

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest. Unless otherwise defined in this document, all words and expressions defined in the Fund's current Prospectus shall have the same meaning herein.

GAM Star Cautious (the "Fund") a sub-fund of GAM Star Fund plc.

Class Ordinary GBP Accumulation (the "Share Class") **ISIN: IE00B8ML9D26**

Manager: GAM Fund Management Limited part of GAM Group AG.

Objectives and Investment Policy

- The investment objective of the Fund is to achieve long term capital growth with lower volatility than a fund which invests solely in equities.
- The Fund seeks to achieve this objective by investment primarily in open ended collective investment schemes which gain exposure to equities (e.g. shares), Fixed Income Securities (with no restriction on the minimum credit rating), property, commodities and currencies.
- The Fund may gain exposure in the range of 20-60% of net assets to equities and long only funds; and will maintain a minimum exposure of 30% to Money Market Instruments, Cash and Funds which invest in Fixed Income Securities.
- Macro considerations will be used in determining the allocation of investments in order to achieve the Fund's investment objective.
- Shares in the Fund can be bought and sold daily (every Business Day of the Fund).
- Any income arising from this Share Class will be accumulated. Other share classes of the Fund may distribute income.
- The fund manager has discretion in managing the investments of the Fund.
- The Fund may use a number of simple derivative instruments for investment purposes and/or efficient portfolio management purposes. Further information on the Fund's use of derivatives can be found under the Derivatives section within the Fund's Supplement. Although the use of derivatives may give rise to an additional exposure any such additional exposure will not exceed the Fund's Net Asset Value.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

The risk indicator is based on the volatility of the Fund's performance over the last 5 years. Where 5 years' performance history is not available the data is supplemented by proxy fund, benchmark data or a simulated historical series as appropriate.

- This profile is determined using historical data, as such may not be a reliable indication for the future risk profile. It is not guaranteed and may shift over time.
- The lowest category does not mean 'risk free'.
- The Fund does not offer any capital guarantee or assurance that the investor will receive a fixed amount when redeeming.

Further risks that may have a significant effect on the net asset value of the Fund include:

- **Credit Risk / Debt Securities:** bonds may be subject to significant fluctuations in value. Bonds are subject to credit risk and interest rate risk.
- **Credit Risk / Non-Investment Grade:** non-investment grade securities, which will generally pay higher yields than more highly rated securities, will be subject to greater market and credit risk, affecting the performance of the Fund.

- **Interest Rate Risk:** a rise or fall in interest rates causes fluctuations in the value of fixed income securities, which may result in a decline or an increase in the value of such investments.
- **Equity:** investments in equities (directly or indirectly via derivatives) may be subject to significant fluctuations in value.
- **Operational Risk / Third Parties:** investments in other funds have direct and indirect dependence on other service providers. The Fund may suffer disruption or loss in the event of their failure.
- **Liquidity Risk (Fund of Funds):** investments in other funds are subject to the liquidity of those underlying funds. If underlying funds suspend or defer payment of redemption proceeds, the Fund's ability to meet redemption requests may also be affected.
- **Brexit Risk:** The regulatory regime to which certain of the Investment Managers are subject to in the UK could be materially and adversely affected. The decision to leave the EU could also result in substantial volatility in foreign exchange markets and a sustained period of uncertainty for the UK, the EU and the global markets in general.

The "Risk Factor" section of the Prospectus and the "Risk Factor" section of the Fund Supplement for this Fund give you more details about all the risks for the Fund – see under "Practical Information" for how to obtain a copy.

Charges for this Share Class

The charges you pay are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	Up to 5%
Exit charge	Nil
Switching charge	Up to 1%
This is the maximum that might be taken out of your money before it is invested/before the proceeds of your investment are paid out.	
Charges taken from the Class over a year	
Ongoing charges	2.00%
Charges taken from the Class under certain specific conditions
