Petroleos Mexicanos		3.31

Benefits

Investors obtain an investment similar to a single bond with a fixed maturity but with all the benefits of diversification and fund management by specialists.

Investors can benefit from attractive current emerging market credit spreads regardless of whether or not spread-narrowing takes place during the fund's life. *)No guarantee – repayment at fund maturity and distributions can be influenced by potential bond issuer defaults and market conditions between the maturity of the bonds in the fund and fund maturity

Additional information

- The fund manager combines carefully selected issuers of different credit qualities from different sectors and countries and securities with different maturities with the aim to seize interesting investment opportunities while keeping risk in check.
- The fund will mature on 17 December 2018.

Risks

The fund involves the risk of issuer default on payments of coupons or the bond's terminal value. Should any such default event occur, the value of the fund will be at risk. During the fund's life its net asset value (NAV) may decrease due to market events and depends on interest rate and credit spread movements. Emerging markets are at an early stage of development, which can typically involve a high level of price volatility and other specific risks, such as lower market transparency, regulatory hurdles, corporate governance as well as political and social challenges. The fund does not provide any guarantee on payouts of income and final net asset value. There is no specific estimate of the fund's value as of maturity. This value depends on repayments of the bonds purchased by the fund and the reinvestment of undistributed interest income. All investments are subject to market fluctuations. The fund can invest in less liquid assets that may be difficult to sell in the case of distressed markets. Every fund has specific risks, which may increase considerably in unusual market conditions. This requires corresponding risk tolerance and capacity.

Please note that additional fees (e.g. entry or exit fees) may be charged. Please refer to your financial adviser for more details. Investors should read the Key Investor Information Document (KIID), Prospectus and any applicable local offering document prior to investing. For a definition of financial terms refer to the glossary available at www.ubs.com/glossary.
