## General information of the Fund

DPAM L (the "SICAV") was incorporated on 23 December 1987 as an Investment Company with Variable Capital (SICAV) with multiple Sub-Funds, governed by Luxembourg Law for an unlimited period. At the date of the report, the SICAV is subject to the law of 10 August 1915 and its amended laws related to commercial companies, to the Part I of the law of 17 December 2010 ("the Law of 2010") related to Undertakings for Collective Investment and to the Council Directive 2009/65/EC as amended.

Since 1st June 2016, the publications are made in "Recueil Electronique des Sociétés et Associations (RESA)" and accessible on the site "Registre de Commerce et des Sociétés de Luxembourg".

The Articles of Incorporation of the SICAV were published in the "Mémorial, Recueil des Sociétés et Associations" on 17 February 1988, and the Articles of Incorporation, amended for the last time by the Extraordinary General Meeting of Shareholders of 2 January 2017 were published in the "Registre Electronique des Sociétés et Associations"

The SICAV has appointed DEGROOF PETERCAM ASSET SERVICES S.A. as management company to perform globally all the collective portfolio management functions referred to in Appendix II to the Law of 2010, namely the management of the portfolio and the administration and sale of the shares in the SICAV.

As at the 30 June 2020, the following Sub-Funds are active:

|   |        |
|---|--------|
| - DPAM L LIQUIDITY EUR&FRN  | in EUR |
| - DPAM L BONDS EUR QUALITY SUSTAINABLE  | in EUR |
| - DPAM L BONDS UNIVERSALIS UNCONSTRAINED  | in EUR |
| - DPAM L BONDS HIGHER YIELD   | in EUR |
| - DPAM L BONDS GOVERNMENT SUSTAINABLE HEDGED  | in EUR |
| - DPAM L EQUITIES CONVICTION RESEARCH   | in EUR |
| - DPAM L BONDS EUR HIGH YIELD SHORT TERM  | in EUR |
| - DPAM L PATRIMONIAL FUND   | in EUR |

| - DPAM L BONDS CLIMATE TRENDS SUSTAINABLE   | in EUR |
| - DPAM L BONDS GOVERNMENT SUSTAINABLE   | in EUR |

At the date of the report, the following classes of shares are available:

- **Class A shares:** distribution shares, denominated in the sub-fund's reference currency, which, in principle, entitle their holder to receive a cash dividend, as described in the current prospectus ;

- **Class B shares:** capitalisation shares, denominated in the sub-fund's reference currency, which, in principle, do not entitle their holder to receive a dividend, but the amount attributable to the holder from the amount to be distributed is capitalised in the Sub-Fund to which these capitalisation shares belong ;

# DPAM L

## General information of the Fund

---

- **Class B CHF shares:** capitalisation shares that differ from class B shares in that they are denominated in Swiss francs ;
- **Class B EUR HEDGED shares:** capitalisation shares that differ from class B shares in that the non-Euro currency risk is limited by an active policy of hedging the exchange rate risk against the Euro. The overall proportion of currencies other than the Euro in the sub-fund's net assets will be hedged pro rata to the net assets of the B EUR HEDGED share class. Investors should be aware that implementation of an active exchange rate risk hedging policy is likely to entail extra charges ;
- **Class B USD shares:** capitalisation shares that differ from class B shares in that they are denominated in US dollars ;
- **Class E shares:** shares with the same characteristics as class A shares, reserved for institutional investors within the meaning of Article 174 paragraph (2), section c) of the law of 17 December 2010 ;
- **Class F shares:** shares with the same characteristics as class B shares, reserved for institutional investors within the meaning of Article 174 paragraph (2), section c) of the law of 17 December 2010.
- **Class F CHF shares:** capitalisation shares that differ from class F shares in that they are denominated in Swiss francs ;
- **Class F USD shares:** capitalisation shares that differ from class F shares in that they are denominated in US dollars ;
- **Class J shares:** capitalisation shares that differ from class F shares in that they are reserved to institutional or professional investors having one or more current discretionary management mandates with one or more companies belonging to Degroof Petercam Group, to the account(s) to which these discretionary management mandates apply, and in that they have a different management fee ;
- **Class L shares:** capitalisation shares that are different from class B shares on account of their sales commission and different management fee ;
- **Class M shares:** distribution shares that differ from class A shares in that they are reserved for investors having one or more current discretionary management mandates with one or more companies belonging to Degroof Petercam Group, and they are reserved for the account(s) to which these discretionary management mandates apply, and in that they are reserved for mandates with an "all in" type rate structure, and in that (iv) they have a different management fee. In this context, the "all in" type rate structure includes management fees and custody fees charged to the account(s) to which these "all in" type discretionary management mandates apply ;
- **Class N shares:** capitalisation shares that differ from class B shares in that they are reserved for investors having one or more current discretionary management mandates with one or more companies belonging to Degroof Petercam Group, and they are reserved for the account(s) to which these discretionary management mandates apply, and in that they are reserved for mandates with an "all in" type rate structure, and in that (iv) they have a different management fee. In this context, the "all in" type rate structure includes management fees and custody fees charged to the account(s) to which these "all in" type discretionary management mandates apply ;

