### Financial Ratios

	Fund	Benchmark
P/Book Value	1.2	2.1
P/E Ratio	20.1	18.0
Predicted P/E Ratio	14.9	15.9
ROE (%)	10.6	17.7
Dividend Yield (%)	2.3	2.6
3 Year Earnings Growth (%)	-5.0	13.3

These financial ratios refer to the average of the equity holdings contained in the fund's portfolio and in the benchmark (if mentioned) respectively.

## Investment Objective and Policy

To provide capital growth.

The Fund will invest primarily in equity and equity related securities of companies worldwide that have suffered a severe set back in either share price or profitability, but where long term prospects are believed to be good. The Investment Manager will invest in a select portfolio of securities and will not be restricted by size or sector.

## Risk Considerations

The capital is not guaranteed. In order to access restricted markets, the fund may invest in structured products. Should the counterparty default, the value of these structured products may be nil. Investments denominated in a currency other than that of the share-class may not be hedged. The market movements between those currencies will impact the share-class. The Fund's operations may depend on third parties in countries where operational oversight standards are less developed.

### Performance Since Launch (%)

Past performance is not a reliable indicator of future results, prices of shares and the income from them may fall as well as rise and investors may not get back the amount originally invested.

All fund performance data are on a NAV to NAV basis, net income reinvested. Data is not available for the time periods with no % growth stated. In case a share class is created after the fund's launch date, a simulated past performance is used, based upon the performance of an existing share class within the fund, taking into account the difference in the ongoing charges and the portfolio transaction costs, and including the impact of any performance fees if applicable.

Some performance differences between the fund and the benchmark may arise because the fund performance is calculated at a different valuation point from the benchmark.

All benchmark data is presented in the base currency of the fund (US Dollars).
