UBAM Variable Capital Investment Company Luxembourg

MARCH 2018

UNION BANCAIRE PRIVÉE

Subscriptions are only valid if they are based on the current prospectus and the Key Investor Information Document (KIID), accompanied by the most recent annual report, as well as the most recent semi-annual report if published after the most recent annual report. No information may be provided by any party on the investment company which is not contained in the prospectus, the KIID or in any other document referred to in the prospectus and which is available to the public.

Shares in UBAM SICAV (hereafter "UBAM" or the "SICAV") may not be acquired or held, directly or indirectly, by U.S. Persons as defined below; neither is the transfer of the SICAV's shares to such investors authorised.

For the purposes of this Prospectus (but subject to applicable law, including Rule 902(k) of Regulation S promulgated under the US Securities Act 1933, as amended),

Definition of United States of America and U.S. Person

A) "United States" means:

The United States of America, its territories and possessions, any State of the United States, and the District of Columbia.

B) "U.S. Person" means:

1. any natural person who is a citizen of the United States (including dual citizens and U.S. born);
2. any natural person resident of or in the United States;
3. any partnership or corporation organized or incorporated under the laws of the United States;
4. any estate of which any executor or administrator is a U.S. Person or the income of which is subject to US income tax regardless of source;
5. any trust of which any trustee is a U.S. Person or the income of which is subject to US income tax regardless of source;
6. any agency or branch of a foreign entity located in the United States;
7. any non-discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary for the benefit or account of a U.S. Person;
8. any discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary organized, incorporated, or (if an individual) resident in the United States; and
9. any partnership or corporation if:
 - (i) organized or incorporated under the laws of any foreign jurisdiction; and
 - (ii) formed by a U.S. Person principally for the purpose of investing in securities not registered under the US Securities Act 1933 as amended, unless it is organized or incorporated, and owned, by accredited investors (as defined in Rule 501(a) under the US Securities Act 1933 as amended) who are not natural persons, estates or trusts.
10. any entity organised principally for passive investment such as a pool, investment company or other similar entity; provided that the units of participation in the entity held by US Persons or persons otherwise not qualifying as "qualified eligible persons" (as defined in Rule 4.7 under the US Commodity Exchange Act) represent in the aggregate 10% or more of the beneficial interest in the entity, and that such entity was formed principally for the purpose of facilitating investment by US Persons in a pool with respect to which the operator is exempt from certain requirements of Part 4 under the US Commodity Exchange Act regulations by virtue of its participants being non-US Persons.

C) "U.S. Person" does not include:

1. any discretionary account or similar account (other than an estate or trust) held for the benefit or account of a non-U.S. Person by a dealer or other professional fiduciary organized, incorporated or, if an individual, resident in the United States;
2. any estate of which any professional fiduciary acting as executor or administrator is a U.S. Person if:
 - (i) an executor or administrator of the estate who is not a U.S. Person has sole or shared investment discretion with respect to the assets of the estate; and
 - (ii) the estate is governed by non-U.S. law;

3. any trust of which any professional fiduciary acting as trustee is a U.S. Person if a trustee who is not a U.S. Person has sole or shared investment discretion with respect to the trust assets, and no beneficiary of the trust (and no settlor if the trust is revocable) is a U.S. Person;
4. an employee benefit plan established and administered in accordance with the law of a country other than the United States and customary practices and documentation of such country;
5. any agency or branch of a U.S. Person located outside the United States if:
 - (i) the agency or branch operates for valid business reasons; and
 - (ii) the agency or branch is engaged in the business of insurance or banking and is subject to substantive insurance or banking regulation, respectively, in the jurisdiction where located; or
6. the International Monetary Fund, the International Bank for Reconstruction and Development, the Inter-American Development Bank, the Asian Development Bank, the African Development Bank, the United Nations and their agencies, affiliates and pension plans, and any other similar international organizations, their agencies, affiliates and pension plans.”

Foreign Account Tax Compliance Act (“FATCA”)

Certain payments of U.S. source fixed or determinable annual or periodic income made after 31 December 2013, certain payments attributable to gross proceeds from the sale or other disposition of property that could produce U.S. source interest or dividends made after 31 December 2014, and certain payments (or a portion thereof) by a foreign financial institution made after 31 December 2016, to a foreign financial institution or other foreign entity will be subject to a withholding tax of 30% unless various reporting requirements are satisfied. It is expected that the SICAV and each sub-fund and each non-U.S. entity in which the SICAV invests (each, an “Offshore Entity”) will be treated as a “foreign financial institution” for this purpose. As a foreign financial institution, in order to be relieved of this 30% withholding tax, unless it is otherwise deemed-compliant, it is expected that each Offshore Entity will need to enter into an agreement (a “Withholding Agreement”) with the U.S. Internal Revenue Service (the “IRS”), by 30 June 2013 requiring each Offshore Entity to, among other requirements: (i) obtain and verify information on all of its interest holders to determine which interest holders are “Specified U.S. Persons” (i.e., U.S. persons for U.S. federal income tax purposes other than tax-exempt entities and certain other persons) and “U.S. Owned Foreign Entities” (i.e., foreign entities with a “substantial United States owner” — meaning greater than 10% ownership by a Specified U.S. Person — or, in the case of an interest holder that is a foreign financial institution, any ownership by a Specified U.S. Person); (ii) annually report information on its interest holders that are non-compliant with FATCA (in the aggregate) Specified U.S. Persons and U.S. Owned Foreign Entities to the IRS; (iii) attempt to obtain a waiver from each U.S. Owned Foreign Entity of any foreign law that would prevent the Offshore Entity from reporting to the IRS any required information obtained with respect to such U.S. Owned Foreign Entity and, if such waiver is not obtained, to mandatorily redeem the U.S. Owned Foreign Entity; and (iv) publish the percentage of its total assets which are U.S. assets for this purpose on a quarterly basis (its “Passthru Payment Percentage”). No assurances can be provided that each Offshore Entity, if required will be able to enter into and comply with a Withholding Agreement and that each Offshore Entity will be exempt from this 30% withholding tax.

Even if the SICAV and each sub-fund enters into a Withholding Agreement, any shareholder of the SICAV or a sub-fund that fails to produce the required information or that is a foreign financial institution that itself, if required, does not enter into a Withholding Agreement with the IRS (a “Non-Compliant Shareholder”) will be subject to 30% withholding on all or a portion of any redemption or dividend payments made by the SICAV or applicable sub-fund after 31 December 2016 which may be based on the Passthru Payment Percentage of the SICAV or such sub-fund. In this regard, each shareholder will agree to provide any required information upon request from the SICAV, which request will be made once the IRS has adopted a form of Withholding Agreement. In addition, in certain circumstances, where the SICAV or a sub-fund is unable to obtain a waiver of any foreign law that would prevent it from reporting to the IRS any required information in respect of a Shareholder, the SICAV or applicable sub-fund may be required to mandatorily redeem such Shareholder. Moreover, the SICAV may create a separate class in respect of and/or exercise its right to completely redeem a Non-Compliant shareholder (at any time upon any or no notice). Shareholders should be aware that the term “foreign financial institution” is very broad and generally will include, among others, any shareholder that holds financial assets for the account of others as a substantial portion of its business or is engaged, or holds itself out as being engaged, primarily in the business of investing, reinvesting or trading in securities, partnership

interests, commodities or any interests in the foregoing, and, accordingly, Shareholders may need to enter into a Withholding Agreement with the IRS in order to not be treated as a Non-Compliant Shareholder.

The scope of this withholding tax and the information required to be provided by Shareholders in order to not be treated as Non-Compliant Shareholders is not entirely clear, and it is possible that the disclosure obligation described above could be changed (e.g. by subsequent guidance). Shareholders should consult their own tax advisors regarding the potential implications of this withholding tax.

UBAM is registered as an undertaking for collective investment in accordance with the Law of 17 December 2010 governing undertakings for collective investment, as amended (the "2010 Law"). However, this registration does not require any Luxembourg authorities to approve or disapprove the appropriate nature or accuracy of this prospectus or the portfolio of securities held by the SICAV.

The Board of Directors assumes responsibility for the accuracy of any information contained in this prospectus on its issue date.

Any information or assertion not contained in this prospectus or in the reports which form an integral part hereof, must be considered to be unauthorised and therefore untrustworthy. Neither the distribution of this prospectus, nor the offering, issue or sale of the SICAV's shares guarantee that the information given in this prospectus will be accurate at all times after the date of this prospectus. This prospectus will be updated when necessary, in order to take account of any major changes, particularly in case new sub-funds are added. As such, prospective subscribers are advised to ask the SICAV about any later prospectus that may have been published.

Prospective buyers and subscribers for the SICAV's shares are recommended to personally inquire about the possible legal or tax consequences or about any foreign exchange restrictions or regulations that they may encounter in their country of origin, residence or domicile when subscribing for, buying, holding, redeeming, converting or transferring the SICAV's shares.

INTRODUCTION

UBAM, a variable capital investment company ("SICAV"), is an undertaking for collective investment in transferable securities (UCITS) under the laws of the Grand-Duchy of Luxembourg in accordance with part I of the 2010 Law and the Directive 2009/65/CE, as amended, on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS).

The SICAV's objective is to offer its shareholders the possibility to invest in an investment vehicle focused on the growth of the capital invested in a range of transferable securities.

The SICAV offers investors a choice between several sub-funds, each having a different investment objective. Each sub-fund constitutes a separate pool of assets, represented by one or more different share classes. The assets of a given sub-fund only cover the liabilities, commitments and obligations concerning this sub-fund. When the SICAV carries a commitment that relates to an asset from a given pool or a transaction carried out in relation to an asset from a given pool, this commitment will be assigned to the pool in question.

The SICAV therefore comprises multiple sub-funds as follows:

Bond sub-funds	Denominated in
1. UBAM - ABSOLUTE RETURN FIXED INCOME	EUR
2. UBAM - ABSOLUTE RETURN LOW VOL FIXED INCOME	EUR
3. UBAM - CORPORATE EURO BOND	EUR

56.	UBAM - ASYMMETRY 50 USD	USD
57.	UBAM - REAL RETURN	USD

At any time, the SICAV's Board of Directors may decide, in compliance with the Articles of Association, to issue additional sub-funds, whose investment objectives differ from the sub-funds already created. Upon creation of new sub-funds, the prospectus will be adjusted to provide detailed information on these new sub-funds.

At all times, the SICAV's capital will be equal to the aggregate net assets of all the sub-funds.

Since the SICAV operates as an "open-ended" investment fund, its shares may be issued, redeemed and converted at a price based on the respective net asset values of such shares. No physical shares are issued.

Shares from the SICAV's various classes may be listed on the Luxembourg stock exchange or with others stock exchange.

The Board of Directors of the SICAV

The Board of Directors is responsible for administering and managing the SICAV as well as well as deciding on the launch of new sub-funds/types of shares and implementing/adapting their respective investment policies.

The Management Company

UBP Asset Management (Europe) S.A. (the "Management Company"), with its registered office located at 287-289 route d'Arlon, Luxembourg, has been appointed as the Management Company of the SICAV, as authorised by the 2010 Law. Under the terms of the Management Company Agreement concluded for an indefinite period, the Management Company is in charge of the management, administration and distribution of the SICAV. The Management Company Agreement may be terminated by either of the two parties subject to three months' prior notice.

UBP Asset Management (Europe) S.A., was incorporated on 17 May 2013 for an indefinite period, as a "société anonyme" ("limited company") governed by the laws of the Grand Duchy of Luxembourg and is licensed as an authorised management company under the chapter XV of the 2010 Law. Its capital, on the date of this prospectus, amounts to CHF 2,500,000. The Management Company is wholly owned by Union Bancaire Privée, UBP SA, Geneva.

The objective of the Management Company is to manage undertakings for collective investment in compliance with Directive 2009/65/EC, as amended. This management activity includes the management, administration and distribution of undertakings for collective investment. According to the Management Company Agreement and under its sole responsibility the Management Company is authorised to delegate all or parts of the duties in connection with the management, administration and distribution functions to third parties duly authorised to perform such functions.

Pursuant to Article 111bis and 111ter of the 2010 Law as amended, the Management Company has established a remuneration policy in line with its own business strategy, objectives, values and long-term interests of the Management Company, those of the SICAV and those of the SICAV's shareholders. The policy applies for those categories of staff, including senior management, risk takers, control functions, and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers and whose professional activities have a material impact on the risk profiles of the Management Company or the SICAV. The policy is consistent with and promotes sound and effective risk management and does not encourage risk-taking which is inconsistent with the risk profiles or the SICAV's Articles of Association. It also includes measures to avoid conflicts of interest.

The Management Company remuneration policy and practices also include an assessment of performance set in multi-year framework appropriate to the holding period recommended to the investors of the SICAV managed in order to ensure that the assessment process is based on the longer-term performance of the SICAV and its investment risks, and, as the case may be, that the actual payment of performance-based components of remuneration is spread over the same period.

The policy foresees a remuneration which is composed of a fix and a variable component, which are adequately balanced whereby the latter is long term oriented. The fixed component represents a sufficiently high proportion of the global remuneration to allow, if appropriate, to pay no variable remuneration component. The variable part of the remuneration, in the form of a non- contractual and purely discretionary payment, is fixed considering the individual performance of the employee on one side and the economic situation of the UBP Group on the other side. The employee's individual performance is assessed based on quantitative and qualitative criteria. The principle of individual performance assessment is based on an assessment of objectives reached as well an appreciation of the employee's long-term value creation. The

remuneration policy also encourages performance sustainability and long term stability and aims to avoid inconsiderate risk-taking.

The up-to-date remuneration policy of the Management company, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits, are available at <https://www.ubp.com/fr/nos-bureaux/ubp-asset-management-europe-sa> and a paper copy will be made available free of charge upon request at the Management Company's registered office.

The Management Company's Conducting Officers

In accordance with the provisions of Article 102 (1) c) of the 2010 Law and CSSF Circular 12/546, the Management Company's Board of Directors has delegated the management of the Management Company's business to its three Conducting Officers.

The Conducting Officers must ensure that the various service providers to which the Management Company has delegated certain functions in connection with the SICAV (including management, central administration and distribution functions) fulfil their obligations in accordance with the provisions of the 2010 Law, the SICAV's Articles of Association, the prospectus, and the contractual provisions governing relations between the SICAV and each service provider. The Conducting Officers must ensure that the SICAV complies with its investment restrictions and oversee the implementation of the investment policy for the various sub-funds. The Conducting Officers will ensure that an appropriate risk management method is used for the SICAV in accordance with Circular CSSF 11/512.

The Conducting Officers must report to the Management Company's Board of Directors on a regular basis.

INVESTMENT MANAGEMENT

As foreseen by the 2010 Law and under the terms of the Management Company Agreement concluded for indefinite period between the SICAV and UBP Asset Management (Europe) S.A., the Management Company is in charge of the investment management of the SICAV and its sub-funds.

In consideration of its investment management services, the Management Company will receive an annual management fee (the "Management Fee") payable quarterly and based on the average net assets of each share class of the various sub-funds managed during the relevant quarter in accordance with the maximum rates detailed in the "[AVAILABLE SHARES WITHIN THE SUB-FUNDS](#)" chapter.

At its costs and under its responsibility and supervision, the Management Company may appoint one or more third parties of its choice to fulfil all or part of its duties linked to investment management of the sub-funds. On the date of this prospectus, the Management Company has delegated the investment management of the SICAV's sub-funds to the following entities (the "Managers"):

<u>Sub-fund</u>	<u>Management delegated to:</u>
UBAM - EUROPE 10-40 CONVERTIBLE BOND	Union Bancaire Gestion Institutionnelle (France) SAS Paris – France
UBAM - GLOBAL 10-40 CONVERTIBLE BOND	Union Bancaire Gestion Institutionnelle (France) SAS Paris – France
UBAM - GLOBAL CONVERTIBLE BOND	Union Bancaire Gestion Institutionnelle (France) SAS Paris – France
UBAM - SRI EUROPEAN CONVERTIBLE BOND	Union Bancaire Gestion Institutionnelle (France) SAS Paris – France
UBAM - ADAMS US SMALL CAP EQUITY	Adams Funds Advisers LLC Baltimore – United States of America

UBAM - AJO US EQUITY VALUE	AJO LP Philadelphia – United States of America
UBAM - ANGEL JAPAN SMALL CAP EQUITY	UBP Asset Management Asia Limited Hong Kong
UBAM - ASIA EQUITY	UBP Asset Management Asia Limited Hong Kong
UBAM - BEST SELECTION ASIA EQUITY	UBP Asset Management Asia Limited Hong Kong
UBAM - DR. EHRHARDT GERMAN EQUITY	DJE Kapital AG Pullach – Germany
UBAM - SNAM JAPAN EQUITY VALUE	Sompo Japan Nipponkoa Asset Management Co, Ltd Tokyo – Japan.
UBAM - US EQUITY GROWTH	Union Bancaire Privée Asset Management LLC New York – United States of America
ALL OTHERS SUB-FUNDS	Union Bancaire Privée, UBP SA Geneva – Switzerland (using the resources of its London and Zürich branches)

The Management Company has the possibility to give imperative and further instructions to the Managers or to withdraw the management mandate with immediate effect when this is in the interest of investors.

The Management Fee will enable the Management Company to remunerate the Managers in consideration of their services.

Soft commissions

The Investment Managers may enter into soft commission arrangements with brokers under which certain business services are obtained and are paid for by the brokers out of the commissions they receive from transactions of the SICAV. Consistent with obtaining best execution, brokerage commissions on portfolio transactions for the SICAV may be directed by the Investment Managers to broker-dealers in recognition of research services furnished by them as well as for services rendered in the execution of orders by such broker-dealers.

The soft commission arrangements are subject to the following conditions: (i) the Investment Managers will act at all times in the best interest of the SICAV and the Management Company when entering into soft commission arrangements; (ii) the research services provided will be in direct relationship to the activities of the Investment Managers; (iii) brokerage commissions on portfolio transactions for the SICAV will be directed by the Investment Managers to broker-dealers that are entities and not to individuals; and (iv) the Investment Managers will provide reports to the Management Company with respect to soft commission arrangements including the nature of the services it receives.

INVESTMENT ADVISER

The Management Company may be assisted by one or more investment advisers – external or members of the UBP group – whose mission is to advise the Management Company or the SICAV on investment opportunities.

On the date of this prospectus, there is only one Investment Adviser:

<u>Sub-fund</u>	<u>Investment Adviser</u>
UBAM - ANGEL JAPAN SMALL CAP EQUITY	Angel Japan Asset Management Co., Ltd, Tokyo

The Management Fee will enable the Management Company to remunerate the Investment Adviser in consideration of its services.

DEPOSITARY BANK

BNP Paribas Securities Services, Luxembourg Branch has been appointed Depositary Bank of the SICAV under the terms of a written agreement between BNP Paribas Securities Services, Luxembourg Branch, the Management Company and the SICAV (the “Depositary”).

BNP Paribas Securities Services Luxembourg is a branch of BNP Paribas Securities Services SCA, a wholly-owned subsidiary of BNP Paribas SA. BNP Paribas Securities Services SCA is a licensed bank incorporated in France as a *Société en Commandite par Actions* (partnership limited by shares) under No.552 108 011, authorised by the *Autorité de Contrôle Prudentiel et de Résolution* (ACPR) and supervised by the *Autorité des Marchés Financiers* (AMF), with its registered address at 3 rue d'Antin, 75002 Paris, acting through its Luxembourg Branch, whose office is at 60, avenue J.F. Kennedy, L-1855 Luxembourg, Grand-Duchy of Luxembourg, and is supervised by the Commission de Surveillance du Secteur Financier (the “CSSF”).

The Depositary performs three types of functions, namely (i) the oversight duties (as defined in Art 34(1) of the law of December 17, 2010), (ii) the monitoring of the cash flows of the SICAV (as set out in Art 34(2) of the law of December 17, 2010), (iii) the safekeeping of the SICAV's assets (as set out in Art 34(3) of the law of December 17, 2010) and such other services as are agreed in the Depositary Bank Agreement.

Under its oversight duties, the Depositary is required to:

- (1) ensure that the sale, issue, repurchase, redemption and cancellation of Shares effected on behalf of the SICAV are carried out in accordance with the law of December 17, 2010 or with the SICAV's Articles of Incorporation,
- (2) ensure that the value of Shares is calculated in accordance with the law of December 17, 2010 and the SICAV's Articles of Incorporation,
- (3) carry out the instructions of the SICAV or the Management Company acting on behalf of the SICAV or the Management Company, unless they conflict with the law of December 17, 2010 or the SICAV's Articles of Incorporation,
- (4) ensure that in transactions involving the SICAV's assets, the consideration is remitted to the SICAV within the usual time limits;
- (5) ensure that the SICAV's revenues are allocated in accordance with the law of December 17, 2010 and its Articles of Incorporation.

The overriding objective of the Depositary is to protect the interests of the Shareholders of the SICAV, which always prevail over any commercial interests.

Conflicts of interest

Conflicts of interest may arise if and when the Management Company or the SICAV maintains other business relationships with BNP Paribas Securities Services, Luxembourg Branch or any other group company in parallel with an appointment of BNP Paribas Securities Services, Luxembourg Branch acting as Depositary.

Such other business relationships may cover services in relation to:

- Outsourcing/delegation of middle or back office functions (e.g. trade processing, position keeping, post trade investment compliance monitoring, collateral management, OTC valuation, fund administration inclusive of net asset value calculation, transfer agency, fund dealing services) where BNP Paribas Securities Services or its affiliates act as agent of the SICAV or the Management Company, or
- Selection of BNP Paribas Securities Services or its affiliates as counterparty or ancillary service provider for matters such as foreign exchange execution, securities lending, bridge financing.

The Depositary is required to ensure that any transaction relating to such business relationships between the Depositary and an entity within the same group as the Depositary is conducted at arm's length and is in the best interests of Shareholders.

