investment Manager is solely responsible for compliance with all notifications, reports and relevant requirements in connection with their interests in China A Shares.

Under the current Mainland China rules, once an investor holds up to 5% of the shares of a company listed on the either the SSE or SZSE, the investor is required to disclose his interest within three working days and during which he cannot trade the shares of that company. After that, the investor is also required to make disclosure within three working days every time a change in their shareholding reaches 5%. From the day the disclosure obligation arises to two working days after the disclosure is made, the investor may not trade the shares of that company. Overseas investors holding China A Shares via Stock Connect are subject to the following restrictions (i) shares held by a single foreign investor investing in a listed company must not exceed 10% of the total issued shares of such listed company; and (ii) total A shares held by all foreign investors (i.e. Hong Kong and overseas investors) who make investments in a listed company must not exceed 30% of the total issued shares of such listed company. If the aggregate foreign shareholding exceeds the 30% restriction, the foreign investors would be required to unwind their positions on the excessive shareholding according to a last-in-first-out basis within five trading days.

Trading in securities through the Stock Connect may be subject to clearing and settlement risk. If the PRC clearing house defaults on its obligation to deliver securities / make payment, the Fund may suffer delays in recovering its losses or may not be able to fully recover its losses.

According to existing Mainland China practices, the Fund as a beneficial owner of China A Shares traded via Stock Connect cannot appoint proxies to attend shareholders’ meetings on its behalf.

Beneficial owner of the Stock Connect Shares

Stock Connect currently comprises a Northbound link, through which Hong Kong and overseas investors like the Company may purchase and hold Stock Connect Shares, and a Southbound link, through which investors in Mainland China may purchase and hold shares listed on the SEHK. The Company trades Stock Connect Shares through its broker affiliated to the Company sub-custodian who is an SEHK exchange participant. These Stock Connect Shares will be held following settlement by brokers or custodians as clearing participants in accounts in the Hong Kong Central Clearing and Settlement System (“CCASS”) maintained by the Hong Kong Securities and Clearing Corporation Limited (“HKSCC”) as central securities depository in Hong Kong and nominee holder. HKSCC in turn holds Stock Connect Shares of all its participants through a “single nominee omnibus securities account” in its name registered with ChinaClear, the central securities depository in Mainland China.

Because HKSCC is only a nominee holder and not the beneficial owner of Stock Connect Shares, in the unlikely event that HKSCC becomes subject to winding up proceedings in Hong Kong, investors should note that Stock Connect Shares will not be regarded as part of the general assets of HKSCC available for distribution to creditors even under Mainland China law. However, HKSCC will not be obliged to take any legal action or enter into court proceedings to enforce any rights on behalf of investors in Stock Connect Shares in Mainland China. Foreign Investors like the concerned Funds of the Company investing through the Stock Connect holding the Stock Connect Shares through HKSCC are the beneficial owners of the assets and are therefore eligible to exercise their rights through the nominee only.

Not protected by Investor Compensation Fund

Investors should note that any Northbound or Southbound trading under Stock Connect will not be covered by Hong Kong’s Investor Compensation Fund, nor the China Securities Investor Protection Fund and thus investors will not benefit from compensation under such schemes.

Hong Kong’s Investor Compensation Fund is established to pay compensation to investors of any nationality who suffer pecuniary losses as a result of default of a licensed intermediary or authorised financial institution in relation to exchange-traded products in Hong Kong. Examples of default are insolvency, in bankruptcy or winding up, breach of trust, defalcation, fraud, or misfeasance.

Quotas used up

Once the daily quota is used up, acceptance of the corresponding buy orders will also be immediately suspended and no further buy orders will be accepted for the remainder of the day. Buy orders which have been accepted will not be affected by the using up of the daily quota, while sell orders will be continued to be accepted.

Difference in trading day and trading hours

Due to differences in public holidays between Hong Kong and Mainland China or other reasons such as bad weather conditions, there may be a difference in trading days and trading hours in the markets in Hong Kong and Mainland China, Stock Connect will only operate on days when both markets are open for trading and when banks in both markets are open on the corresponding settlement days. So it is possible that there are occasions when it is a normal trading day for the Mainland China market but it is not possible to carry out any China A Shares trading in Hong Kong. There may be a risk of price fluctuations in China A Shares during the time when Stock Connect is not trading.

The recalling of eligible stocks and trading restrictions

A stock may be recalled from the scope of eligible stocks for trading via Stock Connect for various reasons, and in such event the stock can only be sold but is restricted from being bought. This may affect the investment portfolio or strategies of the Investment Manager.

Under Stock Connect, the Investment Manager will only be allowed to sell China A Shares but restricted from further buying if: (i) the China A Share subsequently ceases to be a constituent stock of the relevant indices; (ii) the China A Share is subsequently under “risk alert”; and/or (iii) the corresponding H share of the China A Share subsequently ceases to be traded on SEHK; and/or (iv) in respect of SZSE Shares only, such Shares, based on any subsequent periodic review, that are determined to have a market capitalisation of less than RMB 6 billion. Investors should also note that price fluctuation limits would be applicable to China A Shares.

Trading costs

In addition to paying trading fees and stamp duties in connection with China A Shares trading, the Funds carrying out trading Stock Connect Shares via Stock Connect may also be subject to new portfolio fees, dividend tax and tax concerned with income arising from stock transfers which would be determined by the relevant authorities.

Risk of ChinaClear default

ChinaClear has established a risk management framework and measures that are approved and supervised by the China Securities Regulatory Commission (“CSRC”). Pursuant to the General Rules of CCASS, if China Clear (as the host central counterparty) defaults, HKSCC will, in good faith, seek recovery of the outstanding Stock Connect securities and monies from ChinaClear through available legal channels and through ChinaClear's liquidation process, if applicable.

HKSCC will in turn distribute the Stock Connect securities and/or monies recovered to clearing participants on a pro-rata basis as prescribed by the relevant Stock Connect authorities. Although the likelihood of a default by ChinaClear is considered to be remote, the relevant Fund should be aware of this arrangement and of this potential exposure before engaging in trading Stock Connect Shares.

Risk of HKSCC default

A failure or delay by the HKSCC in the performance of its obligations may result in a failure of settlement, or the loss, of Stock Connect securities and/or monies in connection with them and the Company and its investors may suffer losses as a result. Neither the Company nor the Investment Manager shall be responsible or liable for any such losses.

Ownership of Stock Connect Shares

Stock Connect Shares are uncertificated and are held by HKSCC for its account holders. Physical deposit and withdrawal of Stock Connect Shares are not available currently under the Northbound trading for a Fund.

A Fund's title or interests in, and entitlements to Stock Connect Shares (whether legal, equitable or otherwise) will be subject to applicable requirements, including laws relating to any disclosure of interest requirement or foreign shareholding restriction. It is uncertain whether the Chinese courts

would recognise the ownership interest of the investors to allow them standing to take legal action against the Chinese entities in case disputes arise. This is a complex area of law and investors should seek independent professional advice.

The above may not cover all risks related to Stock Connect and any above mentioned laws, rules and regulations are subject to change.

Tax factors relevant to Stock Connect

Unless a specific exemption or reduction is available, entities not tax resident in the PRC are subject to corporate income tax ("CIT") on a withholding basis, generally at a rate of 10% on PRC passive sourced income; therefore, dividends from A-shares traded on Stock Connect will be subject to a 10% withholding tax at source. However, capital gains derived by foreign investors on the trading of A-shares through Stock Connect have been exempted pursuant to Caishui 2014 No.81 and No.127 issued by the PRC tax authorities (the "Notices"), on a temporary basis and with no stated expiry date. It is possible that the Notices may be amended or withdrawn, in addition to other local tax regulation, at any time, and with potential retroactive effect, which may result in an impact to a Fund's net asset value.

Pursuant to Caishui 2016 No.36, capital gains derived by investors via Stock Connect are exempted from value added tax ("VAT"). Dividend income or profit distributions on PRC equities are not included within the scope of VAT.

Investment in Other Collective Investment Schemes

A Fund may invest in other collective investment schemes. By investing in the relevant collective investment scheme, an investor will indirectly bear fees and expenses charged by the underlying collective investment schemes in addition to the Fund's direct fees and expenses. Investments in other collective investment schemes shall be valued at the latest available net asset value per unit as published by the scheme; the latest bid prices as published by the scheme or if the scheme is listed on a market, the latest market prices as described in the section entitled **Issue and Redemption Prices/Calculation of Net Asset Value/ Valuation of Assets**. The Funds investing in other collective investment schemes may be subject to the risk that (i) the valuations of the Fund may not reflect the true value of the underlying collective investment schemes at a specific time which could result in significant losses or inaccurate pricing for the Fund and/or (ii) the valuation may not be available as at the relevant Valuation Point for the Fund. In such circumstances, the Investment Manager, with the consent of the Depository, may adjust the value of any such investment or permit such other method of valuation if the Investment Manager considers that such adjustment or other method of valuation is required to reflect more fairly the value of the underlying collective investment scheme.

Investment in India pursuant to a FPI license

Where a Fund invests in Indian securities, it will be subject to certain Indian legal and regulatory requirements. Foreign investment in securities issued by Indian companies is regulated under the Foreign Exchange Management Act, 1999 ("FEMA") and by the Reserve Bank of India ("RBI"). The Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2017 (the "Securities Regulations") issued under the FEMA establish various investment routes available to persons resident outside India (a "Non-Resident"), such as the Company and any of its Funds, seeking to make investments in securities issued by Indian companies. Any investment made by a Non-Resident shall be subject to the entry routes, sectoral caps or the investment limits, as the case may be, and the attendant conditionalities for such investment as laid down under the Securities

Regulations. A Non-Resident may invest in an Indian company under the Foreign Direct Investment regime, Foreign Portfolio Investment regime and Foreign Venture Capital Investor regime.

The SEBI (Foreign Portfolio Investors) Regulations, 2019 ("FPI Regulations") were notified by the Securities and Exchange Board of India ("SEBI") on 23 September, 2019. A foreign portfolio investor ("FPI") has been defined as a person who satisfies the eligibility criteria prescribed under Regulation 4 of the FPI Regulations and has been registered under Chapter II of the FPI Regulations. FPIs are categorized into two categories as defined in the FPI Regulations, Category I and Category II. An entity proposing to register as an FPI must make an application to the designated depository participant in a form prescribed under the FPI Regulations for one of the categories mentioned above. An FPI is required to satisfy certain conditions in order to be eligible for a registration including good track record, professional competency and various criteria linked to residency status. An FPI registration once granted is permanent unless cancelled or suspended by SEBI or surrendered by the FPI. FPIs are obliged, under the terms of the undertakings and declarations made by them at the time of registration, to immediately notify the SEBI or the designated depository participant (as the case may be) of any change in the information provided in the application for registration. Failure by FPIs to adhere to relevant legislative provisions and regulatory rules and the FPI Regulations renders them liable for, amongst other matters, imposition of a penalty and suspension or cancellation of the certificate of registration.

Pursuant to the FPI Regulations, FPIs are generally permitted to invest in Indian securities without the prior approval of the RBI or SEBI. However, the total outstanding investments cannot exceed the FPI investment limits as prescribed by SEBI and RBI which may be revised from time to time (the "FPI Investment Limits"). Therefore, investments made by the relevant Fund in such instruments in India will be subject to such restrictions as may be notified by SEBI from time to time. The variability of such FPI Investment Limits may pose a risk to a Fund.

The Investment Manager will monitor the investments of the relevant Fund to ensure they do not exceed the FPI Investment Limits. In accordance with the requirements of SEBI and the RBI, the sub-custodian appointed by the Depository in India is also required to monitor that investments of the relevant Fund do not reach the FPI Investment Limits.

Investment in Russia

If a Fund invests in Russia, investors should note that Russia has weaker corporate governance, auditing and financial reporting standards than those in developed markets, which could result in a less thorough understanding of the financial condition, results of operations and cash flow of companies in which the Funds invest. Accordingly, an investment in a Russian corporate will not afford the same level of investor protection as would apply in more developed jurisdictions.

Legal Risk

The terms of derivatives, repurchase, reverse repurchase, buy-sell back, sell-buy back and securities lending transactions are generally established through negotiation between the parties to the agreements. While this provides more flexibility, these agreements may involve greater legal risk than exchange-traded instruments, which are standardised, as there may be a risk of loss if the agreement is deemed not to be legally enforceable or not documented correctly. There may also be a risk that the parties to the agreement may disagree as to the proper interpretation of its terms. If such a dispute occurs, the cost and unpredictability of the legal proceedings required for a Fund to enforce its contractual rights may lead the Fund to decide not to pursue its claims under the agreement. The Fund therefore assume the risk that it may be unable to obtain payments owed to it, and that those payments may be delayed or made only after the Fund has incurred the costs of litigation. Further, legal, tax and

regulatory changes could occur which may adversely affect the Funds. The regulatory and tax environment governing these types of transactions is evolving, and changes in the regulation or taxation may adversely affect the value of such transactions entered into by the Funds and the Funds' ability to pursue their trading strategies.

Liquidity

Liquidity is an indicator of how easily an investment may be converted into cash. An investment may be less liquid if it is not widely traded or if there are restrictions imposed by the exchange where the trading takes place or by the issuer. The sale of any thinly traded or illiquid investments may be possible only at substantial discounts or at discounts to the values at which a Fund is carrying them. If a Fund is forced to sell thinly traded or illiquid securities in order to meet redemption requests and/or its ongoing objective, such sales may result in a reduction in the Fund's Net Asset Value.

Loans

An investment in bank loans may be in the form of participations in loans or of assignments of all or a portion of loans from third parties. Participations and assignments involve additional risks, including the risk of non-payment of principal and interest by the borrower, the risk that any loan collateral may become impaired and, particularly where the borrower is in financial distress, that the investor may obtain less than the full value for the loan interests sold because the bank loans have become illiquid. Purchasers of bank loans depend primarily upon the creditworthiness of the borrower for payment of interest and repayment of principal. If scheduled interest or principal payments are not made, the value of the instrument may be adversely affected.

Interests in bank loans are also subject to additional liquidity risks. Bank loans are not currently listed on any securities exchange or automatic quotation system, but are traded by banks and other institutional investors engaged in loan syndication. As a result, secondary markets may be subject to irregular trading activity, wide bid/ask spreads and extended trade settlement periods. Consequently, the Fund may have difficulty disposing of assignments or participations in response to a specific economic event such as deterioration in the creditworthiness of the borrower, which can result in a loss. In such market situations, it may be more difficult for a value to be assigned to bank loans for the purposes of calculating a Fund's Net Asset Value.

Long-Short Strategy

Some Funds may employ long-short strategies. Long-short strategies generally seek to generate capital appreciation through the establishment of both long and short positions (through the use of financial derivative instruments) by purchasing perceived undervalued securities and selling perceived overvalued securities to generate returns and to reduce a portion of general market risk. If the analysis is incorrect or based on inaccurate information, these investments may result in significant losses to a Fund when the long and short sides of the portfolio both result in losses.

Market

The success of any investment activity is affected by general economic conditions which affect the level and volatility of prices as well as the liquidity of the markets. The prices of many securities and derivative instruments are highly volatile. The prices of investments and the income from them, and therefore the value of, and income from, Shares can fall as well as rise. The price movements of the instruments which a Fund will acquire or sell are influenced by, among other things, interest rates, changing supply and demand relationships, trade, fiscal, monetary and exchange control programs and policies of governments, and national and international political and economic events.

Governments from time to time intervene, directly and by regulation, in certain markets, particularly those in currencies and interest rates, disrupting strategies focusing on these sectors.

Model and Data Risk

The Investment Manager may use recommendations generated by proprietary quantitative analytical models. When executing an investment strategy using quantitative models, securities or other financial instruments selected can perform differently than expected, or from the market as a whole, as a result of a model's component factors, the weight placed on each factor, changes from the factors' historical trends, and technical issues in the construction, implementation and maintenance of the models (e.g., data problems, software issues, etc.).

Quantitative modelling is a very complex process involving numerous data points and settings encoded in computer software, and the Investment Manager and its affiliates review these codes and the various components to the models with a view to ensuring that they are appropriately adapted and calibrated to reflect the Investment Manager's views as to the potential implications of evolving external events and factors, including constantly changing economic, financial market and other conditions. This process involves the exercise of judgments and a number of inherent uncertainties. The Investment Manager's views, including those related to the optimal configuration, calibration and adaptation of the models, may change over time depending on evolving circumstances, on information that becomes available to the Investment Manager and its affiliates, and on other factors.

Although the Investment Manager attempts to ensure that the models are appropriately developed, operated and implemented, sub-optimal calibrations of the models and similar issues may arise from time to time, and neither the Investment Manager nor any of its affiliates can guarantee that the models are in an optimal state of calibration and configuration at all times. Further, inadvertent human errors, trading errors, software development and implementation errors, and other types of errors are an inherent risk in complex quantitative investment management processes of the type the Investment Manager employs. Although the Investment Manager's policy is to promptly address any such errors when identified, there can be no guarantee that the overall investment process will be without error or that it will produce the desired results.

Omnibus Cash Subscriptions, Redemptions and Dividends Account

The Company will operate an umbrella cash account in the name of the Company which shall be designated in different currencies into which subscription monies received from subscribers of all of the Funds and redemption and distribution monies due to Shareholder and/or former Shareholders who have redeemed Shares in the Funds pending payment to them shall be placed ("Omnibus Cash Subscriptions, Redemptions and Dividends Account"). All subscriptions, redemptions and dividends payable to or from the relevant Fund will be channelled and managed through the Omnibus Cash Subscriptions, Redemptions and Dividends Account and no such account shall be operated at the level of each individual Fund. The Omnibus Cash Subscriptions, Redemptions and Dividends Account shall be operated in accordance with the provisions of the Articles of Association. On issue of shares in relation to a subscription and/or on cancellation of shares relating to a redemption, the individual Fund will record that net monies are due from/to the Omnibus Cash Subscriptions, Redemptions and Dividends Account. On settlement of the subscriptions or redemptions, net monies will be transferred from/to the Omnibus Cash Subscriptions, Redemptions and Dividends Account to/from the relevant Fund.

Subscription monies received in respect of a subscription in a Fund in advance of the issue of Shares will be held in the Omnibus Cash Subscriptions, Redemptions and Dividends Account in the name of

the Company and will be treated as an asset of the Company. Subscribers will be unsecured creditors of the Umbrella Fund with respect to the amount subscribed and held by the Company until Shares are issued. As such, subscribers will not benefit from any appreciation in the Net Asset Value of the relevant Fund or any other Shareholder rights (including dividend entitlement) until such time as Shares are issued. In the event of an insolvency of the Fund or the Company, there is no guarantee that the Fund or Company will have sufficient funds to pay unsecured creditors in full. Any payment in respect of subscription monies made in advance of the issue of Shares by any subscriber is at such subscriber's own risk.

Payment of redemption proceeds and dividends in respect of a particular Fund is subject to receipt by the Transfer Agent of the original Account Opening Agreement and compliance with all requirements of opening and maintaining a shareholder account including but not limited to compliance with all money laundering prevention checks. Notwithstanding this, redeeming Shareholders will cease to be Shareholders, with regard to the redeemed Shares, and will be unsecured creditors of the particular Fund from the relevant Dealing Day. Pending redemptions and distributions (including blocked redemptions or distributions) will, pending payment to the relevant Shareholder, be held in the Omnibus Cash Subscriptions, Redemptions and Dividends Account in the name of the Company. Redeeming Shareholders and Shareholders entitled to such distributions will be unsecured creditors of the relevant Fund, and will not benefit from any appreciation in the Net Asset Value of the Fund or any other Shareholder rights (including further dividend entitlement), with respect to the redemption or distribution amount held in the Omnibus Cash Subscriptions and Redemptions Account. In the event of an insolvency of the relevant Fund or the Company, there is no guarantee that the Fund or the Company will have sufficient funds to pay unsecured creditors in full. Redeeming Shareholders and Shareholders entitled to distributions should ensure that any outstanding documentation and information is provided to the Transfer Agent promptly. Failure to do so is at such Shareholder's own risk.

In the event of the insolvency of another Fund of the Company (the "Insolvent Fund"), recovery of any amounts held in the Omnibus Cash Subscriptions, Redemptions and Dividends Account to which another Fund is entitled (the "Entitled Fund"), but which may have transferred to the Insolvent Fund as a result of the operation of the Omnibus Cash Subscriptions, Redemptions and Dividends Account, will be subject to the principles of Irish insolvency law and the terms of the operational procedures for the Omnibus Cash Subscriptions, Redemptions and Dividends Account. There may be delays in effecting and/or disputes as to the recovery of such amounts, and the Insolvent Fund may have insufficient funds to repay amounts due to the Entitled Fund.

Operational Risk

The Funds are subject to the impact of breakdowns in systems, internal procedures or human error of the Investment Manager and any of the Company's delegates or any of the Company's counterparties or the markets in which it trades.

Real Estate Investment Trusts

A Fund may invest in real estate securities, including REITs. REITs in which a Fund may invest may be affected by changes in underlying real estate values, which may have an exaggerated effect to the extent that REITs in which a Fund invests may concentrate investments in particular geographic regions or property types. Additionally, rising interest rates may cause investors in REITs to demand a higher annual yield from future distributions, which may in turn decrease market prices for equity securities issued by REITs. Rising interest rates also generally increase the costs of obtaining financing, which could cause the value of a Fund's investments to decline. During periods of declining interest rates,

certain mortgage REITs may hold mortgages that the mortgagors elect to prepay, which prepayment may diminish the yield on securities issued by such mortgage REITs. In addition, mortgage REITs may be affected by the ability of borrowers to repay when due the debt extended by the REIT and equity REITs may be affected by the ability of tenants to pay rent.

Certain REITs have relatively small market capitalisations, which may tend to increase the volatility of the market price of securities issued by such REITs. Furthermore, REITs are dependent upon specialised management skills, have limited diversification and are, therefore, subject to risks inherent in operating and financing a limited number of projects. REITs depend generally on their ability to generate cash flow to make distributions to investors.

Reliance on the Investment Managers

The profitability of a significant portion of a Fund's investment programme will depend upon the Investment Manager correctly assessing future price movements in securities. There can be no assurance that the Investment Manager will be able accurately to predict these price movements, even during market periods which are favourable to most other managers. Each strategy selected for a Fund will be unlikely to achieve its objectives under certain market conditions which may prevail for substantial periods of time after a Fund begins operating or allocates assets to a particular strategy.

The success of an Investment Manager in the past is not necessarily a reliable indicator of its prospects for future profitability. Speculative trading and investment strategies involve substantial risks, and the outcomes are uncertain.

Repurchase Agreements

A Fund may engage in repurchase agreements with banks or broker-dealers subject to the conditions and limits set out in the Central Bank's Rulebook. A repurchase agreement is an investment in which the relevant Fund sells ownership of securities and agrees to repurchase the securities at a future time and set price. Repurchase agreements involve certain risks in the event of default by the other party.

In the event the buyer of the securities files for bankruptcy or becomes insolvent, the relevant Fund's use of the proceeds of the agreement may be restricted pending the close out and set off process under the repurchase agreement, including the valuation of the securities held by the other party as collateral.

A Fund may engage in sell-buy back agreements which operate in a similar way and are subject to the same risks as repurchase agreements.

Reverse Repurchase Agreements

A Fund may enter into reverse repurchase agreements with banks or broker-dealers subject to the conditions and limits set out in the Central Bank's Rulebook. Reverse repurchase agreements involve a purchase by the relevant Fund of securities concurrently with an agreement by the seller to repurchase the same securities at a later date at a fixed price.

In the event of the bankruptcy or other default of the seller, the relevant Fund could experience both delays in liquidating the underlying securities and losses, including (i) possible decline in the value of the underlying security during the period while it seeks to enforce its rights thereto; (ii) possible lack of access to income on the underlying security during this period; and (iii) expenses of enforcing its rights.

A Fund may engage in buy-sell back agreements which operate in a similar way and are subject to the same risks as reverse repurchase agreements.

Securities Lending

Where a Fund enters into securities lending arrangements there are risks in the exposure to market movements on the value of collateral if the counterparty defaults and recourse has to be had to collateral, or if there is fraud or negligence on the part of the Depositary, the Investment Managers or lending agent. In addition there is an operational risk associated with marking to market daily valuations and there are the potential stability risks of providers of collateral. The principal risk in such securities lending arrangements is the insolvency of the counterparty. In this event the Company could experience delays in recovering its securities and such event could possibly result in capital losses.

Structured Notes

Structured Notes are used to gain access to certain markets where direct investment may not be possible. Structured Notes are securities issued by a financial institution or special purpose entity, the performance of which depends on the performance of a corresponding asset. Typically the redemptions or repayment proceeds from the Structured Notes replicate the underlying asset. However, such Structured Notes may embed a derivative such as an option, swap, forward or future as described in the section entitled **Types and Description of FDIs**, which has the effect of adjusting the proceeds received. As a result, the note's coupon, average life, and/or redemption values can become exposed to the forward movement in various indices, equity prices, foreign exchange rates or mortgage backed security prepayment speeds. Leverage is created as the payment of a low purchase price can provide a Fund with a larger exposure than its outlay and a small change in the price of the underlying asset can produce a disproportionately larger profit or loss. Structured Notes are generally subject to the same risks as direct holdings of securities of foreign issuers. Moreover, Structured Notes are also subject to the default risk of the issuer of the Structured Notes. Structured Notes are also subject to the liquidity risks.

Tax and Other Regulatory Considerations

Certain prospective Shareholders may be subject to laws, rules and regulations which may regulate their participation in the Fund or their engaging directly, or indirectly through an investment in the Fund, in investment strategies of the types which the Fund may utilise from time to time (e.g., short selling). Prospective Shareholders should consult with their own advisors as to the advisability and tax consequences of an investment in the Fund. Prospective Shareholders should also be aware that the tax treatment of the Fund, as well as their investment, may change over time.

Technology and Data

The Company and its service providers rely heavily on the use technology, including proprietary and third-party software and data, to run substantially all aspects of the management of the Fund. For example, the majority of trade instructions are entered by Fund managers and executed by traders utilising electronic systems, some of the Funds use quantitative equity models to assess the attractiveness of investments or Fund construction models to generate suggested trades or investment weightings. Compliance with investment guidelines is monitored utilising electronic systems and data provided by various proprietary and third-party sources.

Processes reasonably designed for developing, selecting and overseeing these technology systems and databases, in particular controls designed to assure that technology systems are sound and the systems suppliers that are relied on are reputable and competent and risk based controls around the use of data which include diligence of third party service providers, monitoring data sources for inaccurate or missing data, and escalation procedures may not be successful in completing mitigating the risk of system defects and/or inaccurate or missing data.

Systems flaws and inaccurate data may go undetected for long periods of time, or avoid detection altogether. These issues could have a negative (or positive) impact on the investment performance of a Fund.

United Kingdom leaving the European Union

The United Kingdom's referendum held on 23 June 2016 resulted in a majority voting in favour of the United Kingdom ("UK") leaving the EU. As of now the UK is still a part of the EU notwithstanding that vote. The UK parliament issued the Article 50 notice to formally start the process to leave the EU, which notice period has subsequently been extended. By the date of this Prospectus either (i) the Article 50 notice period will have been extended again, (ii) the UK will have left the EU with a deal setting out the terms of its exit or (iii) the UK will have left the EU without any deal. If the Article 50 notice period is extended the UK will continue to be a member of the EU until the end of the extension period.

If the UK leaves the EU with or without a deal, depending on the terms of any deal, the Funds may be negatively impacted by changes in law and tax treatment resulting from the UK's departure particularly as regards any UK domiciled investments held by the Fund in question and the fact that the Company may no longer have a right to market and sell shares in the Funds in the UK, following the UK's exit from the EU. In addition, UK domiciled investors in the Funds may be impacted by changes in law, particularly as regards UK taxation of their investment in a Fund, resulting from the UK's departure from the EU. This will all be dependent on the terms of the UK's exit, which continue to be negotiated by the UK and the rest of the EU, and UK law following such an exit.

There is likely to be a degree of continued market uncertainty regarding this exit process which may also negatively impact the value of investments held by the Funds.

Ireland will remain a member of the EU and the Funds remain EU regulated UCITS that can avail of passporting rights under the UCITS Directive and the Regulations to market and sell shares in the Funds in the EU, subject to complying with the terms of the UCITS Directive and the Regulations.

Valuation

The Administrator may consult the Investment Managers with respect to the valuation of investments which are (i) unlisted, or (ii) listed or traded on a Market but where the market price is unrepresentative or not available. There is a possible conflict of interest because of an Investment Managers' role in determining the valuation of the Funds' investments and the fact that the Investment Managers receive a fee which increases as the value of the Fund increases.

144A Securities

Certain Funds may purchase Rule 144A securities, which are securities that are not registered under the 1933 Act, but that can be sold to certain institutional buyers in accordance with Rule 144A under the 1933 Act. Rule 144A Securities may involve a high degree of business and financial risk and may result in substantial losses. These securities may be less liquid than publicly traded securities, and a

Fund may take longer to liquidate these positions than would be the case for publicly traded securities. Although these securities may be resold in privately negotiated transactions, the prices realised from these sales could be less than those originally paid by a Fund. Further, companies whose securities are not publicly traded may not be subject to disclosure and other investor protection requirements that would be applicable if their securities were publicly traded.

The Net Asset Value of the Shares will fluctuate and may be worth more or less than the acquisition price when redeemed or sold. There is no assurance that a Fund's investment objective will be achieved.

DEALING IN SHARES

Available Share Classes

Shares in each Fund may be issued with different characteristics relating to (i) target investor profile, (ii) currency of denomination, (iii) any related hedging strategy and (iv) distribution policy. Complete details of the characteristics of each available Share Class are set out in Appendix III and in each Supplement.

Class S Shares are available only for Institutional Investors.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee of up to 1.00% of the Net Asset Value attributable to the Class D Shares is payable.

Other Share Classes

Some of the Share Classes listed below may be available in certain Funds. Details of these are set out in the relevant Supplement, as applicable.

Class R Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders invested as at 30 September 2013 and in respect of whom a distribution fee of up to 1.10% of the Net Asset Value attributable to the Class R Shares is payable. This Share Class is closed to investors from outside the Class.

Class G Shares (including the Class GN, Class GD and Class GR Shares) are reserved for existing Shareholders whose previous Shares have been changed, and serves as a "grandfathered" Class enabling the Shareholders to remain invested without undergoing those changes. This Share Class is closed to investors from outside the Class, and the Company also reserves the right to close the Class to additional subscriptions from existing G, GN, GD and GR Class Shareholders in any particular Fund. A distribution fee of up to 0.75% is payable in respect of the Class GR and GD Shares.

Class NI and NR Shares are reserved for certain investors, acting as financial intermediaries on behalf of underlying beneficial holders.

Class E Shares are available to certain investors until the total Net Asset Value of the relevant Fund reaches a pre-defined limit as stated in the relevant Supplement.

Class EN Shares are available to investors who are acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S or E Shares. EN Shares are available until the total Net Asset Value of the relevant Fund reaches a pre-defined limit as stated in the relevant Supplement. No distribution fee is paid in respect of the Class EN Shares.

Class ED Shares are available to investors who are acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee of up to 0.80% of the Net Asset Value attributable to the Class ED Shares is payable. ED Shares are available until the total Net Asset Value of the relevant Fund reaches a pre-defined limit as stated in the relevant Supplement.

Class DL Shares are reserved for investors in certain markets, acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee of up to 1.30% of the Net Asset Value attributable to the Class DL Shares is payable.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class SB and SC Shares are reserved for Institutional Investors.

Class TB and TC Shares are reserved for Institutional Investors that have a direct investment advisory or other relationship with the Investment Managers or an affiliate, and for investment by the Investment Managers and/or their affiliates (including affiliated pension plans).

Class BN Shares are reserved exclusively for clients of a financial intermediary, approved by the Company, that hold the Shares on behalf of underlying beneficial holders. No distribution fee is paid in respect of Class BN Shares, instead a higher investment management fee relative to other Share Classes is applied, part of which is paid to the relevant intermediary holding these Share Classes to compensate them for distribution and/or shareholder services provided to underlying beneficial owners of these Shares. For further details of such rebate arrangements, please refer to the **Investment Management Fees** sub-section in the **Charges and Expenses** section.

In addition, Shares in each Fund may be denominated in either the Fund's Base Currency or in another Dealing Currency, they may be either hedged or unhedged and either Distributing Shares or Accumulating Shares. With respect to unhedged Share classes not in Base Currency, a currency conversion at the prevailing spot currency exchange rate of the relevant Base Currency for the currency of the relevant Share class will take place with respect to subscriptions, redemptions and dividend distributions and the value of the unhedged Shares expressed in the Dealing Currency will be subject to exchange rate risk in relation to the Base Currency.

Additional Share Classes may be available in certain Funds. Details of these are set out in the relevant Supplement, as applicable.

Application for Shares

It is intended that Shares normally will be issued on the Dealing Day for which an application is received in good order by the relevant Dealing Deadline.

Accounts must be opened by submission of an Account Opening Agreement sent by mail or by facsimile to the Transfer Agent at the address/facsimile number indicated in the Investor Guide. If sent by facsimile, the original signed Account Opening Agreement (and supporting documentation in relation to money laundering prevention checks) must be promptly sent by courier or air mail to the Transfer Agent and no Shares will be issued until these documents have been received and the actual money laundering prevention checks have been completed. Upon acceptance of the Account Opening Agreement by the Transfer Agent, applications for Shares should be made to the Transfer Agent as specified in the Investor Guide. Valid applications made in accordance with the requirements set out in the Investor Guide will be treated by the Company as definitive orders and will not be capable of withdrawal after acceptance by or on behalf of the Company. Full details on subscription and payment requirements are available from the Transfer Agent. In addition, prospective investors should consult the current version of the Investor Guide, which may be obtained from the Transfer Agent or the Investment Managers, for the current dealing procedures.

Payment is due in the relevant Dealing Currency on or before the Settlement Date. A Fund's current settlement cut-off times and policies are included in the Investor Guide. If an application is received after the relevant Dealing Deadline or relevant payment received after the relevant Settlement Date, the application and/or payment, as the case may be, shall, unless otherwise determined by the Directors or their delegate, be deemed to have been received by the following relevant Dealing Deadline or Settlement Date. Payments made by the investors to the Company in relation to subscriptions are received into an omnibus account held in the name of the Company and therefore upon receipt are treated as assets of the Company. As assets of the Company such subscription monies do not have the benefit of the protections afforded by the Central Bank (Supervision and Enforcement) Act 2003 (Section 48(1)) Investor Money Regulations 2015 for Fund Service Providers (S.I. 105 of 2015) (as amended). For further details see the Omnibus Cash Subscriptions, Redemptions and Dividends Account paragraph in the section entitled **Risk Factors**.

Subscriptions for Shares should be received in the relevant Dealing Currency. However, by agreement with the Administrator and the Company, alternative currencies can be facilitated but will be converted into the currency of the class at the rate of exchange available to the Administrator. The same logic will be applied to redemptions and exchange transactions. Any costs and risks of conversion shall be borne fully by the investor or Shareholder (as applicable), details of which are available on request. Payments relating to any instruction received to process an exchange of any Shares will be made directly between the relevant Funds in the currency of each relevant Share. Where a foreign exchange trade is required to facilitate this, such trade will be processed as described above. All related bank charges are to be borne by the investor or the Shareholder (as applicable).

Shares of each Class shall be, or were, offered at the Initial Issue Price set out in the relevant Supplement during the Initial Offer Period for such Class of Shares. Thereafter Shares of such Class will be available for subscription at the Net Asset Value per Share of the relevant Class.

The Minimum Initial Subscription, Minimum Subsequent Subscription and Minimum Holding Amounts for each Class are set out in the relevant Supplement. Such amounts and any other eligibility criteria applicable to the relevant Class of Shares may be waived by the Directors or Investment Manager, at its discretion.

Payment by wire transfer should quote the information precisely as specified in the Investor Guide. Any charges incurred in making payment by wire transfer will be payable by the applicant.

Securities transactions may be made in respect of subscriptions prior to settlement, and as agreed in the Account Opening Agreement, investors will be liable for any interest, losses or other costs incurred as a result of failing to settle an order within the time frames agreed to in the Investor Guide. The Directors or their delegate reserve the right to require other settlement procedures (such as shortened settlement period) for large orders or in other circumstances that, in the Investment Manager's judgment, present settlement risk.

The Directors may in their absolute discretion, provided that they are satisfied that no material prejudice would result to any existing Shareholders and subject to the provisions of the Companies Act 2014 (the **Companies Act**), allot Shares of any class of a Fund against the vesting in the Company of investments which would form part of the assets of the relevant Fund. The number of Shares of a Fund to be issued in this way shall be the number which would on the day the investments are vested in the relevant Fund of the Company have been issued for cash against the payment of a sum equal to the value of the investments. The value of the investments to be vested shall be calculated on such basis as the Directors may decide and as described under the section entitled **Issue and Redemption Prices/Calculation of Net Asset Value/Valuation of Assets** below.

The Company may decline any application for Shares in whole or in part without assigning any reason therefor and will not accept an initial subscription for Shares of any amount (exclusive of the preliminary charge, if any) which is less than the Minimum Initial Subscription unless the Minimum Initial Subscription is waived by the Directors or their delegate. In particular, the Directors may close any Share Class or Fund to additional investment on such terms as they determine if they believe any Fund has reached a size that could impact on the ability of the Fund to find suitable investments, and may reopen a Share Class or Fund without advance notice at any time. If an application is rejected, the Company, at the risk of the applicant, will return application monies or the balance thereof by wire transfer at the cost of the applicant, within five Business Days of the rejection. No interest will be paid on subscription amounts.

Applications for Shares must be made for specified amounts in value or specified numbers of Shares. Fractional shares of not less than 0.001 of a Share may be issued. Subscription monies representing smaller portions of Shares will not be returned to the applicant but will be retained as part of the assets of the relevant Fund. Shares will be issued in registered form. Written confirmations of entry in the register of Shareholders will be issued within five Business Days after the Dealing Day on which Shares are allotted and paid for.

The Account Opening Agreement contains certain conditions regarding the application procedure for Shares in the Company and certain indemnities in favour of the Company, the Investment Managers, the Administrator, the Transfer Agent, the Depositary and the other Shareholders for any loss suffered by them as a result of such applicant or applicants acquiring or holding Shares in the Company.

Shares may not be issued or sold by the Company during any period when the calculation of the Net Asset Value of the relevant Fund is suspended in the manner described under the section entitled **Suspension of Calculation of Net Asset Value** below. Applicants for Shares will be notified of such suspension and, unless withdrawn, their applications will be considered as at the next Dealing Day following the ending of such suspension.

Anti-Money Laundering

The Company and its agents have a responsibility to comply with all applicable laws and regulations designed to combat money laundering activity and terrorist financing. Applicants for Shares may be required to furnish independent documentary evidence of their identity, a permanent address and information relating to the source of the monies to be invested. In the event of delay or failure by the applicant for Shares to produce any information required for verification purposes, the Company or its duly authorised agents may refuse to accept the application or may refuse to process a redemption request until proper information has been provided.

To the extent that an investor is purchasing the Shares on behalf of, or as an intermediary for, one or more of its clients, the investor will represent and confirm that:

(i) the purchase of such Shares shall be for the benefit of certain clients for whom the investor has an established relationship and investment discretion, or who have authorised this investment; and

(ii) the investor has obtained and recorded evidence of the identity of its clients who have invested in the Company in accordance with applicable money laundering regulations and prudent due diligence procedures. The investor will inform the Company immediately in the event of any change in this internal procedure or in the event the investor uncovers additional information about a client that would make this representation no longer true.

Applicants and investors should note that pursuant to the European Union (Anti-Money Laundering: Beneficial Ownership of Corporate Entities) Regulations 2019 (as may be amended from time to time), an investor may be required to disclose its ownership rights in the shares of each Fund and where such investor holds greater than 25% of the Shares of the Company, such investor's name shall be entered on a beneficial ownership register maintained by the Company or its delegates.

Redemption of Shares

Requests for the redemption of Shares should be made to the Transfer Agent in accordance with the requirements set out in the Investor Guide and will be treated as definitive orders and requests received by or on behalf of the Company on or prior to the Dealing Deadline will normally be dealt with on the relevant Dealing Day. The Directors may at their discretion require greater notice to be given to the Transfer Agent in respect of redemption requests of a significant size so as to facilitate an orderly disposition of securities in the interests of the remaining Shareholders. Amendments to a Shareholder's registration details and payment instructions will only be effected on receipt of original documentation. Any communication of amendments related to such items where the original documentation has not been received may delay the settlement of a redemption. Redemption requests received after the Dealing Deadline shall be treated as having been received by the following Dealing Deadline unless otherwise determined by the Directors or the Investment Manager of the relevant Fund. A redemption request will not be capable of withdrawal after the relevant Dealing Deadline, unless such withdrawal is approved by the Directors, acting in their absolute discretion. The Company may, in its absolute discretion and subject to the prior approval of the Depositary, agree to designate additional Dealing Days and Valuation Points for the redemption of Shares relating to any Fund which has not designated every Business Day as a Dealing Day.

Payment of redemption proceeds will be made to the registered Shareholder or in favour of the joint registered Shareholders, as appropriate, unless the Transfer Agent is otherwise instructed in writing by the registered Shareholder or joint registered Shareholders. Payments pending distribution to investors from the Company in relation to redemptions are received into an omnibus account held in the name

of the Company and therefore upon receipt are treated as assets of the Company. As assets of the Company such redemption monies do not have the benefit of the protections afforded by the Central Bank (Supervision and Enforcement) Act 2003 (Section 48(1)) Investor Money Regulations 2015 for Fund Service Providers (S.I. 105 of 2015) (as amended). For further details see the Omnibus Cash Subscriptions, Redemptions and Dividends Account paragraph in the section entitled **Risk Factors**.

The amount due on redemption of Shares will be paid by wire transfer at the Shareholder's expense or by negotiable instrument in the Dealing Currency of the relevant Class of Shares (or in such other currency as may be approved by the Directors from time to time) on or before the Settlement Date.

The Company is entitled to limit the number of Shares of any Fund redeemed on any Dealing Day to 10% of the total number of Shares of that Fund in issue. In this event, the limitation will apply pro rata so that all Shareholders wishing to have Shares of that Fund redeemed on that Dealing Day realise the same proportion of redeemed Shares. Shares not redeemed, but which would otherwise have been redeemed, will be carried forward for redemption on the next Dealing Day and will be dealt with in priority (on a pro rata basis) to redemption requests received subsequently. If requests for redemption are so carried forward, the Transfer Agent will inform the Shareholders affected.

If a Shareholder submits a redemption request which would have the effect of reducing the value of the Shareholder's remaining holdings below the Minimum Holding Amount for the Fund, the Company may treat the redemption request as a request to redeem the Shareholder's entire holdings.

The Articles contain special provisions with respect to a redemption request received from a Shareholder which would result in more than 5% of the Net Asset Value of Shares of any Fund being redeemed by the Company on any Dealing Day. In such a case, the Company may satisfy the redemption request in whole or in part by a distribution of investments of the relevant Fund in specie, provided that such a distribution would not be prejudicial to the interests of the remaining Shareholders of that Fund. The allocation of the investments of the relevant Fund is subject to the approval of the Depositary. Where a Shareholder requesting such redemption receives notice of the Company's intention to elect to satisfy the redemption request by such a distribution of assets, the Shareholder may require that the Company, instead of transferring those assets, arrange for their sale and the payment of the net proceeds of sale to that Shareholder.

When a repurchase request has been submitted by an investor who is or is deemed to be or is acting on behalf of a Taxable Irish Person, the Company shall deduct from the repurchase proceeds an amount which is equal to the tax payable by the Company to the Revenue Commissioners in Ireland in respect of the relevant transaction.

The Company may redeem all the Shares of any Fund if, at any time after the initial issue of such Shares, the Net Asset Value of the relevant Fund is less than such amount as the Directors determine, in their sole discretion, is adequate to maintain a Fund of sufficient size to serve the best interests of its Shareholders.

Exchange of Shares

Shareholders of each Share Class will be able to apply to exchange on any Dealing Day all or part of their holding of Shares of any Class (the "Source Class") for Shares of another Class which are being offered at that time whether in relation to the same Fund or in another Fund of the Company as specified in the Investor Guide (the "Target Class"), provided that all criteria for subscription into the Target Class have been met, by giving notice to the Transfer Agent on behalf of the Company on or prior to the Dealing Deadline for the relevant Dealing Day. The general provisions and procedures

relating to redemptions will apply equally to exchanges. All exchanges will be treated as a redemption of the Shares of the Source Class and application of the net proceeds to the purchase of Shares of the Target Class, based upon the then current sales and redemption prices of Shares in each Fund. There is presently no fee charged for any exchange. The Articles allow for an exchange fee of up to 1% of the total sales price of the Shares of the Target Class purchased to be charged, and the Directors reserve the right to impose such a fee, upon giving at least 30 days written notice to Shareholders.

Market Timing

The Company, at its discretion, reserves the right to refuse to accept any application for initial or subsequent subscription or to compulsorily redeem Shares held by any Shareholder, without giving any reason where the Company suspects market timing. Without limiting the foregoing, and as further described below, the Company may not be used as a vehicle for frequent trading in response to short term market fluctuations (so called "market timing"). Accordingly, the Company may reject any subscriptions (or compulsorily redeem Shares) from any investor that it determines is engaged in market timing or other activity which it believes is harmful to the Company or any Fund. If a subscription is rejected, subscription proceeds will be returned without interest to the subscriber, as soon as practicable. There is no guarantee that the Company or its agents will be able to recognise Shareholders engaged in this activity or curtail their trading practices.

Excessive Trading Policies

The Company emphasises that all investors and Shareholders are bound to place their subscription, redemption or exchange order(s) no later than the relevant Dealing Deadline for transactions in the Fund's Shares. Late trading is not accepted.

Excessive trading into and out of a Fund can disrupt portfolio investment strategies and increase the Fund's operating expenses. The Funds are not designed to accommodate excessive trading practices. The Directors reserve the right to restrict, reject or cancel purchase, redemption and exchange orders as described above, which represent, in their sole judgment, excessive trading.

Shareholders seeking to engage in excessive trading practices may deploy a variety of strategies to avoid detection, and there is no guarantee that the Company or its agents will be able to recognise such Shareholders or curtail their trading practices. The ability of the Company and its agents to detect and curtail excessive trading practices may also be limited by operational systems and technological limitations.

To the extent that the Company or its agents are unable to curtail excessive trading practices in a Fund, these practices may interfere with the efficient management of the Fund's portfolio, and may result in the Fund engaging in certain activities to a greater extent than it otherwise would, such as maintaining higher cash balances, using a line of credit and engaging in portfolio transactions. Increased portfolio transactions and the use of a line of credit would correspondingly increase a Fund's operating costs and decrease the Fund's investment performance, and maintenance of a higher level of cash balances would likewise result in lower Fund investment performance during periods of rising markets.

Structured Products

Shareholders shall not structure or facilitate the structuring of, nor shall an investment in the Fund be associated with the structuring of, any financial product which is linked in any way to the investment in the Fund unless the Shareholder has given prior written notification to the Company, the Investment Manager or the Distributor. In the event that a Shareholder in the Fund fails to comply with the

aforementioned requirement, then the Company reserves the right, at its sole discretion, to compulsorily repurchase and cancel any Shares held by the Shareholder and neither the Distributor, the Investment Manager nor the Company shall be liable whatsoever for any loss, liability or cost incurred or suffered by the Shareholder.

Issue and Redemption Prices / Calculation of Net Asset Value / Valuation of Assets

During the Initial Offer Period of the relevant Fund, the issue price for Shares of such a Fund shall be, or was, the amount(s) set out in the relevant Supplement. The issue price at which Shares of any Fund will normally be issued on a Dealing Day, after the Initial Offer Period, is calculated by ascertaining the Net Asset Value of the relevant Fund as at the Valuation Point for that Fund for the relevant Dealing Day and may include an adjustment for swing pricing as fully described in the section entitled **Swing Pricing Procedure**.

The Net Asset Value of the relevant Fund is equal to the value of the assets of the relevant Fund as at the relevant Valuation Point less its liabilities (including specific charges, if any, applicable to a particular Class of Shares). The Net Asset Value per Share of the relevant Fund is calculated by dividing the Net Asset Value of the relevant Fund, by the total number of Shares in issue at the relevant Valuation Point. If a Fund has more than one Class of Shares, additional fees may be charged against certain Classes, and details of such fees will be set forth under the section entitled **Charges and Expenses** and in the Supplement for the relevant Fund. This may result in the Net Asset Value per Share of each Class being different. The Valuation Point for a Fund is as of the close of business of the New York Stock Exchange on the relevant Dealing Day. Where each Fund has more than one Class of Shares, the Net Asset Value per Share of each Class will be calculated by dividing the net assets attributable to the relevant Class, by the total number of Shares in issue in the relevant Class at the relevant Valuation Point. The Net Asset Value per Share in each case is the resulting sum rounded to the nearest four decimal places, save for JPY Share Classes where it is the resulting sum rounded to the nearest currency unit. For Hedged Share Classes and the SC and TC Share Classes, the Net Asset Value also reflects the general costs and either gains or losses of the derivative transaction which will accrue solely to the relevant Share Class as individual derivative transactions are attributed specifically to the relevant Share Class.

The Articles provide for the method of valuation of the assets and liabilities of each Fund for the purpose of calculating the Net Asset Value of each Fund.

Securities which are listed or traded on a Market may be valued at last traded prices; where a security is listed on several exchanges, the relevant market shall be the one which constitutes the main market or the one which the Directors determine provides the fairest criteria in a value for the security. Securities listed or traded on a Market, but acquired at a premium or at a discount outside or off the relevant market may be valued taking into account the level of premium or discount at the date of valuation and the Depositary must ensure the adoption of such a procedure is justifiable in the context of establishing the probable realisation value of the security.

Securities which are listed or traded on a Market where the market price is unrepresentative or not available and unlisted securities shall be valued at the probable realisation value estimated with care and in good faith by the Directors; a competent person appointed by the Directors and approved for the purpose by the Depositary; or any other means provided the value is approved by the Depositary.

Fixed income securities may be valued using matrix pricing (i.e. valuing securities by reference to the valuation of other securities which are considered comparable in rating, yield, due date and other

characteristics) where reliable market quotations are not available. The use of the matrix methodology will be determined by the Directors.

Units of collective investment schemes shall be valued at the latest available net asset value per unit as published by the collective investment scheme; the latest bid prices as published by the collective investment scheme; or if the scheme is listed on a Market, the latest market prices.

Cash (in hand or deposit) is valued at face/nominal value plus accrued interest.

Exchange traded futures and options contracts (including index futures) and other derivatives shall be valued based on the settlement price as determined by the market in question, provided that if a settlement price is not available, the value shall be the probable realisation value estimated with care and in good faith by the Directors or a competent person appointed by the Directors and approved for the purpose by the Depositary; or they will be valued by any other means provided the value is approved by the Depositary.

Over-the-counter derivative contracts will be valued on a daily basis. This may be done using the counterparty valuation provided that the valuation will be approved or verified by a party who is approved for the purpose by the Depositary and who is independent of the counterparty and the independent verification will be carried out at least weekly. An alternative valuation may be used provided that the Fund follows international best practice and adheres to the principles on valuation of OTC instruments established by industry bodies; the alternative valuation is that provided by a competent person appointed by the Directors and approved for the purpose by the Depositary, or a valuation by any other means provided that the value is approved by the Depositary; and the alternative valuation will be reconciled to the counterparty valuation on a monthly basis. Where significant differences arise these will be promptly investigated and explained.

Forward foreign exchange and interest rate swap contracts will be valued according the same method set out for over the counter derivatives above or by reference to freely available market quotations.

Collateral received by the Company will be valued in accordance with these valuation procedures. Daily mark to market and daily variation margins are not expected to be used for these purposes.

A particular/specific asset may be valued using an alternative method of valuation if the Directors deem it necessary and the alternative method must be approved by the Depositary. For example fixed income securities may be valued using an evaluation methodology, that may include matrix pricing described above, where such method provides a more reliable price. Any such evaluation methodology will be based on the Company's Valuation Policy and Procedures.

The value of an asset may be adjusted by the Directors where such an adjustment is considered necessary to reflect the fair value in the context of currency, marketability, dealing costs and/or such other considerations which are deemed relevant.

The amortised cost method of valuation may only be used in relation to Funds which comply with the Central Bank's requirements for short-term money market funds and where a review of the amortised cost valuation vis-à-vis market valuation will be carried out in accordance with the Central Bank's guidelines.

Money market instruments in a money-market or a non-money-market Fund may be valued on an amortised basis in accordance with the Central Bank's requirements.

The Net Asset Value per Share of each Class will be available from the Administrator on request and in addition is published daily on www.wellingtonfunds.com as well as Bloomberg's website, www.bloomberg.com.

The Company may, in calculating the issue price, include in the issue price in respect of each Fund, for its own account, a charge sufficient to cover stamp duties and taxation (if any) in respect of the issue of Shares or certificates and delivery and insurance costs in respect of certificates.

The price at which Shares will be redeemed on a Dealing Day is calculated by ascertaining the Net Asset Value per Share or per Share in the relevant Class (as the case may be), in the manner outlined above. In addition, the Company may, in calculating the redemption price, deduct such sum as the Directors consider fair, in respect of redemption or exchange requests which will necessitate the Company breaking deposits at a penalty or realising investments at a discount, in order to realise assets to provide moneys to meet such redemption or exchange requests or, in the event that the Company borrows funds to meet any such redemption or exchange request, a sum to meet the cost of such borrowing.