# DPAM L

## General information of the Fund

---

- **Class P shares:** capitalisation shares which differ from class F shares by the absence of (i) a management fee and (ii) a minimum initial subscription amount and in that they are (i) they are reserved for investors currently holding one or more discretionary management mandates with Degroof Petercam Asset Management and (ii) they are reserved for the account(s) to which these discretionary management mandates apply ;

- **Class V shares:** distribution shares that are different from class A shares in that, at the discretion of the Management Company, they are characterised by the countries in which the Shares are offered, namely countries of the European Union (except Belgium), the United Kingdom and Switzerland and they have a different management fee ;

- **Class V EUR HEDGED shares:** distribution shares which differ from class V shares in that the exchange risk against the euro is hedged. The Manager must take measures to systematically hedge the exchange risk in relation to the sub-fund's reference currency within a tolerance threshold defined in the information on the sub-fund. Investors are advised that implementing an exchange risk hedging policy may result in additional costs as mentioned in the information on the sub-fund ;

- **Class W shares:** capitalisation shares that are different from class B shares in that, at the discretion of the Management Company, they are characterised by the countries in which the Shares are offered, namely countries of the European Union (except Belgium), the United Kingdom and Switzerland and they have a different management fee ;

- **Class W USD shares:** capitalisation shares which differ from class W shares in that they are denominated in US dollars ;

- **Class W EUR HEDGED shares:** capitalisation shares that differ from class W shares in that the non-Euro currency risk is limited by an active policy of hedging the exchange rate risk against the Euro. The overall proportion of currencies other than the Euro in the sub-fund's net assets will be hedged pro rata to the net assets of the W EUR HEDGED share class. Investors should be aware that implementation of an active exchange rate risk hedging policy is likely to entail extra charges.

Dividends payable on any distribution class may, at the request of the shareholder, be paid in cash or in the form of new shares of the respective class.

The Net Asset Value of each Sub-Fund is calculated each bank business day in Luxembourg ("Valuation Day") that corresponds to a net asset value which will be dated that Valuation Day but calculated on the bank business day following that Valuation Day.

The Net Asset Value, issue price and redemption price (of each Sub-Fund) are available each business day at the registered office of the SICAV, and in Switzerland, each business day in Geneva at the Representative BANQUE DEGROOF PETERCAM (SWITZERLAND) S.A., Geneva (for the relevant Sub-Funds).

The SICAV publishes, at the end of each year, an annual report audited by the Auditor and, at the end of each half year, an unaudited semi-annual report. These financial reports contain separate financial statements for each Sub-Fund. The consolidation currency is the Euro.

The following documents are available to the public at the Registered Office of the SICAV or from the <http://funds.degroopetercam.lu> and <http://funds.degroopetercam.com> :

- the articles of association of the SICAV ;

## **DPAM L**

### **General information of the Fund**

---

- the prospectus of the SICAV (including the fact sheets for the SICAV's sub-funds) ;
- the Key Information (for each sub-fund and each class of shares) ; and
- the financial reports of the SICAV.

A copy of the agreement entered into with the Manager of the SICAV manager can be consulted free of charge at the registered office of the SICAV.