In order to address any situations of conflicts of interest, the Depositary has implemented and maintains a management of conflicts of interest policy, aiming namely at:

- Identifying and analysing potential situations of conflicts of interest;
- Recording, managing and monitoring the conflict of interest situations either in:
 - Relying on the permanent measures in place to address conflicts of interest such as segregation of duties, separation of reporting lines, insider lists for staff members;
 - Implementing a case-by-case management to (i) take the appropriate preventive measures such as drawing up a new watch list, implementing a new Chinese wall, (i.e. by separating functionally and hierarchically the performance of its Depositary duties from other activities), making sure that operations are carried out at arm's length and/or informing the concerned Shareholders of the SICAV, or (ii) refuse to carry out the activity giving rise to the conflict of interest;
 - Implementing a deontological policy;
 - Recording of a cartography of conflict of interests permitting to create an inventory of the permanent measures put in place to protect the SICAV's interests; or
- Setting up internal procedures in relation to, for instance (i) the appointment of service providers which may generate conflicts of interests, (ii) new products/activities of the Depositary in order to assess any situation entailing a conflict of interest.

In the event that such conflicts of interest do arise, the Depositary will undertake to use its reasonable endeavours to resolve any such conflicts of interest fairly (having regard to its respective obligations and duties) and to ensure that the SICAV and the Shareholders are fairly treated.

Delegation of functions

The Depositary may delegate to third parties the safe-keeping of the SICAV's assets subject to the conditions laid down in the applicable laws and regulations and the provisions of the Depositary Agreement. The process of appointing such delegates and their continuing oversight follows the highest quality standards, including the management of any potential conflict of interest that should arise from such an appointment. Such delegates must be subject to effective prudential regulation (including minimum capital requirements, supervision in the jurisdiction concerned and external periodic audit) for the custody of financial instruments. The Depositary's liability shall not be affected by any such delegation.

The Depositary shall exercise care and diligence in choosing and appointing the third-party delegates so as to ensure that each third-party delegate has and maintains the required expertise, competence. The Depositary shall also periodically assess whether the third-party delegates fulfil applicable legal and regulatory requirements and will exercise ongoing supervision over each third-party delegate to ensure that the obligations of the third-party delegates continue to be competently discharged.

A potential risk of conflicts of interest may occur in situations where the delegates may enter into or have a separate commercial and/or business relationship with the Depositary in parallel to the custody delegation relationship. In order to prevent such potential conflicts of interest from crystalizing, the Depositary has implemented and maintains an internal organisation whereby such separate commercial and / or business relationships have no bearings on the choice of the delegate or the monitoring of the delegates' performance under the delegation agreement.

Miscellaneous

A list of these delegates and sub-delegates for its safekeeping duties is available in the website http://securities.bnpparibas.com/files/live/sites/portal/files/contributed/files/Regulatory/Ucits_delegates_EN.pdf. Such list may be updated from time to time. Updated information on the Depositary's custody duties, a list of delegations and sub-delegations and conflicts of interest that may arise, may be obtained, free of charge and upon request, from the Depositary.

The SICAV and the Management Company acting on behalf of the SICAV may release the Depositary from its duties with ninety (90) days written notice to the Depositary. Likewise, the Depositary may resign from its duties with ninety (90) days written notice to the SICAV. In that case, a new depositary must be designated to carry out the duties and assume the responsibilities of the Depositary, as defined in the agreement signed to this effect. The replacement of the Depositary shall happen within two months.

The fees in consideration for the Depositary Bank's services, covering both the custody and the monitoring of the assets, are included in the Service Fee as mentioned in the ["FEES AND EXPENSES BORNE BY THE SICAV"](#) chapter.

ADMINISTRATIVE AGENT, REGISTRAR AND TRANSFER AGENT

As foreseen by the 2010 Law and under the terms of the Management Company Agreement concluded for indefinite period between the SICAV and UBP Asset Management (Europe) S.A., the Management Company is in charge of the central administration of the SICAV.

The fees received by the Management Company in consideration of its central administration services rendered to the SICAV (the "Administration Fee") are included in the Service fee as mentioned in the ["FEES AND EXPENSES BORNE BY THE SICAV"](#) chapter.

The function of central administration agent of the SICAV is delegated to CACEIS Bank Luxembourg ("CACEIS"), under the supervision of the Management Company. CACEIS Bank Luxembourg is a bank incorporated as a société anonyme under the laws of Luxembourg. Its registered office is situated at 5, allée Scheffer, L-2520 Luxembourg. With effect as of 31st December 2016, CACEIS Bank Luxembourg was through a cross-border merger by way of absorption by CACEIS Bank France, a public limited liability company (société anonyme) incorporated under the laws of France with a share capital of 440,000,000 Euros, having its registered office located at 1-3, place Valhubert, 75013 Paris, France, identified under number 692 024 722 RCS Paris, turned into the Luxembourg branch of CACEIS Bank France and was named CACEIS Bank Luxembourg Branch. CACEIS Bank Luxembourg Branch is empowered to delegate, under its full responsibility, all or part of its duties as central administration agent to a third Luxembourg entity, with the prior consent of the Board of Directors. CACEIS has been appointed as the Administrative Agent, Registrar and Transfer Agent under the terms of an agreement concluded for an indefinite period.

As registrar and transfer agent, CACEIS is primarily responsible for the issue, conversion and redemption of shares and maintaining the register of shareholders of the SICAV. As administrative agent, CACEIS is responsible for calculating and publishing the net asset value (NAV) of the shares of each sub-fund pursuant to the 2010 Law and the Articles of Association of the SICAV and for performing administrative and accounting services for the SICAV as necessary.

Any external services linked to specific one-off work provided by CACEIS are billed separately to the SICAV.

GENERAL DISTRIBUTOR

Under a general distribution agreement, Union Bancaire Privée, UBP SA, Geneva has been appointed as general distributor (the "General Distributor") for the SICAV's shares, in order to:

- organise and oversee the marketing and distribution of the SICAV's shares, and
- centralise investors' subscription, redemption or conversion orders for the SICAV's shares that are submitted directly to Union Bancaire Privée, UBP SA.

This agreement between the Management Company, the SICAV and the General Distributor is entered into for an indefinite period and may be terminated by either contracting party subject to one month notice.

In consideration for its general distributor services, the General Distributor receives an annual fee (the "General Distributor Fee") for Type A, Type U, Type X and Type R shares*, payable quarterly and calculated based on the average net assets of each one of these share Types for the SICAV's various sub-funds during the quarter in question. To date, no fees are envisaged for Type I, Type I+, Type M, Type V, Type Y and Type Z shares*.

The maximum rates applicable for the sub-funds are detailed in the "[AVAILABLE SHARES WITHIN THE SUB-FUNDS](#)" chapter.

It is understood that all investors are entitled to submit their subscription, redemption or conversion orders directly to the Administrative, Registrar and Transfer Agent.

* Please refer to the "[TYPES OF SHARES](#)" chapter.

MARKETING AGENT

Union Bancaire Privée, UBP SA, Geneva has been appointed as Marketing Agent. Union Bancaire Privée, UBP SA, will promote and market the SICAV, in the European Economic Area, in Switzerland or in a country which is otherwise member of the GAFI/FATF or a GAFI/FATF-Associate Member, to the exclusion, however, of the United States of America, coordinate the marketing activities of the local distributors and the reporting duties in consideration of the distribution activities.

In consideration for its marketing agent services, the Marketing Agent receives an annual fee (the "Marketing Fee") for Type A, Type U, Type X and Type R shares*, payable quarterly and calculated based on the average net assets of each one of these share Types for the SICAV's various sub-funds during the quarter in question. To date, no fees are envisaged for Type I, I+, M, V, Y and Z shares*.

The maximum rates applicable for the sub-funds are detailed in the "[AVAILABLE SHARES WITHIN THE SUB-FUNDS](#)" chapter.

* Please refer to the "[TYPES OF SHARES](#)" chapter.

TYPES OF SHARES

Within each sub-fund, shareholders may be offered various Types of shares ("Types"):

- Type A shares;
- Type I shares, reserved exclusively for institutional investors who may subscribe on their own behalf or on behalf of third parties, who must also be institutional investors. These shares will be subject to a lower Management Fee, and will not have any marketing or general distributor fees. These shares also benefit from a discounted subscription duty ("taxe d'abonnement").
- Type I+ shares, reserved exclusively for institutional investors who may subscribe on their own behalf or on behalf of third parties, who must also be institutional investors. These shares will be subject to a lower Management Fee, and will not have any marketing or general distributor fees. These shares also benefit from a discounted subscription duty ("taxe d'abonnement"). For this Type I+, the minimum **initial** subscription amount is EUR/USD/CHF 25 million or equivalent.
- Type R shares;
- Type U shares , only available for:
 - investors who need to be pre-approved by the SICAV's Board of Directors and who purchase the Shares indirectly through a financial intermediary (such as a fund platform or wealth management firm) which provides either:
 - (i) portfolio management services; or

- (ii) independent investment advisory services; or
- (iii) similar services based on agreements specifically providing for investment in retrocession-free share or unit classes;
- investors in the United Kingdom, the Netherlands and such other countries as may be decided by the SICAV's Board of Directors from time to time who purchase the Shares directly;
- other investors having received a specific approval given by the SICAV's Board of Directors.

These Shares do not entitle to any retrocessions. The Class U Shares are retail distribution review (RDR) compliant.

- Type M shares, only available for some sub-funds, which are reserved for UBP clients who have signed a Discretionary Portfolio Management with Union Bancaire Privée, UBP SA or with any other member of the UBP Group.
- Type V shares, only available for:
 - external (non UBP) banking groups or asset managers which entered into specific corporate restructuring transactions (mergers, acquisitions or joint ventures) with Union Bancaire Privée, UBP SA or any of its subsidiaries / branches who invest on behalf of clients on the basis of discretionary mandates; and have received a specific approval given by the SICAV's Board of Directors.
- Type X shares, which are reserved for distributors who have signed a specific cooperation agreement with Union Bancaire Privée, UBP SA or with any other member of the UBP Group who invest on behalf of their clients.
- Type Y shares, which are reserved for institutional investors who have signed a specific cooperation agreement with Union Bancaire Privée, UBP SA or with any other member of the UBP Group.
- Type Z shares, which are reserved for institutional investors who have signed a specific remuneration agreement with Union Bancaire Privée, UBP SA or with any other member of the UBP Group.

The distinction between Type A and Type R shares is the different fee levels that apply to these different Types, as set out in the following pages of this prospectus.

Regarding access to Type I, Type I+, Type Y and Type Z shares, institutional investors shall be understood to be:

- Investors within the meaning of Article 174 (2) of the 2010 Law;
- Entities managing shares or large funds such as credit institutions, financial sector professionals, insurance and reinsurance companies, investment and pension funds, holding companies acting on their own behalf or on behalf of clients on the basis of discretionary mandates;
- National, regional or local authorities;
- The various sub-funds of the SICAV in accordance with Article 181(8) of the 2010 Law.

It is each investor's responsibility to invest in the appropriate Share class having regard to the above definition(s) for each Share class.

Shares with performance fees

The distinction between A and AP shares, respectively I and IP, U and UP, R and RP, is that AP, IP, UP and RP shares carry a reduced Management Fee, while also carrying a performance fee as detailed in the "[PERFORMANCE FEE](#)" chapter.

These shares, which carry a performance fee, will include the letter "P" in their denomination.

Shares in currencies other than the sub-fund's base currency

Classes in currencies other than the base currency of each sub-fund may be offered for some sub-funds according to the chapter [“AVAILABLE SHARES WITHIN THE SUB-FUNDS”](#). These shares will bear all exchange-related costs concerning the subscription price and/or redemption price respectively received or paid in the sub-fund's base currency, costs relating to the calculation of the net asset value and any related costs.

Depending on the sub-fund, the currency risk for these shares, denominated in other currencies than the sub-fund's base currency may or may not be hedged.

The hedged shares will be covered largely by hedging transactions and will include the letter "H" in their denomination.

Depending of the concerned sub-funds, the objective of the hedging transactions is:

- either to cover the exchange-related risks between the base currency of a sub-fund and the share's currency or;
- to cover the exchange-related risks between the currencies of the sub-fund's underlyings and the share's currency (hence, some of these sub-funds also offer hedged share classes denominated in the base currency of the sub-funds). For these hedged share classes, due to many currencies to hedge for each share class and the operational constraints, shareholders must consider that the forex hedging may be less accurate than those of where the hedging is between share class currency and base currency.

The table below details which hedging method is applied for concerned sub-funds:

<u>Sub-funds</u>	<u>Hedging method</u>
UBAM - GLOBAL AGGREGATE BOND UBAM - 30 GLOBAL LEADERS EQUITY UBAM - EUROPE EQUITY DIVIDEND+ UBAM - GLOBAL EQUITY SUSTAINABLE GROWTH UBAM - SWISS EQUITY *	Hedging transactions aim to cover the exchange-related risks between the currencies of the sub-fund's underlyings and the share's currency.
All others sub-funds and shares	Hedging transactions aim to cover the exchange-related risks between the base currency of a sub-fund and the share's currency.

* Only the CHF Hedged share class

All the costs and risks resulting from hedging transactions will be borne by the shares denominated in these currencies respectively.

Investors are reminded that the net asset value of shares of a same sub-fund denominated in different currencies can evolve differently from each other depending on the fact that they are subject to hedging transactions or not.

For some shares, the net asset value may be published in another currency.

Shares with Duration Hedging

“Duration hedged shares” will allow investors to benefit from the management of the concerned sub-fund by limiting possible impacts linked to rates movements. The hedging strategy will be carried out through derivative instruments (interest rate futures) and will focus on the main points of the yield curve and not on each maturity taken individually. Hence, a residual risk of variation in the yield curve will remain.

The duration hedged shares will include the letter "S" (Sensibility) in their denomination.

The admitted duration of these shares will be between:

- -1 and +2 for UBAM - EM INVESTMENT GRADE CORPORATE BOND, UBAM - EMERGING MARKET CORPORATE BOND and UBAM - EMERGING MARKET DEBT OPPORTUNITIES;

- -1 and +1 for all the others sub-funds having duration hedged shares.

In case one of above limits is reached, the Manager will be asked for a return to a duration between the above indicated thresholds in a reasonable time. Due to this specific strategy and in order to deal with margin calls, the assets attributable to duration hedged shares may not be entirely invested and may be in a situation of under-investment.

Shareholders and potential investors should note that Duration Hedged Share Classes must be closed for investment by new investors as from 30 July 2017, and for additional investment by existing investors as from 30 July 2018.

Capitalisation or distribution shares

For all the sub-funds, each Type may be issued in distribution shares (D shares) or capitalisation shares (C shares).

Distribution shares are denominated and categorised as follows:

- D share classes with annual dividends, for which, as a general rule, the SICAV distributes all net income from investments;
- Dq share classes with quarterly dividends determined at the discretion of the Management Company;
- Dm share classes with monthly dividends determined at the discretion of the Management Company;
- Dm+ share classes with monthly dividends higher than those of Dm share classes determined at the discretion of the Management Company.

The dividends may be paid on income, capital gains and losses and the capital of the sub-fund provided that after distribution, the SICAV's net assets exceed the minimum capital required by the 2010 Law.

However, if the amount available for distribution is less than the equivalent of EUR 0.05 per share, no dividend will be declared and the amount will be carried forward to the next financial year.

The Board of Directors of the SICAV reserves the right to determine the Types and classes of shares that will be issued for each sub-fund.

The comprehensive list of shares by sub-fund is provided in the "[AVAILABLE SHARES WITHIN THE SUB-FUNDS](#)" chapter.

INVESTMENT POLICY AND OBJECTIVES

The Articles of Association empower the SICAV's Board of Directors to determine the investment policy for each sub-fund.

The SICAV's main objective is to seek the highest possible return on the invested capital, in accordance with the principle of risk spreading.

The sub-fund's base currency is not necessarily identical to the sub-fund's investment currencies.

Investors are invited to read this section together with the following chapter "[RISK FACTORS](#)".

Bond sub-funds

Bond sub-funds aim to offer investors access to a selection of transferable securities, primarily bonds and other debt securities, while complying with the principle for the diversification of investment risks.

The bond sub-funds may use derivative instruments and techniques for hedging or more efficient management, within the limits set out in the investment restrictions. More specifically, these sub-funds may buy and sell call or put options on transferable securities or financial instruments, futures on currencies or interest rates, and may take out swaps on currencies, interest rates or all types of financial instruments, provided that such derivatives are traded on a regulated market, operating regularly. Such derivatives may be entered into on an over-the-counter (OTC) basis with first-rate institutions specialised in such transactions. More specifically, these sub-funds may buy or sell Credit Default Swaps and call or put options on Credit Default Swaps, as well as Total Return Swaps. The bonds sub-funds may invest up to 10% of their net assets in structured credit products such as ABS, CMO, CLO, CDO and Credit Linked Notes with a minimum rating of AA- (S&P or Fitch) or Aa3 (Moody's). As an exception to this rule, the limit for UBAM - ABSOLUTE RETURN FIXED INCOME is set at 20% of the net assets with a minimum rating of B- (S&P or Fitch) or B3 (Moody's). The use of structured products involves higher risks than direct investments in transferable securities.

The potential risks inherent in such structured products are set out in the chapter "[RISK FACTORS](#)".

The sub-funds listed in the below table are authorised to invest up to the maximum percentage of their net assets listed in said table, in contingent convertible capital bonds (CoCos) which, in accordance with regulatory capital requirements, can be converted into equity capital (shares) or face principal write down (in whole or in part). CoCos are Tier 1 and Tier 2 subordinated debt securities issued by financial institutions. Whereas most Contingent convertible capital bonds are issued as a perpetual instrument, some are issued with a defined maturity. For both coupon payments are discretionary and may be cancelled at any time for any reason. Contingent convertible capital bonds are highly complex structures and therefore their valuation can be difficult. Potential risks inherent in such contingent convertibles bonds are set out in the chapter "[RISK FACTORS](#)".

Sub-funds	CoCos up to
UBAM - ABSOLUTE RETURN FIXED INCOME	20%
UBAM - EM INVESTMENT GRADE CORPORATE BOND	20%
UBAM - EM SUSTAINABLE HIGH GRADE CORPORATE BOND	20%
UBAM - EMERGING MARKET CORPORATE BOND	20%
UBAM - EMERGING MARKET CORPORATE BOND SHORT DURATION	20%
UBAM - EMERGING MARKET DEBT OPPORTUNITIES	20%
UBAM - EMERGING MARKET SOVEREIGN BOND	20%
UBAM - GLOBAL BOND TOTAL RETURN	10%

The bond sub-funds will not invest in equities with the exception of:

Sub-funds	Equities up to
UBAM - ABSOLUTE RETURN FIXED INCOME	20%
UBAM - EMERGING MARKET DEBT OPPORTUNITIES	20%
UBAM - GLOBAL BOND TOTAL RETURN	30%

Investments in convertible bonds other than CoCos will not at any time represent more than 25% of the net assets.

On an ancillary basis, the bond sub-funds may invest in money market instruments, including up to 10% of net assets in money market instruments with a residual maturity of over 12 months.

Concerning bond sub-funds, the limits in force for investments in high-yield products and emerging countries transferable securities are set as follows (expressed in percentage total net assets of the respective sub-funds):

Sub-funds	Asset Type	High Yield products	Emerging countries transferable securities
UBAM - ABSOLUTE RETURN FIXED INCOME		80%	60%
UBAM - ABSOLUTE RETURN LOW VOL FIXED INCOME		50%	40%
UBAM - CORPORATE EURO BOND		20%	20%
UBAM - CORPORATE US DOLLAR BOND		20%	30%
UBAM - EM INVESTMENT GRADE CORPORATE BOND		0%	100%
UBAM - EM SUSTAINABLE HIGH GRADE CORPORATE BOND		0%	100%
UBAM - EMERGING MARKET CORPORATE BOND		100%	100%
UBAM - EMERGING MARKET CORPORATE BOND SHORT DURATION		100%	100%
UBAM - EMERGING MARKET DEBT OPPORTUNITIES		100%	100%
UBAM - EMERGING MARKET SOVEREIGN BOND		100%	100%
UBAM - GLOBAL AGGREGATE BOND		20%	30%
UBAM - GLOBAL BOND TOTAL RETURN		50%	40%
UBAM - GLOBAL HIGH YIELD SOLUTION		100%*	10%
UBAM - US HIGH YIELD SOLUTION		100%*	20%
All others bond sub-funds		20%	10%

* Please refer to the investment policy of the sub-fund

The High-Yield products are bond issues offering high yields. This relates to bonds issued by companies being turned around or with low credit ratings, i.e. a high level of debt. The return on such securities, in the same way as their level of risk, is therefore higher than traditional bond products.

Bonds from issuers in distress are often defined as those that have been given a speculative long-term rating by credit rating agencies, usually CCC- (S&P or FITCH) or Caa3 (Moody's). In some cases, the recovery of investments in distressed or defaulted debt securities is subject to uncertainty related to, among other things, court orderings and corporate reorganisations. Investment in this kind of securities may lead to capital losses and/or losses that can negatively affect the net asset value of the sub-funds.

For the bond sub-funds, investments in bonds are authorized in assets with a minimum rating of B- (S&P or FITCH), B3 (Moody's), or an equivalent rating by another rating agency. In case a rating is not available for a security the issuer's rating will be considered instead. If the rating of a security/issuer is downgraded below B- / B3 or equivalent, it will be resold within 6 months from the date at which the rating was lowered. Products/issuers for which a rating is not available will not exceed 15% of each sub-fund net assets. Please note that when the high yield exposure is reached via CDS on index, the rating is not available. However, the Manager will ensure that the calculated average rating is consistent with these rules. Certain sub-funds can be subject to stricter rating restrictions as detailed in their respective investment policies.

As an exception to these rules, for UBAM - EMERGING MARKET CORPORATE BOND, UBAM - EMERGING MARKET DEBT OPPORTUNITIES and UBAM - EMERGING MARKET SOVEREIGN BOND:

- at least two thirds of their total assets shall be invested in products with a minimum rating of B- (S&P or FITCH), B3 (Moody's) or an equivalent rating by another rating agency;
- for the remaining assets these sub-funds are authorised to invest in products with a minimum rating of CCC+ (S&P or FITCH) or Caa1 (Moody's) or an equivalent rating by another rating agency;
- As an exception, within the scope of the above mentioned remaining assets, UBAM - EMERGING MARKET SOVEREIGN BOND is authorised to invest in sovereign or quasi sovereign bonds with a

minimum rating of CCC- (S&P or FITCH) or Caa3 (Moody's) or an equivalent rating by another rating agency.

