Amura Funds SICAV - Absolute Return Fund, class C2 LU0947623327

a sub-fund of Amura Funds SICAV

This sub-fund is managed by Mora Asset Management Luxembourg S.A..

Objectives and investment policy

Objectives

The investment objective of the sub-fund is to achieve long-term risk-adjusted returns through exposure to a diversified portfolio of alternative investment strategies selected by the Investment Manager by investing mainly in eligible funds.

Investment policy

The sub-fund will be invested mainly in investment funds which will provide the sub-fund to a range of alternative investment strategies including but not limited to equity long/short, relative value, tactical trading or event driven strategies.

In determining the relative allocations of the capital to each investment strategy, the sub-fund considers the risk-return characteristics and draw-down patterns of each strategy at any time. For this reason, allocations

may vary significantly over time as returns for different investment strategies vary.

This sub-fund may use derivatives for hedging purposes or for investment purposes on an ancillary basis, within the limits set out in the SICAV's prospectus and in accordance with the investment policy of the sub-fund.

The reference currency of the sub-fund is expressed in EUR.

The currency of the share class is expressed in USD.

The investor may subscribe, convert and redeem shares weekly.

Income of this share class is reinvested (accumulated).

Recommendation

This fund may not be appropriate for investors who plan to withdraw their money within 3 years.

Risk and reward profile

What does this synthetic indicator mean?

- The calculation of the risk indicator is based on estimated and historical data which may not be a reliable indication of the future risk profile of the sub-fund.
- The risk category shown is not guaranteed to remain unchanged. The sub-fund's risk indicator may shift over time.
- The lowest category of the risk indicator does not mean a risk-free investment.
- The sub-fund Amura Funds SICAV - Absolute Return Fund is classified in category 4 due to its investments in a broad range of alternative strategies, mainly in investment funds.

Which risks are not included in this synthetic indicator?

As well as being exposed to credit, interest rate, exchange rate and derivatives risks, the sub-fund is also exposed to the following material risks which are not adequately captured by the risk indicator:

- risks of a political, judicial or fiscal nature;
- operational risk*: risk of material loss resulting from human error, technical faults, inappropriate procedures or checks;
- valuation risk*: risk that an investment is incorrectly valued;
- counterparty risk*: risk that the counterparty to mutually agreed contracts does not meet its obligations;
- liquidity risk*: risk that a given security or asset cannot be traded quickly enough in the market to fulfil financing obligations without incurring a loss.

How can I get more information about the risks of the sub-fund?