# **DPAM L**

## **Economic Environment**

---

After experiencing their worst performance since the 2008 crisis in Q1 2020, global equities posted solid performances in Q2. However, at the end of the period, they were still below their level at the end of 2019. At the beginning of the period, the rapid spread of Covid-19 outside of China shook the markets. The price of oil fell by half during the first quarter, due to the double effect of lower demand owing to containment measures and the increase in oil supply from Saudi Arabia following the disagreement within the OPEC+ alliance. Yields on 10-year German and US government bonds fell to historic lows in March. From mid-March, the various unprecedented announcements of economic support from central banks and governments restored investor optimism. In addition, the gradual economic reopening in the second quarter led to an upturn in economic activity, which supported the markets. Gold appreciated during the period. The US dollar, which had appreciated sharply in March, lost ground in the second quarter, particularly in May against the euro. Risk-free rates were largely unchanged in the second quarter. Long-term rates remained constrained by the massive intervention of central banks. Oil ended the second quarter up sharply following the agreement reached by the oil-producing countries and the gradual economic reopening.

### **United States of America**

The effects of the coronavirus on economic activity and the confidence of US businesses and households were not felt until March. Business confidence indicators remained relatively strong in January and February before collapsing in March. The Federal Reserve Bank took emergency monetary measures in response to the growing threat of the virus to the US economy. The US key rate returned to its historic low of 0% in March. The Fed also reinstated crisis mechanisms aimed at maintaining a sufficient degree of liquidity on the money market and meeting the US dollar requirements of foreign central banks. In addition to intervening massively in the public debt market, the Fed has launched various corporate loan programs. In June it reinforced its guidance by stating that it would maintain its key interest rate at the current level until the end of 2022 at the earliest. As for fiscal policy, the US Congress approved a budget support plan of historic proportions in the second half of March. US consumption fell 12% in April before rebounding 8% in May. US government assistance programmes supported household incomes in April, at a time when US employment was at an all-time low. The labour market situation improved somewhat at the end of the quarter. The unemployment rate fell in May and June, ending the period at 11.1%, after peaking at 14.7% in April. However, the number of new applications for unemployment benefits remained abnormally high at the end of the period.

### **Eurozone**

Economic confidence indicators showed a slight improvement in economic activity in January and February. However, the arrival of Covid-19 completely reversed this scenario. Business confidence indicators fell in March and April to historic lows. Leading macroeconomic indicators picked up again in April as the restrictive measures were gradually lifted. Looking at monthly activity indicators such as industrial production and retail sales, the economic contraction between February and April was more pronounced in Italy, France and Spain than in Germany and the Netherlands. The ECB announced a series of new measures at its March meeting. In its first act, it established new financing lines on favourable terms for the banking sector. The ECB launched a pandemic purchase programme on 18 March with an initial size of EUR 750 billion. In June the ECB increased the size of this programme by EUR 650 billion. In addition, it extended the duration of its purchases under this program by six months, which will now run until mid-2021. Finally, it will reinvest maturing bonds until at least the end of 2022. The ECB's intervention contributed to the decline in spreads in Eurozone's southern countries. With regard to fiscal policy, the various countries announced plans to provide economic support in the form of a state guarantee for corporate loans and increased assistance for households and companies in difficulty. On the political side, the highlight of the period was the European Commission's proposal for a European recovery plan worth EUR 750 billion. Under this proposal, two thirds of the recovery plan will take the form of permanent tax subsidies/transfers. Some countries view this plan with reluctance

# **DPAM L**

## **Economic Environment**

---

and are advocating loans instead of subsidies. This announcement by the Commission, which has yet to be approved by the European Council, has contributed to the rise in the price of European financial assets, including the euro in particular at the end of the period.

### **Japan**

Japan was one of the first countries after China to be affected by the virus. As a result, economic activity in Japan continued to decline in the first quarter after the sharp downturn at the end of 2019. Despite the rebound, in May retail sales were 12.3% below their May 2019 level, despite the fact that Japan has never really implemented full containment of its economy. In addition, the Japanese central bank decided to increase the size of its purchase programme several times over the period, to maintain its policy of setting the 10-year rate at 0% and to broaden the assets eligible as collateral for its loans. At the end of May, the government approved a second economic support programme, making Japan's fiscal response to the crisis the most significant in the world.

