BNP Paribas Plan

short-named BNPP Plan

An open-ended investment company
Incorporated under Luxembourg Law

Prospectus

DECEMBER 2017

INFORMATION REQUESTS

BNP Paribas Plan

10 rue Edward Steichen

L-2540 Luxembourg

Grand Duchy of Luxembourg

NOTICE

This Prospectus may not be used for the purpose of an offer or solicitation to sell in any country or any circumstance in which such an offer or entreaty is not authorised.

The Company is approved as an Undertaking for Collective Investment in Transferable Securities (UCITS) in Luxembourg. It is specifically authorised to market its shares in Luxembourg, Austria, Belgium, the Czech Republic, Denmark, Finland, France, Germany, Greece, Italy, the Netherlands, Spain, Sweden, Slovakia, Cyprus and the United Kingdom. Not all the sub-funds, categories, or classes of shares are necessarily registered in these countries. It is vital that before subscribing, potential investors ensure that they are informed about the sub-funds, categories, or classes of shares that are authorised to be marketed in their country of residence and the constraints applicable in each of these countries.

In particular, the Company's shares have not been registered in accordance with any legal or regulatory provisions in the United States of America. Consequently, this document may not be introduced, transmitted or distributed in that country, or its territories or possessions, or sent to its residents, nationals, or any other companies, associations, employee benefit plans or entities whose assets constitute employee benefit plan assets whether or not subject to the United States Employee Retirement Income Securities Act of 1974, as amended (collectively, "Benefit Plans"), or entities incorporated in or governed by the laws of that country. Furthermore, the Company's shares may not be offered or sold to such persons.

In addition, no one may issue any information other than that presented in the Prospectus or the documents mentioned in it, which may be consulted by the public. The Company's Board of Directors vouches for the accuracy of the information contained in the Prospectus on the date of publication.

Lastly, the Prospectus may be updated to take account of additional or closed sub-funds or any significant changes to the Company's structure and operating methods. Therefore, subscribers are recommended to request any more recent documents as mentioned below under "Information for Shareholders". Subscribers are also recommended to seek advice on the laws and regulations (such as those relating to taxation and exchange control) applicable to the subscription, purchase, holding and redemption of shares in their country of origin, residence or domicile.

The Prospectus is only valid if accompanied by the latest audited annual report as well as the latest interim report if the latter is more recent than the annual report.

If there is any inconsistency or ambiguity regarding the meaning of a word or sentence in any translation of the Prospectus, the English version shall prevail.

CONTENTS

BOOK I OF THE PROSPECTUS

BOOK II OF THE PROSPECTUS

An information section is available relating to each particular sub-fund. It specifies each sub-fund's investment policy and objective, the features of the shares, their Accounting Currency, valuation day, methods of subscription, redemption and/or conversion, applicable fees, and, if applicable, the history and other specific characteristics of the sub-fund in question. Investors are reminded that, unless otherwise stated in Book II, the general regulations stipulated in Book I will apply to each sub-fund.

ARTICLES OF ASSOCIATION

The Company was incorporated on 7 August 2000 and a notice was published in the *Mémorial, Recueil Spécial des Sociétés et Associations* (the "*Mémorial*").

The Articles of Association have been modified at various times, most recently at the Extraordinary General Meeting held on 18 February 2016, with publication in the *Mémorial* on 9 March 2016.

The latest version of the Articles of Association has been filed with the Trade and Companies Registrar of Luxembourg, where any interested party may consult it and obtain a copy (website www.rcsl.lu).

TERMINOLOGY

For purposes of this document, the following terms shall have the following meanings. The below terminology is a generic list of terms. me of them may therefore not be used in the present document.

Accounting Currency:	Currency in which the assets of a sub-fund are stated for accounting purposes, which may be different of the share category valuation currency.
Additional Amount:	With respect to any given "Easy Future" sub-fund, all amounts due by such "Easy Future" sub-fund as determined by the Guarantor and the Management Company, including without limitation all direct or indirect tax, governmental or other charges resulting from the imposition of new obligations on the "Easy Future" sub-fund due to a change in the law or regulations applicable to such "Easy Future" sub-fund or to the financial instruments held by the "Easy Future" sub-fund as at the Launch Date of such "Easy Future" sub-fund as mentioned in Book II.
Active Trading:	Subscription, conversion or redemption in the same sub-fund over a short period of time and involving substantial amounts, usually with the aim of making a quick profit. This activity is prejudicial to other shareholders as it affects the sub-fund's performance and disrupts management of the assets.
Authorised Investors:	Investors specially approved by the Board of Directors of the Company
CDS:	**Credit Default Swap:** When buying or selling a CDS the Company hedges against the risk of an issuer's default by paying a quarterly premium. In the event of payment default, settlement may be made either in cash, in which case the buyer of the protection receives the difference between the face value and the recoverable value, or in the form of an in-kind settlement, in which case the buyer of the protection sells the defaulting security, or another security chosen from a basket of deliverable securities agreed in the CDS contract, to the seller of the protection and recovers the face value. The events that constitute default are defined in the CDS contract, along with the procedures for delivery of the bonds and debt certificates.
CFD:	**Contract for Difference:** Contract between two parties whereby they agree on a cash payment between them in the amount of the difference between two valuations of the underlying asset, at least one of which is unknown when they enter into the contract. By entering into a CFD, the Company undertakes to pay (or receive) the difference between the valuation of the underlying asset at the time of entering into the contract and the valuation of the underlying asset at a particular moment in the future.
Circular 11/512:	Circular issued by the CSSF on 30 May 2011 concerning: a) The presentation of the main regulatory changes in risk management following the publication of the CSSF Regulation 10-4 and ESMA clarifications; b) Further clarification from the CSSF on risk management rules; c) Definition of the content and format of the risk management process to be communicated to the CSSF. This document is available on the CSSF website (www.cssf.lu).
Circular 14/592:	Circular issued by the CSSF on 30 September 2014 concerning ESMA guidelines on ETF and other UCITS issues. This document is available on the CSSF website (www.cssf.lu).
Closed-ended REIT:	Real Estate Investment Trust which complies with the provisions of article 2 of the Grand Ducal Regulation dated 8 February 2008, the units of which are listed on a Regulated Market is classified as a transferable security listed on a Regulated Market, investments in closed-ended REITs which are not listed on a Regulated Market, are currently limited to 10% of the net assets of a sub-fund.
Company Name:	BNP Paribas Plan, short-named BNPP Plan
CSSF:	*Commission de Surveillance du Secteur Financier*, the regulatory authority for UCI in the Grand Duchy of Luxembourg.
Currencies:	**EUR:** Euro
Directive 78/660:	European Council Directive 78/660/EEC of 25 July 1978 concerning the annual accounts of certain forms of companies, as amended.
Directive 83/349:	European Council Directive 83/349/EEC of 13 June 1983 concerning consolidated accounts, as amended
Directive 2004/39:	**MiFID:** European Council Directive 2004/39/EC of 21 April 2004 on markets in financial instruments, as amended
Directive 2009/65:	European Council Directive 2009/65/EC of 13 July 2009 regarding the coordination of legislative, regulatory and administrative provisions concerning undertakings for collective investment in transferable securities (UCITS IV) as amended by the Directive 2014/91
Directive 2011/16:	European Council Directive 2011/16/EU of 15 February 2011 on administrative cooperation in the field of taxation as amended by the Directive 2014/107.
Directive 2014/91:	European Parliament and of the Council Directive 2014/91/EU on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investments in transferable securities (UCITS) as regards depositary functions, remuneration policies and sanctions (UCITS V) amending the Directive 2009/65
Directive 2014/107:	European Council Directive 2014/107/EU of 9 December 2014 amending Directive 2011/16 as regards mandatory automatic exchange of information (AEOI) in the field of taxation.
Distribution Fee:	Fee calculated and deducted monthly from the average net assets of a sub-fund, share category, or share class, paid to the Management Company and serving to cover remuneration of the distributors, supplemental to the share of the management fee that they receive
EDS:	Equity Default Swap: When buying equity default swap the Company hedges against the risk of a sharp fall (the current market norm is 70%) in the value of the underlying security on the stock markets, regardless of the cause for the fall, by paying a quarterly premium. When the risk is realised, i.e. when the closing price on the stock market reaches or exceeds the threshold (of – 70%), the payment is made in cash: the buyer of the protection receives a pre-determined percentage (the current European market norm is 50%) of the notional amount initially assured.

Emerging markets:	non OECD countries prior to 1 January 1994 together with Turkey and Greece In the Emerging markets, 2 different categories may be identified by the main providers of indices: - Frontier markets: a sub-category of emerging markets designating growing economies with widely varying characteristics in terms of development, growth, human capital, demographics and political openness. - Advanced emerging markets: a sub-category of countries in the group of emerging markets gathering the best ranked countries in terms of market efficiency, regulatory environment, custody and settlement procedures and dealing tools available.
Equity:	A stock or any other security representing an ownership interest.
ESMA:	European Securities and Markets Authority
ESMA/2011/112:	Guidelines to competent authorities and UCITS management companies on risk measurement and the calculation of global exposure for certain types of structured UCITS issued by the ESMA on April 14, 2011. This document is available on the ESMA website (www.esma.europa.eu).
Extraordinary Expenses:	Expenses other than management, performance, distribution and other fees described below borne by each sub-fund. These expenses include but are not limited to director fees, legal fees, taxes, assessments or miscellaneous fees levied on sub-funds and not considered as ordinary expenses.
Guarantee:	Mechanism by which the Guarantor guarantees the payment to each Guaranteed Fund at its Maturity Date of the Total Amount Callable.
Guaranteed Value:	The amount per Share in the Reference Currency of each "Easy Future" sub-fund, which, pursuant to the Guarantee, will be guaranteed to be the minimum liquidation value per Share for all outstanding Shares at the Maturity Date. The Guaranteed Value can be less than 100% of the highest NAV reached during the lifetime.
Indirect Fee:	Ongoing charges incurred in underlying UCITS and/or UCIs the Company is invested in, and included in the Ongoing Charges mentioned in the KIID Initial Guaranteed Value for each "Easy Future" sub-fund is defined on Book II.
Institutional Investors:	Legal entities who hold their own account or hold an account on behalf of physical persons in connection with a group savings scheme or an equivalent scheme and UCI. Portfolio managers subscribing within the scope of discretionary individual portfolios management mandates are not included in this category ("Managers").
Investment Grade Bonds:	These bond investments correspond to the ratings assigned by the rating agencies for borrowers rated between AAA and BBB- on the Standard & Poor's or Fitch rating scale and Aaa and Baa3 on the Moody's rating scale. In the case of securities rated by two agencies, the best rating among the two available will be taken. In the case of securities rated by three agencies, the two best ratings among the three available will be taken.
IRS:	Interest Rate Swap
KIID:	Key Investor Information Document
Law:	Luxembourg law of 17 December 2010 concerning undertakings for collective investment. This law implements Directive 2009/65/EC (UCITS IV) of 13 July 2009 into Luxembourg law.
Law of 10 August 1915:	Luxembourg law of 10 August 1915 on commercial companies, as amended
Management Fee:	Fee calculated and deducted monthly from the average net assets of a sub-fund, share category, or share class, paid to the Management Company and serving to cover remuneration of the asset managers and also distributors in connection with the marketing of the Company's stock.
Managers:	Portfolio managers subscribing within the scope of discretionary individual portfolios management mandates.
Market Timing:	Arbitrage technique whereby an investor systematically subscribes and redeems or converts units or shares in a single UCITS within a short space of time by taking advantage of time differences and/or imperfections or deficiencies in the system of determining the NAV of the UCITS. This technique is not authorised by the Company.
Maturity Date:	31 October of the year specified in the name of each Guaranteed Fund, or, if that it is not a Valuation Day, then the next Valuation Day after 31 October, e.g. Easy Future 2043's Maturity Date is 31 October 2043.
Money Market Instruments:	Instruments normally dealt on the money market that are liquid and whose value can be accurately determined at any time.
Money Market Fund:	Money markets funds compliant with ESMA guidance (CESR/10-049 of 19 May 2010).
NAV:	Net Asset Value.
OECD:	Organisation for Economic Co-operation and Development
OTC:	Over The Counter
Other Fees:	Fees calculated and deducted monthly from the average net assets of a sub-fund, share category, or share class and serving to cover general custody assets expenses (remuneration of the Depositary) and daily administration expenses (NAV calculation, remuneration of the Guarantor (for "Easy Future" sub-funds, record and book keeping, notices to the shareholders, providing and printing the documents legally required for the shareholders, domiciliation, auditors cost and fees...), except for brokerage fees, commissions for transactions not related to the deposit, director fees, interest and bank fees, extraordinary expenses, reporting cost in relation with regulation requirements including the European Market Infrastructure Regulation (EMIR), and the *taxe d'abonnement* in force in Luxembourg, as well as any other specific foreign tax and other regulators levy.

Performance Fee:	The positive difference between the annual performance of the sub-fund/category/class (i.e. over the accounting year) and the hurdle rate (this can be a reference index performance, a fixed rate or another reference). This fee is payable to the Management Company. The performance fee will be calculated daily and provision will be adjusted on each valuation day during the financial year with the application of the "high water mark with hurdle rate" method. Hurdle rate means the performance of a reference index (or other references) as specified at the level of the sub-fund/category/class whereas high water mark means the highest NAV of the sub-fund/category/class as at the end of any previous financial year on which performance fees becomes payable to the Management Company, after deducting any performance fee. Performance fee will be accrued if the performance of the sub-fund/category/class exceeds the hurdle rate and the high water mark. Furthermore, if shares are redeemed during the financial year, the fraction of the provisioned performance fee that corresponds to the total amount redeemed shall be granted definitively to the Management Company.
Prospectus:	The present document
Real Estate Investments:	Investments in Real Estate certificates, shares of companies linked to Real Estate, closed-ended REITs
Reference Currency:	Main currency when several valuation currencies are available for a same share.
Regulation 2015/2365:	Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse and amending Regulation (EU) 648/2012 (SFTR)
Repurchase/ Reverse Repurchase transaction:	A transaction governed by an agreement by which a counterparty transfers securities, or guaranteed rights relating to title to securities where that guarantee is issued by a recognised exchange which holds the rights to the securities and the agreement does not allow a counterparty to transfer or pledge a particular security to more than one counterparty at a time, subject to a commitment to repurchase them, or substituted securities of the same description at a specified price on a future date specified, or to be specified, by the transferor, being a repurchase agreement for the counterparty selling the securities and a reverse repurchase agreement for the counterparty buying them.
RESA:	Recueil Electronique des Sociétés et Associations
SFT:	**Securities Financing Transactions** which means: - a repurchase transaction; - securities lending and securities borrowing; - a buy-sell back transaction or sell-buy back transaction - a margin lending transaction
Short Name:	BNPP Plan
Total Amount Callable:	The amount which, by virtue of the Guarantee: (i) does not exceed the Guaranteed Value in respect of all Shares outstanding on the Maturity Date, and (ii) is equal to the positive difference between the Guaranteed Value calculated in respect of all Shares outstanding on the Maturity Date and the NAV per Share on the Maturity Date multiplied by the number of Shares outstanding on the Maturity Date reduced by any applicable Additional Amount, as the case may be.
Transferable Securities:	Those classes of securities which are negotiable on the capital market (with the exception of instruments of payment) such as: - Equity and Equity equivalent securities, partnerships or other entities, and depositary receipts in respect of Equity; - Bonds or other forms of securitised debt, including depositary receipts in respect of such securities; - any other securities giving the right to acquire or sell any such transferable securities or giving rise to a cash settlement determined by reference to transferable securities, currencies, interest rates or yields, commodities or other indices or measures
TRS:	**Total Return Swap:** Derivative contract in which one counterparty transfers the total economic performance, including income from interest and fees, gains and losses from price movements, and credit losses, of a reference asset (equity, equity index, bond, bank loan) to another counterparty. TRS are in principle unfunded ("**Unfunded TRS**"): the total return receiver pays no upfront amount in return for the total return of the reference asset; then it allows both parties to gain exposure to a specific asset in cost-effective manner (the asset can be held without having to pay additional costs). TRS may also be funded ("**Funded TRS**") when it involves an upfront payment (often based on the market value of the asset) at inception in return for the total return of the reference asset.
UCI:	Undertaking for Collective Investment
UCITS:	Undertaking for Collective Investment in Transferable Securities
Valuation Currency(ies):	Currency in which the net asset values of a sub-fund, share category, or share class are calculated. There may be several valuation currencies for the same sub-fund, share category, or share class (so called "Multi-Currency" facility). When the currency available in the share category or share class is different from the Accounting Currency, subscription/conversion/redemption orders may be taken into account without suffering exchange rate charges.
Valuation Day:	Each open bank day in Luxembourg and subject to exceptions available in the Book II: It corresponds also to: • Date attached to the NAV when it is published • Trade date attached to orders • With regards to exceptions in the valuation rules, closing date prices used for the valuation of the underlying assets in the sub-funds portfolios

VaR: **Value at risk** is a statistical methodology used to assess an amount of potential loss according to a probability of occurrence and a time frame (see Appendix 2)

GENERAL PROVISIONS

BNP Paribas Plan is an open-ended investment company (*société d'investissement à capital variable* – abbreviated to "SICAV"), incorporated under Luxembourg law on 7 August 2000 for an indefinite period under the name "ABN AMRO Target Click Funds", in accordance with the provisions of Part II of the Luxembourg Law of 30 March 1988 governing undertakings for collective investment. It was renamed "ABN AMRO Structured Investments Funds" on 27 January 2006, "FORTIS Plan" on 3 October 2008 and "BNP Paribas Plan" on 1st June 2010.