- In case a rating is not available for a security the issuer's rating will be considered instead for the application of the above rules.
- In the event that the credit rating of a security/issuers held by these sub-funds is downgraded below the limits set out above, the security may be kept or sold, at the Manager's discretion and in the best interest of the shareholders, provided that the investments with a rating below CCC+ / Caa1 do not exceed 10% of the sub-fund net assets.
- However the general rule regarding non-rated products remains applicable (investments in non-rated products are authorised up to 15% of the total net assets).

In principle the overall risk for these sub-funds is calculated according to the absolute VaR methodology. The VaR limit (99%, 1 month) is set at 20%.

1. UBAM - ABSOLUTE RETURN FIXED INCOME

Sub-fund denominated in EUR and which invests its net assets primarily in global credit markets without any limitation of geography. This sub-fund will invest in:

- emerging markets up to 60%;
- High Yield up to 80%;
- asset backed securities up to 20%;
- equity, including equity derivatives up to 20%;
- contingent convertible bonds up to 20%.

The equity exposure will aim to increase and diversify the subordinated where the investment manager deems it's appropriate.

The convertible contingent exposure will aim to increase and diversify the financial subordinated risk where the investment manager deems it appropriate.

The net asset value is expressed in EUR.

Standard investor profile: this sub-fund is suitable for investors who need a well-diversified bond allocation in their portfolio with a potential small portion in equity, with a high risk profile due to the high volatility linked to the High Yield and Emerging markets. Investors should have experience in volatile products and financial markets, and particularly in High Yield and Emerging markets. They should have a minimum investment horizon of 3 years and should be able to accept significant losses.

- *Risk calculation: absolute VaR approach*
- *Leverage calculation methodology: sum of the notionals*
- *Expected leverage: 500%. Please note that depending on market conditions the leverage level could be higher.*

2. UBAM - ABSOLUTE RETURN LOW VOL FIXED INCOME

Sub-fund denominated in EUR and which invests its net assets primarily in any kind of:

- bonds denominated in any kind of currencies;
- money market instruments denominated in any kind of currencies and;
- fixed income and currency derivatives denominated in any kind of currencies such as CDS, futures, swaps and options.

This sub-fund may invest up to:

- 40% of its nets assets in transferable securities of emerging countries;
- 50% of its nets assets in high yield products.

The sub-fund is allowed to invest without limits in currencies other than its base currency (EUR). These investments will be hedged so that the currency risk is limited to 30% of the nets assets of sub-fund.

In normal market conditions, it is expected that the annualized volatility will be below 2%. This annualized volatility is a goal that the Investment Manager will strive to achieve under normal market conditions and cannot be guaranteed.

The net asset value is expressed in EUR

Standard investor profile: this sub-fund is suitable for investors who need a well-diversified bond allocation in their portfolio, but with a high risk profile due to the high volatility linked to the High Yield and emerging markets. Investors should have experience in volatile products and financial markets, and particularly in High Yield and emerging markets. They should have a minimum investment horizon of 3 years and should be able to accept significant losses.

- Risk calculation: absolute VaR approach
- Leverage calculation methodology: sum of the notionals
- Expected leverage: 400%. Please note that depending on market conditions the leverage level could be higher.

3. UBAM - CORPORATE EURO BOND

Sub-fund denominated in EUR and which invests its net assets primarily in bonds denominated in this currency issued by companies ("corporate bonds") with a minimum rating of BBB- (Standard and Poor's or Fitch) or Baa3 (Moody's).

As an exception to the general rule applicable to bond sub-funds, this sub-fund may invest up to 20% of its net assets in transferable securities of emerging countries.

The net asset value is expressed in EUR.

Standard investor profile: this sub-fund is suitable for investors who need a well-diversified bond allocation in their portfolio. Investors should have a minimum investment horizon of 3 years and should be able to accept moderate short-term losses.

- Risk calculation: absolute VaR approach
- Leverage calculation methodology: sum of the notionals
- Expected leverage: 300%. Please note that depending on market conditions the leverage level could be higher.

4. UBAM - CORPORATE US DOLLAR BOND

Sub-fund denominated in USD and which invests its net assets primarily in bonds denominated in this currency issued by companies ("corporate bonds") with a minimum rating of BBB- (Standard and Poor's or Fitch) or Baa3 (Moody's).

As an exception to the general rule applicable to bond sub-funds, this sub-fund may invest up to 30% of its net assets in transferable securities of emerging countries.

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors who need a well-diversified bond allocation in their portfolio. Investors should have a minimum investment horizon of 3 years and should be able to accept moderate short-term losses.

- Risk calculation: absolute VaR approach
- Leverage calculation methodology: sum of the notionals
- Expected leverage: 300%. Please note that depending on market conditions the leverage level could be higher.

5. UBAM - DYNAMIC EURO BOND

Sub-fund denominated in EUR and which invests its net assets primarily in securities denominated in this currency. At any time, this sub-fund invests a majority of its net assets in bonds and other debt securities. The portfolio's average term will not exceed three years.

The net asset value is expressed in EUR.

Standard investor profile: this sub-fund is suitable for investors who need a well-diversified bond allocation in their portfolio. Investors should have a minimum investment horizon of 1 year and should be able to accept moderate short-term losses.

- Risk calculation: absolute VaR approach
- Leverage calculation methodology: sum of the notionals
- Expected leverage: 300%. Please note that depending on market conditions the leverage level could be higher.

6. UBAM - DYNAMIC US DOLLAR BOND

Sub-fund denominated in USD and which invests its net assets primarily in securities denominated in this currency. At any time, this sub-fund invests a majority of its net assets in bonds and other debt securities. The portfolio's average term will not exceed three years.

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors who need a well-diversified bond allocation in their portfolio. Investors should have a minimum investment horizon of 1 year and should be able to accept moderate short-term losses.

- Risk calculation: absolute VaR approach
- Leverage calculation methodology: sum of the notionals
- Expected leverage: 300%. Please note that depending on market conditions the leverage level could be higher.

7. UBAM - EM INVESTMENT GRADE CORPORATE BOND

Sub-fund denominated in USD and which invests its net assets primarily in fixed or variable-rate bonds whose issue or issuer carries at least one rating of a minimum of BBB- (Fitch or S&P) or Baa3 (Moody's) or a rating considered equivalent by the Investment Manager as a result of its analysis, for the same level of seniority as the issue, issued by:

- companies domiciled in emerging countries, or;
- companies in any countries but with an underlying instrument directly or indirectly linked to emerging countries, or;
- companies whose risks are directly or indirectly linked to emerging countries.

The sub-fund's will invest at least 80% in the currencies of OECD countries. For investments denominated in a currency other than the USD, the foreign exchange risk will be largely hedged.

On an ancillary basis, the sub-fund's net assets may be invested *inter alia* in:

- bonds issued by sovereign issuers from emerging countries, or;
- bonds issued by issuers not connected to emerging countries, or;
- bonds issued or guaranteed by OECD member countries or by their local public authorities, or Community, regional or global supranational organisations and institutions;
- up to 20% in contingent convertible bonds.

The exposure to these markets can be direct or via the use of derivative financial instruments such as CDS and CDX.

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors who need a well-diversified bond allocation in their portfolio. Investors should have experience in volatile products and financial markets, and, more specifically, those markets relating to emerging countries. They should have a minimum investment horizon of 3 years and should be able to accept losses.

- Risk calculation: absolute VaR approach
- Leverage calculation methodology: sum of the notionals
- Expected leverage: 300%. Please note that depending on market conditions the leverage level could be higher.

8. **UBAM - EM SUSTAINABLE HIGH GRADE CORPORATE BOND**

Sub-fund denominated in USD and which invests its net assets primarily in fixed or variable-rate bonds whose issuer:

- carries, at the issue or issuer level, at least one rating of a minimum of BBB- (Fitch or S&P) or Baa3 (Moody's);
- carries an ESG rating from MSCI ESG Research with a minimum of BB and does not carry a Red controversy flag by MSCI ESG Research;
- is a company domiciled in emerging countries, or;
- is a company domiciled in any country but with an underlying instrument directly or indirectly linked to emerging countries, or;
- is a company whose risks are directly or indirectly linked to emerging countries.

The sub-fund's investments currencies will be mainly those of OECD countries.

For investments denominated in a currency other than the USD, foreign exchange risks will be largely hedged

On an ancillary basis, the sub-fund's net assets may be invested *inter alia* in:

- bonds issued or guaranteed by sovereign issuers from emerging countries,
- contingent convertible bonds up to 20%

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors who need a well-diversified bond allocation in their portfolio, but with a high risk profile due to high volatility linked to emerging markets. Investors should have experience in volatile products and financial markets, and, more specifically, those markets relating to emerging countries. They should have a minimum investment horizon of 3 years and should be able to accept significant losses.

- *Risk calculation: absolute VaR approach*
- *Leverage calculation methodology: sum of the notionals*
- *Expected leverage: 300%. Please note that depending on market conditions the leverage level could be higher.*

9. **UBAM - EMERGING MARKET CORPORATE BOND**

Sub-fund denominated in USD and which invests its net assets primarily in fixed or variable-rate bonds issued by:

- companies domiciled in emerging countries, or
- companies in any countries but with an underlying instrument directly or indirectly linked to emerging countries, or
- companies whose risks are directly or indirectly linked to emerging countries.

The sub-fund's investments will mainly be in the currencies of OECD countries. On an ancillary basis, the sub-fund's net assets may be invested *inter alia* in:

- bonds issued by issuers not connected to emerging countries, or
- bonds denominated in other currencies.

As an exception to the general rule applicable to bond sub-funds, this sub-fund will be able to invest up to 100% of its net assets in High Yield products and/or transferable securities of emerging countries.

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors who need a well-diversified bond allocation in their portfolio, but with a high risk profile due to high volatility linked to emerging markets. Investors should have experience in volatile products and financial markets, and, more specifically, those markets relating to emerging countries. They should have a minimum investment horizon of 3 years and should be able to accept significant losses.

- *Risk calculation: absolute VaR approach*

- *Leverage calculation methodology: sum of the notionals*
- *Expected leverage: 300%. Please note that depending on market conditions the leverage level could be higher.*

10. UBAM - EMERGING MARKET CORPORATE BOND SHORT DURATION

Sub-fund denominated in USD and which invests its net assets primarily in fixed or variable-rate Investment Grade or High Yield bonds issued by:

- companies domiciled in emerging countries, or;
- companies in any countries but with an underlying instrument directly or indirectly linked to emerging countries, or;
- companies whose risks are directly or indirectly linked to emerging countries.

The sub-fund's investments will mainly be in the currencies of OECD countries, but also in emerging countries' currencies up to 20%. On an ancillary basis, the sub-fund's net assets may be invested *inter alia* in:

- bonds issued by issuers not connected to emerging countries, or;
- bonds denominated in other currencies.

As an exception to the general rule applicable to bond sub-funds, this sub-fund will be able to invest up to 100% of its net assets in High Yield products and/or transferable securities of emerging countries.

The average duration of the portfolio will be between 1 and 4 via direct investment and / or via the use of derivative products.

The exposure to these markets can be direct or via the use of derivative financial instruments such as CDS and CDX.

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors who need a well-diversified bond allocation in their portfolio, but with a high risk profile due to high volatility linked to emerging markets. Investors should have experience in volatile products and financial markets, and, more specifically, those markets relating to emerging countries. They should have a minimum investment horizon of 3 years and should be able to accept significant losses.

- *Risk calculation: absolute VaR approach*
- *Leverage calculation methodology: sum of the notionals*
- *Expected leverage: 300%. Please note that depending on market conditions the leverage level could be higher.*

11. UBAM - EMERGING MARKET DEBT OPPORTUNITIES

Sub-fund denominated in USD and which at any time invests a majority of its net assets in fixed or variable-rate bonds from:

- issuers domiciled in emerging countries, or
- issuers from any country whose underlying is economically linked, directly or indirectly, to an issuer domiciled in an emerging country, or
- issues linked to "emerging country" risks.

On an ancillary basis, the sub-fund's net assets may be invested in securities from issuers not linked to emerging countries or in securities denominated in emerging country currencies.

As an exception to the general rule applicable to bond sub-funds, this sub-fund will be able to invest:

- up to 100% of its net assets in High Yield products and/or transferable securities of emerging countries,
- up to 20% of its net assets in equity, including equity derivatives.

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors who need a well-diversified bond allocation in their portfolio, but with a high risk profile due to high volatility linked to emerging markets. Investors should have experience in volatile products and financial markets, and more specifically those

relating to emerging countries. They should have a minimum investment horizon of 3 years and should be able to accept significant losses.

- *Risk calculation: absolute VaR approach*
- *Leverage calculation methodology: sum of the notionals*
- *Expected leverage: 300%. Please note that depending on market conditions the leverage level could be higher.*

12. UBAM - EMERGING MARKET SOVEREIGN BOND

Sub-fund denominated in USD and which at any time invests a majority of its net assets in fixed or variable-rate bonds in hard currencies such as (but not limited to) EUR or USD, issued by Public Authorities or quasi sovereigns which are:

- domiciled in emerging countries, or;
- domiciled from any country whose underlying is economically linked, directly or indirectly, to an issuer domiciled in an emerging country, or;
- linked to emerging country risks.

The exposure to these markets can be direct or via the use of derivative financial instruments such as but not limited to CDS and CDX.

As an exception to the general rule applicable to bond sub-funds, this sub-fund will be able to invest up to 100% of its net assets in High Yield products and/or transferable securities of emerging countries according to the rating's rules in chapter "Bond sub-funds".

Moreover, the Sub-fund net assets may be invested in emerging corporate bonds up to 20%.

Overall, up to 20% of the Sub-Fund's investments may be carried out in emerging countries' currencies.

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors who need a well-diversified bond allocation in their portfolio, but with a high risk profile due to high volatility linked to investments in low rating emerging markets bonds. Investors should have experience in volatile products and financial markets, and more specifically those relating to emerging countries. They should have a minimum investment horizon of 3 years and should be able to accept significant losses.

- *Risk calculation: absolute VaR approach*
- *Leverage calculation methodology: sum of the notionals*
- *Expected leverage: 300%. Please note that depending on market conditions the leverage level could be higher.*

13. UBAM - EURO BOND

Sub-fund denominated in EUR and which invests its net assets primarily in securities denominated in this currency. At any time, this sub-fund invests a majority of its net assets in bonds and other debt securities.

The net asset value is expressed in EUR.

Standard investor profile: this sub-fund is suitable for investors who need a well-diversified bond allocation in their portfolio. Investors should have a minimum investment horizon of 3 years and should be able to accept moderate short-term losses.

- *Risk calculation: absolute VaR approach*
- *Leverage calculation methodology: sum of the notionals*
- *Expected leverage: 300%. Please note that depending on market conditions the leverage level could be higher.*

14. UBAM - GLOBAL AGGREGATE BOND

Sub-fund denominated in USD and which invests its net assets primarily in securities denominated in USD, EUR, JPY, GBP and CHF. At any time, this sub-fund invests a majority of its net assets in international bonds and other debt securities.

As an exception to the general rule applicable to bond sub-funds, this sub-fund may invest up to 30% of its net assets in transferable securities of emerging countries

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors who need a well-diversified bond allocation in their portfolio. Investors should have a minimum investment horizon of 2 years and should be able to accept moderate short-term losses.

- *Risk calculation: absolute VaR approach*
- *Leverage calculation methodology: sum of the notionals*
- *Expected leverage: 500%. Please note that depending on market conditions the leverage level could be higher.*

15. UBAM - GLOBAL BOND TOTAL RETURN

Sub-fund denominated in USD and which invests its net assets primarily in any kind of:

- bonds denominated in any kind of currencies;
- money market instruments denominated in any kind of currencies and;
- fixed income and currency derivatives denominated in any kind of currencies such as CDS, futures, swaps and options.

This sub-fund may invest up to:

- 40% of its nets assets in transferable securities of emerging countries;
- 50% of its nets assets in high yield products;
- 10% of its nets assets in contingent convertible bonds.

In addition, the sub-fund may invest up to 30% of its nets assets worldwide in equity (including emerging countries), either directly, through UCITS-compliant ETFs (up to 10%) or via derivatives. The sub-fund may invest in financial derivative instruments for hedging and investment purposes. Derivatives may include (but are not limited to) CDS, futures, forwards, options.

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors who consider investment funds as a convenient way to participate in capital market developments and looking for a balanced allocation between bonds and global equity in their portfolio. Investors should have a minimum investment horizon of 3 to 5 years and should be able to take measurable risk and to accept losses.

- *Risk calculation: absolute VaR approach*
- *Leverage calculation methodology: sum of the notionals*
- *Expected leverage: 400%. Please note that depending on market conditions the leverage level could be higher*

16. UBAM - GLOBAL HIGH YIELD SOLUTION

Sub-fund denominated in USD which invests its net assets primarily in securities denominated in this currency. At any time, this sub-fund invests a majority of its net assets in bonds and other debt securities. This sub-fund will have nominal net exposure of between 80% and 120% to High Yield products via the use of CDS (Credit Default Swaps) within the framework of effective management of the portfolio.

The net asset value is expressed in USD.

This sub-fund may invest up to 100% of its net assets in High Yield products.

Standard investor profile: this sub-fund is suitable for investors who need a well-diversified bond allocation in their portfolio, but with a high risk profile due to the high volatility linked to the High Yield markets. Investors should have experience in volatile products and financial markets, and particularly in High Yield

markets. They should have a minimum investment horizon of 3 years and should be able to accept significant losses.

- Risk calculation: absolute VaR approach
- Leverage calculation methodology: sum of the notionals
- Expected leverage: 350%. Please note that depending on market conditions the leverage level could be higher.

17. UBAM - HIGH GRADE EURO INCOME

Sub-fund denominated in EUR which invests its net assets primarily in investment grade bonds, money market Instruments, term deposit, and derivatives.

Exposure to fixed income will be predominantly through derivatives such as CDS, futures, swaps and options denominated in any kind of OECD currencies. Derivative implementation, used to efficiently gain exposure to investment markets, will be at the Investment Manager discretion and can be up to 100% of the fund's exposure.

Up to 100% of the net assets can be invested in term deposits with a maturity up to 12 months.

The net asset value is expressed in EUR.

Standard investor profile: this sub-fund is suitable for investors who need a well-diversified bond allocation in their portfolio. Investors should have a minimum investment horizon of 1 year and should be able to accept moderate short-term losses.

- Risk calculation: absolute VaR approach
- Leverage calculation methodology: sum of the notionals
- Expected leverage: 300%. Please note that depending on market conditions the leverage level could be higher.

18. UBAM - US DOLLAR BOND

Sub-fund denominated in USD and which invests its net assets primarily in securities denominated in this currency. At any time, this sub-fund invests a majority of its net assets in bonds and other debt securities.

The net asset value is expressed in USD

Standard investor profile: this sub-fund is suitable for investors who need a well-diversified bond allocation in their portfolio. Investors should have a minimum investment horizon of 3 years and should be able to accept moderate short-term losses.

- Risk calculation: absolute VaR approach
- Leverage calculation methodology: sum of the notionals
- Expected leverage: 300%. Please note that depending on market conditions the leverage level could be higher.

19. UBAM - US HIGH YIELD SOLUTION

Sub-fund denominated in USD which invests its net assets primarily in sovereign and quasi- sovereign debt securities denominated in this currency. At any time, this sub-fund invests a majority of its net assets in bonds and other debt securities. This sub-fund will have nominal net exposure of between 80% and 120% to High Yield products via the use of CDS (Credit Default Swaps). The Investment Manager will use several types of CDS among other but not limited to MARKIT CDX.NA.HY index (for a minimum of 80% of the net assets) and the MARKIT CDX.EM Index (for up to 20% of net assets).

Further information on MARKIT CDX.NA.HY index and MARKET CDX.EM Index, who are rebalanced every 6 months, are available on the website: <http://www.markit.com/product/CDX>

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors who need a well-diversified bond allocation in their portfolio, but with a high risk profile due to the high volatility linked to the High Yield markets. Investors should have experience in volatile products and financial markets, and particularly in High Yield

markets. They should have a minimum investment horizon of 3 years and should be able to accept significant losses.

- Risk calculation: absolute VaR approach
- Leverage calculation methodology: sum of the notionals
- Expected leverage: 350%. Please note that depending on market conditions the leverage level could be higher.

20. UBAM - US SHORT TERM INFLATION LINKED BOND

Sub-fund denominated in USD which invests its net assets primarily in any kind of inflation-indexed debt instruments such as, although this list is not intended to be exhaustive, bonds, notes, similar fixed-interest or floating-rate securities (including securities issued on a discount basis) rated at least BBB- by Standard & Poor's or Baa3 by Moody's. The sub-fund may invest in financial derivative instruments for hedging and investment purposes. Derivatives may include (but are not limited to) futures, listed options on rate, rates swaps and inflation swaps.

Exposure takes place either through direct investments or indirectly through derivative financial instruments such as inflation swaps and interest rate futures.

Up to 20% of its net assets may be invested in OECD currencies other than USD.

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors who need a bond allocation in their portfolio. They should have a minimum investment horizon of 3 years and should be able to take risk and to accept losses.

- Risk calculation: absolute VaR approach
- Leverage calculation methodology: sum of the notionals
- Expected leverage: 300%. Please note that depending on market conditions the leverage level could be higher.

Feeder bond sub-funds

21. UBAM - EURO HIGH YIELD SOLUTION

Sub-fund denominated in EUR acting as feeder sub-fund of UBAM FCP EURO HIGH YIELD SOLUTION (the "Master sub-fund").

UBAM FCP EURO HIGH YIELD SOLUTION is a Fonds Commun de Placement ("FCP") constituted in France. It was established on 26th June 2014 and is authorised and regulated by the Autorité des Marchés Financiers (the "AMF") as a UCITS compliant investment vehicle.