### **Emerging markets**

Most central banks in the emerging countries have lowered their rates in the face of the Covid-19 threat. In the first quarter, emerging countries experienced significant capital outflows, which contributed to the depreciation of these currencies. Emerging currencies recovered from the end of April when investors repositioned themselves on risky assets. The health situation remained difficult in a large number of emerging countries in the second quarter. India eased restrictions on the movement of people even though the number of new cases had not yet stabilised. In Brazil, in addition to the epidemic, political instability has resurfaced. In China, most activity indicators marked record declines in February. Activity showed signs of recovery during March. At its annual meeting in May, the Chinese Communist Party announced a stimulus package that contains mainly new spending on infrastructure. Activity figures for the month of May show that some sectors of the economy (industrial production, investment in fixed assets) have returned to their May 2019 levels. This is not yet the case for other industries such as public transport and tourism, where activity has remained below normal.

Luxembourg, July 2020

## Notes to the financial statements as at 30 June 2020

---

### NOTE 1 - ACCOUNTING PRINCIPLES AND METHODS

#### a) Securities portfolio valuation

- 1) The value of cash on hand or on deposit, bills and notes payable on sight and accounts receivable, prepaid expenses, dividends and interest declared or matured and not yet received shall be the nominal value of such assets, except where it is unlikely that such value can be received; in the latter case, the value shall be determined by deducting such amount as the SICAV considers appropriate to reflect the real value of such assets.
  - 2) The value of all transferable securities, money market instruments and derivative financial instruments which are listed on an exchange or traded on any other regulated market, which operates on a regular basis, is recognised and open to the public shall be determined according to their last available price.
  - 3) In cases where investments of the SICAV are listed on a stock exchange or traded on another regulated market, which operates on a regular basis, is recognised and open to the public and traded by market makers outside the stock exchange on which the investments are listed or the market on which they are traded, the Board of Directors may determine the principal market for the investments in question, which will then be valued at the last price available on that market.
  - 4) Derivative financial instruments that are not listed on an official stock exchange or traded on any other regulated market, which operates on a regular basis and is recognised and open to the public, will be valued in accordance with market practice, as further described in the Prospectus.
  - 5) The value of the representative securities of any open-ended Collective Investment Scheme shall be determined according to the last official Net Asset Value per unit or according to the last estimated Net Asset Value if the latter is more recent than the official Net Asset Value, provided that the SICAV is satisfied that the valuation method used for this estimate is consistent with that used to calculate the official Net Asset Value.
- 6) To the extent that:
- the transferable securities, money market instruments and/or derivative financial instruments in the portfolio on the Valuation Day are not listed or traded on a stock exchange or other regulated market that operates regularly, is recognised and open to the public or,
  - for transferable securities, time deposits, money market instruments, derivative financial instruments and/or securities representing Collective Investment Schemes listed and traded on an exchange or other market but for which the price determined in accordance with paragraphs 1) and 2) is not, in the opinion of the Board of Directors, representative of the real value of such transferable securities, time deposits, money market instruments, derivative financial instruments and/or securities representing Collective Investment Schemes the Board of Directors assesses the value with prudence and good faith.

#### b) Net realised gain or loss on investments

The net capital gains or losses realised on sales of securities are calculated based on the average cost of the securities sold.

#### c) Acquisition cost of the securities in the portfolio

For securities denominated in currencies other than the sub-fund's currency, the acquisition cost is calculated on the basis of the exchange rate in force on the day of purchase.

# DPAM L

## Notes to the financial statements as at 30 June 2020

---

### d) Change in the net unrealised gain and loss

The change in the unrealised capital gain or loss on investments at the end of the financial year is included in operating income.

### e) Income, expenditure and related provisions

Interest is recorded daily and dividends are recorded on the "ex-date". Interest and income are recorded net of non-recoverable withholding taxes on movable property.

### f) Start-up costs

Formation expenses are amortized on a straight-line basis over a period of five years.

If a sub-fund is launched after the launch date of the SICAV, the formation expenses relating to the launch of the new sub-fund will be charged to that sub-fund alone and may be amortised over a maximum period of five years from the date of launch of that sub-fund.

### g) Change in the securities portfolio

The table of changes in the sub-funds' securities portfolio is available free of charge at the Sicav's registered office.

### h) Conversion of foreign currencies

The SICAV's accounts are kept in euro. Bank deposits, other net assets and the stock market value of securities in the portfolio in currencies other than the euro are converted into euro at the exchange rate valid on the closing date.

Revenue and expenditure in currencies other than the euro are translated into euros at the exchange rate in force on the date of payment.

