- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may shift over time.
- The lowest category does not mean 'risk free'.

The Fund is ranked in risk and reward category 7 as the value of stockmarket investments and the income from them will fluctuate. This will cause the Fund price to fall as well as rise and you may not get back the original amount you invested.

The Fund is also subject to risks which are not included in the calculation of the risk-reward indicator associated with the following:

**Liquidity Risk:** Liquidity in some holdings may be low. The buying and selling of these assets may be time consuming and done at unfavourable prices.
