DB Fixed Income Opportunities	11
DB Fixed Maturity Plan 2024	19
PWM CROCI Multi Fund	25

General information

The funds described in this report are sub-funds of a SICAV (Société d'Investissement à Capital Variable) incorporated under Luxembourg law.

Performance

The investment return, or performance, of a mutual fund investment is measured by the change in value of the fund's shares. The net asset values per share (= redemption prices) with the addition of intervening distributions, which are, for example, reinvested free of charge within the scope of investment accounts at DWS Investment S.A., are used as the basis for calculating the

value. Past performance is not a guide to future results. The corresponding benchmarks – if available – are also presented in the report. All financial data in this publication is as of June 30, 2021 (unless otherwise stated).

Sales prospectuses

Fund shares are purchased on the basis of the current sales prospectus, the key investor information document and the articles of incorporation and by-laws of the SICAV, in combination with the latest audited annual report and any semi-annual report that is more recent than the latest annual report.

Issue and redemption prices

The current issue and redemption prices and all other information for shareholders may be requested at any time at the registered office of the Management Company and from the paying agents. In addition, the issue and redemption prices are published in every country of distribution through appropriate media (such as the Internet, electronic information systems, newspapers, etc.).

Coronavirus crisis

The coronavirus has spread since January 2020 and has subsequently led to a serious economic crisis. The rapid proliferation of the virus was reflected in, among other things, significant price market distortions and substantially increased volatility at the same time. Restrictions on freedom of movement, repeated lockdown measures, production stoppages, as well as disrupted supply chains, are exerting major pressure on downstream economic processes, which caused global economic prospects to deteriorate considerably. Even though gradual recovery or a return to a certain "normality" was to be observed again in the markets in the interim – due, among other things, to assistance programs in the context of monetary and fiscal policy as well as extensive vaccination campaigns – the actual or possible mid- to long-term effects of the crisis on the economy, individual markets and sectors, as well as the social implications, cannot be reliably evaluated or adequately forecast at the time of preparing this report in light of the pace of the global spread of the virus and the associated high degree of uncertainty. Consequently, there may still be a material impact on the respective sub-fund's assets. A high level of uncertainty exists in relation to the financial implications of the pandemic, as these are dependent on external factors such as the spread of the virus/emerging variants and the measures taken by individual governments and central banks, the successful stemming of the development of infection rates and the speedy and sustainable restart of the economy.

The Management Company is therefore continuing its efforts, within the framework of its risk management strategy, to assess these uncertainties and their possible impact on the activities, liquidity and performance of the respective sub-fund. The Board of Directors of the SICAV is ensuring that the Management Company is taking all measures deemed appropriate to protect investor interests to the greatest possible extent. In coordination with the service providers, the Board of Directors observed the consequences of the coronavirus crisis and adequately included its impact on the respective sub-fund and the markets in which the respective sub-fund invests into its decision-making processes. As of the date of this report, no significant redemption requests had been made in respect of the respective sub-fund; the effects on the respective sub-fund's share certificate transactions are continuously monitored by the Management Company; the performance capability of the most important service providers did not experience any significant impairment. In this context, the Board of Directors of the SICAV satisfied itself in line with numerous national guidelines and following discussions with the most important service providers (especially the Depositary, the portfolio management and the fund administration) that the measures taken and the business continuity plans put in place (including extensive hygiene measures on the premises, restrictions on business travel and events, precautions to ensure the reliable and smooth running of business processes in the event of a suspected case of coronavirus infection, expansion of the technical options for mobile working) will curb the currently foreseeable or ongoing operational risks and will ensure that the respective sub-fund's activities will not be disrupted.

At the time of preparing this report, the Board of Directors of the SICAV is of the opinion that there are no signs indicating any doubt on the ability of the respective sub-fund to continue as a going concern, nor were there any liquidity problems for the respective sub-fund.

Class FC	Count	37 598.340
Composition of the reference portfolio (according to CSSF circular 11/512)		
10% JPM EUR Cash 1m, 15% JPM GBI Global All Mats EUR, 15% JPM EMU Gover 1-10Y, 36% MSCI World EUR TR Net, 24% MSCI EMU USD Net Return		
Market risk exposure (value-at-risk) (according to CSSF circular 11/512)		
Lowest market risk exposure	%	33.297
Highest market risk exposure	%	45.427
Average market risk exposure	%	39.672

The values-at-risk were calculated for the period from January 1, 2021, through June 30, 2021, using historical simulation with a 99% confidence level, a 10-day holding period and an effective historical observation period of one year. The risk in a reference portfolio that does not contain derivatives is used as the measurement benchmark. Market risk is the risk to the fund's assets arising from an unfavorable change in market prices. The Company determines the potential market risk by means of the **relative value-at-risk approach** as defined in CSSF circular 11/512.

In the reporting period, the average leverage effect from the use of derivatives was 0.0, whereby the total of the nominal amounts of the derivatives in relation to the fund's assets was used for the calculation (sum-of-notional approach).

The gross exposure generated via derivatives pursuant to point 40 a) of the "Guidelines on ETFs and other UCITS issues" of the European Securities and Markets Authority (ESMA) totaled EUR 53 128.31 as of the reporting date.

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Assets reported in this report are not valued at derived market values.

The management fee / all-in fee rates in effect as of the reporting date for the investment fund units held in the securities portfolio are shown in parentheses. A plus sign means that a performance-based fee may also be charged. As the investment fund held units of other investment funds (target funds) in the reporting period, further costs, charges and fees may have been incurred at the level of these individual target funds.