The complete name "BNP Paribas Plan" and the short name "BNPP Plan" may be used equally in the official and commercial documents of the Company.

The Company is currently governed by the provisions of Part I of the Law of 17 December 2010 governing undertakings for collective investment as well as by Directive 2009/65.

The Company's capital is expressed in euros ("EUR") and is at all times equal to the total net assets of the various sub-funds. It is represented by fully paid-up shares issued without a designated par value, described below under "The Shares". The capital varies automatically without the notification and specific recording measures required for increases and decreases in the capital of limited companies. Its minimum capital is defined by the Law.

The Company is registered in the Luxembourg Trade and Companies Register under the number B 77 227.

The Company is an umbrella fund, which comprises multiple sub-funds, each with distinct assets and liabilities of the Company. Each sub-fund shall have an investment policy and a Accounting Currency that shall be specific to it as determined by the Board of Directors.

The Company is a single legal entity.

In accordance with Article 181 of the Law:

- the rights of shareholders and creditors in relation to a sub-fund or arising from the constitution, operation or liquidation of a sub-fund are limited to the assets of that sub-fund;
- the assets of a sub-fund are the exclusive property of shareholders in that sub-fund and of creditors where the credit arises from the constitution, operation or liquidation of the sub-fund;
- in relations between shareholders, each sub-fund is treated as a separate entity.

The Board of Directors may at any time create new sub-funds, investment policy and offering methods of which will be communicated at the appropriate time by an update to the Prospectus. Shareholders may also be informed via press publications if required by regulations or if deemed appropriate by the Board of Directors. Similarly, the Board of Directors may close sub-funds, in accordance with the provisions of Appendix 4.

ADMINISTRATION AND MANAGEMENT

The Company is directed and represented by the Board of Directors acting under the authority of the General Shareholders' Meeting. The Company outsources management, audit and asset custody services. The roles and responsibilities associated with these functions are described below. The composition of the Board of Directors and the names, addresses and detailed information about the service providers are listed above in "General Information".

The Management Company, the Investment Managers, the Depositary, the Administrative agent, Distributors and other service providers and their respective affiliates, directors, officers and shareholders are or may be involved in other financial, investment and professional activities that may create conflicts of interest with the management and administration of the Company. These include the management of other funds, purchases and sales of securities, brokerage services, depositary and safekeeping services, and serving as directors, officers, advisors or agents for other funds or other companies, including companies in which a sub-fund may invest. Each of the Parties will ensure that the performance of their respective duties will not be impaired by any such other involvement that they might have. In the event that a conflict of interest does arise, the Directors and the relevant Parties involved shall endeavour to resolve it fairly, within reasonable time and in the interest of the Company.

Board of Directors

The Board of Directors assumes ultimate responsibility for the management of the Company and is therefore responsible for the Company's investment policy definition and implementation.

The Board has granted Mrs Claire COLLET (Company Secretary) responsibilities relating to the day-to-day management of the Company (including the right to act as an authorised signatory of the Company) and its representation.

Management Company

BNP PARIBAS ASSET MANAGEMENT Luxembourg was incorporated as a limited company (*société anonyme*) in Luxembourg on 19 February 1988. Its Articles of Association have been modified at various times, most recently at the Extraordinary General Meeting held on 17 May 2017 with effect on 01 June 2017, with publication in the *RESA* on 2 June 2017. Its share capital is EUR 3 million, fully paid up.

The Management Company performs administration, portfolio management and marketing tasks on behalf of the Company.

Under its own responsibility and at its own expense, the Management Company is authorised to delegate some or all of these tasks to third parties of its choice.

It has used this authority to delegate:

- the functions of NAV calculation, Registrar (both for registered and bearer shares) and Transfer Agent to BNP Paribas Securities Services-Luxembourg branch;
- the management of the Company's holdings, and the observance of its investment policy and restrictions, to the investment managers listed above in "General Information". A list of the investment managers effectively in charge of management and details of the portfolios managed are appended to the Company's periodic reports. Investors may request an up-to-date list of investment managers specifying the portfolios managed by each.

Investment advice is also sought from the Advisors mentioned above in "General Information".

In executing securities transactions and in selecting any broker, dealer, or other counterparty, the Management Company and any Investment Managers will use due diligence in seeking the best overall terms available. For any transaction, this will involve consideration of all factors deemed relevant, such as market breadth, security price and the financial condition and execution capability of the counterparty. An investment manager may select counterparties from within BNP Paribas so long as they appear to offer the best overall terms available.

In addition, the Management Company may decide to appoint Distributors/Nominees to assist in the distribution of the Company's shares in the countries where they are marketed.

Distribution and Nominee contracts will be concluded between the Management Company and the various Distributors/Nominees.

In accordance with the Distribution and Nominee Contract, the Nominee will be recorded in the register of shareholders in place of the end shareholders.

Shareholders who have invested in the Company through a Nominee can at any time request the transfer to their own name of the shares subscribed via the Nominee. In this case, the shareholders will be recorded in the register of shareholders in their own name as soon as the transfer instruction is received from the Nominee.

Investors may subscribe to the Company directly without necessarily subscribing via a Distributor/Nominee.

The Company draws the investors' attention to the fact that any investor will only be able to fully exercise his investor rights directly against the Company, (notably the right to participate in general shareholders' meetings) if the investor is registered himself and in his own name in the shareholders' register of the Company. In cases where an investor invests in the Company through an intermediary investing into the Company in his own name but on behalf of the investor, it may not always be possible for the investor to exercise certain shareholder rights directly against the Company. Investors are advised to take advice on their rights.

Remuneration policy:

The Management Company applies a sound, effective and sustainable Remuneration Policy in line with the strategy, risk tolerance, goals and values of the Company.

The Remuneration Policy is in line with and contributes to sound and effective risk management and doesn't encourage taking more risk than appropriate within the investment policy and terms and conditions of the Company.

The key principles of the remuneration policy are:

- Deliver a market-competitive remuneration policy and practice to attract, motivate and retain best performing employees;
- Avoid conflicts of interest;
- Achieve sound and effective remuneration policy & practice, avoiding excessive risk-taking;
- Ensure long-term risk alignment, and reward of long-term goals;
- Design and implement a sustainable and responsible remuneration strategy, with pay levels and structure which make economic sense for the business.

The details of the up-to-date Remuneration Policy can be found on the website under http://www.bnpparibas-am.com/en/remuneration-disclosure/, and will also be made available free of charge by the Management Company upon request.

Depositary

The Depositary performs three types of functions, namely

(i) the oversight duties (as defined in Article 22.3 of the Directive 2009/65 as amended),

(ii) the monitoring of the cash flows of the Company (as set out in Article 22.4 of the Directive 2009/65 as amended) and

(iii) the safekeeping of the Company's assets (as set out in Article 22.5 of the Directive 2009/65 as amended In accordance with standard banking practices and current regulations, the depositary may, under its responsibility, entrust some or all of the assets in its safekeeping to other banking establishments or financial intermediaries.

Under its oversight duties, the depositary must also ensure that:

(a) Ensure that the sale, issue, redemption and cancellation of the Shares are conducted in accordance with the Law and these Articles of Association.

(b) Ensure that the value of the Shares is calculated in accordance with the Law and these Articles of Association.

(c) Carry out the instructions of the Management Company, unless they conflict with the Law or these Articles of Association.

(d) Ensure that in transactions involving the Fund's assets, any consideration is remitted to it within the usual time limits.

(e) Ensure that the Fund's income is applied in accordance with these Articles of Association.

The Depositary shall not carry out activities with regard to the Company or the Management Company on behalf of the Company that may create conflicts of interest between the Company, its investors, the Management Company and itself, unless the Depositary has functionally and hierarchically separated the performance of its depositary tasks from its other potentially conflicting tasks.

Conflicts of interest

The overriding objective of the Depositary is to protect the interests of the Shareholders of the Company, which always prevail over any commercial interests.

Conflicts of interest may arise if and when the Management Company or the Company maintains other business relationships with BNP Paribas Securities Services, Luxembourg Branch in parallel with an appointment of BNP Paribas Securities Services, Luxembourg Branch acting as Depositary. For example, in the case where BNP Paribas Securities Services, Luxembourg Branch would provide the Company and the Management Company with fund administration services, including the net asset value calculation.

In order to address any situations of conflicts of interest, the Depositary has implemented and maintains a management of conflicts of interest policy, aiming namely at:

- Identifying and analysing potential situations of conflicts of interest;
- Recording, managing and monitoring the conflict of interest situations either in:
- Relying on the permanent measures in place to address conflicts of interest such as segregation of duties, separation of reporting lines, insider lists for staff members; or
- Implementing a case-by-case management to (i) take the appropriate preventive measures such as drawing up a new watch list, implementing a new Chinese wall (i.e. by separating functionally and hierarchically the performance of its Depositary duties from other activities), making sure that operations are carried out at arm's length and/or informing the concerned Shareholders of the Company, or (ii) refuse to carry out the activity giving rise to the conflict of interest.
- Implementing a deontological policy; - Recording of a cartography of conflict of interests permitting to create an inventory of the permanent measures put in place to protect the Company's interests; or
- Setting up internal procedures in relation to, for instance (i) the appointment of service providers which may generate conflicts of interests, (ii) new products/activities of the Depositary in order to assess any situation entailing a conflict of interest.

Sub-delegation by the Depositary:

In order to provide custody services in a large number of countries allowing the Company to meet their investment objectives, the Depositary has appointed entities as delegates for sub-custody functions. A list of these delegates is available on the website http://securities.bnpparibas.com/files/live/sites/portal/files/contributed/files/Regulatory/Ucits_delegates_EN.pdf, and will also be made available free of charge by the Depositary upon request.

Such list may be updated from time to time. A complete list of all delegates may be obtained, free of charge and upon request, from the Depositary.

The process of appointing such delegates and their continuing oversight follows the highest quality standards, including the management of any potential conflict of interest that should arise from such an appointment in accordance with the principles set out in the previous paragraph.

There is currently no conflict of interest arising from any delegation of the functions of safekeeping of the assets of the Company described in article 34(3) of the Law as amended. However in the event that conflicts of interest do arise, the Depositary will undertake to use its reasonable endeavours to resolve any such conflicts of interest fairly (having regard to its respective obligations and duties) and to ensure that the Company and the shareholders are fairly treated.

Independence requirement

The selection of the Depositary by the Management Company is based on robust, objective and pre-defined criteria and warrants the sole interest of the Company and its investors, Details about this selection process can be provided to investors upon request by the Management Company.

Auditor

All the Company's accounts and transactions are subject to an annual audit by the Auditor.

INVESTMENT POLICY, OBJECTIVES, RESTRICTIONS AND TECHNIQUES

The Company's general objective is to provide its investors with the highest possible appreciation of capital invested while offering them a broad distribution of risks. To this end, the Company will principally invest its assets in a range of transferable securities, money market instruments, units, or shares in UCIs, credit institution deposits, and financial derivative instruments denominated in various currencies and issued in different countries.

The Company's investment policy is determined by the Board of Directors in light of current political, economic, financial and monetary circumstances. The policy will vary for different sub-funds, within the limits of, and in accordance with, the specific features and objective of each as stipulated in Book II.

The investment policy will be conducted with strict adherence to the principle of diversification and spread of risks. To this end, without prejudice to anything that may be specified for one or more individual sub-funds, the Company will be subject to a series of investment restrictions as stipulated in Appendix 1. In this respect, the attention of investors is drawn to the investment risks described in Appendix 3.

Guaranteed Funds

The "Easy Future 2018-2043" (the "Guaranteed Funds") aim to provide their investors with long-term capital appreciation. The Guaranteed Funds each provide with a Guarantee in their respective Reference Currency which will be issued by BNP PARIBAS and will be effective on the Maturity Date of each Guaranteed Fund.

Each Guaranteed Fund has a specified life span and invests in progressively lower risk investments as its Maturity Date approaches. Therefore, the asset allocation of the Guaranteed Funds is expected to change over time.

Guarantee

The Guarantor will guarantee the Guaranteed Value to investors at the respective Maturity Date of each Guaranteed Fund. The Guarantee will apply to all Shares outstanding on the Maturity Date.

In case of a call of the Guarantee, the Guarantor will pay the Company on behalf of the relevant shareholders of any Guaranteed Fund the Total Amount Callable within 15 Business Days upon receipt of a drawing certificate (the "Drawing Certificate") to be issued by the Company no later than 5 Business Days after the Maturity Date, provided that such Total Callable Amount may be reduced by any Additional Amount, as the case may be.

The Guarantee shall be payable to any Guaranteed Fund as from the Maturity Date only. See below in the event the Company or any Guaranteed Fund is liquidated before its Maturity Date.

Shareholders, who redeem their Shares on a date other than the Maturity Date, will be paid the NAV per Share on the date of such redemption.

The Board of Directors reserves the right not to increase the Guaranteed Value if a sub-fund's assets consist solely of fixed income securities such as money market instruments or time deposits or UCITS/UCI invested in money market instruments. This could occur when a sub-fund comes closer to its Maturity Date.The Guarantor reserves the right to terminate the Guarantee:

(i) In the event where the Board of Directors of the Company is no longer composed of a majority of representatives of the BNP Paribas Group for reasons other than voluntary resignation;

(ii) If the Management Company is replaced by a company chosen from outside the BNP Paribas Group without the consent of the Guarantor (provided that the Guarantor will not unreasonably withhold its consent regarding the replacement);

(iii) If the Management Company and/or the Investment Manager is no longer directly or indirectly controlled by the Guarantor.

The Board of Directors has adopted a corporate governance policy that includes voting at shareholders' meetings of companies in which sub-funds invest. The main principles governing the Board's voting policy relate to a company's ability to provide shareholders with transparency and accountability with respect to the shareholders' investments and that a company should be managed to assure growth and return of the shares over the long term. The Board of Directors shall execute the voting policy in good faith taking into account the best interest of the shareholders of the investment funds. For further reference please consult also the website www.bnpparibas-am.com.

Furthermore, the Company is authorised to utilise techniques and instruments on transferable securities and money market instruments under the conditions and limits defined in Appendix 2, provided that these techniques and financial derivative instruments are employed for the purposes of efficient portfolio management. When these operations involve the use of financial derivative instruments, these conditions and limits must comply with the provisions of the Law. Under no circumstances can these operations cause the Company and its sub-funds to deviate from the investment objectives as described in the Prospectus.

Unless otherwise above specified, no guarantee can be given on the realisation of the investment objectives of the sub-funds and past performance is not an indicator of future performance.

SHARE CATEGORIES, SUB-CATEGORIES AND CLASSES

A. CATEGORIES

Within each sub-fund, the Board of Directors will be able to create and issue the share categories listed below and add new valuation currencies to existing shares.

Category	***Investors***	***Initial subscription price per share*** [(1)]	***Minimum holding*** [(2)]	***Maximum Fees payable by the investors***		
				Entry	**Conversion** [(3)]	**Exit**
Classic	All		None	3%	1.50%	none
Privilege	Distributors [(5)], Managers All	100.- in the Reference Currencies [(4)]	<u>Distributors</u> [(5)]<u>:</u> none <u>Managers</u>: none <u>Others:</u> EUR 3 million per sub-fund	3%	1.50%	none
I	Institutional Investors, UCIs	100.- in the Reference Currencies	<u>Institutional Investors</u>: EUR 3 million per sub-fund or EUR 10 million in the Company <u>UCIs</u>: none	none	none	none
X	Authorised Investors		None	none	none	none

(1) Entry Fees excluded, if any
(2) At the discretion of the Board of Directors
(3) in the event of conversion to a sub-fund with a higher Entry Fees, the difference may be payable
(4) Unless otherwise stipulated in Book II
(5) Distributors which provide only fee-based independent advisory services as defined by MiFID, with respect to distributors that are incorporated in the EEA

B. CAPITALISATION / DISTRIBUTIONS CLASSES

Any of the above share categories / sub-categories are issued in Capitalisation (“CAP”) and/or Distribution (“DIS”) classes as defined below.

1. CAP

CAP shares retain their income to reinvest it.

2. DIS

DIS shares may pay dividend to shareholders on an annual, monthly or quarterly basis.

The general meeting of shareholders holding DIS shares for each sub-fund concerned decides each year on the Board of Directors’ proposal to pay a dividend, which is calculated in accordance with the limitations defined by law and the Articles of Association. In this respect, the general meeting reserves the right to distribute the net assets of each of the Company’s sub-funds up to the limit of the legal minimum capital. The nature of the distribution (net investment income or capital) will be mentioned in the Company’s Financial Statements.