Swing Pricing Procedure

Funds may suffer dilution of the Net Asset Value per Share due to investors buying or selling Shares at a price that does not take into account dealing and other costs arising when the Investment Manager makes or sells investments to accommodate cash inflows or outflows. To counteract this, a partial swing pricing mechanism may be adopted to protect Shareholders' interests. If on any Dealing Day, the aggregate net transactions in Shares for a Fund exceeds a pre-determined threshold, as determined by the Company from time to time, the Net Asset Value may be adjusted upwards or downwards to reflect net inflows and net outflows respectively as a means of apportioning trading costs associated with such transactions to the investors that create these costs in order to protect existing or remaining Shareholders. Where the Net Asset Value is adjusted upwards subscribing investors will pay and redeeming Shareholders will receive a higher Net Asset Value per Share than they would have done had the Net Asset Value not been adjusted. Where the Net Asset Value is adjusted downwards subscribing investors will pay and redeeming Shareholders will receive a lower Net Asset Value per Share than they would have done had the Net Asset Value not been adjusted. The extent of the price adjustment will be set by the Company to reflect bid-ask spreads, transaction taxes, dealing and other costs. Such adjustment is not expected to exceed 3% of the original Net Asset Value per Share. Partial swing pricing may be applied by the Company to any Fund of the Company and is not aimed at addressing the specific circumstances of each individual investor transaction. The swing factor and swing thresholds are set and reviewed on a quarterly basis by a Wellington Management group swing pricing review governance group, which reports to the board of the Company on a quarterly basis. This group has the ability to respond to market events (e.g. higher market volatility) and make intra quarter adjustments. In any other cases where there are net subscriptions or redemptions in a Fund and the Directors reasonably believe that imposing a partial swing price is in the best interests of existing Shareholders, the Company may, at its discretion, impose one.

Suspension of Calculation of Net Asset Value

The Company may at any time temporarily suspend the calculation of the Net Asset Value of any Fund and the right of Shareholders to require the redemption or exchange of Shares of any Class during (i) any period when any of the principal markets or stock exchanges on which a substantial part of the investments of the relevant Fund are quoted is closed, otherwise than for ordinary holidays, or days during which dealings therein are restricted or suspended; (ii) any period when, as a result of political, economic, military or monetary events or any circumstances outside the control, responsibility and power of the Directors, disposal or valuation of investments of the relevant Fund is not reasonably

practicable without this being seriously detrimental to the interests of Shareholders of the relevant Class or if, in the opinion of the Directors, redemption prices cannot fairly be calculated; (iii) any breakdown in the means of communication normally employed in determining the price of any of the Company's investments and other assets or when for any other reason the current prices on any market or stock exchange of any assets of the relevant Fund cannot be promptly and accurately ascertained; or (iv) any period during which the Company is unable to repatriate funds required for the purpose of making payments due on redemption of Shares of any Class or during which the transfer of funds involved in the acquisition or realisation of investments or payments due on redemption of Shares cannot, in the opinion of the Directors, be effected at normal prices or normal rates of exchange. The Central Bank may also require the suspension of redemption of Shares of any Class in the interests of the Shareholders or the public. The Company will, whenever possible, take all reasonable steps to bring any period of suspension to an end as soon as possible.

Shareholders who have requested issue or redemptions of Shares of any Class or exchanges of Shares of one Class to another will be notified of any such suspension in such manner as may be directed by the Directors and their requests will be dealt with on the first Dealing Day after the suspension is lifted. The Central Bank shall be notified immediately and in any event within the same business day, of any such suspension.

Restriction on Ownership and Transfer of Shares

The Articles of Association of the Company give powers to the Directors to impose restrictions on the holding of Shares by (and consequently to redeem Shares held by), or the transfer of Shares to, United States Persons or by any person who appears to be in breach of the laws or requirements of any country or government authority or by any person or persons in circumstances (whether directly or indirectly affecting such person or persons, and whether taken alone or in conjunction with any other persons, connected or not, or any other circumstances appearing to the Directors to be relevant) which, in the opinion of the Directors, might result in the Company incurring any liability to taxation or suffering any other pecuniary or regulatory disadvantages which the Company might not otherwise have incurred or suffered. In the absence of express approval by the Directors, Shares may not be beneficially held by any Restricted Person or Covered Person. The Articles of Association also permit the Directors where necessary to repurchase and cancel Shares held by a person who is or is deemed to be or is acting on behalf of a Taxable Irish Person on the occurrence of a chargeable event for taxation purposes.

CHARGES AND EXPENSES

Investment Management Fees

The Investment Manager shall be paid an investment management fee out of the assets of each of the Funds. The investment management fee is calculated as a percentage of the daily net assets attributable to each Class of Shares, accrued daily in the Net Asset Value of the relevant Class of Shares and paid quarterly in arrears at the annual rate set out in the relevant Supplement. In addition to the investment management fee, a performance fee may also be payable to the Investment Manager in respect of certain Funds as described in further detail in the Performance Fees section below and in the relevant Supplement.

Where permitted by applicable regulation, the Investment Manager may in its own discretion, rebate out of its own assets all or a portion of its fees to financial intermediaries who purchase or solicit sales of Shares of the Funds for their underlying clients. Investors should ask their financial intermediaries about any such payments they may receive, and any associated conflicts of interest they may have in recommending a Fund. Financial intermediaries may impose additional costs and fees in connection

with their own programmes or services. In addition, the Investment Manager may enter into an arrangement with any single investor whereby it rebates out of its own assets all or a portion of its fees. Such arrangements will result in some investors paying lower investment management or performance fees than other investors.

Performance Fees

In addition to the base investment management fee, the Investment Manager may also be paid a performance fee for certain Classes of certain Funds, based on the Class' net return (net of the Fund's base investment management fee and administrative fee but gross of any distribution fee applicable). The Performance Period is generally the Fund's fiscal year (1 January – 31 December), but may also refer to periods from the launch of a Class to the fiscal year end or from the fiscal year end to the closure of a Class.

The performance fee is accrued daily in the Net Asset Value of each relevant Class, is crystallised at the Fund's fiscal year end and is calculated based on the current year's Shares, except a) where the Fund or a Class closes on a different date or b) on any Dealing Day (other than the last valuation date of the year) in which there is a reduction in the number of Shares in a Class. In these circumstances any accrued performance fee with respect to such Shares will crystallise on that Dealing Day and will then become payable to the Investment Manager.

Performance Fee Types

For certain Classes a High Water Mark, Performance Benchmark, Hurdle or Performance Benchmark with a High Water Mark may also be applicable:

- ***High Water Mark ("HWM")***
Where a HWM mechanism applies, a performance fee will be accrued on a Class' net return over a Performance Period in excess of the HWM. At the launch of a Class, the HWM means the Initial Issue Price and is taken as the starting point for the performance fee calculation. If the Net Asset Value per Share on the last valuation day of a Performance Period is higher than the previous HWM, the HWM is set to the Net Asset Value calculated at the end of the Performance Period. To the extent that a Class did not exceed its HWM at the end of a Performance Period, the HWM is carried forward, and no performance fees will be accrued until the NAV of that Class exceeds its HWM in a subsequent Performance Period. When this occurs, the Performance Period will extend beyond one year and continue until the next fiscal year end that a performance fee does crystallise. The HWM will be adjusted for any distributions in the case of a Distributing Share Class.
- ***Performance Benchmark***
Where a Performance Benchmark applies, a performance fee may be accrued on a Class' net return in excess of the return of the Performance Benchmark over a Performance Period. The Performance Benchmark is expressed in the denomination currency of the relevant Class, or for Hedged Classes, hedged to the denomination currency of the relevant Class. If the Net Asset Value per Share on the last valuation day of a Performance Period is higher than the Performance Benchmark over the same period, the performance fee will crystallise. To the extent that a Class did not exceed its Performance Benchmark at the end of a Performance Period, no performance fee will accrue until the Class' cumulative net return exceeds the cumulative Performance Benchmark return over the same period. When this occurs, the Performance Period will extend beyond one year and continue until the next fiscal year end that a performance fee does crystallise. The Performance Benchmark will be adjusted for any distributions in the case of a Distributing Share Class.

- ***Hurdle***

Where a Hurdle mechanism applies, a performance fee may be accrued on a Class' net return over the Performance Period in excess of the Hurdle. The Hurdle is the Initial Issue Price of a Share plus a predefined rate, set on a fund by fund basis. The Hurdle is calculated as a percentage of the Initial Issue Price, annualised to create a daily rate which is accrued daily for that fiscal year. In the event that the Net Asset Value per Share of a Class is higher than the accrued Hurdle on the last valuation day of that fiscal year, the performance fee will crystallise, and the Hurdle for the following year will be the previous fiscal year end Net Asset Value per Share of that Class plus the predefined rate annualised, and accrued daily. In the event that the Net Asset Value per Share of a Class does not exceed the Hurdle on the last valuation day of the fiscal year, the new Hurdle for the following year will be the previous year end Hurdle plus a rate equal to the predefined rate, annualised and accrued daily.

Note that for any non-Base Currency Classes which are unhedged, the performance fee accrual will be calculated based on the Class' net return in excess of the Hurdle which may be positively or negatively impacted by currency differentials between the Fund's Base Currency and the currency of the unhedged Class. As a result the performance fee for these Classes may differ from the performance fees for Hedged/Base Currency Classes. The Hurdle for Distributing Share Classes will be reduced for any distributions made with respect to such Share Classes

- ***Performance Benchmark with HWM***

Where a Performance Benchmark with a HWM applies, a performance fee will be accrued on a Class' net return in excess of both the return of the Performance Benchmark and the HWM, over a Performance Period. The performance fee is accrued daily in the Net Asset Value of each relevant Class and is crystallised at the Fund's fiscal year end subject to achieving a new HWM and outperforming the cumulative Performance Benchmark returns since the last crystallisation date. To the extent that a Class did not exceed its Performance Benchmark and HWM at the end of a Performance Period, no performance fee will accrue until the Class' cumulative net return exceeds both the cumulative Performance Benchmark return and the HWM over the same period. When this occurs, the Performance Period will extend beyond one year and continue until the next fiscal year end that a performance fee does crystallise. The HWM will be adjusted for any distributions in the case of a Distributing Share Class.

The mechanisms employed in respect of performance fees are detailed for each relevant Fund in the relevant Supplement.

Further Considerations

Due to differences in timing between their date(s) of investment and a Class' performance fee calculation period, subscribers and Shareholders of the Fund should be aware that their own individual performance experience as a Shareholder may not be equivalent to the actual performance of the Fund on which the performance fee is calculated and paid, and the performance fee paid to the Fund may be higher or lower than the actual performance they experience as a Shareholder. Although a daily accrual of a portion of the performance fee in a Class' Net Asset Value mitigates some of these timing differences, the performance fee is calculated and paid based on the Class' fiscal year assets and performance, not on the basis of a Shareholder's specific assets or performance.

The Class' net return on which the performance fee is based, includes net unrealised gains and losses as at the end of each calculation period and as a result, a performance fee may be paid on unrealised gains which may subsequently never be realised. The performance fee is calculated prior to any

dilution adjustments and is verified by the Depository on a periodic basis. Performance fees are paid where the relevant HWM is surpassed, which may be achieved due to market movements.

Distribution Fees

Shareholders in the Class D, Class DL and other Share Classes as specified in the relevant Supplement will be paid a distribution fee, out of the assets of the relevant Fund attributable to those Classes of Shares. The distribution fee is calculated as a percentage of the daily net assets attributable to those Shares held by the relevant Shareholder, accrued daily in the Net Asset Value of the relevant Class of Shares and paid quarterly in arrears at the annual rates set out in the relevant Supplement.

The distribution fee is paid to intermediaries holding these Classes of Shares to compensate them for distribution and Shareholder services provided to underlying beneficial owners of these Shares. Investors considering investing via an intermediary should be aware of these fees and the potential for conflict of interest that they create where, for example, an intermediary might be incentivised to recommend a particular Fund, or Class of Shares within a Fund, that has a higher distribution fee.

Administrative Fee

Wellington Funds Services LLC shall be paid an administrative fee out of the assets of each Fund, attributable to the relevant Class of Shares. This administrative fee is calculated as a percentage of the daily net assets of the relevant Class of Shares, accrued daily in the Net Asset Value of the Class of Shares and paid monthly in arrears. The administrative fee rate that is paid in respect of a Share Class is set out in the relevant Fund's Supplement.

The administrative fee is paid for the provision of various services to the Funds. The purpose of the administrative fee is to provide a fixed level of fees to cover the expenses of the Funds for the various services provided, which expenses might otherwise be subject to fluctuation over time. The administrative fee ensures that the Funds are protected from these fluctuations, which would not be the case if the Funds were to pay such charges directly. Any increase in the maximum rate of the administrative fee shown above will only be implemented upon receipt of the affected Shareholders' approval.

The administrative fees are fixed which means that Wellington Funds Services LLC or such other Wellington group entity will bear any costs and expenses incurred by the relevant Class of Shares in any period in excess of the administrative fee charged to the Class of Shares but conversely will be entitled to retain any amount of the administrative fee paid to it which exceeds the actual operating expenses incurred by the relevant Class of Shares during any period. Wellington Funds Services LLC in its discretion may choose to waive a portion of the administrative fee at any time where Wellington Funds Services LLC considers it appropriate to do so taking into account the level of assets in a particular Fund.

Further Wellington Funds Services LLC may instruct the Company to pay a portion of the administrative fee directly out of the assets of the Funds to any third party service providers. In such case the administrative fee due to Wellington Funds Services LLC will be reduced by the same amount.

The administrative fee covers the following expenses, if applicable to the relevant Class of Shares:

1. Depository fees and reasonable, properly incurred out of pocket expenses
2. Administrator fees and reasonable out of pocket expenses
3. Transfer Agent fees and reasonable out of pocket expenses

4. fees relating to services provided to the Company by affiliates within the Wellington Management group, including, but not limited to, providing, procuring, overseeing, and/or monitoring of various services including administrative, domiciliary, corporate, risk management, regulatory compliance, reporting services and fees incurred by these entities and payable to third parties providing certain infrastructure and other support services
5. fees in consideration of the services provided by the Distributor (and its affiliates) in establishing, servicing on an ongoing basis and administering relationships with financial intermediaries and distributors and the cost incurred, including the costs of performing diligence on financial intermediaries/distributors, the additional oversight of third parties service providers, and the provision of additional marketing support
6. fees of the Directors of the Company who are not employed by affiliates of the Wellington Management group, as well as reasonable out of pocket expenses incurred in discharging their directors' duties
7. Auditor's and company secretarial fees and reasonable out of pocket expenses
8. professional costs (including, without limitation, the fees and disbursements of counsel, consultants, tax and other advisers or third party support services) that may be incurred by the Company, the Depositary, the correspondents or the Administrator or affiliates of the Wellington Management group while acting in the interest of the Shareholders
9. the costs of taking out and maintaining any insurance policy in relation to the Company and/or its Directors
10. any start-up costs associated with the creation of a new Fund or class and the offer of its Shares;
11. the costs associated with preparing and/or filing, translating, distributing, or maintaining any materials or documents of the Company, including, without limitation, the Prospectus (as well as any amendments or supplements), Key Investor Information Documents, Fact sheets, websites, annual and semi-annual reports or other documents as may be required under the Articles or under the applicable laws or regulations as well as registration or private placement costs incurred for purposes of distributing Shares of the Company (including any lawyers', auditors' and other experts' fee in connection with the foregoing, as well as any administrative charges or taxes incurred) and the costs associated with ratings and/or ranking of Funds
12. unless otherwise stated in the relevant Supplement, fees payable to third parties for currency management services in relation to the Hedged Share Classes or SC and TC Share Class

The following are not covered by the administrative fee, are not subject to any maximum limit or cap and will be paid by the Company out of the assets of each Fund:

- a) investment management fees
- b) performance fees
- c) distribution fees
- d) all taxes (including without limitation, all income and franchise taxes), levies, duties or similar charge with may be due on or with respect to the assets and income of the Company
- e) all costs of purchasing or selling assets of the Company including but not limited to brokerage charges, subscription and redemption charges, implicit transactions costs, costs associated with execution/trading or settlement platforms, costs associated with derivative use and any losses incurred in connection therewith are for the account of the relevant Fund
- f) costs of borrowing including interest
- g) any extraordinary expenses, such as litigation (for instance, fees connected with the filing of class action lawsuits) legal, business or tax expert appraisals or legal proceedings undertaken to protect Shareholders' interests and all similar charges and expenses

Such fees, duties and charges will be charged to a Fund or Share Class in respect of which they were incurred or, where an expense is not considered by the Directors to be attributable to any one Fund, the expense will be allocated by the Directors with the approval of the Depositary, in such manner and on such basis as the Directors in their discretion deem fair and equitable.

Preliminary, Redemption and Exchange Charges

No preliminary, redemption or exchange charge will be made on subscriptions for Shares or requests for redemption of Shares or exchange of Shares in a Fund by the Company, the Distributor or the Investment Managers. The Directors reserve the right to add such fees in the future.

Shareholders may be charged a transaction fee by their financial advisor or the intermediary. Where investors are subscribing in BN, D, DL, ED or GD Share Classes through a financial intermediary, a preliminary charge of up to 5% for BN, D, ED and GD Shares or 3% for DL Shares of the amount of the investment in the relevant Fund may be payable to the financial adviser or intermediary. Investors should consult their financial adviser or the intermediary about any such fees.

Soft Commissions

In the selection of broker-dealers and other counterparties and in the execution of transactions in portfolio securities for a Fund, the Investment Managers seek to achieve the most favourable price and best execution available under the circumstances. In assessing the terms of a particular transaction, consideration may be given to various relevant factors, including the market for the security and difficulty of executing the transaction, the price of the security, the financial condition and execution expertise of the intermediary, the reasonableness of the commission, if any, and the brokerage or research services provided by the intermediary to the Investment Manager. Subject always to the requirement of most favourable price, best execution and applicable laws, the Investment Managers may pay a higher commission than might be otherwise available in consideration of such brokerage and research services which assist the Investment Manager in providing investment services to the Company, provided that the relevant Investment Manager determines in good faith that such commission is reasonable in relation to the value of brokerage and research services. Such brokerage and research services may apply to the Investment Manager's services to a Fund or to its other clients. Disclosure of the fact that soft commissions have been paid in respect of a Fund will be set forth in the Company's semi-annual and annual accounts. However where Wellington Management International Limited is appointed as the Investment Manager of all or a portion of the assets of a Fund, Wellington Management International Limited will pay for any research it receives in relation to such management out of its own account and the cost of that research will not be charged to the relevant Funds.

MANAGEMENT AND ADMINISTRATION

The Board of Directors

The Board of Directors is responsible for managing the business affairs of the Company in accordance with the Articles of Association. The Directors may delegate certain functions to the Administrator, the Transfer agent, the Investment Managers and other parties, subject to supervision and direction by the Directors.

The Directors of the Company are described below. The following Directors may also be directors, partners or employees of the Investment Managers, the Distributor or other Wellington Management group companies.

Alan J. Brody

Mr. Brody was a Managing Director and Chief Operating Officer of the Wellington Management Funds Global Group for more than ten years prior to his retirement from the firm in April 2017. Prior to joining the firm in 2006, Mr. Brody was the Asia regional business director at Union Bancaire Privée (2005-2006), and the director of the Europe, Middle East and Asia wealth management business at Prudential Financial (1996-2004). Before that, Mr. Brody held a variety of positions at Lehman Brothers (1990-1996), was the president and chief executive officer of Commodity Exchange, Inc. (1980-1990), and in the private practice of law (1977-1980). Mr. Brody received his JD from Rutgers School of Law - Newark (1977), and his BA from Northwestern University (1974).

Lucinda Marrs

Ms. Marrs is a Senior Managing Director and Partner and is the President of the Wellington Management Funds Global Group. Prior to joining the firm in 1994, Ms. Marrs worked as an investment consultant at Evaluation Associates (1989-1994) and held investment-related positions at Paine Webber, Inc. (1986-1987) and Olin Corporation (1983-1985). Ms. Marrs received her MBA from Columbia Business School (1989) and her BS in chemistry, cum laude, from Duke University (1983).

Thomas Murray

Mr Murray is a Managing Director and Director of Wellington Management Funds Global Fund Services. Prior to joining the firm in 2004, Mr Murray worked at MFS Investment Management, where he held several different roles including controller, chief administration officer, and chief financial officer for various divisions (1992 – 2004). He also worked as an auditor for KPMG Peat Marwick (1990 – 1992). Mr Murray earned his MBA in Finance from Boston University (1998), and a BS in Accounting from Providence College (1990). Additionally Mr Murray earned the CPA designation in the State of Rhode Island.

Alain Vincent Mandy

Mr. Mandy is the Chief Operating Officer of Wellington Management Funds Global Group. Prior to joining Wellington Management in 2018, Mr. Mandy was the Head of Fund Administration at PIMCO (2008-2018), and held various positions with a focus on asset management at PricewaterhouseCoopers in the United States, Luxembourg and Spain (1998–2008). Mr. Mandy received a master of science in business engineering (1998) from Louvain School of Management, University Catholic of Louvain and a Diploma in Analysis, Control and Auditing from HEC, Belgium. He is a chartered accountant from Luxembourg.

Louise Kooy-Henckel

Louise Kooy-Henckel is a Managing Director and Associate Director of Investment Products and Strategies at Wellington Management International Limited. Prior to joining Wellington Management in 2016, Ms. Kooy-Henckel was a managing director and head of the Client Portfolio Management Team and a client advisor in the institutional client group at J.P. Morgan Asset Management in London (1997 – 2016), and held a number of roles with State Street in Germany and Australia (1994 – 1997). Mrs. Kooy-Henckel received her bachelor of science in financial economics from the University of London (Birkbeck) and is an alumna of the Impact Investing Programme at the University of Oxford, Saïd Business School.

The following directors are not affiliated with the Investment Managers.

Gerald Brady

Gerald Brady is an independent, non-executive director and consultant in the regulated, international financial services industry. Mr. Brady has over 25 years' experience of the funds industry, both as a director and full-time executive, and has held senior executive management positions in Bank of Bermuda, Capita Financial Group and Northern Trust. Mr. Brady has worked both abroad and in Ireland and is a past Council member of the Irish Funds Industry Association (IFIA) and former Executive Board member of Financial Services Ireland/Irish Business and Employers Confederation (FSI/IBEC). Mr. Brady has a First Class Honours degree in Economics and is a Fellow of the Institute of Chartered Accountants of Ireland (FCA) and a Chartered Financial Analyst (CFA).

William Manahan

William "Liam" Manahan is an independent, non-executive director in the funds industry. Mr. Manahan has over thirty years' experience in the financial services sector, including as a director and full-time executive. Mr. Manahan was one of the founding directors (April 1993 to November 2004) and Chief Executive Officer (November 2004 to December 2009) of Bank of Ireland Securities Services Limited. He was employed as a risk adviser to the Central Bank of Ireland (June 2010 to May 2012). Mr. Manahan was also Chairman of the Irish Funds Industry Association from 2006-2007.

For the purposes of this Prospectus, the address of all the Directors is the registered office of the Company.

The Company has delegated the day to day management and running of the Company to the Administrator, the Transfer Agent and the Investment Managers and has appointed the Depositary as depositary in relation to its assets. Consequently, all Directors of the Company are non-executive.

The Investment Managers

The relevant Investment Manager for each Fund will be disclosed in the relevant Supplement. Pursuant to investment management agreements (summarised under the section entitled **General Information** below) each Investment Manager also provides or arranges for shareholder liaison matters, performs liaison functions with the Depositary, the Administrator and the Transfer Agent, and may act in such other capacities as the Directors may approve. All or a portion of the investment management services for a Fund may be carried out by personnel who are employed by affiliates of the Investment Manager appointed to that Fund. Furthermore, an Investment Manager may choose to delegate the discretionary investment management of a Fund or a portion of a Fund to an affiliate by way of a sub-investment management arrangement. In such instance, the affiliate will be paid out of the fee payable to the relevant Investment Manager in respect of the relevant Fund and information in respect of the relevant affiliates will be provided to the Shareholders on request and will be disclosed in the periodic reports of the Company. In all cases the relevant Investment Manager remains responsible for all investment management services under its agreement with the Company.

The relevant Investment Manager for each Fund will be one of the following entities:

1. Wellington Management Company LLP, a limited liability partnership organised in 2014 under the laws of the State of Delaware, U.S.A., which is registered as an investment adviser with the Securities and Exchange Commission under the Investment Advisers Act of 1940, as amended.
2. Wellington Management International Limited, a limited liability company incorporated in 2001 under the laws of England and Wales, which is authorised and regulated by the Financial

Conduct Authority in the United Kingdom. Wellington Management International Limited is registered as an investment adviser with the Securities and Exchange Commission under the Investment Advisers Act of 1940, as amended.

3. Wellington Management Hong Kong Limited, a limited liability company incorporated in 2003 under the laws of Hong Kong, which is authorised and regulated in Hong Kong by the Hong Kong Securities and Futures Commission.
4. Wellington Management Singapore Pte Ltd is a limited liability company incorporated in 2014 under the laws of Singapore, which is authorised and regulated in Singapore by the Monetary Authority of Singapore.

The Wellington Management group provides discretionary portfolio management services and financial advisory services related to portfolio management to a range of institutional clients and CISs. As of 31 30 June 2019, the amount of assets under discretionary management by the Wellington Management group was approximately USD 1.10 trillion.

Depository

The Company has appointed State Street Custodial Services (Ireland) Limited (the “Depository”) to act as depository in relation to the assets of the Company pursuant to a Depository Agreement (summarised under the section entitled **General Information** below).

The principal activity of the Depository is to act as depository in relation to the assets of CIS. The Depository is regulated by the Central Bank.

The Depository is a private limited company incorporated in Ireland on 22 May 1991. The Depository is an indirect, wholly-owned subsidiary of State Street Corporation.

The Depository shall carry out functions in respect of the Company including but not limited to the following:

- (i) the Depository shall hold in custody all financial instruments capable of being registered or held in a financial instruments account opened in the Depository's books and all financial instruments capable of being physically delivered to the Depository;
- (ii) the Depository shall verify each Fund's ownership of all any assets (other than those referred to in (i) above) and maintain and keep up-to-date a record of such assets it is satisfied are owned by the Funds;
- (iii) the Depository shall ensure effective and proper monitoring of each Fund's cash flows;
- (iv) the Depository shall be responsible for certain oversight obligations in respect of the Company – see **Summary of Oversight Obligations** below.

Duties and functions in relation to (iii) and (iv) above may not be delegated by the Depository.

Summary of Oversight Obligations

The Depository is obliged to ensure, among other things, that:

- the sale, issue, redemption and cancellation of Shares effected on behalf of the Company are carried out in accordance with the conditions imposed by the Central Bank and the Memorandum and Articles of Association of the Company;

- the value of Shares is calculated in accordance with the Regulations and the Memorandum and Articles of Association of the Company;
- in transactions involving the assets of the Funds, any consideration is remitted to it within time limits which are acceptable market practice in the context of a particular transaction;
- the Company and each Fund's income is applied in accordance with the Regulations and the Memorandum and Articles of Association of the Company;
- the instructions of the Company are carried out unless they conflict with the Regulations or the Memorandum and Articles of Association of the Company;
- effective and proper monitoring of the Company's and each Fund's cash flows; and
- safe-keeping of the Company's assets, including the safekeeping of financial instruments to be held in custody and ownership verification and record keeping in relation to other assets.

In addition, the Depositary will be obliged to enquire into the conduct of the Company in each financial year and to report thereon to the Shareholders. The Depositary's report shall be delivered to the Company in good time to enable it to be included in the annual report of the Company. The Depositary's report shall state whether in the Depositary's opinion the Company has been managed in that period:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum and Articles of Association of the Company and by the Regulations; and
- (ii) otherwise in accordance with the provisions of the Memorandum and Articles of Association of the Company and the Regulations.

If the Company has not complied with (i) or (ii) above, the Depositary must state why this is the case and outline the steps which the Depositary has taken to rectify the situation.

Delegation

The Depositary has full power to delegate the whole or any part of its safe-keeping functions but its liability will not be affected by the fact that it has entrusted to a third party some or all of the assets in its safekeeping. The Depositary's liability shall not be affected by any delegation of its safe-keeping functions under the Depositary Agreement.

Information about the safe-keeping functions which have been delegated and the identification of the relevant delegates and sub-delegates are contained in Appendix IV to this Prospectus.

Administrator

The Company has delegated responsibility for the administration of each Fund to State Street Fund Services (Ireland) Limited (the "Administrator").

The Administrator is responsible for performing the day to day administration of the Company and for providing fund accounting for the Company, including the calculation of the Net Asset Value and the Net Asset Value per Share.

The Administrator is a private limited company incorporated in Ireland on 23 March 1992.

In addition, the Company has appointed an affiliate of the Depositary and Administrator, State Street Bank Europe Limited ("SSBE"), to manage currency hedging for certain of the Funds' Hedged Share Classes and SC Share Classes. SSBE acts pursuant to an agreement to carry out passive currency

hedging transactions for certain of the Funds' Share Classes (the "Original Agreement"). In connection with the United Kingdom ceasing to be a member of the European Union and the rationalisation of the legal entity structure of which SSBE is a part, with effect from on or around October 31 2019 (the "Effective Date"), SSBE intends to novate all of its rights, obligations and liabilities under the Original Agreement to State Street Bank International GmbH ("SSBG") pursuant to a novation and amendment agreement entered into by the parties on 11 April 2019. SSBG is a limited company incorporated in Germany. The company was founded in 1970 and is based in Munich, Germany. State Street Bank International GmbH operates as a subsidiary of State Street Holdings Germany GmbH.

SSBE is a limited company incorporated in the U.K.

Each of the Depositary, the Administrator and SSBE ultimately are owned by State Street Corporation. State Street Corporation is a leading world-wide specialist in providing global investors with investment servicing and investment management. State Street Corporation is headquartered in Boston, Massachusetts, U.S.A.

Transfer Agent

The Company has appointed State Street Fund Services (Ireland) Limited (the "Transfer Agent") to act as registrar and transfer agent under a Registrar and Transfer Agency Agreement. The Transfer Agent is a private limited company incorporated in Ireland.

The Transfer Agent is responsible for providing registration, transfer agency and related services to the Company but may delegate such services to an affiliate.

The Transfer Agent was incorporated in Ireland on 23 March 1992 and is ultimately a wholly owned subsidiary of State Street Corporation.

Distributor

The Company has appointed Wellington Global Administrator, Ltd (the "Distributor") to act as distributor under a Distribution Agreement.

The Distributor receives a distribution co-ordination fee out of the administrative fee as described under **Charges and Expenses** above.

The Distributor will coordinate, provide for and supervise the distribution of Shares indirectly through various sub-distributors or other financial intermediaries pursuant to terms and conditions set out in an appropriate agreement with such intermediaries.

The Distributor is an exempted company organised under the laws of Bermuda and is within the Wellington Management group.

TAXATION

The following sections do not purport to deal with all of the tax consequences applicable to the Company or to all categories of Shareholders, some of whom may be subject to special rules, and do not constitute tax advice. Shareholders and potential investors are advised to consult their professional advisors concerning possible taxation or other consequences of purchasing, holding, selling, converting or otherwise disposing of the Shares under the laws of their country of incorporation, establishment, residence, or domicile, and in the light of their particular circumstances.

The following statements on taxation are based on advice received by the Directors regarding the law and practice in force at the date of this Document. There is no guarantee that tax laws and practices will not change, so that the following general discussion of tax matters is no longer accurate. As is the case with any investment, there can be no guarantee that the tax position or proposed tax position prevailing at the time an investment is made in the Company will endure indefinitely.

For the purposes of this part of the prospectus, all references to the holding of shares in the Company should be regarded as references to the holding of shares in a particular Fund/Funds of the Company.

Irish Taxation

Tax on income and capital gains

The Company

On the basis that the Company is a UCITS it is outside the scope of Part 27 Chapter 1B of the Taxes Consolidation Act, 1997, as amended ("TCA") dealing with the Irish real estate funds ("IREF") tax regime. The Directors have been advised that, under current Irish law and practice, the Company qualifies as an investment undertaking for the purposes of Section 739B of the TCA so long as the Company is resident in Ireland for tax purposes. Accordingly, it is not chargeable to Irish tax on its income and gains.

The Company will only be subject to tax on chargeable events in respect of Shareholders who are Taxable Irish Persons (generally persons who are resident or ordinarily resident in Ireland for tax purposes – refer to Irish Residence and Ordinary Residence for Tax Purposes section for more detail).

A chargeable event occurs on, for example:

- (i) a payment of any kind to a Shareholder by the Company;
- (ii) an encashment, repurchase, redemption, cancellation, transfer or deemed disposal of Shares; and
- (iii) on the eighth anniversary of a Shareholder acquiring Shares and every subsequent eighth anniversary.

but does not include, for example, any transaction in relation to Shares held in a clearing system recognised by the Irish Revenue Commissioners, certain transfers arising as a result of an amalgamation or reconstruction of fund vehicles and certain transfers between spouses/civil partners or former spouses/civil partners. Where a chargeable event occurs, the Company is required to account for the Irish tax thereon.

If a Shareholder is not a Taxable Irish Person at the time a chargeable event arises no Irish tax will be payable on that chargeable event in respect of that Shareholder (subject to the comments below).

Where tax is payable on a chargeable event, subject to the comments below, it is a liability of the Company which is recoverable by deduction or, in the case of a transfer and on the eight year rolling chargeable event by cancellation or appropriation of Shares from the relevant Shareholders. In certain circumstances, and only after notification by the Company to a Shareholder, the tax payable on the eight year rolling chargeable event can at the election of the Company become a liability of the Shareholder rather than the Company. In such circumstances the Shareholder must file an Irish tax return and pay the appropriate tax (at the rate set out below) to the Irish Revenue Commissioners. In

the absence of the appropriate declaration being received by the Company that a Shareholder is not a Taxable Irish Person or if the Company has information that would reasonably suggest that a declaration is incorrect, and in the absence of written notice of approval from the Revenue Commissioners to the effect that the requirement to have been provided with such declaration is deemed to have been complied with (or following the withdrawal of, or failure to meet any conditions attaching to such approval), the Company will be obliged to pay tax on the occasion of a chargeable event (even if, in fact, the Shareholder is neither resident nor ordinarily resident in Ireland). Where the chargeable event is an income distribution tax will be deducted at the rate of 41%, or at the rate of 25% where the Shareholder is a company and the appropriate declaration has been made, on the amount of the distribution. Where the chargeable event occurs on any other payment to a Shareholder, not being a company which has made the appropriate declaration, on a transfer of Shares and on the eight year rolling chargeable event, tax will be deducted at the rate of 41% on the increase in value of the shares since their acquisition. Tax will be deducted at the rate of 25% on such transfers where the Shareholder is a company and the appropriate declaration has been made. In respect of the eight year rolling chargeable event, there is a mechanism for obtaining a refund of tax where the Shares are subsequently disposed of for a lesser value.

An anti-avoidance provision increases the 41% rate of tax to 60% (80% where details of the payment/disposal are not correctly included in the individual's tax return) if, under the terms of an investment in a fund, the investor or certain persons associated with the investor have an ability to influence the selection of the assets of the Company.

Other than in the instances described above, the Company should have no liability to Irish taxation on income or chargeable gains.

Shareholders

Shareholders who are neither resident nor ordinarily resident in Ireland in respect of whom the appropriate declarations have been made (or in respect of whom written notice of approval from the Revenue Commissioners has been obtained by the Company to the effect that the requirement to have been provided with such declaration from that Shareholder or class of shareholders to which the Shareholder belongs is deemed to have been complied with) will not be subject to tax on any distributions from the Company or any gain arising on redemption, repurchase or transfer of their shares provided the shares are not held through a branch or agency in Ireland and the shares, if unlisted, do not derive the greater part of their value from Irish land or mineral rights. No tax will be deducted from any payments made by the Company to those Shareholders who are not Taxable Irish Persons.

Shareholders who are Irish resident or ordinarily resident or who hold their shares through a branch or agency in Ireland may have a liability under the self-assessment system to pay tax, or further tax, on any distribution or gain arising from their holdings of Shares. In particular where the Company has elected to not deduct tax at the occasion of the eight year rolling chargeable event a Shareholder will have an obligation to file a self-assessment tax return and pay the appropriate amount of tax to the Irish Revenue Commissioners.

Refunds of tax where a relevant declaration could be made but was not in place at the time of a chargeable event are generally not available except in the case of certain corporate Shareholders within the charge to Irish corporation tax.

Exempt Irish Resident Shareholders

The Company will not be required to deduct tax in respect of the following categories of Irish Resident Shareholders, provided the Company has in its possession the necessary declarations from those persons (or an intermediary acting on their behalf) and the Company is not in possession of any information which would reasonably suggest that the information contained in the declarations is not, or is no longer, materially correct. A Shareholder who comes within any of the categories listed below and who (directly or through an intermediary) has provided the necessary declaration to the Company is referred to herein as an "Exempt Irish Resident":

1. a pension scheme which is an exempt approved scheme within the meaning of Section 774 TCA, or a retirement annuity contract or a trust scheme to which Section 784 or Section 785 TCA, applies;
2. a company carrying on life business within the meaning of Section 706 TCA;
3. an investment undertaking within the meaning of Section 739B(1) TCA, or an investment limited partnership within the meaning of Section 739J TCA;
4. a special investment scheme within the meaning of Section 737 TCA;
5. a charity being a person referred to in Section 739D(6)(f)(i) TCA;
6. a qualifying management company within the meaning of Section 739B(1) TCA;
7. a unit trust to which Section 731(5)(a) TCA applies;
8. a person who is entitled to exemption from income tax and capital gains tax under Section 784A(2) TCA where the shares held are assets of an approved retirement fund or an approved minimum retirement fund;
9. a person who is entitled to exemption from income tax and capital gains tax by virtue of Section 787I TCA, and the shares are assets of a PRSA;
10. a credit union within the meaning of Section 2 of the Credit Union Act, 1997;
11. the National Treasury Management Agency;
12. the National Asset Management Agency;
13. a company within the charge to corporation tax in accordance with Section 110(2) TCA (securitisation companies);
14. in certain circumstances, a company within the charge to corporation tax in respect of payments made to it by the Company; or
15. any other person who is resident or ordinarily resident in Ireland who may be permitted to own Shares under taxation legislation or by written practice or concession of the Revenue Commissioners without giving rise to a charge to tax in the Company or jeopardising the tax exemptions associated with the Company.

There is no provision for any refund of tax to Shareholders who are Exempt Irish Residents where tax has been deducted in the absence of the necessary declaration. A refund of tax may only be made to corporate Shareholders who are within the charge to Irish corporation tax.

Stamp Duty

No Irish stamp duty will be payable on the subscription, transfer or redemption of Shares given the Company is not an IREF and provided that no application for Shares or repurchase or redemption of Shares is satisfied by an in specie transfer of any Irish situated property or any right over or interest in such property, or any stocks or marketable securities of a company (other than a company which is an investment undertaking within the meaning of Section 739B TCA or a qualifying company within the meaning of Section 110 TCA) which is registered in Ireland.

Capital Acquisitions Tax

No Irish gift tax or inheritance tax (capital acquisitions tax) liability will arise on a gift or inheritance of Shares provided that:

- (i) at the date of the disposition the transferor is neither domiciled nor ordinarily resident in Ireland and at the date of the gift or inheritance the transferee of the Shares is neither domiciled nor ordinarily resident in Ireland; and
- (ii) the Shares are comprised in the disposition at the date of the gift or inheritance and the valuation date.

Irish Residence and Ordinary Residence for Tax Purposes

Residence - Corporate Investors

Prior to Finance Act 2014, company residence was determined with regard to the long-established common law rules based on central management and control. These rules were significantly revised in Finance Act 2014 to provide that a company incorporated in the State will be regarded as resident for tax purposes in the State, unless it is treated as resident in a treaty partner country by virtue of a double taxation treaty. While the common law rule based on central management and control remains in place, it is subject to the statutory rule for determining company residence based on incorporation in the State set out in the revised section 23A TCA 1997.

The new incorporation rule for determining the tax residence of a company incorporated in the State will apply to companies incorporated on or after 1 January 2015. For companies incorporated in the State before this date, a transition period will apply until 31 December 2020.

Residence – Individual Investors

An individual will be regarded as being resident in Ireland for a tax year if s/he:

- (i) spends 183 days or more in the State in that tax year; or
- (ii) has a combined presence of 280 days in the State, taking into account the number of days spent in the State in that tax year together with the number of days spent in the State in the preceding year.

Presence in a tax year by an individual of not more than 30 days in the State will not be reckoned for the purpose of applying the two year test. Presence in the State for a day means the personal presence of an individual at any time during the day.

Ordinary Residence – Individual Investors

The term "ordinary residence" as distinct from "residence", relates to a person's normal pattern of life and denotes residence in a place with some degree of continuity.

An individual who has been resident in the State for three consecutive tax years becomes ordinarily resident with effect from the commencement of the fourth tax year.

An individual who has been ordinarily resident in the State ceases to be ordinarily resident at the end of the third consecutive tax year in which s/he is not resident. Thus, an individual who is resident and ordinarily resident in the State in 2015 and departs from the State in that tax year will remain ordinarily resident up to the end of the tax year in 2018.

Residence - Trust Investors

A trust will generally be regarded as resident in Ireland where all of the trustees are resident in Ireland. Trustees are advised to seek specific tax advice if they are in doubt as to whether the trust is resident in Ireland.

Intermediary

This means a person who:

- (i) carries on a business which consists of, or includes, the receipt of payments from an investment undertaking resident in Ireland on behalf of other persons; or
- (ii) holds units in an investment undertaking on behalf of other persons.

Austrian Taxation

The following information is intended to give a general overview of the principles of Austrian taxation on income derived from investment funds for investors subject to unlimited tax liability in Austria based on the legal status applicable since 1 April 2012.

The discussion is generic, and specific cases are not considered. As no tax advice on the taxation of individual investors is hereby given, it is recommended that investors seek advice from a tax advisor regarding the taxation of their respective holdings.

Investment funds are transparent according to Austrian tax law. This means that income from the Company is not taxed at the Company level but at investor level (tax transparency).

The Company's income is generally taxable when it is distributed to the investors. Income, which is not distributed, is taxable as deemed distributed income ("DDI") once a year.

The Investment Fund Act 2011 provides for two tax categories for foreign investment funds:

1. Investment funds which have a tax representative, who reports the tax categorisation of distributions and DDI to the Oesterreichische Kontrollbank ("OeKB") (reporting funds) and
2. Investment funds, which do not have a tax representative and which are therefore subject to the lump-sum taxation (black funds).

Shareholders: Private Investors

Taxation of the Company's income

The Company's taxable income consists of

1. the ordinary income (i.e. interest income, dividend income, other ordinary income minus the Company's expenses) and
2. the extraordinary income (i.e. realised capital gains from the sale of the Company's assets and income from derivative instruments).

For private investors only 60% of the accumulated extraordinary income is taxable. In case of distributions 100% of the distributed extraordinary income is taxable.

Negative extraordinary income (realised capital losses after netting with realised capital gains) can be credited against ordinary income (dividends, interest and other income minus expenses). If capital losses exceed the net investment income, the exceeding amount can be carried forward at the Share Class level. Further, negative net investment income can be offset against realised capital gains and carried forward if the negative net investment income exceeds the realised capital gains. In the following financial years, these carried forward amounts have to be offset, firstly against realised capital gains, and after that against the net investment income.

The applicable tax rate for private investors on the Company's income is generally 27.5%. In cases where the fund shares are held on Austrian deposit, the 27.5% tax on the DDI and the distributed income is withheld by the Austrian depository bank. In case the fund shares are held on foreign deposit, the DDI (which is deemed to be distributed seven months after the fund's financial year-end in this case) and the distributed income have to be included in the private investor's personal income tax return.

Sale of Shares

Where private investors sell their Company shares, the difference between the sales price and the purchase price is subject to 27.5% tax irrespective of the holding period. In order to avoid a double taxation of the DDI (i.e. annual taxation and taxation as part of the gain derived from the sale of the Company shares) the Company share's purchase price is increased annually by the taxed DDI. It should be noted that the sales (preliminary) charge must generally not be considered as incidental acquisition cost.

If the Company shares are held on Austrian deposit, the 27.5% tax on the capital gain shall be withheld by the Austrian depository bank. In cases where the Company shares are held on foreign deposit, the capital gain has to be included in the private investor's personal income tax return.

The capital gains taxation at 27.5% tax only applies to the sale of Company shares bought after 31 December 2010. Capital gains from the sale of Company shares bought before 1 January 2011 are generally tax free.

Shareholders: Individuals Holding the Company Shares as Business Property

If Company shares are held by individuals as business property (sole proprietors or partnerships), the tax rules as described above for private investors are generally applicable with the following exceptions:

1. 100% of the accumulated extraordinary income is taxable at 27.5%.

2. Individuals holding the fund shares as business property have to include the extraordinary income and the realised capital gains or losses from the sale of Company shares in their income tax return in any case. Any tax withheld on extraordinary income and on capital gains by the Austrian depository bank will be credited on the individual's income tax.
3. The sales (preliminary) charge can be considered as an incidental acquisition cost and has to be included in the individual's income tax return.

Shareholders: Corporate Investors

Ordinary income and extraordinary income are subject to 25% Corporate Income Tax and must be included in the corporate income tax return of the corporation. If the corporate investor sells Company shares, the difference between the purchase price and the sales price less already taxed DDI is subject to 25% Corporate Income Tax (irrespective of the holding period) and must be included in the corporate income tax return. The DDI is deemed to be received by corporate investors at the financial year-end of the fund.

Corporate investors can avoid the withholding tax deduction by providing the Austrian bank with a certificate of exemption. If no certificate of exemption is provided, the deducted withholding tax can be credited against Corporate Income Tax.

Proof of Taxable Income

The tax categorisation of DDI have to be calculated by an Austrian tax representative on an annual basis and reported to the OeKB within seven months after the fund's financial year-end.

The withholding tax on the DDI is deducted by the Austrian depository bank, once the DDI is published by the OeKB. The tax figures are published on the OeKB's website (www.profitweb.at).

If an investment fund is not registered with the OeKB, the lump-sum taxation applies as at calendar year-end. In this case, 90% of the increase in the NAV over the calendar year, but at least 10% of the NAV at calendar year-end, is subject to taxation.

Disclaimer

Please note that the information relating to the tax consequences above is based on the tax rules as of July 2017. The correctness of this tax information may be affected by subsequent changes in the law or changes in the application of the law.

German Taxation

Taxation in Germany

The statements regarding the tax regulations are not to be considered exhaustive. They are not a complete analysis of all tax considerations relating to the holding of a Relevant Share Class. They do not constitute legal or tax advice. The comments are limited to certain aspects of current German tax law and practice and may not apply to certain classes of investors.

According to the flat rate tax, introduced by the Corporate Tax Reform Act 2008 and which came into effect on 1 January 2009, all capital income within the meaning of § 20 German Income Tax Act of private German Shareholders will be subject to the flat rate tax independent of the duration of holding

periods which is levied at a rate of 25% as well as the solidarity surcharge of (5.5% thereof) and the church tax, if applicable.

Investment Fund Tax Regime

On 1 January 2018 the new German Investment Tax Act ("new GITA") - regime became effective. The new tax regime differs between investment funds and special-investment funds which are investment funds that have to fulfil certain requirements and are generally eligible for institutional and corporate investors only. All Share Classes of the Company will be treated as investment funds. The special-investment fund tax regime will not apply.

Therefore, the following statements refer to the rules applicable to investment funds only. The new investment fund tax regime introduces taxation rules at the level of the Fund in addition to changes regarding the taxation at the level of the Shareholder.

From 1 January 2018 domestic and foreign investment funds will be taxed at fund level with respect to certain German source income. In general, the tax will apply to German dividend income and German real estate income. In the case of German dividend income, the German tax will be withheld at source. For investment funds that applied for the fund status certificate the tax rate will be 15% (including 5.5% solidarity surcharge).

The Shareholder

To account for the systematic change of the investment fund taxation, the new-GITA stipulates a "fictitious" disposal of shares as of 31 December 2017 and a reacquisition of the same as of 1 January 2018. The capital gains will be subject to tax according to the tax rules in place until 31 December 2017. As a consequence, all capital gains derived after 31 December 2017 will be subject to tax according to the new-GITA. The capital gains from the "fictitious" disposal is deferred free of interest until the shares are finally sold or redeemed.

Capital gains of shares acquired before 1 January 2009 ("grandfathered shares") derived from the "fictitious" disposal as of 31 December 2017 should be tax free for private investors, any capital gains derived from grandfathered shares after 31 December 2017 should be subject to tax for private investors if the capital gains exceed EUR 100.000,00.

Under the rules of the new-GITA, Shareholders will be taxed on a cash flow basis (i.e. generally, upon distribution and upon disposal or redemption of the shares). In addition, the Shareholder will be taxed based on the so-called pre lump-sum amount ("Vorabpauschale") on an annual basis provided the value of the Fund increased during the calendar year. The pre lump-sum amount applies once a year for accumulating classes or, in case of distributing classes, if the distributions are below the base income amount which will be calculated based on the interest rate published by the Ministry of Finance, the NAV and the distributions during the calendar year.

All taxable income (i.e. distribution, capital gains upon disposal or redemption, pre-lump sum amount, etc.) will be subject to capital income withholding tax of 25% (plus solidarity surcharge and church tax, if applicable) for private investors. For business investors (i.e. shareholders falling either under the rules of the German Income Tax Act or the German Corporate Income Tax Act) the personal tax rate applies.

Shareholders may benefit from a partial tax exemption depending on the fund type according to the definition in Sec. 20 para. 1 of the new-GITA (i.e. 'equity funds', 'mixed funds' or 'debt funds'). The

applicable fund type is linked to the percentage of equity investments in the Net Asset Value of a Fund and is generally stated in its terms and conditions. The minimum equity participation rate thresholds are listed below. The Depositary of the Fund calculates the daily percentage of equity holdings (i.e., the equity participation rate). The percentage is published daily on WM Datenservice.

The partial tax exemption applies on all income (i.e. distribution, capital gains upon disposal or redemption of the shares and the so-called pre lump-sum amount ("Vorabpauschale"). The percentage of the partial tax exemption depends on the fund type and the investor type. For example, a private investor can benefit from a 30% tax exemption in case of an 'equity' fund according to the new-GITA. In case of a 'mixed' fund the tax exemption would be 15% for a private investor. In a case of a 'debt' fund the tax exemption would be 0% for a private investor.

Pursuant to the new-GITA, Funds having:

1. at least 50% of their NAV invested on a continuous basis in equities listed on an organised market are classified as 'equity' funds
1. at least 25% of their NAV invested on a continuous basis in equities listed on an organised market are classified as 'mixed' funds
2. less than 25% of their NAV invested on a continuous basis in equities listed on an organised market are classified as 'debt' funds

The classification of each Fund pursuant to the new-GITA is set out in the relevant Supplement.

Tax Risk

The legal and fiscal treatment of funds may change in a way that is unforeseeable and beyond the reasonable control of the Company.

The Funds are classified as equity, bond or mixed funds based upon the securities held by the Fund and the categorisation of the securities as defined in the new-GITA.

Changes in the investment strategy of a Fund are not anticipated. However, such a change could cause a breach of the equity thresholds as defined in the GITA which may lead to a loss of the benefit of the partial tax exemption for the Shareholder. A change in fund status will also lead to a fictitious redemption of the shares and acquisition of the shares based on the new fund tax status. The fictitious gain will be deferred free of interest until the shares are actually sold or redeemed by the Shareholder.

If there is an audit by the German tax authorities, there could be a change of fund category. The change may impact the historic and future taxation of the Shareholder.

Swiss Taxation

The following information gives a general overview of the principles of Swiss taxation on income derived from investment funds for investors subject to unlimited tax liability in Switzerland. However, there is no certainty that the tax authority competent for the income tax assessment of a particular investor will follow this interpretation, and applicants are advised to seek their own advice on the matter.

Swiss Income and Wealth Tax Considerations

Private investors

Swiss private investors are liable to income tax on their worldwide income, including net investment

income. The general tax rules for such investors who do not qualify as professional securities dealers ("gewerbsmässige Wertschriftenhändler"), and who are subject to unlimited Swiss tax liability, are described as follows.

The market value of the investment in the Fund, at the end of each fiscal year of the Shareholder, is subject to cantonal and communal tax on wealth.

Liquidation: Swiss private investors will be subject to taxation for their share of the liquidation proceeds received from the fund less the following items: (i) share in the capital of the fund, (ii) capital gains realised and (iii) accumulated income that has already been subject to the Swiss income tax.

Sale and redemption of Shares

Capital gains on the sale of Shares held for private investment purposes are in principle not subject to direct federal tax and cantonal / communal taxes. Should the investment activities of a private investor, due to special circumstances be qualified as having a commercial purpose ('gewerbsmässiger Wertschriftenhändler'), any capital gains and losses realised by the fund will be considered as part of ordinary taxable income.

The redemption of the Shares, which are held as private assets, is not triggering any income taxes at the federal and the cantonal / communal level.

Corporate investors and private investors (investment as "business asset")

Swiss resident corporate investors and individuals are liable to income taxes on all profits derived from the Fund. Such investors would have to include their income and capital gains in their financial statements, taking into account Swiss accounting principles. The financial statements are the basis for the tax assessments of Swiss corporate investors.

Swiss resident corporate investors like charities and pension funds, are in general tax exempt with respect to direct federal and cantonal/communal tax.

Swiss Securities Transfer Tax

The issue of Shares in the Fund will basically be subject to 0.15 per cent Swiss Securities Transfer Tax, calculated on the consideration for the Shares of the Fund issued, provided a Swiss securities dealer according to Swiss stamp duty law is involved in an issuance as an intermediary. A Swiss securities dealer in its capacity as a Swiss securities dealer acting as intermediary is liable to levy Swiss Securities Transfer Tax on every counterparty (without regard to the counterparty's country of residence) that is neither a registered Swiss securities dealer nor an exempt party. The full rate of the Securities Transfer Tax is 0.3 per cent, but this is reduced to 0.15% if one of the counterparties is an exempt party, and eliminated entirely if both counterparties are exempt. Since the Fund as the issuer of the Shares is basically an exempted counterparty, a Swiss securities dealer would have to levy a half Securities Transfer Tax at 0.15 per cent unless an investor can show that it too is an exempt party under the legislation. Where applicable (as will generally be the case) the cost of the Securities Transfer Tax, being the amount of 0.15% of the invested capital, would have to be borne by the investor.

In the event of any subsequent purchase, sale or transfer of Shares in the Fund through a Swiss securities dealer, in general, a Security Transfer Tax of 0.30 per cent will be levied (i.e. the full rate) in so far as the involved parties were both to be neither a registered Swiss securities dealer nor an exempt party. Redemption of Shares in the Fund is not subject to any Securities Transfer Tax as long as the

Shares are cancelled.