### i) Combined financial statements

The combined financial statements of the SICAV are drawn up in EUR and are equal to the sum of the corresponding headings in the financial statements of each sub-fund.

### j) Crossed Investments

Cross-investments between the Sub-Funds of the SICAV have not been subtracted from the combined statement of net assets. As at 30 June 2020, the total amount of cross-investments is EUR 68,140,558.80 and therefore the combined net assets without cross-investments is EUR 6,299,703,410.14.

## NOTE 2 - EXCHANGE RATE

|         |             |
|---------|-------------|
| 1 EUR = | 1.06425 CHF |
| 1 EUR = | 1.12315 USD |

## Notes to the financial statements as at 30 June 2020

### NOTE 3 - TAXES AND EXPENSES PAYABLE

|                    |              |     |
|--------------------|--------------|-----|
| Management fee     | 4,973,516.28 | EUR |
| Depository fees    | 367,375.85   | EUR |
| Subscription tax   | 307,453.12   | EUR |
| Miscellaneous fees | 1,542,373.16 | EUR |
| Total              | 7,190,718.41 | EUR |

### NOTE 4 - SUBSCRIPTION, REDEMPTION AND CONVERSION FEES

#### Subscription fee

Subscriptions in the Sub-Funds are accepted on the basis of the Net Asset Value on the Valuation Day, plus an entry fee at the below rates to be paid to the agents active in distribution and placing of shares :

| Shares Classes                       | Subscription Fees |
|--------------------------------------|-------------------|
| A                                    | Max. 2%           |
| B, B CHF, B EUR HEDGED, B USD HEDGED | Max. 2%           |
| E                                    | Max. 1%           |
| F, F CHF, F USD                      | Max. 1%           |
| J                                    | 0%                |
| L                                    | Max. 2%           |
| M, M USD                             | Max. 1%           |
| N, N USD                             | Max. 1%           |
| P                                    | 0%                |
| V, V EUR HEDGED                      | Max. 2%           |
| W, W CHF, W W EUR HEDGED, W USD      | Max. 2%           |
| Z                                    | 0%                |

#### Conversion fee

Difference between the respective entry fees of the sub-funds in question, if the entry fee of the sub-fund from which investment is withdrawn is less than the entry fee of the sub-fund into which investment is made, payable to the placement agents and/or distributors.

No commission is charged on a redemption or conversion done an other Sub-Fund of the SICAV.

### NOTE 5 - MANAGEMENT FEE AND PERFORMANCE FEE

The SICAV has appointed DEGROOF PETERCAM ASSET SERVICES as management company (the "Management Company"). The Management Company, under its responsibility and control, delegated the management of several sub-funds' portfolios to DEGROOF PETERCAM ASSET MANAGEMENT S.A., the Manager.

# DPAM L

For some Sub-Funds, the Manager also received a performance fee, calculated as follows :

For the Sub-Fund DPAM L EQUITIES CONVICTION RESERACH, the Manager is entitled to a performance fee which is calculated as follows:

1. For each NAV when the performance of the sub-fund exceeds the benchmark index (MSCI Europe Net Return denominated in EUR - code Bloomberg MSDEE15N) (the "Benchmark"), a fee of 20% of the outperformance is due under the conditions set in paragraph 3.
2. The performance of the sub-fund is equivalent to the difference between the latest NAV calculated and the highest NAV (plus the latest performance fee, and, where applicable, adjusted for any distribution) of all previous NAVs.
3. The performance fee is due only if the performance of the sub-fund per share, as defined above, is positive and exceeds that of the Benchmark, adjusted, as necessary, for any distribution. In this case, in order to determine the performance fee, the performance fee rate is applied to the difference between (i) the latest NAV per share calculated and (ii) the higher of (ii.a) the highest NAV (plus the latest performance fee, and, where applicable, adjusted for any distribution) of all previous NAVs or (ii.b) the Benchmark, adjusted, where applicable, for any distribution, multiplied by the number of shares in issue at the date of the latest NAV.

The performance fee calculated during each calculation of the Net Asset Value is due to the Manager and payable in the month following the end of each month.

