

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

ROSENBERG EQUITIES

AXA Rosenberg Global Small Cap Alpha Fund

A Sub-Fund of AXA Rosenberg Equity Alpha Trust

Unit : AXA Rosenberg Global Small Cap Alpha Fund A (H) Capitalisation EUR (ISIN : IE00BD007Q55)

This Sub-Fund is managed by AXA Rosenberg Management Ireland Limited, part of the AXA Group

Objective and Investment Policy

Investment Objective

The aim of the Sub-Fund is to provide long-term capital growth above that of the MSCI World Small Cap Index on a rolling three year basis.

The MSCI World Small Cap Index is designed to measure the performance of the shares of smaller companies listed on the stock exchanges of developed countries in the world. The index's composition is available on www.msci.com.

Investment Policy

The Sub-Fund invests primarily shares of smaller companies listed on the stock exchanges of developed countries in the world. The fund manager uses a proprietary systematic stock selection model to identify shares of companies that it believes to be attractive investment opportunities, relative to their industry peers, based on analysis of their valuation and earnings prospects. From these shares, the fund manager seeks to construct a portfolio with the best expected risk/return trade off to meet the Fund's objective. The fund manager considers financial information as well as environmental, social and governance (ESG) information in determining the best expected risk/return trade off. In constructing the Fund's portfolio, the fund manager references the index which means that, while the fund manager has discretion to select the investments for the fund, the fund's divergence from the index is controlled. The fund manager may lend shares held by the Sub-Fund to third parties to generate additional income for the Sub-Fund.

The Unit Class aims to reduce the risk of movements in exchange rates between the currency of the Sub-Fund and the currency of this Unit Class through the use of derivatives (financial instruments that derive their value from the value of other assets).

Income

Net income earned by the Sub-Fund is accumulated and reinvested on behalf of the Unitholders holding accumulation type unit classes.

Sub-Fund Currency

The reference currency of the Sub-Fund is USD.

Investment Horizon

This Fund may not be suitable for investors who plan to withdraw their contribution within 5 years.

Processing of subscription and redemption orders

The subscription, conversion or redemption orders must be received by the Registrar and Transfer Agent on any Dealing (Business) Day no later than 1 p.m. Irish time. Orders will be processed at the Net Asset Value calculated for that Dealing Day.

Please note that there may be additional processing time if your order is placed via intermediaries such as platforms, financial advisors or distributors.

The Net Asset Value of this Sub-Fund is calculated on a daily basis.

Minimum initial investment: EUR 100,000

Minimum subsequent investment: EUR 5,000

Risk and Reward Profile

The risk category is calculated using historical performance data and may not be a reliable indicator of the Sub-Fund's future risk profile.

The risk category shown is not guaranteed and may shift over time.

The lowest category does not mean risk free.

Why is this Sub-Fund in this category?

The capital of the Sub-Fund is not guaranteed. The Sub-Fund is invested in financial markets and uses techniques and instruments which are subject to some levels of variation, which may result in gains or losses.

Additional Risks

Geopolitical Risk: investments issued or traded on markets in different countries may involve the application of different standards and rules (including local tax policies and restrictions on investments and movement of currency), which may be subject to change. The Sub-Fund's value may therefore be impacted by those standards/rules (and any changes to them) as well as the political and economic circumstances of the country/region in which the Sub-Fund is invested.

Operational Risk: the Sub-Fund is subject to the risk of loss resulting from inadequate or failed internal processes, people or systems or those of third parties such as those responsible for the custody of the Sub-Fund's assets.

Stock Lending: the Sub-Fund may enter into securities lending agreements and as a result be subject to increased counterparty risk. Should the counterparty fail financially, the securities received will be called upon. However in the event of significant market volatility at the time of default the value of those securities received could fall below the value of the lent securities. In this instance the manager would not have sufficient cash to purchase the equivalent value of securities lent out which could result in a significant negative impact on the Sub-Fund's value.

Risk linked to Method and Model: attention is drawn to the fact that the Sub-Fund's strategy is based on the utilisation of a proprietary share selection model. The effectiveness of the model is not guaranteed and the utilisation of the model may not result in the investment objective being met.

Liquidity Risk: some investments may trade infrequently and in small volumes. As a result the fund manager may not be able to sell at a preferred time or volume or at a price close to the last quoted valuation. The fund manager may be forced to sell a number of such investments as a result of a large redemption of units in the Sub-Fund. Depending on market conditions, this could lead to a significant drop in the Sub-Fund's value and in extreme circumstances lead the Sub-Fund to be unable to meet its redemptions.

Derivatives: derivatives can be more volatile than the underlying asset and may result in greater fluctuations to the Sub-Fund's value. In the case of derivatives not traded on an exchange they may be subject to additional counterparty and liquidity risk.

Further explanation of the risks associated with an investment in this Sub-Fund can be found in the prospectus.

AXA Rosenberg Global Small Cap Alpha Fund

Charges

The charges you pay are used to pay the cost of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge	none
Exit Charge	none
This is the maximum that might be taken out of your money before it is invested.	

Charges taken from the fund over a year

Ongoing Charges	0.97%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance Fees	none
------------------	------

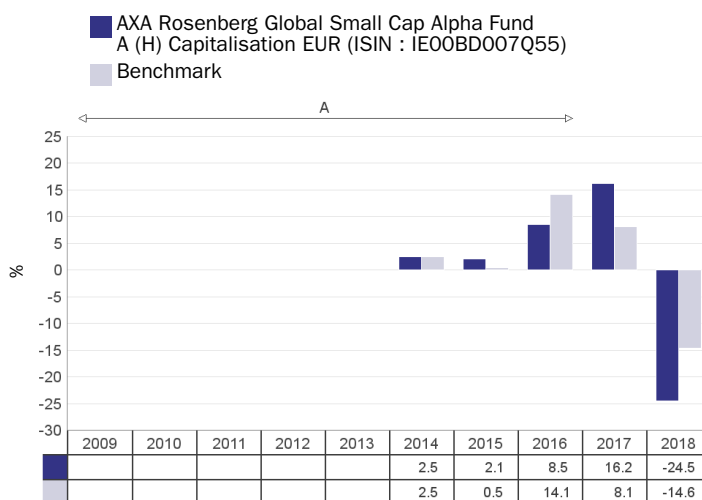

The entry and exit charges shown are maximum figures. In some cases, you might pay less - you can find this out from your Financial Adviser.

The ongoing charges figure is based on expenses for the twelve month period ending March 2019. This figure is adjusted with implemented budget changes for 2019. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Sub-Fund when buying or selling units in another collective investment undertaking

For more information about charges, please refer to the Fees and Expenses section of the prospectus which is available at www.axa-im.com.

Past Performance

Past performance is not a reliable indicator of future results.

Past performance is shown after the deduction of ongoing charges. Any entry/exit fees are excluded from the calculation.

The Sub-Fund was launched on 01/10/1999 and the unit in 2013.

Past performance has been calculated in EUR and is expressed as a percentage change of the Sub-Fund's Net Asset Value at each year end.

Prior to 13/07/2017 the Benchmark of the fund was the S&P Developed SmallCap index.

The current Benchmark is the MSCI World Small Cap index.

A: The entire performance history was achieved under circumstances that no longer apply.