Consequently, the sub-fund invests at least 85% of its net assets in UBAM FCP EURO HIGH YIELD SOLUTION and may additionally invest up to 15% of its net assets in one or more of the following:

- Liquid assets including cash, cash equivalent, short term bank deposits;
- Derivative financial instruments which may be used only for hedging purposes

Considering the fact that less than 100% of the net assets of the sub-fund may be invested in UBAM FCP EURO HIGH YIELD SOLUTION, the performance of the sub-fund can be slightly different than the Master sub-fund's performance.

Standard investor profile: this sub-fund is suitable for investors who need a well-diversified bond allocation in their portfolio, but with a high risk profile due to the high volatility linked to the High Yield markets. Investors should have experience in volatile products and financial markets, and particularly in High Yield markets. They should have a minimum investment horizon of 3 years and should be able to accept significant losses.

- Risk calculation: absolute VaR approach
- Leverage calculation methodology: sum of the notionals
- Expected leverage: 350%. Please note that depending on market conditions the leverage level could be higher.

This sub-fund being part of a master-feeder structure, please refer to the "[AGGREGATE CHARGES WITHIN MASTER-FEEDER STRUCTURES](#)" chapter in order to obtain complete information about aggregate fees.

Master sub-fund information / UBAM FCP EURO HIGH YIELD SOLUTION

The Master sub-fund has been authorised as a "Master UCITS" in the meaning of the relevant provisions of the Directive 2009/65/EC, as amended. As a consequence, the Master sub-fund must, to qualify as a master fund, at all times, (i) have at least one UCITS feeder among its shareholders, (ii) not become a UCITS feeder itself and (iii) not hold shares or units of a UCITS feeder.

The investment objective of the Master sub-fund is to offer exposure to the 'High Yield' asset class (speculative securities), particularly European High Yield securities for the three-year recommended investment horizon.

According to its own investment policy and restrictions, the Master sub-fund, UBAM FCP EURO HIGH YIELD SOLUTION, is authorised to invest in the following assets:

1. Assets (excluding derivatives)

- Equities: n/a.

- Bonds, debt securities and money market instruments:

The Fund is invested up to 100% of its assets in debt securities denominated in Euros from mainly sovereign and quasi-sovereign OECD issuers.

Within its investment universe, the fund manager will invest in debt securities on the basis of its own credit analysis which takes into account macroeconomic indicators, the quality of the issuers, the size of issues, the liquidity, maturity and rating of the securities as well as the default risk of the issuers. Investors are reminded that the manager does not automatically rely on credit ratings issued by a rating agency for its evaluation of the credit quality of the Fund's assets.

- Units or shares of UCITS, AIFs (Alternative Investment Fund) or foreign investment funds:

In order to achieve its management objective or to manage its cash flow, the Fund may invest up to 10% of its assets in shares of French or European UCITS of any classification, or in mutual funds which respect the four criteria set out in article R.214-13 of the French Monetary and Financial Code.

These may be managed by UBGI or other management entities.

When the Fund invests in units of a UCITS and/or an Alternative Investment Fund (AIF) managed directly or indirectly by UBI, or by a company to which it is linked through common management or control, or by a direct or indirect shareholding of more than 10% of the capital or votes, no subscription or redemption fees may be charged to the fund for the investments in these UCITS or AIFs, with the exception of the fees earned by the UCITS or AIFs.

For investments of the Fund in a UCITS or AIF linked to UBI as described above, there shall be no duplication of management fees for UBI or the UCITS or the AIF concerned. Accordingly the manager shall invest in units/shares of Group UCITS or AIFs without incurring management fees. In default of this, the assets invested in Group UCITS and/or FIAs shall be deducted from the base of management fees charged by the management company.

2. Derivative instruments

Within the limits set by the regulations the Fund may trade futures contracts (traded on French and foreign regulated markets and/or over-the-counter).

- Interest rates derivatives:

In accordance with the strategy of the fund and in order to manage the interest rate sensitivity of the portfolio, the manager may carry out operations in order to expose the fund to, or hedge against, the interest rate risk associated with bonds held in the portfolio.

The derivative instruments used for this purpose are mainly interest rate derivatives such as interest rate swaps, futures and options.

- Credit derivatives:

The manager will use futures contracts in order to expose/sensitise the fund to credit risk through the sale of protection, or on the contrary, to hedge credit exposures of the portfolio through buying protection.

The use by the manager of credit derivatives enables it particularly to manage overall credit exposure of the portfolio, the taking or hedging of individual credit risks or of a basket of issuers and the implementation of relative value strategies (namely to hedge against and/or expose the portfolio to the risk of a spread in yields on one or more issuers).

The derivative instruments used for this purpose are in particular, CDS, CDS indices, and options on indices and CDS.

Investors are reminded that High Yield CDS may present a high risk due to their speculative character.

- Markets invested in:
 - ✱ French and foreign regulated futures markets,
 - ✱ Over-the-counter markets.
- Risks to which the manager seeks exposure:
 - ✱ interest rates,
 - ✱ foreign exchange,
 - ✱ credit.
- Types of investments:
 - ✱ hedging,
 - ✱ exposure,
 - ✱ over-exposure.
- Type of instruments used:
 - ✱ options on bonds and “forwards” (including without physical delivery),
 - ✱ interest rates and currency swaps,
 - ✱ interest rates and currency futures,
 - ✱ options on swaps (« swaptions »),
 - ✱ currency options and forwards,
 - ✱ Credit Default Swaps (« CDS »)
 - ✱ CDS on indices
 - ✱ Options on CDS and CDS indices
- Usage strategies:
 - ✱ hedging interest-rate, exchange-rate and/or credit risks,
 - ✱ reconstruction of the synthetic exposure to interest-rate, exchange-rate and/or credit risks.

The global risk of the Fund on derivative instruments is calculated according to the Absolute VaR method, as set out in section VI 'Overall Risk' hereunder.

3. Securities with embedded derivatives

The strategy for use of securities with embedded derivatives is the same as that described for the use of derivative instruments.

4. Cash deposits

The Fund will not carry out deposit operations. It may hold cash including foreign currency on an ancillary basis.

5. Cash borrowings

It is not the aim of the Fund to borrow cash but it may find itself in the position of debtor owing to transactions associated with its cash flow (ongoing investments and disinvestments, subscription/redemption operations, etc.) within a limit of 10% of the net assets.

6. Sale and repurchase agreements

It is not the aim of the Fund to use these types of transactions.

Complete information about the Master sub-fund, including prospectus, KIIDs, articles of incorporation and financial reports can be obtained free of charge at the SICAV's registered office.

Prospective buyers and subscribers for the feeder sub-fund's shares are recommended to personally inquire about the possible legal or tax consequences or about any foreign exchange restrictions or regulations that they may encounter in their country of origin, residence or domicile when subscribing for, buying, holding, redeeming, converting or transferring the feeder sub-fund's shares.

Feeder convertible bond sub-funds

In principle, the overall risk for these sub-funds is calculated according to the absolute VaR methodology. The VaR limit (99%, 1 month) is set at 20%.

Additionally, considering the fact that the convertible bond sub-funds mentioned herebelow are feeder structures (please refer to their respective investment policies for additional information in this respect), their global exposure related to financial derivative instruments shall be calculated by combining their own direct exposure to such instruments with their master structures' actual exposure in proportion to the feeder's investment in the masters.

22. UBAM - EUROPE 10-40 CONVERTIBLE BOND

Sub-fund denominated in EUR acting as feeder sub-fund of UBAM CONVERTIBLES EUROPE 10-40 (the "Master sub-fund") which is a sub-fund of UBAM CONVERTIBLES.

UBAM CONVERTIBLES is a variable investment company incorporated in France. It was established on 17 September 1999 and is authorised and regulated by the Autorité des Marchés Financiers (the "AMF") as a UCITS compliant investment vehicle.

Consequently, the sub-fund invests at least 85% of its net assets in UBAM CONVERTIBLES EUROPE 10-40 and may additionally invest up to 15% of its assets in one or more of the following:

- liquid assets including cash, cash equivalents, short term bank deposits;
- derivative financial instruments which may be used only for hedging purposes.

Considering the fact that less than 100% of the net assets of the sub-fund may be invested in UBAM CONVERTIBLES EUROPE 10-40, the performance of the sub-fund can be slightly different than the Master sub-fund's performance.

Standard investor profile: this sub-fund is suitable for investors who want to take moderate risks linked to investments in listed shares. In this way, the investor should have experience in financial products, an investment horizon of at least 3 years and be able to accept losses.

- *Risk calculation: absolute VaR approach*
- *Leverage calculation methodology: sum of the notionals*
- *Expected leverage: 250%. Please note that depending on market conditions the leverage level could be higher.*

This sub-fund being part of a master-feeder structure, please refer to "[AGGREGATE CHARGES WITHIN MASTER-FEEDER STRUCTURES](#)" chapter in order to obtain complete information about aggregate fees.

Master sub-fund information / UBAM CONVERTIBLES EUROPE 10-40:

The Master sub-fund has been authorised as a "Master UCITS" in the meaning of the relevant provisions of the Directive 2009/65/EC as amended. As a consequence, the Master sub-fund must, to qualify as a master fund, at all times, (i) have at least one feeder UCITS among its shareholders, (ii) not become a feeder UCITS itself and (iii) not hold shares or units of a feeder UCITS.

The investment objective of the Master sub-fund is to enable the investor to benefit from the specific risk/return ratio of European convertible bonds. Convertible bonds have an asymmetric risk/return profile (all other things being equal, for a given variation in the underlying securities, upside participation is greater than downside participation). However, a convertible bond usually has a lower yield than a normal bond issued by the same issuer. This special risk/return ratio may be altered by the fluctuations in interest rates, credit spreads and implied volatility.

According to its own investment policy and restrictions the Master sub-fund, UBAM CONVERTIBLES EUROPE 10-40, is authorised to invest in the following assets:

1. Convertible bonds

The sub-fund invests at all times at least two thirds of its total assets in:

- convertible bonds and/or;
- exchangeable bonds and/or;
- bonds redeemable in shares and/or;
- bonds with subscription forms and/or;
- bonds indexed to shares and/or;
- French “titres participatifs” (securities without voting rights but which provide an income of which one part is guaranteed and the other variable, depending on parameters linked to the company) and/or;
- similar securities.

2. Debt securities and money market instruments and bonds

The sub-fund may also be exposed to negotiable debt instruments, bonds, whatever their maturity or the issuer's rating (based on the manager's analyses, as a driver of performance as well as for cash management.

For non-convertible bonds or similar (BMTN, EMTN, TCN), the percentage of investment in non-Investment Grade securities will be less than 20%.

3. Equities

The sub-fund will only be invested in equities which result from either a conversion or a swap and the total percentage of the equity holding may not exceed 10% of its assets.

4. Investment in shares of other UCITS and/or investment funds

In order to achieve its management objective or to manage its cash flow, the sub-fund may invest up to 10% of its assets in shares of coordinated French or European UCITS or in UCIs which respect the four criteria as defined by article R.214-13 of the Financial and Monetary Code, of any classification. They may be managed by Union Bancaire Gestion Institutionnelle (France) SAS (“UBI”) or other management entities.

When the sub-fund invests in the units of UCITS and/or other UCIs managed directly or indirectly by UBI or by a company to which it is linked through common management or common control or through a direct or indirect shareholding of more than 10% of the capital or votes, no subscription or redemption fee may be charged to the sub-fund for investment in these UCITS or other UCIs, with the exception of the commissions retained by the UCITS or other UCI.

As regards the investments made by the sub-fund in a UCITS or other UCI linked to the sub-fund as described above, there will not be any duplication of the management fees of the sub-fund and the UCITS or other UCI concerned.

For investments made by the sub-fund in a UCITS or AIF or eligible investment funds linked to UBI as described above, there will not be any duplication of the management fees invoiced by UBI and the UCITS or the AIF or any other eligible investment fund concerned. Accordingly the manager shall invest in units/shares of Group UCITS, AIFs or other eligible investment funds without incurring management fees. In default of this, the assets invested in Group UCITS and/or AIFs or other eligible investment funds shall be deducted from the base of management fees charged by the management company.

5. Securities' Markets and Stock Exchanges

You are reminded that the sub-fund may invest in any eligible financial security or money market instrument traded on a regulated market or other regulated market situated in an EU state or a state which is party to the European Economic Area agreement, or officially listed on a stock market of a third country to the European Union or European Economic Area, or traded on another market of a third country according to the conditions laid down in Article R.214-11 of the Monetary and Financial Code.

Accordingly, UBI does not exclude any stock or securities market in Europe, the Middle East, Africa, Americas, Asia, Pacific. The securities in the portfolio may therefore be issued under any law, including securities issued under the regulations known as REG S or 144A, in respect of the investment strategy of the above sub-fund.

6. Derivative instruments

The sub-fund may take positions in forward financial instruments traded on regulated markets in France and abroad, and conduct over-the-counter transactions on financial instruments, including interest-rate or currency swaps, without seeking overexposure.

In this context the manager may take positions in order to expose and/or hedge the portfolio to/against the interest rate/equities indices of the investment zone or to equities in order to pursue the management objective, take advantage of market variations and generally to manage the portfolio's exposure to the stock, bond and interest-rate markets.

These transactions will be carried out within the limit of a maximum exposure of 100% of the assets.

- Markets invested in:

- ✦ French and foreign regulated futures markets,
- ✦ Organized markets,
- ✦ over-the-counter markets.

- Risks to which the manager seeks exposure:

- ✦ interest rates,
- ✦ equities and equivalent securities,
- ✦ market indices,
- ✦ foreign exchange,
- ✦ credit.

- Instruments used for both exposure and hedging:

- ✦ interest-rate swaps,
- ✦ currency swaps,
- ✦ futures,
- ✦ options,
- ✦ Credit Default Swaps (CDS).
- ✦ CDS on indices
- ✦ Options on CDS and CDS indices

The sub-fund will not use "Total Return Swaps" (TRS)

7. Securities with embedded derivatives

The sub-fund may use securities such as convertible bonds and similar securities with embedded derivatives of the type mentioned above, up to the limit of 100% of net assets.

The strategy for use of securities including derivatives is the same as that described for the use of derivative instruments.

8. Cash Deposits

The sub-fund may make cash deposits in order to optimize its cash flow management.

9. Cash borrowings

It is not the aim of the sub-fund to borrow cash but it may find itself in the position of debtor owing to transactions linked to its cash flow (ongoing investments and disinvestments, subscription/redemption operations, etc.) within a limit of 10% of the net assets.

10. Sale and repurchase agreements

It is not the aim of the sub-fund to use these types of transactions.

Complete information about the Master sub-fund, including prospectus, KIIDs, articles of incorporation and financial reports can be obtained free of charge at the SICAV's registered office.

Prospective buyers and subscribers for the feeder sub-fund's shares are recommended to personally inquire about the possible legal or tax consequences or about any foreign exchange restrictions or

regulations that they may encounter in their country of origin, residence or domicile when subscribing for, buying, holding, redeeming, converting or transferring the feeder sub-fund's shares.

23. UBAM - GLOBAL 10-40 CONVERTIBLE BOND

Sub-fund denominated in EUR acting as feeder sub-fund of UBAM CONVERTIBLES GLOBAL 10-40 (the "Master sub-fund") which is a sub-fund of UBAM CONVERTIBLES.

UBAM CONVERTIBLES is a variable investment company incorporated in France. It was established on 17 September 1999 and is authorised and regulated by the Autorité des Marchés Financiers (the "AMF") as a UCITS compliant investment vehicle.

Consequently, the sub-fund invests at least 85% of its net assets in UBAM CONVERTIBLES GLOBAL 10-40 and may additionally invest up to 15% of its assets in one or more of the following:

- liquid assets including cash, cash equivalents, short term bank deposits;
- derivative financial instruments which may be used only for hedging purposes.

Considering the fact that less than 100% of the net assets of the sub-fund may be invested in UBAM CONVERTIBLES GLOBAL 10-40, the performance of the sub-fund can be slightly different than the Master sub-fund's performance.

Standard investor profile: this sub-fund is suitable for investors who want to take measurable risks linked to investments in listed shares. In this way, the investor should have experience in financial products, an investment horizon of at least 3 years and be able to accept losses.

- *Risk calculation: absolute VaR approach*
- *Leverage calculation methodology: sum of the notionals*
- *Expected leverage: 250%. Please note that depending on market conditions the leverage level could be higher.*

This sub-fund being part of a master-feeder structure, please refer to the "[AGGREGATE CHARGES WITHIN MASTER-FEEDER STRUCTURES](#)" chapter in order to obtain complete information about aggregate fees.

Master sub-fund information / UBAM CONVERTIBLES GLOBAL 10-40:

The Master sub-fund has been authorised as a "Master UCITS" in the meaning of the relevant provisions of the Directive 2009/65/EC as amended. As a consequence, the Master sub-fund must, to qualify as a master fund, at all times, (i) have at least one feeder UCITS among its shareholders, (ii) not become a feeder UCITS itself and (iii) not hold shares or units of a feeder UCITS.

The investment objective of the Master sub-fund is to enable the investor to benefit from the specific risk/return ratio of international convertible bonds. Convertible bonds have an asymmetric risk/return profile (all other things being equal, for a given variation in the underlying securities, upside participation is greater than downside participation). However, a convertible bond usually has a lower yield than a normal bond issued by the same issuer. This special risk/return ratio may be altered by the fluctuations in interest rates, credit spreads and implied volatility.

According to its own investment policy and restrictions the Master sub-fund, UBAM CONVERTIBLES GLOBAL 10-40, is authorised to invest in the following assets:

1. Convertible bonds

The sub-fund invests at all times at least two thirds of its total assets in:

- convertible bonds and/or;
- exchangeable bonds and/or;
- bonds redeemable in shares and/or;
- bonds with subscription forms and/or;
- bonds indexed to shares and/or;
- mandatory convertibles and/or;
- preferred shares and/or;

- French “titres participatifs” (securities without voting rights but which provide an income of which one part is guaranteed and the other variable, depending on parameters linked to the company) and/or;

or similar securities, from all geographical regions, of any investment rating or non-rated, according to the manager’s analyses, including emerging countries, up to a maximum of 50% of the sub-fund’s assets. Therefore the sub-fund may be exposed to High Yield securities also called speculative. In addition and notwithstanding the above, the sub-fund may invest in all securities which are included in the reference index.

2. Debt securities and money market instruments and bonds

The sub-fund may also be exposed to negotiable debt instruments, bonds, whatever their maturity or the issuer’s rating (based on the manager’s analyses) as a driver of performance as well as for cash management.

Non-convertible bonds or similar (BMTN, EMTN, TCN), non-Investment Grade securities will represent not more than 20% of the sub-fund’s assets..

3. Equities

Apart from preferred share, the sub-fund may invest up to 10% of its assets in equities, whatever their market capitalisation or geographical area. These equities may result from either a conversion or a swap.

4. Investment in shares of other UCITS and/or investment funds

In order to achieve its management objective or to manage its cash flow, the sub-fund may invest up to 10% of its assets in shares of coordinated French or European UCITS or in UCIs which respect the four criteria as defined by article R.214-13 of the Financial and Monetary Code, of any classification. They may be managed by Union Bancaire Gestion Institutionnelle (France) SAS (“UBI”) or other management entities.

When the sub-fund invests in the units of UCITS and/or other UCIs managed directly or indirectly by UBI or by a company to which it is linked through common management or common control or through a direct or indirect shareholding of more than 10% of the capital or votes, no subscription or redemption fee may be charged to the sub-fund for investment in these UCITS or other UCIs, with the exception of the commissions retained by the UCITS or other UCI.

For investments made by the sub-fund in a UCITS or AIF or eligible investment funds linked to UBI as described above, there will not be any duplication of the management fees invoiced by UBI and the UCITS or the AIF or any other eligible investment fund concerned. Accordingly the manager shall invest in units/shares of Group UCITS, AIFs or other eligible investment funds without incurring management fees. In default of this, the assets invested in Group UCITS and/or AIFs or other eligible investment funds shall be deducted from the base of management fees charged by the management company.

5. Securities’ Markets and Stock Exchanges

You are reminded that the sub-fund may invest in any eligible financial security or money market instrument traded on a regulated market or other regulated market situated in an EU state or a state which is party to the European Economic Area agreement, or officially listed on a stock market of a third country to the European Union or European Economic Area, or traded on another market of a third country according to the conditions laid down in Article R.214-11 of the Monetary and Financial Code.

Accordingly, the management company, UBI, does not exclude any stock or securities market in Europe, the Middle East, Africa, Americas, Asia, Pacific. The securities in the portfolio may therefore be issued under any law, including securities issued under the regulations known as REG S or 144A, in respect of the investment strategy of the above sub-fund.

6. Derivative instruments

The sub-fund may take positions in forward financial instruments traded on regulated markets in France and abroad, and conduct over-the-counter transactions on financial instruments, including interest-rate or currency swaps, without seeking overexposure.

In this context the manager may take positions in order to expose and/or hedge the portfolio to/against the interest rate/equities indices of the investment zone or to equities in order to pursue the management objective, take advantage of market variations and generally to manage the portfolio's exposure to the stock, bond and interest-rate markets.

These transactions will be carried out within the limit of a maximum exposure of 100% of the assets.

- Markets invested in:
 - ✦ French and foreign regulated futures markets,
 - ✦ Organized markets
 - ✦ over-the-counter markets.
- Risks to which the manager seeks exposure:
 - ✦ interest rates,
 - ✦ equities and equivalent securities,
 - ✦ market indices,
 - ✦ foreign exchange,
 - ✦ credit.
- Instruments used for both exposure and hedging:
 - ✦ interest-rate swaps,
 - ✦ currency swaps,
 - ✦ futures,
 - ✦ options,
 - ✦ Credit Default Swaps (CDS)
 - ✦ CDS on indices
 - ✦ Options on CDS and CDS indices

The sub-fund will not use "Total Return Swaps" (TRS)

7. Securities with embedded derivatives

The sub-fund may use securities such as convertible bonds and similar securities with embedded derivatives of the type mentioned above, up to the limit of 100% of net assets.

The strategy for use of securities including derivatives is the same as that described for the use of derivative instruments.

8. Cash Deposits

The sub-fund may make cash deposits in order to optimize its cash flow management.