Composition of the reference portfolio (according to CSSF circular 11/512)
70% IBoxx \$ IG Index, 30% JPM CEMBI Div Index

Market risk exposure (value-at-risk) (according to CSSF circular 11/512)

Lowest market risk exposure	%	38.667
Highest market risk exposure	%	64.241
Average market risk exposure	%	47.732

The values-at-risk were calculated for the period from January 1, 2021, through June 30, 2021, using historical simulation with a 99% confidence level, a 10-day holding period and an effective historical observation period of one year. The risk in a reference portfolio that does not contain derivatives is used as the measurement benchmark. Market risk is the risk to the fund's assets arising from an unfavorable change in market prices. The Company determines the potential market risk by means of the **relative value-at-risk approach** as defined in CSSF circular 11/512.

In the reporting period, the average leverage effect from the use of derivatives was 0.4, whereby the total of the nominal amounts of the derivatives in relation to the fund's assets was used for the calculation (sum-of-notional approach).

The gross exposure generated via derivatives pursuant to point 40 a) of the "Guidelines on ETFs and other UCITS issues" of the European Securities and Markets Authority (ESMA) totaled USD 220 505 139.85 as of the reporting date. Does not include any forward currency transactions entered into for currency hedging purposes at the level of the share classes.

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Assets reported in this report are not valued at derived market values.

Footnotes

* Floating interest rate.

** Some or all of these securities are lent.

DB Fixed Maturity Plan 2024

Presentation of the maximum limit (according to CSSF circular 11/512)
14.14% of portfolio value

Market risk exposure (value-at-risk) (according to CSSF circular 11/512)

Lowest market risk exposure	%	0.731
Highest market risk exposure	%	3.482
Average market risk exposure	%	1.777

The values-at-risk were calculated for the period from January 1, 2021, through June 30, 2021, using historical simulation with a 99% confidence level, a 10-day holding period and an effective historical observation period of one year. The risk in a reference portfolio that does not contain derivatives is used as the measurement benchmark. Market risk is the risk to the fund's assets arising from an unfavorable change in market prices. The Company determines the potential market risk by means of the **absolute value-at-risk approach** as defined in CSSF circular 11/512.

In the reporting period, the average leverage effect from the use of derivatives was 1.0, whereby the total of the nominal amounts of the derivatives in relation to the fund's assets was used for the calculation (sum-of-notional approach).

The gross exposure generated via derivatives pursuant to point 40 a) of the "Guidelines on ETFs and other UCITS issues" of the European Securities and Markets Authority (ESMA) totaled USD 341 619 186.30 as of the reporting date. Does not include any forward currency transactions entered into for currency hedging purposes at the level of the share classes.

Notes on valuation

Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund. Under the responsibility of the Board of Directors of the SICAV, the Management Company determines the net asset values per share and performs the valuation of the assets of the fund.

If no trading prices are available, prices are determined with the aid of valuation models (derived market values) which are agreed between State Street Bank International GmbH, Luxembourg Branch, as external price service provider and the Management Company and which are based as far as possible on market parameters. This procedure is subject to an ongoing monitoring process. The plausibility of price information from third parties is checked through other pricing sources, model calculations or other suitable procedure.

Assets reported in this report are not valued at derived market values.

Footnotes

* Floating interest rate.

** Does not include positions with a negative balance, if such exist.

* The portfolio compositions, incomes, expenses and changes in net assets of the sub-funds managed in U.S. dollars were converted into euro at the stated exchange rate. The attached financial statements represent the assets and liabilities of the individual sub-funds as well as of the fund as a whole. The financial statements for the respective sub-fund are prepared in the currency specified in the sales prospectus while the financial statements for the fund are prepared in its base currency. If the currency of a sub-fund differs from the fund's base currency, the following is carried out within the scope of the consolidation of the individual sub-fund currencies into the fund's base currency: the difference between the net assets of the sub-fund at the beginning of the reporting period converted at exchange rates applicable at the end of the reporting period is shown as exchange rate valuation differences on the fund's assets at the beginning of the reporting period in the consolidated statement of changes in net assets for the fund.

Fiscal six-month period 2021 USD 1.187149 = EUR 1

Fiscal year-end 2020 USD 1.229649 = EUR 1

** The fund's consolidated net assets, the consolidated statement of income and expenses and the statement of changes in net assets correspond to the sum of the results of the individual sub-funds. In the case of investments between sub-funds (in which one sub-fund invests in another sub-fund of the same umbrella fund), the corresponding accounts of the fund were not the object of an elimination for the purposes of the consolidated presentation of results.

*** In the case of derivatives and forward transactions, the amount reported as "total assets" comprises the positive balance of the netted individual positions within the same type of product, while negative balances are included under "total liabilities".

Quality/Qualities:

Insofar as securities lending transactions, reverse repurchase agreements or transactions with OTC derivatives (except forward currency transactions) are concluded, collateral in one of the following forms is provided to the fund:

- Liquid assets such as cash, short-term bank deposits, money market instruments according to the definition in Directive 2007/16/EC of March 19, 2007, letters of credit and first-demand guarantees that are issued by top-rated credit institutions not affiliated with the counterparty, or bonds issued by an OECD member country or its local authorities or by supranational institutions and authorities at local, regional or international level, regardless of their term to maturity
- Units of a collective investment undertaking (hereinafter "UCI") investing in money market instruments that calculates a net asset value daily and has a rating of AAA or an equivalent rating
- Units of a UCITS that invests predominantly in the bonds and equities listed under the next two indents
- Bonds, regardless of their term to maturity, that have a minimum rating of low investment-grade
- Equities admitted to or traded in a regulated market in a member state of the European Union or on an exchange in an OECD member country, provided that these equities are included in a major index

The Management Company reserves the right to restrict the permissibility of the aforementioned collateral.
Furthermore, the Management Company reserves the right to deviate from the aforementioned criteria in exceptional cases.

Additional information on collateral requirements can be found in the sales prospectus for the fund.