If, given market conditions, it is in the shareholders’ interest not to distribute a dividend, then no such distribution will be carried out.

If it deems it advisable, the Board of Directors may decide to distribute interim dividends.

The Board of Directors determines the payment methods for the dividends and interim dividends that have been decided upon. Dividends will, in principle, be paid in the Reference Currency of the class (exchange costs incurred for payments in different currencies will be borne by the investor).

Declared dividends and interim dividends not collected by shareholders within a period of five years from the payment date will lapse and revert to the sub-fund concerned.

Interest will not be paid on declared and unclaimed dividends or interim dividends, which will be held by the Company on behalf of the shareholders of the sub-fund for the duration of the legal limitation period.

C. SHARE LEGAL FORMS

All the shares are issued in registered form.

“Classic”, “Privilege“ and “I” shares may also be issued in bearer form.

The shares are all listed into specific registers kept in Luxembourg by the Registrar Agent indicated in the section “General Information”. Unless otherwise specified, shareholders will not receive a certificate representing their shares. Instead, they will receive a confirmation of their entry into the register.

Further to the Luxembourg law of 28 July 2014, all physical bearer shares have been cancelled. The cash equivalent of such cancelled shares has been deposited with the Luxembourg *Caisse de Consignation*.

D. GENERAL PROVISION AVAILABLE FOR ALL SHARES

The Board of Directors has the option of adding new valuation currencies to existing categories or classes and, with the previous approval of the CSSF, of adding new share categories, sub-categories and classes to existing sub-funds with the same specification as those described above on points A, B and C. Such a decision will not be published but the website www.bnpparibas-am.com and the next version of the prospectus will be updated accordingly.

The Board of Directors may depart from the initial subscription price per share. However, the equal treatment of shareholders shall be preserved at all time.

The Board of Directors may decide at any time to split or consolidate the shares issued within one same sub-fund, category, or class into a number of shares determined by the Board itself. The total net asset value of such shares must be equal to the net asset value of the subdivided/consolidated shares existing at the time of the splitting/consolidation event.

If the assets of a category/class fall below EUR 1,000,000.00 or equivalent, the Board of Directors reserves the right to liquidate or merge it with another category/class if it decides it is in the best interest of shareholders.

If it transpires that shares are held by persons other than those authorised, they will be converted to the appropriate category, class or currency.

The shares must be fully paid-up and are issued without a par value. Unless otherwise indicated, there is no limitation on their number. The rights attached to the shares are those described in the law of 10 August 1915, unless exempted by the Law.

Fractions of shares may be issued up to one-hundredth of a share.

All the Company's whole shares, whatever their value, have equal voting rights. The shares of each sub-fund, category, or class have an equal right to the liquidation proceeds of the sub-fund, category, or class.

If no specific information is given by the investor, orders received will be processed in the Reference Currency of the category.

SUBSCRIPTION, CONVERSION AND REDEMPTION OF SHARES

The shares of the Company may be locally offered for subscription via regular savings plans, redemption and conversion programs, specific to this local supply, and may be subject to additional charges.

In the event that a regular savings plan is terminated prior to the agreed final date, the sum of entry fees payable by the shareholders concerned may be greater than would have been the case for standard subscriptions.

Investors may be required to appoint a paying agent as nominee (the "Nominee") for all actions connected with their shareholding in the Company.

On the basis of this mandate, the Nominee is specifically required to:

- send requests for subscription, conversion, and redemption, grouped by share category, share class, sub-fund and distributor to the Company;
- be listed on the Company's register in its name "on behalf of a third party"; and
- exercise the investor's voting right (if any), according to the investor's instructions.

The Nominee must make every effort to keep an up-to-date electronic list of investors' names and addresses and the number of shares held; the status of shareholder can be verified via the confirmation letter sent to the investor by the Nominee.

Investors are informed that they may be required to pay additional fees for the activity of the above Nominee.

For further details, investors are invited to read the subscription documents available from their usual distributor.

Preliminary Information

Subscriptions, conversions and redemptions of shares are made with reference to their unknown net asset value (NAV). They may concern a number of shares or an amount.

The Board of Directors reserves the right to:

(a) refuse a subscription, or conversion request for any reason whatsoever in whole or in part;
(b) redeem, at any time, shares held by persons who are not authorised to buy or hold the Company's shares;
(c) reject subscription, conversion or redemption requests from any investor who it suspects of using practices associated with Market Timing and Active Trading, and, where applicable, take necessary measures to protect the other investors in the Company, notably by charging an additional exit fees up to 2% of the order amount to be retained by the sub-fund.

The Board of Directors is authorised to set minimum amounts for subscription, conversion, redemption and holding.

Subscriptions from entities which submit subscription applications and whose names show that they belong to one and the same group, or which have one central decision-making body, will be grouped together to calculate these minimum subscription amounts.

Should a share redemption or conversion request, a merger/splitting procedure, or any other event, have the effect of reducing the number or the total net book value of the shares held by a shareholder to below the number or value decided upon by the Board of Directors, the Company may redeem all the shares. In certain cases stipulated in the section on suspension of the calculation of the NAV, the Board of Directors is authorised to temporarily suspend the issue, conversion and redemption of shares and the calculation of their net asset value.

The Board of Directors may decide, in the interest of the shareholders, to close a sub-fund, category and/or class for subscription or conversion in, under certain conditions and for the time it defines. Such a decision will not be published but the website www.bnpparibas-am.com will be updated accordingly.

In connection with anti-money laundering procedures, the subscription form must be accompanied, in the case of an individual, by the identity card or passport of the subscriber, authenticated by a competent authority (for example, an embassy, consulate, notary, police superintendent) or by a financial institution subject to equivalent identification standards to those applicable in Luxembourg or the Articles of Association; and by an extract from the trade and companies register for a legal entity, in the following cases:

1. **direct subscription to the Company;**
2. **subscription through a professional financial sector intermediary resident in a country that is not subject to an obligation for identification equivalent to Luxembourg standards as regards preventing the use of the financial system for the purposes of money laundering;**
3. **subscription through a subsidiary or branch office, the parent company of which would be subject to an obligation for identification equivalent to that required under Luxembourg law, if the law applicable to the parent company does not oblige it to ensure that its subsidiaries or branch offices adhere to these provisions.**

The Company is also bound to identify the source of funds if they come from financial institutions that are not subject to an obligation for identification equivalent to those required under Luxembourg law. Subscriptions may be temporarily frozen pending identification of the source of the funds.

It is generally accepted that finance sector professionals resident in countries that have signed up to the conclusions of the FATF (Financial Action Task Force) on money laundering are deemed to have an obligation for identification equivalent to that required under Luxembourg law.

Processing of Personal Information

In submitting a subscription request, the investor authorises the Company to store and utilise all of the confidential information that it may acquire on the investor with a view to managing its account or their business relationship. To the extent that this usage so requires, the investor also authorises the sharing of this information with different service providers of the Company. It is to be noted that some service providers established outside of the European Union may be subject to less stringent rules on the safeguarding of information. The information may be used for purposes of filing, order processing, responding to shareholder requests, and providing them with information on other Company products and services. Neither the Company nor its Management Company will disclose confidential information on shareholders unless required to do so by specific regulations.

Subscriptions

The shares will be issued at a price corresponding to the net asset value per share plus the entry fees as described in the above table.

For an order to be executed at the net asset value on a given valuation day, it must be received by the Company before the time and date specified in the detailed conditions for each sub-fund in Book II. Orders received after this deadline will be processed at the net asset value on the next valuation day.

In order to be accepted by the Company, the order must include all necessary information relating to the identification of the subscribed shares and the identity of the subscriber as described above.

Unless otherwise specified for a particular sub-fund, the subscription price of each share is payable in one of the valuation currencies of the shares concerned within the time period defined in Book II, increased, where necessary, by the applicable entry fees. At the shareholder's request, the payment may be made in a currency other than one of the valuation currencies. The exchange expenses will then be borne by the shareholder.

The Company reserves the right to postpone, and/or cancel subscription requests if it is not certain that the appropriate payment will reach the Depositary within the required payment time or if the order is incomplete. The Board of Directors or its agent may process the request by applying an additional charge to reflect interest owed at the customary market rates; or cancelling the share allotment, as applicable accompanied by a request for compensation for any loss owing to failure to make payment before the stipulated time limit. The shares will not be assigned until the duly completed subscription request has been received accompanied by the payment or a document irrevocably guaranteeing that the payment will be made before the deadline. The Company cannot be held responsible for the delayed processing of incomplete orders.

Any outstanding balance remaining after subscription will be reimbursed to the shareholder, unless the amount is less than EUR 15 or its currency equivalent, as the case may be. Amounts thus not reimbursed will be retained by the relevant sub-fund.

The Board of Directors may accept the issue of shares in exchange for the contribution in kind of transferable securities, in accordance with the conditions defined by Luxembourg Law, in particular with respect to the obligation for the submission of a valuation report by the Auditor mentioned under “General Information” above, and provided that these transferable securities meet the Company’s investment policy and restrictions for the sub-fund concerned as described in Book II. Unless otherwise specified, the costs of such a transaction will be borne by the applicant.

Conversions

Without prejudice to the specific provisions of a sub-fund, category, or class, shareholders may request the conversion of some or all of their shares into shares of another sub-fund, category, or class. The number of newly issued shares and the costs arising from the transaction are calculated in accordance with the formula described below.

Conversions are only permitted between the following categories:

From \ To	Classic	Privilege	I	X
Classic	Yes	Yes	Yes	No
Privilege	Yes	Yes	Yes	No
I	Yes	Yes	Yes	No
X	Yes	Yes	Yes	Yes

Conversion principles of the sub-categories are the same as those of their mother-category.

For a conversion order to be executed at the net asset value on a given valuation day, it must be received by the Company before the time and date specified for each sub-fund in Book II. Orders received after this deadline will be processed at the net asset value on the next valuation day.

Conversion Formula

The number of shares allocated to a new sub-fund, category or class will be established according to the following formula:

$$A = \frac{B \times C \times E}{D}$$

A being the number of shares to be allocated in the new sub-fund;
B being the number of shares of the original sub-fund to be converted;
C being the prevailing net asset value per share of the original sub-fund on the relevant Valuation Day;
D being the prevailing net asset value per share of the new sub-fund on the relevant Valuation Day; and
E being the exchange rate applicable at the time of the transaction between the currencies of the two concerned sub-funds

Investors will be charged for any foreign exchange transactions carried out at their request.

In the case of shares held in account (with or without attribution of fractions of shares), any outstanding balance remaining after conversion will be reimbursed to the shareholder, unless the amount is less than EUR 15 or its currency equivalent, as the case may be. Amounts thus not reimbursed will be deemed belonging to the relevant sub-fund.

Redemptions

Subject to the exceptions and limitations prescribed in the Prospectus, all shareholders are entitled, at any time, to have their shares redeemed by the Company.

For an order to be executed at the net asset value on a given valuation day, it must be received by the Company before the time and date specified in the conditions for each sub-fund in Book II. Orders received after this deadline will be processed at the net asset value on the next valuation day.

In order to be accepted by the Company, the order must include all necessary information relating to the identification of the shares in question and the identity of the shareholder as described above.

Unless otherwise specified for a particular sub-fund, the redemption amount for each share will be reimbursed in the subscription currency, less, where necessary, the applicable exit fees.

At the shareholder’s request, the payment may be made in a currency other than the subscription currency of the redeemed shares, in which case the exchange costs will be borne by the shareholder and charged against the redemption price. The redemption price of shares may be higher or lower than the price paid at the time of subscription (or conversion), depending on whether the net asset value has appreciated or depreciated in the interval.

The Company reserves the right to postpone redemption requests if the order is incomplete. The Company cannot be held responsible for the delayed processing of incomplete orders.

Redemptions in kind are possible upon specific approval of the Board of Directors, provided that the remaining shareholders are not prejudiced and that a valuation report is produced by the Company's Auditor. The type and kind of assets that may be transferred in such cases will be determined by the manager, taking into account the investment policy and restrictions of the sub-fund in question. The costs of such transfers may be borne by the applicant.

In the event that the total net redemption/conversion applications received for a given sub-fund on a Valuation Day equals or exceeds 10% of the net assets of the sub-fund in question, the Board of Directors may decide to split and/or defer the redemption/conversion applications on a pro-rata basis so as to reduce the number of shares redeemed/converted to date to 10% of the net assets of the sub-fund concerned. Any redemption/conversion applications deferred shall be given in priority in relation to redemption/conversion applications received on the next Valuation Day, again subject to the limit of 10% of net assets.

In the case of shares held in account (with or without attribution of fractions of shares), any outstanding balance remaining after redemption will be reimbursed to the shareholder, unless the amount is less than EUR 15 or its currency equivalent, as the case may be. Amounts thus not reimbursed will be deemed belonging to the relevant sub-fund.

Stock exchange listing

By decision of the Board of Directors, the shares may be admitted to official listing on the Luxembourg Stock Exchange and/or as applicable on another securities exchange.

At the date of this Prospectus, there are no shares listed on any stock exchange.

NET ASSET VALUE

CALCULATION OF THE NET ASSET VALUE PER SHARE

Each net asset value calculation will be made as follows under the responsibility of the Board of Directors:

1. The net asset value will be calculated as specified in Book II.
2. The net asset value per share will be calculated with reference to the total net assets of the corresponding sub-fund, category, or class. The total net assets of each sub-fund, category, or class will be calculated by adding all the asset items held by each (including the entitlements or percentages held in certain internal sub-portfolios as more fully described in point 4, below) from which any related liabilities and commitments will be subtracted, all in accordance with the description in point 4, paragraph 4, below.
3. The net asset value per share of each sub-fund, category, or class will be calculated by dividing its respective total net assets by the number of shares in issue, up to two decimal places.
4. Internally, in order to ensure the overall financial and administrative management of the set of assets belonging to one or more sub-funds, categories, or classes, the Board of Directors may create as many internal sub-portfolios as there are sets of assets to be managed (the “internal sub-portfolios”).

   Accordingly, one or more sub-funds, categories, or classes that have entirely or partially the same investment policy may combine the assets acquired by each of them in order to implement this investment policy in an internal sub-portfolio created for this purpose. The portion held by each sub-fund, category, or class within each of these internal sub-portfolios may be expressed either in terms of percentages or in terms of entitlements, as specified in the following two paragraphs. The creation of an internal sub-portfolio will have the sole objective of facilitating the Company’s financial and administrative management.

   The holding percentages will be established solely on the basis of the contribution ratio of the assets of a given internal sub-portfolio. These holding percentages will be recalculated on each valuation day to take account of any redemptions, issues, conversions, distributions or any other events generally of any kind affecting any of the sub-funds, categories, or classes concerned that would increase or decrease their participation in the internal sub-portfolio concerned.

   The entitlements issued by a given internal sub-portfolio will be valued as regularly and according to identical methods as those mentioned in points 1, 2 and 3, above. The total number of entitlements issued will vary according to the distributions, redemptions, issues, conversions, or any other events generally of any kind affecting any of the sub-funds, categories, or classes concerned that would increase or decrease their participation in the internal sub-portfolio concerned.
5. Whatever the number of categories, or classes created within a particular sub-fund, the total net assets of the sub-fund will be calculated at the intervals defined by Luxembourg Law, the Articles of Association, or the Prospectus. The total net assets of each sub-fund will be calculated by adding together the total net assets of each category, or class created within the sub-fund.
6. Without prejudice to the information in point 4, above, concerning entitlements and holding percentages, and without prejudice to the particular rules that may be defined for one or more particular sub-funds, the net assets of the various sub-funds will be valued in accordance with the rules stipulated below.

COMPOSITION OF ASSETS

The Company’s assets primarily include:

1. cash in hand and cash deposit including interest accrued but not yet received and interest accrued on these deposits until the payment date;
2. all notes and bills payable on demand and accounts receivable (including the results of sales of securities before the proceeds have been received);
3. all securities, units, shares, bonds, options or subscription rights and other investments and securities which are the property of the Company;
4. all dividends and distributions to be received by the Company in cash or securities that the Company is aware of;
5. all interest accrued but not yet received and all interest generated up to the payment date by securities which are the property of the Company, unless such interest is included in the principal of these securities;
6. the Company's formation expenses, insofar as these have not been written down;
7. all other assets, whatever their nature, including prepaid expenses.