Withholding Tax based on Agreement between Switzerland and the European Union

The European Union and Switzerland have concluded an agreement providing for measures similar to those laid down in the Directive 2003/48/EC on taxation of savings income in the form of interest payments (the "Agreement"). Based on this Agreement and the relevant guidance published by the Swiss Federal Tax Authority, the main points with regard to investment funds established outside Switzerland but distributed by Swiss paying agents are defined by the Agreement, can be summarised as follows:

Swiss paying agents have to deduct a withholding tax (the retention) on interest payments to individual beneficial owners who are resident in a Member State of the European Union.

Such investor may opt for the voluntary disclosure ("notification") to the state of residence of interest payments instead of the retention.

The following de minimis rules are applicable (according to the rules set out in the Agreement; please note that applicable home country rules may differ): Income relating to entities which have invested up to 15% of their assets in so called direct and/or indirect debt claims according to art. 7 para. 1 a of the Agreement, shall not be considered as interest payments. As a consequence, any income distributed by a fund or realised upon the sale, refund or redemption of the Shares of a fund meeting this requirement, do not fall under the regulations of the Agreement; distributions from funds which invest more than 15% but not more than 25% of their total assets in direct and/or indirect investments in debt claims are subject to retention. The income realised upon the sale, refund or redemption of the Shares of such a fund is not subject to retention; and income distributed by a fund or realised upon the sale, refund or redemption of Shares of a fund investing more than 25% of its total assets in direct and/or indirect investments generating interest income covered by the Agreement is subject to retention.

If the Swiss paying agent does not obtain the necessary information from the Fund concerning the part of interest income, the total amount of the distribution is to be considered interest payment and the Swiss paying agent has to withhold the retention on the total distribution amount (Art. 7 para. 3 of the Agreement). The same rule applies on the proceeds of the sale, refund or redemption of the Shares.

Interest payments on claims issued by debtors domiciled in Switzerland are not covered by the Agreement (with some exceptions, e.g. Swiss funds exempted from Swiss anticipatory tax).

Investors for whom the qualifications of a fund under the Agreement is of a concern are invited to contact the Swiss paying agent before an investment in the fund is made.

It is expected that this agreement will be cancelled as soon as Switzerland and the European Union start sharing client information based on an automatic information exchange agreement.

United Kingdom Taxation

The Company

The shares shall be widely available and shall be marketed and made available sufficiently widely to reach the intended categories of sophisticated investors and in a manner appropriate to attract those investors.

The Board of Directors intends, as far as possible, to conduct the affairs of the Company so as to minimise any liability of the Company to UK taxation. Accordingly, and provided that the Company is not trading in the UK through a fixed place of business or agent situated therein that constitutes a “permanent establishment” for UK taxation purposes and that all the trading transactions in the UK of the Fund are carried out through a broker or investment manager acting as an agent of independent status in the ordinary course of its business, the Company will not be subject to UK corporation tax or the diverted profits tax on income or chargeable gains arising to it, other than certain UK source income. The Board of Directors intends that the affairs of the Company are conducted so that these requirements are met, insofar as this is within the Board’s control. However, it cannot be guaranteed that the necessary conditions will at all times be satisfied.

The Company may be liable to transfer taxes on acquisitions and disposals of investments. In the UK, stamp duty or Stamp Duty Reserve Tax at a rate of 0.5% will be payable by the Company on the acquisition of shares in companies that are either incorporated in the UK or that maintain a share register in the UK. This could also apply to UK shares contributed into the Company by Shareholders.

The UK Offshore Funds Regime

The Offshore Funds (Tax) Regulations 2009, as amended by the Offshore Funds (Tax) (Amendment) Regulations (the “Offshore Funds Regulations”) introduced a regime for the taxation of investments in offshore funds (as defined in Part 8 of the Taxation (International and other Provisions) Act 2010 (“TIOPA”) which operates by reference to whether a fund opts into a reporting regime (“reporting funds”) or not (“non-reporting funds”). In broad terms, a “reporting fund” is an offshore fund that meets certain upfront and annual reporting requirements to HMRC and its Shareholders.

If an individual Shareholder who is resident in the UK for taxation purposes holds an interest in an offshore fund and that offshore fund is a “non-reporting fund” for all periods of account for which the Shareholder holds that interest, any gain accruing to the Shareholder upon the sale, redemption or other disposal of that interest (including a deemed disposal on death) will be taxed at the time of such sale, redemption or other disposal as income (an “offshore income gain”) and not as a capital gain.

Alternatively, where an individual Shareholder who is resident in the UK holds an interest in an offshore fund that has been a reporting fund for all periods of account for which they hold an interest, any gain accruing upon sale or other disposal (however not including deemed disposal on death) of their holding would be subject to tax as a capital gain rather than income, with relief for any accumulated or reinvested profits which have already been subject to UK income tax on income. Shareholders in non-reporting funds would be subject to tax on income distributed by a non-reporting fund, but not on income retained but not distributed by a non-reporting fund.

A disposal of an offshore reporting and non-reporting fund is generally considered non UK situs for UK resident taxpayers. In the case of Shareholders who are individuals domiciled outside the UK, the gain may be subject to the remittance basis in particular circumstances.

The Board of Directors have been advised that the shareholdings in the Company will likely constitute interests in an offshore fund, as defined for the purposes of TIOPA, with each class of Shares treated as a separate “offshore fund” for these purposes.

Certain classes of shares have already applied for and obtained “reporting status.” The reporting status obtained from HMRC for the relevant classes of shares will remain in place permanently so long as the annual requirements are undertaken. A list of the classes of shares which currently have reporting

status is available at: <https://www.gov.uk/government/publications/offshore-funds-list-of-reporting-funds>

The Board of Directors intends to manage the affairs of the Company so that these upfront and on-going duties are met and will continue to be met for the relevant classes of Shares for each reporting period (as defined for United Kingdom tax purposes) on a per-Share basis to all relevant Shareholders (as defined for these purposes). UK Shareholders who hold their interests at the end of the reporting period to which the reported income relates, will be subject to income tax or corporation tax on the higher of any cash distribution paid and the full reported amount. The reported income will be deemed to arise to UK Shareholders six months after the year end. The reporting fund status obtained from HMRC for the relevant classes of Shares will remain in place permanently provided the annual requirements are undertaken.

Investors should refer to their tax advisors in relation to the implications of the Company having obtained such status in respect of certain Classes of Shares.

Taxes on Income

Subject to their personal circumstances, Shareholders who are resident in the UK for UK taxation purposes will be liable to UK corporation tax or income tax annually in respect of dividends or other distributions of an income nature made by the Company, whether or not such dividends or distributions are reinvested. The nature of the charge to tax will depend upon the composition of the relevant assets of the Company.

For individual Shareholders in the UK, effective from 6 April 2016, dividend distributions made from an offshore fund over the dividend allowance (which replaced the tax credit) will be subject to income tax. Dividend distributions from an offshore fund made to corporate Shareholders resident in the UK are likely to fall within one of a number of exemptions from UK corporation tax. In addition, distributions to non-UK companies carrying on a trade in the UK through a permanent establishment in the UK should also fall within the exemption from UK corporation tax on dividends to the extent that the shares held by that company are used by, or held for, that permanent establishment.

Distributions from offshore funds are not generally considered UK source for UK resident taxpayers. In the case of Shareholders who are individuals domiciled outside the UK, distributions may be subject to the remittance basis in particular circumstances.

UK Corporation Tax – Loan Relationships

Shareholders within the charge to UK corporation tax should note that the regime for the taxation of most corporate debt contained in the UK Corporation Tax Act 2009 (the “loan relationships regime”) provides that, if at any time in an accounting period of such a person, that person holds an interest in an offshore fund within the meaning of the relevant provisions of the Offshore Fund Regulations and TIOPA, and there is a time in that period when that fund fails to satisfy the “qualifying investments” test, the interest held by such a person will be treated for that accounting period as if it were rights under a creditor relationship for the purposes of the loan relationships regime. An offshore fund fails to satisfy the qualifying investments test at any time when more than 60% of its assets by market value (excluding cash awaiting investment) comprise “qualifying investments”. Qualifying investments include government and corporate debt securities, cash on deposit, certain derivative contracts and holdings in other collective investment schemes which at any time in the accounting period of the person holding the interest in the offshore fund do not themselves satisfy the qualifying investments test.

In the eventuality that the “qualifying investments test” is failed at any time during the life of the Company, the relevant class of Shares will be treated for corporation tax purposes as within the loan relationships regime with the result that all returns on that class of Shares in respect of such a corporate Shareholder’s accounting period (including gains, profits and losses) will be taxed or relieved as an income receipt or expense on a “fair value accounting” basis. Accordingly, in such eventuality, a corporate Shareholder who acquires Shares may, depending on its own circumstances, incur a charge to corporation tax on an unrealised increase in the value of its holding of Shares (and, likewise, obtain relief against corporation tax for an unrealised reduction in the value of its holding of Shares).

UK Income Tax – Distributions Treated as Interest

Where an offshore fund invests more than 60% of its assets in interest-bearing (or economically similar) assets that are qualifying investments as defined above, distributions will not be treated as dividends but as interest in the hands of the individual Shareholder. This means that the relevant tax rates will be those applying to interest. As above the remittance basis may be available to individuals domiciled outside the UK.

Other UK Tax Matters

The attention of Shareholders subject to UK income tax is drawn to the anti-avoidance provisions of Section 714 of the Income Taxes Act 2007. These provisions deal with the transfer of assets outside the UK which may render certain resident persons liable to income tax in respect of undistributed income profits of the Fund on an annual basis. The legislation is not directed towards the taxation of capital gains.

Corporate Shareholders resident in the UK for taxation purposes should note that “controlled foreign companies” legislation contained in Part 9A of TIOPA 2010 could apply to any UK resident company which is, either alone or together with persons connected or associated with it for taxation purposes, deemed to be interested in 25% or more of any chargeable profits of a non-UK resident company, where that non-UK resident company is controlled by residents of the UK and meets certain other criteria (broadly that it is resident in a low tax jurisdiction). “Control” is defined in Chapter 18, Part 9A of TIOPA 2010. A non-UK resident company is controlled by persons (whether companies, individuals or others) who are resident in the UK for taxation purposes or is controlled by two persons taken together, one of whom is resident in the UK for tax purposes and has at least 40% of the interests, rights and powers by which those persons control the non-UK resident company, and the other of whom has at least 40% and not more than 55% of such interests, rights and powers. The effect of these provisions could be to render such Shareholders liable to UK corporation tax in respect of the income of the Company.

The attention of Shareholders (including individuals, companies and trusts) resident in the UK for taxation purposes is drawn to the provisions of section 13 of the TCGA 1992 (“section 13”). Section 13 could be material to any such Shareholder who has an interest in the Company as a “participator” for UK taxation purposes (which term includes a shareholder) at a time when any gain accrues to the Fund (such as on a disposal of any of their investments) which constitutes a chargeable gain or an offshore income gain if, at the same time, the Company is itself controlled in such a manner and by a sufficiently small number of persons as to render the Company a body corporate that would, were it to have been resident in the UK for taxation purposes, be a “close” company for those purposes. The provisions of section 13 could, if applied, result in a Shareholder with such an interest in the Fund being treated for the purposes of UK taxation of chargeable gains as if a proportionate part of any capital gain or offshore income gain accruing to the Fund had accrued to that person directly; that part being equal to the

proportion of the gain that corresponds to that Shareholder's proportionate interest in the Fund. No liability under section 13 could be incurred by such a Shareholder, however, in respect of a chargeable gain or an offshore income gain accruing to the Fund if the aggregate proportion of that gain that could be attributed under section 13 both to that person and to any persons connected with him for UK taxation purposes does not exceed one quarter of the gain. In the case of Shareholders who are individuals domiciled outside the UK, section 13 applies subject to the remittance basis in particular circumstances.

Stamp Duties

UK stamp duty, or stamp duty reserve tax, will not be payable on the issue, transfer or redemption of the Shares provided that the register of Shareholders is kept outside the UK. UK stamp duty at the rate of 0.5% of the value of the consideration for the transfer of any Shares is payable on any instrument of transfer of the Shares executed in, or in certain cases brought into, the UK.

Inheritance Tax

An individual Shareholder domiciled or deemed for United Kingdom tax purposes domiciled in the United Kingdom may be liable to United Kingdom Inheritance Tax on a gift of their Shares in the event of death or on making certain categories of lifetime transfer. For these purposes, a transfer of Shares at less than their full market value may be treated as a gift.

United States Taxation

Shareholders are hereby notified, in compliance with requirements imposed by the US Internal Revenue Service (the "IRS"), that the US tax advice contained herein (i) is written in connection with the promotion or marketing by the Company and the Investment Managers of the transaction or matters addressed herein, and (ii) is not intended or written to be used, and cannot be used by any taxpayer, for the purpose of avoiding US tax penalties. Each taxpayer should seek advice based on the taxpayer's particular circumstances from an independent tax advisor.

The summary is based on Internal Revenue Code of 1986, as amended (the "Code"), applicable statutes and regulations, administrative pronouncements and judicial decisions as currently in effect. There can be no assurance (i) that changes in such authorities or their application or interpretation will not be made in the future, possibly with retroactive effect, or (ii) that the IRS will agree with the interpretation described below as applied to the operation of the Company.

Taxation of the Company

For US federal income tax purposes, the Company expects to be treated as a corporation. The remainder of this discussion assumes that the Company will be so treated.

There are specific exemptions from US federal income tax for non-US persons (including entities and individuals) who restrict their activities in the US to trading in stocks, securities and commodities (including currencies) for their own account. These exemptions may apply regardless of whether the non-US person or their employees conduct such trading through a broker, commission agent, custodian or other agent in the US. These particular exemptions do not apply to a non-US person that is engaged in business activities in the US, other than trading in stocks, securities and commodities (including currencies) for its own account, or if the person is considered a dealer in stocks or securities. The Company intends to conduct its affairs so that it will not be deemed to be engaged in a trade or business in the US and, therefore, none of its income (other than certain income from investments in US real

property interests, if any) should be treated as "effectively connected" with a US trade or business carried on by the Company. However, in the event that the Company is deemed to be deriving income which is effectively connected with a US trade or business carried on by the Company, such income could be subject to US federal income tax at the graduated rates applicable to US persons, and the Company could also be subject to a branch profits tax on amounts deemed repatriated from the US based on a statutorily calculated dividend equivalent amount.

Certain categories of income (including dividend income and certain types of interest income) that are not effectively connected with a US trade or business but that are derived from US sources will be subject to US withholding taxes. It is anticipated that under current US tax law rules, substantially all of the US source interest income to be earned by any Fund will be exempt from US withholding tax. Provided certain documentation requirements are satisfied, the Company will not be subject to any US withholding tax on capital gains or proceeds arising from the sale or exchange of the Company's securities, commodities or other assets that are not effectively connected with a US trade or business of the Company (other than withholding on certain income and/or gains from investments in U.S. real property interest, if any).

Taxation of Non-U.S. Shareholders

The rules described in this section apply to any Shareholder of the Company who is a non-resident alien individual, a foreign corporation, a foreign partnership, or a foreign estate or trust (hereafter a "non-US investor").

Non-US investors who are not engaged in a trade or business within the US and, if individuals, do not have a "tax home" in the US, generally will not be subject to any U.S. federal income, withholding, capital gains, estate or inheritance taxes with respect to the Shares owned by them or any dividends received by them on such Shares.

Foreign Account Tax Compliance Act Provisions ("FATCA")

The final regulations for the Foreign Account Tax Compliance Act that was enacted on 18 March 2010 by United States Congress as part of the Hiring Incentives to Restore Employment ("HIRE") Act were issued on 17 January 2013. FATCA is generally effective for payments made after 30 June 2014. The FATCA provisions impose new tax documentation requirements on both a Fund and its Shareholders. If the tax documentation requirements are not satisfied, FATCA imposes a 30% withholding tax on certain payments (including dividends, interest and proceeds from the sale of securities) that may be received by a Fund or that may be made to a Shareholder on redemption of Shares in the Company.

In order to comply with FATCA, the Company may request additional tax-related documentation from its Shareholders. A Shareholder that fails to comply with such documentation requests may be charged with any taxes imposed on the Company attributable to such investor's noncompliance under the FATCA Provisions. The Company may, in its sole discretion, redeem such Shareholder's shares. While the Company will make reasonable efforts to seek documentation from Shareholders to comply with these rules and to allocate any taxes imposed or required to be deducted under FATCA to Shareholders whose noncompliance caused the imposition or deduction of the tax, it is possible that complying Shareholders in the Company may be affected by the presence of such non-complying Shareholders.

The Company may find itself subject to an Intergovernmental Agreement ("IGA") that was entered into between the jurisdiction in which the Company is located and the U.S. Internal Revenue Service, that supersedes certain provisions under FATCA. If the Company is subject to an IGA, the Company

will apply the appropriate documentation requirements under the terms of the IGA and will make reasonable efforts to assure that the Company complies with the terms of the applicable IGA.

PURSUANT TO US TREASURY DEPARTMENT CIRCULAR 230, THE COMPANY IS INFORMING THE PROSPECTIVE INVESTORS THAT (A) THE SUMMARY SET FORTH ABOVE IS NOT INTENDED AND WAS NOT WRITTEN TO BE USED, AND CANNOT BE USED, BY ANY TAXPAYER FOR THE PURPOSE OF AVOIDING PENALTIES UNDER THE US FEDERAL TAX LAWS THAT MAY BE IMPOSED ON THE TAXPAYER, (B) THE SUMMARY SET FORTH ABOVE WAS WRITTEN IN CONNECTION WITH THE PROMOTION OR MARKETING BY THE COMPANY AND THE DISTRIBUTOR OF THE SHARES, AND (C) EACH TAXPAYER SHOULD SEEK ADVICE BASED ON ITS PARTICULAR CIRCUMSTANCES FROM AN INDEPENDENT TAX ADVISOR.

Taxation of Investments Generally

The Company invests on exchanges, and in securities issued by entities which are virtually all domiciled in countries other than Ireland. Many of these countries have laws that tax non-resident investors, such as the Company, on income or gains arising from that country. While many of these countries have withholding or other mechanisms that clarify the application and payment of tax, in certain countries there can be uncertainty about how tax law is applied to income earned by the Company and as a result, uncertainty as to the amount, if any, that will ultimately be payable by the Company. While the Company monitors the tax position from its investment activities, there remains a risk that any one, or several, foreign tax authorities will attempt to collect taxes on investment income earned by the Company, or under financial accounting standards, the Company may be required to accrue for such uncertain taxes. This could happen without any prior warning, possibly on a retrospective basis, and could result in a material loss to the Company's Net Asset Value per share.

The income and/or gains of the Company from the investments may suffer withholding tax in the countries where such income and/or gains arise. The Company may not be able to benefit from reduced rates of withholding tax in double taxation agreements between Ireland and such countries. The rate of withholding tax therefore, may vary from the rate applied to the benchmark against which Fund performance is measured where a net of tax benchmark is used. If this position changes in the future and the application of a lower rate results in repayment to the Fund(s), the Net Asset Value of the Fund(s) will not be restated and the benefit will be allocated to the existing Shareholders ratably at the time of repayment.

Generally, Shareholders must include in computing their income for tax purposes the amount of the net income, and the taxable portion of the net realised capital gains, paid or made payable to them in the year by the Company, even if such amount is reinvested in additional shares. Generally, Shareholders must report in their tax returns any capital gains realised on the disposition of shares which may include a switch among Funds, a switch between different funds and / or a liquidation of the Fund or the Company.

Shareholders should consult their own tax advisors concerning the deductibility of management fees paid directly to the Manager.

The above statements are only intended as a general summary of the current position under current tax law and practice of Shareholders who are the absolute beneficial owners of Shares who hold such shares as an investment and their applicability will depend upon the particular circumstances of each Shareholder. In particular, these statements may not apply to certain Classes of Shareholder (such as financial institutions). The summary is not exhaustive and does not generally consider tax relief or exemptions.

Prospective Shareholders are advised to consult their own tax advisors on the tax implications for them of investing, holding and disposing of Shares and receiving distributions in respect of Shares.

GENERAL INFORMATION

Data Protection

In the course of business, the Company will collect, record, store, adapt, transfer and otherwise process personal data which may include investors' names, address, tax identification number(s), date and place of birth of the investors, account number or its functional equivalent (if the investor is a legal person, the same categories of personal data may be processed in relation to its contact person(s) and/or beneficial owner(s)), by which prospective investors may be directly or indirectly identified. The Company is a data controller within the meaning of the EU Data Protection Directive 95/46/EC and the EU Privacy & Electronic Communications Directive 2002/58/EC, any amendments and replacement legislation including the EU General Data Protection Regulation (EU) 2016/679, European Commission decisions, binding EU and national guidance and all national implementing legislation ("Data Protection Legislation") and will hold any personal data provided by or in respect of investors in accordance with Data Protection Legislation.

The Company and/or any of its delegates or service providers may process prospective investor's and investor's personal data for any one or more of the following purposes and legal bases:

- (a) to operate the Funds, including managing and administering a Shareholder's investment in the relevant Fund on an on-going basis which enables the Company to satisfy its contractual duties and obligations to the Shareholder and any processing necessary for the preparation of the contract with the Shareholder;
- (b) to comply with any applicable legal, tax or regulatory obligations on the Company, for example, under the Companies Act and anti-money laundering and counter-terrorism legislation and fraud prevention;
- (c) for any other legitimate business interests' of the Company or a third party to whom personal data is disclosed, where such interests are not overridden by the interests of the investor, including for statistical analysis, market research purposes and to perform financial and/or regulatory reporting; or
- (d) for any other specific purposes where investors have given their specific consent and where processing of personal data is based on consent, the investors will have the right to withdraw it at any time.

Personal data may also be transferred to other entities, such as the Administrator, Investment Managers, Transfer Agent or their delegates, acting as data processors. These data processors shall only act on documented instruction from the Company.

The Company and/or any of its delegates or service providers may disclose or transfer personal data, whether in Ireland or elsewhere (including entities situated in countries outside of the EEA), to other delegates, duly appointed agents and service providers of the Company (and any of their respective related, associated or affiliated companies or sub-delegates) and to third parties including advisers, regulatory bodies, tax authorities, auditors, technology providers for the purposes specified above.

The Company will not keep personal data for longer than is necessary for the purpose(s) for which it was collected. In determining appropriate retention periods, the Company shall have regard to the Statute of Limitations Act 1957, as amended and any statutory obligations to retain information,

including anti-money laundering, counter-terrorism and tax legislation. The Company will take all reasonable steps to destroy or erase the data from its systems when they are no longer required.

Where specific processing is based on an investor's consent, that investor has the right to withdraw it at any time. Investors have the right to request access to their personal data kept by the Company; and the right to rectification or erasure of their data; to restrict or object to processing of their data, and to data portability, subject to any restrictions imposed by Data Protection Legislation and any statutory obligations to retain such information.

The Company and/or any of its delegates and service providers will not transfer personal data to a country outside of the EEA unless that country ensures an adequate level of data protection or appropriate safeguards are in place. The European Commission has prepared a list of countries that are deemed to provide an adequate level of data protection which, to date, includes Switzerland, Guernsey, Argentina, the Isle of Man, Faroe Islands, Jersey, Andorra, Israel, New Zealand and Uruguay. Further countries may be added to this list by the European Commission at any time. The US is also deemed to provide an adequate level of protection where the US recipient of the data is privacy shield-certified. If a third country does not provide an adequate level of data protection, then the Company and/or any of its delegates and service providers will ensure it puts in place appropriate safeguards such as the model clauses (which are standardised contractual clauses, approved by the European Commission).

Where processing is carried out on behalf of the Company, the Company shall engage a data processor, within the meaning of Data Protection Legislation, which implements appropriate technical and organisational security measures in a manner that such processing meets the requirements of Data Protection Legislation, and ensures the protection of the rights of investors. The Company will enter into a written contract with the data processor which will set out the data processor's specific mandatory obligations laid down in Data Protection Legislation, including to process personal data only in accordance with the documented instructions from Company.

As part of the Company's business and ongoing monitoring, the Company may from time to time carry out automated decision-making in relation to investors, including, for example, profiling of investors in the context of anti-money laundering reviews, and this may result in an investor being identified to the tax authorities, law enforcement authorities and to other entities where required by law, and Company terminating its relationship with the investor.

Investors are required to provide their personal data for statutory and contractual purposes. Failure to provide the required personal data will result in the Company being unable to permit, process, or release the investor's investment in the Funds and this may result in the Company terminating its relationship with the investor. Investors have a right to lodge a complaint with the Office of the Data Protection Commissioner if they are unhappy with how the Company is handling their data.

Any questions about the operation of the Company's data protection policy should be referred to the Company at its registered address.

Fund Transactions and Conflicts of Interest

Subject to the provisions of this section, the Investment Managers, the Administrator, the Transfer Agent, the Depositary, the Distributor, any Shareholder, and any of their respective subsidiaries, affiliates, associates, agents or delegates (each a "Connected Person"), may contract or enter into any financial, banking or other transaction with one another or with the Company, including without limitation, investment by the Company in securities of a Shareholder, or investment by any Connected

Persons in any company or body any of whose investments form part of the assets comprised in any Fund or be interested in any such contract or transactions. The Investment Managers and/or their affiliates may provide seed capital to any of the Funds. When either subscribing for such Shares where there are net redemptions or redeeming such Shares where there are net subscriptions in a Fund, the relevant Investment Manager or affiliate may benefit to the extent the net subscriptions or redemptions for Shares in the Fund on that Dealing Day trigger a swing pricing adjustment (as described in the section entitled **Swing Pricing Procedure** above).

In addition, any cash of the Company may be deposited, subject to the provisions of the Central Bank Acts, 1942 to 2015, with any Connected Person or invested in certificates of deposit or banking instruments issued by any Connected Person. Banking and similar transactions may also be undertaken with or through a Connected Person.

Any Connected Person may also deal as agent or principal in the sale or purchase of securities and other investments to or from the Company or through the Depositary or any subsidiary, affiliate, associate, agent or delegate thereof. There will be no obligation on the part of any such Connected Person to account to Shareholders for any benefits so arising, and any such benefits may be retained by the relevant party, provided that such transactions are carried out as if effected on normal commercial terms negotiated at arm's length, are consistent with the best interests of Shareholders, and

- (a) a certified valuation of such transaction by a person approved by the Depositary as independent and competent has been obtained; or
- (b) such transaction has been executed on best terms reasonably available on an organised investment exchange under its rules; or

where neither (a) nor (b) are practicable,

- (c) such transaction has been executed on terms which the Depositary is satisfied conform with the principle that such transactions be carried out as if effected on normal commercial terms negotiated at arm's length.

Prospective investors and Shareholders should be aware that the Investment Managers and their affiliates may manage multiple accounts for clients that are also invested in Funds. These accounts often encompass a variety of different investment objectives and strategies. Entities within the Wellington Management Group and personnel of the Investment Managers and their affiliates may also invest their own assets in the Funds. In relation to those investments, certain terms of investing in a Fund (e.g., the Minimum Initial Subscription for a Class of Shares) may be waived and such investments may have different fee arrangements whereby fees are waived, reduced or otherwise not charged including where, for example, the client's account is charged fees outside the relevant Fund based on the aggregate assets and/or performance of that account, including its investment in the Fund. In addition, the Investment Managers, their affiliates or their personnel may have access to information about a Fund that is not available to other Shareholders in the Funds, or may have access to information on a more timely basis than other Shareholders. The Funds may be subject to restrictions or limitations in their trading or investment under the Investment Managers' policies and procedures designed to comply with applicable law and their obligations to their clients. The Investment Managers may seek to hedge or otherwise offset the market risk that arises from their investments in a Fund.

The Investment Managers may also, in the course of their business, have potential conflicts of interest with the Company in circumstances other than those referred to above. The Investment Managers will, however, have regard in such events to their obligations under the Investment Management Services

Agreements and, in particular, to their obligations to act in the best interests of the Company and the Shareholders so far as practicable, having regard to their obligations to other clients when undertaking any investments where conflicts of interest may arise. In the event that a conflict of interest does arise the Directors will endeavour to ensure that such conflicts are resolved fairly, investment opportunities are allocated fairly and any material information relating to a Fund is disclosed in a fair and equitable manner to all investors.

The Directors may act as directors of other collective investment vehicles.

Payments to Financial Intermediaries and Potential Conflicts of Interest

Prospective investors and Shareholders should also be aware that the Investment Managers and/or the Distributor or one or more of their affiliates, may make, out of their own resources, additional cash payments to financial intermediaries in support of certain marketing and administrative activities. In respect of marketing activities this may include payments for or reimbursement of the costs associated with sales and marketing events, such as conferences, seminars, sales or training programs for employees or clients or other intermediary-sponsored events. In respect of administrative activities such payments might relate to platforms, account maintenance or transaction processing. Such payments will only be made to the extent they are not prohibited by applicable laws or internal policies. Depending on the arrangements in place at any particular time, a financial intermediary may have a financial incentive to recommend a particular Fund or Share Class. You may ask your financial intermediary for information about any payments it receives from the Wellington Management group and any services provided, as well as about any fees and/or commissions it charges in addition to those disclosed in this Prospectus.

Depository's Potential Conflicts of Interest

The Depository is part of an international group of companies and businesses that, in the ordinary course of their business, act simultaneously for a large number of clients, as well as for their own account, which may result in actual or potential conflicts. Conflicts of interest arise where the Depository or its affiliates engage in activities under the depository agreement or under separate contractual or other arrangements. Such activities may include:

- (i) providing nominee, administration, registrar and transfer agency, research, agent securities lending, investment management, financial advice and/or other advisory services to the Company;
- (ii) engaging in banking, sales and trading transactions including foreign exchange, derivative, principal lending, broking, market making or other financial transactions with the Company either as principal and in the interests of itself, or for other clients.

In connection with the above activities the Depository or its affiliates:

- a) will seek to profit from such activities and are entitled to receive and retain any profits or compensation in any form and are not bound to disclose to, the Company, the nature or amount of any such profits or compensation including any fee, charge, commission, revenue share, spread, mark-up, mark-down, interest, rebate, discount, or other benefit received in connection with any such activities;
- b) may buy, sell, issue, deal with or hold, securities or other financial products or instruments as principal acting in its own interests, the interests of its affiliates or for its other clients;

- c) may trade in the same or opposite direction to the transactions undertaken, including based upon information in its possession that is not available to the Company;
- d) may provide the same or similar services to other clients including competitors of the Company;
- e) may be granted creditors' rights by the Fund which it may exercise.

The Company may use an affiliate of the Depositary to execute foreign exchange, spot or swap transactions for the account of the Company. In such instances the affiliate shall be acting in a principal capacity and not as a broker, agent or fiduciary of the Company. The affiliate will seek to profit from these transactions and is entitled to retain and not disclose any profit to the Company. The affiliate shall enter into such transactions on the terms and conditions agreed with the Company.

Where cash belonging to the Company is deposited with an affiliate being a bank, a potential conflict arises in relation to the interest (if any) which the affiliate may pay or charge to such account and the fees or other benefits which it may derive from holding such cash as banker and not as trustee.

The Company may also be a client or counterparty of the Depositary or its affiliates.

Up-to-date information on the Depositary, its duties, any conflicts that may arise, the safe-keeping functions delegated by the Depositary, the list of delegates and sub-delegates and any conflicts of interest that may arise from such a delegation will be made available to Shareholders on request.

Directors' Interests

There are no service contracts in existence between the Company and any of its Directors, nor are any such contracts proposed.

At the date of this Prospectus, no Director has any interest, direct or indirect, in any assets which have been or are proposed to be acquired or disposed of by, or issued to, the Company and no Director is materially interested in any contract or arrangement subsisting at the date hereof which is unusual in its nature and conditions or significant in relation to the business of the Company.

At the date of this Prospectus neither the Directors nor any Associated Person have any beneficial interest in the share capital of the Company or any options in respect of such capital.

The Directors of the Company, with the exception of Messrs. Brody, Manahan and Brady are partners or employees of entities within the Wellington Management group. Their biographical details are set out above.

Share Capital

At the date hereof the authorised share capital of the Company is 30,000 subscriber shares of Euro 1.27 each and 500,000,000,000 shares of no par value initially designated as unclassified shares.

Reserves & Dividend Policies

Reserves Policy

Under the Articles, the Directors may before declaring any dividends set aside out of the profits of the Company and carry to the credit of any reserve account such sums as they think proper, which shall,

at the discretion of the Directors, be applicable for any purpose to which the profits or reserves may be properly applied and pending such application may at the like discretion either be employed in the business of the Company or be invested in such investments as the Directors may from time to time think fit. The Directors may also carry forward to the accounts of the succeeding year or years any balance of profits which they shall think fit neither to divide nor to place to reserve.

Dividend Policy

No dividend shall be payable to the holders of the subscriber shares.

The Directors in each year may if they think fit declare such dividends on the Shares, or on any class of Shares as appear to the Directors to be justified by the profits being:

1. all revenue received or accrued including interest and dividends less all actual and accrued expenses of the relevant Fund attributable to the respective Share Class; and/or
2. realised profits on the disposal of investments less realised losses on the disposal of investments of the relevant Fund attributable to the respective Share Class and unrealised profits less unrealised losses on the valuation of investments of the relevant Fund attributable to the respective Share Class; and/or
3. realised and unrealised gains less realised and unrealised losses of the relevant Fund attributable to the respective Share Class.

PROVIDED THAT in each case that dividends may only be paid out of funds available for the purpose which may be lawfully distributed.

The Directors at such times as they think fit may also declare such dividends on any Share Class out of the capital of the relevant Fund.

On the occasion of the payment of a dividend to the holder of a Share in respect of which an income equalisation payment (as described in the paragraph entitled **Income Equalisation** below) has been paid and to whom a capital sum is payable in accordance with the Articles the amount of the dividend payable to such holder shall be reduced by the amount of the capital sum payable to such holder as aforesaid and if such capital sum is equal to or greater than the dividend which would otherwise be payable no dividend shall be payable on such Share.

The Directors may in accordance with the provisions laid down in the Articles declare interim dividends on Shares of any Share Class.

The Directors may deduct from any dividend or other monies payable to any Shareholder on or in respect of a Share all sums of money (if any) presently payable by him to the Company in relation to the shares of the Company.

Where the Company is required to pay any taxation to the Irish tax authorities as a consequence of making any payment to a Shareholder, the Directors may deduct from the payment an amount equal to the taxation attributable to the relevant payment(s) and pay such amount to the Irish taxation authorities.

All unclaimed dividends on Shares may be invested or otherwise made use of by the Directors for the benefit of the relevant Fund and its respective Share Classes until claimed. No dividend shall bear

interest against the Company. The payment by the Directors of any unclaimed dividend or other monies payable on or in respect of a Share into a separate account shall not constitute the Company a trustee in respect thereof and any dividend unclaimed after a period of six years from the date of declaration of such dividend shall be forfeited and shall revert to the relevant Fund and its respective Share Classes.

Where it is not the intention of the Directors to declare a dividend, any distributable profits will remain in the relevant Fund's assets and be reflected in the Net Asset Value of the relevant Class of Shares.

Where it is the intention of the Directors to declare a dividend, it shall ordinarily be declared in accordance with the dividend policy of the relevant Fund and its respective Share Classes.

Shares of any Share Class may at the discretion of the Directors be issued on the basis that any dividends declared in respect of those Shares will be automatically reinvested on behalf of the relevant Shareholder in the subscription of further Shares of that Share Class. Further Shares will be issued on the date the dividend is declared or, if that is not a Dealing Day, on the next following Dealing Day at a price calculated in the same way as for other issues of Shares on that Dealing Day. There is, however, no minimum number of such further Shares which may be so subscribed and fractions of Shares will be issued if necessary.

At the present time it is the intention of the Directors to declare dividends on Distributing Shares only based on the procedures below.

The Directors reserve the right to amend the calculation methodology of a dividend of a Fund or its respective Share Classes, notwithstanding the dividends will be calculated in accordance with the provisions relating to dividends in the Articles.

Dividends on the Distributing Shares of all Funds excluding the Wellington Dynamic Diversified Income Fund and the Wellington Multi-Asset Total Return Income Fund

Where it is the intention of the Directors to declare a dividend it shall ordinarily be calculated based on net operating income defined as all revenue received or accrued including interest and dividends, net of their respective withholding taxes and all actual and accrued expenses of the relevant Fund, attributable to the respective Share Class, unless otherwise stated in the relevant Supplement. Where a Share Class charges a Performance Fee this fee will not ordinarily be included as part of the accrued expenses for the purpose of calculating the dividend.

Dividends on the Distributing Shares of the Wellington Dynamic Diversified Income Fund and the Wellington Multi-Asset Total Return Income Fund

In respect of the Wellington Dynamic Diversified Income Fund, dividends will be paid based on a pro-rata amount of the total net assets relating to the projected yield.

In respect of the Wellington Multi-Asset Total Return Income Fund, a dividend rate per share will be calculated on a periodic basis based on a projected yield.

The amount payable for the non-Base Currency hedged Distributing Shares of the relevant Fund will also reflect the addition or deduction of the interest rate differential (depending on whether such differential is positive or negative respectively between the Dealing Currency of the relevant Share Class and the Base Currency of the relevant Fund). The interest rate differential used to calculate the

dividend for each distribution period may not necessarily equal the actual interest rate differential resulting from any currency hedging transactions carried out by the Investment Manager.

At the Directors' discretion, where there is insufficient income in a given month, dividends may be declared and paid from realised profits less realised losses on the disposal of investments and unrealised profits less unrealised losses on the valuation of investments of the relevant Fund. The Directors at such times as they deem appropriate may also declare such dividends on any class of Share out of the capital of the relevant Fund.

Frequency of dividend payments

Dividends will generally be declared on or about the last Business Day of the relevant dividend frequency period as noted in the Supplement for the relevant Fund. Dividends will generally be paid within seven days of the declaration date for Distributing Share Classes only.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

The frequency within which the dividends will, where relevant, be paid in respect of a Fund is set out in the relevant Supplement.

Memorandum and Articles of Association

All holders of Shares will be entitled to the benefit of, will be bound by and deemed to have notice of the provisions of the Memorandum and Articles of Association of the Company summarised below, copies of which are available as detailed under **Documents for Inspection**.

The Articles contain provisions to the following effect:

- (i) **Voting Rights.** The Articles provide that on a show of hands at a general meeting of the Company every holder of Shares present in person or by proxy shall have one vote and the holder or holders of the subscriber shares shall only have one vote in respect of all the subscriber shares; on a poll at a general meeting every holder of Shares who is present in person or by proxy shall have one vote in respect of each whole Share held by him and every holder of subscriber shares shall have one vote in respect of his holding of such shares.

The Articles further provide that, on a poll of all of the holders of Shares of more than one class for the time being, the voting rights of holders shall be adjusted in a manner determined by the Directors so as to reflect the latest calculated redemption price per Share of each of the classes in question.

- (ii) **Compulsory redemption.** The Directors have power to impose such restrictions as they think necessary for the purpose of ensuring that no Shares are acquired or held directly or beneficially by certain categories of investors as described in the Articles. They may also request the redemption of certain Shares for the reasons described in the Articles.
- (iii) **Winding up.** The Articles contain provisions to the following effect:

- (a) If the Company shall be wound up a liquidator shall, subject to the provisions of the Companies Act 2014, be appointed and shall apply the assets of each Fund in satisfaction of creditors' claims relating to that Fund.

The assets available for distribution among the members shall then be applied in the following priority:

- (a) First, in the payment to the holder of the Shares of each Fund of a sum in the currency in which that Fund or the relevant class of shares is designated or in any other currency selected by the liquidator as nearly as possible equal (at a rate of exchange determined by the liquidator) to the Net Asset Value of the Shares of such class held by such holders respectively as at the date of commencement to wind up provided that there are sufficient assets available in the relevant Fund to enable such payment to be made. In the event that, as regards any class of Shares, there are insufficient assets available in the relevant Fund to enable such payment to be made recourse shall be had:
 - (1) First, to the assets of the Company not comprised within any of the Funds; and
 - (2) Secondly, to the assets remaining in the Funds for the other classes of Shares (after payment to the holders of the Shares of the classes to which they relate of the amounts to which they are respectively entitled under this paragraph (2)) pro rata to the total value of such assets remaining within each such Fund.
- (b) Secondly, in the payment to the holders of the subscriber shares of sums up to the nominal amount paid thereon out of the assets of the Company not comprised within any Funds remaining after any recourse thereto under sub paragraph (a) above. In the event that there are insufficient assets as aforesaid to enable such payment in full to be made, no recourse shall be had to the assets comprised within any of the Funds.
- (c) Thirdly, in the payment to the holders of each class of Shares of any balance then remaining in the relevant Fund, such payment being made in proportion to the number of Shares held.
- (d) Fourthly, in the payment to the holders of the Shares of any balance then remaining and not comprised within any of the Funds, such payment being made in proportion to the number of Shares held.

If the Company shall be wound up (whether the liquidation is voluntary, under supervision or by the court) the liquidator may, with the authority of a special resolution of the holders of Shares in the relevant Fund and any other sanction required by the Companies Act 2014, divide among the holders of Shares of any class or classes within a Fund in specie the whole or any part of the assets of the Fund, and whether or not the assets shall consist of property of a single kind, and may for such purposes set such value as he deems fair upon any one or more class or classes of property, and may determine how such division shall be carried out as between the holders or different classes of holders. The liquidator may, with the like authority, vest any part of the assets in trustees upon such trusts for the benefit of members as the liquidator, with the like authority, shall think fit, and the liquidation of the Company may be closed and the Company dissolved, but so that no member shall be compelled to accept any assets in respect of which there is liability.

Income Equalisation

The Directors may determine that the Company, on behalf of one or more of the Funds, use an accounting technique known as income equalisation to prevent distortion of current shareholders' earnings. This is accomplished by applying a portion of the proceeds from shares issued and redeemed, equivalent on a per Share basis to the amount of undistributed net investment income on the date of the transaction. Apportioned amounts are credited or charged to undistributed income. As a result distributions of the Share class will be protected from the potential distortions caused by issues or redemptions of Shares.

Special rules may apply when a Fund operates income equalisation and investors should seek their own professional advice as to the tax consequences of investing in Shares of the Company.

Reports and Accounts

The Company's year-end is December 31 in each year and the Company's annual report and audited account will be published within 4 months of each 31 December. The annual report and audited accounts of the Company will be provided to Shareholders within four months after the conclusion of each accounting year and at least twenty one days before the general meeting of the Company at which they are to be submitted for approval. The Company will also provide a semi-annual report and unaudited accounts to Shareholders within 2 months after the end of each semi-annual period. The semi-annual report of the Company will be published within 2 months of each June 30.

Copies of the then latest audited report and annual accounts of the Company, and any subsequent semi-annual report and unaudited accounts of the Company, will also be sent free of charge to any Shareholder on request and are available on request to potential investors free of charge before the conclusion of any contract.

Such reports and accounts will contain a statement of the Net Asset Value of each Fund and of the investments comprised therein as at the year-end or the end of such semi-annual period.

Material Contracts

The following contracts have been entered into otherwise than in the ordinary course of the business intended to be carried on by the Company and are or may be material:

- (a) the Investment Management Services Agreements between the Company and each of the Investment Managers listed in the section above entitled **Management and Administration** regarding the Funds, as amended. The Agreements provide that the appointment of the Investment Manager will continue in force unless and until terminated by either party giving to the other not less than sixty days prior written notice. The Agreements oblige the Investment Manager at all times to exercise reasonable care and diligence and act in good faith in the performance of its duties and provides that the Investment Manager shall not be responsible and shall be without liability for any loss, liability, claim or expense suffered or incurred by the relevant Fund or the Company unless caused by the Investment Manager's own fraud, wilful default, negligence or wilful misconduct or that of its agents and employees.
- (b) the Depositary Agreement between the Company and the Depositary. As detailed in the Depositary Agreement, the Depositary and the Company have agreed a set term of three years beginning on or around 1 July 2019. The Depositary or the Company may terminate the appointment during or after the set term for material breach of the agreement, as required by law or for persistent failures in service level standards. Following the set term, either the

Depository or the Company may terminate the appointment at any time upon one hundred and eighty (180) days prior written notice. The Company may not terminate the appointment of the Depository and the Depository may not retire from such appointment unless and until a successor depository approved by the Central Bank has been appointed with the prior approval of the Central Bank or where the Depository is no longer permitted to act as a depository by the Central Bank. The Depository shall be liable to the Company, or to the Shareholders, for all losses suffered by them as a result of the Depository's negligent or intentional failure to properly fulfil its obligations as set out in the Depository Agreement and the UCITS Directive. The Depository shall be liable to the Company and to the Shareholders, for the loss by the Depository or a duly appointed third party of any financial instruments held in custody (determined in accordance with the UCITS Directive) and shall be responsible for the return of financial instruments or corresponding amount to the Fund without undue delay. The Depository Agreement contains provisions governing the responsibility and limitations on the responsibility of the Depository and provides for its indemnification in certain circumstances.

- (c) the Administration Agreement dated 2 July 1997 between the Company and the Administrator in relation to the Company, as novated by a novation agreement dated 31 October 2003, as last amended on 1 July 2019. As detailed in the Administration Agreement, the Administrator and the Company have agreed a set term of three years beginning on or around 1 July, 2019. The Administrator or the Company may terminate the appointment during or after the set term for material breach of the agreement, as required by law or for persistent failures in service level standards. Following the set term, either the Administrator or the Company may terminate the appointment at any time upon one hundred and eighty (180) days prior written notice. In the absence of fraud, negligence, bad faith or wilful misconduct, the Administrator will not be liable for any loss arising as a result of the performance by the Administrator of its obligations and duties under the Administration Agreement. The Company has agreed to indemnify the Administrator against losses suffered by the Administrator in the performance of its duties and obligations under the Administration Agreement, except for losses arising out of the fraud, negligence, bad faith or wilful misconduct of the Administrator in the performance of its duties under the Administration Agreement.
- (d) the Registrar and Transfer Agency Agreement dated 1 July 2019. As detailed in the Registrar and Transfer Agency Agreement, the Transfer Agent and the Company have agreed an initial term of three years beginning on or around 1 July 2019. The Transfer Agent or the Company may terminate the appointment during or after the initial term for material breach of the agreement, as required by law or for persistent failures in service level standards. Following the initial term, either the Transfer Agent or the Company may terminate the appointment at any time upon one hundred and eighty (180) days prior written notice. The Registrar and Transfer Agency Agreement contains indemnities in favour of the Transfer Agent excluding matters arising by reasons of the Transfer Agent's fraud, wilful misconduct or failure to exercise reasonable care or diligence in the performance of duties and obligations under the Registrar and Transfer Agency Agreement.
- (e) the Distribution Agreement dated 14 November 2013 between the Company and the Distributor. As detailed in the Distribution Agreement, the appointment of the Distributor shall continue indefinitely and may be terminated by either party on not less than ninety days' notice. Under the terms of the Distribution Agreement, the Distributor also may enter in dealer or sub-distributor arrangements with intermediaries who purchase or distribute the Company's Shares. The Distributor will indemnify and hold harmless the Company against any loss, liability, damages, claim or expense (including the reasonable cost of investigating or defending any alleged loss, liability, damages, claim or expense and reasonable counsel fees

incurred in connection therewith), arising by reason of any person's acquiring any Shares, on account of any wrongful act of the Distributor or any of its employees or agents (including any dealer it may have appointed), including any failure to conform with any requirement of applicable law relating to the offer or sale of Shares.

- (f) the Fund Services Agreement effective as of 1 January 2019 (the "FSA") between the Company and Wellington Funds Services LLC (the "WFS"). As detailed in the FSA, WFS has been engaged to provide or procure the provision of various fund services to the Company in return for the administrative fee. The appointment of WFS shall continue indefinitely and may be terminated by either party on not less than ninety days' notice. Under the terms of the FSA, the Company may also terminate the agreement with immediate effect if it considers such termination to be in the best interests of the Funds' investors. WFS may also engage various Wellington affiliates or third parties to assist in performing the services under the FSA. The FSA also imposes an obligation upon WFS to pay all the costs, fees and expenses for the services covered by the administrative fee as more fully described in this Prospectus.

Strategy for the Exercise of Voting Rights

The Company has a strategy for determining when and how voting rights attached to ownership of each Fund's investments are to be exercised for the exclusive benefit of the Fund. A summary of this strategy as well as the details of the actions taken on the basis of this strategy in relation to each Fund may be obtained free of charge during normal office hours at the registered office of the Company.

Remuneration Policy

The Company has in place remuneration policies, procedures and practices as required pursuant to the UCITS Directive (the "Remuneration Policy"). The Remuneration Policy is consistent with and promotes sound and effective risk management. It is designed to discourage risk-taking which is inconsistent with the risk profile of the Company and the Funds. The Remuneration Policy applies to staff whose professional activities have a material impact on the risk profile of the Company or the Funds, and ensures that no individual will be involved in determining or approving their own remuneration. The Remuneration Policy will be reviewed annually. Details of the up-to-date remuneration policy are available from www.wellingtonfunds.com and a paper copy of the remuneration policy will be made available to Shareholders free of charge upon request.

Complaints Handling

The details of the Company's complaint handling procedures may be obtained free of charge on request from the registered office of the Company.

Documents for Inspection

Copies of the Memorandum and Articles of Association of the Company, Prospectus, Key Investor Information Documents and, after publication thereof, the periodic reports and accounts may be obtained free of charge on request from the registered office of the Company or the Investment Managers. Copies of the Memorandum and Articles of Association of the Company, the Key Investor Information Documents, Prospectus, and after publication thereof, the periodic reports and accounts, are also available on <http://www.wellingtonfunds.com>.

means Renminbi denominated "A" shares in mainland China based companies that trade on Chinese stock exchanges such as the Shanghai Stock Exchange and the Shenzhen Stock Exchange.

CIBM

means the China Interbank Bond Market which is an OTC fixed income market established in the PRC in 1997. On the CIBM, institutional investors (including domestic and overseas institutional investors) trade sovereign, government and corporate bonds.

CIS

means collective investment scheme.

Class, Classes, Share Class or Share Classes

any class of Share issued in respect of any Fund as set out in this Prospectus.

Company

means Wellington Management Funds (Ireland) plc.

Connected Person

means the persons defined as such in the section entitled **Fund Transactions and Conflicts of Interest**.

Covered Person

means (i) any person who is an executive officer or director of (a) a company that is registered under Section 12 of the US Securities Exchange Act or files periodic reports pursuant to Section 15(d) thereof or (b) a "covered non-public company" as defined in Rule 5131 of the Conduct Rules of the US

Financial Industry Regulatory Authority, (ii) any person materially supported by a person described in (i) above, or (iii) any entity in which a persons described in (i) and (ii) above have aggregate beneficial interests in excess of 25%.

Depository

means State Street Custodial Services (Ireland) Limited or any other person or persons for the time being duly appointed Depository hereof in succession to State Street Custodial Services (Ireland) Limited.

Dealing Currency

means in relation to any Class of Shares such currency as is used for subscription and redemption purposes.

Dealing Day/Non-Dealing Day

Dealing Day means the day Shares will normally be issued or redeemed by a Fund.

Typically Funds are daily dealing with a Dealing Day being each Business Day. Notwithstanding this, some Business Days will be Non-Dealing Days for certain Funds where, for example, a substantial amount of a Fund's portfolio is traded in markets which are closed. A current list of these Funds and the Business Days which are Non-Dealing Days is contained in the holiday and dealing day calendar (the "Holiday and Dealing Day Calendar") which is available in the Literature section at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change.

The Dealing Days for each Fund are set out in the relevant Supplement and the Holiday and Dealing Day Calendar, which is available in the Literature section at www.wellingtonfunds.com and obtainable from the Transfer Agent.

Dealing Days may be amended from time to time as determined by the Directors

Dealing Deadline

means the deadline for subscription, conversion and redemption orders to be received by the Transfer Agent, which is 2:00 pm Ireland time. The Dealing Deadline is set out for each Fund in the relevant Supplement.

The Directors reserve the right to change the Dealing Deadline for all Funds as long as it is not after the Valuation Point.

Directors

means the directors of the Company.

Distributing Shares

means Shares in respect of which dividends may be declared and paid in accordance with the **Dividend Policy** section above.

Distributor

means Wellington Global Administrator, Ltd.

EEA	means the European Economic Area.
EU	means the European Union.
EU Member State	means a member of the EU.
Fitch	means Fitch ratings, the international rating agency.
Foreign Person	means (i) a person who is neither resident nor ordinarily resident in Ireland for tax purposes who has provided the Company with the appropriate declaration under Schedule 2B TCA and the Company is not in possession of any information that would reasonably suggest that the declaration is incorrect or has at any time been incorrect or (ii) the company is in possession of written notice of approval from the Revenue Commissioners to the effect that the requirement to have been provided with such declaration is deemed to have been complied with in respect of that person or class of shareholder to which that person belongs, and that approval has not been withdrawn and any conditions to which that approval is subject to have been satisfied.
Fund(s)	means each of the sub-funds of the Company authorised by the Central Bank at the date of this Prospectus and any other sub-funds which may be established from time to time by the Company.
Global Supplement	means a supplement to the Prospectus issued on behalf of the Company for the purpose of listing the existing sub-funds of the Company;
Group Companies	means companies which are included in the same group for the purposes of consolidated accounts, as defined in accordance with Directive 83/349/EEC or in accordance with international accounting rules.
Hedged Share Class and SC Share Classes	means a Share Class in respect of which the Company will enter into derivative transactions, the benefits and costs of which will accrue solely to Shareholders in that Share Class.
Initial Issue Price	means the price per Share at which Shares are or were initially offered in a Fund during the Initial Offer Period specified in the Supplement for the relevant Fund.
Initial Offer Period	means the period during which Shares in a Fund are offered at the Initial Issue Price, which period may be extended or shortened at the discretion of the Directors. The Initial Offer Period for each Fund is set out, where relevant, in the relevant Supplement. The Investor Guide details the status of all the

Share Classes, including whether their Initial Offer Period has closed.

Institutional Investor

Institutional investor means any institution investing for its own account or for its own beneficial interest. The term institutional investor does not include a financial intermediary subscribing on behalf of or for the beneficial interest of underlying clients of the financial intermediary.

Investment Manager

means any investment manager(s) appointed by the Company or any successor thereto duly appointed in accordance with the requirements of the Central Bank as specified in the Supplement in respect of each Fund as the investment manager for that relevant Fund;

Investor Guide

means the guide to dealing procedures for the Funds.

Key Investor Information Document

means any Key Investor Information Document issued by the Company in respect of the Funds from time to time.

Minimum Holding Amount

means such minimum holding amount for Shares in a Class as may be specified in the relevant Supplement for the relevant Class of Shares from time to time.