9. Cash borrowings

It is not the aim of the sub-fund to borrow cash but it may find itself in the position of debtor owing to transactions linked to its cash flow (ongoing investments and disinvestments, subscription/redemption operations, etc.) within a limit of 10% of the net assets.

10. Sale and repurchase agreements

It is not the aim of the sub-fund to use these types of transactions.

Complete information about the Master sub-fund, including prospectus, KIIDs, articles of incorporation and financial reports can be obtained free of charge at the SICAV's registered office.

Prospective buyers and subscribers for the feeder sub-fund's shares are recommended to personally inquire about the possible legal or tax consequences or about any foreign exchange restrictions or regulations that they may encounter in their country of origin, residence or domicile when subscribing for, buying, holding, redeeming, converting or transferring the feeder sub-fund's shares.

24. UBAM - GLOBAL CONVERTIBLE BOND

Sub-fund denominated in EUR acting as feeder sub-fund of UBAM CONVERTIBLES GLOBAL (the "Master sub-fund") which is a sub-fund of UBAM CONVERTIBLES.

UBAM CONVERTIBLES is a variable investment company incorporated in France. It was established on 17 September 1999 and is authorised and regulated by the Autorité des Marchés Financiers (the "AMF") as a UCITS compliant investment vehicle.

Consequently, the sub-fund invests at least 85% of its net assets in UBAM CONVERTIBLES GLOBAL and may additionally invest up to 15% of its assets in one or more of the following:

- liquid assets including cash, cash equivalents, short term bank deposits;
- derivative financial instruments which may be used only for hedging purposes.

Considering the fact that less than 100% of the net assets of the sub-fund may be invested in UBAM CONVERTIBLES GLOBAL, the performance of the sub-fund can be slightly different than the Master sub-fund's performance.

Standard investor profile: this sub-fund is suitable for investors who want to take moderate risks linked to investments in listed shares. In this way, the investor should have experience in financial products, an investment horizon of at least 3 years and be able to accept losses.

- Risk calculation: absolute VaR approach
- Leverage calculation methodology: sum of the notionals
- Expected leverage: 250%. Please note that depending on market conditions the leverage level could be higher.

This sub-fund being part of a master-feeder structure, please refer to "[AGGREGATE CHARGES WITHIN MASTER-FEEDER STRUCTURES](#)" chapter in order to obtain complete information about aggregate fees.

Master sub-fund information / UBAM CONVERTIBLES GLOBAL:

The Master sub-fund has been authorised as a "Master UCITS" in the meaning of the relevant provisions of the Directive 2009/65/EC, as amended. As a consequence, the Master sub-fund must, to qualify as a master fund, at all times, (i) have at least one UCITS feeder among its shareholders, (ii) not become a UCITS feeder itself and (iii) not hold shares or units of a UCITS feeder.

The management objective of the Master sub-fund is to enable the investor to benefit from the specific risk/return ratio of international convertible bonds. Convertible bonds have an asymmetric risk/return profile (all other things being equal, for a given variation in the underlying securities, upside participation is greater than downside participation). However, a convertible bond usually has a lower yield than a normal bond issued by the same issuer. This specific risk/return ratio may be altered by the fluctuations in interest rates, credit spreads and implied volatility.

According to its own investment policy and restrictions the Master sub-fund, UBAM CONVERTIBLES GLOBAL, is authorised to invest in the following assets:

1. Convertible bonds

The sub-fund invests at all times at least two thirds of its total assets in:

- convertible bonds and/or;
- exchangeable bonds and/or;
- bonds redeemable in shares and/or;
- bonds with subscription forms and/or;
- bonds indexed to shares and/or;
- mandatory convertibles and/or;
- preferred shares and/or;
- French "titres participatifs" (securities without voting rights but which provide an income of which one part is guaranteed and the other variable depending on parameters linked to the company) and/or;

similar securities, of any investment rating or non-rated, according to the manager's analyses, and from any geographical region including emerging countries, up to a maximum of 50% of the sub-fund's assets. Therefore the sub-fund may be exposed to High Yield securities also called speculative. In addition and notwithstanding the above, the sub-fund may invest in all securities which are included in the reference index.

2. Debt securities and money market instruments and bonds

The sub-fund may also be exposed to negotiable debt instruments and bonds), whatever their maturity or the issuer's rating (based on the manager's analyses) as driver of performance as well as for cash management.

3. Equities

Apart from preferred shares, the sub-fund may invest up to 10% of its assets in equities, whatever their market capitalisation or geographical area. These equities may result from either a conversion or a swap.

4. Investment in shares of other UCITS and/or investment funds

In order to achieve its management objective or to manage its cash flow, the sub-fund may invest up to 10% of its assets in shares of coordinated French or European UCITS or in UCIs which respect the four criteria as defined by article R.214-13 of the Financial and Monetary Code, of any classification. They may be managed by Union Bancaire Gestion Institutionnelle (France) SAS ("UBI") or other management entities.

When the sub-fund invests in the units of UCITS and/or other UCIs managed directly or indirectly by UBI or by a company to which it is linked through common management or common control or through a direct or indirect shareholding of more than 10% of the capital or votes, no subscription or redemption fee may be charged to the sub-fund for investment in these UCITS or other UCIs, with the exception of the commissions retained by the UCITS or other UCIs.

As regards the investments made by the sub-fund in a UCITS or other UCI linked to the sub-fund as described above, there will not be any duplication of the management fees of the sub-fund and the UCITS or other UCI concerned.

For investments made by the sub-fund in a UCITS or AIF or eligible investment funds linked to UBI as described above, there will not be any duplication of the management fees invoiced by UBI and the UCITS or the AIF or any other eligible investment fund concerned. Accordingly the manager shall invest in units/shares of Group UCITS, AIFs or other eligible investment funds without incurring management fees. In default of this, the assets invested in Group UCITS and/or AIFs or other eligible investment funds shall be deducted from the base of management fees charged by the management company.

5. Securities' Markets and Stock Exchanges

You are reminded that the sub-fund may invest in any eligible financial security or money market instrument traded on a regulated market or other regulated market situated in an EU state or a state which is party to the European Economic Area agreement, or officially listed on a stock market of a third country to the European Union or European Economic Area, or traded on another market of a third country according to the conditions laid down in Article R.214-11 of the Monetary and Financial Code.

Accordingly, UBI does not exclude any stock or securities market in Europe, the Middle East, Africa, Americas, Asia, Pacific. The securities in the portfolio may therefore be issued under any law, including securities issued under the regulations known as REG S or 144A, in respect of the investment strategy of the above sub-fund.

6. Derivative instruments

The sub-fund may take positions in forward financial instruments traded on regulated markets in France and abroad, and conduct over-the-counter transactions on financial instruments, including interest-rate or currency swaps, without seeking overexposure.

In this context the manager may take positions in order to expose and/or hedge the portfolio on the equity market indices or interest rate derivative instruments of the investment zone or to the underlying securities in order to pursue the management objective, take advantage of market variations and generally to manage the portfolio's exposure to equity, bond and interest-rate markets. These transactions will be carried out within the limit of a maximum exposure of 100% of the assets.

- Markets invested in:
 - ✦ French and foreign regulated futures and options markets,
 - ✦ Organized markets,
 - ✦ Over-the-counter markets.
- Risks to which the manager seeks exposure:
 - ✦ interest rates,
 - ✦ equities and equivalent securities,
 - ✦ market indices, foreign exchange,
 - ✦ credit.
- Instruments used for both exposure and hedging:
 - ✦ interest-rate swaps,
 - ✦ currency swaps,
 - ✦ futures,
 - ✦ options,
 - ✦ Credit Default Swaps (CDS)
 - ✦ CDS on indices
 - ✦ Options on CDS and CDS indices

The sub-fund will not use "Total Return Swaps" (TRS)

7. Securities with embedded derivatives (up to 100% of net assets)

The sub-fund may use securities such as convertible bonds and similar securities with embedded derivatives of the type mentioned above, up to the limit of 100% of net assets.

The strategy for use of securities with embedded derivatives is the same as that described for the use of derivative instruments.

8. Cash deposits

The sub-fund may make cash deposits in order to optimize its cash flow management.

9. Cash borrowings

It is not the aim of the sub-fund to borrow cash but it may find itself in the position of debtor owing to transactions linked to its cash flow (ongoing investments and disinvestments, subscription/redemption operations, etc.) within a limit of 10% of the net assets.

10. Sale and repurchase agreements

It is not the aim of the sub-fund to use these types of transactions

Complete information about the Master sub-fund, including prospectus, KIIDs, articles of incorporation and financial reports can be obtained free of charge at the SICAV's registered office.

Prospective buyers and subscribers for the feeder sub-fund's shares are recommended to personally inquire about the possible legal or tax consequences or about any foreign exchange restrictions or regulations that they may encounter in their country of origin, residence or domicile when subscribing for, buying, holding, redeeming, converting or transferring the feeder sub-fund's shares.

25. UBAM - SRI EUROPEAN CONVERTIBLE BOND

Sub-fund denominated in EUR acting as feeder sub-fund of CONVERTIBLES EUROPE RESPONSABLE (the "Master sub-fund") taking into account environmental or socially responsible criteria.

CONVERTIBLES EUROPE RESPONSABLE is a Fonds Commun de Placement ("FCP") constituted in France. It was established on 28th September 2012 and is authorised and regulated by the Autorité des Marchés Financiers (the "AMF") as a UCITS compliant investment vehicle.

Consequently, the sub-fund invests at least 85% of its net assets in CONVERTIBLES EUROPE RESPONSABLE and may additionally invest up to 15% of its assets in one or more of the following:

- liquid assets including cash, cash equivalents, short term bank deposits;
- derivative financial instruments which may be used only for hedging purposes.

Considering the fact that less than 100% of the net assets of the sub-fund may be invested in CONVERTIBLE EUROPE RESPONSABLE, the performance of the sub-fund can be slightly different than the Master sub-fund's performance.

Standard investor profile: this sub-fund is suitable for investors who want to take measurable risks linked to investments in listed shares. In this way, the investor should have experience in financial products, an investment horizon of at least 3 years and be able to accept losses.

- Risk calculation: absolute VaR approach
- Leverage calculation methodology: sum of the notionals
- Expected leverage: 250%. Please note that depending on market conditions the leverage level could be higher.

This sub-fund being part of a master-feeder structure, please refer to the "[AGGREGATE CHARGES WITHIN MASTER-FEEDER STRUCTURES](#)" chapter in order to obtain complete information about aggregate fees.

Master sub-fund information / CONVERTIBLES EUROPE RESPONSABLE:

The Master sub-fund has been authorised as a "Master UCITS" in the meaning of the relevant provisions of the Directive 2009/65/EC as amended. As a consequence, the Master sub-fund must, to qualify as a master fund, at all times, (i) have at least one UCITS feeder among its shareholders, (ii) not become a UCITS feeder itself and (iii) not hold shares or units of a UCITS feeder.

The management objective is to enable the investor to benefit from the specific risk/return ratio of convertible bonds from the eurozone meeting environmental or socially responsible criteria.

The convertible bonds have an asymmetric risk/return profile: all things being equal, for a given change in the underlying shares, upside participation is greater than downside participation. A convertible bond usually has a lower yield than a normal bond issued by the same issuer. However, a decline in the price of the underlying share will result in the value of the convertible bond decreasing to a lesser extent.

The Master sub-fund will therefore benefit more from increases in European equity markets than it will suffer from declines, all things being equal. This special risk/return ratio may be altered by fluctuations in interest rates, credit spreads and implied volatility. Besides this asymmetric behaviour of convertibles, the aim is also to benefit from a portfolio with an average SRI rating higher than its benchmark as assessed by La Banque Postale Asset Management.

According to its own investment policy and restrictions the Master sub-fund, CONVERTIBLES EUROPE RESPONSABLE, is authorized to invest in the following assets:

1. Convertible bonds

The fund invests at all times at least two thirds of its total assets in:

- convertible bonds and/or;
- exchangeable bonds and/or;
- bonds redeemable in shares and/or;
- bonds with subscription warrants and/or;
- bonds indexed on shares and/or;
- participating securities and/or;
- equivalent securities.

2. Debt securities and money market instruments and bonds

The fund may also be exposed to negotiable debt securities, borrowings, whatever their maturity or the issuer's rating (private or public), up to a maximum of 33% of its assets both as a performance driver and for cash management.

3. Equities

The fund may invest up to 10% of its assets in European equity market capitalisation of all sizes; these shares can only be the result of the conversion or exchange of a convertible bond or equivalent security. Their presence in the portfolio may not exceed one month.

4. Investment in securities in other UCITS and/or investment funds

In order to achieve its management objective or to manage its cash flow, the fund may invest up to 10% of its assets in shares of coordinated French or European UCITS securities, or in UCIs of any classification meeting the four criteria set forth in Article R. 214-13 of the French Monetary and Financial Code (Code monétaire et financier). They may be managed by Union Bancaire Gestion Institutionnelle (France) SAS ("UBI") or other management entities.

For investments made by the sub-fund in a UCITS or AIF or eligible investment funds linked to UBI as described above, there will not be any duplication of the management fees invoiced by UBI and the UCITS or the AIF or any other eligible investment fund concerned. Accordingly the manager shall invest in units/shares of Group UCITS, AIFs or other eligible investment funds without incurring management fees. In default of this, the assets invested in Group UCITS and/or AIFs or other eligible investment funds shall be deducted from the base of management fees charged by the management company.

5. Securities' Markets and Stock Exchanges

You are reminded that the fund may invest in any eligible financial security or money market instrument traded on a regulated market or other regulated market situated in an EU state or a state which is party to the European Economic Area agreement, or officially listed on a stock market of a third country to the European Union or European Economic Area, or traded on another market of a third country according to the conditions laid down in Article R.214-11 of the Monetary and Financial Code.

Accordingly, UBI does not exclude any stock or securities market in Europe, the Middle East, Africa, Americas, Asia, Pacific. The securities in the portfolio may therefore be issued under any law, including securities issued under the regulations known as REG S or 144A, in respect of the investment strategy of the above sub-fund.

6. Derivative instruments

The fund may take positions in forward financial instruments traded on regulated markets in France and abroad, and conduct over-the-counter transactions on financial instruments, including interest-rate or currency swaps, without seeking overexposure.

In this context, the manager may take positions in order to expose and/or hedge the portfolio to/against the indices of the investment zone or the underlying securities in order to pursue the management objective, take advantage of market variations and generally to manage the portfolio's exposure to the equity, bond and interest-rate markets (see investment process above).

These transactions will be limited to a maximum exposure of 100% of the assets.

- Markets invested in:

- ✎ French and foreign regulated futures markets
- ✎ Organized markets
- ✎ Over-the-counter markets.

- Risks to which the manager seeks exposure:

- ✎ interest rates
- ✎ equities and equivalent securities
- ✎ market indices
- ✎ foreign exchange
- ✎ credit.

- Instruments used for both exposure and hedging:

- ✎ interest-rate swaps
- ✎ currency swaps
- ✎ forward foreign exchange contracts

- ↳ futures
- ↳ options
- ↳ Credit Default Swaps.

The sub-fund will not use “Total Return Swaps” (TRS)

7. Securities with embedded derivatives (up to 100% of net assets)

The fund may use securities with embedded derivatives up to a limit of 100% of the net assets.

The strategy of using securities with embedded derivatives is the same as that described for the use of derivative instruments.

8. Cash Deposits

The fund may make cash deposits in order to optimise its cash management.

9. Cash borrowings

It is not the aim of the fund to borrow cash, but it may find itself in a debtor liability position owing to transactions linked to its cash flow (ongoing investments and divestments, subscription/redemption transactions, etc.), within a limit of 10% of the net assets.

10. Sale and repurchase agreements

The fund does not engage in this type of transaction.

Complete information about the Master sub-fund, including prospectus, KIIDs, articles of incorporation and financial reports can be obtained free of charge at the SICAV's registered office.

Prospective buyers and subscribers for the feeder sub-fund's shares are recommended to personally inquire about the possible legal or tax consequences or about any foreign exchange restrictions or regulations that they may encounter in their country of origin, residence or domicile when subscribing for, buying, holding, redeeming, converting or transferring the feeder sub-fund's shares.

Equity sub-funds

Equity sub-funds may invest in transferable securities from emerging countries, while complying with the investment policies and restrictions as set out hereafter.

In principle, the overall risk for these sub-funds is calculated according to the commitment methodology unless otherwise provided in the sub-fund's investment policy.

26. UBAM - 30 GLOBAL LEADERS EQUITY

This sub-fund invests its net assets primarily in equities and other similar transferable securities, in addition to, on an ancillary basis, warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, bonds and other debt securities, money market instruments, issued by companies worldwide (including emerging countries).

This sub-fund is selecting stocks world-wide, primarily companies which are expected to provide growth and leading (i.e. sustainably high quality) levels of cash flow return on investment (CFROI) that are higher than the Cost of Capital (CoC) and which grow their asset base while maintaining this spread. The investment strategy is focused on the sustainability of such return and growth profiles, and hence shall be long-term oriented with little need for turnover. Consequently, the sub-fund will be constituted as a high-quality, large market capitalization equity portfolio invested in around 30 global leading companies (“leading” implies e.g. having a leadership position due to the market share, innovation capabilities, brand recognition or superior management talents) combining superior returns and growth opportunities characteristics over the next 3-5 years.

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should

consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- *Risk calculation: commitment approach*

27. UBAM - ADAMS US SMALL CAP EQUITY

This sub-fund invests its net assets primarily in equities and other similar transferable securities, in addition to, on an ancillary basis, warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, bonds and other debt securities, money market instruments, issued primarily by companies having their registered office in the United States of America.

This sub-fund is focused primarily on small capitalization securities included in the Russell 2000 Index. The portfolio of the sub-fund will mainly include equities part of the Russell 2000 Index. However on an ancillary basis the Manager is also authorized to invest into equities outside of the Russell 2000 Index. The minimum and maximum market capitalisation of the target equities will be those of the Russell 2000 Index. The Investors clearly understand that the Manager will follow its own investment style - taking into account the advisor's recommendations - in regards to the management of this sub-fund which may include significant variance from Index characteristics, including, among other things, diversification by sector or sub-sector, industry or security concentration.

The capitalisation size of the companies selected as part of the sub-fund's portfolio will set at a minimum of USD 100 million.

The Manager will focus on companies he considers to present a favorable investment opportunity. Factors such as valuation, earnings quality, and momentum are carefully considered. The companies in which this sub-fund primarily invests will be selected using a disciplined investment process that combines a systematic evaluation tool and fundamental analysis. The focus of the team is to add value from stock selection.

The net asset value is expressed in USD.

The sub-fund's name only refers to the name of Adams insofar as Adams Funds Advisers is the sub-fund's Manager. Adams Funds Advisers is neither the sub-fund's co-promoter nor its distributor. Adams Funds Advisers is headquartered at 500 East Pratt Street, Suite 1300 Baltimore, MD 21202, United States of America. Adams Funds Advisers is paid by the Management Company as agreed upon by these two parties.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- *Risk calculation: commitment approach*

28. UBAM - AJO US EQUITY VALUE

This sub-fund invests its net assets primarily in equities and other similar transferable securities, in addition to, on an ancillary basis, warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, bonds and other debt securities, money market instruments, issued primarily by companies (i) having their registered office, or (ii) carrying on a major part of their commercial activity, or (iii) as holding companies owning predominant interests in companies with their registered office in the United States of America.

This sub-fund is focused primarily on companies which the Manager considers to be undervalued on the market compared with their long-term potential. The sub-fund will invest primarily in securities of companies which the Manager considers to be undervalued, notably on account of a market downturn, unfavourable economic conditions, developments that have affected or may affect the securities issuer or its industry, or due to limited market coverage. In general, these securities benefit from low stock price/book value, stock price/revenues and/or stock price/profits coefficients.

The net asset value is expressed in USD.

The sub-fund's name only refers to the name of AJO insofar as AJO LP is the sub-fund's Manager. AJO LP is neither the sub-fund's co-promoter nor its distributor. AJO LP is headquartered at 230 South Broad Street, 20th Floor, Philadelphia, PA 19102, United States of America. AJO LP is paid by the Management Company as agreed upon by these two parties.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- Risk calculation: commitment approach

29. UBAM - ANGEL JAPAN SMALL CAP EQUITY

This sub-fund invests its net assets primarily in equities and other similar transferable securities, in addition to, on an ancillary basis, warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, bonds and other debt securities, money market instruments, issued primarily by companies (i) having their registered office, or (ii) carrying on a major part of their commercial activity, or (iii) as holding companies owning predominant interests in companies with their registered office in Japan.

The sub-fund's management objective is to maximise capital gains over the medium term. To achieve this objective, the sub-fund will adopt an active and selective policy to pick the stocks of Japanese companies notably likely to comply with the following criteria:

- Equities that are undervalued due to a significant drop in their share price due to market factors (e.g. lack of liquidity, major profit-taking, sales momentum, temporary fall in profits), whereas their fundamental qualities remain unchanged and/or their profits offer the potential for a quick recovery ("fallen angels", small and mid-caps, etc.).
- Accelerated restructuring of certain key sectors (e.g. retail, pharmaceutical industry) brought about by the reform of the Japanese law governing commercial companies, facilitating mergers and acquisitions by foreign companies, as well as business combinations between Japanese firms.

The minimum market capitalisation of selected companies will be JPY 10 billion.

The net asset value is expressed in JPY.

The sub-fund's name only refers to the name of Angel Japan Asset Management Co., Ltd insofar as it is the sub-fund's Investment Adviser. Angel Japan Asset Management Co., Ltd is neither the sub-fund's co-promoter nor its distributor. Angel Japan Asset Management Co., Ltd is headquartered at 1-8-1, Marunouchi, Chiyoda-ku, Tokyo is paid by the Management Company as agreed upon by these two parties.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- Risk calculation: commitment approach

30. UBAM - ASIA EQUITY

This sub-fund invests its net assets primarily in equities and other similar transferable securities, such as, although this list is not intended to be exhaustive, warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, issued primarily by companies (i) having their registered office, or (ii) carrying on a major part of their commercial activity, or (iii) as holding companies owning predominant interests in companies having their registered office, or (iv) listed on qualified exchanges of Regulated Markets or (v) primarily operate or (vi) have a majority of their income, profits, assets, production activities or other commercial interests, in South Pacific or Asian countries, including

Australia and New Zealand, but excluding Japan. Furthermore, this sub-fund may invest, on an ancillary basis, in bonds, other debt securities and money market instruments.