VALUATION RULES

The assets of each sub-fund shall be valued as follows:

1. The value of cash in hand and cash deposit, bills and drafts payable at sight and accounts receivable, prepaid expenses, and dividends and interest due but not yet received, shall comprise the nominal value of these assets, unless it is unlikely that this value could be received; in that event, the value will be determined by deducting an amount which the Company deems adequate to reflect the actual value of these assets;
2. The value of shares or units in undertakings for collective investment shall be determined on the basis of the last net asset value available on the Valuation Day. If this price is not a true reflection, the valuation shall be based on the probable sale price estimated by the Board of Directors in a prudent and bona fide manner.
3. The valuation of all securities listed on a stock exchange or any other regulated market, which functions regularly, is recognised and accessible to the public, is based on the last known closing price on the Valuation Day, and, if the securities concerned are traded on several markets, on the basis of the last known closing price on the major market on which they are traded. If the last known closing price is not a true reflection, the valuation shall be based on the probable sale price estimated by the Board of Directors in a prudent and bona fide manner;
4. Unlisted securities or securities not traded on a stock exchange or another regulated market which functions in a regular manner, is recognised and accessible to the public, shall be valued on the basis of the probable sale price estimated in a prudent and bona fide manner by a qualified professional appointed for this purpose by the Board of Directors;
5. Securities denominated in a currency other than the currency in which the sub-fund concerned is denominated shall be converted at the exchange rate prevailing on the Valuation Day;
6. If permitted by market practice, liquid assets, money market instruments and all other instruments may be valued at their nominal value plus accrued interest or according to the linear amortisation method. Any decision to value the assets in the portfolio using the linear amortisation method must be approved by the Board of Directors, which will record the reasons for such a decision. The Board of Directors will put in place appropriate checks and controls concerning the valuation of the instruments;
7. The Board of Directors is authorised to draw up or amend the rules in respect of the relevant valuation principles after concertation with the different parties;.
8. IRS shall be valued on the basis of the difference between the value of all future interest payable by the Company to its counterparty on the valuation date at the zero coupon swap rate corresponding to the maturity of these payments and the value of all future interest payable by the counterparty to the Company on the valuation date at the zero coupon swap rate corresponding to the maturity of these payments.

COMPOSITION OF LIABILITIES

The Company's liabilities primarily include:

1. all loans, matured bills and accounts payable;
2. all known liabilities, whether or not due, including all contractual obligations due and relating to payment in cash or kind, including the amount of dividends announced by the Company but yet to be paid;
3. all reserves, authorised or approved by the Board of Directors, including reserves set up in order to cover a potential capital loss on certain of the Company's investments;
4. any other undertakings given by the Company, except for those represented by the Company's equity. For the valuation of the amount of these liabilities, the Company shall take account of all the charges for which it is liable, including, without restriction, the costs of amendments to the Articles of Association, the Prospectus and any other document relating to the Company, management, advisory, performance and other fees and extraordinary expenses, any taxes and duties payable to government departments and stock exchanges, the costs of financial charges, bank charges or brokerage incurred upon the purchase and sale of assets or otherwise. When assessing the amount of these liabilities, the Company shall take account of regular and periodic administrative and other expenses on a prorata temporis basis.

The assets, liabilities, expenses and fees not allocated to a sub-fund, category, or class shall be apportioned to the various sub-funds, categories or classes in equal parts or, subject to the amounts involved justifying this, proportionally to their respective net assets. Each of the Company's shares which is in the process of being redeemed shall be considered as a share issued and existing until closure on the Valuation Day relating to the redemption of such share and its price shall be considered as a liability of the Company as from closing on the date in question until such time as the price has been duly paid. Each share to be issued by the Company in accordance with subscription applications received shall be considered as being an amount due to the Company until such time as it has been duly received by the Company. As far as possible, account shall be taken of any investment or divestment decided by the Company until the Valuation Day.

SUSPENSION OF THE CALCULATION OF NET ASSET VALUE AND THE ISSUE, CONVERSION AND REDEMPTION OF SHARES

Without prejudice to legal causes for suspension, the Board of Directors may at any time temporarily suspend the calculation of the net asset value of shares of one or more sub-funds, as well as the issue, conversion and redemption in the following cases:

1. during any period when one or more currency markets or a stock exchange, which are the main markets or exchanges where a substantial portion of a sub-fund's investments at a given time are listed, is/are closed, except for normal closing days, or during which trading is subject to major restrictions or is suspended;
2. when the political, economic, military, currency, social situation or any event of *force majeure* beyond the responsibility or power of the Company makes it impossible to dispose of one assets by reasonable and normal means, without seriously harming the shareholders' interests;
3. during any failure in the means of communication normally used to determine the price of any of the Company's investments or the going prices on a particular market or exchange;
4. when restrictions on foreign exchange or transfer of capital prevents transactions from being carried out on behalf of the Company or when purchases or sales of the Company's assets cannot be carried out at normal exchange rates;
5. as soon as a decision has been taken to either liquidate the Company or one or more sub-funds, categories or classes;
6. to determine an exchange parity under a merger, partial business transfer, splitting, or any restructuring operation within, by or in one or more sub-funds, categories or classes;
7. for a "Feeder" sub-fund, when the net asset value, issue, conversion, or redemption of units, or shares of the "Master" sub-fund are suspended;
8. any other cases when the Board of Directors estimates by a justified decision that such a suspension is necessary to safeguard the general interests of the shareholders concerned.

In the event the calculation of the net asset value is suspended, the Company shall immediately and in an appropriate manner inform the shareholders who requested the subscription, conversion or redemption of the shares of the sub-fund(s) in question.

In exceptional circumstances which could have a negative impact on shareholders' interests, or in the event of subscription, redemption or conversion applications exceeding 10% of a sub-fund's net assets, the Board of Directors reserves the right not to determine the value of a share until such time as the required purchases and sales of securities have been made on behalf of the sub-fund. In that event, subscription, redemption and conversion applications in the pipeline will be processed simultaneously on the basis of the net asset value so calculated.

Pending subscription, conversion and redemption applications may be withdrawn by written notification provided that such notification is received by the company prior to lifting of the suspension. Pending applications will be taken into account on the first calculation date following lifting of the suspension. If all pending applications cannot be processed on the same calculation date, the earliest applications shall take precedence over more recent applications.

SWING PRICING

In certain market conditions, taking account of the volume of purchase and sale transactions in a given sub-fund and the size of these transactions, the Board of Directors may consider that it is in the interest of shareholders to calculate the NAV per share based on the purchase and sale prices of the assets and/or by applying an estimate of the difference between the buy and sell prices applicable on the markets on which the assets are traded. The Board of Directors may further adjust the NAV for transaction fees and sales commissions, provided these fees and commissions do not exceed 1% of the NAV of the sub-fund at that time.

TAX PROVISIONS

TAXATION OF THE COMPANY

At the date of the Prospectus, the Company is not liable to any Luxembourg income tax or capital gains tax.

The Company is liable to an annual *taxe d'abonnement* in Luxembourg representing 0.05% of the net asset value. This rate is reduced to 0.01% for:

a) sub-funds with the exclusive objective of collective investments in money market instruments and deposits with credit institutions;
b) sub-funds with the exclusive objective of collective investments with credit institutions;
c) sub-funds, categories or classes reserved for Institutional Investors, Managers, and UCIs.

The following are exempt from this *taxe d'abonnement*:

a) the value of assets represented by units, or shares in other UCIs, provided that these units or shares have already been subject to the *taxe d'abonnement*;
b) sub-funds, categories and/or classes:
    (i) whose securities are reserved to Institutional Investors, Managers or UCIs and
    (ii) whose sole object is the collective investment in money market instruments and the placing of deposits with credit institutions, and
    (iii) whose weighted residual portfolio maturity does not exceed 90 days, and
    (iv) that have obtained the highest possible rating from a recognised rating agency;
c) sub-funds, categories and/or classes reserved to:
    (i) institutions for occupational retirement pension or similar investment vehicles, set up at the initiative of one or more employers for the benefit of their employees, and
    (ii) companies having one or more employers investing funds to provide pension benefits to their employees;
d) sub-funds whose main objective is investment in microfinance institutions;
e) sub-funds, categories and/or classes:
    (i) whose securities are listed or traded on at least one stock exchange or another regulated market operating regularly that is recognized and open to the public, and
    (ii) whose exclusive object is to replicate the performance of one or several indices.

When due, the *taxe d'abonnement* is payable quarterly based on the relevant net assets and calculated at the end of the quarter for which it is applicable.

In addition, the Company may be subject to foreign UCI's tax, and/or other regulators levy, in the country where the sub-fund is registered for distribution.

TAXATION OF THE COMPANY'S INVESTMENTS

Some of the Company's portfolio income, especially income in dividends and interest, as well as certain capital gains, may be subject to tax at various rates and of different types in the countries in which they are generated. This income and capital gains may also be subject to withholding tax. Under certain circumstances, the Company may not be eligible for the international agreements preventing double taxation that exist between the Grand Duchy of Luxembourg and other countries. Some countries will only consider that persons taxable in Luxembourg qualify under these agreements.

TAXATION OF SHAREHOLDERS

a) <u>Residents of the Grand Duchy of Luxembourg</u>

On the date of the Prospectus, the dividends earned and capital gains made on the sale of shares by residents of the Grand Duchy of Luxembourg are not subject to withholding tax.

Dividends are subject to income tax at the personal tax rate.

Capital gains made on the sale of shares are not subject to income tax if the shares are held for a period of over six months, except in the case of resident shareholders holding over 10% of the shares of the Company.

b) <u>Non-residents</u>

In principle, according to current law:

- the dividends earned and the capital gains made on the sale of shares by non-residents are not subject to Luxembourg withholding tax;
- the capital gains made by non-residents on the sale of shares are not subject to Luxembourg income tax.

Nevertheless, if there is a dual tax convention between the Grand Duchy and the shareholder's country of residence, the capital gains made on the sale of shares are tax-exempt in principle in Luxembourg, with the taxation authority being attributed to the shareholder's country of residence.

EXCHANGE OF INFORMATION

a) <u>Residents of another member state of the European Union, including the French overseas departments, the Azores, Madeira, the Canary Islands, the Åland Islands and Gibraltar.</u>

Any individual who receives dividends from the Company or the proceeds from the sale of shares in the Company through a paying agent based in a state other than the one in which he resides is advised to seek information on the legal and regulatory provisions applicable to him.

In most countries covered by Directive 2011/16 and 2014/107, the total gross amount distributed by the Company and/or the total gross proceeds from the sale, refunding or redemption of shares in the Company will be reported to the tax authorities in the state of residence of the beneficial owner of the income.

b) <u>Residents of third countries or territories</u>

No withholding tax is levied on interest paid to residents of third countries or territories.

Nevertheless, in the framework of Automatic Exchange of Information package (AEOI) covering fiscal matters elaborated by OECD. The Management Company may need to collect and disclose information about the Company's shareholders to third parties, including the tax authorities of the participating country in which the beneficiary is tax resident, for the purpose of onward transmission to the relevant jurisdictions. The data of financial and personal information as defined by this regulation which will be disclosed may include (but is not limited to) the identity of the Company's shareholders and their direct or indirect beneficiaries, beneficial owners and controlling persons. A shareholder will therefore be required to comply with any reasonable request from the Management Company for such information, to allow the Management Company to comply with its reporting requirements. The exchange will be made in 2017 on the data collected in 2016 for the "early adopters' countries" and in 2018 on the data collected in 2017 for the other AEOI participating countries (Austria and Switzerland). The list of AEOI participating countries is available on the website http://www.oecd.org/tax/automatic-exchange/

c) US Tax

Under the Foreign Account Tax Compliance Act (“FATCA”) provisions which entered into force as from 1st July 2014, in the case the Company invests directly or indirectly in US assets, income received from such US investments might be subject to a 30% US withholding tax.

To avoid such withholding tax the Grand Duchy of Luxembourg has entered, on 28th March 2014, into an intergovernmental agreement (the “IGA”) with the United States under which the Luxembourg financial institutions have to undertake due diligence to report certain information on their direct or indirect U.S. investors to the Luxembourg Tax authorities. Such information will be onward reported by the Luxembourg tax authorities to the U.S. Internal Revenue Service.

The foregoing provisions are based on the Law and practices currently in force, and might be subject to change. Potential investors are advised to seek information in their country of origin, place of tax residence or domicile on the possible tax consequences associated with their investment. The attention of investors is also drawn to certain tax provisions specific to several countries in which the Company publicly trades its shares.

GENERAL MEETINGS AND INFORMATION FOR SHAREHOLDERS

GENERAL SHAREHOLDERS' MEETINGS

The Annual General Shareholders' Meeting is held at 10.00 a.m. on the third Thursday of February at the Company's registered office or any other location in the Grand Duchy of Luxembourg specified in the notice to attend the meeting. If that day is not a bank business day in Luxembourg, the Annual General Meeting will be held on the following bank business day. Other General Meetings may be convened in accordance with the prescriptions of Luxembourg law and the Company's Articles of Association.

Notices inviting shareholders to attend General Meetings will be published according to the forms and times prescribed in Luxembourg law and the Company's Articles of Association, and at least with a 14 days prior notice.

Similarly, General Meetings will be conducted as prescribed by Luxembourg law and the Company's Articles of Association.

Every share, irrespective of its unit value, entitles its holder to one vote. All shares have equal weight in decisions taken at the General Meeting when decisions concern the Company as a whole. When decisions concern the specific rights of shareholders of one sub-fund, category or class, only the holders of shares of that sub-fund, category or class may vote**.**

INFORMATION FOR SHAREHOLDERS

Net Asset Values

The Company publishes the legally required information in the Grand Duchy of Luxembourg and in all other countries where the shares are publicly offered.

This information is also available on the website: www.bnpparibas-am.com.

Financial Year

The Company's financial year starts on 1st November and ends on 31st October.

Financial Reports

The Company publishes an annual report closed on the last day of the financial year, certified by the auditors, as well as a non-certified, semi-annual interim report closed on the last day of the sixth month of the financial year. The Company is authorised to publish a simplified version of the financial report when required.

The financial reports of each sub-fund are published in the Accounting Currency of the sub-fund, although the consolidated accounts of the Company are expressed in euro.

The annual report is made public within four months of the end of the financial year and the interim report within two months of the end of the half-year.

Documents for Consultation

The Articles of Association, the Prospectus, the KIID, and periodic reports may be consulted at the Company's registered office and at the establishments responsible for the Company's financial service. Copies of the Articles of Association and the annual and interim reports are available upon request.

Except for the newspaper publications required by Law, the official media to obtain any notice to shareholders from the Company will be the website www.bnpparibas-am.com.

Documents and information are also available on the website: www.bnpparibas-am.com.

APPENDIX 1 – INVESTMENT RESTRICTIONS

For the purpose of this Appendix 1, the following definitions apply:

“Member State”: Member state of the European Union. The states that are contracting parties to the Agreement creating the European Economic Area other than the Member States of the European Union, within the limits set forth by this Agreement and related acts are considered as equivalent to Member States of the European Union.

“Third Country”: A country other than a Member State.

1. A sub-fund’s investments shall comprise only one or more of the following:
   a) transferable securities and money market instruments admitted to or dealt in on a regulated market as defined by Directive 2004/39;
   b) transferable securities and money market instruments dealt in on another regulated market in a Member State, which operates regularly and is recognised and open to the public;
   c) transferable securities and money market instruments admitted to official listing on a stock exchange in a country which is not a European Union Member State or dealt in on another regulated market in a country which is not a European Union Member State which operates regularly and is recognised and open to the public;
   d) recently issued transferable securities and money market instruments, provided that:
      (i) the terms of issue include an undertaking that an application will be made for admission to official listing on a stock exchange or to another regulated market which operates regularly and is recognised and open to the public; and
      (ii) the admission is secured within a year of issue;
   e) units or shares in UCITS authorised according to Directive 2009/65 and/or other UCIs within the meaning of Article 1(2)(a) and (b) of the Directive 2009/65, whether or not established in a Member State, provided that:
      (i) such other UCIs are authorised under laws which provide that they are subject to supervision considered by the CSSF to be equivalent to that laid down in EU legislation, and that cooperation between authorities is sufficiently ensured;
      (ii) the level of protection to unitholders or shareholders in these other UCIs is equivalent to that provided for unitholders or shareholders in a UCITS, and in particular that the rules on asset segregation, borrowing, lending, and uncovered sales of transferable securities and money market instruments are equivalent to the requirements of Directive 2009/65;
      (iii) the business of these other UCIs is reported in semi-annual interim and annual reports to enable an assessment to be made of the assets and liabilities, income and operations over the reporting period; and
      (iv) no more than 10% of the assets of the UCITS or of the other UCIs whose acquisition is contemplated, can,, according to their management regulations or articles of association, be invested in aggregate in units or shares of other UCITS or other UCIs;
   f) deposits with credit institutions which are repayable on demand or have the right to be withdrawn, and maturing in no more than 12 months, provided that the credit institution has its registered office in a Member State or, if the credit institution has its registered office in a Third Country, provided that it is subject to prudential rules considered by the CSSF as equivalent to those laid down in EU legislation;
   g) financial derivative instruments, including equivalent cash-settled instruments, dealt in on a regulated market referred to in points a), b) and c) above or financial derivative instruments dealt in over-the-counter (OTC) derivatives, provided that:
      (i) the underlying of the derivative consists of instruments covered by this paragraph 1., financial indices, interest rates, foreign exchange rates or currencies, in which the corresponding sub-fund may invest according to its investment objectives as stated in the Company’s Articles of Association.
      (ii) the counterparties to OTC derivative transactions are institutions subject to prudential supervision and belonging to the categories approved by the CSSF, and
      (iii) the OTC derivatives are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the Company’s initiative.
   h) money market instruments other than those dealt in on a regulated market, which fall under Article 1 of the Law, if the issue or issuer of such instruments is itself regulated for the purpose of protecting investors and savings, provided that they are:
      (i) issued or guaranteed by a central, regional or local authority or central bank of a Member State, the European Central Bank, the European Union or the European Investment Bank, a Third Country or, in the case of a Federal State, by one of the members making up the federation, or by a public international body to which one or more European Union Member States belong;
      (ii) issued by a company any securities of which are dealt in on regulated markets referred to in Section 1. paragraph a), b) or c) above;
      (iii) issued or guaranteed by an establishment subject to prudential supervision, in accordance with criteria defined by EU law, or by an establishment which is subject to and complies with prudential rules considered by the CSSF to be at least as stringent as those laid down by EU legislation; or
      (iv) issued by other bodies belonging to the categories approved by the CSSF provided that investments in such instruments are subject to investor protection equivalent to that laid down in points (i), (ii) or (iii)first, second or third sub-clauses immediately preceding, and provided that the issuer is a company whose capital and reserves amount to at least EUR 10 000 000 and which presents and publishes its annual accounts in accordance with the Directive 78/660, is an entity which, within a group of companies which includes one or several listed companies, is dedicated to the financing of the group or is an entity which is dedicated to the financing of securitisation vehicles which benefit from a banking liquidity line.
2. A sub-fund shall not, however:
   a) invest more than 10% of its assets in transferable securities, or money market instruments other than those referred to in Section 1.; or
   b) acquire either precious metals or certificates representing them.

