## RISKS

The value of an investment in the Fund can go down as well as up and possible loss of principal is a risk of investing. Investments in international and emerging market securities may involve risks such as social and political instability, market illiquidity, exchange-rate fluctuations, a high level of volatility and limited regulation. The Fund invests in holdings denominated in foreign currencies, and is exposed to the risk that the value of the foreign currency will increase or decrease. The Fund invests primarily in equity securities, which may result in increased volatility. Investments in focused funds may be subject to greater share price volatility as a larger portion of their assets may be invested in the securities of a single issuer compared to diversified funds. These and other risks associated with investing in the Fund can be found in the Prospectus.
