FLOATING RATE CREDIT (the "Sub-Fund"), a sub-fund of EDMOND DE ROTHSCHILD FUND (the "Fund")

Share Class A EUR (the "Class") - LU1082946473

Management company: Edmond de Rothschild Asset Management (Luxembourg)

OBJECTIVES AND INVESTMENT POLICY

Investment objective: The Sub-Fund's investment objective is to achieve an annual net performance of 250 basis points over 3- months Euribor Index over an investment horizon of 18 months, through a portfolio of debt securities and derivatives. The sub-fund is actively managed.

Benchmark index: EURIBOR 3 months + 250 basis points

The Sub-Fund is actively managed and is not designed to track the Index. Therefore, the composition of the portfolio holdings is not constrained by the composition of the Index and the deviation of portfolio holdings from the Index may be significant.

Investment policy: The Sub-Fund will invest up to 110% of its net assets in debt securities including but not limited to fixed, floating, subordinated or zero-coupon bonds.

The Sub-Fund will invest up to 110% of its net assets :

- Either in bonds, with a rating higher than or equal to "BBB-" according to Standard & Poor's, or an equivalent rating assigned by another independent agency, or a deemed equivalent internal rating attributed by the Investment Manager for non-rated debt securities and issued by private issuers. However, depending on market conditions, the Sub-Fund may invest up to 110% of its net assets in securities issued by public issuers.
- Or in short-term negotiable debt securities with a minimum rating of A3 assigned by Standard & Poor's, or an equivalent rating assigned by another independent agency, or a deemed equivalent internal rating delivered by the Investment Manager for non-rated securities, and may be debt securities such as commercial papers and certificates of deposit, issued in euros. Their maturity will be less than three months.

The Sub-Fund may also invest up to 60% of its net assets:

- either in high yield bonds i.e. with a rating below "BBB-" assigned by Standard & Poor's, or an equivalent rating assigned by another independent agency, or a deemed equivalent internal rating, attributed by the Investment Manager for non-rated debt securities. However, the Sub-Fund will not invest more than 10% of its net assets in bonds below B- assigned by Standard & Poor's, or an equivalent rating assigned by another independent agency, or a deemed equivalent internal rating, attributed by the Investment Manager for non-rated debt securities;

The cumulative exposure to non-investment grade long term bonds and non-investment grade short-term negotiable debt securities shall not exceed 60% of the Sub-Fund's net assets. High yield securities are speculative

and present a higher risk of default than investment grade bonds. This limit may be exceeded from time to time, in particular in case of rating downgrade. It is understood that investment grade debt securities may be subject to the risk of being downgraded to non-investment grade debt securities. In the event of downgrading in the credit ratings of a security or an issuer, the Sub-Fund may, at the discretion of the Investment Manager, and in the best interests of the Sub-Fund's shareholders, continue to hold those debt securities which have been downgraded provided that in any case the Sub-Fund's maximum investment in Distressed Securities will be limited to a maximum of 10% of its net assets.

Until (07 September 2020) the Sub-Fund may invest up to 100% of its net assets, and as from (08 September 2020), up to 110% its net assets in securities issued in EUR, USD, GBP, CHF or JPY. The currency risk against the EUR will be systematically hedged. Therefore, the exposure to currencies other than the EUR will be residual.
