This document is accurate as at **01 January 2023**.

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type:

The Fund is a sub-fund of M&G Investment Funds (1), an open-ended investment company with variable capital (OEIC) organised as an umbrella Fund with segregated liability between sub-Funds. Governed and established under English Law as a UK Undertaking for Collective Investment in Transferable Securities (UK UCITS).

Objective:

The Fund aims to provide a combination of capital growth and income to deliver a return that is higher than that of the MSCI ACWI Index over any five-year period.

Core investment: at least 80% of the Fund is invested in the shares of companies, across any sector and of any size, from anywhere in the world, including emerging markets.

Other investments: the Fund may invest in other funds and cash or assets that can be turned quickly into cash.

Derivatives usage: to reduce risk and costs.

Strategy in brief: the investment process involves the identification of 'themes' arising from changes within economies, industries and societies that happen over time and finding companies that can take advantage of them. Themes are identified through the analysis of global macroeconomics, demographics, government policies and spending, and technological innovation, among other considerations. The fund manager then selects stocks that can benefit from these themes based on the companies' quality, growth prospects and valuation.

Benchmark: MSCI ACWI Index

The benchmark is a target which the Fund seeks to outperform. The index has been chosen as the Fund's benchmark as it best reflects the scope of the Fund's investment policy. The benchmark is used solely to measure the Fund's performance and does not constrain the Fund's portfolio construction. The Fund is actively managed. The fund manager has complete freedom in choosing which investments to buy, hold and sell in the Fund. The Fund's holdings may deviate significantly from the benchmark's constituents. For unhedged and hedged share classes, the benchmark is shown in the share class currency.

Intended Retail Investor:

This Fund is suitable for all types of investors, with basic investment knowledge, who want to invest in an actively managed fund pursuing the objective and investment policy of the Fund as described above. The return on your Fund is directly related to the value of its underlying assets, which is determined by the market's view on how well each company is performing, as well as reflecting broader economic and political themes. As an investor your capital is at risk. The value of your portfolio, and any income you may receive from it, can go down as well as up. You may get back less than you originally invested.

Any income from the Fund may be paid out to you annually.

Term: The Fund has no set maturity date but is designed to be held for a minimum of 5 years. However, it is possible for the Directors of the company to terminate the Fund, without the prior consent of the shareholders, where it is deemed to be uneconomic to run or in the best interests of shareholders. Refer to the Prospectus for more information.

What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product may lose money because of movements in the markets or because we are not able to pay you.

The risk indicator assumes you keep the product for 5 year(s). This product has no maturity date.

We have classified this product as 4 out of 7, which is a medium risk class.

Performance scenarios

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the fund over the last 15 years. Markets could develop very differently in the future.

Investment = € 10,000

Scenarios	If you exit after: 1 year	If you exit after: 5 years*
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress scenario		
What you might get back after costs	€2,540	€2,150
Average return each year	-74.6%	-26.4%
Unfavourable scenario		
What you might get back after costs	€8,540	€10,450
Average return each year	-14.6%	0.9%
Moderate scenario		
What you might get back after costs	€10,710	€15,100
Average return each year	7.1%	8.6%
Favourable scenario		
What you might get back after costs	€14,350	€18,270
Average return each year	43.5%	12.8%

*Recommended holding period

What happens if M&G Securities Limited is unable to pay out?

The fund has external, independent custodians and depositary whose job it is to keep the assets of the customer separate from that of M&G as the fund manager. This separation protects the customer's investment, if the fund manager were to become insolvent. Additionally, you are protected by the Financial Services Compensation Scheme (FSCS), that may entitle you to compensation of up to £85,000 per investor, if M&G could not meet its obligation and became insolvent. For further information about compensation arrangements, please contact the FSCA at The Financial Services Compensation Scheme, 10th Floor, Beaufort House, 15 St Botolph Street, London EC3A 7QU.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Table 1: Costs over time			
Scenarios	If you exit after: 1 year		If you exit after: 5 years*
Total costs	€420	4.2%	€1,264 12.6%
Annual cost impact (*)	4.2%		1.8%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.4% before costs and 8.6% after costs. These figures include the maximum distribution fee that the person selling you the product may charge. This person will inform you of the actual distribution fee.

Table 2: Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after: 5 years
Entry costs	No entry costs are payable when you acquire your investment.	3.3%
Exit costs	No exit costs are payable when you dispose of your investment.	0.0%
Ongoing costs		
Portfolio transaction costs	The impact of the costs of us buying and selling underlying investments for the product.	0.0%
Other ongoing costs	The impact of the salaries payable to our staff and other costs and expenses of running the company, together with management and performance fees relating to our underlying funds portfolio.	0.9%
Incidental costs		
Performance fees and/or Carried interests	The impact of the performance-related compensation schemes payable to the company's staff and/or the impact of carried interests.	0.0%

Different costs apply depending on the investment amount. Additional costs may be payable if product options are chosen throughout the lifetime of your investment.

How long should I hold the investment and can I take money out early?

Recommended minimum holding period of this fund is 5 years.

The recommended minimum holding period was selected in accordance with the fund's objective. You may redeem your units on any dealing day. The redemption price is calculated by reference to the Net Asset Value per unit of the relevant class fund as at the Valuation Point on the relevant dealing day.

The request may be made by phone at +44 800 390 390.

How can I complain?

If you wish to complain about any aspect of the service you have received or to request a copy of M&G's complaints handling procedures, please contact M&G Customer Relations, PO Box 9039, Chelmsford CM99 2XG. If your complaint is not dealt with to your satisfaction, you can then complain to: The Financial Ombudsman Service (FOS), Exchange Tower, London, E14 9SR.