Minimum Initial Subscription

means such minimum amount (excluding any preliminary charge) in the relevant Dealing Currency initially subscribed for by each Shareholder for Shares in a Class as may be specified in the relevant Supplement for the relevant Class of Shares.

Minimum Subsequent Subscription

means such minimum amount (excluding any preliminary charge) in the relevant Dealing Currency subsequently subscribed for by each Shareholder for Shares in a Class as may be specified in the relevant Supplement for the relevant Class of Shares.

Money Market Instruments

shall have meaning prescribed to them in the Central Bank's Rulebook.

Moody's

means Moody's Investor Services, Inc.

Net Asset Value

means in respect of the assets of a Fund or Share Class, the amount determined in accordance with the provisions set out in the section entitled **Dealing in Shares**.

Net Credit Exposure

means the net loss a Fund would experience from an immediate, no recovery, default by a particular issuer or group of issuers, including any gains or losses on derivative positions, according to the Investment Manager's standard

calculation, applied in good faith and in accordance with accepted industry practice.

OECD	means the Organisation for Economic Co-operation and Development.
PRC	means the People's Republic of China.
Prospectus	the current prospectus of the Company and any Supplements and addenda thereto.
Redemption or Redeem	means the repurchase of Shares by the Company.
Regulations	means the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (S.I. No. 352) as may be amended, supplemented or consolidated from time to time, and includes any conditions that may from time to time be imposed thereunder by the Central Bank whether by notice or otherwise affecting the Company.
Restricted Person	means any person or entity defined as such in Rule 5130 of the Conduct Rules of the US Financial Industry Regulatory Authority.
Rupee	means the currency of India.
Settlement Date	whether for payment of Shares subscribed for or the payment of redemption proceeds, shall have the meaning set out in the relevant Supplement.
Shares	means participating shares in the Company and includes, where the context so permits or requires, the Shares in a Fund.
Shareholders	means holders of Shares, and each a "Shareholder".
Standard & Poor's	means Standard & Poor's Ratings Services.
Stock Connect	means (i) Shanghai-Hong Kong Stock Connect, the mutual market access program through which foreign investors can deal in select China A Shares listed on the Shanghai Stock Exchange (SSE) through the Stock Exchange of Hong Kong (SEHK) and (ii) the Shenzhen-Hong Kong Stock Connect, the mutual market access program through which foreign investors can deal in select China A Shares listed on the Shenzhen Stock Exchange (SZSE) through the SEHK.
Supplement	means any supplement in respect of a Fund, including any addenda thereto, to the Prospectus issued by or on behalf of the Company from time to time.

Taxable Irish Person

means any person, other than:

- (ii) a Foreign Person;
- (iii) an intermediary, including a nominee, for a Foreign Person;
- (iv) a qualifying management company within the meaning of section 739B TCA;
- (v) a specified company within the meaning of section 734 TCA;
- (vi) an investment undertaking within the meaning of section 739 B TCA;
- (vii) an investment limited partnership within the meaning of section 739J TCA;
- (viii) an exempt approved scheme or a retirement annuity contract or trust scheme within the provisions of sections 774, 784 or 785 TCA;
- (ix) a company carrying on life business within the meaning of section 706 TCA;
- (x) a special investment scheme within the meaning of section 737 TCA;
- (xi) a unit trust to which section 731(5)(a) TCA applies;
- (xii) a charity entitled to an exemption from income tax or corporation tax under section 207(1)(b) TCA;
- (xiii) a person entitled to exemption from income tax and capital gains tax under section 784A(2) TCA, section 787I TCA or section 848E TCA and the units held are assets of an approved retirement fund, an approved minimum retirement fund, a special savings incentive account or a personal savings retirement savings account (as defined in section 787A TCA);
- (xiv) the Courts Service within the meaning of section 4 of the Courts Service Act, 1998;
- (xv) a Credit Union within the meaning of section 2 of the Credit Union Act, 1997;
- (xvi) a company within the charge to corporation tax under section 739G(2) TCA, but only where the Fund is a money market fund;

- (xvii) a company within the charge to corporation tax under section 110(2) TCA;
- the National Asset Management Agency;
- (xviii) the National Treasury Management Agency or a Fund Investment vehicle within the meaning of Section 739D (6) (kb) TCA;
- (xix) the State acting through the National Pensions Reserve Fund Commission or any other person as may be approved by the Directors from time to time provided the holding of Shares by such person does not result in a potential liability to tax arising to the Company in respect of that Shareholder under section 739 TCA; and
- (xx) any other person as may be approved by the directors from time to time provided the holding of Shares by such persons does not result in a potential liability to tax arising to the Company in respect of that Shareholder under Part 27 Chapter 1A TCA.

in respect of each of which the appropriate declaration set out in Schedule 2B TCA or otherwise and such other information evidencing such status is in the possession of the Company on the appropriate date.

TCA

means the Taxes Consolidation Act, 1997, as amended.

Transferable Securities

Transferable Securities shall have the meaning prescribed to them in the Central Bank's Rulebook.

Transfer Agent

means State Street Fund Services (Ireland) Limited and any other person or persons for the time being duly appointed registrar and transfer agent in succession to the said State Street Fund Services (Ireland) Limited.

UCITS

means an Undertaking for Collective Investment in Transferable Securities.

UCITS Directive

means the EC Council Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the Co-ordination of Laws, Regulations and Administrative Provisions relating to UCITS, as amended, supplemented or replaced from time to time.

United Kingdom or UK

means the United Kingdom of Great Britain and Northern Ireland.

United States	means the United States of America, its territories, possessions and all areas subject to its jurisdiction (including the Commonwealth of Puerto Rico).
United States Person or US Person	means, unless otherwise determined by the Directors, any citizen or resident of the United States, any corporation, trust, partnership or other entity created or organised in or under the laws of the United States or any state thereof or having its principal place of business in the United States, any legal entity (other than an entity where all of the owners of the entity have limited liability) that is directly or indirectly majority owned by United States Persons and in which such persons bear unlimited responsibility for the obligations and liabilities of such entity, any collective investment vehicle that is majority owned by United States Persons, or any estate or trust the income of which is subject to United States federal income tax, regardless of source.
US Dollars or USD	means the currency of the United States.
Valuation Point	means the close of business on the New York Stock Exchange on the relevant Business Day.

In relation to any derivatives contract used, any market or exchange on which such contract may be acquired or sold which is referred to in clause 1 (i), (ii) or (iii) above or which is in the European Economic Area or in the United Kingdom, and/or is regulated, recognised, operates regularly, and is open to the public including the Korean Futures Exchange, the Singapore Monetary Exchange, MEFF, South Africa Futures Exchange (SAFEX), TSX Group Exchange and ICE Futures Europe.

APPENDIX II

INVESTMENT RESTRICTIONS APPLICABLE TO THE FUNDS

The particular investment restrictions for each Fund will be formulated by the Directors at the time of the creation of the Fund and are set out in Supplement for each Fund.

Details of the investment restrictions laid down in accordance with the Central Bank's Rulebook, in respect of each Fund are set out below:

1. Permitted Investments

Investments of a Fund are confined to:

- 1.1 Transferable Securities and Money Market Instruments which are either admitted to official listing on a stock exchange in an EU Member State or non-EU Member State or which are dealt on a market which is regulated, operates regularly, is recognised and open to the public in an EU Member State or non-EU Member State.
- 1.2 recently issued Transferable Securities which will be admitted to official listing on a stock exchange or other market (as described above) within a year.
- 1.3 Money Market Instruments other than those dealt on a regulated market.
- 1.4 shares of UCITS.
- 1.5 shares of AIFs as set out in the Central Bank's Rulebook.
- 1.6 deposits with credit institutions as prescribed in the Central Bank's Rulebook.
- 1.7 financial derivative instruments as prescribed in the Central Bank's Rulebook.

2. Investment Limits

- 2.1 A Fund may invest no more than 10% of net assets in Transferable Securities and Money Market Instruments other than those referred to in paragraph 1.
- 2.2 A Fund may invest no more than 10% of net assets in recently issued Transferable Securities which will be admitted to official listing on a stock exchange or other market (as described in paragraph 1.1) within a year. This restriction will not apply in relation to investment by a Fund in certain US securities known as Rule 144A securities provided that:
 - 2.2.1 the securities are issued with an undertaking to register with the US Securities and Exchange Commission within one year of issue; and
 - 2.2.2 the securities are not illiquid securities i.e. they may be realised by a Fund within seven days at the price, or approximately at the price, at which they are valued by a Fund.

- 2.3 A Fund may invest no more than 10% of net assets in Transferable Securities or Money Market Instruments issued by the same body provided that the total value of Transferable Securities and Money Market Instruments held in the issuing bodies in each of which it invests more than 5% is less than 40%.
- 2.4 Subject to the prior approval of the Central Bank, the limit of 10% (in 2.3) is raised to 25% in the case of bonds that are issued by a credit institution which has its registered office in an EU Member State and is subject by law to special public supervision designed to protect bondholders. If a Fund invests more than 5% of its net assets in these bonds issued by one issuer, the total value of these investments may not exceed 80% of the Net Asset Value of the Fund.
- 2.5 The limit of 10% (in 2.3) is raised to 35% if the Transferable Securities or Money Market Instruments are issued or guaranteed by an EU Member State or its local authorities or by a non-EU Member State or public international body of which one or more EU Member States are members.
- 2.6 The Transferable Securities and Money Market Instruments referred to in 2.4. and 2.5 shall not be taken into account for the purpose of applying the limit of 40% referred to in 2.3.
- 2.7 A Fund may not invest more than 20% of net assets in deposits made with the same credit institution.

Deposits or cash booked in accounts and held as ancillary liquidity shall only be made with a credit institution, which is within one of the following categories

1. a credit institution authorised in the EEA (European Union Member States, Norway, Iceland, Liechtenstein);
2. a credit institution authorised within a signatory state (other than an EEA Member State) to the Basel Capital Convergence Agreement of July 1988 (Switzerland, Canada, Japan, United States, United Kingdom); or
3. a credit institution in a third country deemed equivalent pursuant to Article 107(4) of the Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012.

Cash booked in accounts and held as ancillary liquidity shall not exceed 20% of the net assets of a Fund.

- 2.8 The risk exposure of a UCITS to a counterparty to an over-the-counter (OTC) derivative may not exceed 5% of net assets.

This limit is raised to 10% in the case of a credit institution authorised in the EEA; a credit institution authorised within a signatory state (other than an EEA Member State) to the Basel Capital Convergence Agreement of July 1988 (Switzerland, Canada, Japan, United States, United Kingdom); or a credit institution authorised in Jersey, Guernsey, the Isle of Man, Australia or New Zealand.

2.9 Notwithstanding paragraphs 2.3, 2.7 and 2.8 above, a combination of two or more of the following issued by, or made or undertaken with, the same body may not exceed 20% of net assets:

2.8.1 investments in Transferable Securities or Money Market Instruments;

2.8.2 deposits, and/or

2.8.3 risk exposures arising from OTC derivatives transactions.

2.10 The limits referred to in 2.3, 2.4, 2.5, 2.7, 2.8 and 2.9 above may not be combined, so that exposure to a single body shall not exceed 35% of net assets.

2.11 Group Companies are regarded as a single issuer for the purposes of 2.3, 2.4, 2.5, 2.7, 2.8 and 2.9. However, a limit of 20% of net assets may be applied to investment in Transferable Securities and Money Market Instruments within the same group.

2.12 A Fund may invest up to 100% of net assets in different Transferable Securities and Money Market Instruments issued or guaranteed by any EU Member State, its local authorities, non-EU Member States or public international bodies of which one or more EU Member States are members. The following are permitted issuers for the purposes of this investment restriction:

An OECD member country (provided it is of investment grade),
Government of Brazil (provided the issues are of investment grade),
Government of India (provided the issues are of investment grade),
Government of Singapore,
European Investment Bank,
European Bank for Reconstruction and Development,
International Finance Corporation,
International Monetary Fund,
Euratom,
The Asian Development Bank,
European Central Bank,
Council of Europe,
Eurofima,
African Development Bank,
International Bank for Reconstruction and Development (The World Bank),
The Inter-American Development Bank,
European Union,
Federal National Mortgage Association (Fannie Mae),
Federal Home Loan Mortgage Corporation (Freddie Mac),
Government National Mortgage Association (Ginnie Mae),
Student Loan Marketing Association (Sallie Mae),
Federal Home Loan Bank,
Federal Farm Credit Bank,
Tennessee Valley Authority,
Straight-A Funding LLC,
Export-Import Bank.

The Fund must hold securities from at least six different issues, with securities from any one issue not exceeding 30% of net assets.

3. Investment in Collective Investment Schemes (CIS)

- 3.1 A Fund may not invest more than 10% of net assets in aggregate in shares or units of any other CIS.
- 3.2 The CIS must be prohibited from investing more than 10% of net assets in other CIS.
- 3.3 When a Fund invests in the units of other CIS that are managed, directly or by delegation, by the Investment Managers or by any other company with which the Investment Managers or the Company is linked by common management or control, or by a substantial direct or indirect holding of more than 10% of the capital or votes, the Investment Managers or other company may not charge subscription, exchange or redemption fees on account of the Fund investment in the units of such other CIS. Moreover, in such a case, no management fee may be charged to the Fund's assets.
- 3.4 Where a commission (including a rebated commission) is received by the Investment Managers by virtue of an investment in the units of another CIS, this commission must be paid into the property of the Fund.

4. Index Tracking UCITS

- 4.1 A Fund may invest up to 20% of net assets in shares and/or debt securities issued by the same body where the investment policy of a Fund is to replicate an index, which satisfies the criteria set out in the Central Bank's Rulebook and is recognised by the Central Bank.
- 4.2 The limit in 4.1 may be raised to 35%, and applied to a single issuer, where this is justified by exceptional market conditions.

5. General Provisions

- 5.1 The Company may not acquire any shares carrying voting rights which would enable it to exercise significant influence over the management of an issuing body.
- 5.2 A Fund may acquire no more than:
 - 5.2.1 10% of the non-voting shares of any single issuing body;
 - 5.2.2 10% of the debt securities of any single issuing body;
 - 5.2.3 25% of the units of any single CIS;
 - 5.2.4 10% of the Money Market Instruments of any single issuing body.

The limits laid down in 5.2.2, 5.2.3 and 5.2.4 above may be disregarded at the time of acquisition if at that time the gross amount of the debt securities or of the Money Market Instruments, or the net amount of the securities in issue cannot be calculated.

- 5.3 5.1 and 5.2 shall not be applicable to:

- 5.3.1 Transferable Securities and Money Market Instruments issued or guaranteed by an EU Member State or its local authorities;
- 5.3.2 Transferable Securities and Money Market Instruments issued or guaranteed by a non-EU Member State;
- 5.3.3 Transferable Securities and Money Market Instruments issued by public international bodies of which one or more EU Member States are members;
- 5.3.4 shares held by a UCITS in the capital of a company incorporated in a non-EU Member State which invests its assets mainly in the securities of issuing bodies having their registered offices in that State, where under the legislation of that State such a holding represents the only way in which the UCITS can invest in the securities of issuing bodies of that State. This waiver is applicable only if in its investment policies the company from the non-EU Member State complies with the limits laid down in 2.3 to 2.11, 3.1, 3.2, 5.1, 5.2, 5.4, 5.5 and 5.6 and provided that where these limits are exceeded, paragraphs 5.5 and 5.6 below are observed;
- 5.3.5 shares held by an investment company in the capital of subsidiary companies carrying on only the business of management, advice or marketing in the country where the subsidiary is located, in regard to the repurchase of units at shareholders' request exclusively on their behalf.
- 5.4 A Fund need not comply with the investment restrictions herein when exercising subscription rights attaching to Transferable Securities or Money Market Instruments which form part of their assets.
- 5.5 The Central Bank may allow recently authorised UCITS to derogate from the provisions of 2.3 to 2.12, 3.1, 3.2, 4.1 and 4.2 for six months following the date of their authorisation, provided they observe the principle of risk spreading.
- 5.6 A Fund may not carry out uncovered sales or physical shorting of:
 - 5.6.1 Transferable Securities;
 - 5.6.2 Money Market Instruments;
 - 5.6.3 units of CIS; or
 - 5.6.4 financial derivative instruments.
- 5.7 A Fund may hold ancillary liquid assets.
- 6. Financial Derivative Instruments (FDIs)**
- 6.1 A Fund may invest in FDIs dealt in over-the-counter (OTC) provided that the counterparties to the OTC transactions are institutions subject to prudential supervision and belonging to categories approved by the Central Bank.
- 6.2 Position exposure to the underlying assets of FDIs, including embedded FDIs in Transferable Securities or Money Market Instruments, when combined where relevant with positions

resulting from direct investments, may not exceed the investment limits set out in the Central Bank's Rulebook. (This provision does not apply in the case of index-based FDIs provided the underlying index is one which meets with the criteria set out in the Central Bank's Rulebook.)

6.3 The UCITS global exposure (as prescribed in the Central Bank's Rulebook) relating to FDIs must not exceed its total Net Asset Value.

6.4 Investment in FDIs is subject to the conditions and limits laid down by the Central Bank.

It is intended that the Company should have the power to avail of any change in the law, regulations or guidelines which would permit investment in assets and securities on a wider basis.

Compliance with the investment restrictions noted above is measured at the time of purchase.

If the limits set forth above are exceeded for reasons beyond the control of the Investment Managers (such as market movements) or as a result of the exercise of subscription rights, the Company shall adopt as a priority objective for its sales transactions the remedying of that situation, taking due account of the interests of Shareholders.

APPENDIX III

The types of Share Class available for each Fund is stated in each Supplement.

Each Share Class is available in each of the following Dealing Currencies:
USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK

Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class.

Each Share Class (save for the SB, TB, SC and TC Share Classes) in each Dealing Currency in each Fund is available as both a Hedged Share Class and an unhedged Share Class. The SB and TB Share Classes are only available as unhedged Base Currency Share Classes and the SC and TC Share Classes are only available in the above non-Base Currency Dealing Currencies with the Share Class level currency hedging transactions described in the section entitled **Other Share Class Transactions**.

The Minimum Initial Subscription and Minimum Holding Amounts are the following USD amounts or the equivalent to the USD amount in the Dealing Currency of the relevant Share Class.

S, T, NI, NR, G, E, SB, SC, TB, TC Share Classes – USD 5 million
BN, D, N, DL, ED, EN, GD, GN, GR, R Share Classes – USD 5,000

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000.

* Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

The Minimum Subsequent Subscription for each Share Class is USD 1,000 or the USD equivalent in the relevant Dealing Currency of that Share Class.

APPENDIX IV

TAX INFORMATION

Please note that taxation under Austrian law might substantially differ from the tax situation generally outlined in this Prospectus. Shareholders and interested persons are advised to consult their tax advisors regarding the taxes due on their shareholdings.

ADDITIONAL INFORMATION FOR INVESTORS IN DENMARK

Date: 03/12/19

This Country Supplement forms part of, and should be read in conjunction with the prospectus of WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC dated 29 November 2019, as amended and supplemented from time to time (the "Prospectus"). All capitalized terms herein contained shall have the same meaning in this Country Supplement as in the Prospectus, unless otherwise indicated.

Wellington Management Funds (Ireland) plc (the "Company") is an investment company with variable capital and segregated liability between Funds incorporated on 25 June 1997 and is authorized in Ireland as a UCITS pursuant to the Regulations.

Information relating to the fees and expenses payable by investors is set out in the Prospectus entitled "**Charges and Expenses**". The attention of prospective investors is drawn to the information relating to fees and expenses set out therein.

Information on the Danish Representative Agent

The Company has appointed Nordea Bank Danmark A/S as entity to act as its Representative Agent in Denmark as the main Target Audience (according to local laws) for the Company will be Institutional Investors, Investment Professionals, Investment Advisors and Retail Investors.

The contact details of the Representative Agent are as follows:

Nordea Bank Danmark A/S

Issuer Services, Securities Services Hermes Hus, Helgeshøj Allé 33 Postbox 850

DK-0900 Copenhagen C

Telephone number: +45 33 33 33 01

Fax number: +45 33 33 10 31

Email: issuerservices.dk@nordea.com

Nordea Bank Danmark A/S is authorized to act as representative of the Company in Denmark. The Representative Agent shall carry out any and all duties required by a representative agent under the Danish Executive Order no. 786 of 17 June 2014 on marketing carried out by foreign investment undertakings in Denmark (the "Danish Executive Order") as amended from time to time.

Upon the Danish Investors request the Representative agent shall assist the Danish Investors in redemption, dividend payments, conversion of shares, as well as, assist the Danish Investors in contacting the Company directly. The Representative Agent shall also supply the documents which the Company makes public in Ireland and provide information about the Company at the request of investors.

ADDITIONAL INFORMATION FOR INVESTORS IN THE FEDERAL REPUBLIC OF GERMANY

Date: 03/12/19

This Additional Information document forms part of, and should be read in conjunction with the Prospectus of WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC dated 29 November 2019. All capitalized terms herein contained shall have the same meaning in this Additional Information document as in the Prospectus, unless otherwise indicated.

For the following sub-funds of WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Funds”) no notification for distribution in the Federal Republic of Germany was submitted and shares in these Funds may NOT be offered to investors within the Federal Republic of Germany:

**Global Infrastructure Equity Fund
Global Smaller Companies Equity Fund
Wellington Opportunistic Themes Fund
Wellington Global Strategic Sovereign Fund
Wellington US Capital Appreciation Equity Fund**

The function of the information agent for the Funds in Germany (the “German information agent”) has been taken over by:

Wellington Management Europe GmbH, Bockenheimer Landstraße 43-47, 60325 Frankfurt am Main, Germany

The Company does not issue printed individual certificates. Applications for the redemptions and conversion of Shares may be submitted either electronically through an approved method or by fax to State Street, the transfer agent of the fund, who will arrange for the payments or conversions to be effected.

The following documents are available free of charge in hard copy and are available for inspection at the office of the German information agent.

- the Prospectus,
- the Key Investor Information Documents,
- the Articles of Association of the Company,
- the annual report and semi-annual report of the Company,
- the issue, redemption as well as all conversion prices,
- notices to shareholders.

Furthermore, the copy of the following document is available for inspection free of charge at the office of the German information agent:

- the list of all past and present directorships and partnerships held by each Director over the last five years.

The issue, redemption as well as all conversion prices are published on fundinfo.com.

Any notices to the shareholders will be sent to the shareholders in Germany via letter or e-mail as requested by the shareholder in their account opening agreement. According to § 298 (2) of the Investment Code (KAGB), the notices to the shareholders will additionally be published in Germany in the Federal Gazette (www.bundesanzeiger.de) in the following cases:

- suspension of the redemption of the shares,
- termination of the management of the Company or its liquidation,
- any amendments to the Articles of Association which are inconstant with the previous investment principles, which affect material investor rights or which relate to remuneration and reimbursement of expenses that may be paid or made out of the asset pool,
- merger of the Company with one or more other funds and
- the change of the Company into a feeder fund or the modification of a master fund.

ADDITIONAL INFORMATION FOR INVESTORS IN LUXEMBOURG

Date: 03/12/19

This addendum forms part of, and should be read in conjunction with the Prospectus of WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) dated 29 November 2019 and may not be used separately. All capitalized terms herein contained shall have the same meaning in this Additional Information document as in the Prospectus, unless otherwise indicated.

The Company is an umbrella type open-ended investment company with variable capital and segregated liability between Funds and qualifies and is authorised in Ireland by the Central Bank of Ireland as a UCITS for the purposes of the regulations.

Information relating to the distribution in Luxembourg of the Company:

Paying and Information Agent

The Company has appointed State Street Bank Luxembourg, as the local information and paying agent in the Grand Duchy of Luxembourg (the “Agent”).

The Agent shall act as agent of the Company for the receipt of and transmission of subscription, redemption and any other requests and the payment of redemption and dividend monies in accordance with Luxembourg law, and the prospectus of the Company in force.

The Agent shall upon the request of an investor provide copies of the current prospectus of the Company and any supplement or addendum thereto, the KIIDs, the annual report and semi-annual report of the Company and the certificate from the Central Bank of Ireland. The Net Asset Value per Shares may also be obtained at the Agent’s office during normal bank business hours:

49, Avenue J.F. Kennedy L-1855, Luxembourg
Grand Duchy of Luxembourg

Distribution of the Company shares in Luxembourg

The Company is registered with the *Commission de Surveillance du Secteur Financier (CSSF)* to publicly distribute shares in Luxembourg in accordance with the requirements of the Luxembourg Law on Undertakings for Collective Investment dated 17 December 2010 UCITS situated in other EU Member States which market their shares in Luxembourg.

Wellington Global Administrator Limited will be the entity in charge of the marketing of shares of UCITS in Luxembourg.

Price Listings

Except where the determination of the Net Asset Value per Share and/or the issue and redemption of Shares has been temporarily suspended under the circumstances described in the Prospectus, the Net Asset Value per Share of each class will be available from the Administrator, on request and in addition is published daily on Bloomberg’s website, www.bloomberg.com.

Notifications

Any notices to shareholders of the Company will be communicated by registered letter or through a newspaper publication.

Taxation in Luxembourg*The Company*

Under current Luxembourg law, there are no Luxembourg ordinary income, capital gains, estate or inheritance taxes payable by the Company.

Shareholders

Under current Luxembourg law, there are no Luxembourg ordinary income, capital gains, estate or inheritance taxes payable by the shareholders in respect of their shares, except under certain conditions by shareholders who are domiciled in, or are residents of or have a permanent establishment in the Grand Duchy of Luxembourg.

ADDITIONAL INFORMATION FOR INVESTORS IN THE UK

Date: 03/12/19

This Addendum forms part of, and should be read in conjunction with the Prospectus of WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC dated 29 November 2019. All capitalized terms herein contained shall have the same meaning in this Addendum as in the Prospectus, unless otherwise indicated.

1. Name and address of the collective investment scheme

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (hereafter the “Company”) is self-managed, its principal place of business being 25-28 North Wall Quay, International Financial Services Centre, Dublin 1 Ireland.

2. United Kingdom Facilities Agent

The Company has appointed Wellington Management International Limited, its principal place of business being Cardinal Place 80 Victoria Street, London SW1E 5JL, United Kingdom, as its UK Facilities Agent.

Investors can obtain information about the most recent prices and redemption facilities from the office of the UK Facilities Agent detailed above. Updated prices are also available under www.bloomberg.com.

The UK Facilities Agent is also in charge of arranging and redirecting dealing instructions to the Irish Transfer Agent State Street Fund Services (Ireland) Limited, its principal place of business being at 78 Sir John Rogerson’s Quay, Dublin 2, Ireland.

Concerning the nature of the Share classes, please refer to the Section “DEALING IN SHARES” of the latest available Prospectus.

UK resident investors should seek their own professional advice as to tax matters and other relevant considerations. Please note that investors making investments in the Company may not receive back their entire investment.

Although the UCITS is a recognised scheme by the Financial Conduct Authority for the purposes of distribution, potential and current investors in the UK are advised that the rules made under Financial Services and Market Act (FSMA) do not in general apply to the Company in relation to its investment business.

3. Information to investors

The following documents and/or information are available for inspection at the office of the UK Facilities Agent:

1. The latest available prospectus and key investor information documents,
2. The latest articles of association of the Company,

3. The latest available annual and semi-annual financial reports of the Company,
4. The issue and redemption prices.

5. **Written Complaints**

Written complaints about any aspect of the service including the operations of the Company, or requests to obtain a copy of the complaints handling procedure can be addressed to Wellington Management International Limited for their further submission to the Company's head office.

5. **Cancellation Rights**

Please note that the investors have no rights of cancellation in respect of their holding.

6. **Compensation Rights**

Potential investors should be aware that WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC is not subject to the rules and regulations made under FSMA for the protection of investors. Investors will not have any protection under the United Kingdom Financial Services Compensation Scheme.

The foregoing is based on the WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC understanding of the law and practice currently in force in the United Kingdom and is subject to changes therein. It should not be taken as constituting legal or tax advice and, Investors should obtain information and, if necessary, should consult their professional advisers on the possible tax or other consequences of buying, holding, transferring or selling the shares under the laws of their countries of origin citizenship, residence or domicile. Furthermore the content of this document is for information purposes only, it does not constitute any offer or promotion of sale nor does it make any reference to the suitability of investments referred to herein.

This document (“Hong Kong Addendum”) forms part of and should be read in conjunction with the accompanying prospectus for Wellington Management Funds (Ireland) PLC (the “Company”) dated 29 November 2019 (the “Prospectus”). The Directors accept responsibility for the information contained in this Hong Kong Addendum. Unless otherwise provided for in this document, all capitalized terms shall have the same meaning herein as in the Prospectus.

**WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC
HONG KONG ADDENDUM**

FOR MARKETING THE COMPANY AND ITS FUNDS, AS MORE PARTICULARLY DESCRIBED HEREIN, ON A PRIVATE PLACEMENT BASIS AND/OR TO PROFESSIONAL INVESTORS (AS DEFINED UNDER THE HONG KONG SECURITIES AND FUTURES ORDINANCE AND ITS SUBSIDIARY LEGISLATION) IN HONG KONG.

This Hong Kong Addendum and accompanying Prospectus are distributed on a confidential basis. No person in Hong Kong, other than the person to whom this Hong Kong Addendum and accompanying Prospectus has been addressed, may treat the same as constituting an invitation to him to invest.

WARNING: THE CONTENTS OF THIS HONG KONG ADDENDUM AND THE ACCOMPANYING PROSPECTUS HAVE NOT BEEN REVIEWED BY ANY REGULATORY AUTHORITY IN HONG KONG. YOU ARE ADVISED TO EXERCISE CAUTION IN RELATION TO THIS OFFER. IF YOU ARE IN ANY DOUBT ABOUT THE CONTENTS OF THIS HONG KONG ADDENDUM AND THE ACCOMPANYING PROSPECTUS YOU SHOULD OBTAIN INDEPENDENT PROFESSIONAL ADVICE.

The Company has not authorized any person to give any information, or to make any representations in connection with this invitation to invest, other than that those contained in herein and, if given or made, such information or representations must not be relied on as having been made by the Company.

This Hong Kong Addendum and the accompanying Prospectus may not be reproduced in any form or transmitted to any person other than the person to whom it is addressed. In particular: (i) no offer or invitation to subscribe for shares in the Company’s Funds may be made to the public in Hong Kong; and (ii) this Hong Kong Addendum and accompanying Prospectus has not been approved by the Securities and Futures Commission in Hong Kong or any other regulatory authority in Hong Kong and accordingly the aforementioned shares in the Company’s Funds may not be offered or sold in Hong Kong by means of this Hong Kong Addendum and accompanying Prospectus or any other Hong Kong Addendum and accompanying Prospectus, other than in circumstances which do not constitute an offer to the public for the purposes of the Hong Kong Companies Ordinance and the Hong Kong Securities and Futures Ordinance, as amended from time to time.

Unless permitted to do so by the Securities Laws of Hong Kong, no person may issue or cause to be issued in Hong Kong this prospectus or any other information, advertisement or document relating to the Units to anyone other than to a person who is defined as a “professional investor” for the purposes of the Securities and Futures Ordinance of Hong Kong (“SFO”). “Professional Investors” include Hong Kong and overseas licensed intermediaries, banks, insurance companies, certain high net worth entities and other persons who may otherwise fall within the definition of a “Professional Investor” set out in Schedule 1 of the SFO.

Information relating to the fees and expenses payable by Shareholders in the Company is set out in the section of the Prospectus entitled “CHARGES AND EXPENSES”.

03 December 2019

LATIN AMERICA SUPPLEMENT

This Additional Information document forms part of, and should be read in conjunction with the Prospectus of WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC dated 29 November 2019. All capitalized terms herein contained shall have the same meaning in this Additional Information document as in the Prospectus, unless otherwise indicated.

Argentina

The Fund Documents include a private invitation to invest in securities. They are addressed only to you on an individual, exclusive, and confidential basis, and their unauthorized copying, disclosure, or transfer by any means whatsoever is absolutely and strictly forbidden. None of the Fund Sponsor, its affiliates, or any intermediary thereof will provide copies of the Fund Documents, or provide any kind of advice or clarification, or accept any offer or commitment to purchase the securities herein referred to from persons other than the intended recipient. ***The offer herein contained is not a public offering, and as such it is not and will not be registered with, or authorized by, the applicable enforcement authority.*** The information contained herein has been compiled by the Fund Sponsor and/or its affiliates, who assumes the sole responsibility for the accuracy of the data herein disclosed.

Chile

English translation:

This private offer commences on the above date set forth on this supplement and it avails itself of the General Regulation No. 336 of the Superintendence of Securities and Insurance;

This offer relates to securities not registered with the Securities Registry or the Registry of Foreign Securities of the Superintendence of Securities and Insurance, and therefore such shares or units (as applicable) are not subject to oversight by the latter;

Being unregistered securities, there is no obligation on the issuer to provide public information in Chile regarding such securities; and

These securities may not be subject to a public offer until they are registered in the corresponding Securities Registry.

NEITHER THE ISSUER NOR THE SHARES OR UNITS (AS APPLICABLE) HAVE BEEN REGISTERED WITH THE *SUPERINTENDENCIA DE VALORES Y SEGUROS* PURSUANT TO LAW NO. 18.045, THE *LEY DE MERCADO DE VALORES* AND REGULATIONS THEREUNDER. THE FUND DOCUMENTS DO NOT CONSTITUTE AN OFFER OF, OR AN INVITATION TO SUBSCRIBE FOR OR PURCHASE, THE SHARES OR UNITS (AS APPLICABLE) IN THE REPUBLIC OF CHILE, OTHER THAN TO THE SPECIFIC PERSON WHO INDIVIDUALLY REQUESTED THIS INFORMATION ON HIS OWN INITIATIVE. THIS MAY THEREFORE BE TREATED AS A "PRIVATE OFFERING" WITHIN THE MEANING OF ARTICLE 4 OF THE *LEY DE MERCADO DE VALORES* (AN OFFER THAT IS NOT ADDRESSED TO THE PUBLIC AT LARGE OR TO A CERTAIN SECTOR OR SPECIFIC GROUP OF THE PUBLIC).

Representation and Agreement by a Subscriber

By subscribing for an interest in the Fund, each subscriber in Chile will be deemed to represent to the Fund, and to the dealer with whom the subscription was placed (if any) that, as the case may be, that such subscriber is a "qualified investor" pursuant to numbers 1 to 6 of Section II of SVS General Rule No. 216 ("Qualified Investor"), because the subscriber is:

- (i) an institutional investor (Chile commercial bank, Chile registered loan institution, Chile insurance company, Chile reinsurance entity, Chile registered fund and portfolio manager and Chile pension fund manager (AFP) and Chilean private investment fund which meet the conditions set out in NCG 410);

- (ii) a foreign regulated entity such as a bank, insurance or reinsurance company, fund manager or securities intermediary incorporated abroad;
- (iii) a Chilean stock broker or securities agent acting for your own account;
- (iv) a Chilean stock broker of the agricultural commodities exchange acting for your own accounts (investment referred to certain products specified by the SVS);
- (v) a local or foreign individual or entity that, at the time of investing, has financial investments in registered securities (local or foreign) for an amount not less than UF 10,000 (approx. US\$ \$500,000); or
- (vi) a local or foreign individual or entity that has delegated their investment decisions to a Qualified Investor by means of a discretionary account agreement to the extent that the ability to invest in securities such as those corresponding to the Securities in the Fund is stated therein and to the extent that said Qualified Investor informs you of operations carried out under this authority with the frequency stated in said agreement.

Colombia

The Fund Documents do not constitute a public offer in the Republic of Colombia. The offer of the Fund is addressed to less than one hundred specifically identified investors. The Fund may not be promoted or marketed in Colombia or to Colombian residents, unless such promotion and marketing is made in compliance with Decree 2555 of 2010 and other applicable rules and regulations related to the promotion of foreign funds in Colombia.

The distribution of the Fund Documents and the offering of shares or units (as applicable) may be restricted in certain jurisdictions. The information contained in the Fund Documents is for general guidance only, and it is the responsibility of any person or persons in possession of the Fund Documents and wishing to make application for shares or units (as applicable) to inform themselves of, and to observe, all applicable laws and regulations of any relevant jurisdiction. Prospective applicants for shares or units (as applicable) should inform themselves of any applicable legal requirements, exchange control regulations and applicable taxes in the countries of their respective citizenship, residence or domicile.

Mexico

The securities have not been and will not be registered with the National Registry of Securities, maintained by the Mexican National Banking Commission and, as a result, may not be offered or sold publicly in Mexico. The Fund and any underwriter or purchaser may offer and sell the securities in Mexico, to Institutional and Accredited Investors, on a private placement basis, pursuant to Article 8 of the Mexican Securities Market Law.

Each investor shall be responsible for calculating and paying its own taxes, receiving any necessary tax advice and that neither the Fund nor the marketing entity (whether the Fund Sponsor or its intermediary) shall be deemed to have provided tax advice to the potential investor. By subscribing for an interest in the Fund, each subscriber in Mexico will be deemed to represent to the Fund that it is either an "institutional investor" or an "accredited investor" under Article 8 of the Mexican Securities Market Law.

Panama

These securities have not been listed with the Superintendence of the Securities Market and neither has any offering, sale or transaction with them. The listing exemption has been made based on Article 83 (3) of Decree Law No. 1 of July 8, 1999 (Institutional Investors). Consequently the tax treatment established under Articles 269 to 271 of Law Decree 1, dated 8 July 1999, does not apply. These Securities do not fall under the supervision of the Superintendence of the Securities Market.

The distribution of the Fund Documents and the offering of shares or units (as applicable) may be restricted in certain jurisdictions. The above information is for general guidance only, and it

is the responsibility of any person or persons in possession of the Fund Documents and wishing to make application for shares or units (as applicable) to inform themselves of, and to observe, all applicable laws and regulations of any relevant jurisdiction. Prospective applicants for shares or units (as applicable) should inform themselves as to legal requirements also applying and any applicable exchange control regulations and applicable taxes in the countries of their respective citizenship, residence or domicile. The Fund Documents do not constitute an offer or solicitation to any person in any jurisdiction in which such offer or solicitation is not authorized or to any person to whom it would be unlawful to make such offer or solicitation. By subscribing for an interest in the Fund, each subscriber in Panama will be deemed to represent to the Fund that it is an “institutional investor” under applicable Panamanian law.

Peru

The shares or units (as applicable) have not been registered before the Superintendencia del Mercado de Valores (SMV) and are being placed by means of a private offer. SMV has not reviewed the information provided to the investor. The Fund Documents are only for the exclusive use of institutional investors in Peru and is not for public distribution. By subscribing for an interest in the Fund, each subscriber in Peru will be deemed to represent to the Fund that it is an “institutional investor” under applicable Peruvian law.

Uruguay

The sale of the shares or units (as applicable) qualifies as a private placement pursuant to section 2 of Uruguayan law 18,627. The shares or units (as applicable) must not be offered or sold to the public in Uruguay, except in circumstances which do not constitute a public offering or distribution under Uruguayan laws and regulations. The shares or units (as applicable) are not and will not be registered with the Financial Services Superintendency of the Central Bank of Uruguay. The shares or units (as applicable) correspond to investment funds that are not investment funds regulated by Uruguayan law 16,774 dated September 27, 1996, as amended. By subscribing for an interest in the Fund, each subscriber in Uruguay will be deemed to represent to the Fund that it is an “institutional investor” under applicable Uruguayan law.

Date: 03 December 2019

DISCLOSURE STATEMENT FOR SAUDI ARABIAN PERSONS
SUPPLEMENTAL TO THE PROSPECTUS IN RELATION TO
WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

An umbrella type open-ended investment company with variable capital and segregated liability

which is the subject of this Information Memorandum, does not relate to a collective investment scheme which is authorised under Section 286 of the Securities and Futures Act, Chapter 289 of Singapore (the “Act”) or recognised under Section 287 of the Act. The Funds are not authorised or recognised by the Monetary Authority of Singapore (the “MAS”) and the Shares are not allowed to be offered to the retail public in Singapore. Each Fund is a restricted scheme under the Sixth Schedule to the Securities and Futures (offer of Investments) (Collective Investment Schemes) Regulations of Singapore. This Information Memorandum and any other document or material issued in connection with the offer or sale is not a prospectus as defined in the Act. Accordingly, statutory liability under the Act in relation to the content of prospectuses would not apply. The MAS assumes no responsibility for the contents of this Information Memorandum. You should consider carefully whether the investment is suitable for you and whether you are permitted (under the Act and any laws or regulations that are applicable to you) to make an investment in the Shares. It is recommended that you consult with your professional advisor on matters referred to in this Information Memorandum.

This Information Memorandum has not been registered as a prospectus with the MAS. Accordingly, this Information Memorandum and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the Shares may not be circulated or distributed, nor may the Shares be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 304 of the Act, (ii) to a relevant person pursuant to Section 305(1) of the Act, or any person pursuant to Section 305(2) of the Act, and in accordance with the conditions, specified in Section 305,

of the Act or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the Act.

Where the Shares are subscribed or purchased under Section 305 of the Act by a relevant person which is:

- (a) a corporation (which is not an accredited investor (as defined in Section 4A of the Act)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor;
- or
- (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary of the trust is an individual who is an accredited investor,

securities (as defined in Section 239(1) of the Act) of that corporation or the beneficiaries' rights and interest (howsoever described) in that trust shall not be transferred within 6 months after that corporation or that trust has acquired the Shares pursuant to an offer made under Section 305 of the Act except:

- (1) to an institutional investor or to a relevant person defined in Section 305(5) of the Act, or to any person arising from an offer referred to in Section 275(1A) or Section 305A(3)(i)(B) of the Act;
- (2) where no consideration is or will be given for the transfer;
- (3) where the transfer is by operation of law;
- (4) as specified in Section 305A(5) of the Act ; or
- (5) as specified in Regulation 36 of the Securities and Futures (Offers of Investments) (Collective Investment Schemes) Regulations 2005 of Singapore.

The Company has a policy of not entering into side letters that further qualify the terms of subscription of Shares to ensure that all investors are treated fairly.

Investors may obtain information on the past performance of each of the Portfolios within the Investor Information Documents, which are available on <http://www.wellington.com/KIIDS/>.

The Shares of each Fund are capital markets products other than prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018) and Specified Investment Products (as defined in the MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

The Company

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Blended Opportunistic Emerging Markets Debt Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Blended Opportunistic Emerging Markets Debt Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund against a blended index of 50% JPMorgan Emerging Market Bond Index - Global Diversified and 50% JPMorgan Government Bond Index - Emerging Markets Global Diversified (the “**Index**”) primarily through investment in a diversified portfolio of US Dollar and local currency denominated emerging markets debt securities and currency instruments.

The JPMorgan Emerging Market Bond Index - Global Diversified tracks total returns for US Dollar-denominated debt instruments, both fixed and floating rate, issued by emerging market sovereign and quasi-sovereign entities. The JPMorgan Government Bond Index - Emerging Markets Global Diversified consists of domestic currency government bonds to which international investors can gain exposure. The Index uses a weighting scheme to reduce the weight of large countries and redistributing the excess to the smaller weight countries with a maximum weight of 10% per country.

The Fund’s investment approach seeks to take advantage of investment opportunities across the emerging markets debt security spectrum, including US dollar and local currency-denominated sovereign, quasi-sovereign and corporate debt. Currency instruments will be used to both manage risk and seek to enhance return on opportunistic basis. The Investment Manager uses the following key components when building the Fund:

1. An assessment of global economic, liquidity and market conditions. The Investment Manager combines quantitative and macroeconomic analysis with sovereign credit research to identify the key global factors likely to have an impact on emerging markets debt valuations. This assessment is used to set the overall risk stance of the portfolio.
2. A combination of quantitative and fundamental research to find ideas across external sovereign debt, corporate debt, local interest rates, and currencies. Quantitative modelling provides the Investment Manager with a consistent, baseline view of each country and currency which helps facilitate cross-country comparisons and identify a diversified basket of currencies. The output of the Investment Manager’s models is then evaluated by the Investment Manager’s team of experienced sovereign analysts who conduct deep fundamental research to identify more qualitative factors that could have a meaningful impact on each country’s economic and financial market performance.
3. The Investment Manager will select and scale positions based on the degree of conviction in a particular idea, factoring in characteristics such as expected return, expected volatility and liquidity.
4. In-depth risk management on the portfolio, evaluating exposures by region, country, currency and sector and conduct sensitivity analysis to various market factors and scenario analysis to different market environments with the aim of ensuring that the portfolio is consistent with the risk stance targeted at the outset of the process.

The Fund will invest, either directly or indirectly through the use of financial derivative instruments (“FDIs”), in bonds issued by sovereign, quasi-sovereign agency, supranational, sub-national government and corporate, issuers; mortgage, commercial mortgage and asset-backed securities; hybrid securities comprising convertible securities as more fully described in the section of the Prospectus entitled **Types and Description of FDIs**; contingent capital securities that may be automatically written down upon the occurrence of a specific event and contingent convertible securities that may be automatically converted into an equity security upon the occurrence of a specific event; sukuk (financial instruments with cash flows similar to conventional bonds that are structured to comply with Islamic law), global depository notes, warrants, loan participation securities that qualify as an eligible investment by the Fund (including, but not limited to, trade finance loan participations) and, in addition, bank loan assignments that qualify as Money Market Instruments; and credit and index linked securities, which are debt securities of companies whose interest payments and/or payment at maturity depend primarily on the performance of one or more underlying credit exposures or market indices. A particular credit-linked security’s underlying credit exposure may be to a sovereign, quasi-sovereign or corporate issuer. Underlying index exposures may be to an index tied to a country’s economic exposure, debt or currency. In each case, the underlying credit or index exposure will be consistent with the Fund’s investment objective and policies. The Fund also may invest in structured notes (which are synthetic securities with embedded components (such as an option)); as well as other debt securities issued by public or private issuers, both fixed and floating-rate, including forward contracts on such securities and may hold equity securities where they are a result of a corporate action, conversion or exercising a warrant.

The Fund may buy and sell exchange-traded and over-the-counter FDIs, comprising currency and bond options, interest rate, bond and currency futures, credit default swaps, index credit default swaps, interest rate, total return currency swaps, swaptions, warrants, bond and currency forwards, forward rate agreements and “to-be-announced” securities to gain exposure to the instruments listed above in pursuit of the investment objective and/or for efficient portfolio management purposes including hedging against risk. Derivatives may be used as a replacement for direct bond exposures, to hedge specific interest rate, currency or credit risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The net market exposure (sum of long and synthetic short positions including cash) of the Fund will always be positive, meaning that long positions will be in greater proportion than any synthetic short positions. Whilst the Fund’s typical net market exposure may vary in time, it is expected to range between 75% and 200% of the Net Asset Value of the Fund, depending on the Investment Manager’s analysis of the prevailing market conditions and considered in light of the investment objective of the Fund. These figures do not include derivatives relating to foreign exchange which may be used for hedging or investment purposes.

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices the constituents of which include the types of securities described above, in which the Fund may directly invest.

The Fund may invest in any country which is considered by the Investment Manager to be an emerging market. These are primarily located in Latin/Central America and the Caribbean, Central and Eastern Europe, Middle East, Africa and Asia. Developed market exposures are also permitted. The Fund may

invest in securities traded in China via Bond Connect (see also section in the Prospectus entitled **Risks linked with dealing in securities in China via Bond Connect**) and may make substantial investment in securities traded on Russian markets.

Currency exposure to multiple currencies will be taken on an opportunistic basis. Currency exposure to both emerging markets and developed countries, including cross-currency positions, which are not related to the Fund's bond and cash equivalent positions, will be assumed.

The Fund generally will be diversified by country, currency and issuer but may hold concentrated positions from time to time.

Investments will be drawn from the broad credit spectrum. The Fund's weighted average credit quality, including cash and cash equivalents may be below investment grade. There will be no limitations on the credit quality of individual securities or currencies in the Fund.

The Fund will invest in both US Dollar-denominated securities and in securities denominated in currencies other than the US Dollar.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as relative VaR to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed twice the VaR of the Index. Further information on the risk management method can be found in the Prospectus in the section of the Prospectus entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage at a rate of between 0% and 700% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of FDIs. Where FDIs are used for hedging purposes or are themselves hedged against equal and opposite trades, the sum of gross notional values of FDIs may not reflect the true economic risk of the Fund. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. If the expected level of leverage calculated taking into account netting of equal and opposite foreign exchange forward contracts and excluding the share class hedging, the level of leverage would be expected to be lower and generally between 0% and 150% of the Fund's Net Asset Value. Further information on leverage can be found in the section of the Prospectus entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total return. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	20%
SFTs	3%	20%

Further information on SFTs can be found in the Prospectus in the section of the Prospectus entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as a '*debt*' fund.

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: US Dollars (USD);

Business Day: Every day that US Federal banks and the New York Stock Exchange are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;

Dealing Day: Each Business Day;

Please see the Holiday and Dealing Day Calendar which lists all non-Dealing Days for the Fund and is available at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change;

Dealing Deadline: The deadline for subscription, conversion and redemption orders to be received by the Transfer Agent is 2:00 pm Ireland time on the Dealing Day (T);

Settlement Date: For payment of Shares subscribed for, means no later than 4:00 p.m. New York time on the third Business Day following the Dealing Day on which the Shares were purchased. For payment of redemption proceeds, Settlement Date means a date usually within three Business Days, but not more than ten Business Days, from the trade date in respect of a redemption request;

Investment Manager: Wellington Management Company LLP
251 Little Falls Drive
Wilmington, Delaware 19808
USA

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Counterparty
- Currency
- Duration
- Emerging Markets
- Financial Derivatives Instruments
- Fixed Income and Debt Securities
- Investment in Russia
- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subsequent Subscription (in USD or equivalent*)
S, T	USD 5 million	USD 1,000
D,N,DL	USD 5,000	

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share

Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class DL Shares are reserved for investors in certain markets, acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class DL Shares is payable.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid quarterly. Dividends will generally be declared on or about the last Business Day of the relevant quarter for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below.

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee
S	N/A	0.55%	N/A
T	N/A	N/A	N/A
D	5%	0.55%	0.55%
N	N/A	0.55%	N/A
DL	3%	0.55%	0.85%

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D and DL where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Emerging Local Debt Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Emerging Local Debt Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund against the JP Morgan Government Bond Index – Emerging Markets Global Diversified Index (the “Index”), seeking to achieve the objective primarily through investment in a diversified portfolio of emerging markets local currency-denominated debt securities and currency instruments. The Index consists of domestic currency government bonds to which international investors can gain exposure. The Index uses a weighting scheme to reduce the weight of large countries and redistributing the excess to the smaller weight countries with a maximum weight of 10% per country.

The Fund will invest, either directly or indirectly through the types of financial derivative instruments (“FDIs”) more fully described in the section of the Prospectus entitled **Types and Description of FDIs** for investment purposes and for efficient portfolio management including hedging against risk. FDIs will primarily provide both long and short exposure to emerging markets fixed income securities, currencies and interest rates. The Fund may also invest, in the same manner, in bonds issued by sovereign, quasi-sovereign agency, supranational and sub national government issuers; mortgage-, commercial mortgage-, and asset-backed securities; corporate debt; global depositary notes; hybrid securities comprising convertible securities as more fully described in the section of the Prospectus entitled **Types and Description of FDIs**, contingent capital securities that may be automatically written down upon the occurrence of a specific event and contingent convertible securities that may be automatically converted into an equity security upon the occurrence of a specific event; sukuk (financial instruments with cash flows similar to conventional bonds that are structured to comply with Islamic law), warrants, loan participation securities that qualify as an eligible investment by the Fund (including, but not limited to, trade finance loan participations), and, in addition, bank loan assignments that qualify as Money Market Instruments; and credit and index linked securities, which are debt securities of companies whose interest payments and/or payment at maturity depend primarily on the performance of one or more underlying credit exposures or market indices. A particular credit-linked security’s underlying credit exposure may be to a sovereign, quasi-sovereign or corporate issuer. Underlying index exposures may be to an index tied to a country’s economic exposure, debt or currency. In each case, the underlying credit or index exposure will be consistent with the Fund’s investment objective and policies. The Fund also may invest in structured notes (which are synthetic securities with embedded components (such as an option)); as well as other debt securities issued by public or private issuers, both fixed- and floating-rate, including forward contracts on such securities and equity securities where they are a result of a corporate action, conversion or exercising a warrant.

The Fund may buy and sell exchange-traded and over-the-counter derivative instruments, comprising currency, interest rate, bond and index options, interest rate, bond, index and currency futures, or options on futures, credit default swaps, index credit default swaps, interest rate, total return and currency swaps, swaptions and swaps on an index, deliverable and non-deliverable currency forwards, forwards on bonds or other debt securities and forward rate agreements, to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes including hedging against risk. The Fund may engage in repurchase transactions for efficient portfolio management

purposes only. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the Prospectus in the section entitled **Types and Description of FDIs**.

The net market exposure (sum of long and synthetic short positions including cash) of the Fund will always be positive, meaning that long positions will be in greater proportion than any synthetic short positions. Whilst the Fund's typical net market exposure may vary in time, it is expected to range between 50% and 150% of the Net Asset Value of the Fund, depending on the Investment Manager's analysis of the prevailing market conditions and considered in light of the investment objective of the Fund. These figures do not include derivatives relating to foreign exchange which may be used for hedging or investment purposes.

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

The Fund may invest in any country which is considered by the Investment Manager to be an emerging market. These are primarily located in Latin/Central America and the Caribbean, Central and Eastern Europe, Middle East, Africa and Asia. Developed market exposures are also permitted. The Fund may invest in securities traded in China via Bond Connect (see also section in the Prospectus entitled **Risks linked with dealing in securities in China via Bond Connect**) and may make substantial investment in securities traded on Russian markets.

Currency exposure to multiple currencies will be taken on an opportunistic basis. Currency exposure to both emerging markets and developed countries, including cross-currency positions, which are not related to the Fund's bond and cash equivalent positions, will be assumed.

There is no limit on the duration of individual Fund holdings; however, duration at the Fund level is expected not to exceed 8 years, in normal market circumstances.

The Fund generally will be diversified by country, currency and issuer but may hold positions that are concentrated from time to time.