   A sub-fund may hold ancillary liquid assets.

3. The Company may acquire movable or immovable property which is essential for the direct pursuit of its business.
4.
   a) A sub-fund shall invest no more than:
      (i) 10% of its assets in transferable securities or money market instruments issued by the same body; or
      (ii) 20% of its assets in deposits made with the same body.

      The risk exposure to a counterparty of a sub-fund in an OTC derivative transaction shall not exceed either:
      (i) 10% of its assets when the counterparty is a credit institution referred to Section 1. paragraph f); or
      (ii) 5% of its assets, in other cases.
   b) The total value of the transferable securities and the money market instruments held by a sub-fund in the issuing bodies in each of which it invests more than 5% of its assets shall not exceed 40% of the value of its assets. That limitation shall not apply to deposits or OTC derivative transactions made with financial institutions subject to prudential supervision.

      Notwithstanding the individual limits laid down in paragraph a), a sub-fund shall not combine, where this would lead to investment of more than 20% of its assets in a single body, any of the following:
      (i) investments in transferable securities or money market instruments issued by that body;
      (ii) deposits made with that body; or
      (iii) exposure arising from OTC derivative transactions undertaken with that body.
   c) The 10% limit laid down in paragraph a) point (i) may be raised to a maximum of 35% if the transferable securities or money market instruments are issued or guaranteed by a Member State, by its local authorities, by a Third Country or by public international body to which one or more Member States belong.
   d) The 10% limit laid down in the paragraph a) point (i) may be raised to a maximum of 25% where bonds are issued by a credit institution which has its registered office in a Member State and is subject by law to special public supervision designed to protect bond-holders. In particular, sums deriving from the issue of those bonds shall be invested in accordance with the law in assets which, during the whole period of validity of the bonds, are capable of covering claims attaching to the bonds and which, in the event of failure of the issuer, would be used on a priority basis for the reimbursement of the principal and payment of the accrued interest.

      Where a sub-fund invests more than 5% of its assets in the bonds referred to in the paragraph a) which are issued by a single issuer, the total value of these investments shall not exceed 80% of the value of the assets of the sub-fund.
   e) The transferable securities and money market instruments referred to in paragraphs c) and d) shall not be taken into account for the purpose of applying the limit of 40% referred to in paragraph b).

      The limits provided for in paragraph a), b), c) and d) shall not be combined, and thus investments in transferable securities or money market instruments issued by the same body or in deposits or derivative instruments made with this body carried out in accordance with paragraph a), b), c) and d) shall not exceed in total 35% of the assets of the sub-fund.

      Companies which are included in the same group for the purposes of consolidated accounts, as defined in Directive 83/349 or in accordance with recognised international accounting rules, shall be regarded as a single body for the purpose of calculating the limits contained in this Section 4.

      A sub-fund may cumulatively invest in transferable securities and money market instruments within the same group up to 20% of its assets.
5. Without prejudice to the limits laid down in Section 8., the limits laid down in Section 4. are raised to a maximum of 20% for investments in shares or debt securities issued by the same body, when the aim of the sub-fund's investment policy is to replicate the composition of a certain stock or debt securities index which is recognised by the CSSF, on the following basis:
   (i) its composition is sufficiently diversified;
   (ii) the index represents an adequate benchmark for the market to which it refers; and
   (iii) it is published in an appropriate manner.

   This limit of 20% shall be raised to a maximum of 35% where that proves to be justified by exceptional market conditions (such as, but not limited to, disruptive market conditions or extremely volatile markets) in particular in regulated markets where certain transferable securities or money market instruments are highly dominant. The investment up to that limit shall be permitted only for a single issuer.
6. **As an exception to Section 4., in accordance with the principle of risk-spreading, a sub-fund shall invest up to 100% of its assets in different transferable securities and money market instruments issued or guaranteed by a Member State, one or more of its local authorities, a Third Country part of the OECD, Brazil, People's Republic of China, India, Russia, Singapore and South Africa, or a public international body to which one or more Member States belong.**

   Such a sub-fund shall hold securities from at least six different issues, but securities from any single issue shall not account for more than 30% of its total assets.
7.
   a) A sub-fund may acquire the units or shares of UCITS or other UCIs referred to in Section 1. paragraph e), provided that no more than 20% of its assets are invested in units or shares of a single UCITS or other UCI. For the purposes of the application of this investment limit, each sub-fund in a multi-sub-fund UCI, as defined by Article 181 of the Law, is considered as a separate issuer, provided that the principle of segregation of the commitments of the different sub-funds with regard to third parties is assured.
   b) Investments made in units or shares of UCIs other than UCITS shall not exceed, in aggregate, 30% of the assets of a sub-fund. Where a sub-fund has acquired units or shares of another UCITS or UCIs, the assets of the respective UCITS or other UCIs are not combined for the purposes of the limits laid down in Section 4.
   c) Due to the fact that the Company may invest in UCI units, or shares, the investor is exposed to a risk of fees doubling (for example, the management fees of the UCI in which the Company is invested).

      A sub-fund may not invest in a UCITS, or other UCI (underlying), with a management fee exceeding 3% per annum.

      Where a sub-fund invests in the units or shares of other UCITS or UCIs that are managed, directly or by delegation, by the same management company or by any other company with which the management company is linked by common management or control, or by a substantial direct or indirect holding, the sub-fund will not incur any entry or exit costs for the units or shares of these underlying assets.

      The maximum annual management fee payable directly by the sub-fund is defined in Book II.

8.

a) The Company shall not acquire any shares carrying voting rights which would enable it to exercise significant influence over the management of an issuing body.

b) A sub-fund may acquire no more than:

(i) 10% of the non-voting shares of a single issuing body;

(ii) 10% of debt securities of a single issuing body;

(iii) 25% of the units or shares of a single sub-fund of UCITS or other UCI within the meaning of Article 2 Paragraph 2 of the Law ; or

(iv) 10% of the money market instruments of a single issuing body.

The limits laid down in points (ii), (iii) and (iv) may be disregarded at the time of acquisition if, at that time the gross amount of the debt securities or of the money market instruments, or the net amount of the securities in issue, cannot be calculated.

c) Paragraph a) and b) above do not apply with regard to:

(i) transferable securities and money market instruments issued or guaranteed by a Member State or its local authorities;

(ii) transferable securities and money market instruments issued or guaranteed by a country which is not a European Union Member State ;

(iii) transferable securities and money market instruments issued by a public international body to which one or more European Union Member States belong;

(iv) shares held by the Company in the capital of a company incorporated in a Third Country not member of the European Union investing its assets mainly in the securities of issuing bodies having their registered offices in that country, where under the legislation of that country, such a holding represents the only way in which the Company can invest in the securities of issuing of that country. This derogation shall apply only if in its investment policy the company from the Third Country not member of the European Union complies with the limits laid down in Sections 4., 7. and 8. paragraph a) and b). Where the limits set in Sections 4. and 7. are exceeded, Section 9. shall apply *mutatis mutandis*;

9. The sub-funds are not required to comply with the limits laid down in this Appendix when exercising subscription rights attaching to transferable securities or money market instruments which form part of their assets.

While ensuring observance of the principle of risk spreading, recently authorised sub-funds are allowed to derogate from Sections 4., 5., 6. and 7. for six months following the date of their authorisation.

If these limits are exceeded for reasons beyond the control of the sub-fund or as a result of the exercise of subscription rights, the sub-fund shall adopt as a priority objective for its sales transactions the remedying of that situation, taking due account of the interests of its shareholders.

10. A sub-fund may acquire currencies by means of “back-to-back” loans.

A sub-fund may borrow provided that such borrowing:

a) is made on a temporary basis and represents no more than 10% of its assets;

b) allows the acquisition of immovable property essential for the direct pursuit of its business and represents no more than 10% of its assets.

Such borrowing shall not exceed 15% of its assets in total.

11. Without prejudice to the application of Sections 1., 2., 3. and Appendix 2, a sub-fund shall not grant loans or act as a guarantor on behalf of third parties.

This shall not prevent a sub-fund from acquiring transferable securities, money market instruments or other financial instruments referred to in Section 1. paragraph e), g) and h) which are not fully paid.

12. A sub-fund shall not carry out uncovered sales of transferable securities, money market instruments or other financial instruments referred to in Section 1. paragraph e), g) and h).

13. By way of derogation of the above restriction, a sub-fund designed as “the Feeder” may invest:

a) at least 85% of its assets in units, or shares of another UCITS or another sub-fund of UCITS (the “Master”);

b) up to 15% of its assets in one or more of the following:

- ancillary liquid assets,
- financial derivative instruments, which may be used only for hedging purpose, in accordance with Section 1. paragraph g) and Appendix 2;
- movable and immovable property which is essential for the direct pursuit of its business.

14. A sub-fund may acquire shares of one or more other sub-funds of the Company (the target sub-fund), provided that:

- the target sub-fund does not in turn invest in the sub-fund;
- the proportion of assets that each target sub-fund invests in other target-sub-funds of the Company does not exceed 10%;
- any voting rights attached to the shares of the target sub-funds are suspended as long as they are held by the sub-fund and without prejudice to the appropriate processing in the accounts and the periodic reports; and
- in any events, for as long as these target sub-fund shares are held by the Company, their value shall not be taken into consideration for the calculation of the net assets of the Company for the purposes of verifying the minimum threshold of net assets required by the law.

As a general rule, the Board of Directors reserves the right to introduce other investment restrictions at any time when indispensable for conforming to the laws and regulations in force in certain states where the Company’s shares may be offered and sold. On the other hand, where permitted by current regulations applicable to the Company, the Board of Directors reserves the right to exempt one or more sub-funds from one or more of the investment restrictions specified above. These exceptions will be mentioned in the investment policies summarised in Book II for each of the sub-funds concerned.

FINANCIAL DERIVATIVE INSTRUMENTS

1. **General Information**

Without prejudice to any stipulations for one or more particular sub-funds, the Company is authorised, for each sub-fund and in conformity with the conditions set out below, to use financial derivative instruments for hedging, efficient portfolio management or trading (investment) purposes, in accordance with Section 1. paragraph g) of the Appendix 1 of the Prospectus (the “Appendix 1”).

Each sub-fund may, in the context of its investment policy and within the limits defined in Section 1 of the Appendix 1, invest in financial derivative instruments provided that the total risk to which the underlying assets are exposed does not exceed the investment limits stipulated in Section 4 of the Appendix 1. When a sub-fund invests in financial derivative instruments based on an **index**, these investments are not necessarily combined with the limits stipulated in Section 4 of the Appendix 1.

When a transferable security or a money market instrument comprises a derivative instrument, the derivative instrument must be taken into account for the application of the present provisions.

Calculation of counterparty risk linked to OTC derivative instruments

In conformity with Section 4.paragraph a) of the Appendix 1, the counterparty risk linked to OTC derivatives and efficient portfolio management techniques concluded by a sub-fund may not exceed 10% of its assets when the counterparty is a credit institution cited in Section 1.paragraph f) of the Appendix 1, or 5% of its assets in other cases.

The counterparty risk linked to OTC financial derivatives shall be based, as the positive mark to market value of the contract.

Valuation of OTC derivatives

In accordance with Section 1. paragraph g) of the Appendix 1, the Management Company will establish, document, implement and maintain arrangements and procedures which ensure appropriate, transparent and fair valuation of OTC derivatives.

Efficient Portfolio Management techniques

A sub-fund can use financial derivative instruments and Securities Financing Transactions for efficient portfolio management purpose provided that:

(a) They are economically appropriate in that they are realised in a cost-effective way;

(b) They are entered into for one or more of the following specific aims:

  (i) reduction of risk;

  (ii) reduction of cost;

  (iii) generation of additional capital or income for a sub-fund with a level of risk which is consistent with the risk profile of the sub-fund and the risk diversification rules described in Section 4. of the Appendix 1;

(c) Their risks are adequately captured by the risk management process of the sub-fund.

Efficient portfolio management shall not :

a) result in a change of the investment objective of the concerned sub-fund; or

b) add substantial additional risks in comparison to the original risk policy of the sub-fund.

Direct and indirect operational costs/fees arising from efficient portfolio management techniques may be deducted from the revenue delivered to the concerned sub-funds. The lending agent for the Company, BNP Paribas Securities Services, receives a fee amounting up to 20% of the gross revenue for its services. BNP Paribas Securities Services is a wholly-owned subsidiary of the BNP Paribas Group. These costs and fees will not include hidden revenues.

The following information is disclosed in the annual report of the Company:

a) the exposure of each sub-fund obtained through efficient portfolio management techniques;

b) the identity of the counterparty(ies) to these efficient portfolio management techniques;

c) the type and amount of collateral received by the sub-funds to reduce counterparty exposure; and

d) the revenues arising from efficient portfolio management techniques for the entire reporting period together with the direct and indirect operational costs and fees incurred.

2. **Global Exposure**

Determination of global exposure

According to the Circular 11/512, the Management Company must calculate the sub-fund’s global exposure at least **once a day**. The limits on global exposure must be complied with on an ongoing basis.

It is the responsibility of the Management Company to select an appropriate methodology to calculate the global exposure. More specifically, the selection should be based on the self-assessment by the Management Company of the sub-fund’s risk profile resulting from its investment policy (including its use of financial derivative instruments).

Risk measurement methodology according to the sub-fund’s risk profile

The sub-funds are classified after a self-assessment of their risk profile resulting from their investments policy including their inherent derivative investment strategy that determines two risk measurements methodologies:

- The advanced risk measurement methodology such as the Value-at-Risk (VaR) approach to calculate global exposure where:
  (a) The sub-fund engages in complex investment strategies which represent more than a negligible part of the sub-funds’ investment policy;
  (b) The sub-fund has more than a negligible exposure to exotic financial derivative instruments; or
  (c) The commitment approach doesn’t adequately capture the market risk of the portfolio.

  The sub-fund(s) under VaR are listed in point I.4.
- The commitment approach methodology to calculate the global exposure should be used in every other case.

2.1. Commitment approach methodology:

- The commitment conversion methodology for **standard derivatives** is always the market value of the equivalent position in the underlying asset. This may be replaced by the notional value or the price of the futures contract where this is more conservative.
- For **non-standard derivatives**, an alternative approach may be used provided that the total amount of the financial derivative instruments represents a negligible portion of the sub-fund’s portfolio

- For **structured sub-funds**, the calculation method is described in the ESMA/2011/112 guidelines

A financial derivative instrument is not taken into account when calculating the commitment if it meets both of the following conditions:

(a) The combined holding by the sub-fund of a financial derivative instrument relating to a financial asset and cash which is invested in risk free assets is equivalent to holding a cash position in the given financial asset.

(b) The financial derivative instrument is not considered to generate any incremental exposure and leverage or market risk.

The sub-fund's total commitment to financial derivative instruments, limited to 100 % of the portfolio's total net value, is quantified as the sum, as an absolute value, of the individual commitments, after possible netting and hedging arrangements.

2.2. VaR (Value at Risk) methodology

The global exposure is determined on a daily basis by calculating, the maximum potential loss at a given confidence level over a specific time period under normal market conditions.

Given the sub-fund's risk profile and investment strategy, the **relative VaR approach** or the **absolute VaR approach** can be used:

- In the **relative VaR approach**, a leverage free reference portfolio reflecting the investment strategy is defined and the sub-fund's VaR cannot be greater than twice the reference portfolio VaR.
- The **absolute VaR approach** concerns sub-funds investing in multi-asset classes and that do not define any investment target in relation to a benchmark but rather as an absolute return target; the level of the absolute VaR is strictly limited to 20%.