For investments in China, the sub-fund may invest up to 25% of its net assets in China A-Shares through the Shanghai-Hong Kong Stock Connect (the "Stock-connect"). Please refer to the Shanghai-Hong Kong Stock Connect definition and related risks in the "[RISK FACTORS](#)" chapter of this prospectus.

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- Risk calculation: commitment approach

31. UBAM - BEST SELECTION ASIA EQUITY

This sub-fund invests primarily in equities and other similar transferable securities, such as, although this list is not intended to be exhaustive, warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities issued by companies (i) having their registered office or (ii) carrying on a major part of their commercial activity, or (iii) as holding companies owning predominant interests in companies having their registered office, or (iv) listed on qualified exchanges of Regulated Markets or (v) primarily operate or (vi) have a majority of their income, profits, assets, production activities or other commercial interests, in Asia. Furthermore, this sub-fund may invest, on an ancillary basis, in bonds, other debt securities and money market instruments.

For investments in China, the sub-fund may invest up to 25% of its net assets in China A-Shares through the Shanghai-Hong Kong Stock Connect (the "Stock-connect"). Please refer to the Shanghai-Hong Kong Stock Connect definition and related risk in the "[RISK FACTORS](#)" chapter of this prospectus.

The sub-fund is focused primarily on securities of the most attractive companies in term of potential capital gains and/or offering attractive dividend yield. The sub-fund will be mainly constituted by large market capitalization equity and will be relatively concentrated (typically containing 30-60 names)

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- Risk calculation: commitment approach

32. UBAM - BEST SELECTION EURO EQUITY

This sub-fund invests primarily in equities and other similar transferable securities, such as, although this list is not intended to be exhaustive, warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities issued by companies (i) having their registered office or (ii) carrying on a major part of their commercial activity, or (iii) as holding companies owning predominant interests in companies having their registered office, or (iv) listed on qualified exchanges of Regulated Markets or (v) primarily operate or (vi) have a majority of their income, profits, assets, production activities or other commercial interests, in the Eurozone. Furthermore, this sub-fund may invest, on an ancillary basis, in bonds, other debt securities and money market instruments.

This sub-fund may invest in large, medium and small capitalisation. The minimum market capitalisation will be EUR 100'000'000.

The net asset value is expressed in EUR.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- Risk calculation: commitment approach

33. UBAM - DR. EHRHARDT GERMAN EQUITY

This sub-fund invests its net assets primarily in equities and other similar transferable securities, in addition to, on an ancillary basis, warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, bonds and other debt securities, money market instruments, issued primarily by companies (i) having their registered office, or (ii) carrying on a major part of their commercial activity, or (iii) as holding companies owning predominant interests in companies with their registered office in Germany.

The net asset value is expressed in EUR.

The sub-fund's name only refers to the name of Dr. Jens Ehrhardt insofar as DJEKapital AG, 9, Georg-Kalb Strasse, D-82049 Pullach, Germany is the sub-fund's Manager. DJEKapital AG is neither the sub-fund's co-promoters nor its distributors. DJE Kapital AG is paid by the Management Company as agreed upon by these two parties.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- Risk calculation: commitment approach

34. UBAM - EURO EQUITY INCOME

This sub-fund invests at least 75% of its net assets in equities issued by companies having their registered office in the European Union and/or in the European Economic Area (excluding Liechtenstein) and, up to 25%, in warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, bonds and other debt securities and money market instruments.

The sub-fund strategy is based primarily on a selection of stocks chosen to provide a dividend yield greater than that of the MSCI EMU Index net dividends reinvested, over the investment period described below (Standard investor profile). The stocks shall be analysed by the Investment Manager on the basis of their fundamental characteristics in order to assess the continuity of attractive dividend yields over time. The characteristics may be very varied (such as the positioning of the business compared to its competitors, the particularities of its services, its financial solidity, its management quality, its capacity to generate regular revenues etc.). The positions held shall be in companies from all sectors and of any market capitalization, whose objective is to deliver an income to their shareholders which is both regular in the form of dividends and significant in comparison to their market capitalization. However, small capitalization companies are limited to 10% of the sub-fund's net assets.

The net asset value is expressed in EUR.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- Risk calculation: commitment approach

35. UBAM - EURO EQUITY SHORT OVERLAY

This sub-fund invests mainly in a discretionary and proprietary overlay strategy consisting of:

- a long equity position (via listed equity futures);
- a protection against equity market downfall by implementing two different types of protection:
 - ↳ A first protection aiming at protecting in case of standard/not extreme market corrections, via short equity positions. It uses derivative instruments comprising, amongst others options and listed futures mainly on Euro equity indices.
 - ↳ A second protection aiming at reducing the impact of extreme market corrections via a dynamic long exposure to volatility via futures and/or options. In case of extreme events, volatility tends to rise sharply and being exposed to volatility enables to profit from those volatility spikes.

If the Investment Manager is not over/underweighting equity (i.e. if the Investment Manager has a neutral market view), the sub-fund is expected to have a net short equity position of 50% (net -50%):

- Long 100% equity
- Short 150% equity (sum of the two protections)

The available cash (cash not spent for to the use of derivatives including margin call) will be invested primarily in any kind of government bonds or money market instruments including cash ETFs.

The net asset value is expressed in EUR.

Standard investor profile: this sub-fund is suitable for investors willing to protect against Euro equity market downfall. Therefore, investors should have experience in volatile products and should be able to accept losses. Investors should consider a long-term investment horizon of at least 3 years in order to overcome potentially unfavourable market trends.

- Risk calculation: absolute VaR approach
- Leverage calculation methodology: sum of the notionals
- Expected leverage: 400%. Please note that depending on market conditions the leverage level could be higher.

36. UBAM - EUROPE EQUITY

This sub-fund invests its net assets in equities, issued, for at least 75% of the net assets, by companies having their registered office, in the European Union and/or in the European Economic Area (excluding Liechtenstein) and, on an ancillary basis, up to 25%, in warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, bonds and other debt securities and money market instruments.

The net asset value is expressed in EUR.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- Risk calculation: commitment approach

37. UBAM - EUROPE EQUITY DIVIDEND+

This sub-fund invests its net assets in equities issued, for at least 75% of the net assets, by companies having their registered office in the European Union and/or in the European Economic Area (excluding Liechtenstein) and, on an ancillary basis, up to 25%, in warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, bonds and other debt securities and money market instruments.

This sub-fund focuses primarily on companies offering an attractive dividend return.

In addition, the sub-fund will use derivative instruments, including stock options and stock index options, (i.e. covered calls strategy or puts selling) for effective management as well as for hedging purposes.

The use of these derivative instruments will aim to increase distributable income and reduce portfolio volatility of the sub-fund.

The net asset value is expressed in EUR.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- Risk calculation: absolute VaR approach
- Leverage calculation methodology: sum of the notionals
- Expected leverage: 250%. Please note that depending on market conditions the leverage level could be higher.

38. UBAM - EUROPE EQUITY FLEX

This sub-fund invests its net assets in:

- Equities issued, for at least 75% of the net assets, by companies having their registered office in the European Union and/or in the European Economic Area (excluding Liechtenstein) and, on an ancillary basis, up to 25%, in warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, bonds and other debt securities and money market instruments.
- A discretionary proprietary overlay strategy intended to provide to investors a better risk adjusted return with lower volatility and reduced drawdown. This strategy will be implemented using derivatives instruments comprising, amongst others, options and futures essentially on European and US equities indices, or related volatility equities indices.

The net asset value is expressed in EUR.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- Risk calculation: commitment approach

39. UBAM - EUROPE SMALL CAP EQUITY

This sub-fund invests at least 75% of its net assets in equities issued by companies having their registered office in the European Union and/or in the European Economic Area (excluding Liechtenstein) and, up to 25%, in warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, bonds and other debt securities and money market instruments..

This sub-fund is primarily selecting stocks of companies which constitute the bottom third in terms of the market capitalisation of all publicly listed equity in the above-mentioned area. The minimum market capitalisation will be EUR 100'000'000.

The fund generally seeks to invest in companies which are exposed to a positive internal (corporate strategy, management initiatives etc) and external (end market exposure) dynamic and hence there is a preference for companies which are exposed to long term secular growth trends which should be well placed to weather shorter term cyclical fluctuations resulting from the broader macroeconomic environment. The manager identifies secular trends or themes and assesses the macroeconomic environment. The fund's exposure to particular themes is monitored on an ongoing basis as part of the thematic overlay as well as the exposure to 'sustainable return' and 'improving return' companies.

In order to enhance the liquidity, the sub-fund will also invest on:

- In medium and larger capitalised companies,
- In liquid assets including cash, cash equivalents, bonds and other debt securities or money market instruments and short term bank deposits;

The net asset value is expressed in EUR.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- *Risk calculation: commitment approach*

40. UBAM - GLOBAL CARRY

This sub-fund invests its net assets primarily in any kind of short term bonds and other debt securities issued by sovereign, quasi-sovereign or worldwide companies with a minimum rating of BBB- (Fitch Ratings Ltd.) or BBB- (Standards & Poor's) or Baa3 (Moody's).

In addition, the sub-fund will use derivative instruments, including stock index futures and stock index options, (i.e. covered calls strategy or puts selling). The use of these derivative instruments will aim to increase distributable income and manage portfolio volatility of the sub-fund.

Two main derivative strategies will be implemented: a (partially) covered call writing strategy and a risk management overlay. A (partially) covered call writing strategy consists of a long equity position on which a call option is sold upon. This strategy is implemented on a monthly basis and at inception it will be approximately market neutral: it allows to monetize the so-called term structure volatility premium. The risk management overlay consists of a dynamic long position in volatility futures: given the statistical inverse relationship between equity prices and volatility, this overlay aims at partially reduce risks during extreme equity market dislocations.

These strategies are based on observable economic and empiric behaviours: (a) investors are risk adverse and are therefore willing to buy protection and (b) from time to time financial markets undergo turbulent phases with declining equity prices and increasing volatilities. The (partially) covered call strategy is equivalent to selling protection to risk adverse investors: implementing this strategy on a systematic basis allows to earn a premium (carry), but exposes to losses during the (statistically less frequent) turbulent periods. During these market phases the risk management overlay, thanks to the long volatility exposure, (partially) hedges the covered call writing strategy. These described dynamics and the expected behaviours of the different strategies must be understood in probabilistic terms: they refer to average statistical relationships observed over a long time span in the past and are not a sure indication of current and future performance.

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on bonds and on stock markets via derivatives in order to maximise their returns. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider an investment horizon of at least 3 years in order to overcome potentially unfavourable market trends.

- *Risk calculation: absolute VaR approach*

- *Leverage calculation methodology: sum of the notionals*

- *Expected leverage: 250%. Please note that depending on market conditions the leverage level could be higher.*

41. UBAM - GLOBAL EMERGING EQUITY

This sub-fund invests its net assets primarily in equities and other similar transferable securities, in addition to, on an ancillary basis, warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, bonds and other debt securities, money market instruments, issued primarily by companies (i) having their registered office, or (ii) carrying on a major part of their commercial activity, or (iii) as holding companies owning predominant interests in companies with their registered office or (iv) listed on qualified exchanges of Regulated Markets or (v) primarily operate or (vi) have a majority of their income, profits, assets, production activities or other commercial interests, in Emerging Countries as defined on page 4 of this prospectus. *These countries include, but are not*

limited to the following: Mexico, Hong Kong, Singapore, Turkey, Poland, the Czech Republic, Hungary, Israel, South Africa, Chile, Slovakia, Greece, Brazil, the Philippines, Argentina, Thailand, South Korea, Colombia, Taiwan, Indonesia, India, China, Romania, Saudi Arabia, Ukraine, Malaysia, Croatia and Russia.

For China, the sub-fund may invest up to 25% of its net assets in China A-Shares through the Shanghai-Hong Kong Stock Connect (the "Stock Connect"). Please refer to the Shanghai-Hong Kong Stock Connect definition and related risks in the "[RISK FACTORS](#)" chapter of this prospectus.

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. In this way, investors should have experience in volatile products and be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- Risk calculation: commitment approach.

42. UBAM - GLOBAL EQUITY INCOME

This sub-fund invests its net assets primarily in equities and other similar transferable securities, in addition to, on an ancillary basis, warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, bonds and other debt securities, money market instruments, issued by companies worldwide (including emerging countries).

This sub-fund is selecting stocks world-wide, primarily companies which are expected to provide a solid balance sheet, a high dividend yield, a stable to growing payout ratio and whose core businesses faces little cyclicity

The net asset value is expressed in EUR.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- Risk calculation: commitment approach

43. UBAM - GLOBAL EQUITY SUSTAINABLE GROWTH

This sub-fund invests its net assets primarily in equities and other similar transferable securities, in addition to, on an ancillary basis, warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, bonds and other debt securities, money market instruments, issued by companies worldwide, including emerging countries.

This sub-fund seeks to invest primarily into stocks with exposure to growth opportunities. Investment concept is stock selection driven and focuses on companies with above market average revenue growth or improving growth rates as well as companies providing consistently economic value-add, i.e. sustainably earning their cost of capital. The investment process relies on fundamental analysis of the growth profile as well as the cash flow generation capacity of existing assets and future investments of companies. Discounting of these forecasted cash flows reveals over- and undervaluation of investment opportunities.

In addition, this sub-fund may invest in a discretionary proprietary overlay strategy intended to provide to investors a better risk adjusted return.

This strategy is implemented through a (partially) covered call writing strategy and a risk management overlay. A (partially) covered call writing strategy consists of a long equity position on which a call option, essentially on European and/or US equities indices, is sold upon. This strategy is implemented on a monthly basis and at inception it will be approximately market neutral: it allows to monetize the so-called "implied versus realised volatility premium". The risk management overlay consists of a dynamic long

position in volatility futures: given the statistical inverse relationship and behaviour between equity prices and volatility, this overlay aims at partially reduce risks during extreme equity market dislocations

The net asset value is expressed in USD

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- *Risk calculation: absolute VaR approach*
- *Leverage calculation methodology: sum of the notionals*
- *Expected leverage: 200%. Please note that depending on market conditions the leverage level could be higher.*

44. UBAM - SNAM JAPAN EQUITY VALUE

This sub-fund invests its net assets primarily in equities and other similar transferable securities, in addition to, on an ancillary basis, warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, bonds and other debt securities, money market instruments, issued primarily by companies (i) having their registered office, or (ii) carrying on a major part of their commercial activity, or (iii) as holding companies owning predominant interests in companies with their registered office in Japan.

This sub-fund is focused primarily on companies which the Manager considers to be undervalued on the market compared with their long-term potential. The sub-fund will invest primarily in securities of companies which the Manager considers to be undervalued, notably on account of a market downturn, unfavourable economic conditions, developments that have affected or may affect the securities issuer or its industry, or due to limited market coverage. In general, these securities benefit from low stock price/book value, stock price/revenues and/or stock price/profits coefficients

The net asset value is expressed in JPY.

The sub-fund's name only refers to the name of SOMPO JAPAN NIPPONKOA ASSET MANAGEMENT CO.LTD (hereinafter "SNAM") insofar as it is the sub-fund's Manager. SNAM is neither the sub-fund's co-promoter nor its distributor. SNAM is headquartered at Kyoritsu Nihonbashi bldg. 2-16, Nihonbashi 2-chome, Chuo-ku Tokyo 103-0027, Japan. SNAM is paid by the Management Company as agreed upon by these two parties.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- *Risk calculation: commitment approach*

45. UBAM - SWISS EQUITY

This sub-fund invests its net assets primarily in equities and other similar transferable securities, in addition to, on an ancillary basis, warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, bonds and other debt securities, money market instruments, issued primarily by companies (i) having their registered office, or (ii) carrying on a major part of their commercial activity, or (iii) as holding companies owning predominant interests in companies with their registered office in Switzerland.

The net asset value is expressed in CHF.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a

long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- Risk calculation: commitment approach

46. UBAM - SWISS SMALL AND MID CAP EQUITY

This sub-fund invests its net assets primarily in equities and other similar transferable securities, in addition to, on an ancillary basis, warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, bonds and other debt securities, money market instruments, issued primarily by companies (i) having their registered office, or (ii) carrying on a major part of their commercial activity, or (iii) as holding companies owning predominant interests in companies with their registered office in Switzerland.

This sub-fund is selecting stocks, primarily companies with market capitalisation between CHF 100'000'000 and CHF 10'000'000'000.

The net asset value is expressed in CHF.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- Risk calculation: commitment approach

47. UBAM - TECH GLOBAL LEADERS EQUITY

This sub-fund invests its net assets primarily in equities and other similar transferable securities of companies specializing in technology or technology-related industries. In addition thereto, on an ancillary basis, it may invest in warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, bonds and other debt securities, money market instruments, issued by technology companies worldwide (including emerging countries).

This sub-fund is selecting technology or technology-related stocks world-wide, primarily companies which are expected to provide growth and leading (i.e. sustainably high quality) levels of cash flow return on investment (CFROI) that are higher than the Cost of Capital (CoC) and which grow their asset base while maintaining this spread. The investment strategy is focused on the sustainability of such return and growth profiles, and hence shall be long-term oriented with little need for turnover. Consequently, the sub-fund will be constituted as a high-quality, large market capitalization equity portfolio invested in global leading technology companies ("leading" implies e.g. having a leadership position due to market share, innovation capabilities, brand recognition or superior management talents) combining superior returns and growth opportunities characteristics over the next 3-5 years.

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- Risk calculation: commitment approach

48. UBAM - TECH GLOBAL LEADERS EQUITY HEDGE

This sub-fund's objective is to provide investors with an exposure to the performance of worldwide technology companies while seeking to reduce the related downside risks. It will invest its net assets primarily in equities and derivatives instruments, in addition to, on an ancillary basis, warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, bonds and

other debt securities, money market instruments, issued by companies worldwide (including emerging countries).

This sub-fund will reflect the performance of two combined strategies:

- The first strategy (the “Equity Strategy”) is selecting technology or technology-related stocks worldwide, primarily companies which are expected to provide growth and leading (i.e. sustainably high quality) levels of cash flow return on investment (CFROI) that are higher than the Cost of Capital (CoC) and which grow their asset base while maintaining this spread. The investment strategy is focused on the sustainability of such return and growth profiles, and hence shall be long-term oriented with little need for turnover. Consequently, the sub-fund will be constituted as a high-quality, large market capitalization equity portfolio invested in global leading technology companies (“leading” implies e.g. having a leadership position due to the market share, innovation capabilities, brand recognition or superior management talents) combining superior returns and growth opportunities characteristics over the next 3-5 years.
- The second strategy (the “Hedging Strategy”) is a discretionary proprietary overlay strategy intended to provide investors with a better risk-adjusted return with lower volatility and reduced drawdown. The Hedging Strategy will be implemented using derivative instruments comprising, amongst others, options and futures essentially on US and European equities indices, or related volatility equities indices.

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- Risk calculation: commitment approach

49. UBAM - TURKISH EQUITY

This sub-fund primarily invests its net assets in equities and other similar transferable securities in addition to, on an ancillary basis, warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, bonds and other debt securities or money market instruments, issued primarily by companies (i) having the registered office or (ii) carrying on the major part of their economic activity, or (iii) as holding companies owning predominant interests in companies with their registered office in Turkey.

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- Risk calculation: commitment approach

50. UBAM - US EQUITY GROWTH

This sub-fund targets long term capital appreciation, investing its net assets primarily in growth-oriented equities and other similar transferable securities.

At least 80% of its net assets will be invested in US companies, with market capitalization greater than the smallest market capitalisation of the Russel 1000 Growth Index.

Up to 20% of its net assets may be invested:

- in US companies with a market capitalization above USD 1 billion but below the smallest market capitalisation of the Russell 1000 Growth Index;

- in non-US companies carrying a major part of their commercial activity in the US, with a minimum market capitalization of USD 5 billion.

The fund seeks to invest in high-quality growth companies with sustainable competitive advantages, high rates of return on invested capital and long-term secular growth trends that should help the businesses weather short-term cyclical fluctuations resulting from broader macroeconomic influences. The fund focuses on long-term growth, with an emphasis on the sustainability and quality of that growth rather than shorter-term or cyclical events. The stock selection is determined by rigorous bottom-up fundamental analysis performed by the experienced investment manager team.

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to investments on stock markets in order to maximise their returns. Therefore, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- Risk calculation: commitment approach

Fund of funds sub-funds

In principle, the overall risk for these sub-funds is calculated according to the commitment methodology unless otherwise provided in the sub-fund's investment policy.

51. UBAM - MULTIFUNDS ALLOCATION 30

The objective of this sub-fund is to capture investment opportunities by investing its assets in a diversified portfolio of funds.

As a fund of funds structure, this sub-fund will invest its net assets mainly in:

- regulated UCITS and;
- other regulated open-ended investment funds having an investment policy and risk exposure similar to a UCITS and being submitted to an equivalent regulatory supervision;

which have as investment objective to invest in bonds and other debt securities and in equities with the following restrictions:

<u>Type of securities</u>	<u>Minimum% of net assets</u>	<u>Maximum% of net assets</u>
Bonds and other debt securities	50%	90%
Global Equities and other similar transferable securities	10%	50%

The number indicated at the end of the sub-fund's name is the reference to the median exposure of the sub-fund to global equities and other similar transferable securities.

On an ancillary basis the sub-fund may also invest in liquid assets as well as derivative instruments for hedging purposes.

The sub-fund invests primarily in its base currency, but others currencies may also be used. The currency risk associated may or may not be hedged at the investment manager discretion

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors looking primarily for a bond allocation with a diversification in global equity in their portfolio. Investors should have a minimum investment horizon of 3 years and should be able to accept moderate losses.

- Risk calculation: commitment approach

52. UBAM - MULTIFUNDS ALLOCATION 50

The objective of this sub-fund is to capture investment opportunities by investing its assets in a diversified portfolio of funds.