Investments will be drawn from the broad credit spectrum. The Fund's weighted average credit quality, including cash and cash equivalents may be below investment grade. There will be no limitations on the credit quality of individual securities or currencies in the Fund.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as relative VaR to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed twice the VaR of the Index. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage up to a maximum rate of 1000% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of FDIs. Where FDIs are used for hedging purposes or are themselves hedged against equal and opposite trades, the sum

of gross notional values of FDIs may not reflect the true economic risk of the Fund. The maximum figure above includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. If the expected level of leverage were calculated taking into account netting of equal and opposite foreign exchange forward contracts, and excluding the share class hedging, the level of leverage would be expected to be lower and generally between 0% and 300% of the Fund's Net Asset Value. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total return. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	5%	20%
SFTs	5%	20%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as a 'debt' fund.

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency:	US Dollars (USD);
Business Day:	Every day that US Federal banks and the New York Stock Exchange are open for business except for: Easter Monday, May 1 st , the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;
Dealing Day:	Each Business Day; Please see the Holiday and Dealing Day Calendar which lists all non-Dealing Days for the Fund and is available at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change;
Dealing Deadline:	The deadline for subscription, conversion and redemption orders to be received by the Transfer Agent, is 2:00 pm Ireland time on the Dealing Day (T);
Settlement Date:	For payment of Shares subscribed for, means no later than 4:00 p.m. New York time on the third Business Day following the Dealing Day on which the Shares were purchased. For payment of redemption proceeds, Settlement Date means a date usually within three Business Days, but not more than ten Business Days, from the trade date in respect of a redemption request;
Investment Manager:	Wellington Management Company LLP 251 Little Falls Drive Wilmington, Delaware 19808 USA

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Counterparty
- Currency
- Duration
- Emerging Markets
- Financial Derivatives Instruments
- Fixed Income and Debt Securities
- Investment in Russia

- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subsequent Subscription (in USD or equivalent*)
S, T, NI, NR,G	USD 5 million	USD 1,000
D, N,DL, GN, GR	USD 5,000	

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class DL Shares are reserved for investors in certain markets, acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class DL Shares is payable.

Class NI and NR Shares are reserved for certain investors, acting as financial intermediaries on behalf of underlying beneficial holders, investing in the Fund.

Class G Shares (including the Class GN and Class GR Shares) are reserved for existing Shareholders whose previous Shares have been changed, and serves as a “grandfathered” Class enabling the Shareholders to remain invested without undergoing those changes. The G, GN and GR Classes are only available to those investors that were holding S, N and R Shares in the Fund as at 19 May 2015. A distribution fee is payable in respect of the Class GR Shares.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid quarterly. Dividends will generally be declared on or about the last Business Day of the relevant quarter for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below.

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee
S	N/A	0.50%	N/A
T	N/A	N/A	N/A
D	5%	0.50%	0.50%
N	N/A	0.50%	N/A
DL	3%	0.50%	0.80%
NI	N/A	0.65%	N/A
NR	N/A	1.20%	N/A
G	N/A	0.45%	N/A
GN	N/A	0.45%	N/A
GR	N/A	0.45%	0.75%

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D, DL and GN where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 28 February 2020

Wellington Emerging Local Debt Advanced Beta Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Emerging Local Debt Advanced Beta Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective primarily through investment in a diversified portfolio of emerging markets local currency-denominated sovereign debt securities and currency instruments.

The Investment Manager seeks to build a portfolio that targets a return that is broadly equivalent to overall market returns but with less risk. Overall market returns are considered to be the return of a market capitalisation weighted index. The exposure of such an index to a market is broadly referred to as "Beta". Such an index can provide a certain level of diversification and return, however, traditional index methodology uses the market capitalisation of a country's outstanding debt to determine that country's weighting, which results in more-indebted countries often dominating the index. The Investment Manager considers that the Fund can be constructed to provide exposure to a market in an alternate manner to that of the indices (beta) described above but with lower risk. The Investment Manager calls this "Advanced Beta". In this regard, by utilizing the "Advanced Beta" approach the Investment Manager seeks to reduce the risk of emphasizing larger issues of debt due to strict focus on market capitalisation, by applying an additional screening process in the selection of debt securities for the Fund to provide a similar level of exposure but with lower risk. The Fund focuses on bonds that will mature within two to ten years, favours interest rate risk in countries that have steep yield curves, favours currency risk in countries where short-term rates are attractive, and balances risk among markets based on historical data. The Investment Manager will invest in an unconstrained manner using the above outputs with a forward-looking perspective on the creditworthiness of each country, as well as the liquidity and trading costs in each market.

When the Fund invests in emerging market local currency denominated debt securities it creates an implicit short exposure in the Base Currency of the Fund. Changes in exchange rates between the Base Currency and the local market currencies could create volatility in the Fund's returns. The Investment Manager will, using currency derivatives, seek to reduce this volatility by diversifying the Fund's Base Currency short exposure across a basket of short exposures to developed market currencies. In order to ensure the USD and non-USD Share Classes have substantially the same exposure to the basket of developed market currency short exposures and therefore similar investment returns, the Dealing Currency of the non-USD Share Classes will include a hedge against the USD Base Currency as described in more detail in the Prospectus in the section entitled **Other Share Class Transactions**.

Although the Fund is not constructed relative to a benchmark, the JP Morgan Government Bond Index – Emerging Markets Global Diversified Index (the "Index") will serve as a reference benchmark. The Index consists of domestic currency government bonds to which international investors can gain exposure. The Index uses a weighting scheme to reduce the weight of large countries and redistributing the excess to the smaller weight countries with a maximum weight of 10% per country.

The Fund will invest, either directly or indirectly through financial derivative instruments ("FDIs") (set out in the Prospectus); FDIs will primarily provide both long and short exposure to emerging markets fixed income securities and currencies and developed market currencies. The Fund may invest in bonds

issued by sovereign, quasi-sovereign agency, supranational and sub national government issuers; loan participation securities that qualify as an eligible investment by the Fund and may be securitised or unsecuritised, warrants and credit and index linked securities, which are debt securities of companies whose interest payments and/or payment at maturity depend primarily on the performance of one or more underlying credit exposures or market indices. A particular credit-linked security's underlying credit exposure may be to a sovereign or quasi-sovereign issuer. Underlying index exposures may be to an index tied to a country's economic exposure, debt or currency. In each case, the underlying credit or index exposure will be consistent with the Fund's investment objective and policies. The Fund may also hold securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)) and other debt securities issued by public or private issuers, both fixed- and floating-rate, including forward contracts on such securities.

The Fund may invest in collective investment schemes as described in the Prospectus in the section entitled **Investment in Other Investment Funds** and in exchange traded funds ("ETFs") that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such ETFs will be listed and/or traded on the markets and/or exchanges as set out in Appendix I of the Prospectus and regulated as UCITS or as AIF ETFs.

The Fund may buy and sell exchange-traded and over-the-counter derivative instruments, comprising currency, interest rate, bond and index options, interest rate, bond, index and currency futures, or options on futures, credit default swaps, index credit default swaps, interest rate, total return and currency swaps, swaptions and swaps on an index, deliverable and non-deliverable currency forwards, forwards on bonds or other debt securities and forward rate agreements, to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes including hedging against risk. The Fund may engage in repurchase transactions for efficient portfolio management purposes only. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the Prospectus in the section entitled **Types and Description of FDIs**.

The net market exposure (sum of long and synthetic short positions including cash) of the Fund will always be positive, meaning that long positions will be in greater proportion than any synthetic short positions. Whilst the Fund's typical net market exposure may vary in time, it is expected to range between 90% and 120% of the Net Asset Value of the Fund, depending on the Investment Manager's analysis of the prevailing market conditions and considered in light of the investment objective of the Fund. These figures do not include derivatives relating to foreign exchange which may be used for hedging or investment purposes.

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

The Fund will be denominated in US Dollars. Currency exposure, from the use of forward currency exchange contracts in multiple currencies, will be taken on an opportunistic basis as more fully described in the section of the Prospectus entitled **Financial Derivative Instruments (FDIs)**. Currency exposure to both emerging markets and developed countries, including cross-currency positions, which are not related to the Fund's bond and cash equivalent positions, will be assumed. Debt securities may be denominated in US Dollars or other currencies. The Fund may hold cash and cash equivalents as

described in the Prospectus in the section entitled **Cash and Cash Equivalents** in multiple currencies without restriction.

There is no limit on the duration of individual Fund holdings; however, duration at the Fund level is expected not to exceed 8 years, in normal market circumstances.

The Fund may invest in any country which is considered by the Investment Manager to be an emerging market. These are primarily located in Latin/Central America and the Caribbean, Central and Eastern Europe, Middle East, Africa and Asia. Developed market exposures are also permitted. The Fund may invest in securities traded in China via Bond Connect (see section entitled **Risks linked with dealing in securities in China via Bond Connect** in the Prospectus) and may make substantial investment in securities traded on Russian markets from time to time.

The Fund generally will be diversified by country, currency, sector and issuer, but may hold positions that are concentrated from time to time. The Fund's weighted average credit quality is expected to be investment grade, but investments may be drawn from a broad credit spectrum. However, the Fund may only purchase securities if rated at least speculative grade i.e. B3 by Moody's, B- by S&P, or B- by Fitch, or an equivalent internal rating by the Investment Manager with the exception of credit linked notes and asset backed securities which shall always be investment grade. In case of two different ratings, the lower rating shall be decisive. In case of three or more different ratings, the lower rating of the two best ratings shall be decisive. Any securities which fall below the minimum required rating subsequent to purchase may continue to be held, provided that any such downgraded securities do not in aggregate exceed 3% of the Net Asset Value of the Fund. Otherwise, they will be sold within six months from the downgrading, unless the rating is upgraded within that period. The Investment Manager will under no circumstances rely exclusively or automatically on external ratings in determining the credit risk of a financial instrument, and the Investment Manager will perform its own credit assessment with respect to each investment.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as relative VaR to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed twice the VaR of the Index. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage up to a maximum rate of 700% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of FDIs. Where FDIs are used for hedging purposes or are themselves hedged against equal and opposite trades, the sum of gross notional values of FDIs may not reflect the true economic risk of the Fund. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of non-USD Share Classes. If the expected level of leverage were calculated taking into account netting of equal and opposite foreign exchange forward contracts, and excluding the share class hedging, the level of leverage would be expected to be lower and generally between 0% and 200% of the Fund's Net Asset Value. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund’s Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is intended for professional investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions (“SFTs”)

The Fund’s expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	10%
SFTs	5%	20%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as a ‘debt’ fund.

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: US Dollars (USD);

Business Day: Every day that US Federal banks and the New York Stock Exchange are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;

Dealing Day: Each Business Day;

Please see the Holiday and Dealing Day Calendar which lists all non-Dealing Days for the Fund and is available at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change;

Dealing Deadline: The deadline for subscription, conversion and redemption orders to be received by the Transfer Agent, is 2:00 pm Ireland time one day prior to the Dealing Day (T-1), provided that day is also a Dealing Day. Where this is not a Dealing Day, the Dealing Deadline will default to the prior Dealing Day;

Settlement Date: For payment of Shares subscribed for, means no later than 4:00 p.m. New York time on the third Business Day following the Dealing Day on which the Shares were purchased. For payment of redemption proceeds, Settlement Date means a date usually within three Business Days, but not more than ten Business Days, from the trade date in respect of a redemption request;

Investment Manager: Wellington Management Company LLP
251 Little Falls Drive
Wilmington, Delaware 19808
USA

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Counterparty
- Currency
- Duration
- Emerging Markets
- Financial Derivatives Instruments
- Fixed Income and Debt Securities
- Investment in Russia
- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Classes	Share	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subscription (in USD or equivalent*)	Subsequent USD or
SB, SC, TB, TC		USD 5 million	USD 1,000	

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. The SB and TB Share Classes are only available as unhedged USD Share Classes and the SC and TC Share Classes are only available in the above non-USD Dealing Currencies.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Currency hedging transactions will also be executed at a share class level for the SC and TC Share Classes. These transactions will hedge the Dealing Currency against the Base Currency as described above. However the objective of these transactions, in combination with the currency derivatives put in place by the Investment Manager within the portfolio itself, is to ensure that the Shareholders in the SC or TC Share Classes, being the non-USD Share classes, have substantially the same currency exposures as the Shareholders in the SB or TB Share Classes respectively, being the USD Share classes, and therefore receive similar investment returns. The investment returns will differ to the extent of the costs of these currency hedging transactions at share class level and also the difference in interest rates between the Dealing Currency and the Base Currency which may have a positive or negative impact on returns.

These share class currency hedging transactions will comply with the requirements of the Central Bank (including the limits regarding over-hedging described in the **Hedged Share Class Transactions** section in the Prospectus). The class level transactions will be clearly attributable to the relevant SC or TC Share Class and gains, losses and costs of the relevant transactions will accrue solely to the relevant Share Class. SC or TC Share Classes will only be created where the Investment Manager believes that they will not prejudice the interests of the holders of other share classes. Furthermore, the derivative transactions to which the Share Class relates will not result in a leveraged return per Share Class.

Shareholders in the SC or TC Share Classes should be aware that the above share class hedging transactions in combination with the currency hedging transactions referred to under **Investment Policies** above may result in those Share Classes not benefiting fully from changes in relative currency values.

There can be no assurance that the above strategy will be successful.

Class SB and SC Shares are reserved for Institutional Investors.

Class TB and TC Shares are reserved for Institutional Investors that have a direct investment advisory or other relationship with the Investment Manager or its affiliates, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

The value of the Share Classes in the Fund will be subject to exchange rate risk in relation to a basket of developed market currencies.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid quarterly. Dividends will generally be declared on or about the last Business Day of the relevant quarter for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below.

Share Class Name	Investment Management Fee
SB	0.30%
SC	0.30%
TB	Not applicable
TC	Not applicable

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for Classes SC, SB, TC and TB.

Fees for services related to managing currency at the share class level are borne by the Investor Manager directly.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Emerging Markets Corporate Debt Fund

This document (the "Supplement") forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the "Prospectus") in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the "Company") and contains information relating to the Wellington Emerging Markets Corporate Debt Fund (the "Fund"), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund against the JPMorgan Corporate Emerging Market Bond Index Broad Diversified (the "Index"), seeking to achieve the objective through investment in a diversified portfolio, primarily consisting of US Dollar denominated emerging markets corporate bonds. The Index is market capitalisation weighted and consists of US-denominated Emerging Market corporate bonds. To ensure the Index remains diversified, the weights of the index countries with larger corporate debt are limited by only including a specified portion of the face value of their debt.

Fund construction is based on combining fundamental bottom-up corporate credit research and security selection with top-down macroeconomic and quantitative analysis. The Fund will primarily invest in companies domiciled in any country that is considered by the Investment Manager to be a developing or emerging market. These are primarily located in Latin/Central America and the Caribbean, Central and Eastern Europe, Middle East, Africa and Asia. The Fund may make substantial investment in securities traded on Russian markets

The Fund may invest, either directly or indirectly through the use of FDIs, primarily in bonds issued by corporates and quasi-sovereign agencies but may also invest, in the same manner, in bonds issued by sovereigns, supranational and sub national government issuers. These bonds will primarily be denominated in US Dollars, but may also be denominated in euros or other currencies.

The Fund may also buy and sell index linked bonds and credit linked notes whose interest payments and/or payment at maturity depend primarily on the performance of an underlying index or security. The underlying exposure of an index linked bond may be tied to a market index (such as a bond index or a credit default swap index) or an economic index (such as growth or inflation indices). The underlying exposure of a credit linked note is typically tied to a sovereign, quasi-sovereign or corporate bond issuer. In each case, the underlying exposure will be consistent with the Fund's investment objective and policies. The Fund also may invest in structured notes (which are synthetic securities with embedded components (such as an option)). Such structured notes shall give exposure to underlying fixed income securities on an unleveraged basis.

The Fund also may buy and sell asset-backed securities, real estate investment trust debt, hybrid securities such as convertible bonds, contingent capital securities (which may be automatically written down upon the occurrence of a specific event) and contingent convertible securities (which may be automatically converted into an equity security upon the occurrence of a particular event), GDNs (global depositary notes), sukuk (financial instruments with cash flows similar to conventional bonds that are structured to comply with Islamic law), loan participation securities that qualify as an eligible investment by the Fund (including, but not limited to, trade finance loan participations) and may be securitised or unsecuritised, and in addition, bank loan assignments that qualify as Money Market Instruments; credit linked notes issued by public or private issuers, as well as other bonds that may be fixed- and floating rate and equity securities, where they are the result of a conversion, corporate action, or exercising a warrant. The Fund may also hold private placements, including those issued pursuant to Rule 144A

and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended) (the “1933 Act”).

The Fund may invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds** and in exchange traded funds (“ETFs”) that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such ETFs will be listed and/or traded on the markets and/or exchanges as set out in Appendix I section of the Prospectus and regulated as UCITS or as AIF ETFs.

As a means of indirectly gaining both long and short exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes including hedging against risk, the Fund may buy and sell exchange-traded and over-the-counter FDIs, including interest rate, bond, index (including credit index), equity and currency futures; currency, interest rate, inflation, equity, total return, credit default and index credit default swaps; currency, bond, equity, interest rate index, swap options and options on futures; deliverable and non-deliverable currency forward contracts, bond forwards and warrants. FDIs are more fully described in the section of the Prospectus entitled **Types and Description of FDIs**. The Fund may hold outright (i.e. net) short positions synthetically through the use of FDIs.

The net market exposure (sum of long and synthetic short positions including cash) of the Fund will always be positive, meaning that long positions will be in greater proportion than any synthetic short positions. Whilst the Fund’s typical net market exposure may vary in time, it is expected to range between 80% and 150% of the Net Asset Value of the Fund, depending on the Investment Manager’s analysis of the prevailing market conditions and considered in light of the investment objective of the Fund. These figures do not include derivatives relating to foreign exchange which may be used for hedging or investment purposes.

Non-US Dollar denominated positions may be unhedged, partially hedged, or fully hedged depending on the Investment Manager’s investment outlook and hedges will be implemented primarily via deliverable and non-deliverable currency forward contracts. Currency exposure to both emerging and developed market currencies, including cross-currency positions, which are not related to the denomination of the Fund’s positions, may be assumed as opportunities arise.

There is no limit on the duration of individual Fund holdings; however, duration at the Fund level will be limited to the duration of the Index +/- 2 years. Duration indicates price sensitivity to fluctuations in interest rates. Duration is measured in years - the higher the duration, the more likely prices will drop as interest rates increase. For example, a bond with 5 year duration will likely decrease in value by 5% if interest rates rise 1% and increase in value by 5% if interest rates fall 1%. If the duration of the Fund’s reference benchmark is 6 years, for example, the above statement means that the duration of the Fund will not be lower than 4 years, and will not be higher than 8 years.

The Fund will generally be diversified by country, currency and issuer but may hold concentrated positions in currencies, countries and issuers from time to time.

Investments will be drawn from the broad credit spectrum. The Fund's weighted average credit quality, including cash and cash equivalents may be below investment grade. There will be no limitations on the credit quality of individual securities or currencies in the Fund.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as relative VaR to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed twice the VaR of the Index. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage at a rate of between 0% and 400% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of FDIs. Where FDIs are used for hedging purposes or are themselves hedged against equal and opposite trades, the sum of gross notional values of FDIs may not reflect the true economic risk of the Fund. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. If the expected level of leverage were calculated taking into account netting of equal and opposite foreign exchange forward contracts, and excluding the share class hedging, the level of leverage would be expected to be lower and generally between 0% and 30% of the Fund's Net Asset Value. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	10%
SFTs	5%	20%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as a 'debt' fund.

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: US Dollars (USD);

Business Day: Every day that US Federal banks and the New York Stock Exchange are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;

Dealing Day: Each Business Day;

Please see the Holiday and Dealing Day Calendar which lists all non-Dealing Days for the Fund and is available at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change;

Dealing Deadline: The deadline for subscription, conversion and redemption orders to be received by the Transfer Agent is 2:00 pm Ireland time one day prior to the Dealing Day (T-1), provided that day is also a Dealing Day. Where this is not a Dealing Day, the Dealing Deadline will default to the prior Dealing Day;

Wilmington, Delaware 19808

RISK FACTORS

Potential investors' attention is drawn to the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Counterparty
- Currency
- Duration
- Emerging Markets
- Financial Derivatives Instruments
- Fixed Income and Debt Securities
- Investment in Russia
- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subsequent Subscription (in USD or equivalent*)
S, T	USD 5 million	USD 1,000
D, N	USD 5,000	

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid quarterly. Dividends will generally be declared on or about the last Business Day of the relevant quarter for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and the Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below.

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee
S	N/A	0.55%	N/A
T	N/A	N/A	N/A
D	5%	0.55%	0.55%
N	N/A	0.55%	N/A

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N and D where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Euro High Yield Bond Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Euro High Yield Bond Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund against the ICE Bank of America Merrill Lynch Euro High Yield Constrained Index (the "Index"), seeking to achieve the objective by investing primarily in debt securities denominated in European currencies issued worldwide. The Fund is denominated in Euro and the majority of debt securities held will be denominated in Euro with any non-Euro exposures in the Fund generally hedged back to Euro. The Fund will also primarily invest in debt securities which are considered by the Investment Manager to be below investment grade. The Index tracks the performance of Euro-denominated, below investment grade corporate debt publicly issued in markets around the world and is modified capitalisation weighted, with the largest issuers capped at 3% of the weight of the total index with the excess weight redistributed equally amongst the issuers under that cap.

The Fund's investment approach is based on analysis of the credit profile of individual high yield issuers, as well as the macro and micro environment for high yield bonds. The identification of high conviction fundamental credit research ideas is expected to be the primary focus of the approach and is complemented by top-down analysis, including identifying sectors that the Investment Manager believes are experiencing long-term cyclical change and analysing the geographic regions that we wish to overweight or underweight. Through this, the Investment Manager looks to construct a portfolio that is well diversified by industry but also able to take advantage of favourable secular or cyclical industry trends. The implementation of the strategy is contingent on the Investment Manager's conviction on fundamental, credit research ideas. The Investment Manager monitors risk throughout the investment process and actively manages risk at the security, sector and total portfolio level, with the objective of generating strong risk-adjusted returns in a wide variety of market environments. Total returns are sought from two sources, a high level of current income and capital appreciation. Whilst the Fund is managed relative to the Index its holdings may deviate from the Index from time to time.

The Fund will invest, either directly or indirectly (both long and short) through the use of FDIs, in high yield (i.e., below investment grade) debt securities of issuers domiciled around the world for investment purposes and for efficient portfolio management, including hedging against risk. The Fund may invest up to 5% of its Net Asset Value in securities traded in the Russian markets. The Fund may invest in a broad range of debt securities of various types and maturities issued by commercial, governmental or supranational entities, including, for example, debentures, loan participation securities that qualify as an eligible investment by the Fund that reference bank loans or trade finance loans, loans assignments that qualify as Money Market Instruments, REIT debt securities, sukuk (financial instruments with cash flows similar to conventional bonds that are structured to comply with Islamic law), hybrid securities comprising convertible securities as more fully described in the section of the Prospectus entitled **Types and Description of FDIs**, contingent capital securities that may be automatically written down upon the occurrence of a specific event and contingent convertible securities that may be automatically converted into an equity security upon the occurrence of a specific event, preferred stock, warrants, rights, floating rate and variable rate notes, covered bonds, mortgage, commercial mortgage and other asset backed securities, collateralised debt obligations and collateralised loan obligations, coupon-bearing and deferred

interest instruments (such as zero coupon bonds). The Fund may also invest in debt securities of corporations issued under Rule 144A or Regulation S under the US Securities Act of 1933.

The Fund may buy and sell exchange-traded and over-the-counter FDIs, both long and short, comprising bond and interest rate futures; bond, interest rate, inflation, index, and currency options; swaptions; interest rate, credit default, index credit default, currency and total return swaps; currency forwards, forward rate agreements and “to-be-announced” securities) to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The Fund will primarily invest in debt securities rated below investment grade, i.e. below Baa3 by Moody’s, BBB- by Standard & Poor’s, or BBB- by Fitch. The Fund may also invest in non-rated debt instruments deemed to be of similar credit quality by the Investment Manager. The average quality of the Fund’s holdings will tend to be in the B2/B range, but is expected to fluctuate. In the event of split ratings on a security, the Investment Manager will use the highest rating of Moody’s, Standard & Poor’s or Fitch. If a security is unrated, then an equivalent credit rating, as deemed by the Investment Manager, may be used. In the event that a security is downgraded after its purchase, the Investment Manager may continue to hold such security on behalf of the Fund if it determines that it is in the best interest of the Fund. The Fund may hold equity securities, up to 5% of the market value of the Fund, if such securities are received as a result of a corporate restructuring or as a result of owning equity-linked securities (e.g. convertible bonds, warrants).

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

The Fund may also invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds**, and in exchange traded funds (“ETFs”) that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such ETFs will be listed and/or traded on the markets and/or exchanges as set out in Appendix I of the Prospectus and regulated as UCITS or as AIF ETFs.

The net market exposure (sum of long and synthetic short positions including cash) of the Fund will always be positive, meaning that long positions will be in greater proportion than any synthetic short positions. Whilst the Fund’s typical net market exposure may vary in time, it is expected to range between 80% and 120% of the Net Asset Value of the Fund, depending on the Investment Manager’s analysis of the prevailing market conditions and considered in light of the investment objective of the Fund. These figures do not include the use of derivatives for foreign exchange which are generally limited to hedging.

The Fund will generally be diversified by country, sector and issuer. There is no limit on the duration of individual Fund holdings; however, duration at the Fund level will be limited to the duration of the Index +/- 1 year.

The Fund may invest in derivatives as more fully described in the section of the Prospectus entitled **Types and Description of FDIs**.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as relative VaR to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed twice the VaR of the Index. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage at a rate of between 0% and 550% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of the FDIs. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	10%
SFTs	5%	10%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as a 'debt' fund.

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: the Euro;

Business Day: Every day that US Federal banks, the New York Stock Exchange and banks in England are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;

Dealing Day: Each Business Day;

Please see the Holiday and Dealing Day Calendar which lists all non-Dealing Days for the Fund and is available at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change;

Dealing Deadline: The deadline for subscription, conversion and redemption orders to be received by the Transfer Agent is 2:00 pm Ireland time on the Dealing Day (T);

Settlement Date: For payment of Shares subscribed for, means no later than 4:00 p.m. New York time on the second Business Day following the Dealing Day on which the Shares were purchased. For payment of redemption proceeds, Settlement Date means a date usually within two Business Days, but not more than ten Business Days, from the trade date in respect of a redemption request;

Investment Manager: Wellington Management International Ltd.
Cardinal Place
80 Victoria Street
London SW1E 5JL

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its

objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Counterparty
- Duration
- Financial Derivatives Instruments
- Fixed Income and Debt Securities
- Investment in Russia
- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subsequent Subscription (in USD or equivalent*)
S, T	USD 5 million	USD 1,000
D, N, DL	USD 5,000	

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class DL Shares are reserved for investors in certain markets, acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to Class DL Shares is payable.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid quarterly. Dividends will generally be declared on or about the last Business Day of the relevant quarter for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and the Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below.

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee
S	N/A	0.45%	N/A
T	N/A	N/A	N/A
D	5%	0.45%	0.45%
N	N/A	0.45%	N/A
DL	3%	0.45%	0.75%

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D and DL where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Global Bond Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Global Bond Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund against the Bloomberg Barclays Global Aggregate Index (the "Index"), seeking to achieve the objective through investment in a globally diversified portfolio of fixed income securities within a rigorous risk management framework. The Index is comprised of Fixed Income securities from a broad array of geographies and sectors with a maturity of over one year.

The Fund will invest, either directly or indirectly (both long and short) through the use of FDIs, in debt securities of issuers domiciled around the world for investment purposes and for efficient portfolio management including hedging against risk. The Fund may buy and sell bonds issued by government, agency, and supranational issuers; mortgage, commercial mortgage, and asset-backed securities; hybrid securities comprising convertible securities as more fully described in the section of the Prospectus entitled **Types and Description of FDIs**, contingent capital securities that may be automatically written down upon the occurrence of a specific event and contingent convertible securities that may be automatically converted into an equity security upon the occurrence of a specific event; corporate and REIT debt; credit-linked, index-linked, and capital securities (securities that combine the features of bonds and preferred stock); warrants, loan participation securities that qualify as an eligible investment by the Fund (including, but not limited to, trade finance loan participations) and, in addition, bank loan assignments that qualify as Money Market Instruments; as well as other debt securities issued by public or private issuers, both fixed and floating-rate, including forward contracts on such securities. The Fund may hold equity securities where they are a result of a corporate action, conversion or exercising a warrant.

The net market exposure (sum of long and synthetic short positions including cash) of the Fund will typically be positive, meaning that long positions will generally be in greater proportion than synthetic short positions. Whilst the Fund's typical net market exposure may vary in time, it is expected to range between 0% and 150% of the Net Asset Value of the Fund, depending on the Investment Manager's analysis of the prevailing market conditions and considered in light of the investment objective of the Fund. These figures do not include derivatives relating to foreign exchange which may be used for hedging or investment purposes.

Currency exposure will be taken on an opportunistic basis. Currency exposure including cross-currency positions, which are not related to the Fund's bond and cash equivalent positions, may be assumed.

Investments will represent a broad credit spectrum, including issues rated below investment-grade. There is no minimum credit rating for individual securities or currencies.

The Fund generally will be diversified by country, currency and issuer relative to the global bond market. The Fund will conduct most of its trading in the United States, Canada, Europe, Japan and Australia. The Fund may invest in securities traded in China via Bond Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Bond Connect**).

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as relative VaR to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed twice the VaR of the Index. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage at a rate of between 50% and 800% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of the FDIs. Where FDIs are used for hedging purposes or are themselves hedged against equal and opposite trades, the sum of gross notional values of FDIs may not reflect the true economic risk of the Fund. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	20%
SFTs	3%	10%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as a 'debt' fund.

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

- Counterparty
- Currency
- Duration
- Emerging Markets
- Financial Derivatives Instruments
- Fixed Income and Debt Securities
- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subscription (in USD or equivalent*)	Subsequent USD or
S, T, G	USD 5 million	USD 1,000	
D, N, DL, R	USD 5,000		

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against other currencies in which the assets of the Fund are denominated (based on the Index weights).

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class DL Shares are reserved for investors in certain markets, acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to Class DL Shares is payable.

Class R Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders invested as at 30 September 2013 and in respect of whom a distribution fee is payable. This Share Class is closed to investors from outside the Class.

Class G Shares are reserved for existing Shareholders whose previous Shares have been changed, and serves as a “grandfathered” Class enabling the Shareholders to remain invested without undergoing those changes. The G Class is only available to those investors that were holding B Shares in the Fund as at 17 January 2012.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid quarterly. Dividends will generally be declared on or about the last Business Day of the relevant quarter for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below

Share Class Name	Maximum	Preliminary	Investment	Distribution Fee
-------------------------	----------------	--------------------	-------------------	-------------------------

	Charge*	Management Fee	
S	N/A	0.35%	N/A
T	N/A	N/A	N/A
D	5%	0.45%	0.50%
N	N/A	0.45%	N/A
DL	3%	0.45%	0.70%
R	N/A	0.45%	0.75%
G	N/A	0.35%	0.30%

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D and DL where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Global Credit Buy and Maintain Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Global Credit Buy and Maintain Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective by investing primarily in fixed income debt securities on a hedged interest rate duration basis. The Investment Manager will use a combination of top down and bottom up credit analysis to structure a Fund that seeks to hold securities to maturity unless their credit outlook deteriorates or securities with a better forecast return are identified.

The Fund may invest either directly or indirectly through FDIs, in a diversified portfolio of debt securities of issuers domiciled around the world. These will comprise securities issued by government, agency, quasi-sovereign, supranational, commercial, and sub-national government issuers as well residential and commercial mortgage-backed securities, asset-backed securities, corporate bonds, real estate investment trust ("REIT") debt (which are bonds and convertible bonds issued by a REIT), both fixed and floating rate, preferred securities, warrants, hybrid securities comprising convertible securities as more fully described in the section of the Prospectus entitled **Types and Description of FDIs**, contingent capital securities that may be automatically written down upon the occurrence of a specific event and contingent convertible securities that may be automatically converted into an equity security upon the occurrence of a specific event. The Fund may also hold securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)), bank loan assignments that qualify as Money Market Instruments and equity securities where they are a result of a corporate action, conversion or exercising a warrant.

The Fund may also buy and sell index linked bonds and credit linked notes whose interest payments and/or payment at maturity depend on the performance of an underlying index or security. The underlying exposure of an index linked bond may be tied to a market index (such as a bond index or a credit default swap index) or an economic index (such as growth or inflation indices). The underlying exposure of a credit linked note is typically tied to a sovereign, quasi-sovereign or corporate bond issuer. In each case, the underlying exposure will be consistent with the Fund's investment objective and policies. The Fund also may invest in structured notes (which are synthetic securities with embedded components (such as an option)). Such structured notes shall give exposure to underlying fixed income securities on either a leveraged or an unleveraged basis.

The Fund may also invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds** and in exchange traded funds that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such exchange traded funds will be listed and/or traded on the markets and exchanges as set out in Appendix I of the Prospectus and regulated as UCITS or as AIF exchange traded funds. No more than 5% of the Net Asset Value of the Fund will be invested in non-listed and non-traded collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter derivative instruments, comprising currency, interest rate, bond and index options, interest rate, bond, index and currency futures, or options

on futures, credit default swaps, index credit default swaps, interest rate, total return and currency swaps, swaptions and swaps on an index, deliverable and non-deliverable currency forwards, forwards on bonds or other debt securities, contracts for difference (CFD) and “to-be-announced” securities to gain both long and short exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes including hedging against risk. The Fund may engage in repurchase transactions for efficient portfolio management purposes only. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The net market exposure (sum of long and synthetic short positions including cash) of the Fund will typically be positive, meaning that long positions will generally be in greater proportion than any synthetic short positions. Whilst the Fund’s typical net market exposure may vary in time, it is expected to range between 5% and 50% of the Net Asset Value of the Fund, depending on the Investment Manager’s analysis of the prevailing market conditions and considered in light of the investment objective of the Fund. These figures do not include derivatives relating to foreign exchange which may be used for hedging or investment purposes.

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

Where the Fund invests in debt securities, these debt securities may be denominated in US Dollars or other currencies. The Fund may hold cash and cash equivalents as described in the section of the Prospectus entitled **Cash and Cash Equivalents** in multiple currencies without restriction.

The Fund will be denominated in US Dollars. Currency exposure, from the use of forward currency exchange contracts in multiple currencies, as more fully described in the section of the Prospectus entitled **Financial Derivative Instruments (FDIs)**, is actively managed within the Fund and may include cross-currency positions which may or may not be influenced by the Fund’s bond and cash equivalent positions.

The Fund will consist of different maturities. However, the interest rate duration of the Fund will be hedged through the use of FDIs. The total average interest rate duration of the Fund will typically be 0.25 years, plus or minus 0.25 years. There are no limits on the duration of individual holdings, and certain defensive investment strategies may result in negative duration positions at the individual security, country and total Fund levels.

The Fund will generally be well diversified by country, currency, industry, sector, issuer and market capitalisation but may hold positions that are concentrated in this manner from time to time. Investments will be drawn from a broad credit spectrum, including issues rated below investment grade. The Fund’s Net Credit Exposure to securities rated below investment-grade will not represent more than 20% of its net assets at the time of purchase. Within that allocation, a maximum of 5% of the Fund net assets may be invested in below investment-grade corporate debt issued by companies domiciled in emerging markets (for the purposes of this Fund an emerging market will be those countries that the Investment Manager considers to be an emerging market, typically those with relatively low gross national product per capital but with the potential for rapid economic growth, located in Asia, Africa, the Middle East , Latin America

and the developing countries of Europe). The Fund may invest in securities traded in China via Bond Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Bond Connect**). Credit ratings for issues will be the highest of Moody's, S&P's, or Fitch's long term ratings. If a security is unrated, then an implied credit rating, as deemed by the Investment Manager, may be used.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as absolute VaR to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed 20% of the Fund's Net Asset Value for a holding period equivalent to one month. The Fund adopts a one-tailed 99% confidence level under normal market conditions for a one month holding horizon and considering at least one year of historical data. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage at a rate of between 0% and 600% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of FDIs. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. If the Fund experiences large redemptions the maximum figure relating to Share Class related hedging only may be exceeded in the short term. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	5%
SFTs	3%	20%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as a 'debt' fund.

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: US Dollars (USD);

Business Day: Every day that US Federal banks, the New York Stock Exchange and banks in England are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;

This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Counterparty
- Currency
- Duration
- Financial Derivatives Instruments
- Fixed Income and Debt Securities
- Market
- Operational Risk

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subsequent Subscription (in USD or equivalent*)
S, T	USD 5 million	USD 1,000
D, N, DL	USD 5,000	

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class DL Shares are reserved for investors in certain markets, acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to Class DL Shares is payable.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid quarterly. Dividends will generally be declared on or about the last Business Day of the relevant quarter for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below.

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee
S	N/A	0.15%	N/A
T	N/A	N/A	N/A
D	5%	0.15%	0.20%
N	N/A	0.15%	N/A
DL	3%	0.15%	0.45%

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D and DL where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Global Credit Plus Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Global Credit Plus Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns in excess of the Custom Bloomberg Barclays Global Aggregate Corporate (Fin 40% cap) USD/Euro/GBP 1% Cap \$500M Min Index (ex Tier 1, Upper Tier 2, and Capital Credit securities) Index (the "Index"). The Index is composed of investment grade corporate bonds with minimum amounts outstanding denominated in US Dollars, euros, and Sterling within the industrial, utility and financial services sectors with individual issuers capped at 1%, financials capped at 40% and excluding certain subordinated debt instruments.

Investment Policies

The Investment Manager will actively manage the Fund against the Index, seeking to achieve its objective by investing primarily in a diversified portfolio of investment grade corporate debt instruments that may comprise constituents of the Index. The Fund will also invest in debt securities of issuers domiciled around the world including securities issued by commercial, governmental or supranational entities, including residential and commercial mortgage-backed securities, asset-backed securities, corporate and real estate investment trust ("REIT") debt, which are debt instruments issued by a REIT, credit-linked, index-linked, capital securities (securities that combine the features of bonds and preferred stocks), preferred stock, warrants, hybrid securities comprising convertible securities as more fully described in the section of the Prospectus entitled **Types and Description of FDIs**, contingent capital securities that may be automatically written down upon the occurrence of a specific event and contingent convertible securities that may be automatically converted into an equity security upon the occurrence of a specific event, as well as other types of debt securities, both fixed and floating-rate, including forward contracts on such securities, and hold equity securities where they are a result of a corporate action, conversion or exercising a warrant. The Fund may hold private placements, comprising those issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)) and Transferable Securities, such as loan participation securities that qualify as an eligible investment by the Fund, that reference bank loans or trade finance loans.

The Fund seeks to generate consistent excess returns through a disciplined investment process that integrates top-down analysis of global investment themes, rigorous fundamental economic analysis, and specialist research on individual credit sectors with bottom-up corporate security selection. The Fund diversifies across credit sector allocation, security selection, government duration, currency and country rotation strategies.

The Fund generally will be diversified by country, currency, sector and issuer, but may hold positions that are concentrated from time to time. The Fund's weighted average credit quality is expected to be investment grade, but investments will be drawn from a broad credit spectrum. However, the Fund may only purchase securities if rated at least B3 by Moody's, B- by S&P, or B- by Fitch, or an equivalent internal rating by the Investment Manager. Any securities which fall below the minimum required rating subsequent to purchase will be sold within six months from the downgrading, unless the rating is upgraded within that period. Credit ratings for instruments will be the highest of Moody's, S&P, or Fitch's long-term ratings, or an equivalent internal rating by the Investment Manager. The Fund's Net Credit Exposure to securities rated below investment grade (including debt issued by issuers domiciled in emerging markets) will not represent more than 15% of its Net Asset Value at the time of purchase. The

Fund's Net Credit Exposure to securitised debt instruments will not represent more than 30% of its Net Asset Value at the time of purchase. The Fund's Net Credit Exposure to convertible debt instruments will not represent more than 15% of its Net Asset Value at the time of purchase. For the purposes of this Fund, the Investment Manager considers an emerging market as a country that has a long-term foreign currency rating below investment grade. If a security is unrated, then an implied credit rating, as deemed by the Investment Manager, may be used. The Fund may invest in securities traded in China via Bond Connect (see also section in the Prospectus entitled **Risks linked with dealing in securities in China via Bond Connect**).

The Fund may buy and sell exchange-traded and over-the-counter derivative instruments, including interest rate, index (including credit index) and currency futures, currency, interest rate, total return swaps, and credit default swaps, currency, bond, and swap options, deliverable and non-deliverable currency forward contracts and "to-be-announced" securities to gain both long and short exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The net market exposure (sum of long and synthetic short positions including cash) of the Fund will always be positive, meaning that long positions will be in greater proportion than any synthetic short positions. Whilst the Fund's typical net market exposure may vary in time, it is expected to range between 20% and 250% of the Net Asset Value of the Fund, depending on the Investment Manager's analysis of the prevailing market conditions and considered in light of the investment objective of the Fund. These figures do not include derivatives relating to foreign exchange which may be used for hedging or investment purposes.

The Fund may also invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds**.

Currency exposure, from the use of forward currency exchange contracts in multiple currencies, as more fully described in the section of the same name in the Prospectus, will be taken on an opportunistic basis. Such currency exposure may or may not be influenced by the Fund's bond and cash equivalent positions.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as relative VaR to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed twice the VaR of the Index. Further information on the risk management method can be found in the Prospectus in the section of the Prospectus entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage at a rate of between 0% and 700% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of FDIs. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	5%
SFTs	3%	20%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as a 'debt' fund.

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: US Dollars (USD);

Business Day: Every day that US Federal banks and the New York Stock Exchange are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;

Dealing Day: Each Business Day;

Please see the Holiday and Dealing Day Calendar which lists all non-Dealing Days for the Fund and is available at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change;

Dealing Deadline: The deadline for subscription, conversion and redemption orders to be received by the Transfer Agent is 2:00 pm Ireland time on the Dealing Day (T);

Settlement Date: For payment of Shares subscribed for, means no later than 4:00 p.m. New York time on the second Business Day following the Dealing Day on which the Shares were purchased. For payment of redemption proceeds, Settlement Date means a date usually within two Business Days, but not more than ten Business Days, from the trade date in respect of a redemption request;

Investment Manager: Wellington Management Company LLP
251 Little Falls Drive
Wilmington, Delaware 19808
USA

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Counterparty
- Currency
- Duration
- Financial Derivatives Instruments
- Fixed Income and Debt Securities
- Long-Short Strategy
- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subscription (in USD or equivalent*)	Subsequent (in USD or
S, T, G	USD 5 million	USD 1,000	
D, N, DL,	USD 5,000		

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against other currencies in which the assets of the Fund are denominated (based on the Index weights).

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class DL Shares are reserved for investors in certain markets, acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class DL Shares is payable.

Class G Shares are reserved for existing Shareholders whose previous Shares have been changed, and serves as a "grandfathered" Class enabling the Shareholders to remain invested without undergoing those changes. This Share Class is closed to investors from outside the Class, and is only available to those investors that were holding Shares in the Fund as at 17 April 2013.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid quarterly. Dividends will generally be declared on or about the last Business Day of the relevant quarter for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee
S	N/A	0.35%	N/A
T	N/A	N/A	N/A
D	5%	0.35%	0.35%
N	N/A	0.35%	N/A
DL	3%	0.35%	0.65%
G	N/A	0.30%	N/A

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D and DL where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 7 January 2020

Wellington Global Currency Absolute Return Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Global Currency Absolute Return Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek absolute returns above a cash benchmark over the medium to long term

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective through investing in a range of global currencies via financial derivative instruments ("FDIs"). The Fund will also maintain a portfolio of liquid fixed income securities and cash to provide liquidity and cover for the exposures generated through the use of FDIs.

The Investment Manager believes that currency markets are deep and liquid and investment opportunities can be accessed through a research intensive investment process combined with robust risk management and embedded diversification. The Investment Manager believes that whilst ultimately macroeconomic variables drive currency valuation, in the near-term markets can over or underreact. In addition, the large number of market participants who are not trying to generate a profit purely from currency transactions (e.g. market hedging and trade flow activity) can cause currencies to become mispriced, creating active investment opportunities. The overall strategy aims to capture these opportunities through a combination of currency strategies, managed within pre-specified risk limits and selected to both enhance diversification and to improve the risk-return profile of the Fund. The managers of these strategies work closely with a team of dedicated research analysts, to explore potential cyclical, structural, policy and political scenarios and their implications across global currency markets. The team works together to develop an understanding of the distribution of outcomes for economies, the global cycle and markets, but importantly each strategy manager is given the autonomy to apply that understanding as they see fit in their area of specialisation. This embeds an element of diversification within the aggregate portfolio as the individual investment processes employed tend to be lowly correlated, and stylistically different.

The ICE Bank of America Merrill Lynch 3-month US Treasury Bill Index (the "Index") will serve as the cash benchmark and is used to calculate the performance fee as disclosed in the section of the Prospectus entitled **Performance Fees**. The Index consists of short-term U.S. Government securities with a remaining term to final maturity of less than three months.

The Fund may buy and sell exchange-traded and over-the-counter derivative instruments, both long and short, comprising currency futures or options and deliverable and non-deliverable currency forwards, as well as interest rate and bond futures to gain exposure to the instruments listed below in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Currency exposure will be to both emerging markets and developed countries, including cross-currency positions. The use of derivatives forms an important part of the investment strategy. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The Fund may also invest either directly or indirectly through FDIs, in the following instruments in pursuit of the Fund's investment objective: fixed and floating rate debt securities of issuers around the world comprising securities issued by government, agency, quasi-sovereign, supranational, commercial,

and sub-national government issuers as well as residential and commercial mortgage-backed securities (including “to-be-announced” securities), asset-backed securities and corporate bonds, securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)) and cash and cash equivalents as described in the section of the Prospectus entitled **Cash and Cash Equivalents**.

The Fund may also invest in collective investment schemes as described in the section entitled Investment in Other Investment Funds and in exchange traded funds (“ETFs”) that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such ETFs will be listed and/or traded on the markets and/or exchanges as set out in Appendix I and regulated as UCITS or as AIF ETFs. No more than 5% of the Net Asset Value of the Fund will be invested in non-listed and non-traded collective investment schemes.

Currency positions, when obtained through forward FX, have low net market exposure due to their relative value nature, with a long currency exposure and an offsetting short currency exposure (e.g. long USD vs. short EUR). The net market exposure of currency forwards at any point in time represents the profit and loss on those positions. The Fund’s net market exposure (measured by the sum of the market values of securities held to replicate the Fund’s cash benchmark, the profit and loss of currency forwards and the net notional exposure of any other currency derivatives) will be positive. This means that long positions will be in greater proportion than any synthetic short positions, typically between 50% and 150% of the Net Asset Value of the Fund.

The Fund will generally be well diversified but may hold currency positions that are concentrated from time to time. The Fund combines multiple currency strategies and is expected to comprise a minimum of two underlying currency strategies at any one time. The Fund will be denominated in US Dollars.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as absolute VaR to assess the Fund’s market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed 20% of the Fund’s Net Asset Value for a holding period equivalent to one month. The Fund adopts a one-tailed 99% confidence level under normal market conditions for a one month holding horizon and considering at least one year of historical data. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage up to a maximum rate of 1800% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of FDIs. Where FDIs are used for hedging purposes or are themselves hedged against equal and opposite trades, the sum of gross notional values of FDIs may not reflect the true economic risk of the Fund. The maximum figure above includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking an absolute return and investors in the fund must be able to set aside the invested capital for the medium to long term. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	20%
SFTs	3%	10%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as a 'debt' fund.

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: US Dollars (USD);

Business Day: Every day that US Federal banks, the New York Stock Exchange and banks in England are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;

Investment Manager Wellington Management International Ltd.
Cardinal Place
80 Victoria Street
London SW1E 5JL

Sub-Investment Manager: The Investment Manager may delegate the investment management of a portion of the assets of the Fund to sub-investment managers within its group and in such instance, information in respect of the relevant sub-investment managers will be provided to the Shareholders on request and will be disclosed in the periodic reports of the Company.

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Concentration
- Counterparty
- Currency
- Duration
- Emerging Markets
- Financial Derivatives Instruments
- Fixed Income and Debt Securities
- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subsequent Subscription (in USD or equivalent*)
S, T	USD 5 million	USD 1,000
D, N	USD 5,000	

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid quarterly. Dividends will generally be declared on or about the last Business Day of the relevant quarter for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee, Distribution Fee and Performance Fee are each accrued daily in the Net Asset Value of the relevant Classes of Shares at the annual rate set out in the table below. The Investment Management Fee and Distribution Fee are paid quarterly in arrears whilst the Performance Fee, if applicable, is generally crystallized at the Fund's fiscal year end and paid shortly thereafter. The Performance Fee Type applicable to this Fund is Performance Benchmark with HWM. Please refer to the Performance Fees section of the Prospectus for more detail.

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee	Performance Fee	Performance Benchmark
S	N/A	0.25%	N/A	20%	ICE Bank of America Merrill Lynch 3-month US Treasury Bill Index
T	N/A	N/A	N/A	N/A	
D	5%	0.25%	0.50%	20%	ICE Bank of America Merrill Lynch 3-month US Treasury Bill Index
N	N/A	0.25%	N/A	20%	ICE Bank of America Merrill Lynch 3-month US Treasury Bill Index

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, and D where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Global High Yield Bond Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Global High Yield Bond Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund against the ICE Bank of America Merrill Lynch Global High Yield Constrained Index (“the Index”), seeking to achieve the objective by investing primarily in debt securities worldwide which are considered by the Investment Manager to be below investment grade. The Index tracks the performance of below investment grade corporate debt publicly issued in markets around the world and is modified capitalisation weighted, with the largest issuers capped at 2% of the weight of the total index with the excess weight redistributed equally amongst the issuers under that cap.

The Fund’s investment approach is based on analysis of the credit profile of individual high yield issuers, as well as the macro and micro environment for high yield bonds. The identification of high conviction fundamental credit research ideas is expected to be the primary focus of the approach and is complemented by top-down analysis, including identifying sectors that the Investment Manager believes are experiencing long-term cyclical change. Through this, the Investment Manager looks to construct a portfolio that is well diversified by industry but also able to take advantage of favourable secular or cyclical industry trends. This top-down analysis approach will also include a geographical view, analysing the regions that we wish to overweight or underweight. The implementation of the strategy is contingent on the Investment Manager’s conviction on fundamental, credit research ideas. Both of the above are subject to a strong focus on risk, which is monitored throughout the investment process and actively managed at the security, sector and total portfolio level, with the objective of generating strong risk-adjusted returns in a wide variety of market environments. Total returns are sought from two sources, a high level of current income and capital appreciation.

The Fund will invest, either directly or indirectly (both long and short) through the use of FDIs, in high yield (i.e., below investment grade) debt securities of issuers domiciled around the world for investment purposes and for efficient portfolio management, including hedging against risk. The Fund may invest up to 5% of its Net Asset Value in securities traded in the Russian markets. The Fund may invest in a broad range of debt securities of various types and maturities issued by commercial, governmental or supranational entities, including, for example, debentures, loan participation securities that qualify as an eligible investment by the Fund that reference bank loans or trade finance loans, loans assignments that qualify as Money Market Instruments, REIT debt securities, sukuk (financial instruments with cash flows similar to conventional bonds that are structured to comply with Islamic law), hybrid securities comprising convertible securities as more fully described in the section of the Prospectus entitled **Types and Description of FDIs**, contingent capital securities that may be automatically written down upon the occurrence of a specific event and contingent convertible securities that may be automatically converted into an equity security upon the occurrence of a specific event, preferred stock, warrants, rights, floating rate and variable rate notes, collateralised debt obligations and collateralised loan obligations, collateralised securities (such as securities collateralised or backed by mortgages or credit card receivables), coupon-bearing and deferred interest instruments (such as zero coupon bonds). The Fund may also invest in debt securities of corporations issued under Rule 144A or Regulation S under the US Securities Act of 1933.

The Fund will primarily invest in debt securities rated below investment grade, i.e. below Baa3 by Moody's, BBB- by Standard & Poor's, or BBB- by Fitch. The Fund may also invest in non-rated debt instruments deemed to be of similar credit quality by the Investment Manager. The average quality of the Fund's holdings will tend to be in the B2/B range, but is expected to fluctuate. In the event of split ratings on a security, the Investment Manager will use the highest rating of Moody's, Standard & Poor's or Fitch. If a security is unrated, then an equivalent credit rating, as deemed by the Investment Manager, may be used. In the event that a security is downgraded after its purchase, the Investment Manager may continue to hold such security on behalf of the Fund if it determines that it is in the best interest of the Fund. The Fund may hold equity securities, up to 5% of the market value of the Fund, if such securities are received as a result of a corporate restructuring or as a result of owning equity-linked securities (e.g. convertible bonds, warrants).

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

The Fund may also invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds**, and in exchange traded funds ("ETFs") that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such ETFs will be listed and/or traded on the markets and/or exchanges as set out in Appendix I of the Prospectus and regulated as UCITS or as AIF ETFs.

The net market exposure (sum of long and synthetic short positions including cash) of the Fund will always be positive, meaning that long positions will be in greater proportion than any synthetic short positions. Whilst the Fund's typical net market exposure may vary in time, it is expected to range between 80% and 120% of the Net Asset Value of the Fund, depending on the Investment Manager's analysis of the prevailing market conditions and considered in light of the investment objective of the Fund. These figures do not include the use of derivatives for foreign exchange which are generally limited to hedging.

The Fund may invest in derivatives as more fully described in the section of the Prospectus entitled **Types and Description of FDIs**.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as relative VaR to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed twice the VaR of the Index. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage at a rate of between 0% and 400% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of the FDIs. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency

Hedged Share Classes. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	10%
SFTs	3%	10%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as a 'debt' fund.