For the Sub-Fund DPAM L PATRIMONIAL FUND, the Manager is entitled, where applicable, to a performance fee calculated as follows:

1. For each NAV when the performance of the sub-fund exceeds the benchmark index (EURIBOR 3M, Bloomberg code EUR003M) (the "hurdle rate"), a fee of 10% of the outperformance is due under the conditions set in paragraph 3.
2. The performance of the sub-fund is equivalent to the difference between the latest NAV calculated and the highest NAV (plus the latest performance fee, and, where applicable, adjusted for any distribution) of all previous NAVs.
3. The performance fee is due only if the performance of the sub-fund per share, as defined above, is positive and exceeds the hurdle rate, adjusted, as necessary, for any distribution. In this case, in order to determine the performance fee, the performance fee rate is applied to the difference between (i) the latest NAV per share calculated and (ii) the higher of (ii.a) the highest NAV (plus the latest performance fee, and, where applicable, adjusted for any distribution) of all previous NAVs or (ii.b) the hurdle rate, adjusted, where applicable, for any distribution, multiplied by the number of shares in issue at the date of the latest NAV.

# DPAM L

## Notes to the financial statements as at 30 June 2020

---

The performance fee calculated during each calculation of the Net Asset Value is due to the Manager and payable in the month following the end of each month.

### NOTE 6 - SUBSCRIPTION TAX

The SICAV is governed by Luxembourg law.

Pursuant to the legislation and regulations in force, the SICAV is subject to an annual subscription tax ("taxe d'abonnement") of 0.05% which is payable quarterly and calculated on the basis of the net assets of each Sub-Fund on the last day of each quarter.

However, for the relevant Sub-Funds, a reduced rate of 0.01% is applied to classes of shares reserved for institutional investors.

Pursuant to Article 175(a) of the law of 17 December 2010, the net assets invested in Undertakings for Collective Investment already subject to the "taxe d'abonnement" are exempt from this tax.

### NOTE 7 - BELGIAN ANNUAL TAX

Articles 161 to 162 of the Belgian inheritance tax code, as amended by the Belgian Law of 22 December 2003, impose the payment on Undertakings for Collective Investment formally authorised to market their services in Belgium of an annual tax of 0.08% on the total net amount subscribed in Belgium as at 31 December of the preceding year, starting at the date of their registration with the "Autorité des Services et Marchés Financiers" ("FSMA"). The aforementioned amended Articles 161 to 162 came into force on 1 January 2004.

The SICAV is required to pay this tax on 31 March of each year.

On 13 May 2004, the SICAV made a complaint against the Belgian state to European Commission to ask for the cancellation of the obligation to pay the annual fee and the refund of taxes already paid. On 16 December 2010, the SICAV made an updated complaint to the European Commission. The legal costs of this complaint are borne by the SICAV.

On 9 February 2006, the SICAV has summoned the Belgian state for the restitution fee in front of the Court of First Instance in Brussels.

The SICAV continued to instruct the Belgian state in order to obtain the refund of this tax paid for the following exercises, without favourable continuation. From then on, it prepares cases quotations in front of the court for these exercises.

No amount has been booked as of the date of this report.

In two similar cases, the Court of First Instance in Brussels ruled at the end of 2011 and during 2012 that this tax infringes an article of the Double Tax Avoidance Agreement between Belgium and Luxembourg and infers from this that it may not be imposed. The Belgian government has appealed against these rulings. In accordance with the judgement delivered by the Brussels Court of Appeal on 23 October 2014, the Court of Appeal shall stay proceedings and submit various preliminary matters to the European Court of Justice.

# DPAM L

## Notes to the financial statements as at 30 June 2020

---

The Law of 17 June 2013 relating to fiscal and financial provisions, and provisions relating to sustainable development (Belgian Moniteur 28 June 2013) changed the rate of the annual tax on undertakings for collective investment, established by Article 161a of the Inheritance Tax Code, to 0.0965% with effect from 1 January 2013 and 0.0925% with effect from 1 January 2014.

### NOTE 8 - "SWING PRICING"

Swing pricing has been introduced as a possible means of protecting a fund's performance and thus the interest of existing investors from the dilution effect of frequent trading implied by large net in- or outflows. Swing pricing protects the long-term investors in a fund as an investor can only be impacted by the swing pricing the day he subscribes or redeems.

Only one NAV is reported for all external performance and comparison purposes, as well as for execution of subscription, redemption and switch orders.