The **VaR limits** should always be set according to the defined risk profile.

To calculate VaR, the following parameters must be used: a 99% degree of confidence, a holding period of one month (20 days), an actual (historical) observation period for risk factors of at least 1 year (250 days)

The Management Company carries out a monthly **back testing** program and reports on a quarterly basis the excessive number of outlier to the senior management.

The Management Company calculates **stress tests** on a monthly basis in order to facilitate the management of risks associated with possible abnormal movements of the market.

The sub-funds using the VaR methodology, their reference portfolio and leverage levels are listed below.

The expected leverage is defined as the sum of the absolute value of the derivatives notionals (without any netting or hedging arrangement) divided by NAV (notionals methodology).

However, there are possibilities that sub-funds deviate from the expected level disclosed below and reach higher leverage levels during their life time..

Sub-funds	***VaR approach***	***Reference Portfolio***	***Expected leverage***
Easy Future 2018	Absolute	-	2.00
Easy Future 2021	Absolute	-	2.00
Easy Future 2023	Absolute	-	2.00

2.3. Global Exposure for Feeder sub-funds:

The global exposure of a Feeder sub-fund will be calculated by combining its own exposure through financial derivative instruments, with either:

a) the Master actual exposure through financial derivative instruments in proportion to the Feeder investment into the Master; or

b) the Master potential maximal global exposure related to financial derivative instruments as defined by the Master' management rules or Articles of Association in proportion to the Feeder investment into the Master.

3. <u>TRS</u>

TRS can be used for both hedging and/or investment purposes.

When a sub-fund enters into a TRS or invests in other financial derivative instruments with similar characteristics, its assets will also comply with the provisions of the Sections 4 to 8 of the Appendix 1. The underlying exposures of the financial derivative instruments shall be taken into accounts to calculate the investment limits laid down in Section 4 of the Appendix 1.

When a sub-fund invests in such financial derivative instruments, the following information will be disclosed in the annual report of the Company:

a) The underlying strategy and composition of the investment portfolio or index;

b) The identification of the counterparty(ies) of the transactions;

c) The underlying exposure obtained through financial derivative instruments;

d) The type and amount of collateral received by the sub-funds to reduce counterparty exposure.

The counterparty does not assume any discretion over the composition or management of the sub-funds' investment portfolio or over the underlying of the financial derivative instruments, and its approval is not required in relation to any sub-fund investment portfolio transaction.

Policy on sharing of return generated by TRS

The return of the swap transaction, being the spread between the two legs of the transaction, is completely allocated to the sub-fund when positive, or completely charged to the sub-fund when negative. There are neither costs nor fees specific to the swap transaction charged to the sub-fund that would constitute revenue for the Management Company or another party.

List of sub-funds using TRS

The sub-funds using TRS, the maximum proportion of assets that can be subject to them and the expected proportion of assets that will be subject to each of them are listed below:

Sub-funds	TRS/ NAV		
	Expected	Maximum	Type of TRS
Easy Future 2018 Easy Future 2021 Easy Future 2023 Easy Future 2026 Easy Future 2028 Easy Future 2033 Easy Future 2038 Easy Future 2043	100%	200%	unfunded

The expected proportion mentioned in the above table is defined as the sum of the absolute values of TRS nominals (with neither netting nor hedging arrangement) divided by the NAV. It is not a limit and the actual percentage may vary over time depending on factors including, but not limited to, market conditions. A higher level reflected by the maximum could be reached during the life of the sub-fund and the Prospectus will be modified accordingly.

SECURITIES FINANCING TRANSACTIONS ("SFT")

In accordance with the Regulation 2015/2365 and Circulars 08/356 and 14/592, the Company may enter in securities financing transactions for the purpose of raising short term capital in order to enhance in a safe way the liquidity of the sub-fund.

List of sub-funds using SFT

The sub-funds using SFT, the maximum proportion of assets that can be subject to them and the expected proportion of assets that will be subject to each of them are listed below provided that the expected proportion is not a limit and the actual percentage may vary over time depending on factors including, but not limited to, market conditions:

Sub-funds	Repurchase transactions / NAV		Reverse Repurchase transactions / NAV	
	Expected	Maximum	Expected	Maximum
Easy Future 2018 Easy Future 2021 Easy Future 2023 Easy Future 2026 Easy Future 2028 Easy Future 2033 Easy Future 2038 Easy Future 2043	0%	100%	0%	100%

A Sub-Fund which is permitted to enter into Repurchase transactions and /or /Reverse Repurchase transactions in accordance with its investment policy but does not actually engage in such transactions as at the date of this Prospectus (i.e. its expected proportion of NAV subject to SFT being 0%) may nevertheless engage in Repurchase transactions and/or Reverse Repurchase transactions provided that such engagement does not exceed the maximum proportion mentioned in the above table. In case a sub-fund has actually engaged in Repurchase transactions and/or Reverse Repurchase transactions, the Prospectus will be modified accordingly.

Policy on sharing of return generated by SFT

The return of SFT, being the difference of market values between the two legs of the transactions, is completely allocated to the sub-fund when positive, or completely charged to the sub-fund when negative. There are neither costs nor fees specific to SFT charged to the sub-fund that would constitute an income for the Management Company or another party.

Repurchase transactions / Reverse Repurchase transactions

A Repurchase transaction consists of a forward transaction at the maturity of which the sub-fund has the obligation to repurchase the asset sold and the buyer (the counterparty) the obligation to return the asset received under the transaction.

A Reverse Repurchase transaction consists of a forward transaction at the maturity of which the seller (counterparty) has the obligation to repurchase the asset sold and the sub-fund the obligation to return the asset received under the transaction.

However, the involvement of a sub-fund in such agreements is subject to the following rules:

a) Each sub-fund may buy or sell securities with repurchase options only if the counterparties in these agreements are first-rank financial institutions specialising in this type of transaction; and
b) During the lifetime of a reverse repurchase agreement, a sub-fund may not sell the securities forming the subject of the contract until the counterparty's repurchase option has been exercised or the reverse repurchase term has expired.

In addition, each sub-fund must ensure that the value of the reverse repurchase transaction is at a level that the sub-fund is capable at all times to meet its redemption obligation towards shareholders.

Eligible securities for reverse repurchase transaction:

a) Short-term bank certificates;
b) Money market instruments;
c) Bonds issued or guaranteed by a member of state of the OECD or by their local authorities or by supranational institutions and undertakings of a community, regional or worldwide nature;
d) Money market UCIs (daily calculation and S&P AAA rated or equivalent);
e) Bonds issued by non-governmental issuers offering an adequate liquidity;

f) Shares listed or dealt on a regulated market of the EU or on a stock exchange of a member state of the OECD, provided that they are included in a main index.

Limits for reverse repurchase transactions

The securities which are the subject of reverse repurchase transactions must be compliant with the investment policy of the Company and must together with the other securities which the Company holds in its portfolio, globally comply with the investment restrictions of the Company.

A sub-fund that enters into a reverse repurchase agreement will ensure that:

- At any time the sub-fund may recall the full amount of cash or terminate the reverse repurchase agreement on either an accrued basis or a mark-to-market basis. When the cash is recallable at any time on a mark-to-market basis, the mark-to-market value of the reverse repurchase agreement should be used for the calculation of the net asset value of the sub-fund.
- At any time the sub-fund may recall any securities subject to the repurchase agreement or terminate the repurchase agreement into which it has entered.
- Fixed-term repurchase and reverse repurchase agreements that do not exceed seven days should be considered as arrangements on terms that allow the assets to be recalled at any time by the sub-fund.

Limits for repurchase transactions

The assets received must be considered as collateral.

MANAGEMENT OF COLLATERAL IN RESPECT OF OTC DERIVATIVES AND SFT

Assets received from counterparties in respect of Financial Derivatives Instruments and Securities Financial Transactions other than currency forwards constitute collateral in accordance with the Regulation 2015/2365 and Circular 14/592.

All collateral used to reduce counterparty risk exposure will comply with the following criteria at all times:

Liquidity

Any collateral received other than cash will be highly liquid and dealt in on a regulated market or multilateral trading facility with transparent pricing in order to be sold quickly at a price that is close to pre-sale valuation. Collateral received will also comply with the provisions of Section 8 of Appendix 1.

Valuation

Collateral received will be valued on at least a daily basis, according to mark-to-market, and assets that exhibit high price volatility will not be accepted as collateral unless suitably conservative haircuts are in place, dependant on the issuer's credit quality and the maturity of the received securities.

Risks

Risk linked to the management of collateral, such as operational and legal risks, will be identified, managed and mitigated by the risk management process.

Safe-keeping (also for securities subject to TRS and SFT)

Where there is a title transfer, the collateral received will be held by the Depositary. For other types of collateral arrangement, the collateral can be held by a third party depositary which is subject to prudential supervision, and which is unrelated to the provider of the collateral.

Enforcement

Collateral received will be capable of being fully enforced at any time without reference to or approval from the counterparty. The Company must ensure that it is able to claim its right on the collateral in case of the occurrence of any event requiring the execution thereof. Therefore the collateral must be available at all time either directly or through the intermediary of the counterparty, in such a manner that the Company is able to appropriate or realise the securities given as collateral without delay if the counterparty fails to comply with its obligation to return the securities.

Collateral diversification (asset concentration)

Collateral should be sufficiently diversified in terms of country, markets and issuers. The criterion of sufficient diversification with respect to issuer concentration is considered to be respected if the sub-fund receives from a counterparty of efficient portfolio management and over-the-counter financial derivative transactions a basket of collateral with a maximum exposure to a given issuer of 20% of its net asset value. When a sub-fund is exposed to different counterparties, the different baskets of collateral should be aggregated to calculate the 20% limit of exposure to a single issuer. By way of derogation, a sub-fund may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by any European Union Member State, one or more of its local authorities, a third country part of the OECD, Brazil, People's Republic of China, India, Russia, Singapore and South Africa, or a public international body to which one or more European Union Member States belong. Such a sub-fund should receive securities from at least six different issues, but securities from any single issue should not account for more than 30% of the sub-fund' net asset value.

The collateral received by a sub-fund should be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty.

Stress testing

For all the sub-funds receiving collateral for at least 30% of their assets, the Management Company will set up, in accordance with the Circular 14/592, an appropriate stress testing policy to ensure regular stress tests under normal and exceptional liquidity conditions to assess the liquidity risk attached to the collateral.

Haircut policy

The Management Company will set up, in accordance with the Circular 14/592, a clear haircut policy adapted for each class of assets received as collateral.

Acceptable Collateral - Public regulatory grid

Asset Class	Minimum Rating accepted	Margin required / NAV	Cap by asset class / NAV	Cap by Issuer / NAV
Cash (EUR, USD, GBP or other Valuation Currency)		[100 - 110%]	100%

Money Market Units (1)	UCITS IV	[100 - 110%]	100%	20%
CD's (eligible OECD and other eligible countries)	A	[100 - 107%]	[10% - 30%]	20%
Eligible indices & Single equities linked		[100% - 140%]	100%	20%
Securitization (2)		[100% - 132%]	100%	20%

(1) Only Money Markets funds managed by BNPP AM. Any other UCITS eligible only upon ad-hoc approval by BNPP AM Risk

(2) Subject to conditions and ad-hoc approval by BNPP AM Risk

Applicable limits

(i) Limits applicable to non-cash collateral

In accordance with ESMA guidelines, non-cash collateral received by the Company should not be sold, re-invested or pledged.

Given the high quality of the acceptable collateral and the high quality nature of the selected counterparties, there is no maturity constraints applicable to the collateral received.

(ii) Limits applicable to cash collateral

Cash collateral received should only be:

- placed on deposit with entities prescribed in Section 1. paragraph f) of the Appendix 1;
- invested in high-quality government bonds;
- used for the purpose of reverse repurchase transactions provided the transactions are with credit institutions subject to prudential supervision and the sub-fund is able to recall at any time the full amount of cash on accrued basis;
- invested in short-term money market funds as defined in the Guidelines on a Common Definition of European money market Funds.

(iii) Reuse of cash collateral

The Company may re-invest the cash it has received as collateral in the following eligible instruments:

- Money market UCIs (daily calculation and S&P AAA rating or equivalent);
- Short-term bank deposits;
- Money market instruments;
- Short-term bonds issued or guaranteed by a Member State of the European Union, Switzerland, Canada, Japan or the United States or by their local authorities or by supranational institutions and undertakings with EU, regional or world-wide scope;
- Bonds issued or guaranteed by first class issuers offering adequate liquidity, and

The financial assets other than bank deposit and units of UCIs that the Company has acquired by reinvesting the cash collateral must not be issued by an entity affiliated to the counterparty;

The financial assets acquired via the reinvestment of the cash collateral must not be kept with the counterparty, except if it is legally segregated from the counterparty's assets;

The financial assets acquired via the reinvestment of the cash collateral may not be pledged unless the Company has sufficient liquidities to be able to return the received collateral in the form of cash.

Reinvested cash collateral limits applicable may lead to several risks such as currency exchange risk, counterparty risk, issuer risk, valuation and settlement risk, which can have an impact on the performance of the sub-fund concerned.

Exposures arising from the reinvestment of collateral received by the Company shall be taken into account within the diversification limits applicable under the Appendix 1.

Criteria used to select Counterparties

The Company will enter into transactions with counterparties which the Management Company believes to be creditworthy. They may be related companies at BNP Paribas Group.

Counterparties will be selected by the Management Company with respect for the following criteria:

- leading financial institutions;
- sound financial situation;
- ability to offer a range of products and services corresponding to the requirements of the Management Company;
- ability to offer reactivity for operational and legal points;
- ability to offer competitive price; and
- quality of the execution.

Approved counterparties are required to have a minimum rating of investment grade for OTC derivative counterparties provided however that credit quality assessment of counterparties does not rely only on external credit ratings. Alternative quality parameters are considered such as internal credit analysis assessment and liquidity and maturity of collateral selected. While there are no predetermined legal status or geographical criteria applied in the selection of the counterparties, these elements are typically taken into account in the selection process. Furthermore counterparties should comply with prudential rules considered by the CSSF as equivalent to EU prudential rules.The selected counterparties do not assume any discretion over the composition or management of the sub-funds' investment portfolios or over the underlying of the financial derivative instruments, and their approval is not be required in relation to any sub-fund investment portfolio transaction.

The Company' annual report contains details regarding:

a) the list of appointed counterparties to efficient portfolio management techniques and OTC derivatives;

b) the identity of the issuer where collateral received has exceeded 20% of the assets of a sub-fund;

c) whether a sub-fund has been fully collateralised.

APPENDIX 3 – INVESTMENT RISKS

Potential investors are asked to read the Prospectus carefully in its entirety before making an investment. Any investments may also be affected by changes relating to rules governing exchange rate controls, taxation and deductions at source, as well as those relating to economic and monetary policies.

Investors are also warned that sub-fund performance may not be in line with stated aims and that the capital they invest (after subscription commissions have been deducted) may not be returned to them in full.

Sub-funds are exposed to various risks that differ according to their investment policies. The main risks that sub-funds are likely to be exposed to are listed below.

Some sub-funds may be particularly sensitive to one or several specific risks which are increasing their risk profiles compared to sub-funds sensitive only to generic risk; in such case those risks are specifically mentioned in the Book II.

I. Specific Risks mentioned in the KIIDs

Counterparty Risk

This risk relates to the quality or the default of the counterparty with which the Management Company negotiates, in particular involving payment for/delivery of financial instruments and the signing of agreements involving forward financial instruments. This risk is associated with the ability of the counterparty to fulfil its commitments (for example: payment, delivery and reimbursement). This risk also relates to efficient portfolio management techniques and instruments. If counterparty does not live up to its contractual obligations, it may affect investor returns.

The sub-funds may enter into over-the-counter derivatives transactions. The parties involved in such OTC transactions are typically not subject to credit evaluation and regulatory oversight as are members of Regulated Markets. To the extent a Fund invests in swaps, derivatives or other OTC transactions on these markets, the sub-fund may be subject to a counterparty risk with regard to parties with whom it trades and may also bear the risk of settlement default. These risks may differ materially from those entailed in exchange-traded transactions which generally are backed by clearing organisation guarantees, daily marking-to-market and settlement. Such “counterparty risk” is accentuated with longer maturities where events can take place that result in adverse consequences as to the settlement of the contracts, or where the sub-funds have concentrated their transactions with a single or small group of counterparties.

Credit Risk

This risk is present in each sub-fund having debt securities in its investment universe.

This is the risk that may derive from the rating downgrade or the default of a bond issuer to which the sub-funds are exposed, which may therefore cause the value of the investments to go down. Such risks relate to the ability of an issuer to honour its debts.

Downgrades of an issue or issuer rating may lead to a drop in the value of bonds in which the sub-fund has invested.

Some strategies utilised may be based on bonds issued by issuers with a high credit risk (junk bonds).

Sub-funds investing in high-yield bonds present a higher than average risk due to the greater fluctuation of their currency or the quality of the issuer.