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: US Dollars (USD);

Business Day: Every day that US Federal banks and the New York Stock Exchange are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock

Exchange as well as any such other days as the Directors may from time to time determine;

Dealing Day: Each Business Day;

Please see the Holiday and Dealing Day Calendar which lists all non-Dealing Days for the Fund and is available at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change;

Dealing Deadline: The deadline for subscription, conversion and redemption orders to be received by the Transfer Agent is 2:00 pm Ireland time on the Dealing Day (T);

Settlement Date: For payment of Shares subscribed for, means no later than 4:00 p.m. New York time on the second Business Day following the Dealing Day on which the Shares were purchased. For payment of redemption proceeds, Settlement Date means a date usually within two Business Days, but not more than ten Business Days, from the trade date in respect of a redemption request;

Investment Manager: Wellington Management Company LLP
251 Little Falls Drive
Wilmington, Delaware 19808
USA

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Counterparty
- Currency
- Duration
- Emerging Markets
- Financial Derivatives Instruments
- Fixed Income and Debt Securities
- Investment in Russia
- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Classes	Share	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subscription (in USD or equivalent*)	Subsequent (in USD or
S, T		USD 5 million		
D, N, DL		USD 5,000	USD 1,000	

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against other currencies in which the assets of the Fund are denominated (based on the Index weights).

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class DL Shares are reserved for investors in certain markets, acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee of up to 1.30% of the Net Asset Value attributable to the Class DL Shares attributable to Class DL Shares is payable.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid quarterly. Dividends will generally be declared on or about the last Business Day of the relevant quarter for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee
S	N/A	0.45%	N/A
T	N/A	N/A	N/A
D	5%	0.45%	0.45%
N	N/A	0.45%	N/A
DL	3%	0.45%	0.75%

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D and DL where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Global Impact Bond Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Global Impact Bond Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective by investing primarily in investment grade rated global fixed income securities issued by organisations whose core business, in the opinion of the Investment Manager, addresses some of the world's major social and environmental challenges.

The Fund will seek to identify the universe of these organisations based on three primary impact categories: life essentials, human empowerment and the environment. Within these categories the Fund will invest across "Impact Themes" including, but not limited to, sustainable agriculture and nutrition, clean water and sanitation, health, affordable housing, education and job training, financial inclusion, digital divide, safety and security, alternative energy, resource stewardship and resource efficiency. The Investment Manager will aim to select organisations whose core products and services align with any one or a combination of different Impact Themes, whose social and/or environmental impact is quantifiable and where fundamental analysis supports a long-term return. The Fund may hold concentrated positions within an Impact Theme as there may be more investment opportunities within certain impact themes than others. This is because there can be more impact investment opportunities within certain impact themes like affordable housing, health and reserve efficiency.

Although the Fund is not constructed relative to a benchmark, the Bloomberg Barclays Global Aggregate Hedged to US dollar Index ("Index") will serve as a reference benchmark. The Index is comprised of fixed income securities from a broad array of geographies and sectors with a maturity of over one year on a currency hedged basis.

The Fund may invest, either directly or indirectly through the use of FDIs, in a diversified portfolio of global fixed income securities issued by corporate, government, agency, quasi-sovereign and supranational issuers; mortgage, commercial mortgage, and asset-backed securities; hybrid securities comprising convertible securities as more fully described in the section of the Prospectus entitled Types and Description of FDIs; corporate and Real Estate Investment Trust debt; sukuk (financial instruments with cash flows similar to conventional bonds that are structured to comply with Islamic law), loan participation securities that qualify as an eligible investment by the Fund (including, but not limited to, trade finance loan participations) and, in addition, bank loan assignments that qualify as Money Market Instruments; as well as other debt securities issued by public or private issuers, both fixed and floating-rate, including forward contracts on such securities. The Fund may also hold securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)). The Fund may hold equity securities where they are a result of a corporate action, conversion or exercising a warrant.

These fixed income securities may be denominated in US Dollars or other currencies. The Fund may hold cash and cash equivalents as described in the section of the Prospectus entitled Cash and Cash Equivalents in multiple currencies without restriction. The Fund will be denominated in US Dollars. Non-US Dollar exposures within the Fund will generally be hedged back to US Dollars.

The Fund may buy and sell exchange-traded and over-the-counter FDIs, both long and short, comprising interest rate and bond futures, interest rate, bond options and options on futures, swaptions, interest rate, currency and total return swaps, credit default swaps, index credit default swaps, bond and currency forwards, forward rate agreements, warrants and “to-be-announced” securities)) to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The net market exposure (sum of long and synthetic short positions including cash) of the Fund will always be positive, meaning that long positions will be in greater proportion than any synthetic short positions. Whilst the Fund’s typical net market exposure may vary in time, it is expected to range between 50% and 150% of the Net Asset Value of the Fund, depending on the Investment Manager’s analysis of the prevailing market conditions and considered in light of the investment objective of the Fund. These figures do not include the use of derivatives for foreign exchange which are generally limited to hedging.

The Fund generally will be diversified by sector, country and issuer, but may hold positions that are concentrated from time to time. The Fund will invest primarily in developed markets; however the Fund may also invest in any country which is considered by the Investment Manager to be an emerging market. The Fund may invest in securities traded in China via Bond Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Bond Connect**). The Fund’s weighted average credit quality is expected to be investment grade, but below investment grade rated securities may be purchased up to 20% of the Net Asset Value of the Fund. The Fund will invest in global fixed income securities of varying maturity but will generally have interest rate duration of +/-1.5 years of the Index.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as relative VaR to assess the Fund’s market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed twice the VaR of the Index. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage at a rate of between 0% and 650% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of FDIs. Where FDIs are used for hedging purposes or are themselves hedged against equal and opposite trades, the sum of gross notional values of FDIs may not reflect the true economic risk of the Fund. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. If the expected level of leverage calculated taking into account netting of equal and opposite foreign exchange forward contracts and excluding the share class hedging, the level of leverage would be expected to be lower and generally between 0% and 150% of the Fund’s Net Asset Value. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	10%
SFTs	5%	10%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as a 'debt' fund.

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

Dated 28 February 2020

Wellington Higher Quality Global High Yield Bond Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Higher Quality Global High Yield Bond Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund against the ICE Bank of America Merrill Lynch Global High Yield Constrained BB-B Index (“the Index”) (a subset of the ICE Bank of America Merrill Lynch Global High Yield Constrained Index), seeking to achieve the objective by investing primarily in debt securities worldwide which are considered by the Investment Manager to be rated BB1 through B3 inclusive. The Index tracks the performance of below investment grade corporate debt publicly issued in markets around the world comprising securities rated BB1 through B3 inclusive, based on a composite of Moody’s and S&P and is modified capitalisation weighted, with the largest issuers capped at 2% of the weight of the total index with the excess weight redistributed equally amongst the issuers under that cap.

The Fund’s investment approach is based on analysis of the credit profile of individual high yield issuers, as well as the macro and micro environment for high yield bonds. The identification of high conviction fundamental credit research ideas is expected to be the primary focus of the approach and is complemented by top-down analysis, including identifying sectors that the Investment Manager believes are experiencing long-term cyclical change. Through this, the Investment Manager looks to construct a portfolio that is well diversified by industry but also able to take advantage of favourable secular or cyclical industry trends. This top-down analysis approach will also include a geographical view, analysing the regions that we wish to overweight or underweight. The implementation of the strategy is contingent on the Investment Manager’s conviction on fundamental, credit research ideas. Both of the above are subject to a strong focus on risk, which is monitored throughout the investment process and actively managed at the security, sector and total portfolio level, with the objective of generating strong risk-adjusted returns in a wide variety of market environments. Total returns are sought from two sources, a high level of current income and capital appreciation.

The Fund will invest, either directly or indirectly (both long and short) through the use of FDIs, in high yield (i.e., below investment grade) debt securities of issuers domiciled around the world for investment purposes and for efficient portfolio management, including hedging against risk. The Fund may invest in a broad range of debt securities of various types and maturities issued by commercial, governmental or supranational entities, comprising debentures, loan participation securities that qualify as an eligible investment by the Fund that reference bank loans or trade finance loans, bank loan assignments that qualify as Money Market Instruments, REIT debt securities, sukuk (financial instruments with cash flows similar to conventional bonds that are structured to comply with Islamic law), hybrid securities comprising convertible securities as more fully described in the section of the Prospectus entitled **Types and Description of FDIs**, preferred stock, warrants, rights, floating rate and variable rate notes, collateralised debt obligations and collateralised loan obligations, collateralised securities (such as securities collateralised or backed by mortgages or credit card receivables), coupon-bearing and deferred interest instruments (such as zero coupon bonds) or any other securities, issuers and security types represented in the Index. The Fund may also hold securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)) and equity securities where they are a result of a corporate action, conversion or exercising a warrant.

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

The Fund may hold debt securities denominated in US Dollars or other currencies. The Investment Manager may employ currency hedging through the use of forward currency exchange contracts in multiple currencies, as more fully described in the section of the Prospectus entitled **Financial Derivative Instruments (FDIs)**, to bring the Fund's currency exposures closer to those of the Index when it believes it is advisable to do so.

The Fund may buy and sell exchange-traded and over-the-counter FDIs, both long and short, comprising interest rate futures, interest rate swaps, credit default swaps, index credit default swaps, currency forwards and forward rate agreements, to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The Fund will generally be diversified by country, currency, sector and issuer and may have greater than 20% exposure to securities issued by issuers located in what the Investment Manager considers to be emerging markets, including Russia.

Investments will be drawn from the broad credit spectrum. The Fund may acquire securities, if rated at least investment grade, i.e. Baa3 by Moody's, BBB- by S&P, or BBB- by Fitch, or an equivalent internal rating by the Investment Manager. High-yield securities may be acquired if they have a rating of at least speculative grade, i.e. B3 by Moody's, B- by S&P, or B- by Fitch, or an equivalent internal rating by the Investment Manager. In case of two different ratings, the lower rating shall be decisive. In case of three or more different ratings, the lower rating of the two best ratings shall be decisive. The Investment Manager will under no circumstances rely exclusively or automatically on external ratings in determining the credit risk of a financial instrument, and in addition the Investment Manager will perform its own credit assessment with respect to each investment. Any securities which fall below the minimum required rating following purchase may continue to be held, provided that any such downgraded securities do not in aggregate exceed 3% of the Net Asset Value of the Fund. Otherwise, they will be sold within six months from the downgrading, unless the rating is upgraded within that period.

The net market exposure (sum of long and synthetic short positions including cash) of the Fund will always be positive, meaning that long positions will be in greater proportion than any synthetic short positions. Whilst the Fund's typical net market exposure may vary in time, it is expected to range between 80% and 120% of the Net Asset Value of the Fund, depending on the Investment Manager's analysis of the prevailing market conditions and considered in light of the investment objective of the Fund. These figures do not include the use of derivatives for foreign exchange which are generally limited to hedging.

Short positions may only be taken through financial derivative instruments ("FDIs") for investment purposes or for hedging risk. The gross exposure of the Fund's short positions for investment purposes is not expected to exceed 10% of the Net Asset Value of the Fund.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as relative VaR to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed twice the VaR of the Index. Further information on the risk management method can be found in the Prospectus in the section of the Prospectus entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage at a rate of between 0% and 400% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of the FDIs. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	10%
SFTs	3%	10%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as a 'debt' fund.

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: US Dollars (USD);

Business Day: Every day that US Federal banks and the New York Stock Exchange are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;

Dealing Day: Each Business Day;

Please see the Holiday and Dealing Day Calendar which lists all non-Dealing Days for the Fund and is available at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change;

Dealing Deadline: The deadline for subscription, conversion and redemption orders to be received by the Transfer Agent is 2:00 pm Ireland time on the Dealing Day (T);

Settlement Date: For payment of Shares subscribed for, means no later than 4:00 p.m. New York time on the second Business Day following the Dealing Day on which the Shares were purchased. For payment of redemption proceeds, Settlement Date means a date usually within two Business Days, but not more than ten Business Days, from the trade date in respect of a redemption request;

Investment Manager: Wellington Management Company LLP
251 Little Falls Drive
Wilmington, Delaware 19808
USA

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Counterparty
- Currency
- Duration
- Emerging Markets
- Financial Derivatives Instruments
- Fixed Income and Debt Securities
- Investment in Russia
- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subsequent Subscription (in USD or equivalent*)
S, T	USD 5 million	USD 1,000
D,N	USD 5,000	

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against other currencies in which the assets of the Fund are denominated (based on the Index weights).

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid quarterly. Dividends will generally be declared on or about the last Business Day of the relevant quarter for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee
S	N/A	0.40%	N/A
T	N/A	N/A	N/A
D	5%	0.40%	0.40%
N	N/A	0.40%	N/A

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee

that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N and D where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Long Duration Global Credit Buy and Maintain Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Long Duration Global Credit Buy and Maintain Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective by investing primarily in fixed income debt securities on a managed interest rate duration basis, targeting an average of 12 years. The Investment Manager will use a combination of top down and bottom up credit analysis to structure a Fund that seeks to hold securities to maturity unless their credit outlook deteriorates or securities with a better forecast return are identified. Interest rate duration will be managed through the use of FDIs.

The Fund may invest either directly or indirectly through FDIs, in a diversified portfolio of debt securities of issuers domiciled around the world. These will comprise securities issued by government, agency, quasi-sovereign, supranational, commercial and sub-national government issuers as well residential and commercial mortgage-backed securities, asset-backed securities, corporate bonds, real estate investment trust ("REIT") debt (which are bonds and convertible bonds issued by a REIT), both fixed and floating rate, preferred securities, warrants, hybrid securities comprising convertible securities as more fully described in the section of the Prospectus entitled **Types and Description of FDIs**, contingent capital securities that may be automatically written down upon the occurrence of a specific event and contingent convertible securities that may be automatically converted into an equity security upon the occurrence of a specific event. The Fund may also hold securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)), bank loan assignments that qualify as Money Market Instruments and equity securities where they are a result of a corporate action, conversion or exercising a warrant.

The Fund may also buy and sell index linked bonds and credit linked notes whose interest payments and/or payment at maturity depend on the performance of an underlying index or security. The underlying exposure of an index linked bond may be tied to a market index (such as a bond index or a credit default swap index) or an economic index (such as growth or inflation indices). The underlying exposure of a credit linked note is typically tied to a sovereign, quasi-sovereign or corporate bond issuer. In each case, the underlying exposure will be consistent with the Fund's investment objective and policies. The Fund also may invest in structured notes (which are synthetic securities with embedded components (such as an option)). Such structured notes shall give exposure to underlying fixed income securities on either a leveraged or an unleveraged basis.

The Fund may also invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds** and in exchange traded funds that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such exchange traded funds will be listed and/or traded on the markets and exchanges as set out in Appendix I of the Prospectus and regulated as UCITS or as AIF exchange traded funds. No more than 5% of the Net Asset Value of the Fund will be invested in non-listed and non-traded collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter derivative instruments, comprising currency, interest rate, bond and index options, interest rate, bond, index and currency futures, or options

on futures, credit default swaps, index credit default swaps, interest rate, total return and currency swaps, swaptions and swaps on an index, deliverable and non-deliverable currency forwards, forwards on bonds or other debt securities, contracts for difference ("CFD") and "to be-announced" ("TBA") securities to gain both long and short exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes including hedging against risk. The Fund may engage in repurchase transactions for efficient portfolio management purposes only. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The net market exposure (sum of long and synthetic short positions including cash) of the Fund will typically be positive, meaning that long positions will generally be in greater proportion than any synthetic short positions. Whilst the Fund's typical net market exposure may vary in time, it is expected to range between 5% and 50% of the Net Asset Value of the Fund, depending on the Investment Manager's analysis of the prevailing market conditions and considered in light of the investment objective of the Fund. These figures do not include derivatives relating to foreign exchange which may be used for hedging or investment purposes.

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

Where the Fund invests in debt securities, these debt securities may be denominated in US Dollars or other currencies. The Fund may hold cash and cash equivalents as described in the section of the Prospectus entitled **Cash and Cash Equivalents** in multiple currencies without restriction.

The Fund will be denominated in US Dollars. Currency exposure, from the use of forward currency exchange contracts in multiple currencies, as more fully described in the section of the Prospectus entitled **Financial Derivative Instruments (FDIs)**, is actively managed within the Fund and may include cross-currency positions which may or may not be influenced by the Fund's bond and cash equivalent positions.

The Fund will consist of different maturities. However, the interest rate duration of the Fund will be managed through the use of FDIs. The total average interest rate duration of the Fund will typically be 12 years, plus or minus 0.5 years. Credit spread duration will typically be 12 years plus or minus 2 years. There are no limits on the duration of individual holdings, and certain defensive investment strategies may result in negative duration positions at the individual security, country and total Fund levels. The Fund will generally be well diversified by country, currency, industry, sector, issuer and market capitalisation but may hold positions that are concentrated in this manner from time to time. Investments will be drawn from a broad credit spectrum, including issues rated below investment grade. The Fund's Net Credit Exposure to securities rated below investment-grade will not represent more than 20% of its net assets at the time of purchase. Within that allocation, a maximum of 5% of the Fund net assets may be invested in below investment-grade corporate debt issued by companies domiciled in emerging markets (for the purposes of this Fund an emerging market will be those countries that the Investment Manager considers to be an emerging market, typically those with relatively low gross national product per capital but with the potential for rapid economic growth, located in Asia, Africa, the Middle East, Latin America and the developing countries of Europe). The Fund may invest in securities traded in China via Bond Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Bond Connect**). Credit ratings for issues will be the highest of Moody's, S&P's, or Fitch's long term

ratings. If a security is unrated, then an implied credit rating, as deemed by the Investment Manager, may be used.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as absolute VaR to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed 20% of the Fund's Net Asset Value for a holding period equivalent to one month. The Fund adopts a one-tailed 99% confidence level under normal market conditions for a one month holding horizon and considering at least one year of historical data. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage at a rate of between 0% and 600% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of FDIs. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. If the expected level of leverage calculated taking into account netting of equal and opposite foreign exchange forward contracts and excluding the share class hedging, the level of leverage would be expected to be lower and generally between 0% and 150% of the Fund's Net Asset Value. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	5%
SFTs	3%	20%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as a 'debt' fund.

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Concentration
- Counterparty
- Currency
- Duration
- Financial Derivatives Instruments
- Fixed Income and Debt Securities
- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subsequent Subscription (in USD or equivalent*)
S, T	USD 5 million	USD 1,000
D, N, DL	USD 5,000	

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class DL Shares are reserved for investors in certain markets, acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to Class DL Shares is payable.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid quarterly. Dividends will generally be declared on or about the last Business Day of the relevant quarter for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below.

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee
S	N/A	0.15%	N/A
T	N/A	N/A	N/A
D	5%	0.15%	0.20%
N	N/A	0.15%	N/A
DL	3%	0.15%	0.45%

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D and DL where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

Dated 29 November 2019

Wellington Opportunistic Emerging Markets Debt Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Opportunistic Emerging Markets Debt Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund against the JP Morgan Emerging Markets Bond Index Global (the "Index"), seeking to achieve the objective primarily through investment in a diversified portfolio of emerging markets debt securities and currency instruments. The Index tracks total returns for US Dollar-denominated debt instruments, both fixed and floating, issued by emerging market sovereign and quasi-sovereign entities.

The Fund will invest, either directly or indirectly through the types of financial derivative instruments ("FDIs") more fully described in the section of the Prospectus entitled **Types and Description of FDIs** for investment purposes and for efficient portfolio management, including hedging against risk. FDIs will primarily provide both long and short exposure to emerging markets fixed income securities, currencies and interest rates. The Fund may also invest, in the same manner, in bonds issued by sovereign, quasi-sovereign agency, supranational and sub national government issuers; mortgage, commercial mortgage, and asset-backed securities; hybrid securities comprising convertible securities as more fully described in the section of the Prospectus entitled **Types and Description of FDIs**, contingent capital securities that may be automatically written down upon the occurrence of a specific event and contingent convertible securities that may be automatically converted into an equity security upon the occurrence of a specific event; corporate debt; sukuk (financial instruments with cash flows similar to conventional bonds that are structured to comply with Islamic law), global depository notes, warrants, loan participation securities that qualify as an eligible investment by the Fund (including, but not limited to, trade finance loan participations) and, in addition, bank loan assignments that qualify as Money Market Instruments; and credit and index linked securities, which are debt securities of companies whose interest payments and/or payment at maturity depend primarily on the performance of one or more underlying credit exposures or market indices. A particular credit-linked security's underlying credit exposure may be to a sovereign, quasi-sovereign or corporate issuer. Underlying index exposures may be to an index tied to a country's economic exposure, debt or currency. In each case, the underlying credit or index exposure will be consistent with the Fund's investment objective and policies. The Fund also may invest in structured notes (which are synthetic securities with embedded components (such as an option)); as well as other debt securities issued by public or private issuers, both fixed- and floating-rate, including forward contracts on such securities, and may hold equity securities where they are a result of a corporate action, conversion or exercising a warrant.

The net market exposure (sum of long and synthetic short positions including cash) of the Fund will always be positive, meaning that long positions will be in greater proportion than any synthetic short positions. Whilst the Fund's typical net market exposure may vary in time, it is expected to range between 75% and 200% of the Net Asset Value of the Fund, depending on the Investment Manager's analysis of the prevailing market conditions and considered in light of the investment objective of the Fund. These figures do not include derivatives relating to foreign exchange which may be used for hedging or investment purposes.

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may invest.

The Fund may invest in any country which is considered by the Investment Manager to be an emerging market. These are primarily located in Latin/Central America and the Caribbean, Central and Eastern Europe, Middle East, Africa and Asia. Developed market exposures are also permitted. The Fund may invest in securities traded in China via Bond Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Bond Connect**) and may make substantial investment in securities traded on Russian markets.

Currency exposure to multiple currencies will be taken on an opportunistic basis. Currency exposure to both emerging markets and developed countries, including cross-currency positions, which are not related to the Fund's bond and cash equivalent positions, will be assumed.

The Fund generally will be diversified by country, currency and issuer but may hold concentrated positions from time to time.

Investments will be drawn from the broad credit spectrum. The Fund's weighted average credit quality, including cash and cash equivalents may be below investment grade. There will be no limitations on the credit quality of individual securities or currencies in the Fund.

The Fund will invest in both US Dollar-denominated securities and in securities denominated in currencies other than the US Dollar.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as relative VaR to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed twice the VaR of the Index. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage at a rate of between 0% and 600% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of FDIs. Where FDIs are used for hedging purposes or are themselves hedged against equal and opposite trades, the sum of gross notional values of FDIs may not reflect the true economic risk of the Fund. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. If the expected level of leverage were calculated taking into account netting of equal and opposite foreign exchange forward contracts, and excluding the share class hedging, the level of leverage would be expected to be lower and generally between 0% and 150% of the Fund's Net Asset Value. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	20%
SFTs	3%	20%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as a 'debt' fund.

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: US Dollars (USD);

Business Day: Every day that US Federal banks and the New York Stock Exchange are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;

Dealing Day: Each Business Day;

Please see the Holiday and Dealing Day Calendar which lists all non-Dealing Days for the Fund and is available at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change;

Dealing Deadline: The deadline for subscription, conversion and redemption orders to be received by the Transfer Agent is 2:00 pm Ireland time on the Dealing Day (T);

Settlement Date: For payment of Shares subscribed for, means no later than 4:00 p.m. New York time on the third Business Day following the Dealing Day on which the Shares were purchased. For payment of redemption proceeds, Settlement Date means a date usually within three Business Days, but not more than ten Business Days, from the trade date in respect of a redemption request;

Investment Manager: Wellington Management Company LLP
251 Little Falls Drive
Wilmington, Delaware 19808
USA

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Counterparty
- Currency
- Duration
- Emerging Markets
- Financial Derivatives Instruments
- Fixed Income and Debt Securities
- Investment in Russia
- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subscription (in USD or equivalent*)	Subsequent (in USD or
S, T	USD 5 million	USD 1,000	
D, N	USD 5,000		

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid quarterly. Dividends will generally be declared on or about the last Business Day of the relevant quarter for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below.

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee
S	N/A	0.55%	N/A
T	N/A	N/A	N/A
D	5%	0.55%	0.55%
N	N/A	0.55%	N/A

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N and D where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 28 February 2020

Wellington Opportunistic Fixed Income Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Opportunistic Fixed Income Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective by investing primarily in a broad range of fixed income asset classes. The Fund seeks to maximise total return by providing long and short (synthetic) exposure in an unconstrained manner to a broad range of fixed income debt securities across multiple geographies, including securities with both investment grade and non-investment grade credit ratings.

The Fund's investment strategy is based on the belief that fixed income market inefficiencies exist and are most prevalent outside the core developed market sovereign and investment grade corporate sectors focused on by most investors. The Investment Manager believes that these inefficiencies can be captured through researching the investment universe without constraint and by being willing to invest where the Investment Manager's research and analysis indicates the best total return opportunities arise.

The Investment Manager uses the following when building the Fund:

- 1) Allocations to areas of the global fixed income market that the Investment Manager considers misunderstood by other investors, for example where there is crisis, complacency or where structural change is going unrecognised. Ideas are implemented through investments in sovereign, government-related, corporate or securitised issues where the Investment Manager is looking to capture the repricing of long term structural themes (for example the European financial crisis).
- 2) The above are blended with allocations based on country, currency, duration, security selection or sector rotation ideas which are intended to capture short and medium term mispricing. The Investment Manager believes such allocations implemented through investments in areas such as developed market interest rates, currencies corporate, high yield and emerging market securities, will provide returns with low correlation to the movement of global fixed income markets.

The allocations in 1) and 2) above are combined and evaluated using the Investment Manager's risk management process which is used to assess the Fund's risk profile.

The Fund may invest, either directly or indirectly through the use of FDIs, in debt securities comprising bonds issued by government, agency, quasi-sovereign, supranational, commercial and sub national government issuers as well as residential and commercial mortgage-backed securities, asset-backed securities, corporate bonds, covered bonds, corporate and real estate investment trust ("REIT") debt (which are bonds and convertible bonds issued by a REIT), both fixed and floating-rate, preferred securities, sukuk (financial instruments with cash flows similar to conventional bonds that are structured to comply with Islamic law), GDNs (global depositary notes), hybrid securities comprising convertible securities as more fully described in the section of the Prospectus entitled **Types and Description of FDIs**, contingent capital securities that may be automatically written down upon the occurrence of a

specific event and contingent convertible securities that may be automatically converted into an equity security upon the occurrence of a specific event. The Fund may hold equity securities where they are a result of a corporate action, conversion or exercising a warrant. The Fund may also hold interests in limited partnerships and master limited partnerships as described in the section of the Prospectus entitled **Master Limited Partnerships**, securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)), debentures, loan participation securities (debt instruments) that qualify as an eligible investment by the Fund that reference bank loans or trade finance loans. The Fund may also invest in bank loan assignments that qualify as Money Market Instruments.

The Fund may also buy and sell index linked bonds and credit linked notes whose interest payments and/or payment at maturity depend on the performance of an underlying index or security. The underlying exposure of an index linked bond may be tied to a market index (such as a bond index or a credit default swap index) or an economic index (such as growth or inflation indices). The underlying exposure of a credit linked note is typically tied to a sovereign, quasi-sovereign or corporate bond issuer. In each case, the underlying exposure will be consistent with the Fund's investment objective and policies. The Fund also may invest in structured notes (which are synthetic securities with embedded components (such as an option, swap, forward or future)). Such structured notes may give exposure to underlying fixed income securities on a leveraged or unleveraged basis. In the event that the structured notes provide such exposure on a leveraged basis, such leverage shall be included in any global exposure calculations in accordance with the requirements of the Central Bank.

The Fund may invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds** and in exchange traded funds that invest in the types of securities listed above and which constitute an eligible investment for the Fund. These will be listed and/or traded on the markets and/or exchanges as set out in Appendix I of the Prospectus and may be transferable securities or collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter FDIs, comprising currency, interest rate, bond, credit, index and inflation options, interest rate, bond, equity, credit, index and currency futures or options on futures, credit default swaps, index credit default swaps, interest rate, total return, inflation, variance, volatility and currency swaps, swaptions and swaps on an index, warrants, bond and currency forwards, forward rate agreements and "to-be-announced" securities to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes including hedging against risk. Derivatives may be used as a replacement for direct bond exposures, to hedge specific interest rate, currency or credit risk. Equity derivatives may be used in markets where convertible bonds are not available, to provide a similar investment profile to convertible bonds, or to hedge fixed income securities that are highly correlated to equity markets such as corporate credit and emerging markets issues. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The net market exposure (sum of long and synthetic short positions including cash) of the Fund will typically be positive, meaning that long positions will generally be in greater proportion than synthetic short positions. Whilst the Fund's typical net market exposure may vary in time, it is expected to range between 25% and 150% of the Net Asset Value of the Fund, depending on the Investment Manager's analysis of the prevailing market conditions and considered in light of the investment objective of the

Fund. Short positions may only be taken through financial derivative instruments (“FDIs”) to implement active strategies within the Fund, for hedging risk and for managing overall market exposures. The gross exposure of the Fund’s short positions is not expected to exceed 175% of the Net Asset Value of the Fund. These figures do not include derivatives relating to foreign exchange which may be used for hedging or investment purposes.

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

Debt securities may be denominated in US Dollars or other currencies. The Fund may hold cash and cash equivalents as described in the section of the Prospectus entitled **Cash and Cash Equivalents** in multiple currencies without restriction.

The Fund will be denominated in US Dollars. Currency exposure, from the use of forward currency exchange contracts in multiple currencies, as more fully described in the section of the Prospectus entitled **Financial Derivative Instruments (FDIs)**, is actively managed within the Fund and may include cross-currency positions which may or may not be influenced by the Fund’s bond and cash equivalent positions.

The Fund will generally be diversified by country, currency, sector and issuer, but may hold positions that are concentrated from time to time. The Fund may invest in emerging markets and up to 10% of its Net Asset Value in securities traded in the Russian markets. The Fund may invest in securities traded in China via Bond Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Bond Connect**). For the purposes of this Fund, an emerging market is one that the Investment Manager considers to be an emerging market.

The Fund’s investments will represent a broad credit spectrum, including issues rated below investment grade. There is no minimum credit rating for individual securities or currencies. The Fund’s Net Credit Exposure to securities rated below investment grade will not represent more than 50% of its Net Asset Value at the time of purchase. Net Credit Exposure to securitised and collateralised debt will not represent more than 50% of the Fund’s Net Asset Value. Credit ratings for issues will be the highest of Moody’s, S&P’s, or Fitch’s long term ratings. If an issue is unrated, then an equivalent credit rating, as deemed by the Investment Manager, may be used.

The Fund level effective duration will be limited to 0-10 years. There are no limits on the duration of individual holdings, and in anticipation of rising interest rates the Investment Manager may implement certain defensive interest rate hedging strategies that may result in negative duration positions at the individual security or country levels.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as absolute VaR to assess the Fund’s market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed 20% of the Fund’s Net Asset Value for a holding period equivalent to one month. The Fund adopts a one-tailed 99% confidence level under normal market conditions for a one month holding horizon and considering at

least one year of historical data. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

Where the Fund engages in securities financing transactions, a maximum of 50% of the Fund's assets may be subject to such arrangements, with an expectation that at any time between 0% and 25% of the Fund's assets may be subject to such arrangements

It is expected that the Fund will generally incur leverage at a rate of between 0% and 650% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of FDIs. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	25%	50%
SFTs	5%	10%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as a 'debt' fund.

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: US Dollars (USD);

Business Day: Every day that US Federal banks and the New York Stock Exchange are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;

Dealing Day: Each Business Day;

Please see the Holiday and Dealing Day Calendar which lists all non-Dealing Days for the Fund and is available at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change;

Dealing Deadline: The deadline for subscription, conversion and redemption orders to be received by the Transfer Agent is 2:00 pm Ireland time on the Dealing Day (T);

Settlement Date: For payment of Shares subscribed for, means no later than 4:00 p.m. New York time on the second Business Day following the Dealing Day on which the Shares were purchased. For payment of redemption proceeds, Settlement Date means a date usually within two Business Days, but not more than ten Business Days, from the trade date in respect of a redemption request;

Investment Manager: Wellington Management Company LLP
251 Little Falls Drive
Wilmington, Delaware 19808
USA

Sub-Investment Manager: The Investment Manager may delegate the investment management of a portion of the assets of the Fund to sub-investment managers within its group and in such instance, information in respect of the relevant sub-investment managers will be provided to the Shareholders on request and will be disclosed in the periodic reports of the Company.

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Concentration
- Counterparty
- Currency
- Duration
- Emerging Markets
- Financial Derivatives Instruments
- Fixed Income and Debt Securities
- Investment in Russia
- Long-Short Strategy
- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subsequent Subscription (in USD or equivalent*)
S, T	USD 5 million	USD 1,000
D, N, DL	USD 5,000	

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class DL Shares are reserved for investors in certain markets, acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to Class D Shares is payable.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid quarterly. Dividends will generally be declared on or about the last Business Day of the relevant quarter for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below.

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee
S	N/A	0.50%	N/A
T	N/A	N/A	N/A

D	5%	0.50%	0.50%
N	N/A	0.50%	N/A
DL	3%	0.50%	0.80%

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D and DL where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Sterling Core Bond Plus Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Sterling Core Bond Plus Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund against the ICE Bank of America Merrill Lynch Sterling Broad Market Index (the “Index”), seeking to achieve the objective by investing primarily in Sterling denominated fixed income debt securities. The Index is a measure of the total return of fixed income securities issued in Sterling. The Index includes sovereign and corporate issuance.

The Fund will invest, either directly or indirectly (both long and short) through the use of FDIs, in debt securities denominated in Sterling, for investment purposes and for efficient portfolio management, including hedging against risk. The investment approach combines a base of Sterling fixed income strategies with an overlay of global best ideas from the global fixed income and currency markets. The Fund may buy and sell bonds issued by sovereign, agency, and supranational issuers; mortgage, commercial mortgage, and asset-backed securities; hybrid securities comprising convertible securities as more fully described in the section of the Prospectus entitled **Types and Description of FDIs**, contingent capital securities that may be automatically written down upon the occurrence of a specific event and contingent convertible securities that may be automatically converted into an equity security upon the occurrence of a specific event; warrants, corporate and REIT debt loan participations, loan participation securities that qualify as an eligible investment by the Fund (including, but not limited to, trade finance loan participations) and, in addition, bank loan assignments that qualify as Money Market Instruments, trade finance loans, credit-linked, index-linked, and capital securities (securities that combine the features of corporate bonds and preferred stock); as well as other debt securities issued by public or private issuers, both fixed and floating-rate, including forward contracts on such securities. These debt securities may be denominated in Sterling or other currencies. The Fund may also hold equity securities where they are a result of a corporate action, conversion or exercising a warrant.

The net market exposure (sum of long and synthetic short positions including cash) of the Fund will typically be positive, meaning that long positions will generally be in greater proportion than synthetic short positions. Whilst the Fund’s typical net market exposure may vary in time, it is expected to range between 0% and 150% of the Net Asset Value of the Fund, depending on the Investment Manager’s analysis of the prevailing market conditions and considered in light of the investment objective of the Fund. These figures do not include derivatives relating to foreign exchange which may be used for hedging or investment purposes.

The Fund’s weighted average credit quality, including cash and cash equivalents, is expected to be A3 by Moody’s or A by Standard & Poor’s or higher. There is no minimum credit rating for individual securities or currencies.

The Fund generally will be diversified by country, currency, issuer, and investment strategy, but may hold concentrated positions from time to time. The Fund may invest in securities traded in China via Bond Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Bond Connect**).

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as relative VaR to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed twice the VaR of the Index. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage at a rate of between 50% and 800% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of the FDIs. Where FDIs are used for hedging purposes or are themselves hedged against equal and opposite trades, the sum of gross notional values of FDIs may not reflect the true economic risk of the Fund. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	5%
SFTs	3%	20%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as a 'debt' fund.

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**

GENERAL INFORMATION RELATING TO THE FUND

Base Currency:	GBP;
Business Day:	Every day that US Federal banks and the New York Stock Exchange are open for business except for: Easter Monday, May 1 st , the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;
Dealing Day:	Each Business Day; Please see the Holiday and Dealing Day Calendar which lists all non-Dealing Days for the Fund and is available at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change;
Dealing Deadline:	The deadline for subscription, conversion and redemption orders to be received by the Transfer Agent is 2:00 pm Ireland time on the Dealing Day (T);
Settlement Date:	For payment of Shares subscribed for, means no later than 4:00 p.m. New York time on the second Business Day following the Dealing Day on which the Shares were purchased. For payment of redemption proceeds, Settlement Date means a date usually within two Business Days, but not more than ten Business Days, from the trade date in respect of a redemption request;
Investment Manager:	Wellington Management Company LLP 251 Little Falls Drive Wilmington, Delaware 19808 USA

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Counterparty
- Currency
- Duration
- Emerging Markets
- Financial Derivatives Instruments
- Fixed Income and Debt Securities
- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subsequent Subscription (in USD or equivalent*)
S, T	USD 5 million	USD 1,000
D, N	USD 5,000	

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid quarterly. Dividends will generally be declared on or about the last Business Day of the relevant quarter for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below.

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee
S	N/A	0.30%	N/A
T	N/A	N/A	N/A
D	5%	0.30%	0.30%
N	N/A	0.30%	N/A

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N and D where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington US\$ Core High Yield Bond Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington US\$ Core High Yield Bond Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund against the ICE Bank of America Merrill Lynch US High Yield Constrained Index (the "Index"), seeking to achieve the objective by investing primarily in debt securities of US corporations which are considered by the Investment Manager to be below investment grade. The Index tracks the performance of US Dollar denominated below investment grade corporate debt publicly issued in the US domestic market. The Index is modified capitalisation weighted, with the largest issuers capped at 2% of the weight of the total index with the excess weight redistributed equally amongst the issuers under that cap.

Total returns will be sought from two sources: a high level of current income and capital appreciation. Fund construction is primarily based upon bottom-up fundamental research conducted by the Investment Manager.

The Fund will primarily invest, either directly or indirectly (both long and short), in high yield (i.e., below investment grade) debt securities denominated in US Dollars for investment purposes and for efficient portfolio management, including hedging against risk. The Fund may invest in a broad range of debt securities of various types and maturities issued by commercial, governmental or supranational entities, including, for example, loan participation securities that qualify as an eligible investment by the Fund (including, but not limited to, trade finance loan participations), REIT debt securities, sukuk (financial instruments with cash flows similar to conventional bonds that are structured to comply with Islamic law), hybrid securities comprising convertible securities as more fully described in the section of the Prospectus entitled **Types and Description of FDIs**, contingent capital securities that may be automatically written down upon the occurrence of a specific event and contingent convertible securities that may be automatically converted into an equity security upon the occurrence of a specific event, and, in addition, bank loan assignments that qualify as Money Market Instruments, debentures, leveraged loans, convertible bonds, preferred stock, warrants, rights, floating rate and variable rate notes, collateralised securities (such as securities collateralised or backed by mortgages or credit card receivables) coupon-bearing and deferred interest instruments (such as zero coupon bonds). The Fund may invest in US Treasury or agency securities and cash equivalent securities as described in the section of the Prospectus entitled **Cash and Cash Equivalents**. The Fund may also invest in debt securities of corporations issued under Rule 144A or Regulation S under the US Securities Act of 1933. The Fund will not invest in below investment grade emerging market debt securities.

The Fund will invest primarily in securities listed or traded in United States over-the-counter markets. The Fund will not invest in securities listed or traded in emerging markets. For the purposes of this Fund, an emerging market is one that the Investment Manager considers to be an emerging market. The Fund may hold equity securities where they are a result of a corporate action, conversion or exercising a warrant.

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

The Fund may invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds** and in exchange traded funds (“ETFs”) that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such ETFs will be listed and/or traded on the markets and/or exchanges as set out in Appendix I and regulated as UCITS or as AIF ETFs.

The net market exposure (sum of long and synthetic short positions including cash) of the Fund will always be positive, meaning that long positions will be in greater proportion than any synthetic short positions. Whilst the Fund’s typical net market exposure may vary in time, it is expected to range between 80% and 120% of the Net Asset Value of the Fund, depending on the Investment Manager’s analysis of the prevailing market conditions and considered in light of the investment objective of the Fund. These figures do not include the use of derivatives for foreign exchange which are generally limited to hedging.

The Fund will primarily invest in debt securities rated below investment grade, i.e. below Baa3 by Moody’s, BBB- by Standard & Poor’s, or BBB- by Fitch. The Fund may also invest in unrated debt instruments deemed to be of similar credit quality by the Investment Manager. The average quality of the Fund’s holdings will tend to be in the B2/B range, but is expected to fluctuate. In the event of split ratings on a security, the Investment Manager will use the highest rating of Moody’s, Standard & Poor’s or Fitch. If a security is unrated, then an equivalent credit rating, as deemed by the Investment Manager, may be used. In the event that a security is downgraded after its purchase, the Investment Manager may continue to hold such security on behalf of the Fund if it determines that it is in the best interest of the Fund. The Fund may hold equity securities, up to 5% of the market value of the Fund, if such securities are received as a result of a corporate restructuring or as a result of owning equity-linked securities (e.g. convertible bonds, warrants).

The Fund generally will be well-diversified by industry and issuer. Sector and quality weightings, as well as individual holdings, will vary.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as relative VaR to assess the Fund’s market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed twice the VaR of the Index. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage at a rate of between 0% and 350% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of the FDIs. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency

Hedged Share Classes. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	10%
SFTs	3%	10%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as a 'debt' fund.

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington World Bond Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington World Bond Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective by investing in a range of fixed income assets.

The Fund allocates its assets across multiple fixed income assets, with an allocation to high quality global sovereign government and government-related debt combined with opportunistic exposure to various other fixed income assets like corporate debt, securitised debt, developed and emerging market debt and currencies.

The Fund may invest, either directly or indirectly through the use of FDIs, in a diversified portfolio of developed and what the Investment Manager considers to be emerging market debt securities comprising bonds issued by government, agency, quasi-sovereign, supranational, commercial and sub national government issuers as well as residential and commercial mortgage-backed securities, asset-backed securities, covered bonds, corporate and real estate investment trust ("REIT") debt (which are bonds and convertible bonds issued by a REIT), both fixed and floating-rate, preferred securities, sukuk (financial instruments with cash flows similar to conventional bonds that are structured to comply with Islamic law), hybrid securities comprising convertible securities as more fully described in the section of the Prospectus entitled **Types and Description of FDIs**, contingent capital securities that may be automatically written down upon the occurrence of a specific event and contingent convertible securities that may be automatically converted into an equity security upon the occurrence of a specific event, as well as corporate bonds, and forward contracts on such securities. The Fund may hold equity securities where they are a result of a corporate action, conversion or exercising a warrant. The Fund may also hold securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)) and bank loan assignments that qualify as Money Market Instruments.

The Fund may also buy and sell index linked bonds and credit linked notes whose interest payments and/or payment at maturity depend on the performance of an underlying index or security. The underlying exposure of an index linked bond may be tied to a market index (such as a bond index or a credit default swap index) or an economic index (such as growth or inflation indices). The underlying exposure of a credit linked note is typically tied to a sovereign, quasi-sovereign or corporate bond issuer. In each case, the underlying exposure will be consistent with the Fund's investment objective and policies. The Fund also may invest in structured notes (which are synthetic securities with embedded components (such as an option)). Such structured notes shall give exposure to underlying fixed income securities on an unleveraged basis.

The Fund may also invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds** and in exchange traded funds that invest in the types of securities listed above and which constitute an eligible investment for the Fund. These will be listed and/or traded on the markets and/or exchanges as set out in Appendix I of the Prospectus and may be

transferable securities or collective investment schemes. No more than 5% of the Net Asset Value of the Fund will be invested in non-listed and non-traded collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter FDIs, both long and short, comprising currency, interest rate, bond, index and inflation options, interest rate, bond, index and currency futures or options on futures, credit default swaps, index credit default swaps, interest rate, total return, inflation and currency swaps, swaptions and swaps on an index, warrants, bond and currency forwards and forward rate agreements to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The net market exposure (sum of long and synthetic short positions including cash) of the Fund will typically be positive, meaning that long positions will generally be in greater proportion than synthetic short positions. Whilst the Fund's typical net market exposure may vary in time, it is expected to range between 0% and 200% of the Net Asset Value of the Fund, depending on the Investment Manager's analysis of the prevailing market conditions and considered in light of the investment objective of the Fund. These figures do not include derivatives relating to foreign exchange which may be used for hedging or investment purposes.

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

These debt securities may be denominated in US Dollars or other currencies. The Fund may hold cash and cash equivalents as described in the section of the Prospectus entitled **Cash and Cash Equivalents** in multiple currencies without restriction.

The Fund will be denominated in US Dollars. Currency exposure, from the use of forward currency exchange contracts in multiple currencies, as more fully described in the section of the Prospectus entitled **Financial Derivative Instruments (FDIs)**, is actively managed within the Fund and may include cross-currency positions which may or may not be influenced by the Fund's bond and cash equivalent positions.

The Fund will generally be diversified by country, currency, sector and issuer, but may hold positions that are concentrated from time to time. The Fund's investments will represent a broad credit spectrum, including issues rated below investment-grade. There is no minimum credit rating for individual securities or currencies. The Fund's Net Credit Exposure to securities rated below investment grade will not represent more than 50% of its Net Asset Value at the time of purchase. Net Credit Exposure to securitised securities will not represent more than 40% of the Fund's Net Asset Value at the time of purchase. Credit ratings for issues will be the highest of Moody's, S&P's, or Fitch's long term ratings. If an issue is unrated, then an equivalent credit rating, as deemed by the Investment Manager, may be used. The Fund may invest in securities traded in China via Bond Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Bond Connect**).

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as absolute VaR to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed 20% of the Fund's Net Asset Value for a holding period equivalent to one month. The Fund adopts a one-tailed 99% confidence level under normal market conditions for a one month holding horizon and considering at least one year of historical data. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage at a rate of between 0% and 900% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of FDIs. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	20%
SFTs	3%	10%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as a 'debt' fund.

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: US Dollars (USD);

Business Day: Every day that US Federal banks and the New York Stock Exchange are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;

Dealing Day: Each Business Day;

Please see the Holiday and Dealing Day Calendar which lists all non-Dealing Days for the Fund and is available at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change;

Dealing Deadline: The deadline for subscription, conversion and redemption orders to be received by the Transfer Agent is 2:00 pm Ireland time on the Dealing Day (T);

Settlement Date: For payment of Shares subscribed for, means no later than 4:00 p.m. New York time on the second Business Day following the Dealing Day on which the Shares were purchased. For payment of redemption proceeds, Settlement Date means a date usually within two Business Days, but not more than ten Business Days, from the trade date in respect of a redemption request;

Investment Manager: Wellington Management Company LLP
251 Little Falls Drive
Wilmington, Delaware 19808
USA

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Counterparty
- Currency
- Duration
- Emerging Markets
- Financial Derivatives Instruments
- Fixed Income and Debt Securities
- Long-Short Strategy
- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subsequent Subscription (in USD or equivalent*)
S, T	USD 5 million	USD 1,000
D, N, DL	USD 5,000	

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class DL Shares are reserved for investors in certain markets, acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to Class DL Shares is payable.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid quarterly. Dividends will generally be declared on or about the last Business Day of the relevant quarter for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below.

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee
S	N/A	0.40%	N/A
T	N/A	N/A	N/A
D	5%	0.40%	0.50%
N	N/A	0.40%	N/A
DL	3%	0.40%	0.80%

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D and DL where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 17 December 2019

Wellington All-China Focus Equity Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington All-China Focus Equity Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective by investing primarily in companies that are located, and/or conduct substantial business activities in China. The Investment Manager will look to the location of a company's assets, revenues and earnings in determining whether a company conducts substantial business activities in China and the location of a company's stock exchange listing will have no bearing in this evaluation.

The Fund's investment approach is based primarily on proprietary bottom-up fundamental research conducted by the Investment Manager. The Investment Manager aims to meet the management teams of the companies analysed multiple times, along with their competitors and suppliers, where possible when considering making an investment decision. The Investment Manager then focuses on companies that it perceives to have high quality management teams with a strong governance track record. Companies that meet the Investment Managers' standards of managerial quality (e.g. experience, governance track record, equity ownership and positive dealings with stakeholders and shareholders) are then assessed on the strength and sustainability of their business model (e.g. industry growth expectations, potential barriers to entry and relative strength of balance sheet), as well as their ability to generate sustainable long-term returns on capital. The Investment Manager has a preference for companies driven by organic growth, rather than growth by acquisition.

Although the Fund is not constructed relative to a benchmark, the MSCI China All Shares Index (the "Index") will serve as a reference benchmark and is used to provide market context. The Index is designed to measure performance of the broader Chinese equity market.

The Fund will invest in China A Shares traded via Stock Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Stock Connect**). In addition the Fund will invest, directly or indirectly through the use of FDIs, in other equities and securities with equity characteristics. These may include, but are not limited to, common stocks (such as Hong Kong listed "H shares" and other international listings), depository receipts (such as ADRs, GDRs and European Depository Receipts), market access products (including warrants on equities, options on equities and equity swaps), preferred stock, dividend-right certificates, shares of closed-ended Real Estate Investment Trusts, exchange-traded funds and other collective investment schemes.

The Fund may invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds** and in exchange traded funds ("ETFs") that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such ETFs will be listed and/or traded on the markets and/or exchanges as set out in Appendix I of the Prospectus and regulated as UCITS or as AIF ETFs. No more than 5% of the Net Asset Value of the Fund will be invested in non-listed and non-traded collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter FDIs, comprising the market access products mentioned above, as well as index futures and currency forwards, to gain exposure to the

instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The Fund may be concentrated in a relatively small number of securities and industry sectors and will be more concentrated in terms of country exposures and, as a result, may be more volatile than more broadly diversified funds. The Fund will not normally be hedged against currency fluctuations, although the Investment Manager may employ currency hedging on an opportunistic basis when it believes it is advisable to do so.

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

Generally less than 5% of the Fund's Net Asset Value will be invested in cash and cash equivalents as described in the section of the Prospectus entitled **Cash and Cash Equivalents**. In response to unusual market conditions the Fund may hold up to 20% of its assets in cash and cash equivalents for defensive purposes.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as the commitment methodology to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The global exposure generated through the use of financial derivative instruments is limited to 100% of the Net Asset Value of the Fund when calculated using the commitment methodology. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	5%
SFTs	2%	20%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an 'equity' fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: US Dollars (USD);

Business Day: Every day that US Federal banks, the New York Stock Exchange, Hong Kong banks and exchanges and People's Republic of China ("PRC") banks and exchanges are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;

Dealing Day: Each Business Day, however due to the use of Stock Connect non-Dealing Days may occur where PRC and Hong Kong banks are closed on corresponding security settlement days.

Please see the Holiday and Dealing Day Calendar which lists all non-Dealing Days for the Fund and is available at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change;

Dealing Deadline: The deadline for subscription, conversion and redemption orders to be received by the Transfer Agent is 2:00 pm Ireland time one day prior to the Dealing Day (T-1), provided that day is also a Dealing Day. Where this is not a Dealing Day, the Dealing Deadline will default to the prior Dealing Day;

Settlement Date: For payment of Shares subscribed for, means no later than 4:00 p.m. New York time on the second Business Day following the Dealing Day on which the Shares were purchased. For payment of redemption proceeds,

Settlement Date means a date usually within two Business Days, but not more than ten Business Days, from the trade date in respect of a redemption request;

Investment Manager: Wellington Management Hong Kong Limited
1401 Hutchison House
10 Harcourt Road
Hong Kong

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Concentration
- Counterparty
- Currency
- Emerging Markets
- Equity
- Hedging
- Investment in China
- Market
- Reliance on the Investment Manager
- Stock Connect

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Classes	Share	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subscription (in USD or equivalent*)	Subsequent (in USD or
S, T		USD 5 million		
D, N, DL		USD 5,000	USD 1,000	

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share

Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class DL Shares are reserved for investors in certain markets, acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class DL Shares is payable.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid annually. Dividends will generally be declared on or about the last Business Day of the year for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below.

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee
S	N/A	0.95%	N/A
T	N/A	N/A	N/A
D	5%	0.95%	0.95%
N	N/A	0.95%	N/A
DL	3%	0.95%	1.45%

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D and DL where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Asia ex Japan Equity Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Asia ex Japan Equity Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective by investing primarily in companies in developed and emerging markets in the Asia ex Japan region. The management of the Fund will be driven by fundamental company research, and country and sector allocations are primarily a by-product of the bottom-up stock selection process. The Fund is expected to be reasonably diversified, generally holding 40-70 securities and may invest in companies across a broad spectrum of market capitalisations. Up to 15% of the Net Asset Value of the Fund may be invested in companies domiciled outside of Asia if the Investment Manager determines that, on the basis of the company's assets, revenues and earnings, the company conducts substantial business activities in Asia (excluding Japan). The location of a company's stock exchange listing will have no bearing on this evaluation. For the purposes of this Fund, an emerging market is one that the Investment Manager considers to be an emerging market.

Although the Fund is not constructed relative to a benchmark, the MSCI All Countries Asia ex Japan Index (the "Index") will serve as a reference benchmark. The Index is designed to measure large and mid-cap equity market performance across Asian markets (excluding Japan).

The Fund will invest, directly or through FDIs, in equity and other securities with equity characteristics, comprising investments in Real Estate Investment Trusts depository receipts and market access products (comprising warrants on equities, options on equities and equity swaps). The Fund may invest up to 10% of its Net Asset Value in China A Shares traded via Stock Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Stock Connect**).

The Fund may invest in exchange traded funds that invest in the types of securities listed above and which constitute an eligible investment for the Fund. These will be listed and/or traded on the markets and/or exchanges as set out in Appendix I of the Prospectus and may be transferable securities or collective investment schemes. Typically no more than 5% of the Net Asset Value of the Fund will be invested in non-listed and non-traded collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter FDIs, both long or short, comprising the market access products mentioned above as well as currency forwards, index futures, or options on index futures, to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

Generally less than 5% of the Fund's Net Asset Value will be invested in cash and cash equivalents as described in the section of the Prospectus entitled **Cash and Cash Equivalents**.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as the commitment methodology to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The global exposure generated through the use of financial derivative instruments is limited to 100% of the Net Asset Value of the Fund when calculated using the commitment methodology. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	5%
SFTs	2%	10%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an 'equity' fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subsequent Subscription (in USD or equivalent*)
S, T	USD 5 million	USD 1,000
D, N, DL	USD 5,000	

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class DL Shares are reserved for investors in certain markets, acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class DL Shares is payable.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid annually. Dividends will generally be declared on or about the last Business Day of the year for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below.

