

UBS Emerging Markets Sustainable

Fund Fact Sheet

UBS Sustainable & Responsible Funds > Equities

Fund description

- The Fund gives investors access to companies with a focus on sustainability and mainly domiciled in emerging markets. These companies often manufacture innovative products or offer services which, by their especially high environmental and social benefit, contribute to the sustainable development of emerging markets.
- The fund is actively managed and invests in companies which are global leaders with good positioning within their respective spheres of activity.
- Sector and country diversification ensures broad coverage of the global market.

Key benefits

- Access to emerging-market companies that offer solutions to the biggest challenges of the 21st century.
- Investors benefit from the fact that UBS is one of the few asset managers with a truly global investment platform.
- The SRI (Sustainable & Responsible Investments) portfolio management team carries out active stock selection, focusing in particular on companies with promising growth potential.
- The fund is managed by an investment team that has specialised in the management of sustainable portfolios since 1996.

Risks

UBS Emerging Markets Sustainable invests in equities and may therefore be subject to high fluctuations in value. For this reason, an investment horizon of at least five years and corresponding risk tolerance and capacity are required. Investors should also be aware of the political and social challenges that emerging markets face. All investments are subject to market fluctuations. Every fund has specific risks, which can significantly increase under unusual market conditions. The fund can use derivatives, which may result in additional risks (particularly counterparty risk).
