INVESTMENT OBJECTIVE

Santander AM Euro Corporate Bond seeks to provide income and/or capital growth by investing both in investment grade and non-investment grade Euro Corporate bonds. Investments rated below BBB- by Standard & Poor's or Baa3 by Moody's and the equivalent by other rating agencies at the time of the investment will not exceed 25% of fund assets. The Fund is managed against the Bank of America/Merrill Lynch Euro Corporate Index. The Sub-Fund may also invest up to 20% of its portfolio in asset-backed securities (ABS) and may use derivatives for both risk management and investment.

MONTHLY STRATEGY

It was a poor month for the European credit market, which saw spreads widen by 20bp, but benchmark interest rate cuts helped softened the declines. Escalating US-China trade tensions, new tariff threats on Mexico and renewed Brexit uncertainty strongly raised the chances of rate cuts in the US this year. The fund ramped up duration in May and is now positioned in line with its benchmark.