Share Class Name	Maximum Charge*	Preliminary	Investment Management Fee	Distribution Fee
S	N/A		0.80%	N/A
T	N/A		N/A	N/A
D	5%		0.80%	0.80%
N	N/A		0.80%	N/A
DL	3%		0.80%	1.30%

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D and DL where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Durable Companies Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Durable Companies Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective primarily by investing globally in companies that the Investment Manager considers to be durable companies. Durable companies are those that the Investment Manager considers to exhibit stability and anticipates will generate positive returns over time. Stability is defined by the Investment Manager as a profit base that is not likely to decline significantly from current levels and future value creation largely through management's ability to allocate capital effectively. The merits of stability are widely appreciated by the market and so are often reflected in the valuation of well-known stable businesses. In order to identify these businesses at more attractive valuations, the Investment Manager looks for stability in less conventional places such as a) mid and small capitalisation companies, industry sectors considered from time to time by the Investment Manager to be more volatile and geographies that are typically less favoured by the investment industry and b) in companies that do not grow fast enough for growth investors, lack the blue chip financial characteristics sought by quality investors and are not cheap enough for value investors. The Fund may be concentrated in industry sectors and/or countries from time to time.

The Fund will invest either directly or indirectly through Financial Derivative Instruments ("FDIs"), in equity and other securities with equity characteristics, comprising shares, preferred stock, depository receipts (such as ADRs, GDRs and European Depository Receipts), convertible securities, warrants, investments in Real Estate Investment Trusts and market access products (comprising warrants on equities, options on equities and equity swaps) for securities issued by developed and emerging market companies. The Fund may also hold securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)).

The Fund may invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds** and in exchange traded funds ("ETFs") that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such ETFs will be listed and/or traded on the markets and/or exchanges as set out in Appendix I of the Prospectus and regulated as UCITS or as AIF ETFs. No more than 5% of the Net Asset Value of the Fund will be invested in non-listed and non-traded collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter FDIs comprising the market access products mentioned above as well as index futures and currency forwards, both long and short, to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

Generally less than 10% of the Fund's Net Asset Value will be invested in cash and cash equivalents as described in the section of the Prospectus entitled **Cash and Cash Equivalents**.

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

The Fund may invest in developed countries and any country which is considered by the Investment Manager to be an emerging market. These are primarily located in Latin/Central America and the Caribbean, Central and Eastern Europe, Middle East, Africa and Asia. The Fund may make limited investment in securities traded on Russian markets and may invest up to 10% of its Net Asset Value in China A Shares traded via Stock Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Stock Connect**).

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as the commitment methodology to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The global exposure generated through the use of financial derivative instruments is limited to 100% of the Net Asset Value of the Fund when calculated using the commitment methodology. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	5%
SFTs	2%	5%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an 'equity' fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section **entitled German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: US Dollars (USD);

Business Day: Every day that US Federal banks and the New York Stock Exchange are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;

Dealing Day: Weekly Dealing (usually Wednesday);

Please see the Holiday and Dealing Day Calendar which lists all non-Dealing Days for the Fund and is available at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change;

Dealing Deadline: The deadline for subscription, conversion and redemption orders to be received by the Transfer Agent is 2:00 pm Ireland time usually on the Wednesday prior to the Dealing Day (T-5).

These days are the typical Dealing Deadlines for the Fund. Please see the Holiday and Dealing Day Calendar, which contains a list of the actual dates of the weekly Dealing Deadlines for the Fund and is available at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change;

Settlement Date: For payment of Shares subscribed for, means no later than 4:00 p.m. New York time on the second Business Day following the Dealing Day on which the Shares were purchased. For payment of redemption proceeds, Settlement Date means a date usually within two Business Days, but not more than ten Business Days, from the trade date in respect of a redemption request;

Investment Manager: Wellington Management Company LLP
251 Little Falls Drive
Wilmington, Delaware 19808
USA

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Concentration
- Counterparty
- Currency
- Emerging Markets
- Equity
- Financial Derivatives Instruments
- Investment in Russia
- Liquidity
- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subscription (in USD or equivalent*)	Subsequent (in USD or
S, T	USD 5 million	USD 1,000	
D, N	USD 5,000		

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid annually. Dividends will generally be declared on or about the last Business Day of the year for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee, Distribution Fee and Performance Fee are each accrued daily in the Net Asset Value of the relevant Classes of Shares at the annual rate set out in the table below. The Investment Management Fee and Distribution Fee are paid quarterly in arrears whilst the Performance Fee, if applicable, is generally crystallized at the Fund's fiscal year end and paid shortly thereafter. The Performance Fee Type applicable to this Fund is 'Hurdle'. Please refer to the Performance Fees section of the Prospectus for more detail.

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee	Performance Fee	Predefined Rate** (for Hurdle)
S	N/A	0.60%	N/A	10%	8%
T	N/A	N/A	N/A	N/A	N/A
D	5%	0.60%	0.75%	10%	8%
N	N/A	0.60%	N/A	10%	8%

*Payable to financial adviser or intermediary

**The predefined rate is an additional amount added to the Hurdle which is set on a fund by fund basis and approved by the Directors.

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N and D where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Durable Enterprises Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Durable Enterprises Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective primarily by investing globally in companies that the Investment Manager considers to be durable companies. Durable companies are those that the Investment Manager considers to exhibit stability and anticipates will generate positive returns over time. Stability is defined by the Investment Manager as a profit base that is not likely to decline significantly from current levels combined with future value creation largely through management's ability to allocate capital effectively. The merits of stability are widely appreciated by the market and so are often reflected in the valuation of well-known stable businesses. In order to identify these businesses at more attractive valuations, the Investment Manager looks for stability in less conventional places such as a) mid and small capitalisation companies, industry sectors considered from time to time by the Investment Manager to be more volatile and geographies that are typically less favoured by the investment industry and b) in companies that do not grow fast enough for growth investors, lack the blue chip financial characteristics sought by quality investors and are not cheap enough for value investors.

The Fund may be concentrated in industry sectors and/or countries from time to time. The Fund is expected to have a bias towards small to mid-capitalisation companies, however the market capitalisation floor for the Fund will be USD 2 billion at initial purchase. The Investment Manager may choose to retain or add to a security that has fallen below this floor.

The Fund will invest either directly or indirectly through Financial Derivative Instruments ("FDIs"), in equity and other securities with equity characteristics, comprising shares, preferred stock, depository receipts (such as ADRs, GDRs and European Depository Receipts), convertible securities, warrants, investments in Real Estate Investment Trusts and market access products (comprising warrants on equities, options on equities and equity swaps) for securities issued by developed and emerging market companies. The Fund may also hold securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)).

The Fund may invest in developed countries and any country which is considered by the Investment Manager to be an emerging market. These are primarily located in Latin/Central America and the Caribbean, Central and Eastern Europe, Middle East, Africa and Asia. The Fund may make limited investment in securities traded on Russian markets and may invest up to 10% of its Net Asset Value in China A Shares traded via Stock Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Stock Connect**).

The Fund may invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds** and in exchange traded funds ("ETFs") that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such ETFs will be listed and/or traded on the markets and/or exchanges as set out in Appendix I of the

Prospectus and regulated as UCITS or as AIF ETFs. No more than 5% of the Net Asset Value of the Fund will be invested in non-listed and non-traded collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter FDIs comprising the market access products mentioned above as well as index futures and currency forwards, both long and short, to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

Generally less than 10% of the Fund's Net Asset Value will be invested in cash and cash equivalents as described in the section of the Prospectus entitled **Cash and Cash Equivalents**.

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as the commitment methodology to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The global exposure generated through the use of financial derivative instruments is limited to 100% of the Net Asset Value of the Fund when calculated using the commitment methodology. Further information on the risk management method can be found in the Prospectus in the section of the Prospectus entitled **Financial Derivative Instruments (FDIs)**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	5%
SFTs	2%	5%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an 'equity' fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Emerging Market Development Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Emerging Market Development Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective by investing in companies domiciled in emerging markets, and to a lesser extent, in developed and frontier (as defined by MSCI) market countries. Investments in developed markets will be focused on companies which conduct substantial business in emerging markets as determined by the Investment Manager, including (i) companies that have substantial assets in emerging markets; (ii) companies the Investment Manager believes will experience significant growth from business activities conducted in emerging markets; and (iii) companies that derive a substantial portion of their total revenues from either goods and services produced in, or sales made in, emerging markets.

Although the Fund is not constructed relative to a benchmark, the MSCI Emerging Markets Index (the "Index") will serve as a reference benchmark. The Index is designed to measure large- and mid-cap equity market performance across global emerging markets.

The Investment Manager seeks to identify investment themes relating to structural and economic development in emerging market and frontier market economies. Thematic experts within the Investment Manager will search across a broad set of such development related themes and theme selection will be based on many quantitative and qualitative considerations of the Investment Manager as well as the accessibility of the investments. They will focus on identifying themes that are durable and enduring or those whose length and duration have been underappreciated by the broader market. The Investment Manager will invest on an unconstrained basis in companies best positioned to take advantage of structural and economic shifts or development trends within those economies. The Fund may hold concentrated positions within a theme but will generally be well diversified. The approach will differ from, but complement, traditional market capitalisation-based investment approaches characterised by a balanced approach to Fund construction but with a bias towards small to mid-capitalisation stocks.

The Fund will invest, directly or through FDIs (set out below), in equity and other securities with equity characteristics, comprising shares, preferred stock, investments in Real Estate Investment Trusts, convertible securities, warrants, depository receipts (such as ADRs, GDRs and European Depository Receipts) and market access products (comprising warrants on equities, options on equities and equity swaps). The Fund may also hold securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)).

The Fund may invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds** and in exchange traded funds ("ETFs") that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such ETFs will be listed and/or traded on the markets and/or exchanges as set out in Appendix I of the Prospectus and regulated as UCITS or as AIF ETFs. No more than 5% of the Net Asset Value of the Fund will be invested in non-listed and non-traded collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter FDIs, both long and short, comprising the market access products mentioned above, as well as swaps on indices, currency forwards and index futures to gain exposure to the instruments listed above in pursuit of the

investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The net market exposure (sum of long and synthetic short positions including cash) of the Fund will always be positive, meaning that long positions will be in greater proportion than any synthetic short positions. Whilst the Fund's typical net market exposure may vary in time, it is expected to range between 90% and 120% of the Net Asset Value of the Fund, depending on the Investment Manager's analysis of the prevailing market conditions and considered in light of the investment objective of the Fund. These figures do not include the use of derivatives for foreign exchange which are generally limited to hedging.

The indices to which the Fund will gain exposure via such market access products will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

The Fund may invest in developed countries and any country which is considered by the Investment Manager to be an emerging market or a frontier market. These are primarily located in Latin/Central America and the Caribbean, Central and Eastern Europe, Middle East, Africa and Asia. The Fund may invest up to a maximum of 20% of its Net Asset Value in securities traded on Russian markets from time to time and may invest up to 10% of its Net Asset Value in China A Shares traded via Stock Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Stock Connect**).

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as the commitment methodology to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The global exposure generated through the use of financial derivative instruments is limited to 100% of the Net Asset Value of the Fund when calculated using the commitment methodology. Further information on the risk management method can be found in the Prospectus in the section of the Prospectus entitled **Financial Derivative Instruments (FDIs)**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	20%
SFTs	2.5%	15%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an 'equity' fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: US Dollars (USD);

Business Day: Every day that US Federal banks, the New York Stock Exchange and Singapore banks and exchanges are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;

Dealing Day: Each Business Day;

Please see the Holiday and Dealing Day Calendar which lists all non-Dealing Days for the Fund and is available at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change;

Dealing Deadline: The deadline for subscription, conversion and redemption orders to be received by the Transfer Agent is 2:00 pm Ireland time one day prior to the Dealing Day (T-1), provided that day is also a Dealing Day. Where this is not a Dealing Day, the Dealing Deadline will default to the prior Dealing Day.

Settlement Date: For payment of Shares subscribed for, means no later than 4:00 p.m. New York time on the second Business Day following the Dealing Day on which the Shares were purchased. For payment of redemption proceeds, Settlement Date means a date usually within two Business Days, but not more than ten Business Days, from the trade date in respect of a redemption request;

Investment Manager: Wellington Management Singapore Pte Ltd
1 Marina Boulevard #28-00
One Marina Boulevard
Singapore 018989

Sub-Investment Manager: The Investment Manager may delegate the investment management of a portion of the assets of the Fund to sub-investment managers within its group and in such instance, information in respect of the relevant sub-investment managers will be provided to the Shareholders on request and will be disclosed in the periodic reports of the Company.

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Counterparty
- Currency
- Emerging Markets
- Equity
- Financial Derivatives Instruments
- Indian Rupee Repatriation Risk
- Investment in Russia
- Liquidity
- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subscription (in USD or equivalent*)	Subsequent (in USD or equivalent*)
S, T	USD 5 million	USD 1,000	
D, N, DL	USD 5,000		

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class DL Shares are reserved for investors in certain markets, acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class D Shares is payable.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid annually. Dividends will generally be declared on or about the last Business Day of the year for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below.

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee
S	N/A	0.80%	N/A
T	N/A	N/A	N/A
D	5%	0.80%	0.80%
N	N/A	0.80%	N/A
DL	3%	0.80%	1.30%

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D and DL where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Emerging Markets Equity Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Emerging Markets Equity Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund against the MSCI Emerging Markets Index (the "Index"), seeking to achieve the objective by investing primarily in equity securities of companies that are either located in emerging markets, or conduct substantial business in emerging markets as described in the Prospectus. The Index is designed to measure large- and mid-cap equity market performance across global emerging markets.

In managing the Fund, the Investment Manager combines country and sector analysis with stock selection in a relatively concentrated, actively managed investment mandate. The Fund generally will be well diversified across markets, sectors and companies, investing in a minimum of five countries. Total return, rather than income generation, will be emphasised.

The Fund may invest in any country which is considered to be a developing or emerging market, being a country classified by the World Bank as having low or middle per capita income for the last two consecutive years or a country represented in the Index. For temporary defensive purposes in case of unusual or extraordinary market conditions, the Fund may hold up to 100% of its assets in ancillary liquid assets. The Fund may make substantial investment in securities traded on Russian markets and may invest up to 10% of its Net Asset Value in China A Shares traded via Stock Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Stock Connect**).

The Fund will invest, either directly or indirectly through the use of FDIs, in equity securities and other securities with equity characteristics, such as preferred stocks, warrants on equities, convertible securities, as well as depository receipts for such securities (such as ADRs, GDRs and European Depository Receipts) issued by entities having their seat or exercising a predominant part of their economic activities in an emerging market as determined above. The Fund may buy and sell exchange-traded and over-the-counter FDIs both long and short to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against currency risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as relative VaR to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed twice the VaR of the Index. Further information on the risk management method can be found in the Prospectus in the section of the Prospectus entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage at a rate of between 0%-330% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of the FDIs. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal

and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. If the Fund experiences large redemptions the maximum figure relating to Share Class related hedging only may be exceeded in the short term. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund’s Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund’s expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	10%
SFTs	2%	5%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an ‘equity’ fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Emerging Markets Local Equity Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Emerging Markets Local Equity Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective by investing primarily in equity securities of companies that are either located in emerging markets, or conduct substantial business in emerging markets as described below, and by focusing on companies that derive or expect to derive the majority of their total revenues or profits from such emerging market countries. In managing the Fund, the Investment Manager combines country and sector analysis with stock selection in an actively managed investment mandate. The Fund is not constrained by market capitalisation, country or sector. Total return, rather than income generation, will be emphasised.

Although the Fund is not constructed relative to a benchmark, the MSCI Emerging Markets Index (the "Index") will serve as a reference benchmark. The Index is designed to measure large- and mid-cap equity market performance across global emerging markets.

The Fund may invest in any country which is considered to be a developing or emerging market, being a country classified by the World Bank as having low or middle per capita income for the last two consecutive years or a country represented in the Index. The Fund may make substantial investment in securities traded on Russian markets and may invest up to 10% of its Net Asset Value in China A Shares traded via Stock Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Stock Connect**).

The Fund may also invest, either directly or indirectly through the use of FDIs, in equity securities and other securities with equity characteristics, such as preferred stocks, warrants on equities, convertible securities, as well as depository receipts for such securities (such as ADRs, GDRs and European Depository Receipts) issued by entities having their seat or exercising a predominant part of their economic activities in an emerging market as determined above. Warrants and convertible securities are more fully described in the section of the Prospectus entitled **Types and Description of FDIs**.

Indirect investment in these types of securities means that the Company, on behalf of a Fund, may buy and sell long or short exchange-traded and over-the-counter FDIs, comprising market access products (warrants on equities, options on equities and equity swaps), index futures, currency forward contracts and currency options to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

Generally, less than 5% of the Fund's assets will be invested in cash and cash equivalents as described in the section of the Prospectus entitled **Cash and Cash Equivalents**.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as the commitment methodology to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The global exposure generated through the use of financial derivative instruments is limited to 100% of the Net Asset Value of the Fund when calculated using the commitment methodology. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	10%
SFTs	2%	10%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an 'equity' fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100

respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid annually. Dividends will generally be declared on or about the last Business Day of the year for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below.

Share Class Name	Maximum Charge*	Preliminary	Investment Management Fee	Distribution Fee
S	N/A		1.00%	N/A
T	N/A		N/A	N/A
D	5%		1.00%	1.00%
N	N/A		1.00%	N/A

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D and DL where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Emerging Markets Opportunities Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Emerging Markets Opportunities Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective by investing primarily in companies that are located, and/or conduct substantial business activities, in non-developed markets, including frontier markets (as defined by MSCI). The Investment Manager will look to the location of a company's assets, revenues and earnings in determining whether a company conducts substantial business activities in non-developed markets and the location of a company's stock exchange listing will have no bearing in this evaluation.

Although the Fund is not constructed relative to a benchmark, the MSCI Emerging Markets Investable Market Index (the "Index") will serve as a reference benchmark. The Index is designed to measure large-, mid- and small-cap equity market performance across global emerging markets.

In managing the Fund, the Investment Manager focuses primarily on bottom-up stock selection. The Fund's country and sector weights are not constrained and are a by-product of the bottom-up stock selection process. Therefore, country and sector exposures may be significantly overweight or underweight relative to the Index. The Fund may invest in companies across a broad spectrum of market capitalisations. Decisions on positions and their sizes within the Fund are taken independently of the composition, weighting and domicile of the components of the Index. The maximum position in an individual security is typically less than 5% of the Net Asset Value of the Fund, and the Investment Manager will seek to reduce any individual position that exceeds 7% of the Net Asset Value of the Fund.

The Fund will invest either directly or indirectly through financial derivative instruments ("FDIs") in equity and other securities with equity characteristics, comprising shares, preferred stocks, depository receipts (such as ADRs, GDRs and European Depository Receipts), convertible securities, investments in Real Estate Investment Trusts and market access products (including warrants on equities, options on equities and equity swaps). The Fund may also hold securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)). The Fund may invest up to 15% of its Net Asset Value in China A Shares traded via Stock Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Stock Connect**) and may invest in an unconstrained manner in securities traded on Russian markets and therefore such investments may be substantial at any given time.

The Fund may invest in exchange traded funds which constitute an eligible investment for the Fund. These will be listed and/or traded on the markets and exchanges as set out in Appendix I of the Prospectus and may be transferable securities or collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter FDIs, both long and short, to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes (including to create or reduce exposures in certain countries or geographic regions) to manage cash inflows and outflows including hedging against currency or other risks. Full

details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The net market exposure (sum of long and synthetic short positions including cash) of the Fund will always be positive, meaning that long positions will be in greater proportion than any synthetic short positions. Whilst the Fund's typical net market exposure may vary in time, it is expected to range between 50% and 150% of the Net Asset Value of the Fund, depending on the Investment Manager's analysis of the prevailing market conditions and considered in light of the investment objective of the Fund. These figures do not include derivatives relating to foreign exchange which may be used for hedging or investment purposes.

Generally, less than 5% of the Fund's Net Asset Value will be invested in cash and cash equivalents as described in the section of the Prospectus entitled **Cash and Cash Equivalents**, however from time to time and in certain market conditions the Fund may hold above this level.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as the commitment methodology to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. global exposure generated through the use of financial derivative instruments is limited to 100% of the Net Asset Value of the Fund when calculated using the commitment methodology. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	10%
SFTs	2%	10%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an 'equity' fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: US Dollars (USD);

Business Day: Every day that US Federal banks, the New York Stock Exchange and Hong Kong banks and exchanges are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;

Dealing Day: Weekly Dealing (usually Tuesday);

Please see the Holiday and Dealing Day Calendar which lists all non-Dealing Days for the Fund and is available at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change;

Settlement Date: For payment of Shares subscribed for, means no later than 4:00 p.m. New York time on the second Business Day following the Dealing Day on which the Shares were purchased. For payment of redemption proceeds, Settlement Date means a date usually within two Business Days, but not

more than ten Business Days, from the trade date in respect of a redemption request;

Investment Manager: Wellington Management Hong Kong Limited
 1401 Hutchison House
 10 Harcourt Road
 Hong Kong

RISK FACTORS

Potential investors’ attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Concentration
- Counterparty
- Currency
- Emerging Markets
- Equity
- Financial Derivatives Instruments
- Indian Rupee Repatriation Risk
- Investment in Russia
- Liquidity
- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subscription (in USD or equivalent*)	Subsequent (in USD or
S, T	USD 5 million	USD 1,000	
D, N	USD 5,000		

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid annually. Dividends will generally be declared on or about the last Business Day of the year for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below.

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee
-------------------------	------------------------------------	----------------------------------	-------------------------

S	N/A	1.00%	N/A
T	N/A	N/A	N/A
D	5%	1.00%	1.00%
N	N/A	1.00%	N/A

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N and D where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Emerging Markets Systematic Equity Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Emerging Markets Systematic Equity Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund against the MSCI Emerging Markets Index (the “Index”), seeking to achieve the objective by investing primarily in securities issued by companies domiciled in emerging market countries. Emerging markets countries are those countries included in the Index and any countries which are pending inclusion due to a reclassification by the Index provider. The Index is designed to measure large- and mid-cap equity market performance across global emerging markets.

In selecting the securities for investment, the Investment Manager will seek to capitalise on stock mispricing using a systematic risk-controlled approach. The investment model considers multiple factors for selecting stocks: a quantitative equity model to assess amongst other factors, fair value, earnings quality and short or long term momentum; a proprietary risk model; and a transaction cost model. These are used to systematically evaluate the forecasted attractiveness of individual investments. The Investment Manager combines the above outputs using a proprietary Fund construction model which automatically generates suggested trades for the Fund. All proposed trades are subject to a fiduciary review by the Investment Manager before implementation.

The Fund will invest, directly or through FDIs, in equity and other securities with equity characteristics, comprising investments in Real Estate Investment Trusts, convertible securities, warrants, depository receipts (such as ADRs, GDRs and European Depository Receipts) and market access products (comprising warrants on equities, options on equities and equity swaps). The Fund may invest up to 10% of its Net Asset Value in China A Shares traded via Stock Connect (see also the section entitled **Risks linked with dealing in securities in China via Stock Connect** in the Prospectus). The Fund will generally be well diversified by country, currency, industry, issuer and market capitalisation but may hold positions that are concentrated in this manner from time to time.

The Fund may invest in exchange traded funds (“ETFs”) that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such ETFs will be listed and/or traded on the markets and/or exchanges as set out in Appendix I of the Prospectus and regulated as UCITS or as AIF ETFs. No more than 5% of the Net Asset Value of the Fund will be invested in non-listed and non-traded collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter FDIs comprising the market access products mentioned above as well as currency forwards, index futures, or options on index futures, both long and short, to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the Prospectus in the section entitled **Types and Description of FDIs**.

The indices to which the Fund will gain exposure via such market access products will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

Generally less than 5% of the Fund's Net Asset Value will be invested in cash and cash equivalents as described in the Prospectus in the section entitled **Cash and Cash Equivalents**.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as relative VaR to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed twice the VaR of the Index. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage at a rate of between 0% - 330% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of the FDIs. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	10%
SFTs	2%	10%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an 'equity' fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Enduring Assets Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Enduring Assets Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective by investing globally, primarily in companies that own long-lived physical assets (such as companies in the utility, transportation, energy, real estate, and industrial sectors) that the Investment Manager believes possess an advantaged competitive position and that exhibit low levels of earnings volatility. No industry is formally excluded from the investment universe.

The Fund will invest, directly or through FDIs (set out in the Prospectus), in the following instruments in pursuit of the Fund's investment objective: equity securities or other FDIs or securities with equity characteristics (including securities issued through private placements as described in the section of the Prospectus entitled **Private Placements**) comprising preferred stocks, depository receipts (such as ADRs, GDRs and European Depository Receipts), market access products (including warrants on equities, options on equities and equity swaps) for securities issued by companies worldwide. These will be issued by developed and emerging market issuers that, while not located in an emerging market, conduct substantial business in emerging markets as determined by the Investment Manager, including (i) companies that have substantial assets in emerging markets; and (ii) companies that derive a substantial portion of their total revenues from either goods and services produced in, or sales made in, emerging markets. From time to time, the Investment Manager may perceive that there are opportunities to enhance total returns by investing, up to 10% of the net asset value of the Fund, in bonds issued by government, agency, and supranational issuers; corporate and REIT debt; convertible bonds; capital securities (securities that combine the features of corporate bonds and preferred stock) issued by public or private issuers, both fixed and floating rate. There will be no limitations on the credit quality of individual securities in the Fund and the Fund will invest in securities denominated in multiple currencies.

The Fund may invest in companies across the market-capitalisation spectrum and may have exposure to various currencies, however it may also be concentrated in industry sectors. Generally up to 10% of the Net Asset Value of the Fund will be invested in cash and cash equivalents as described in the Prospectus in the section entitled **Cash and Cash Equivalents**.

The Fund may make substantial investments in securities traded on Russian markets and may invest up to 10% of its Net Asset Value in China A Shares traded via Stock Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Stock Connect**).

The Fund may invest in exchange traded funds that invest in the types of securities listed above and which constitute an eligible investment for the Fund. These will be listed and/or traded on the markets and exchanges as set out in Appendix I of the Prospectus and may be transferable securities or collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter FDIs, both long and short, (such as warrants, futures contracts, options, swaps and deliverable and non-deliverable forward contracts) from

time to time as a means of indirectly gaining exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes (including to create or reduce exposures in certain countries or geographic regions and hedging against risk), as more fully described in the section of the Prospectus entitled **Types and Description of FDIs**.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as the commitment methodology to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The global exposure generated through the use of financial derivative instruments is limited to 100% of the Net Asset Value of the Fund when calculated using the commitment methodology. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	5%
SFTs	4%	25%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an 'equity' fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: US Dollars (USD);

Business Day: Every day that US Federal banks and the New York Stock Exchange are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;

Dealing Day: Each Business Day;

Please see the Holiday and Dealing Day Calendar which lists all non-Dealing Days for the Fund and is available at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change;

Dealing Deadline: The deadline for subscription, conversion and redemption orders to be received by the Transfer Agent is 2:00 pm Ireland time on the Dealing Day;

Settlement Date: For payment of Shares subscribed for, means no later than 4:00 p.m. New York time on the second Business Day following the Dealing Day on which the Shares were purchased. For payment of redemption proceeds, Settlement Date means a date usually within two Business Days, but not more than ten Business Days, from the trade date in respect of a redemption request;

Investment Manager: Wellington Management Company LLP
251 Little Falls Drive
Wilmington, Delaware 19808
USA

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Concentration
- Counterparty
- Currency
- Emerging Markets
- Equity
- Financial Derivatives Instruments
- Investment in Russia
- Liquidity
- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subscription (in USD or equivalent*)	Subsequent USD or
S, T, G	USD 5 million		
D, N, DL	USD 5,000	USD 1,000	
GD, GN	USD 5,000	N/A	

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their

own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class DL Shares are reserved for investors in certain markets, acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class DL Shares is payable.

Class G Shares (including the **Class GN and Class GD** Shares) are reserved for existing Shareholders whose previous Shares have been changed, and serves as a “grandfathered” Class enabling the Shareholders to remain invested without undergoing those changes. The G, GD and GN Classes in the Fund are only available to those investors that were holding Shares in the Fund as at 29 March 2019. A distribution fee is payable in respect of the GD Shares.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid annually. Dividends will generally be declared on or about the last Business Day of the year for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee, Distribution Fee and Performance Fee are each accrued daily in the Net Asset Value of the relevant Classes of Shares at the annual rate set out in the table below. The Investment Management Fee and Distribution Fee are paid quarterly in arrears whilst the Performance Fee, if applicable, is generally crystallized at the Fund’s fiscal year end and paid shortly thereafter. The Performance Fee Type applicable to this Fund is 'Hurdle'. Please refer to the Performance Fees section of the Prospectus for more detail.

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee	Performance Fee	Predefined Rate** (for Hurdle)
S	N/A	0.70%	N/A	N/A	N/A
T	N/A	N/A	N/A	N/A	N/A

D	5%	0.70%	0.75%	N/A	N/A
N	N/A	0.70%	N/A	N/A	N/A
DL	3%	0.70%	1.25%	N/A	N/A
G	N/A	0.60%	N/A	10%	8%
GD	5%	0.60%	0.75%	10%	8%
GN	N/A	0.60%	N/A	10%	8%

*Payable to financial adviser or intermediary

**The predefined rate is an additional amount added to the Hurdle which is set on a fund by fund basis and approved by the Directors.

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D DL and GN where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington European Contrarian Value Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington European Contrarian Value Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund seeking to achieve the objective by investing primarily in the equity and equity related securities of companies incorporated or operating in developed European markets.

The Fund strategy is driven by the belief that the market often pays too low of a price for negative near term business conditions. The Investment Manager uses fundamental analysis to build a portfolio of companies it believes represent attractive investments due to low price, low valuation and/or low market expectations, balanced by significant upside potential. Areas of opportunities tend to fall into one or more of the following four categories: misunderstood negative events, consolidating industry structure, undervalued assets that could be better managed, and low returns on capital with the opportunity to improve. Whilst contrarian, the Fund also has a value bias, looking at stocks that trade at a discount to their sectors and the market. The Investment Manager tends not to look for catalysts for change at the point of purchase, believing that by investing at extreme valuations, the catalysts will generally follow.

Although the Fund is not constructed relative to a benchmark, the MSCI Europe Index (the "Index") will serve as a reference benchmark. The Index is a market capitalisation weighted index that is designed to measure the equity market performance of the developed markets in Europe. Position sizes within the Fund are driven by their risk/reward profile and liquidity. The Fund's investment process emphasises bottom up security selection based on proprietary fundamental research at the stock and industry levels, with a long time horizon to provide the best opportunity to find and exploit inefficiencies.

The Fund may invest, either directly or indirectly through Financial Derivative Instruments ("FDIs"), in equity and other securities with equity characteristics, comprising shares, preferred stock, depository receipts (such as ADRs, GDRs and European Depository Receipts), convertible securities, investments in Real Estate Investment Trusts and market access products (comprising warrants, options on equities and equity swaps). The Fund may also hold securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)).

The Fund may invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds** and in exchange traded funds ("ETFs") that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such ETFs will be listed and/or traded on the markets and/or exchanges as set out in Appendix I of the Prospectus and regulated as UCITS or as AIF ETFs. No more than 5% of the Net Asset Value of the Fund will be invested in non-listed and non-traded collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter FDIs, both long and short, comprising the market access products mentioned above as well as index futures and currency forwards to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in

which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

Whilst the Fund may invest in companies across a broad spectrum of market capitalisations and will generally be diversified by country and sector, it may be concentrated from time to time. The Fund may invest in developed countries and any country which is considered by the Investment Manager to be an emerging market.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as the commitment methodology to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The global exposure generated through the use of financial derivative instruments is limited to 100% of the Net Asset Value of the Fund when calculated using the commitment methodology. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	5%
SFTs	2%	5%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an 'equity' fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Counterparty
- Currency
- Equity
- Financial Derivatives Instruments

- Liquidity
- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subscription (in USD or equivalent*)	Subsequent USD or
S, T	USD 5 million	USD 1,000	
D, N, DL	USD 5,000		

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class DL Shares are reserved for investors in certain markets, acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class DL Shares is payable.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100

respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid annually. Dividends will generally be declared on or about the last Business Day of the year for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below

Share Class Name	Maximum Charge*	Preliminary	Investment Management Fee	Distribution Fee
S	N/A		0.70%	N/A
T	N/A		N/A	N/A
D	5%		0.70%	0.70%
N	N/A		0.70%	N/A
DL	3%		0.70%	1.20%

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D and DL where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington FinTech Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington FinTech Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective by investing primarily in companies globally that leverage technology to enhance or disrupt traditional financial services.

The Investment Manager seeks to achieve the objective by investing in financial technology companies and/or companies where the key growth driver is to provide or use technology to deliver the next generation of financial services ("FinTech"). The digital transformation of the global financial services industry through the use of technology and data is increasingly becoming a driver of success for companies and is creating what the Investment Manager anticipates to be compelling investment opportunities. The Investment Manager believes such opportunities will generate positive returns over a longer time period than many market participants anticipate due to such factors as the inertia of consumer preferences which makes change slow, regulatory hurdles and the complexity of the industry which make it harder for new entrants to disrupt established companies. The Investment Manager further believes that its ability to combine financial and technology sector analysis and expertise is key to identifying the companies most likely to be long-term beneficiaries of change in this space. The Investment Manager will use the expertise of its centralised research platform to discover compelling opportunities for investment in companies globally within financial technology, in areas such as payment systems, investment and lending, and financial infrastructure. Assets for investment by the Fund are selected using fundamental, bottom-up, company specific analysis carried out by the Investment Manager. The analysis is focused on discovering technological leaders in the financial technology industry with attractive business models, better than expected long-term growth rates and management expertise.

Although the Fund is not constructed relative to a benchmark, the MSCI All Country World Index will serve as a reference benchmark and is used to provide market context. The Index is market capitalisation weighted and designed to measure the equity market performance of developed and emerging markets.

The Fund will invest either directly or indirectly through Financial Derivative Instruments ("FDIs"), in equity and other securities with equity characteristics, comprising shares, preferred stock, depository receipts (such as ADRs, GDRs and European Depository Receipts), convertible securities, warrants, rights, investments in Real Estate Investment Trusts and market access products (comprising warrants on equities, options on equities and equity swaps) for securities issued by developed and emerging market companies. The Fund may also hold securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)).

The Fund may invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds** and in exchange traded funds ("ETFs") that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such ETFs will be listed and/or traded on the markets and/or exchanges as set out in Appendix I of the

Prospectus and regulated as UCITS or as AIF ETFs. No more than 5% of the Net Asset Value of the Fund will be invested in non-listed and non-traded collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter FDIs comprising the market access products mentioned above as well as index futures and currency forwards, both long and short, to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The Fund takes an unconstrained approach to investing in FinTech companies across the capitalisation spectrum in developed and emerging markets globally, with sector and country allocations an outcome of the stock selection process. The Fund will be denominated in US Dollars and normally will not be hedged against currency fluctuations, although the Investment Manager may employ currency hedging to protect or enhance the value of the Fund's holdings when it believes it is advisable to do so.

The indices to which the Fund may gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

The Fund may invest in developed countries and any country which is considered by the Investment Manager to be an emerging market. These are primarily located in Latin/Central America and the Caribbean, Central and Eastern Europe, Middle East, Africa and Asia. The Fund may make limited investment in securities traded on Russian markets and may invest in China A Shares traded via Stock Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Stock Connect**).

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as the commitment methodology to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The global exposure generated through the use of financial derivative instruments is limited to 100% of the Net Asset Value of the Fund when calculated using the commitment methodology. Further information on the risk management method can be found in the Prospectus in the section of the Prospectus entitled **Financial Derivative Instruments (FDIs)**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	5%
SFTs	2%	10%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an 'equity' fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Concentration
- Counterparty
- Currency
- Emerging Markets
- Equity
- Financial Derivatives Instruments
- Investment in Russia
- Liquidity
- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subsequent Subscription (in USD or equivalent*)
S, T and E	USD 5 million	USD 1,000
D, N, DL, ED, EN and BN	USD 5,000	

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class DL Shares are reserved for investors in certain markets, acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class DL Shares is payable.

Class E Shares are available to certain investors until the total Net Asset Value of the Fund reaches USD150m or equivalent amount in another currency.

Class EN Shares are available to investors who are acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S or E Shares. EN Shares are available until the total Net Asset Value of the Fund reaches USD150m or equivalent amount in another currency. No distribution fee is paid in respect of the Class EN Shares.

Class ED Shares are available to investors who are acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee of up to 0.80% of the Net Asset Value attributable to the Class ED Shares is payable. ED Shares are available until the total Net Asset Value of the Fund reaches USD150m or equivalent amount in another currency.

Class BN Shares are reserved exclusively for clients of a financial intermediary, approved by the Company, that hold the Shares on behalf of underlying beneficial holders. No distribution fee is paid in respect of Class BN Shares, instead a higher investment management fee relative to other Share Classes is

applied, part of which is paid to the relevant intermediary holding these Share Classes to compensate them for distribution and/or shareholder services provided to underlying beneficial owners of these shares. For further details of such rebate arrangements, please refer to the **Investment Management Fees** sub-section in the **Charges and Expenses** section of the Prospectus.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid annually. Dividends will generally be declared on or about the last Business Day of the year for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below.

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee
S	N/A	0.80 %	N/A
T	N/A	N/A	N/A
D	5%	0.80%	0.80%
N	N/A	0.80%	N/A
DL	3%	0.80%	1.30%
E	N/A	0.55%	N/A
ED	5%	0.55%	0.80%
EN	N/A	0.55%	N/A
BN	5%	1.60%	N/A

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D DL, ED and EN where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Focused European Equity Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Focused European Equity Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective by investing primarily in the equity and equity related securities of companies domiciled or operating primarily in developed European markets.

The Fund will generally invest in the securities of companies that the Investment Manager believes have been mispriced, usually due to an overreaction to a prolonged period of negative news and an overemphasis on recent results, often with multiple earnings downgrades and depressed sentiment leading to stocks being priced as though earnings will never improve. In the Investment Manager's view, the market is inefficient at differentiating companies which are experiencing cyclical rather than more permanent difficulties. The Investment Manager combines behavioural finance analysis, in which the sentiment around a company is assessed, along with management credibility and fundamental research, which considers the strength of the company's balance sheet and its recovery prospects. Investment decisions will be based on a valuation framework which considers both upside return potential and downside risk. The Investment Manager generally buys shares in companies where the sentiment is in a state of pessimism or apathy (such as when there are few or no positive recommendations to buy the shares by equity analysts at the Investment Manager) but where they believe the impairment is cyclical, with a strong chance of recovery. The Investment Manager generally sells shares when the recovery becomes evident and the sentiment towards the stock becomes more optimistic, or alternatively where the conclusion of the fundamental research on the company has changed.

Although the Fund is not constructed relative to a benchmark, the MSCI Europe Index (the "Index") will serve as a reference benchmark. The Index is a market capitalisation weighted index that is designed to measure the equity market performance of the developed markets in Europe.

The Fund may invest, either directly or indirectly through Financial Derivative Instruments ("FDIs"), in equity and other securities with equity characteristics, comprising shares, preferred stock, warrants and rights, convertible securities and investments in Real Estate Investment Trusts depository receipts (such as ADRs, GDRs and European Depository Receipts), and market access products (comprising warrants on equities, options on equities and equity swaps). The Fund may also hold securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)).

The Fund may invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds** and in exchange traded funds ("ETFs") that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such ETFs will be listed and/or traded on the markets and/or exchanges as set out in Appendix I and regulated as UCITS or as AIF ETFs. No more than 5% of the Net Asset Value of the Fund will be invested in non-listed and non-traded collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter FDIs, comprising index and currency futures, currency forwards, equity options and partly paid securities to gain exposure to the instruments listed above, in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The Fund may be concentrated in industry sectors and/or countries and as a result, may be more volatile than more broadly diversified funds. The Fund will not normally be hedged against currency fluctuations, although the Investment Manager may employ currency hedging on an opportunistic basis when it believes it is advisable to do so.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as the commitment methodology to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The global exposure generated through the use of financial derivative instruments is limited to 100% of the Net Asset Value of the Fund when calculated using the commitment methodology. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	5%
SFTs	1%	5%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an 'equity' fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: the Euro;

Business Day: Every day that US Federal banks, the New York Stock Exchange and banks in England are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Global Health Care Equity Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Global Health Care Equity Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective by investing primarily in the equity securities of health care companies worldwide. The Fund's investment approach is based primarily on proprietary, bottom-up fundamental research conducted by the global health care analysts in the Investment Manager's Global Industry Analyst group. The Fund takes a long-term value approach to investing in fundamentally sound companies.

Although the Fund is not constructed relative to a benchmark, the MSCI World Health Care Index (the "Index") will serve as a reference benchmark. The Index is designed to capture the performance of Health Care sector securities in the large and mid-cap segments across developed markets.

Sub-sector weightings are primarily a residual of the stock selection process. The Fund will shift opportunistically among health care sub-sectors such as medical products, health services, major pharmaceuticals, specialty major pharmaceuticals, and specialty pharmaceuticals (e.g. genetic, biotech and animal).

The Fund will invest, either directly or indirectly through the use of FDIs, in equity securities or other securities with equity characteristics such as preferred stocks, warrants on equities, as well as depository receipts for such securities (ADRs traded in the United States markets and GDRs traded in markets in other countries), issued by companies active in the health care area worldwide. These investments may be made in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The Fund generally will not initiate new positions in the smallest market capitalisation companies in the health care sector. The market capitalisation floor for the Fund will typically be in the range of USD 1 billion to USD 1.5 billion but may fluctuate outside this range as market conditions shift over time. The securities of some medium and small companies, and securities of companies in countries with less well-developed economies and securities markets, are likely to be less liquid than those of large companies in developed markets.

The Fund will be well diversified by issuer. The Fund will be fully invested, with cash holdings kept to a minimum and held for ancillary liquid asset purposes only. The maximum holding in any one company will be 10% of the Fund's Net Asset Value at any time. Investments in securities of companies located outside the United States will typically comprise 10% to 50% of the Fund's assets. These non-US holdings may be representative of a broad range of non-US markets. No more than 20% of the Fund's Net Asset Value will be invested in markets which the Investment Manager considers to be emerging markets. Fund turnover is expected to be low to moderate. The Fund may invest up to 10% of its Net Asset Value in China A Shares traded via Stock Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Stock Connect**).

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as the commitment methodology to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The global exposure generated through the use of financial derivative instruments is limited to 100% of the Net Asset Value of the Fund when calculated using the commitment methodology. Further information on the risk management method can be found in the Prospectus in the section of the Prospectus entitled **Financial Derivative Instruments (FDIs)**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund's variability of return is expected to be very high, well above that of a more broadly diversified, global equity Fund. The Fund is suitable as an investment in a well-diversified portfolio.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	5%
SFTs	5%	10%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an 'equity' fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective by investing primarily in global equities, focusing on companies whose core business, in the opinion of the Investment Manager, aims to generate social and/or environmental change alongside a financial return.

The Fund will seek to identify the universe of these companies based on three primary impact categories: life essentials, human empowerment, and the environment. Within these categories, the Fund will aim to diversify across "Impact Themes" including, but not limited to, sustainable agriculture and nutrition, clean water and sanitation, health, affordable housing, education and job training, financial inclusion, digital divide, safety and security, alternative energy, resource stewardship, and resource efficiency. The Investment Manager will aim to select companies whose core products and services align with any one or a combination of different Impact Themes, whose social and/or environmental impact is quantifiable and where fundamental analysis supports a long-term return. The Fund may hold concentrated positions within an Impact Theme and is expected to have a natural bias towards small to mid-capitalisation companies that are experiencing strong growth. Whilst the Fund will generally be well diversified by country, currency, industry and issuer, it may hold positions that are concentrated in this manner from time to time.

Although the Fund is not constructed relative to a benchmark, the MSCI All Country World Index (the "Index") will serve as a reference benchmark. The Index is market capitalisation weighted and designed to measure the equity market performance of developed and emerging markets.

The Fund will invest either directly or indirectly through Financial Derivative Instruments ("FDIs"), in equity and other securities with equity characteristics, comprising shares, preferred stock, depository receipts (such as ADRs, GDRs and European Depository Receipts), convertible securities, warrants, investments in Real Estate Investment Trusts and market access products (comprising warrants on equities, options on equities and equity swaps) for securities issued by developed and emerging market companies. The Fund may also hold interests in limited partnerships and master limited partnerships as described in the section of the Prospectus entitled Master Limited Partnerships and securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)).

The Fund will generally invest in developed countries, and may invest up to 40% of its Net Asset Value in any country which is considered by the Investment Manager to be an emerging market or a frontier market. These are primarily located in Latin/Central America and the Caribbean, Central and Eastern Europe, Middle East, Africa and Asia. The Fund may make a limited investment in securities traded on Russian markets and may invest up to 10% of its Net Asset Value in China A Shares traded via Stock Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Stock Connect**).

The Fund may also invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds** and in exchange traded funds (“ETFs”) that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such ETFs will be listed and/or traded on the markets and/or exchanges as set out in Appendix I of the Prospectus and regulated as UCITS or as AIF ETFs. No more than 5% of the Net Asset Value of the Fund will be invested in non-listed and non-traded collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter FDIs, both long and short, comprising the market access products mentioned above as well as index futures and currency forward contracts to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

Generally less than 10% of the Fund’s Net Asset Value will be invested in cash and cash equivalents as described in the section of the Prospectus entitled **Cash and Cash Equivalents**.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as the commitment methodology to assess the Fund’s market risk to seek to ensure that its use of FDIs is within regulatory limits. The global exposure generated through the use of financial derivative instruments is limited to 100% of the Net Asset Value of the Fund when calculated using the commitment methodology. Further information on the risk management method can be found in the Prospectus in the section of the Prospectus entitled **Financial Derivative Instruments (FDIs)**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund’s Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	5%
SFTs	2.5%	5%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an 'equity' fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section **entitled German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: US Dollars (USD);

Business Day: Every day that US Federal banks and the New York Stock Exchange are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;

Dealing Day: Each Business Day;

Please see the Holiday and Dealing Day Calendar which lists all non-Dealing Days for the Fund and is available at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change;

Dealing Deadline: The deadline for subscription, conversion and redemption orders to be received by the Transfer Agent is 2:00 pm Ireland time on the Dealing Day;

Settlement Date: For payment of Shares subscribed for, means no later than 4:00 p.m. New York time on the second Business Day following the Dealing Day on which the Shares were purchased. For payment of redemption proceeds, Settlement Date means a date usually within two Business Days, but not

more than ten Business Days, from the trade date in respect of a redemption request;

Initial Offer Period: The Initial Offer Period for the Class BN Shares will commence on 2 December 2019 and will close on 2 June 2020;

Investment Manager: Wellington Management Company LLP
251 Little Falls Drive
Wilmington, Delaware 19808
USA

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Concentration
- Counterparty
- Currency
- Emerging Markets
- Equity
- Financial Derivatives Instruments
- Investment in Russia
- Liquidity
- Market
- Operational Risk

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Classes	Share	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subscription (in USD or equivalent*)	Subsequent (in USD or
S, T		USD 5 million		
D, N, DL, BN		USD 5,000	USD 1,000	

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class DL Shares are reserved for investors in certain markets, acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class DL Shares is payable.

Class BN Shares are reserved exclusively for clients of a financial intermediary, approved by the Company, that hold the Shares on behalf of underlying beneficial holders. No distribution fee is paid in respect of Class BN Shares, instead a higher investment management fee relative to other Share Classes is applied, part of which is paid to the relevant intermediary holding these Share Classes to compensate them for distribution and/or shareholder services provided to underlying beneficial owners of these shares. For further details of such rebate arrangements, please refer to the **Investment Management Fees** sub-section in the **Charges and Expenses** section of the Prospectus.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid annually. Dividends will generally be declared on or about the last Business Day of the year for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below

Share Class Name	Maximum Charge*	Preliminary	Investment Management Fee	Distribution Fee
S	N/A		0.65%	N/A
T	N/A		N/A	N/A
D	5%		0.65%	0.65%
N	N/A		0.65%	N/A
DL	3%		0.65%	1.05%
BN	5%		1.30%	N/A

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D and DL where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Global Perspectives Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Global Perspectives Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund against the MSCI All Countries World Small Cap Index (the "Index"), seeking to achieve the objective by investing globally, primarily in small to mid-capitalisation companies with a market capitalisation of typically below \$10bn at the time of initial purchase. The Index is a market capitalisation weighted index designed to measure equity market performance of smaller companies in both developed and emerging markets.

The Investment Manager follows a multi-disciplinary investment process for selecting stocks. A macroeconomic assessment is used in conjunction with a quantitative model which looks at factors such as fair value, earnings quality, risks and transaction costs to narrow the investment universe. Fundamental bottom up stock picking is then used by the Investment Manager to construct the final Fund.

The Fund will invest either directly or indirectly through Financial Derivative Instruments ("FDIs"), in equity and other securities with equity characteristics, comprising shares, preferred stock, depository receipts (such as ADRs, GDRs and European Depository Receipts), convertible securities, warrants, investments in Real Estate Investment Trusts and market access products (comprising warrants on equities, options on equities and equity swaps) for securities issued by developed and emerging market companies. The Fund may also hold interests in master limited partnerships as described in the section of the Prospectus entitled **Master Limited Partnerships** and securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)).

The Fund may invest in developed countries and any country which is considered by the Investment Manager to be an emerging market. These are primarily located in Latin/Central America and the Caribbean, Central and Eastern Europe, Middle East, Africa and Asia. The Fund may make a limited investment in securities traded on Russian markets and may invest up to 10% of its Net Asset Value in China A Shares traded via Stock Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Stock Connect**). The Fund will be well diversified by country, currency, industry and issuer but may hold positions that are concentrated in this manner from time to time.

The Fund may also invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds** and in exchange traded funds ("ETFs") that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such ETFs will be listed and/or traded on the markets and/or exchanges as set out in Appendix I of the Prospectus and regulated as UCITS or as AIF ETFs. No more than 5% of the Net Asset Value of the Fund will be invested in non-listed and non-traded collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter FDIs, both long and short, comprising the market access products mentioned above as well as index futures and currency forward contracts to

gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

Generally less than 5% of the Fund's Net Asset Value will be invested in cash and cash equivalents as described in the section of the Prospectus entitled **Cash and Cash Equivalents**.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as relative VaR to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed twice the VaR of the Index. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage at a rate of between 0%-330% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of the FDIs. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	5%
SFTs	2%	5%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an 'equity' fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Counterparty
- Currency
- Emerging Markets
- Equity
- Financial Derivatives Instruments
- Investment in Russia
- Liquidity
- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subscription (in USD or equivalent*)	Subsequent USD or
S, T	USD 5 million	USD 1,000	
D, N, DL	USD 5,000		

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class DL Shares are reserved for investors in certain markets, acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class DL Shares is payable.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid annually. Dividends will generally be declared on or about the last Business Day of the year for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below

Share Class Name	Maximum Charge*	Preliminary	Investment Management Fee	Distribution Fee
S	N/A		0.90%	N/A
T	N/A		N/A	N/A
D	5%		0.90%	0.90%
N	N/A		0.90%	N/A
DL	3%		0.90%	1.30%

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D and DL where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Global Property Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Global Property Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective through investment primarily in equities of issuers with activities in or related to the development, operation, service and/or ownership of real estate, such as homebuilders, lodging, multi-family housing, retail real estate, office properties and property service companies. The Fund may also invest in other issuers that have a significant exposure to real estate through ownership of real estate assets.

Although the Fund is not constructed relative to a benchmark, the FTSE EPRA/NAREIT Developed Index (the "Index") will serve as a reference benchmark. The Index is designed to track the performance of listed real estate companies and Real Estate Investment Trusts ("REITs") worldwide.

The Fund will invest, directly or through FDIs, in the following instruments in pursuit of the Fund's investment objective: equity securities or securities with equity characteristics which comprise preferred stock, rights and warrants on equities issued by either REITs or the issuers described above as well as depository receipts (such as ADRs, GDRs and European Depository Receipts) and market access products (including warrants on equities, options on equities and equity swaps). It is expected that the Fund will invest predominantly in securities issued by developed market issuers but may also invest in securities issued by issuers located in what the Investment Manager considers to be emerging markets. The Fund may invest in securities across the market capitalisation spectrum, and may have exposure to various currencies. The Fund may also hold securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)). The Fund may invest up to 10% of its Net Asset Value in China A Shares traded via Stock Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Stock Connect**).

The Fund may also hold debt securities including corporate bonds, mortgage backed securities (including "to-be-announced" securities, as more fully described under the section of the Prospectus entitled **Types and Description of FDIs**) commercial mortgage backed securities, REIT debt (comprising bonds and convertible bonds issued by REITs), both fixed and floating rate, preferred securities and hybrid securities comprising convertible securities as more fully described in the section of the Prospectus entitled **Types and Description of FDIs** issued by public or private issuers. There will be no limitations on the credit quality of individual debt securities in the Fund and the Fund will invest in securities denominated in multiple currencies.

The Fund is expected to be reasonably diversified across geographic regions and real estate sub-sectors (for example retail, office, warehouse).

As an alternative means of gaining exposure to the markets and instruments listed above, the Fund may invest in exchange traded funds which constitute an eligible investment for the Fund. These will be listed and/or traded on the markets and exchanges as set out in Appendix I of the Prospectus and may be transferable securities or collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter FDIs, both long and short, comprising equity options, index futures and options on futures and currency forwards to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

Generally less than 10% of the Fund's Net Asset Value will be invested in cash and cash equivalents as described in the section of the Prospectus entitled **Cash and Cash Equivalents**.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as the commitment methodology to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The global exposure generated through the use of financial derivative instruments is limited to 100% of the Net Asset Value of the Fund when calculated using the commitment methodology. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	10%
SFTs	5%	20%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an 'equity' fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

Dealing Deadline: The deadline for subscription, conversion and redemption orders to be received by the Transfer Agent is 2:00 pm Ireland time one day prior to the Dealing Day (T-1), provided that day is also a Dealing Day. Where this is not a Dealing Day, the Dealing Deadline will default to the prior Dealing Day;

Settlement Date: For payment of Shares subscribed for, means no later than 4:00 p.m. New York time on the second Business Day following the Dealing Day on which the Shares were purchased. For payment of redemption proceeds, Settlement Date means a date usually within two Business Days, but not more than ten Business Days, from the trade date in respect of a redemption request;

Investment Manager: Wellington Management Company LLP
251 Little Falls Drive
Wilmington, Delaware 19808
USA

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated

with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Concentration
- Counterparty
- Currency
- Financial Derivatives Instruments
- Market
- Operational Risk
- Real Estate Investment Trusts
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Classes	Share	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subscription (in USD or equivalent*)	Subsequent (in USD or
S, T		USD 5 million		
D, N		USD 5,000	USD 1,000	

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude

them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid annually. Dividends will generally be declared on or about the last Business Day of the year for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee
S	N/A	0.75%	N/A
T	N/A	N/A	N/A
D	5%	0.75%	0.75%
N	N/A	0.75%	N/A

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N and D where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Global Quality Equity Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Global Quality Equity Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund against the MSCI World Index (the “Index”), seeking to achieve the objective by investing primarily in large-cap high quality companies around the world. The Index is market capitalisation weighted and is designed to measure equity market performance of developed markets.