Derivatives Risk

In order to hedge (hedging derivative investments strategy, and/or to leverage the yield of the sub-fund (trading derivative investment strategy), the sub-fund is allowed to use derivative investments’ techniques and instruments (including TRS) under the circumstances set forth in Appendices 1 and 2 of the Prospectus (in particular, warrants on securities, agreements regarding the exchange of securities, rates, currencies, inflation, volatility and other financial derivative instruments, contracts for difference [CFDs], credit default swaps [CDSs], futures and options on securities, rates or futures).

The investor's attention is drawn to the fact that these financial derivative instruments may include leveraging. Because of this, the volatility of these sub-funds may be increased**.**

Liquidity Risk

This risk may concern all financial instruments and impact one or several sub-funds.

There is a risk that investments made by the sub-funds may become illiquid due to an over-restricted market (often reflected by a very broad bid-ask spread or by substantial price movements), if their “rating” declines or if the economic situation deteriorates; consequently, it may not be possible to sell or buy these investments quickly enough to prevent or minimize a loss in these sub-funds. Moreover, it may not be possible to sell or buy these investments.

Operational & Custody Risk

Some markets (emerging markets) are less regulated than most of the developed countries regulated markets; hence, the services related to custody and liquidation for the funds on such markets could be more risky. Operational risk is the risk of contract on financial markets, the risk of back office operations, custody of securities, as well as administrative problems that could cause a loss to the sub funds. This risk could also result from omissions and inefficient securities processing procedures, computer systems or human errors.

II. Generic Risks present in all sub-funds

Currency Exchange Risk

This risk is present in each sub-fund having positions denominated in currencies that differ from its Accounting Currency.

A sub-fund may hold assets denominated in currencies that differ from its *Accounting Currency*, and may be affected by exchange rate fluctuations between the *Accounting Currency* and the other currencies and by changes in exchange rate controls. If the currency in which a security is denominated appreciates in relation to the *Accounting Currency* of the sub-fund, the exchange value of the security in the *Accounting Currency* will appreciate; conversely, a depreciation of the denomination currency will lead to a depreciation in the exchange value of the security.

When the manager is willing to hedge the currency exchange risk of a transaction, there is no guarantee that such operation will be completely effective.

Equity Markets Risk

This risk is present in each sub-fund having equities in its investment universe.

The risks associated with investments in equity (and similar instruments) include significant fluctuations in prices, negative information about the issuer or market and the subordination of a company's shares to its bonds. Moreover, these fluctuations are often amplified in the short term.

The risk that one or more companies suffer a downturn or fail to grow can have a negative impact on the performance of the overall portfolio at a given time. There is no guarantee that investors will see an appreciation in value. The value of investments and the income they generate may go down as well as up and it is possible that investors will not recover their initial investment.

There is no guarantee that the investment objective will actually be achieved.

Some sub-funds may invest in initial public offerings ("IPOs"). In this case, there is a risk that the price of the newly floated share may see greater volatility as a result of factors such as the absence of an existing public market, non-seasonal transactions, the limited number of securities that can be traded and a lack of information about the issuer. A sub-fund may hold such securities for only a very short time, which tends to increase the costs.

Sub-funds investing in growth stocks may be more volatile than the market in general and may react differently to economic, political and market developments and to specific information about the issuer. Growth stocks traditionally show higher volatility than other stocks, especially over short periods. These stocks may also be more expensive in relation to their profits than the market in general. Consequently, growth stocks may react with more volatility to variations in profit growth.

Some sub-funds may base their objective on simple equity market growth, which produces higher than average volatility.

Managers may temporarily adopt a more defensive attitude if they consider that the equity market or economy of the countries in which the sub-fund invests is experiencing excessive volatility, a persistent general decline, or other unfavourable conditions. In such circumstances, the sub-fund may be unable to pursue its investment objective.

Inflation Risk

Over time, yields of investments may not keep pace with inflation, leading to a reduction of investor's purchasing power.

Interest Rate Risk

This risk is present in each sub-fund having debt securities in its investment universe.

The value of an investment may be affected by interest rate fluctuations. Interest rates may be influenced by several elements or events, such as monetary policy, the discount rate, inflation, etc.

The investor's attention is drawn to the fact that an increase in interest rates results in a decrease in the value of investments in bonds and debt instruments.

Low Interest Rate Consequence

This risk is present in each sub-fund having debt securities in its investment universe.

A very low level of interest rates may affect the return on short term assets held by monetary funds which may not be sufficient to cover management and operating costs leading to a structural decrease of the net asset value of the sub-fund**.**

Taxation Risk

The value of an investment may be affected by the application of tax laws in various countries, including withholding tax, changes in government, economic or monetary policy in the countries concerned. As such, no guarantee can be given that the financial objectives will actually be achieved.

III. Additional Risks linked to OTC Derivatives (including TRS), SFT and collateral management

Efficient Portfolio Management Techniques Risk

This risk is present in each sub-fund using efficient portfolio management techniques.

Efficient portfolio management techniques, such as repurchase and reverse repurchase transactions, and particularly with respect to the quality of the collateral received / reinvested, may lead to several risks such as liquidity risk, counterparty risk, issuer risk, valuation risk and settlement risk, which can have an impact on the performance of the sub-fund concerned.

Repurchase transactions and Reverse Repurchase transactions Risks

A sub-fund may enter into repurchase agreements and reverse repurchase agreements. If the other party to a repurchase agreement or reverse repurchase agreement should default, the sub-fund might suffer a loss to the extent that the proceeds from the sale of the underlying securities and/or other collateral held by the sub-fund in connection with the transaction are less than the repurchase price or, as the case may be, the value of the underlying securities. In addition, in the event of bankruptcy or similar proceedings of the other party to such agreement or its failure otherwise to perform its obligations on the repurchase date, the sub-fund could suffer losses, including loss of interest on or principal of the security and costs associated with delay and enforcement of the repurchase agreements and/or reverse repurchase agreement.

Collateral management Risk

Collateral may be engaged to mitigate the counterparty default risk, despite this there is a risk that the collateral taken, especially where it is in the form of securities, when realised does not raise sufficient cash to settle the counterparty's liability. This may be due to factors including inaccurate collateral pricing, adverse market movements in the value of collateral, a deterioration in the credit rating of the issuer of the collateral, or the illiquidity of the market in which the collateral is traded. Please also refer to "Liquidity Risk" above in respect of liquidity risk which may be particularly relevant where collateral takes the form of securities.

Where a sub-fund is in turn required to post collateral with a counterparty, there is a risk that the value of the collateral placed with the counterparty is higher than the cash or investments received by the sub-fund.

In either case, where there are delays or difficulties in recovering assets or cash, collateral posted with counterparties, or realising collateral received from counterparties, the sub-funds may face difficulties in meeting redemption or purchase requests or in meeting delivery or purchase obligations under other contracts.

As collateral will take the form of cash or certain financial instruments, the market risk is relevant. Collateral received by a sub-fund may be held either by the Depositary or by a third party depositary. In either case there may be a risk of loss where such assets are held in custody resulting from events such as the insolvency or negligence of a depositary or sub-depositary.

Reuse of cash collateral Risk

As a sub-fund may reinvest cash collateral it receives under collateral arrangement, there is a risk that the value on return of the reinvested cash collateral may not be sufficient to cover the amount required to be repaid to the counterparty. In this circumstance the sub-fund would be required to cover the shortfall.

Legal Risk

There is a risk that agreements and derivatives techniques are terminated due, for instance, to bankruptcy, illegality, change in tax or accounting laws. In such circumstances, a sub-fund may be required to cover any losses incurred. Furthermore, certain transactions are entered into on the basis of complex legal documents. Such documents may be difficult to enforce or may be the subject to a dispute as to interpretation in certain circumstances. Whilst the rights and obligations of the parties to a legal document may be governed by Luxembourg law, in certain circumstances (insolvency proceedings) other legal systems may take priority which may affect the enforceability of existing transactions. The use of derivatives may also expose a sub-fund to the risk of loss resulting from changing laws or from the unexpected application of a law or regulation, or because a court declares a contract not legally enforceable.

Operational risk

Investing in derivatives may include a counterparty breaching its obligations to provide collateral, or may include operational issues (such as time gaps between the calculation of risk exposure to a counterparty's provision of additional collateral or substitutions of collateral or the sale of collateral in the event of a default by a counterparty), there may be instances where a sub-fund's credit exposure to its counterparty under a derivative contract is not fully collateralised but each sub-fund will continue to observe the limits set out in Appendix I.

IV. Specific Risks impacting only some sub-funds (please refer to Book II)

Commodity Market Risk

This risk is present in each sub-fund having commodities (indirectly invested) in its investment universe.

Commodity markets may experience significant, sudden price variations that have a direct effect on the valuation of shares and securities that equate to the shares in which a sub-fund may invest and/or indices that a sub-fund may be exposed to.

Moreover, the underlying assets may evolve in a markedly different way from traditional securities markets (equity markets, bond markets etc.)

Emerging Markets Risk

This risk is present in each sub-fund having emerging markets investments in its investment universe.

Sub-funds investing in emerging markets are likely to be subject to a higher than average volatility due to a high degree of concentration, greater uncertainty because less information is available, there is less liquidity, or due to greater sensitivity to changes in market conditions (social, political and economic conditions). In addition, some emerging markets offer less security than the majority of international developed markets and certain markets are not currently considered to be regulated markets. For this reason, services for portfolio transactions, liquidation and conservation on behalf of funds invested in emerging markets may carry greater risk.

The Company and investors agree to bear these risks.

Real Estate Investment Risks

Sub-funds may invest (indirectly only) in real estate sector via transferable securities (bonds, equities) and/or real estate funds. These investments face several risks inherent to this sector:

- Market risk: the real estate sector is sensible to up and down market cycles; good markets are characterized by strong occupancies and steady rent growth while downturns often result in lower occupancies and flat or even discounted rents; there is a risk of imbalance in the supply and demand for space (a surge in new development or a dip in demand from a slowing economy).
- Interest rate risk: real estate investors fear that rising interest rates will cause property values to fall and total returns to weaken.
- Liquidity risk: the sale of appreciated properties depends upon market demand.
- Cost overrun risk: there is a potential that unexpected costs may arise due to the condition of the property itself.
- Construction risk: any time there are risks that the construction project may incur cost overruns, take longer than anticipated to complete.
- Geographic risk: properties are heavily influenced by their location; (countries, regions, cities or even a specific neighborhood).

Risks related to investments in some countries

Investments in some countries (e.g. China, Greece, India, Indonesia, Japan, Saudi Arabia and Thailand) involve risks linked to restrictions imposed on foreign investors and counterparties, higher market volatility and the risk of lack of liquidity for some lines of the portfolio. Consequently, some shares may not be available to the sub-fund due to the number of foreign shareholders authorised or if the total investments permitted for foreign shareholders have been reached. In addition, the repatriation by foreign investors of their share of net profits, capital and dividends may be restricted or require the approval of the government. The Company will only invest if it considers that the restrictions are acceptable. However, no guarantee can be given that additional restrictions will not be imposed in future.

APPENDIX 4 – LIQUIDATION, MERGER, TRANSFER AND SPLITTING PROCEDURES

Liquidation, Merger, Transfer, and Splitting of Sub-funds

The Board of Directors shall have sole authority to decide on the effectiveness and terms of the following, under the limitations and conditions prescribed by the Law:

1) either the pure and simple liquidation of a sub-fund;
2) or the closure of a sub-fund (merging sub-fund) by transfer to another sub-fund of the Company;
3) or the closure of a sub-fund (merging sub-fund) by transfer to another UCI, whether incorporated under Luxembourg law or established in another member state of the European Union;
4) or the transfer to a sub-fund (receiving sub-fund) a) of another sub-fund of the Company, and/or b) of a sub-fund of another collective investment undertaking, whether incorporated under Luxembourg law or established in another member state of the European Union, and/or c) of another collective investment undertaking, whether incorporated under Luxembourg law or established in another member state of the European Union;
5) or the splitting of a sub-fund.

The splitting techniques will be the same as the merger one foreseen by the Law.

As an exception to the foregoing, if the Company should cease to exist as a result of such a merger, the effectiveness of this merger must be decided by a General Meeting of Shareholders of the Company resolving validly whatever the portion of the capital represented. The resolutions are taken by a simple majority of the votes expressed. The expressed votes do not include those attached to the shares for which the shareholder did not take part in the vote, abstained or voted white or no.

To avoid any investment breach due to the merger, and in the interest of the shareholders, the investment manager might need to rebalance the portfolio of the Merging sub-fund before the merger. Such rebalancing shall be compliant with the investment policy of the Receiving sub-fund.

In the event of the pure and simple liquidation of a sub-fund, the net assets shall be distributed between the eligible parties in proportion to the assets they own in said sub-fund. The assets not distributed at the time of the closure of the liquidation and at the latest within nine months of the date of the decision to liquidate shall be deposited with the Luxembourg Caisse de Consignation until the end of the legally specified limitation period.

Pursuant to this matter, the decision adopted at the level of a sub-fund may be adopted similarly at the level of a category or a class.

Early Liquidation of Guaranteed Fund

In the event that any Guaranteed Fund is liquidated before the Maturity Date, BNP PARIBAS will meet its obligation as Guarantor by ensuring that the shareholders of the sub-fund will be entitled to the higher of 1) the NAV of the sub-fund on the date of liquidation, or 2) the present value at the date of liquidation of the Guaranteed Value of the sub-fund at the Maturity Date. This present value will be determined by applying the discount rate prevailing at the date of liquidation that corresponds to the remaining period to the Maturity Date of the sub-fund.

Liquidation of a Feeder Sub-fund

A Feeder sub-fund will be liquidated:

a) when the Master is liquidated, unless the CSSF grants approval to the feeder to:
    - invest at least 85% of the assets in units, or shares of another Master; or
    - amend its investment policy in order to convert into a non Feeder.
b) when the Master merges with another UCITS, or sub-fund or is divided into two or more UCITS, or sub-fund unless the CSSF grants approval to the feeder to:
    - continue to be a Feeder of the same Master or the Master resulting from the merger or division of the Master;
    - invest at least 85% of its assets in units, or shares of another Master; or
    - amend its investment policy in order to convert into a non Feeder.

Dissolution and Liquidation of the Company

The Board of Directors may, at any time and for any reason whatsoever, propose to the General Meeting the dissolution and liquidation of the Company. The General Meeting will give its ruling in accordance with the same procedure as for amendments to the Articles of Association.

If the Company’s capital falls below two-thirds of the minimum legal capital, the Board of Directors may submit the question of the Company’s dissolution to the General Meeting. The General Meeting, for which no quorum is applicable, will decide based on a simple majority of the votes of shareholders present or represented, account shall not be taken of abstentions.

If the Company’s capital falls below one-quarter of the minimum legal capital, the Board of Directors shall submit the question of the Company’s dissolution to the General Meeting. The General Meeting, for which no quorum is applicable, will decide based on a part of one-quarter of the votes of shareholders present or represented, account shall not be taken of abstentions.

In the event of the Company’s dissolution, the liquidation will be conducted by one or more liquidators that may be individuals or legal entities. They will be appointed by the General Shareholders’ Meeting, which will determine their powers and remuneration, without prejudice to the application of the Law.

The net proceeds of the liquidation of each sub-fund, category, or class will be distributed by the liquidators to the shareholders of each sub-fund, category, or class in proportion to the number of shares they hold in the sub-fund, category, or class.

In the case of straightforward liquidation of the Company, the net assets will be distributed to the eligible parties in proportion to the shares held in the Company. Net assets not distributed at the time of the closure of the liquidation and at the latest within a maximum period of nine months effective from the date of the liquidation will be deposited at the Luxembourg Caisse de Consignation until the end of the legally specified limitation period.

The calculation of the net asset value, and all subscriptions, conversions and redemptions of shares in these sub-funds, categories, or classes will also be suspended throughout the liquidation period.

The General Meeting must be held within forty days of the date on which it is ascertained that the Company’s net assets have fallen below the minimum legal threshold of two-thirds or one-quarter, as applicable.

BOOK II

BNP Paribas Plan Easy Future 2018

Short-named **BNPP Plan Easy Future 2018**

Investment objective

This sub-fund seeks to increase the value of its assets over its lifetime:

- By partially investing in strategies combining two sets of exposures:
    1) The first one offering an exposure to global financial markets, with a diversification in terms of asset classes and geographical zones,
    2) The second one which objective is to deliver positive performances independently of market evolution.
- To the extent that, on its Maturity Date, the shareholders receive the highest value between the final net asset value per Share and the Guaranteed Value as determined below.

Investment policy

This sub-fund invests in:

- Money Market instruments
- Transferable securities (including equities, debt instruments with fixed or variable coupon) as well as in UCITS or UCI which in turn invest primarily in the above asset classes,
- Financial derivative instruments which can create exposure to all types of asset classes, including in particular swaps (including TRS) over a diversified basket of financial instruments (including equities, debt instruments with fixed or variable coupon) providing returns linked to money market rates,
- Efficient portfolio management techniques such as repurchase and reverse repurchase transactions on transferable securities (including equities, fixed or variable debt instruments).

