

# Schroder International Selection Fund Global Conservative Convertible Bond

A Accumulation CHF Hedged | Data as at 31.03.2020

## Fund objectives and investment policy

---

The fund aims to provide capital growth in excess of the Thomson Reuters Global Focus Investment Grade Hedged index (USD) after fees have been deducted over a three to five year period by investing in convertible securities issued by companies worldwide. The fund is actively managed and invests at least two-thirds of its assets in a diversified range of convertible bonds issued by companies worldwide. The fund may also invest in equities of companies worldwide. The fund is designed to participate in rising markets whilst aiming to mitigate losses in falling markets. The mitigation of losses cannot be guaranteed. The fund may invest securities with an investment grade or sub-investment grade credit rating while aims to achieve an average credit quality equivalent to investment grade (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds). Convertible bonds are typically corporate bonds that can be converted into equities at a given price. As such, the investment manager believes investors can gain exposure to global equity markets with the defensive benefits and less volatile characteristics of a bond investment. The fund may also invest directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, investment funds, warrants and money market investments, and hold cash. The fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the fund more efficiently.

**Relevant risk as associated with this Fund are shown overleaf and should be carefully considered before making any investment.**

Target USD	2,9	2,3	1,6	-3,5	7,1		

## Performance over 5 years (%)

Past performance is not a reliable indicator of future results, prices of shares and the income from them may fall as well as rise and investors may not get back the amount originally invested.

Exchange rate movements may cause the value of investments to fall as well as rise. The performance shown does not take account of any commissions, entry or exit charges.

Source: Morningstar, bid to bid, net income reinvested, net of fees. The fund's performance should be assessed against its target benchmark being to exceed the Thomson Reuters Global Focus Investment Grade Hedged index (USD). The majority of the fund's investments may be components of the benchmark. The investment manager invests on a discretionary basis and is not limited to investing in accordance with the composition of the benchmark. The investment manager will invest in companies or sectors not included in the benchmark in order to take advantage of specific investment opportunities.

The Benchmark performance is shown in the base currency of the fund. To enable comparison between the performance of this Hedged share class and the Benchmark, and to show the effect of the currency hedge, the equivalent unhedged base currency share class performance is also shown.

The equivalent unhedged share class and benchmark will be blank if the inception date is different to the hedged share class inception date. Dominique Braeuninger, CFA, replaced Stefan Krause as Fund Manager on 01.01.2020

A Accumulation CHF Hedged | Data as at 31.03.2020

## 5 year return of CHF 10.000

**Past Performance is not a guide to future performance and may not be repeated.**

**The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall.**

The chart is for illustrative purposes only and does not reflect an actual return on any investment.

Returns are calculated bid to bid (which means performance does not include the effect of any initial charges), net income reinvested, net of fees.

## Risk considerations

**Credit risk:** A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

**Liquidity risk:** In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares.

**Operational risk:** Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

**Contingent convertible bonds:** The fund may invest in contingent convertible bonds. If the financial strength of the issuer of a contingent convertible bond falls in a prescribed way, the value of the bond may fall significantly and, in the worst case, may result in losses to the fund.

**Currency risk:** The fund may lose value as a result of movements in foreign exchange rates.

**High yield bond risk:** High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk.

**Derivatives risk – Efficient Portfolio Management and Investment Purposes:** Derivatives may be used to manage the portfolio efficiently. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund. The fund may also materially invest in derivatives including using short selling and leverage techniques with the aim of making a return. When the value of an asset changes, the value of a derivative based on that asset may change to a much greater extent. This may result in greater losses than investing in the underlying asset.

**Interest rate risk:** The fund may lose value as a direct result of interest rate changes.

**Emerging Markets & Frontier risk:** Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty, operational and liquidity risk than developed markets.

**Counterparty risk:** The fund may have contractual agreements with counterparties. If a counterparty is unable to fulfil their obligations, the sum that they owe to the fund may be lost in part or in whole.

**Performance risk:** Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

**IBOR:** The transition of the financial markets away from the use of interbank offered rates (IBORs) to alternative reference rates may impact the valuation of certain holdings and disrupt liquidity in certain instruments. This may impact the investment performance of the fund.

**Currency risk/hedged share class:** The hedging of the share class may not be fully effective and residual currency exposure may remain. The cost associated with hedging may impact performance and potential gains may be more limited than for unhedged share classes.

## Synthetic risk & reward indicator (SRRI)

### LOWER RISK

Potentially lower reward

### HIGHER RISK

Potentially higher reward

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile. The fund's risk category is not guaranteed to remain fixed and may change over time. A fund in the lowest category does not mean a risk-free investment. The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

## Risk statistics & financial ratios

	Fund	Target
<b>Annual volatility (%) (3y)</b>	5,6	5,9
<b>Current yield (%)</b>	0,6	-
<b>Yield to maturity</b>	-	-

## Important information

This document does not constitute an offer to anyone, or a solicitation by anyone, to subscribe for shares of Schroder International Selection Fund (the "Company"). Nothing in this document should be construed as advice and is therefore not a recommendation to buy or sell shares. The offering of shares in certain jurisdictions may be restricted and accordingly persons are required, by the Company, to inform themselves of and observe any such restrictions. Subscriptions for shares of the Company can only be made on the basis of its latest prospectus together with the latest audited annual report (and subsequent unaudited semi-annual report, if published). The prospectus and the key investor information document(s) for Switzerland, the articles of association, the annual and semi-annual reports can be obtained, free of charge, at the offices of the Swiss representative, Schroder Investment Management (Switzerland) AG, Central 2, P.O. Box, CH-8021 Zurich (authorised and regulated by FINMA) and the Swiss paying agent, Schroder & Co. Bank AG, Central 2, P.O. Box, CH-8021 Zurich. An investment in the Company entails risks, which are fully described in the prospectus. The Company has its registered office in Luxembourg and is regulated by the Commission de Surveillance du Secteur Financier. This document is issued by Schroder Investment Management (Europe) S.A., 5, rue Höhenhof, L-1736 Senningerberg, Luxembourg. R.C.S. Luxembourg: B 37.799. Schroders has expressed its own views and opinions in this document and these may change. Third party data is owned or licensed by the data provider and may not be reproduced or extracted and used for any other purpose without the data provider's consent. Third party data is provided without any warranties of any kind. The data provider and issuer of the document shall have no liability in connection with the third party data. The Prospectus and/or [www.schroders.com](http://www.schroders.com) contains additional disclaimers which apply to the third party data.

**Benchmark:** The target benchmark has been selected because the target return of the fund is to deliver the return of that benchmark as stated in the investment objective.