These companies will typically exhibit a commitment to dividends and shareholder returns as well as improving or sustainable operating characteristics. The core of our philosophy is that quality companies in out-of-favour industries can generate superior returns on invested capital. In defining quality, our process seeks stocks of companies with strong balance sheets, talented management teams, and a culture of innovation. This is a fundamental bottom-up approach.

The Fund will invest, either directly or indirectly through the use of FDIs, in equity and other securities with equity characteristics, comprising shares, preferred stocks, depository receipts (such as ADRs, GDRs and European Depository Receipts), convertible securities, warrants, investments in Real Estate Investment Trusts and market access products (comprising warrants on equities, options on equities and equity swaps) for securities issued by developed and emerging market companies. The Fund may also hold securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)).

The Fund may invest in developed countries and any country which is considered by the Investment Manager to be an emerging market. These are primarily located in Latin/Central America and the Caribbean, Central and Eastern Europe, Middle East, Africa and Asia. The Fund may invest up to 10% of its Net Asset Value in China A Shares traded via Stock Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Stock Connect**). The Fund will be well diversified by country, currency, industry and issuer but may hold positions that are concentrated in this manner from time to time.

The Fund may also invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds** and in exchange traded funds (“ETFs”) that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such ETFs will be listed and/or traded on the markets and/or exchanges as set out in Appendix I of the Prospectus and regulated as UCITS or as AIF ETFs. No more than 5% of the Net Asset Value of the Fund will be invested in non-listed and non-traded collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter FDIs, both long and short, comprising the market access products listed above as well as index futures and currency forwards in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as relative VaR to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed twice the VaR of the Index. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage at a rate of between 0%-330% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of the FDIs. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	5%
SFTs	2%	5%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an 'equity' fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Global Stewards Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Global Stewards Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund against the MSCI All Country World Index (the "Index"), seeking to achieve the objective by investing primarily in large capitalisation companies worldwide which, in the opinion of the Investment Manager, are considered 'global stewards'. The Investment Manager defines stewardship as how companies balance the interests of all stakeholders (e.g. clients, shareholders, employees) in the pursuit of long-term growth as well as how they incorporate material environmental, social and governance ("ESG") risks and opportunities in their corporate strategy, although it does not necessarily mean that the core business of the company is ESG related. The Index is market capitalisation weighted and designed to measure the equity market performance of developed and emerging markets.

The Fund's investment approach is based equally on proprietary, bottom-up fundamental research conducted by the Investment Manager's global industry research team and insights from its ESG analysts. The Investment Manager considers the investment universe (large capitalisation global equities), sector-by-sector, looking for companies with strong long-term fundamentals with an emphasis on high and persistent financial returns. The Investment Manager then places an emphasis on the following company attributes: (i) a proven track record of effective capital allocation, (ii) trustworthy stewardship (e.g. increased transparency, aligned incentives, better governance and realistic assessment of long term risks and opportunities) and (iii) confidence that a wide gap between return on capital and cost of capital can be sustained. The Investment Manager then consults its ESG analysts for insight on material factors of differentiation between companies within regional and sector peer groups. Furthermore ESG analysts support the Investment Manager's ability to identify global best practices, prepare for company engagement, collaborate on new research paths, and vote proxies.

The Fund will invest either directly or indirectly through Financial Derivative Instruments ("FDIs"), in equity and other securities with equity characteristics, comprising shares, preferred stock, depository receipts (such as ADRs, GDRs and European Depository Receipts), convertible securities, warrants, investments in Real Estate Investment Trusts and market access products (comprising warrants on equities, options on equities and equity swaps) for securities issued by developed and emerging market companies. The Fund may also hold securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)).

The Fund may invest in developed countries and up to 20% of its Net Asset Value in countries which are considered by the Investment Manager to be emerging markets. These are primarily located in Latin/Central America and the Caribbean, Central and Eastern Europe, Middle East, Africa and Asia. The Fund may make a limited investment in securities traded on Russian markets and may invest up to 10% of its Net Asset Value in China A Shares traded via Stock Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Stock Connect**). The Fund will be well diversified by country, currency, industry and issuer but may hold positions that are concentrated in this manner from time to time.

The Fund may also invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds** and in exchange traded funds (“ETFs”) that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such ETFs will be listed and/or traded on the markets and/or exchanges as set out in Appendix I of the Prospectus and regulated as UCITS or as AIF ETFs. No more than 5% of the Net Asset Value of the Fund will be invested in non-listed and non-traded collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter FDIs, both long and short, comprising the market access products mentioned above as well as index futures and currency forward contracts to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

Generally less than 5% of the Fund’s Net Asset Value will be invested in cash and cash equivalents as described in the section of the Prospectus entitled **Cash and Cash Equivalents**.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as the commitment methodology to assess the Fund’s market risk to seek to ensure that its use of FDIs is within regulatory limits. The global exposure generated through the use of financial derivative instruments is limited to 100% of the Net Asset Value of the Fund when calculated using the commitment methodology. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund’s Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

Exposure to Securities Financing Transactions (“SFTs”)

The Fund’s expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	5%
SFTs	2%	5%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an 'equity' fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund against the MSCI Europe Small Cap Index (the "Index"), seeking to achieve the objective by investing primarily in the equity and equity related securities of small capitalisation companies domiciled or operating in developed European markets. The Index is a market capitalisation weighted index that is designed to measure the equity market performance of small capitalisation developed market equities in Europe. For the purposes of this Fund, the Investment Manager defines small capitalisation companies as those whose market capitalisation is within the range of companies in the Index at the time of purchase, and developed markets as those included within the Index.

The Investment Manager considers that whilst in the long term, share prices reflect the fundamentals of underlying businesses, in the short term markets may misprice securities, particularly in small cap companies where company research is less comprehensive. The Investment Manager specifically looks for companies they consider to be high quality due to their higher profitability and attractive growth prospects with the view that markets may have underestimated the durability of these qualities. In the Investment Manager's view, quality transcends both defensive and cyclical businesses and the Fund may invest in companies exhibiting stable growth as well as companies with a proven ability to grow earnings through the economic cycle. Using a disciplined approach to fundamental research and valuation the Investment Manager aims to exploit anomalies such as these, focusing on companies with attributes such as the ability to grow faster than the market through a combination of attractive industry structure, company specific growth drivers and sustainable competitor advantage, companies with strong balance sheets and low volatility of earnings and good management who allocate company capital effectively.

The Fund may invest, either directly or indirectly through Financial Derivative Instruments ("FDIs"), in equity and other securities with equity characteristics, comprising shares, preferred stock, warrants and rights, depository receipts (such as ADRs, GDRs and European Depository Receipts), convertible securities and investments in Real Estate Investment Trusts. The Fund may also hold securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)).

The Fund may invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds** and in exchange traded funds ("ETFs") that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such ETFs will be listed and/or traded on the markets and/or exchanges as set out in Appendix I of the Prospectus and regulated as UCITS or as AIF ETFs. No more than 5% of the Net Asset Value of the Fund will be invested in non-listed and non-traded collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter FDIs, comprising index futures and currency forwards to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types

of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The Fund will generally be well diversified by country, industry and issuer; however it may hold positions that are concentrated in this manner from time to time. The Fund will not normally be hedged against currency fluctuations, although the Investment Manager may employ currency hedging on an opportunistic basis when it believes it is advisable to do so.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as relative VaR to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed twice the VaR of the Index. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage at a rate of between 0%-330% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of the FDIs. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund invests in securities of smaller companies which may be less liquid, more volatile and tend to carry greater financial risk than securities of larger companies. The Fund is suitable as an investment in a well-diversified portfolio.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	5%
SFTs	2.5%	5%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an 'equity' fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: the Euro;

Business Day: Every day that US Federal banks, the New York Stock Exchange and banks in England are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;

Dealing Day: Each Business Day;

Please see the Holiday and Dealing Day Calendar which lists all non-Dealing Days for the Fund and is available at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change;

Dealing Deadline: The deadline for subscription, conversion and redemption orders to be received by the Transfer Agent is 2:00 pm Ireland time on the Dealing Day;

Settlement Date: For payment of Shares subscribed for, means no later than 4:00 p.m. New York time on the second Business Day following the Dealing Day on which the Shares were purchased. For payment of redemption proceeds, Settlement Date means a date usually within two Business Days, but not more than ten Business Days, from the trade date in respect of a redemption request;

Investment Manager: Wellington Management International Ltd.
Cardinal Place
80 Victoria Street
London SW1E 5JL

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Counterparty
- Currency
- Equity
- Financial Derivatives Instruments
- Liquidity
- Market
- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Classes	Share	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subscription (in USD or equivalent*)	Subsequent (in USD or
S, T		USD 5 million		
D, N, DL		USD 5,000	USD 1,000	

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class DL Shares are reserved for investors in certain markets, acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class DL Shares is payable.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid annually. Dividends will generally be declared on or about the last Business Day of the year for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below.

Share Class Name	Maximum Charge*	Preliminary	Investment Management Fee	Distribution Fee
S	N/A		0.70%	N/A
T	N/A		N/A	N/A
D	5%		0.70%	0.70%
N	N/A		0.70%	N/A
DL	3%		0.70%	1.20%

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee

that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D and DL where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Strategic European Equity Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Strategic European Equity Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective by investing predominantly in a diversified portfolio of European-domiciled companies that the Investment Manager believes will enjoy earnings and cash flow growth that are greater than the average earnings and cash flow growth of constituents of the MSCI Europe Index (the "Index"). The Index is a market capitalisation weighted index that is designed to measure the equity market performance of the developed markets in Europe.

The Fund will generally invest in companies where (1) the Investment Manager is able to identify a structural growth driver (2) the company is able to perpetuate through a strong competitive advantage and (3) the relative valuation is attractive. The Investment Manager employs a bottom-up stock selection process that utilises its proprietary, fundamental research to identify stocks that have the potential for significant longer-term rewards.

Although the Fund is not constructed relative to a benchmark, the Index will serve as a reference benchmark.

The Fund may invest, directly or indirectly through the use of FDIs (both long and short), in equity and other securities with equity characteristics issued by the companies described above, such as shares, preferred stock, warrants, depository receipts (such as ADRs, GDRs and European Depository Receipts), dividend right certificates (i.e. equity securities that confer the right to participate in profit and liquidation proceeds and certain other rights in the issuer, but do not confer voting rights) and shares of listed Real Estate Investment Trusts constituted as Closed End Funds that are considered to be Transferable Securities. These investments may be made in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

Provided such investments are deemed by the Investment Manager to be consistent with the investment objective and investment strategy described above, the Fund may also invest in other securities such as: exchange-traded funds qualifying as collective investment schemes (such exchange-traded funds being subject to a maximum of 10% of the Net Asset Value of the Fund); and cash and cash equivalents as described in the section of the Prospectus entitled **Cash and Cash Equivalents**.

The Fund is expected to be reasonably diversified, generally holding 50 to 80 securities. Sector, country and region weights are a result of bottom-up security selection and are typically unconstrained. For the purposes of this Fund, an emerging market is one that the Investment Manager considers to be an emerging market. Generally the Fund will be fully invested with a normal cash level of 5% or less. The Fund may invest up to 10% of its Net Asset Value in emerging markets.

The Fund will be denominated in Euros and normally will not be hedged against currency fluctuations, although the Investment Manager may employ currency hedging to protect or enhance the Euro value of its holdings when it believes it is advisable to do so.

Not more than 10% of the Fund's Net Asset Value will be invested in any such securities which are not listed or dealt on a market which is regulated, operating regularly, recognised and open to the public and included in the list of exchanges and markets set out in Appendix I of the Prospectus from time to time.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as the commitment methodology to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The global exposure generated through the use of financial derivative instruments is limited to 100% of the Net Asset Value of the Fund when calculated using the commitment methodology. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	5%
SFTs	1%	5%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an 'equity' fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Universal Vision Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Universal Vision Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund against the MSCI All Country World Index (the "Index"), seeking to achieve the objective by investing primarily in equity and equity-related securities of companies worldwide. The Index is market-capitalisation weighted and designed to measure the equity market performance of developed and emerging markets.

The Investment Manager seeks to provide actively risk-managed exposure to multiple equity 'factors'. Factors are common characteristics (for example, including but not limited to company valuation, company earnings growth, share price volatility) that apply to a group of issuers or securities and that are important in explaining the returns and risks of those issuers' securities. The Investment Manager will also consider environmental, social and governance ("ESG") ratings when determining allocations to individual companies, although the core business of these companies will not necessarily be ESG related.

The Investment Manager employs a multi-factor approach based on its own quantitative and qualitative research and analysis and will seek to:

- Determine the factors to which it will seek exposure, and the percentage of the Fund's assets that will be allocated to securities representing those factors, with primary emphasis on providing exposure to factors summarised by the following themes:
 - Mean-reversion - the idea that market prices eventually return to a mean or average price. For example, by evaluating factor indicators such as earnings and cash flows in the context of company valuation or share price, the Investment Manager can identify securities that it believes are undervalued. An example of a factor within this theme is low share price relative to a company's earnings.
 - Trend-following - the idea that strong areas of the market will remain strong. For example, by evaluating factor indicators such as earnings and share price, the Investment Manager can identify securities that it believes will continue to demonstrate strength. An example of a factor within this theme is positive revisions to a company's forecasted earnings.
 - Risk-aversion - the idea that investors will choose the least risky alternative when selecting between similar investments. For example, by evaluating factor indicators such as low share price volatility or corporate profitability, the Investment Manager can identify securities that it believes will continue to demonstrate stability. An example of a factor within this theme is low price volatility.
 - Risk-seeking - the idea that higher risk investments are typically more volatile and are not generally associated with long-term capital appreciation. Whilst not a core allocation the Investment Manager may from time to time allocate to risk-seeking factors which may significantly outperform in the short-to-medium term and play a structural role in

managing the overall risk exposure of the Fund. An example of a factor within this theme is high beta (beta is a measure of price volatility relative to the market).

- Actively manage the risk exposure of the Fund by allocating the Fund's assets to equity securities representing multiple factors that are believed to be complementary from an overall risk perspective. For example, the Investment Manager would seek to limit exposure to factors that allocate to the same or similar securities within a region, instead looking to add exposure to factors that together provide a more diversified portfolio of securities.
- Scale the percentage of the Fund's assets allocated to each security based on the security's ESG rating, with lower ratings meaning a decreased allocation and higher ratings meaning an increased allocation. A low ESG rating will not necessarily result in the exclusion of an issuer or security from the investment universe.

The Fund will invest either directly or indirectly through Financial Derivative Instruments ("FDIs"), in equity and other securities with equity characteristics, comprising shares, preferred stock, depository receipts (such as ADRs, GDRs and European Depository Receipts), convertible securities, warrants, investments in Real Estate Investment Trusts and market access products (comprising warrants on equities, options on equities and equity swaps) for securities issued by developed and emerging market companies. The Fund may also hold securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)).

The Fund may invest in developed countries and up to 25% of its Net Asset Value in emerging market countries (as defined by MSCI). The Fund may make a limited investment in securities traded on Russian markets and may invest up to 10% of its Net Asset Value in China A Shares traded via Stock Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Stock Connect**). The Fund will be well diversified by country, currency, industry and issuer but may hold positions that are concentrated in this manner from time to time.

The Fund may also invest in collective investment schemes as described in the section of the Prospectus entitled Investment in Other Investment Funds and in exchange traded funds ("ETFs") that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such ETFs will be listed and/or traded on the markets and/or exchanges as set out in Appendix I of the Prospectus and regulated as UCITS or as AIF ETFs. No more than 5% of the Net Asset Value of the Fund will be invested in non-listed and non-traded collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter FDIs, both long and short, comprising the market access products mentioned above as well as index futures and currency forward contracts to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

Generally less than 5% of the Fund's Net Asset Value will be invested in cash and cash equivalents as described in the section of the Prospectus entitled **Cash and Cash Equivalents**, subject to a maximum 10% of Net Asset Value of the Fund.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as relative VaR to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed twice the VaR of the Index. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage at a rate of between 0%-330% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of the FDIs. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
---------------------	----------	---------

Total return swaps	0%	5%
SFTs	1%	5%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an ‘equity’ fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: US Dollars (USD);

Business Day: Every day that US Federal banks and the New York Stock Exchange are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Concentration
- Counterparty
- Currency
- Emerging Markets
- Equity
- Financial Derivatives Instruments
- Investment in Russia
- Liquidity
- Market
- Operational Risk
- Reliance on the Investment Manager
- Technology and Data

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subscription (in USD or equivalent*)	Subsequent (in USD or
S, T	USD 5 million	USD 1,000	
D, N	USD 5,000		

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid annually. Dividends will generally be declared on or about the last Business Day of the year for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below.

Share Class Name	Maximum Charge*	Preliminary	Investment Management Fee	Distribution Fee
S	N/A		0.17%	N/A
T	N/A		N/A	N/A
D	5%		0.17%	0.50%
N	N/A		0.17%	N/A

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N and D where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington US Capital Appreciation Equity Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington US Capital Appreciation Equity Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective by investing primarily in equity securities of US companies.

The Fund's investment approach is based primarily on proprietary, bottom-up fundamental research conducted by the Investment Manager's capital appreciation team and global industry analysts. The security selection universe shall not be constrained by market capitalisation, security valuation or seasoning, or similar characteristics. The Fund will include securities of small and mid-cap companies, as well as large cap companies. Fund characteristics and turnover may vary widely as investment strategies and stock selections change.

At least 90% of such securities are expected to be traded in a country that is a member of the OECD. It is likely that the typical holding will be less marketable than the stocks of larger companies. The Fund may invest up to 10% of its Net Asset Value in China A Shares traded via Stock Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Stock Connect**).

The Fund will be broadly diversified by issuer, and typically include 70 to 110 securities. Fund turnover may be high.

The Fund will invest, either directly or indirectly through the use of FDIs, in equity securities including depository receipts (such as ADRs) and other securities with equity characteristics, such as preferred stocks, warrants, convertible securities, as well as depository receipts for such securities (i) issued by companies headquartered in the United States or (ii) issued by companies exercising their primary economic activities in the United States. Up to 20% of the Fund's Net Asset Value may be invested in equities of other companies or depository receipts (such as GDRs) for such companies. These investments may be made in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as the commitment methodology to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The global exposure generated through the use of financial derivative instruments is limited to 100% of the Net Asset Value of the Fund when calculated using the commitment methodology. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage.

Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

Exposure to Securities Financing Transactions ("SFTs")

The Fund’s expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	5%
SFTs	2%	5%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an ‘equity’ fund pursuant to Sec. 2(6). Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 3 March 2020

Wellington US Dynamic Equity Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington US Dynamic Equity Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective by investing primarily in a concentrated, high conviction portfolio of equity securities of US companies in combination with broad U.S. market exposure as represented by the S&P 500 Index (the "Index").

The Fund's investment in individual companies is based on the belief that changes in earnings expectations drive stock prices. The individual companies in the portfolio will generally be those that are demonstrating earnings growth at accelerating or sustained high levels, and therefore the portfolio may have a natural growth style bias. The amount of the portfolio dedicated to individual companies fluctuates per the Investment Manager's highest conviction at a particular time. Companies selected will be those trading at valuations that the Investment Manager views as reasonable based on a company's future earnings and growth trajectory versus the market. Therefore the number of such companies varies over time as a result of market and company valuations, expected economic growth and individual company fundamentals. The residual proportion of the portfolio that is not invested in individual equity securities will be invested in the broad market with exposure primarily taken using S&P 500 index futures and this exposure will vary over time, however the Fund will maintain at least 10% of the portfolio in individual equity securities. The Fund will invest in securities across all market capitalizations and sectors and turnover may vary widely as stock selections change. The Fund may also hold up to 10% of net asset value in non-US companies, including those in emerging markets, from time to time.

Although the Fund is not constructed relative to a benchmark, the Index will serve as a reference benchmark. The Index is designed to measure performance of the broader US equity market.

The Fund may invest, either directly or indirectly through Financial Derivative Instruments ("FDIs"), in equity and other securities with equity characteristics, comprising shares, preferred stock, warrants and rights, convertible securities and investments in Real Estate Investment Trusts, depository receipts (such as ADRs, GDRs and European Depository Receipts), and market access products (comprising warrants on equities, options on equities and equity swaps). The use of FDIs' forms an important part of the investment strategy and the Fund is expected to have significant exposures to cash and/or liquid fixed income securities for collateral and cash management purposes and as a result up to 90% of the Fund's Net Asset Value may be invested in cash and cash equivalents as described in the section of the Prospectus entitled **Cash and Cash Equivalents**. The Fund may also hold securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)).

The Fund may buy and sell exchange-traded and over-the-counter FDIs comprising the market access products mentioned above, as well as index futures and currency forwards to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled Types and Description of FDIs.

The Fund may be concentrated in a relatively small number of securities, industry sectors and/or countries and as a result, may be more volatile than more broadly diversified funds. The Fund will not normally be hedged against currency fluctuations, although the Investment Manager may employ currency hedging on an opportunistic basis to protect or enhance the value of the Fund's holdings when it believes it is advisable to do so.

The indices to which the Fund may gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as relative VaR to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed twice the VaR of the Index. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage at a rate of between 0%-400% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of the FDIs. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	0%	5%
SFTs	10%	100%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as a 'mixed' fund pursuant to Sec. 2(7).

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

- Operational Risk
- Reliance on the Investment Manager

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subscription (in USD or equivalent*)	Subsequent (in USD or equivalent*)
S, T	USD 5 million	USD 1,000	
E, EN	USD 10 million		
D, N	USD 5,000		

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class E Shares are available to certain investors until the total Net Asset Value of the Fund reaches USD100m or equivalent amount in another currency.

Class EN Shares are available to investors who are acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S or E Shares. EN Shares are available until the total Net Asset Value of the Fund reaches USD100m or equivalent amount in another currency. No distribution fee is paid in respect of the Class EN Shares.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid annually. Dividends will generally be declared on or about the last Business Day of the year for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee, Distribution Fee and Performance Fee are each accrued daily in the Net Asset Value of the relevant Classes of Shares at the annual rate set out in the table below. The Investment Management Fee and Distribution Fee are paid quarterly in arrears whilst the Performance Fee, if applicable, is generally crystallized at the Fund's fiscal year end and paid shortly thereafter. The Performance Fee Type applicable to this Fund is Performance Benchmark. Please refer to the Performance Fees section of the Prospectus for more detail.

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee	Performance Fee	Performance Benchmark
S	N/A	0.20%	N/A	20%	S&P 500
T	N/A	N/A	N/A	N/A	N/A
D	5%	0.20%	0.20%	20%	S&P 500
N	N/A	0.20%	N/A	20%	S&P 500
E	N/A	0.10%	N/A	20%	S&P 500
EN	N/A	0.10%	N/A	20%	S&P 500

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D, and EN where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to deliver a regular income, with a secondary focus on capital growth.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective through investment across a broad array of global assets as described below including equities, sovereign, corporate and inflation linked bonds to provide a diversified exposure to both income producing securities and assets with the potential to produce capital growth. The approach utilises a dynamic asset allocation across these underlying assets that supports the income objective.

The Investment Manager will use its ability to dynamically allocate assets and actively reposition the Fund, either through direct investment or the use of FDIs (listed below), to seek to control volatility and manage downside risk through active hedging strategies during adverse market environments.

The Fund may invest either directly or indirectly through FDIs (set out below), in the following instruments in pursuit of the Fund's investment objective: equity and other securities with equity characteristics, comprising shares, preferred stock, investments in Real Estate Investment Trusts ("REITs"), convertible securities, warrants, depository receipts (such as ADRs, GDRs and European Depository Receipts) and market access products (comprising warrants on equities, options on equities and equity swaps); fixed and floating rate debt securities of issuers around the world comprising securities issued by government, agency, quasi-sovereign, supranational, commercial, and sub-national government issuers as well residential and commercial mortgage-backed securities (including "to-be-announced" securities), asset-backed securities, corporate bonds, REIT debt (which are bonds and convertible bonds issued by a REIT), preferred securities, hybrid securities comprising convertible securities as more fully described in the section of the Prospectus entitled **Types and Description of FDIs**, contingent capital securities that may be automatically written down upon the occurrence of a specific event and contingent convertible securities that may be automatically converted into an equity security upon the occurrence of a specific event; loan participation securities that qualify as an eligible investment by the Fund and may be securitised or unsecuritised; interests in master limited partnerships as described in the section of the Prospectus entitled **Master Limited Partnerships**; securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)) and bank loan assignments that qualify as Money Market Instruments; cash and cash equivalents as described in the section of the Prospectus entitled **Cash and Cash Equivalents**. There will be no limitations on the credit quality of individual securities in the Fund and the Fund will invest in securities denominated in multiple currencies. As a result of investments in high yield or sub-investment grade bonds, the Fund's weighted average credit quality may be below investment grade.

The Fund may also buy and sell index linked bonds and credit linked notes whose interest payments and/or payment at maturity depend on the performance of an underlying index or security. The underlying exposure of an index linked bond may be tied to a market index (such as a bond index or a credit default swap index) or an economic index (such as growth or inflation indices). The underlying exposure of a credit linked note is typically tied to a sovereign, quasi-sovereign or corporate bond issuer.

In each case, the underlying exposure will be consistent with the Fund's investment objective and policies. The Fund also may invest in structured notes (which are synthetic securities with embedded components (such as an option)). Such structured notes shall comprise equity linked notes, fixed income linked notes or index linked notes and will be listed or otherwise comprise securities issued pursuant to Rule 144A and/or Regulation S (as described above) and will give exposure to underlying fixed income securities, equity securities or indices on a leveraged or unleveraged basis, subject to the composition of the portfolio at any given time. In the event that the structured notes provide such exposure on a leveraged basis, such leverage shall be included in any global exposure calculations in accordance with the requirements of the Central Bank.

The Fund may also invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds** and in exchange traded funds that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such exchange traded funds will be listed and/or traded on the markets and exchanges as set out in Appendix I and regulated as UCITS or as AIF exchange traded funds.

Insofar as the Fund seeks to gain exposure to commodities, such exposure shall be achieved through investing in swaps, options and futures as more fully described in the section of the Prospectus entitled **Types and Description of FDIs**. These may reference UCITS eligible commodity assets comprising UCITS eligible exchange traded commodities or notes and UCITS eligible commodities indices. In addition, the Fund may invest in exchange-traded securities and both UCITS and AIF exchange traded funds which are listed and/or traded on the markets and exchanges as set out in Appendix I. Such exchange-traded securities may include debt instruments issued by financial institutions such as notes, certificates, and UCITS eligible exchange traded commodities that may reference and therefore be used to gain indirect exposure to the performance of commodities or commodity indices. Furthermore, any commodity indices utilised by the Fund shall be in compliance with the requirements of the Central Bank.

The Fund may buy and sell exchange-traded and over-the-counter derivative instruments, both long and short, across all asset classes, comprising currency, interest rate, bond, equity, index and contingent options, interest rate, bond, index, credit, equity and currency futures, or options on futures, credit default swaps, index credit default swaps, interest rate, inflation, total return and currency swaps, equity swaps, swaptions and swaps on an index, deliverable and non-deliverable currency forwards, forwards on bonds or other debt securities and forward rate agreements to gain exposure to the instruments listed above in pursuit of its investment objective and for efficient portfolio management purposes, including hedging against risk. The Fund may engage in repurchase transactions for efficient portfolio management purposes only. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The net market exposure (sum of long and synthetic short positions including cash) of the Fund will always be positive, meaning that long positions will be in greater proportion than any synthetic short positions. Whilst the Fund's typical net market exposure may vary in time, it is expected to range between 0% and 150% of the Net Asset Value of the Fund, depending on the Investment Manager's analysis of the prevailing market conditions and considered in light of the investment objective of the Fund. These figures do not include derivatives relating to foreign exchange which may be used for hedging or investment purposes.

The indices to which the Fund will gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

The Fund will be denominated in US Dollars. Currency exposure, from the use of forward currency exchange contracts in multiple currencies, as more fully described in the section of the Prospectus entitled **Financial Derivative Instruments (FDI)**, is actively managed within the Fund and may include cross-currency positions which may or may not be influenced by the Fund's positions.

The Fund will generally be well diversified by country, currency, industry, sector, issuer and market capitalisation but may hold positions that are concentrated in this manner from time to time. The Fund may invest in both developed and emerging markets. Emerging markets are any country which is considered by the Investment Manager to be an emerging market, these are primarily located in Latin/Central America and the Caribbean, Central and Eastern Europe, Middle East, Africa and Asia. The Fund may invest up to a maximum of 5% of its Net Asset Value in securities traded on Russian markets from time to time and may invest up to 10% of its Net Asset Value in China A Shares traded via Stock Connect (see section of the Prospectus entitled **Risks linked with dealing in securities in China via Stock Connect**). The Fund may invest in securities traded in China via Bond Connect (see section of the Prospectus entitled **Risks linked with dealing in securities in China via Bond Connect**).

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as absolute VaR to assess the Fund's market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed 20% of the Fund's Net Asset Value for a holding period equivalent to one month. The Fund adopts a one-tailed 99% confidence level under normal market conditions for a one month holding horizon and considering at least one year of historical data. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDI)**.

It is expected that the Fund will generally incur leverage at a rate of up to a maximum rate of 1800% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of the FDIs. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades.. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for a retail investor seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio. Investors in the Fund should be aware that, as set out in the section entitled Dividend Policy, dividends may be declared out of the capital of the Fund.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	50%	150%
SFTs	5%	10%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as a mixed fund pursuant to Sec. 2(7). Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: US Dollars (USD);

Business Day: every day that US Federal banks and the New York Stock Exchange are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;

Dealing Day: Each Business Day;

Please see the Holiday and Dealing Day Calendar which lists all non-Dealing Days for the Fund and is available at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change;

- Dealing Deadline:** The deadline for subscription, conversion and redemption orders to be received by the Transfer Agent is 2:00 pm Ireland time on the Dealing Day;
- Settlement Date:** For payment of Shares subscribed for, means no later than 4:00 p.m. New York time on the second Business Day following the Dealing Day on which the Shares were purchased unless extended as specified in the contract note, or such other earlier time as will be established by the Directors from time to time. For payment of redemption proceeds, Settlement Date means a date usually within two Business Days, but not more than ten Business Days, from the trade date in respect of a redemption request;
- Investment Manager:** Wellington Management Company LLP
251 Little Falls Drive
Wilmington, Delaware 19808
USA
- Sub-Investment Manager:** The Investment Manager may delegate the investment management of a portion of the assets of the Fund to sub-investment managers within its group and in such instance, information in respect of the relevant sub-investment managers will be provided to the Shareholders on request and will be disclosed in the periodic reports of the Company.

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Counterparty
- Currency
- Duration
- Emerging Markets
- Equity
- Financial Derivative Instruments
- Fixed Income and Other Debt Securities
- Investment in Russia
- Liquidity
- Long-Short Strategy
- Market
- Operational Risk

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subsequent Subscription (in USD or equivalent*)
S, T	USD 5 million	USD 1,000
D, N, DL	USD 5,000	

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.¹

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class DL Shares are reserved for investors in certain markets, acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class DL Shares is payable.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid monthly and will be paid based on a pro-rata amount of the total net assets relating to the projected yield. Dividends will generally be declared on or about the last Business Day of the relevant month for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below.

Share Class Name	Maximum Charge*	Preliminary	Investment Management Fee	Distribution Fee
S	N/A		0.60%	N/A
T	N/A		N/A	N/A
D	5%		0.60%	0.60%
N	N/A		0.60%	N/A
DL	3%		0.60%	1.10%

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D and DL where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 29 November 2019

Wellington Multi-Asset Total Return Income Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Multi-Asset Total Return Income Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek a combination of long term total returns with a regular income and actively manage downside risk.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to achieve the objective by investing in a broad array of global assets such as equities, government bonds, investment grade and high yield credit (such as corporate bonds).

The Fund's investment strategy is based on the Investment Manager's belief that a consistent income combined with long term capital growth can be achieved through the active management of assets and market exposures within a disciplined risk control framework.

The Investment Manager focuses on the following when constructing the portfolio:

- **Diversification.** The Investment Manager believes that different asset classes perform better in certain market environments such as growth, low growth, inflation and stagflation (which is a situation in which the inflation rate is high, but the economic growth rate slows, and unemployment remains high). The Fund seeks to invest in a diverse set of assets, directionally matched to these environments, for example increasing allocations to government bonds in an environment of low growth and low inflation, or to equities during periods of high growth with moderate inflation. The Investment Manager employs a disciplined risk allocation process across all positions whilst targeting factors the Investment Manager believes to be aligned with the Fund's objective (for example, high quality (based on metrics including profitability, stability, growth and financial health of the company) or low volatility equities).
- **Differentiated implementation.** The Fund will seek to enhance returns by using active management and pursuing what the Investment Manager believes are more efficient market exposures than offered by traditional market-capitalisation weighted indices. The global equity and global bond exposures will generally be actively managed, rather than being implemented using passive exposures via traditional indices (such as the MSCI All Country World Index). These active exposure allocations are designed to mitigate the concentration weighted indices and are biased towards higher quality and more liquid assets.
- **Dynamic asset allocation.** The Fund will be tilted towards the return opportunities the Investment Manager believes are the most attractive by using a dynamic asset allocation process, which uses both quantitative (such as volatility and correlation metrics) and qualitative (such as valuation and macroeconomic research) inputs alongside current views of market environment and return opportunities. The Investment Manager will consider these factors at an asset class level using historical perspectives as well as looking at the relative attractiveness of each in the current market environment (see the section entitled Diversification in the Prospectus), and adjust the portfolio accordingly.

- **Disciplined risk management.** A strong focus will be placed on decreasing the risk of losses, and the Fund will adopt a disciplined multi-layered approach to risk management, including volatility management, drawdown controls (which are hedging strategies aimed at limiting losses if markets fall) and opportunistic hedging, which may for example be implemented using options, futures, or other permissible derivatives to provide protection against a potential market event, such as a fall in equity markets.

The Fund may invest, either directly or indirectly (both long and short) through the use of FDIs (set out below) in the following instruments in pursuit of the Fund's investment objective: equity and other securities with equity characteristics, comprising shares, preferred stock, depository receipts (such as ADRs, GDRs and European Depositary Receipts), convertible securities, warrants, rights, investments in Real Estate Investment Trusts and market access products (comprising warrants on equities, options on equities and equity swaps) for securities issued by developed and emerging market companies; fixed and floating rate debt securities (for example, bonds) of issuers around the world, comprising securities in government, agency, quasi-sovereign, supranational, commercial and sub national government issuers as well as residential and commercial mortgage-backed securities, asset-backed securities, corporate bonds, covered bonds, corporate debt, preferred securities, sukuk (financial instruments with cash flows similar to conventional bonds that are structured to comply with Islamic law), hybrid securities comprising convertible securities as more fully described in the section of the Prospectus entitled **Types and Description of FDIs**, contingent capital securities that may be automatically written down upon the occurrence of a specific event and contingent convertible securities that may be automatically converted into an equity security upon the occurrence of a specific event. The Fund may hold equity securities where they are a result of a corporate action, conversion or exercising a warrant. The Fund may invest up to 10% of its Net Asset Value in China A Shares traded via Stock Connect (see also section of the Prospectus entitled **Risks linked with dealing in securities in China via Stock Connect**). The Fund may also hold interests in limited partnerships and master limited partnerships as described in the section of the Prospectus entitled **Master Limited Partnerships**, securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)), debentures and loan participation securities (debt instruments) that qualify as an eligible investment. The Fund may also invest in bank loan assignments that qualify as Money Market Instruments and cash and cash equivalents as described in the section of the Prospectus entitled **Cash and Cash Equivalents**.

The Fund may also buy and sell index linked bonds and credit linked notes whose interest payments and/or payment at maturity depend on the performance of an underlying index or security. The underlying exposure of an index linked bond may be tied to a market index (such as a bond index or a credit default swap index) or an economic index (such as growth or inflation indices). The underlying exposure of a credit linked note is typically tied to a sovereign, quasi-sovereign or corporate bond issuer. In each case, the underlying exposure will be consistent with the Fund's investment objective and policies. The Fund also may invest in structured notes (which are synthetic securities with embedded components (such as an option, swap, forward or future)). Such structured notes may give exposure to underlying fixed income securities on a leveraged or unleveraged basis. In the event that the structured notes provide such exposure on a leveraged basis, such leverage shall be included in any global exposure calculations in accordance with the requirements of the Central Bank.

The Fund may invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds** and in exchange traded funds (“ETFs”) that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such exchange traded funds will be listed and/or traded on the markets and/or exchanges as set out in Appendix I of the Prospectus and regulated as UCITS or as AIF ETFs.

The Fund may buy and sell exchange-traded and over-the-counter FDIs, comprising currency, equity and index options, bond, interest rate and index futures or credit default, index credit default, interest rate and total return swaps, warrants, currency forwards, and “to-be-announced” securities to gain exposure to the instruments listed above in pursuit of the investment objective and for efficient portfolio management purposes including hedging against risk. Derivatives may be used as a replacement for direct bond exposures, to hedge specific interest rate, currency or credit risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The net market exposure (sum of long and synthetic short positions including cash) of the Fund will typically be positive, meaning that long positions will generally be in greater proportion than synthetic short positions. Whilst the Fund’s typical net market exposure may vary in time, it is expected to range between 0% and 200% of the Net Asset Value of the Fund, depending on the Investment Manager’s analysis of the prevailing market conditions and considered in light of the investment objective of the Fund. Short positions may only be taken through financial derivative instruments (“FDIs”) to implement active strategies within the Fund, for hedging risk and for managing overall market exposures. The gross exposure of the Fund’s short positions is not expected to exceed 150% of the Net Asset Value of the Fund. These figures do not include derivatives relating to foreign exchange which may be used for hedging or investment purposes.

The indices to which the Fund may gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices the constituents of which include the types of securities described above in which the Fund may directly invest.

The Fund will be denominated in US Dollars. Currency exposure, from the use of forward currency exchange contracts in multiple currencies, as more fully described in the section of the Prospectus entitled **Financial Derivative Instruments (FDIs)**, is actively managed within the Fund and may include cross-currency positions which may or may not be influenced by the Fund’s positions. The Fund may hold cash and cash equivalents as described in the section of the Prospectus entitled **Cash and Cash Equivalents** in multiple currencies without restriction.

The Fund will generally be diversified by country, currency, sector and issuer, but may hold positions that are concentrated from time to time. The Fund may invest in emerging markets (these are primarily located in Latin/Central America and the Caribbean, Central and Eastern Europe, Middle East, Africa and Asia) and up to 10% of its Net Asset Value in securities traded in the Russian markets. For the purposes of this Fund, an emerging market is one that the Investment Manager considers to be an emerging market.

Global Exposure and Leverage

The market risk of the Fund will be assessed within the regulatory limits specified in the section of the Prospectus entitled **Financial Derivative Instruments (FDIs)** using a risk management technique known as relative VaR. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed twice the VaR of the Index. A custom blend of indices comprised of 40% MSCI All Countries World Index, 40% Bloomberg Barclays Global Aggregate Credit Total Return Index Value Hedged to USD, and 20% Citi World Government Bond Index 10+ years in USD terms will serve as the Index for this calculation. This blend of bonds and equities is intended to reflect the average risk exposure to general market movements targeted by the Fund. The MSCI All Countries World Index is a market capitalisation weighted and designed to measure the equity market performance of developed and emerging markets, the Bloomberg Barclays Global Aggregate Credit Total Return Index Value Hedged to USD is market capitalisation weighted and is a measure of global investment grade debt from both developed and emerging market issuers, excluding government and securitised securities. The Citi World Government Bond Index 10+ years in USD terms is market capitalisation weighted and measures the performance of global fixed-rate, local currency, and investment grade sovereign bonds with minimum maturities of 10+ years).

It is expected that the Fund will generally incur leverage at a rate of between 0% and 650% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of FDIs. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for an investor seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio. Investors in the Fund should be aware that, as set out in the section entitled Dividend Policy dividends may be declared out of the capital of the Fund.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
Total return swaps	15%	40%
SFTs	8%	15%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an 'mixed' fund pursuant to Sec. 2(7). Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: US Dollars (USD);

Business Day: every day that US Federal banks and the New York Stock Exchange are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;

Dealing Day: Each Business Day;

Please see the Holiday and Dealing Day Calendar which lists all non-Dealing Days for the Fund and is available at www.wellingtonfunds.com and from the Transfer Agent. This list is subject to change;

Dealing Deadline: The deadline for subscription, conversion and redemption orders to be received by the Transfer Agent is 2:00 pm Ireland time on the Dealing Day;

Settlement Date: For payment of Shares subscribed for, means no later than 4:00 p.m. New York time on the second Business Day following the Dealing Day on which the Shares were purchased unless extended as specified in the contract note, or such other earlier time as will be established by the Directors from time to time. For payment of redemption proceeds, Settlement Date means a date usually within two Business Days, but not

more than ten Business Days, from the trade date in respect of a redemption request;

Investment Manager: Wellington Management Company LLP
251 Little Falls Drive
Wilmington, Delaware 19808
USA

Sub-Investment Manager: The Investment Manager may delegate the investment management of a portion of the assets of the Fund to sub-investment managers within its group and in such instance, information in respect of the relevant sub-investment managers will be provided to the Shareholders on request and will be disclosed in the periodic reports of the Company.

RISK FACTORS

Potential investors' attention is drawn the section headed **Risk Factors** in the Prospectus which potential investors should consider before investing in the Fund. Set out below are the principal risks associated with an investment in the Fund. This list is not intended to be exhaustive and potential investors should review this Supplement and the Prospectus in their entirety and consult with their professional advisers, before making an application for Shares. There can be no assurance that the Fund will achieve its objective. The principal risks, which are described in the **Risk Factors** section of the Prospectus, are as follows:

- Counterparty
- Currency
- Duration
- Emerging Markets
- Equity
- Financial Derivative Instruments
- Fixed Income and Other Debt Securities
- Liquidity
- Market
- Operational Risk

DEALING IN SHARES

For a guide on how to invest in the Fund potential investors should refer to the **Dealing in Shares** section of the Prospectus and also to the Investor Guide which is available at www.wellingtonfunds.com and from the Transfer Agent.

Available Share Classes	Minimum Initial Subscription/ Minimum Holding Amount (in USD or equivalent*)	Minimum Subsequent Subscription (in USD or equivalent*)
S, T	USD 5 million	USD 1,000
D, N, DL	USD 5,000	

*Each Share Class is available in the following currencies: USD, EUR, GBP, CHF, JPY, AUD, NZD, SGD, CAD, NOK and SEK. Each Share Class in each Dealing Currency is available as both a Distributing Share Class and an Accumulating Share Class. Each Share Class in each Dealing Currency other than the Base Currency is available as both a Hedged Share Class and an unhedged Share Class.

Hedged Share Classes will be created in accordance with the Central Bank's Rulebook and interpretations promulgated by the Central Bank from time to time and involve hedging the Dealing Currency against the Base Currency of the Fund.

Class S Shares are available only for Institutional Investors.

Class T Shares are reserved for investors that have a direct investment advisory or other relationship with the Investment Manager or an affiliate, and for investment by the Investment Manager and/or its affiliates (including affiliated pension plans).

Class D Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class D Shares is payable.

Class N Shares are reserved for investors acting as financial intermediaries on behalf of underlying beneficial holders who either, according to applicable regulatory requirements, are not allowed to accept and retain a distribution fee or who have separate fee arrangements with their clients which preclude them from accepting and retaining a distribution fee, and for Institutional Investors investing on their own account, who do not meet the criteria for Class S Shares. No distribution fee is paid in respect of the Class N Shares.

Class DL Shares are reserved for investors in certain markets, acting as financial intermediaries on behalf of underlying beneficial holders and in respect of whom a distribution fee attributable to the Class DL Shares is payable.

The Initial Issue Price for each Share Class is 10 of the relevant Dealing Currency of that Share Class save for NOK Share Class and SEK Share Class where the Initial Issue Price is NOK 100 and SEK 100 respectively and JPY Share Classes where the Initial Issue Price is JPY 10,000. Prior to 7 September 2018 SEK and NOK Share Classes launched at an Initial Issue Price of SEK 10 and NOK 10 respectively.

For further information on the characteristics of each Share Class please consult the **Dealing in Shares** section of the Prospectus.

All Share Classes in the Fund are subject to swing pricing, for further information on swing pricing potential investors should refer to the **Swing Pricing Procedure** section of the Prospectus.

Dividend Payments

Dividends will be paid monthly and a dividend rate per share will be calculated on a periodic basis based on a projected yield. Dividends will generally be declared on or about the last Business Day of the relevant month for Distributing Share Classes only and will generally be paid within seven days. For further information please consult the **Dividend Policy** section of the Prospectus.

Shareholders can elect to reinvest the dividend proceeds into additional Shares of the same class or will receive dividend payments in cash by way of wire transfer or otherwise in accordance with the terms of the Account Opening Agreement and the Investor Guide.

FEES AND EXPENSES

The Investment Management Fee and Distribution Fee is accrued daily in the Net Asset Value of the relevant Classes of Shares and paid quarterly in arrears at the annual rate set out in the table below.

Share Class Name	Maximum Preliminary Charge*	Investment Management Fee	Distribution Fee
S	N/A	0.50%	N/A
T	N/A	N/A	N/A
D	5%	0.50%	0.50%
N	N/A	0.50%	N/A
DL	3%	0.50%	1.00%

*Payable to financial adviser or intermediary

Each Share Class of the Fund is also subject to an administrative fee which will vary across Classes of Shares, reflecting the differing expenses of such Classes of Shares, but the maximum administrative fee that is paid shall not exceed 0.25% per annum for all Classes of Shares with the exception of Classes N, D and DL where the maximum administrative fee that is paid shall not exceed 0.40% per annum.

For further details on fees and expenses potential investors should refer to the **Charges and Expenses** section of the Prospectus.

The Directors of the Company, whose names appear in the **Management and Administration** section of the Prospectus, accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC

(an umbrella type open-ended investment company with variable capital and segregated liability between Funds, incorporated with limited liability under the laws of Ireland with registered number 267944)

Dated 19 December 2019

Wellington Global Research Equity Catholic Values Fund

This document (the “Supplement”) forms part of, and should be read in the context of, and together with, the prospectus dated 29 November 2019 as may be amended from time to time (the “Prospectus”) in relation to WELLINGTON MANAGEMENT FUNDS (IRELAND) PLC (the “Company”) and contains information relating to the Wellington Global Research Equity Catholic Values Fund (the “Fund”), a separate sub-fund of the Company.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in the Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

INVESTMENT OBJECTIVE AND POLICY OF THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term total returns.

Investment Policies

The Investment Manager will actively manage the Fund, seeking to outperform the MSCI World Catholic Values Custom Index (the "Index") and achieve the objective by primarily investing in equity securities issued by companies worldwide that are constituents with the Index or consistent with the United States Conference of Catholic Bishops (USCCB) Socially Responsible Investment Guidelines. The Index is market capitalisation weighted and is designed to measure equity market performance of developed markets companies that are aligned with the moral and social teachings of the Catholic Church.

The Investment Manager's approach incorporates a Catholic values screen provided by MSCI and based on USCCB investment guidelines which seeks to identify companies associated with certain pre-determined themes, including but not limited to: sanctity of life (such as abortion, contraceptives and stem cell testing) as well as adult entertainment, weapons and firearms. Companies that manufacture tobacco are also identified. Collectively these companies are then excluded from the Fund's portfolio.

The Fund will be actively managed by the global industry analysts in the research department of the Investment Manager, under the oversight of both the director of global industry research, who is responsible for management of the research department, and the director of research portfolios, who manages overall risk and coordinates fund allocations to each global industry analyst. The global industry analysts will select securities using bottom-up stock selection based on fundamental research and each analyst's unique investment approach, with both the country allocation and the selection of individual companies at the discretion of the individual global industry analysts. Each individual global industry analyst has their own beliefs on how the market behaves and accordingly has discretion to look for differing attributes in the companies in which they invest. Based on these views, each analyst will select stocks which they expect will outperform their industry over three to five year rolling periods and determine the size of their position in each company. The Investment Manager will then apply the Catholic values screen to these securities selected, and will then manage the overall portfolio in a manner that remains representative of the global industry analysts' views ensuring active exposures are consistent with the analysts' original intentions whilst continuing to seek to meet the investment objective.

The Fund's securities may be components of the Index but are expected to have different weightings; however individual global industry analysts will also invest in companies not included in the Index at their discretion, subject to those companies meeting the USCCB screening standards. The allocation to each individual global industry analyst will typically align to the Index weighting for the industry they cover, such that the industry weightings of the Fund are expected to remain similar to those of the Index. This generally removes the Fund's ability to outperform the Index through industry overweight or underweight decisions, and therefore, it is expected that the analysts' country allocation and security selection decisions will be responsible for achieving long-term total returns in excess of the Index and/or producing performance that is different from the Index.

The Fund, over time, will be diversified by issuer relative to the global equity market and will not be oriented towards any particular investment style (e.g. growth, value, small companies); its characteristics, including country exposure, will reflect the nature of the underlying stock selections.

The Fund will invest, either directly or indirectly through the use of FDIs, in equity and other securities with equity characteristics, comprising shares, preferred stocks, depository receipts (such as ADRs, GDRs and European Depository Receipts), convertible securities, warrants, investments in Real Estate Investment Trusts and market access products (comprising warrants on equities, options on equities and equity swaps) for securities issued by developed and emerging market companies. The Fund may also hold securities issued pursuant to Rule 144A and/or Regulation S securities (Regulation S securities are those offered outside the United States without registration under the United States Securities Act of 1933 (as amended)).

The Fund will invest in developed countries and may invest up to 20% in countries which are considered to be emerging markets by the Investment Manager. These are primarily located in Latin/Central America and the Caribbean, Central and Eastern Europe, Middle East, Africa and Asia.

The Fund may also invest in collective investment schemes as described in the section of the Prospectus entitled **Investment in Other Investment Funds** and in exchange traded funds (“ETFs”) that provide exposure to the types of securities listed above and which constitute an eligible investment for the Fund. Such ETFs will be listed and/or traded on the markets and/or exchanges as set out in Appendix I of the Prospectus and regulated as UCITS or as AIF ETFs. No more than 5% of the Net Asset Value of the Fund will be invested in non-listed and non-traded collective investment schemes.

The Fund may buy and sell exchange-traded and over-the-counter FDIs, both long and short, comprising the market access products listed above as well as index futures and currency forwards in pursuit of the investment objective and for efficient portfolio management purposes, including hedging against risk. Full details of the types of FDIs and the ways in which the Fund may utilise them are further detailed in the section of the Prospectus entitled **Types and Description of FDIs**.

The Fund will be denominated in US Dollars and normally will not be hedged against currency fluctuations, although the Investment Manager may employ currency hedging on an opportunistic basis to protect or enhance the value of the Fund’s holdings when it believes it is advisable to do so.

The indices to which the Fund may gain exposure will be eligible indices according to the Central Bank requirements and will comprise indices of which the constituents include the types of securities described above, in which the Fund may directly invest.

Generally, less than 5% of the Fund’s Net Asset Value will be invested in cash and cash equivalents as described in the section of the Prospectus entitled **Cash and Cash Equivalents**, subject to a maximum 10% of Net Asset Value of the Fund.

Global Exposure and Leverage

The Investment Manager uses a risk management technique known as relative VaR to assess the Fund’s market risk to seek to ensure that its use of FDIs is within regulatory limits. The VaR of the Fund is calculated daily in accordance with the requirements of the Central Bank, and may not exceed twice the

VaR of the Index. Further information on the risk management method can be found in the Prospectus in the section entitled **Financial Derivative Instruments (FDIs)**.

It is expected that the Fund will generally incur leverage at a rate of between 0%-330% of its Net Asset Value through the use of FDIs. Leverage is calculated as the sum of the notional values of the FDIs. The above maximum figure includes 300% for Share Class related hedging, which is comprised of 100% for the hedging itself and 200% to allow for FDIs roll overs involving positions being closed out against equal and opposite trades. This is included at a Fund level but will only concern holders of currency Hedged Share Classes. Further information on leverage can be found in the Prospectus in the section entitled **Leverage**.

Borrowing and Lending Powers

The Fund may borrow up to 10% of the Fund's Net Asset Value at any time for the account of the Fund and may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes such as securities settlement or meeting a redemption, and not for leverage. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Fund may not lend to, or act as guarantor on behalf of, third parties. The Fund may acquire debt securities and securities which are not fully paid.

Profile of a typical Investor

The Fund is suitable for retail investors seeking long-term total returns. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of Net Asset Value from time to time. The Fund is suitable as an investment in a well-diversified portfolio

Exposure to Securities Financing Transactions ("SFTs")

The Fund's expected and maximum exposure to SFTs is as set out below (in each case as a percentage of net asset value):

Type of transaction	Expected	Maximum
SFTs	3%	10%

Further information on SFTs can be found in the Prospectus in the section entitled **Securities Financing Transactions Regulation**.

German Taxation

Under the new German Investment Tax Act, the Fund is classified as an 'equity' fund pursuant to Sec. 2(6).

Further information on German Taxation can be found in the Prospectus in the section entitled **German Taxation**.

GENERAL INFORMATION RELATING TO THE FUND

Base Currency: US Dollars (USD);

Business Day:	Every day that US Federal banks and the New York Stock Exchange are open for business except for: Easter Monday, May 1st, the weekday prior to and following Christmas Day as observed by the New York Stock Exchange as well as any such other days as the Directors may from time to time determine;