As a fund of funds structure, this sub-fund will invest its net assets mainly in:

- regulated UCITS and;
- other regulated open-ended investment funds having an investment policy and risk exposure similar to a UCITS and being submitted to an equivalent regulatory supervision;

which have as investment objective to invest in bonds and other debt securities and in equities with the following restrictions:

<u>Type of securities</u>	<u>Minimum% of net assets</u>	<u>Maximum% of net assets</u>
Bonds and other debt securities	30%	70%
Global Equities and other similar transferable securities	30%	70%

The number indicated at the end of the sub-fund's name is the reference to the median exposure of the sub-fund to global equities and other similar transferable securities.

On an ancillary basis the sub-fund may also invest in liquid assets as well as derivative instruments for hedging purposes.

The sub-fund invests primarily in its base currency, but other currencies may also be used. The currency risk associated may or may not be hedged at the investment manager discretion

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investor who considers investment funds as a convenient way of participating in capital markets developments and looking for a balanced allocation between bonds and global equity in their portfolio. Investors should have a minimum investment horizon of 3 to 5 years and should be able to take measurable risk and be able to accept losses.

- Risk calculation: commitment approach

53. UBAM - MULTIFUNDS ALLOCATION 70

The objective of this sub-fund is to capture investment opportunities by investing its assets in a diversified portfolio of funds.

As a fund of funds structure, this sub-fund will invest its net assets mainly in:

- regulated UCITS and;
- other regulated open-ended investment funds having an investment policy and risk exposure similar to a UCITS and being submitted to an equivalent regulatory supervision;

which have as investment objective to invest in bonds and other debt securities and in equities with the following restrictions:

<u>Type of securities</u>	<u>Minimum% of net assets</u>	<u>Maximum% of net assets</u>
Bonds and other debt securities	10%	50%
Global Equities and other similar transferable securities	50%	90%

The number indicated at the end of the sub-fund's name is the reference to the median exposure of the sub-fund to global equities and other similar transferable securities.

On an ancillary basis the sub-fund may also invest in liquid assets as well as derivative instruments for hedging purposes.

The sub-fund invests primarily in its base currency, but other currencies may also be used. The currency risk associated may or may not be hedged at the investment manager discretion

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risk linked to investments on stock markets in order to maximize their return. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavorable market trends.

- Risk calculation: commitment approach

54. UBAM - MULTIFUNDS ALTERNATIVE

The objective of this sub-fund is to achieve a diversified portfolio of alternative investments pursuing varying strategies comprising, amongst others, Equity long short, Equity market neutral, Fixed income, global macro, CTA (trend followers) The Sub-Fund will apply a diversification strategy and undertake a careful manager selection in order to decrease the risk described in normal market conditions.

As a fund of funds structure, this sub-fund will invest its net assets mainly in:

- regulated UCITS and;
- other regulated open-ended investment funds having an investment policy and risk exposure similar to a UCITS and being submitted to an equivalent regulatory supervision;
- eligible closed ended UCIs which are listed or dealt on a regulated market.

which have as investment objective to invest essentially in alternative strategies.

On an ancillary basis the sub-fund may also invest in liquid assets. The sub-fund may invest in derivative instruments for hedging purposes, investment purposes and efficient portfolio management purposes.

Investors should be aware that underlying funds investing in alternative investments funds can from time to time be highly volatile, especially in market circumstances where the liquidity is particularly poor. Underlying funds may have a high degree of flexibility with regard to the strategies, investment instruments, and techniques they use.

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risks linked to alternatives investments in order to maximize their returns. In this ways, investors should have experience in volatile and complex products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavourable market trends.

- Risk calculation: commitment approach

Asset Allocation sub-funds

In principle, the overall risk for these sub-funds is calculated according to the commitment methodology unless otherwise provided in the sub-fund's investment policy.

55. UBAM - ASYMMETRY 50 EUR

The objective of this sub-fund is to generate a high level of return. For this purpose, over an investment cycle, the share of investments of the sub-fund in a specific market will be higher during a period of growth of said market than during a period of decrease of said market. A solid participation in rising markets, coupled with some protection in down markets is the most important aspect of this sub-fund's asymmetric management profile. This asymmetry stems from a "trend-following" investment process which aims performance generation in bull markets and, at the same time, disciplined exit of positions in market downturns, in order to limit the risk of any severe losses.

This sub-fund primarily invests its net assets in:

- collective investment instruments fulfilling the conditions specified in article 41 (1) e of the Law (which need not be rated) invested in particular in fixed-income instruments or equities, with a focus on index-related instruments, such as exchange traded funds.

- equities, equities-like instruments.
- fixed-income instruments including without limitation notes, time-deposits and all types of bonds such as corporate bonds, treasury bonds, including convertibles bonds, but excluding asset-backed securities (ABS) and mortgage-backed securities (MBS). The sub-fund will be invested up to 20% in convertibles bonds. Fixed-income instruments in which the portfolio will be invested, or their issuers, must have a minimum rating of BBB- (Fitch Ratings Ltd.) or BBB- (Standards & Poor's) or Baa3 (Moody's). There is no restriction as to the country of the issuer. Non rated assets may be admitted up to 10% of the total net assets of the sub-fund.

The sub-fund will be invested up to 55% in equities, equities-like instruments and shares of collective investment instruments primarily invested in other assets than fixed-income instruments.

The sub-fund will endeavour to invest in EUR and, if the manager deems it appropriate, to hedge the portfolio against currency risk arisen from investments made in another currency than EUR. In any cases, the portfolio EUR exposure will range from 50 to 110%.

The sub-fund may invest into financial derivative instruments for hedging and investment purposes. Derivatives may include (but are not limited to) futures, forwards, options.

The net asset value is expressed in EUR.

Standard investor profile: this sub-fund is suitable for investor who considers investment funds as a convenient way of participating in capital markets developments and looking for a balanced allocation between bonds and global equity in their portfolio. Investors should have a minimum investment horizon of 3 to 5 years and should be able to take measurable risk and be able to accept losses.

- Risk calculation: commitment approach

56. UBAM - ASYMMETRY 50 USD

The objective of this sub-fund is to generate a high level of return. For this purpose, over an investment cycle, the share of investments of the sub-fund in a specific market will be higher during a period of growth of said market than during a period of decrease of said market. A solid participation in rising markets, coupled with some protection in down markets is the most important aspect of this sub-fund's asymmetric management profile. This asymmetry stems from a "trend-following" investment process which aims performance generation in bull markets and, at the same time, disciplined exit of positions in market downturns, in order to limit the risk of any severe losses.

This sub-fund primarily invests its net assets in:

- collective investment instruments fulfilling the conditions specified in article 41 (1) e of the Law (which need not be rated) invested in particular in fixed-income instruments or equities, with a focus on index-related instruments, such as exchange traded funds.
- equities, equities-like instruments.
- fixed-income instruments including without limitation notes, time-deposits and all types of bonds such as corporate bonds, treasury bonds, including convertibles bonds, but excluding asset-backed securities (ABS) and mortgage-backed securities (MBS). The sub-fund will be invested up to 20% in convertibles bonds. Fixed-income instruments in which the portfolio will be invested, or their issuers, must have a minimum rating of BBB- (Fitch Ratings Ltd.) or BBB- (Standards & Poor's) or Baa3 (Moody's). There is no restriction as to the country of the issuer. Non rated assets may be admitted up to 10% of the total net assets of the sub-fund.

The sub-fund will be invested up to 55% in equities, equities-like instruments and shares of collective investment instruments primarily invested in other assets than fixed-income instruments.

The sub-fund will endeavour to invest in USD and, if the manager deems it appropriate, to hedge the portfolio against currency risk arisen from investments made in another currency than USD. In any cases, the portfolio USD exposure will range from 50 to 110%.

The sub-fund may invest into financial derivative instruments for hedging and investment purposes. Derivatives may include (but are not limited to) futures, forwards, options.

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investor who considers investment funds as a convenient way of participating in capital markets developments and looking for a balanced allocation between bonds and global equity in their portfolio. Investors should have a minimum investment horizon of 3 to 5 years and should be able to take measurable risk and be able to accept losses.

- *Risk calculation: commitment approach*

57. UBAM - REAL RETURN

The objective of this sub-fund is to capture investment opportunities by investing in a large diversified asset allocation: This sub-fund will invest its net assets in any kind of bonds, including Convertibles Bonds, and any kind of equities as well as in funds up to 10%.

Depending on the portfolio manager decision, the exposition in bonds can be between 0 and 100% and the exposition in equities can be between 0 and 50%.

The sub-fund is authorized to invest up to 10% in bonds/issuers for which a rating is not available or for which the rating is below B- (S&P or FITCH), B3 (Moody's), including distressed securities. For the remaining part of investments in bonds, the minimum rating is B- (S&P or FITCH), B3 (Moody's), or an equivalent rating by another rating agency. In case a rating is not available for a security the issuer's rating will be considered instead. If the rating of a security/issuer is downgraded below B- / B3 or equivalent, it will be resold within 6 months from the date at which the rating was lowered. During this 6 months period, these securities will not be taken into account within the 10% limit.

The sub-fund is authorized to invest up to 20% in contingent convertible bonds ("CoCo"), up to 100% in High Yield Products and up to 100% in Emerging Countries Bonds. Coco's and High Yield Products are both described in more detail under Section "Bond Funds" and their risks are disclosed in Section "Risk Factors".

The net asset value is expressed in USD.

Standard investor profile: this sub-fund is suitable for investors willing to take higher risk linked to investments on bonds and stock markets in order to maximize their return. In this way, investors should have experience in volatile products and should be able to accept significant losses. Investors should consider a long-term investment horizon of at least 5 years in order to overcome potentially unfavorable market trends.

- *Risk calculation: absolute VaR approach*
- *Leverage calculation methodology: sum of the notionals*
- *Expected leverage: 400%. Please note that depending on market conditions the leverage level could be higher.*

Sub-funds performance

The historical performances of the various sub-funds, presented on a chart showing the last five or ten financial years, are included in the KIIDs for each class of share.

COMMON PROVISIONS

All the transferable securities must primarily be admitted to official listing on a stock exchange or traded on a regulated market, operating regularly, recognised and open to the public (the "Regulated Market") in a country in Eastern or Western Europe, Asia, Africa, North or South America, Australia or Oceania (an "Eligible Market").

Subject to the restrictions set out hereafter, the SICAV may carry out transactions on options linked to transferable securities.

Since the portfolio of any sub-fund within the SICAV is subject to market fluctuations and the risks inherent in any investment, the price of shares may vary accordingly and the SICAV cannot guarantee that it will be able to achieve its objectives.

In general, the SICAV's investments must comply with the following rules.

I. a) The SICAV may invest in:

- (i) Transferable securities and money market instruments listed or traded on an Eligible Market;
- (ii) Newly issued transferable securities and money market instruments, provided that the conditions of issue include a commitment to submit a request for admission to official listing on an Eligible Market and that such admission is obtained within one year of the issue at the latest;
- (iii) Shares in UCITS and/or other UCIs, whether or not located in an EU member state, provided that:
 - Such other UCIs are accredited in accordance with the legislation of an EU member state or in accordance with the laws of Canada, Hong Kong, Japan, Switzerland or the United States of America;
 - The level of protection guaranteed for shareholders in such other UCIs is equivalent to that provided for shareholders in a UCITS and, more specifically, the rules governing the division of assets, borrowings, loans, short selling transferable securities and money market instruments are equivalent to the requirements of Directive 2009/65/EC, as amended;
 - The activities of such other UCIs are subject to semi-annual and annual reports making it possible to assess the assets, liabilities, profits and transactions for the period in question;
 - Except for fund of funds sub-funds and Asset Allocation sub-funds, the proportion of assets of UCITS or such other UCIs that are to be acquired, which, in accordance with their incorporation documents, may be invested fully in shares of other UCITS or other UCIs must not exceed 10%;
- (iv) Deposits with a credit institution that are repayable on demand or may be withdrawn and have a maturity of less than or equal to 12 months, provided that the credit institution's registered office is located in a country that is a member of the Organisation for Economic Cooperation and Development ("OECD") and the Financial Action Task Force on Money Laundering ("FATF");
- (v) Financial derivatives, including similar instruments resulting in a cash payment, which are traded on an Eligible Market, and/or derivative financial instruments traded over-the-counter ("over-the-counter derivative instruments"), provided that:
 - The underlying consists of instruments governed by this Section I. a), on financial indexes, interest rates, exchange rates, currencies or other assets, in which the SICAV may invest in accordance with its investment objectives;
 - The risks that the underlying assets are exposed to in connection with investments in derivative financial instruments must not exceed the investment limits set in Restrictions III below, it being understood that if the SICAV invests in derivative financial instruments based on an index, such investments may not necessarily be combined with the limits set under Restriction III hereafter. When a transferable security on money market instruments includes a derivative instrument, this instrument must be taken into account when assessing the provisions of this restriction;
 - The counterparties for transactions on over-the-counter derivative instruments are institutions subject to prudential supervision and included in the categories accredited by the Luxembourg supervisory authority;
 - The over-the-counter derivative instruments are valued on a reliable, verifiable and daily basis and may, on the SICAV's initiative, be sold, liquidated or closed by a symmetrical transaction, at any time and at their fair value;

(vi) Money market instruments other than those traded on an Eligible Market, provided that the issue or issuer for such instruments is covered by regulations aimed at protecting investors and savings and that such instruments are:

- Issued or guaranteed by a central, regional or local government body, by a central bank from a European Union ("EU") Member State, by the European Central Bank, by the European Union or by the European Investment Bank, by a third-party state or, in the case of a federal state, by one of the members comprising the federation, or by an international public body that one or more EU member states are part of, or
- Issued by a company whose securities are traded on an Eligible Market, or
- Issued or guaranteed by a credit institution headquartered in an OECD and FATF member country.

b) In addition, the SICAV may invest in transferable securities and money market instruments other than those set out in Point a) for up to 10% of the net assets of each sub-fund;

The SICAV may not acquire precious metals or certificates representing them, real estate, goods, and commercial contracts.

II. The SICAV may hold liquidities, on an ancillary basis, unless otherwise provided for in the investment policy of the sub-fund concerned.

III. a) (i) The SICAV may not invest more than 10% of each sub-fund's net assets in transferable securities and money market instruments issued by the same entity.

(ii) Each sub-fund may not invest more than 20% of its net assets in deposits placed with the same entity. The sub-fund's counterparty risk for a transaction on over-the-counter derivative instruments may not exceed 10% of its net assets when the counterparty is one of the credit institutions indicated in Point I. a) iv) or 5% of its net assets in other cases.

b) The total value of transferable securities and money market instruments held in issuers in which a sub-fund invests more than 5% of its net assets may not exceed 40% of the value of this sub-fund's net assets. This limit does not apply to deposits with financial institutions subject to prudential supervision and transactions on over-the-counter derivative instruments with such institutions.

Notwithstanding the individual limits set in paragraph a), the SICAV may not combine the following in a sub-fund:

- Investments in transferable securities or money market instruments issued by only one entity,
- Deposits with only one entity, and/or
- Risks resulting from transactions on over-the-counter derivative instruments with only one entity,

that represent more than 20% of its net assets.

c) The 10% cap indicated in paragraph a) (i) is raised to a maximum of 35% if the transferable securities or money market instruments are issued or guaranteed by an EU member state, by its regional public authorities, or by an Eligible State or by international public bodies that one or more EU member states are part of;

d) The 10% cap indicated in paragraph a) (i) is raised to 25% for certain bonds when they are issued by a credit institution headquartered in an EU member state and that is legally subject to special supervision by public authorities aimed at protecting bondholders. More specifically, sums from the issue of such bonds must be invested in assets that sufficiently cover, for the entire period during which the bonds are valid, the resulting commitments and that are allocated in priority to capital repayments and payments of accrued interest in the event of the issuer defaulting.

If the SICAV invests more than 5% of a sub-fund's net assets in such bonds issued by a given issuer, the total value of such investments may not exceed 80% of the value of this sub-fund's net assets.

- e) The transferable securities and money market instruments referred to in paragraphs c) and d) are not taken into account when applying the 40% cap indicated in paragraph b).

The limits set out in paragraphs a), b), c) and d) cannot be combined; as such, investments in transferable securities or money market instruments issued by a given entity, in deposits or in derivative instruments with this entity may not exceed a combined total of 35% of the net assets of each sub-fund within the SICAV.

Companies that are grouped together for accounting consolidation, as per Directive 83/349/EEC or in accordance with recognised international accounting rules, are considered to represent only one entity when calculating the limits set out in this Section III.

A given sub-fund may invest a combined total of up to 20% of its net assets in transferable securities and money market instruments from a given group.

However, the SICAV is authorised, in line with the principle of risk distribution, to invest up to 100% of each sub-fund's net assets in different issues of transferable securities or money market instruments issued or guaranteed by an EU member state, by its regional public authorities, by an OECD member state or by international public bodies that one or more EU member states are part of. In this case, each sub-fund must hold securities from at least six different issues, although the securities from a given issue may not exceed 30% of the total amount.

- IV. a) Without prejudice to the limits set out in Section V. hereafter, the limits indicated in Section III. hereabove are raised to a maximum of 20% for investments in equities and/or bonds issued by a given entity when a sub-fund's investment policy aims to reproduce the makeup of specific equities or bond index.
- b) The limit indicated in paragraph a) is 35% when justified by exceptional market conditions, particularly on regulated markets on which certain transferable securities or money market instruments are largely dominant. Investing up to this limit is only permitted for a single issuer.

- V. For all of its sub-funds, the SICAV may not acquire shares combined with voting rights enabling it to exercise a significant influence over the management of an issuer.

Moreover, the SICAV may acquire no more than:

- 10% of the non-voting shares of a given issuer;
- 10% of bonds of a given issuer;
- 10% of money market instruments of a given issuer.

The limits indicated in the second and third points above may be exceeded at the time of the acquisition if, at this time, the gross amount of the bonds or money market instruments or the net amount of the securities issued, cannot be calculated.

The provisions of this Section V. do not apply for transferable securities and money market instruments issued or guaranteed by an EU member state or its regional public authorities or by any other Eligible State, or issued by public international bodies which one or more EU member states are part of.

In addition, these provisions do not apply for equities held by the SICAV in the capital of a company from a non-EU state investing its assets primarily in securities from issuers from this state when, under this country's legislation, such an interest represents the only possibility for the SICAV to invest in securities from issuers from this state, provided that the company from the non-EU state complies with the limits set out under Sections III, V. and VI. a), b), c) and d) in terms of its investment policy.

If the limits provided for under Sections III and VI are exceeded, Section IX applies *mutatis mutandis*.

- VI. a) The SICAV will not invest more than 10% of the net assets of each one of its sub-funds in other UCITS and/or other UCIs, unless otherwise provided for in the investment policy of the sub-fund concerned. Based on this last assumption, the following limits apply:

- Each sub-fund may acquire shares in UCITS and/or other UCIs as indicated above, provided that no more than 20% of the sub-fund's net assets are invested in the shares of a given UCITS or other UCI.
 - For the application of the abovementioned investment cap, each sub-fund in a UCITS or UCI with multiple sub-funds must be considered as a separate issue, provided that such sub-funds are governed by the principle for the separation of assets and obligations in relation to third parties.
 - Investments in shares in UCIs other than UCITS may not exceed a combined total of 30% of a sub-fund's net assets.
- b) When the SICAV has acquired shares in UCITS and/or other UCIs, the underlying assets held by such UCITS or other UCIs are not combined with a view to the limits set out in Section III. above.
- c) When a sub-fund invests in shares of UCITS and/or other UCIs managed directly or indirectly by the SICAV or by a company with which it is affiliated through common management or control or by a direct or indirect stakeholding of more than 10% of the capital or voting rights, no subscription or redemption fees may be charged to the SICAV for investments in such UCITS or other UCIs.
- For a sub-fund's investments in a UCITS or other UCI affiliated to the SICAV as presented above, there will not be any duplication of management fees for the sub-fund and the UCITS or other UCIs concerned.
- This, however, is without prejudice to the provisions on investments in master/feeder structures as set forth in the chapter "[AGGREGATE CHARGES WITHIN MASTER-FEEDER STRUCTURES](#)".
- In its annual report, the SICAV will indicate the maximum level of management fees borne by the sub-fund concerned and by the UCITS or other UCIs in which this sub-fund has invested over the period in question.
- d) The SICAV may not acquire more than 25% of the shares of a given UCITS and/or other UCI. This limit may be exceeded at the time of the acquisition if, at this time, the net amount of the shares issued cannot be calculated. For UCITS or other UCIs with multiple sub-funds, this limit applies for all of the shares issued by the UCITS / UCI concerned, all sub-funds combined.

- e) In accordance with article 181(8) of the 2010 Law, a sub-fund of the SICAV may subscribe, acquire and/or hold shares of other sub-funds ("Target sub-funds") of the SICAV without the latter being subject to the requirements under the law of August 10th, 1915 concerning business firms, as amended, as regards a company's subscription, acquisition, and/or ownership of its own shares. In that event:
- The Target sub-fund shall not be authorized to invest, itself, in the sub-fund that subscribed to its securities;
 - The share of assets that the Target sub-fund to be acquired may invest overall in shares of other sub-funds of the SICAV shall not exceed 10%;
 - Voting rights that may be linked to the shares concerned of the Target sub-fund will be suspended while they are held by another sub-fund of the SICAV and this, without prejudice to appropriate treatment with respect to accounting and financial statements;
 - In any event, while the shares of the Target sub-fund are held by the SICAV, their value will not be taken into account for the calculation of the net assets of the SICAV in order to verify the minimum threshold of net assets imposed by the 2010 Law;
 - The management/subscription or redemption fees for the sub-fund of the SICAV that invested in the Target sub-fund and this Target sub-fund will not be split.

VII. The SICAV will ensure that the overall risk linked to derivative instruments does not exceed the total net value of each sub-fund's portfolio.

The risks are calculated factoring in the current value of the underlying assets, the counterparty risk, the likely change in the markets and the time available to close out the positions. This also applies to the following sections.

In accordance with its investment policy and the limits, the SICAV may invest in financial derivatives, provided that, on the whole, the risks to which the underlying assets are exposed do not exceed the investment limits set in Section III. When a sub-fund invests in financial derivatives based on an index, such investments are not necessarily combined for the limits set in Section III.