Repurchase and Reverse Repurchase Agreements are used for efficient portfolio management with the aim of raising short term capital in order to enhance in a safe way the liquidity of the sub-fund as long as the conditions set out in Appendix 2 of Book I are met.

The Investment Manager tailors a percentage of the total net assets invested in such assets so that the Guaranteed Value will be realised at the Maturity Date of the sub-fund.

It may also invest for less than 50% of its assets in other UCITS or UCI and/or other derivative financial instruments, which can create exposure to all types of asset classes.

Determination of the Guaranteed Value

The same Guaranteed Value will apply for both “Classic” and “Privilege” category and is applicable on the Maturity Date of the sub-fund only.

The Guaranteed Value shall be determined as follows:

The Guaranteed Value can never be lower than EUR 100.89 (as per 31-Oct-2017).

The Guaranteed Value can only increase over time and the highest Guaranteed Value calculated during the sub-fund’s lifetime will be applicable at Maturity Date.

Each Valuation Day the Guaranteed Value is revalued as being the highest value between:

1) The Guaranteed Value defined at the previous Valuation Day.
2) The applicable NAV of the “Classic” category multiplied by a ratio defined as the highest value on each Valuation Day between:
    a) A revisable level equal to 94% at the Launch Date of the sub-fund and increased by 1% each year on 1 November until it equals 95%.
    b) A variable level (hereafter the “Variable Level”) which depends on the current interest rates level and the sub-fund's remaining time to maturity. The Variable Level will be calculated as follows: (100% plus Reference Rate minus (25% divided by remaining time to maturity)) to the power of remaining time to maturity, whereby Reference Rate means the swap rate versus 3 month Euribor (swap rate maturity equals the sub-fund's remaining time to maturity) minus a fixed fee of 1.27%. As an example, the variable level with 20 years to maturity and reference rate of 1.5% will equal (100% plus 1.5% minus (25% divided by 20) to the power 20, which equals 105.12%.

       For the purposes of determining the Variable Level with respect to any given Valuation Day, the relevant swap rate maturity will be defined as the sub-fund's remaining time to maturity rounded up to the next year. Should an event of market disruptions affecting the swap rate used to calculate the reference rate (hereafter the “Parameter”) occurs, the manager reserves the possibility of substituting the Parameter by another indicator which specifications are substantially similar to those of the Parameter. In such circumstances this new indicator will be deemed to be the Parameter, as calculated and published by the entity in charge of its production.

       As an example, the swap rate versus 3 month Euribor used for 30 year maturity equals EUSW30V3 Index, whenever the remaining maturity is less than or equal to 30 years and greater than 29 years.

Warning

The Guaranteed Value thus calculated may be lower than the launch price of the sub-fund and the highest NAV calculated during the life of the sub-fund.

Investors are informed that the sub-fund’s final NAV at Maturity Date may be lower than their initial investment.

The Guarantee is given on the Maturity Date only. Shareholders who redeem their Shares before the Maturity Date will not benefit from the Guarantee and will receive the applicable NAV only.

Risk profile

Specific market risks:

- Counterparty Risk
- Derivatives Risk

For overview of the generic risks, please refer to the Appendix 3 of the Book I of the Prospectus.

Investor type profile

This sub-fund is suitable for investors who want to minimise the risk of a decrease in the sub-fund’s net asset value.

Determination of the Guaranteed Value

The same Guaranteed Value will apply for both “Classic” and “Privilege” category and is applicable on the Maturity Date of the sub-fund only.
The Guaranteed Value shall be determined as follows:
The Guaranteed Value can never be lower than EUR 117.54 (as per 31-Oct-2017).
The Guaranteed Value can only increase over time and the highest Guaranteed Value calculated during the sub-fund’s lifetime will be applicable at Maturity Date.
Each Valuation Day the Guaranteed Value is revalued as being the highest value between:

1) The Guaranteed Value defined at the previous Valuation Day.
2) The applicable NAV of the “Classic” category multiplied by a ratio defined as the highest value on each Valuation Day between:
    a) A revisable level equal to 86% at the Launch Date of the sub-fund and increased by 1% each year on 1 November until it equals 95%.
    b) A variable level (hereafter the “Variable Level”) which depends on the current interest rates level and the sub-fund's remaining time to maturity. The Variable Level will be calculated as follows: (100% plus Reference Rate minus (25% divided by remaining time to maturity)) to the power of remaining time to maturity, whereby Reference Rate means the swap rate versus 3 month Euribor (swap rate maturity equals the sub-fund's remaining time to maturity) minus a fixed fee of 1.27%. As an example, the variable level with 20 years to maturity and reference rate of 1.5% will equal (100% plus 1.5% minus (25% divided by 20) to the power 20, which equals 105.12%.
    For the purposes of determining the Variable Level with respect to any given Valuation Day, the relevant swap rate maturity will be defined as the sub-fund's remaining time to maturity rounded up to the next year. Should an event of market disruptions affecting the swap rate used to calculate the reference rate (hereafter the “Parameter”) occurs, the manager reserves the possibility of substituting the Parameter by another indicator which specifications are substantially similar to those of the Parameter. In such circumstances this new indicator will be deemed to be the Parameter, as calculated and published by the entity in charge of its production.
    As an example, the swap rate versus 3 month Euribor used for 30 year maturity equals EUSW30V3 Index, whenever the remaining maturity is less than or equal to 30 years and greater than 29 years.

Warning

The Guaranteed Value thus calculated may be lower than the launch price of the sub-fund and the highest NAV calculated during the life of the sub-fund.
Investors are informed that the sub-fund’s final NAV at Maturity Date may be lower than their initial investment.
The Guarantee is given on the Maturity Date only. Shareholders who redeem their Shares before the Maturity Date will not benefit from the Guarantee and will receive the applicable NAV only.

Risk profile

Specific market risks:

- Counterparty Risk
- Derivatives Risk

For overview of the generic risks, please refer to the Appendix 3 of the Book I of the Prospectus.

Investor type profile

This sub-fund is suitable for investors who want to minimise the risk of a decrease in the sub-fund’s net asset value.

For each active share, a KIID is available which mentions, among others, the launch date, the Reference Currency and the historical performance. The KIIDs are available on the website www.bnpparibas-am.com

Additional information

Valuation Day:

For each day of the week on which banks are open for business in Luxembourg (a "Valuation Day"), there is a corresponding NAV which is dated the same day unless 50% or more of the underlying assets cannot be valued.

It is available at the Company's registered office, from local agents, and in any newspapers designated by the Board of Directors and the web site www.bnpparibas-am.com.

Terms of subscription / conversion / redemption:

Subscription, redemption and conversion orders will be processed at an unknown net asset value in accordance with the rules set out below, only on Valuation Days, and the time mentioned is Luxembourg time.

Centralisation of orders	Orders Trade Date	NAV calculation and publication date	Orders Settlement Date
12:00 CET on the day before the Valuation Day (D-1)	Valuation Day (D)	Two days after the Valuation Day (D+2)	maximum four business days after the Valuation Day (D+4) (1)

(1) If the settlement day is a currency holiday, the settlement will occur the following business day.

Historical information:

Sub-fund launched on 16 September 2013

The first NAV set at:

- "Classic" category: EUR 100.00
- "Privilege" category: EUR 93.01

Taxation:

Potential shareholders are recommended to seek full information in their country of origin, place of residence or domicile on the possible tax consequences associated with their investment.

BNP Paribas Plan Easy Future 2028

Short-named **BNPP Plan Easy Future 2028**

Investment objective

This sub-fund seeks to increase the value of its assets over its lifetime:

- By partially investing in strategies combining two sets of exposures:
    1) The first one offering an exposure to global financial markets, with a diversification in terms of asset classes and geographical zones,
    2) The second one which objective is to deliver positive performances independently of market evolution.
- To the extent that, on its Maturity Date, the shareholders receive the highest value between the final net asset value per Share and the Guaranteed Value as determined below.

Investment policy

This sub-fund invests in:

- Money Market instruments
- Transferable securities (including equities, debt instruments with fixed or variable coupon) as well as in UCITS or UCI which in turn invest primarily in the above asset classes,
- Financial derivative instruments which can create exposure to all types of asset classes, including in particular swaps (including TRS) over a diversified basket of financial instruments (including equities, debt instruments with fixed or variable coupon) providing returns linked to money market rates,
- Efficient portfolio management techniques such as repurchase and reverse repurchase transactions on transferable securities (including equities, fixed or variable debt instruments).

Repurchase and Reverse Repurchase Agreements are used for efficient portfolio management with the aim of raising short term capital in order to enhance in a safe way the liquidity of the sub-fund as long as the conditions set out in Appendix 2 of Book I are met.

The Investment Manager tailors a percentage of the total net assets invested in such assets so that the Guaranteed Value will be realised at the Maturity Date of the sub-fund.

It may also invest for less than 50% of its assets in other UCITS or UCI and/or other derivative financial instruments, which can create exposure to all types of asset classes.

Determination of the Guaranteed Value

The same Guaranteed Value will apply for both “Classic” and “Privilege” category and is applicable on the Maturity Date of the sub-fund only.

The Guaranteed Value shall be determined as follows:

The Guaranteed Value can never be lower than EUR 120.13 (as per 31-Oct-2017).

The Guaranteed Value can only increase over time and the highest Guaranteed Value calculated during the sub-fund’s lifetime will be applicable at Maturity Date.

Each Valuation Day the Guaranteed Value is revalued as being the highest value between:

1) The Guaranteed Value defined at the previous Valuation Day.
2) The applicable NAV of the “Classic” category multiplied by a ratio defined as the highest value on each Valuation Day between:
    a) A revisable level equal to 84% at the Launch Date of the sub-fund and increased by 1% each year on 1 November until it equals 95%.
    b) A variable level (hereafter the “Variable Level”) which depends on the current interest rates level and the sub-fund's remaining time to maturity. The Variable Level will be calculated as follows: (100% plus Reference Rate minus (25% divided by remaining time to maturity)) to the power of remaining time to maturity, whereby Reference Rate means the swap rate versus 3 month Euribor (swap rate maturity equals the sub-fund's remaining time to maturity) minus a fixed fee of 1.27%. As an example, the variable level with 20 years to maturity and reference rate of 1.5% will equal (100% plus 1.5% minus (25% divided by 20) to the power 20, which equals 105.12%.

       For the purposes of determining the Variable Level with respect to any given Valuation Day, the relevant swap rate maturity will be defined as the sub-fund's remaining time to maturity rounded up to the next year. Should an event of market disruptions affecting the swap rate used to calculate the reference rate (hereafter the “Parameter”) occurs, the manager reserves the possibility of substituting the Parameter by another indicator which specifications are substantially similar to those of the Parameter. In such circumstances this new indicator will be deemed to be the Parameter, as calculated and published by the entity in charge of its production.

       As an example, the swap rate versus 3 month Euribor used for 30 year maturity equals EUSW30V3 Index, whenever the remaining maturity is less than or equal to 30 years and greater than 29 years.

Warning

The Guaranteed Value thus calculated may be lower than the launch price of the sub-fund and the highest NAV calculated during the life of the sub-fund.

Investors are informed that the sub-fund’s final NAV at Maturity Date may be lower than their initial investment.

The Guarantee is given on the Maturity Date only. Shareholders who redeem their Shares before the Maturity Date will not benefit from the Guarantee and will receive the applicable NAV only.

   b) A variable level (hereafter the “Variable Level”) which depends on the current interest rates level and the sub-fund's remaining time to maturity. The Variable Level will be calculated as follows: (100% plus Reference Rate minus (25% divided by remaining time to maturity)) to the power of remaining time to maturity, whereby Reference Rate means the swap rate versus 3 month Euribor (swap rate maturity equals the sub-fund's remaining time to maturity) minus a fixed fee of 1.27%. As an example, the variable level with 20 years to maturity and reference rate of 1.5% will equal (100% plus 1.5% minus (25% divided by 20) to the power 20, which equals 105.12%.

      For the purposes of determining the Variable Level with respect to any given Valuation Day, the relevant swap rate maturity will be defined as the sub-fund's remaining time to maturity rounded up to the next year. Should an event of market disruptions affecting the swap rate used to calculate the reference rate (hereafter the “Parameter”) occurs, the manager reserves the possibility of substituting the Parameter by another indicator which specifications are substantially similar to those of the Parameter. In such circumstances this new indicator will be deemed to be the Parameter, as calculated and published by the entity in charge of its production.

      As an example, the swap rate versus 3 month Euribor used for 30 year maturity equals EUSW30V3 Index, whenever the remaining maturity is less than or equal to 30 years and greater than 29 years.

Warning

The Guaranteed Value thus calculated may be lower than the launch price of the sub-fund and the highest NAV calculated during the life of the sub-fund.

Investors are informed that the sub-fund’s final NAV at Maturity Date may be lower than their initial investment.

The Guarantee is given on the Maturity Date only. Shareholders who redeem their Shares before the Maturity Date will not benefit from the Guarantee and will receive the applicable NAV only.

Risk profile

Specific market risks:

- Counterparty Risk
- Derivatives Risk

For overview of the generic risks, please refer to the Appendix 3 of the Book I of the Prospectus.

Investor type profile

This sub-fund is suitable for investors who want to minimise the risk of a decrease in the sub-fund’s net asset value.

- "Privilege" category: EUR 81.18

Taxation:

Potential shareholders are recommended to seek full information in their country of origin, place of residence or domicile on the possible tax consequences associated with their investment.

BNP Paribas Plan Pension Return

Short-named **BNPP Plan Pension Return**

Investment objective

Increase the value of its assets over the medium term

Investment policy

This sub-fund invests in UCITS and/or UCI which invest in equities, debt securities, other transferable securities, money market instruments, financial derivative instruments on this type of asset, financial derivative instruments based on commodities indices, and real estate indices, in in order to achieve maximum profitability for the risk incurred.

When the investment in UCITS and/or UCI is not considered attractive, the sub-fund may be invested directly in underlying targeted assets except those relating to the exposure on commodities and real estate.

Emphasis is placed on international diversification of investments with a long term target risk profile comparable to global equities. For effective portfolio management the manager may vary the actual asset class weightings based on market conditions and his forecasts. The sub-fund will mainly apply “long-only” strategies so that no leverage will be created.

Risk profile

Specific market risks:

- Counterparty Risk
- Derivatives Risk
- Operational & Custody Risk
- Commodity Market Risk
- Emerging Markets Risk
- Real Estate Investment Risks
- Risks related to Investments in some countries

For overview of the generic risks, please refer to the Appendix 3 of the Book I of the Prospectus.

Investor type profile

This sub-fund is suitable for investors who:

✓ Are looking for a diversification of their investments through exposure to a range of asset classes, globally;
✓ Are willing to accept higher market risks in order to potentially generate higher long-term returns;
✓ Can accept significant temporary losses;
✓ Can tolerate medium to high volatility.

Sub-fund launched on 1st October 2013 with the name "Pension Return Fund"

Current name first applied on 17 August 2015

Taxation:

Potential shareholders are recommended to seek full information in their country of origin, place of residence or domicile on the possible tax consequences associated with their investment.

BNP Paribas Plan International Derivatives

Short-named **BNPP Plan International Derivatives**

Investment objective

This sub-fund seeks the highest possible return in the form of capital growth, through investment in a quantitatively and dynamically managed derivatives portfolio, with the accompanying high risks being managed in a professional manner.

Investment policy

The Investment Manager generally invests in geographically diversified portfolios of futures and options on stocks and/or stock indices, either listed or OTC. The Investment Manager may invest in written or bought derivatives, with written positions being hedged using other derivatives or cash and Money market Instruments. Regional and country allocations are based on diversification of risk. For derivatives, the Investment Manager generally aims for approximately equal weightings (both among Europe, America and the Far East and, within each region, among countries with sufficiently efficient derivatives markets). The Investment Manager may deviate from equal weightings to pursue more attractive diversification opportunities or in response to a lack of liquidity in one or more derivatives markets. The Investment Manager periodically brings the portfolio back to its target weightings.

The Investment Manager may add or remove regions or countries at any time. The Investment Manager constructs a portfolio that includes derivatives with a variety of maturities and exercise prices, and which is projected to produce the best trade-off between average return and risk. To permit a flexible issuing and redemption policy and to ensure optimum risk management, a part of the sub-fund's assets will consist of cash and/or money market instruments.

- the sub-fund may invest up to 100% of net assets in short-term deposits and money market instruments;
- no more than 20% of the sub-fund's net assets in Cash holdings may be allocated to a given counterpart;
- OTC derivatives are made with first class financial institutions specialising in this type of transaction;
- the sub-fund may invest in other derivatives besides options and futures;
- when a derivative is linked to an index, that index will be sufficiently diversified, will constitute an adequate benchmark for the market it represents and will be published in an appropriate manner.

The Investment Manager will create leveraged equity exposure by investing in derivatives.

Risk profile

Specific market risks:

- Counterparty Risk
- Derivatives Risk

For overview of the generic risks, please refer to the Appendix 3 of the Book I of the Prospectus.