Therefore, if swing pricing is activated it is the swung price that is reported. The benefit of swinging the NAV is realized by the fund and in the case of a multi-share class fund, is attributed to all of the fund's share classes on the same basis as with any fund level revenue or capital item. The swing mechanism applied is the partial swing (swing pricing with a trigger threshold). The NAV is swung but only when the pre-defined swing threshold is exceeded.

#### Swing threshold

The net value of subscription, redemption and switch orders received by the transfer agent for a single fund on any one trading day, expressed as a percentage of the NAV, required to trigger the NAV swing process. The Board of Directors of the fund determines by Circular Resolution the applicable threshold, taking into account the impact of adjustment on the volatility of the NAV. The threshold is reviewed periodically.

#### Swing factor

A swing factor is the amount, expressed as a percentage, by which the NAV is adjusted in order to protect existing investors in a fund from the cost of trading securities as a result of capital activity. The swing factor is triggered as a result of capital activity exceeding a pre-defined threshold for partial swing. The swing factor value will be determined by the Board of Directors and may vary from one sub-fund to the next without, however, exceeding 3% of the unadjusted NAV. The swing factor is monitored and calculated on an ongoing basis by the Management Company. The factor is determined under normal and usual market conditions on the basis of the weighted average of the bid-ask spread of each individual portfolio position.

The applicable swing factor will be updated when the most recent calculated swing factor exceeds the previous swing factor validated by the Board of Directors by more than the fixed threshold of 10 bps. In this case the Board of Directors will be contacted and a new swing factor will be approved and updated for the Sub-Funds concerned.

All the data related to the determination and review of the swing factors and thresholds is archived electronically on the Management Company database.

The direction of the swing depends on the net flow of capital applicable to a NAV.

In the case of a net inflow of capital, the swing factor linked to subscriptions of shares in the sub-fund will be added to the NAV. For net redemptions, the swing factor linked to redemptions of shares in the sub-fund in question will be deducted from the NAV.

In both cases, all entering/exiting investors on a given date will have the same NAV applied.

| 31/12/2020   | A, Dis | 0,71             |
|              | E, Dis | 0,69             |
|              | M, Dis | 0,71             |

### **NOTE 13 - TRANSACTIONS WITH RELATED PARTS**

Certain sub-fund of the SICAV proceeded during the period to purchases/sales of securities with related parts, acting as counterparty or as intermediary in the transactions.

According to the article 46. (3) Of the law modified of December, 2010 an UCITS which invests an important part of its assets in others UCITS and\or other OPC has to indicate in its annual report the maximal percentage of the management fees supported both at the level of the UCITS as in that of UCITS and\or other OPC in which it invests.

The maximum rate of the commission of management and performance of the target funds is 0%.

### **NOTE 14 - EVENTS OCCURRING DURING THE PERIOD**

The Board of Directors of DPAM L has decided to liquidate the following share classes of the DPAM L BONDS EMERGING MARKETS SUSTAINABLE Sub-Fund by means of a compulsory redemption of all outstanding shares of these share classes at the net asset value of 28 February 2020.

B EUR Hedged

V EUR Hedged

W EUR Hedged

The issue of shares of the Share Classes has been suspended since February 17, 2020.

As from 20 January 2020, the Sub-Fund BONDS GOVERNMENT SUSTAINABLE has been renamed BONDS GOVERNMENT SUSTAINABLE HEDGED.

The new BONDS GOVERNMENT SUSTAINABLE Sub-Fund was created as a clone of the one that existed before 20 January 2020. The first value will be dated January 27, 2020.

## **Additional information as at 30 June 2020**

---

### **Overall risk assessment**

Each sub-fund of the SICAV must ensure that its overall exposure to financial derivative instruments does not exceed its total net assets.

Overall exposure is a measurement designed to limit the leverage generated for each subfund by using derivatives. The method used to calculate overall exposure for each Sub-Fund of the SICAV is the 'commitment method'. The commitment method entails converting positions on derivatives into equivalent positions on underlying assets and then aggregating the market value of these equivalent positions.

### **Transparency of securities financing transactions and reuse:**

In accordance with Article 13 and Section A of the Annex to Regulation EU 2015/2365 (hereinafter the "Regulation"), the SICAV must inform investors of its use of securities financing transactions and total return swaps in the annual and semi-annual reports.

The portfolio does not contain any assets on loan as of the date of this report.