When a transferable security or money market instrument includes a derivative, this derivative must be factored in when applying the provisions set out in this section.

- a) **For equity sub-funds, fund of funds sub-funds and asset allocation sub-funds**, unless otherwise provided in the sub-fund's investment policy, the overall risk is calculated on the basis of the commitment methodology. As exceptions, the overall risk for UBAM - EUROPE EQUITY DIVIDEND+, UBAM - EURO EQUITY SHORT OVERLAY, UBAM - GLOBAL CARRY, UBAM - GLOBAL EQUITY SUSTAINABLE GROWTH and UBAM - REAL RETURN is calculated according to the absolute VaR methodology as stated in its investment policy.
- b) **For bond sub-funds, feeder bond sub-funds, and feeder convertible bond sub-funds listed above**, the overall risk is calculated according to the absolute VaR methodology. The VaR limit (99%, 1 month) is set at 20%. For the sub-funds for which the overall risk is calculated according to the absolute VaR methodology, the level of leverage is defined pursuant to the applicable ESMA guidelines and CSSF Circular 11/512 as the sum of the notional of the derivatives used by the respective Sub-Fund. According to these definitions, leverage may result in high level as some derivatives, that can be used for hedging purposes including but not limited to forex and/or duration hedging, are included in the calculation. These definition does not make a distinction as to the intended use of a derivative being either hedging or investment purposes. The table below reflects the expected leverage level for these sub-funds. It should be noted that depending on market conditions, these below limits may occasionally be exceeded.

Sub-funds using absolute VaR methodology

	Expected Leverage Level
<u>Bond sub-funds</u>	
UBAM - ABSOLUTE RETURN FIXED INCOME	500%
UBAM - ABSOLUTE RETURN LOW VOL FIXED INCOME	400%

UBAM - REAL RETURN	400%

- c) Additionally, considering the fact that feeder bond sub-funds and feeder convertible bond sub-funds are feeder structures (please refer to their respective investment policies for additional information in this respect), their global exposure related to financial derivative instruments shall be calculated by combining their own direct exposure to such instruments with their respective master structure's actual exposure in proportion to the feeder's investment into the master.

VIII. a) The SICAV may borrow up to 10% of each sub-fund's net assets, provided that this concerns temporary borrowings; however, currencies obtained under back-to-back loans are not considered to represent borrowings;

- b) The SICAV may not grant loans or stand as guarantor for third parties. This rule does not obstruct the acquisition of transferable securities and money market instruments or other financial instruments as provided for under Section I. a) (iii), (v) and (vi), that are not fully paid-up;

- c) The SICAV may not short sell transferable securities and money market instruments or other financial instruments mentioned in Section I. a) (iii), and (vi).

IX. The SICAV is not necessarily required to comply with the limits set out in the present chapter "[COMMON PROVISIONS](#)" when exercising subscription rights relating to transferable securities or money market instruments that are part of its assets.

While ensuring compliance with the principle for the distribution of risks, newly accredited sub-funds may disregard Sections III., IV. and VI. a), b), c) and d) for a period of six months following the date of their accreditation.

- a) If any of the limits indicated in Section a) are exceeded against the SICAV's wishes or further to the exercising of subscription rights, the SICAV must strive in priority to bring this situation back to normal through its sales transactions, while taking shareholders' interests into consideration.

- b) If an issuer is a legal entity with multiple sub-funds in which the assets of a sub-fund exclusively cover the rights of investors in relation to this sub-fund and those of creditors whose claims have arisen when this sub-fund was set up, operating or liquidated, each sub-fund is to be considered as a

separate issuer for the application of the rules governing the distribution of risks as presented in Sections III., IV. and VI.

- X. Each sub-fund of the SICAV is eligible to become a master sub-fund as defined by section 9 of the 2010 Law if:
- its shareholders include at least one feeder UCITS;
 - it is not a feeder sub-fund;
 - it does not hold securities of a feeder UCITS.
- XI. As described in section 9 of the 2010 Law, each sub-fund of the SICAV is eligible, subject to the approval of the CSSF, to become a feeder sub-fund by investing at least 85% of its assets in securities of other master UCITS, notwithstanding articles 2, 41, 43, 46 and 48 of the 2010 Law.

This feeder sub-fund may invest up to 15% of its assets in one or more of the following:

- liquid assets, on an additional basis, in accordance with article 41(2) par.2 of the 2010 Law;
- derivative financial instruments, which may be used only for hedging in accordance with article 41(1) Pt g and in article 42(2) and (3);
- real or personal property essential to the direct exercise of its business.

Pursuant to article 82 of the 2010 Law, if a sub-fund of the SICAV becomes a feeder sub-fund, the latter's investors will receive a preliminary notice and all information relevant to the implementation methods as required by the regulations in force.

FINANCIAL DERIVATIVES - TECHNIQUES AND INSTRUMENTS

A. General provisions

Unless otherwise indicated for a given sub-fund, the SICAV may, within each sub-fund, use techniques and instruments covering transferable securities and money market instruments for investment purposes or effective portfolio management and/or with a view to protecting its assets and commitments.

When such operations concern the use of derivative instruments, the conditions and limits set previously in the "[COMMON PROVISIONS](#)" chapter must be complied with.

Under no circumstances should the use of transactions concerning derivative instruments or other financial instruments and techniques lead to a sub-fund deviating from the investment objectives set out in the investment policy concerned.

B. Structured products

For effective management or hedging, the SICAV may invest in structured products for each sub-fund. The range of structured products notably includes credit-related bonds, equity-indexed bonds, performance-linked bonds, index-indexed bonds and other bonds whose value changes depending on underlying instruments, which are admitted under Section I of the 2010 Law and European Commission Directive 2007/16/EC concerning the conditions for the application of Council Directive 85/611/EEC of 20 December 1985 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS), as regards the clarification of certain definitions, and guidelines from the Committee of European Securities Regulators concerning assets that are eligible for UCITS from March 2007 (CESR/07-044, "Committee of European Securities Regulators guidelines from March 2007"). The co-contractor involved in such transactions must be a first-rate financial institution specialised in this type of transactions. Structured products represent synthetic products. Such products may also incorporate derivative instruments and/or other investment techniques. As such, it is necessary to factor in not only the risks inherent in the transferable securities, but also the risks inherent in the derivative instruments and other investment techniques. In general,

investors are exposed to the basic underlying instruments or market risks. Depending on their make-up, they may be more volatile and therefore entail more risks than direct investments, while also involving a risk of losing yields or even losing all of the capital invested due to changes in market prices or the basic underlying instruments. The structured products in which the SICAV invests for each sub-fund will be suitably factored in to the SICAV's financial risk management method.

C. Credit-linked notes

In connection with the management of a sub-fund's assets, the SICAV may acquire credit-linked notes (hereafter CLN), it being understood that:

- (i) Such CLNs are issued or guaranteed by a first-rate financial institution specialised in this type of transactions;
- (ii) Such CLNs are listed on an official stock exchange or traded on a sufficiently liquid Regulated Market;
- (iii) The investment restrictions concerning the diversification of risks for each issuer and mentioned in Restriction III above apply for the issuer of the CLNs and the various underlying benchmark entities;
- (iv) The acquisition of CLNs and more specifically the underlying credit risk are in line with the investment objectives of the sub-fund concerned;
- (v) The SICAV may only acquire CLNs if such an investment is deemed to be made in the best interests of shareholders and such CLNs can be reasonably expected to offer a higher yield
- (vi) CLNs which are not listed on an official stock market or traded on a Regulated Market shall not represent more than 10% of the net assets of the concerned sub-fund.

D. Credit Default Swaps

For hedging purposes and within the framework of effective management of the portfolio, the SICAV is authorised to use Credit Default Swaps (CDS). These CDS contracts may be entered into only on the basis of standard documents (such as ISDA contracts), and only with first-rate financial institutions specialising in this type of transaction. A Credit Default Swap (CDS) is an over-the-counter (OTC) credit derivative that enables investors to gain/hedge exposure to/from the credit risk of an issuer. An investor can:

- Buy credit risk by selling credit protection on a CDS
- Sell credit risk by buying credit protection on a CDS

The CDS market offers a wide range of fixed income instruments on which investors can buy or sell credit risk, such as:

- Sovereign debt
- Investment grade credit
- High yield credit

CDS exposure can be taken on a single issuer or on a pool of issuers in the case of CDS indices.

The potential risks inherent in Credit Default Swaps (CDS) are set out in the chapter "[RISK FACTORS](#)".

E. SFTs and TRS

Securities Financing Transaction: (i) a repurchase transaction; (ii) securities lending and securities borrowing; (iii) a margin lending transaction as defined under the SFTR

SFT Agent: any person involved in SFTs as agent, broker, collateral agent or service provider and that is paid fees, commissions, costs or expenses out of the SICAV's assets or any SICAV's assets

SFTR: Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012

TRS: total return swap, i.e., a derivative contract as defined in point (7) of Article 2 of Regulation (EU) No 648/2012 in which one counterparty transfers the total economic performance, including income from interest

and fees, gains and losses from price movements, and credit losses, of a reference obligation to another counterparty.

The counterparties to the SFTs and TRS will be selected on the basis of specific criteria taking into account notably their legal status, country of origin and minimum credit rating. The SICAV will therefore only enter into SFTs and TRS with such counterparties that are subject to prudential supervision rules considered by the CSSF as equivalent to those prescribed by EU law and approved by the board of directors of the Management Company, and who are based on a regulated market of a European Union Member State or on a stock exchange of a Member State of the OECD.

The Investment Manager maintains a list of authorised over-the-counter derivative counterparties. Derivative transactions can only be undertaken with approved derivative counterparties which have their registered office in a developed country and these undergo ongoing internal credit assessment to ensure an acceptable level of credit worthiness. Internal credit assessments incorporate detailed credit analysis and utilise external information, such as credit rating agency ratings.

Before an institution can serve as a counterparty for any type of instrument or technique, the Investment Manager must assess and approve it, including its credit quality (using both ratings and internal analysis), its compliance with regulatory requirements and its fitness for the particular instrument or technique in question. These institutions will have an Investment Grade rating minimum BBB- (S&P or Fitch) or Baa3 (Moody's).

The SICAV will collateralize its SFTs and TRS pursuant to the provisions set forth hereunder in section "MANAGEMENT OF COLLATERAL FOR OTC FINANCIAL DERIVATIVE TRANSACTIONS AND EFFICIENT PORTFOLIO MANAGEMENT TECHNIQUES".

The risks linked to the use of SFTs and TRS as well as risks linked to collateral management, such as, market risks, control and supervision, liquidity risks, counterparty risks, and other risks are further described hereunder in section "RISK FACTORS".

Assets subject to SFTs and TRS will be safe-kept by the Depositary.

The SICAV will make use of the following SFTs:

- Repurchase agreements that consist of forward transactions at the maturity of which the SICAV (seller) has the obligation to repurchase the assets sold and the counterparty (buyer) the obligation to return the assets purchased under the transactions and reverse repurchase agreements that consist of forward transactions at the maturity of which the counterparty (seller) has the obligation to repurchase the asset sold and the SICAV (buyer) the obligations to return the assets purchased under the transactions (Repos and Reverse Repos)
- Total Return Swap (TRS) which is a derivative contract in which one counterparty transfers the total economic performance, including income from interest and fees, gains and losses from price movements, and credit losses, of a reference obligation to another counterparty.

The SICAV is not authorised to enter into any other securities financing transaction as defined in the SFTR or other financial derivative instruments with similar characteristics. Should the SICAV decide to enter into this type of operations in the future, the prospectus would be updated in accordance with the relevant regulations and CSSF Circulars in force.

EFFICIENT PORTFOLIO MANAGEMENT - TECHNIQUES AND INSTRUMENTS

A. General provisions

The SICAV may use Financial Derivatives - Techniques and Instruments mentioned in the previous chapter. In addition, the SICAV may employ other techniques and instruments relating to transferable securities and money market instruments subject to the conditions set out in the CSSF Circular 08/356 as amended from time to time, and CSSF Circular 14/592.

Techniques and instruments which relate to transferable securities or money market instruments and which are used for the purpose of efficient portfolio management, including financial derivatives instruments which

are not used for direct investment purposes, shall be understood as a reference to techniques and instruments which fulfil the following criteria:

- (i) they are economically appropriate in that they are realised in a cost-effective way;
- (ii) they are entered into for one or more of the following specific aims:
 - reduction of risk;
 - reduction of cost;
 - generation of additional capital or income for the SICAV with a level of risk which is consistent with the risk profile of the SICAV and its relevant sub-funds and the risk diversification rules applicable to them;
- (iii) their risks are adequately captured by the risk management process of the SICAV; and
- (iv) they cannot result in a change to the sub-fund's declared investment objective or add significant supplementary risks in comparison to the general risk policy as described in the prospectus and relevant KIIDs.
- (v) The security that has been lent out can be recalled at any time, or the SICAV will terminate any securities lending agreement into which it has entered.

The maximum proportion of assets under management of each Sub-Fund that can be subject to "Repos", "Reverse Repos" or TRS is 20%.

The current expected proportion of assets under management of each Sub-Fund that will be subject to "Repos", "Reverse Repos" or TRS is 0%.

The assets that may be subject to "Repos" or "Reverse Repos" are limited to:

- short term bank certificates or money market instruments such as defined in Directive 2007/16/EC of 19 March 2007 implementing Council Directive 85/611/EEC on the coordination of laws, regulations and administrative provisions relating to certain UCITS as regards the clarification of certain definitions;
- bonds issued or guaranteed by a Member State of the OECD or by their local public authorities; or by supranational institutions and undertakings with EU, regional or world-wide scope;
- bonds issued by non-governmental issuers offering an adequate liquidity;
- shares quoted or negotiated on a regulated market of a European Union Member State or on a stock exchange of a Member State of the OECD.

Credit, interest rate and/or equity may be subject to TRS.

All revenue generated by "Repos" or "Reverse Repos", as well as the full performance of TRS will be kept by the SICAV.

All fees in relation to "Repos" and "Reverse Repos", as well as TRS, are covered by the Service Fee.

When authorised, the SICAV will lend securities within a standardised lending system organised by a recognised securities clearing house or leading financial institution subject to prudential surveillance rules that CSSF considers to be equivalent to those prescribed by European Community law. As part of such transactions, the SICAV will receive, for the sub-fund concerned, a guarantee in the form prescribed by the CSSF Circular 08/356. For each securities loan transaction entered into, the SICAV must receive a guarantee valued at least at 90% of the overall valuation value (including interest, dividends and other rights, if any) of the securities loaned, for the entire duration of the loan. This guarantee must consist of:

- (i) liquidities;
- (ii) bonds issued or guaranteed by OECD member countries or by their local public authorities, or Community, regional or global supranational organisations and institutions;
- (iii) shares or units issued by money-market-type UCIs that calculate a daily net asset value and are classified AAA or equivalent;
- (iv) shares or units issued by UCITS that invest in bonds/shares mentioned in points v. and vi. below,
- (v) bonds issued or guaranteed by first class issuers that offer adequate liquidity, or

- (vi) shares that are listed or traded on a regulated market of a Member State of the European Union or on a stock exchange of a member country of the OECD provided that these shares are included in a main index.

The volume of any such securities lending will be maintained at an appropriate level so that the SICAV can at all times meet its share redemption commitments to its shareholders and not compromise its ability to manage the shares of any sub-fund in accordance with its investment policy.

The sharing of return generated by securities lending will be detailed in an update of this prospectus, once securities lending is authorised.

B. Specific provisions

When authorised, upon entering into a reverse repurchase agreement the SICAV shall ensure that it is able at any time to recall the full amount of cash or to terminate the reverse repurchase agreement on either an accrued basis or a mark-to-market basis. When the cash is recallable at any time on a mark-to-market basis, the mark-to-market value of the reverse repurchase agreement shall be used for the calculation of the net asset value of the sub-funds.

When authorised, upon entering into a repurchase agreement the SICAV shall ensure that it is able at any time to recall any securities subject to the repurchase agreement or to terminate the repurchase agreement into which it has entered.

Fixed-term repurchase and reverse repurchase agreements that do not exceed seven days shall be considered as arrangements on terms that allow the assets to be recalled at any time by the SICAV.

When entering into authorised efficient portfolio management transactions the SICAV shall take into account these operations when developing their liquidity risk management process in order to ensure they are able to comply at any time with their redemption obligations.

C. Risk and potential Conflicts of Interest associated with efficient portfolio management – techniques and instruments

There are certain risks involved in over the counter financial derivative instruments and efficient portfolio management techniques. These risks include counterparty risk and potential conflicts of interests, which may impact the performance of the SICAV. In addition, these risks may expose investors to an increased risk of loss. The Management Company has put in place an adequate conflict of interests policy in order to adequately manage the above mentioned risks.

MANAGEMENT OF COLLATERAL FOR OTC FINANCIAL DERIVATIVE TRANSACTIONS AND EFFICIENT PORTFOLIO MANAGEMENT TECHNIQUES

A. General provisions

The risk exposures to a counterparty arising from OTC financial derivative transactions and efficient portfolio management techniques should be combined when calculating the counterparty risk limits of Article 43 of the 2010 Law.

All assets received by the SICAV in the context of efficient portfolio management techniques should be considered as collateral for the purpose of these guidelines and should comply with the criteria laid down in the below paragraph.

Where the SICAV enters into OTC financial derivative transactions and efficient portfolio management techniques, all collateral used to reduce counterparty risk exposure should comply with the following criteria at all times:

- (i) Liquidity – any collateral received other than cash should be highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation. Collateral received should also comply with the provisions of Article 48 of the 2010 Law.
- (ii) Valuation – collateral received should be valued on at least a daily basis and assets that exhibit high price volatility should not be accepted as collateral unless suitably conservative haircuts are in place. Daily margin valuation will be applied.
- (iii) Issuer credit quality – collateral received should be of high quality.
- (iv) Correlation – the collateral received by the SICAV should be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty.
- (v) Collateral diversification (asset concentration) – collateral should be sufficiently diversified in terms of country, markets and issuers. The criterion of sufficient diversification with respect to issuer concentration is considered to be respected if the SICAV receives from a counterparty of efficient portfolio management and over-the-counter financial derivative transactions a basket of collateral with a maximum exposure to a given issuer of 20% of its net asset value. When the SICAV is exposed to different counterparties, the different baskets of collateral should be aggregated to calculate the 20% limit of exposure to a single issuer.
- (vi) Collateral received should be capable of being fully enforced by the SICAV at any time without reference to or approval from the counterparty.
- (vii) Non-cash collateral received should not be sold, re-invested or pledged.
- (viii) Cash collateral received should only be:
 - a. placed on deposit with entities prescribed in Article 41 (1) f) of the 2010 Law;
 - b. invested in high-quality government bonds;
 - c. used for the purpose of reverse repo transactions provided the transactions are with credit institutions subject to prudential supervision and the SICAV is able to recall at any time the full amount of cash on accrued basis;
 - d. invested in short-term money market funds as defined in the Guidelines on a Common Definition of European Money Market Funds.

Re-invested cash collateral should be diversified in accordance with the diversification requirements applicable to non-cash collateral.

The SICAV may incur a loss in reinvesting the cash collateral it receives. Such a loss may arise due to a decline in the value of the investment made with cash collateral received. A decline in the value of such investment of the cash collateral would reduce the amount of collateral available to be returned by the SICAV to the counterparty at the conclusion of the transaction. The SICAV would be required to cover the difference in value between the collateral originally received and the amount available to be returned to the counterparty, thereby resulting in a loss to the SICAV.

B. Collateral policy

The guarantee received by the SICAV shall predominantly consist of:

- (i) liquidities;
- (ii) bonds issued or guaranteed by OECD member countries or by their local public authorities, or Community, regional or global supranational organisations and institutions;
- (iii) bonds issued or guaranteed by first class issuers that offer adequate liquidity, or
- (iv) shares that are listed or traded on a regulated market of a Member State of the European Union or on a stock exchange of a member country of the OECD provided that these shares are included in a main index.

All assets, including liquidities received by the SICAV as guarantee (collateral) are safe-kept by the Depositary.

C. Haircut policy

The haircut policy applied by the Management Company is as follows:

OTC transactions

Eligible collateral	Valuation percentage
Liquidities	100%

Efficient portfolio management techniques

Eligible collateral	Valuation percentage
Liquidities	100%
Bonds with remaining maturity not exceeding 1 year, issued or guaranteed by OECD member countries or by their local public authorities, or Community, regional or global supranational organisations and institutions	95% for equity loans 98% for fixed income loans
Bonds with remaining maturity 1 year to 5 years, issued or guaranteed by OECD member countries or by their local public authorities, or Community, regional or global supranational organisations and institutions	92% for equity loans 95% for fixed income loans
Bonds with remaining maturity not exceeding 1 year, issued or guaranteed by first class issuers that offer adequate liquidity	95%
Bonds with remaining maturity 1 year to 5 years, issued or guaranteed by first class issuers that offer adequate liquidity	92%
Shares that are listed or traded on a regulated market of a Member State of the European Union or on a stock exchange of a member country of the OECD provided that these shares are included in a main index	95%

The Management Company reserves the right to vary this policy at any time.

RISK MANAGEMENT METHOD

The Management Company's Conducting Officers will seek to ensure that the appointed Managers use a risk management method that makes it possible at any time to control and measure the risk associated with the positions and their contribution to the portfolio's general risk profile and that enables an accurate and independent valuation of over-the-counter derivative instruments. The risk management method used will depend on the specific investment policy for each sub-fund.

RISK FACTORS

The markets in certain countries indicated in the investment policies of sub-funds may not fulfil the criteria for regulated markets as per Article 41(1) of the 2010 Law. Investments in such markets will be considered to be investments not admitted to official listing on a securities exchange or not traded on a regulated market that operates regularly and is recognised and open to the public. As such, they may not exceed 10% of the net assets in accordance with Point 1 of the common provisions covering all current and future sub-funds as presented here-before.

Investments in Russia through the Russian Trading System (RTS) and Moscow Interbank Currency Exchange (MICEX), or other non-regulated Markets, are exposed to an increased risk with regard to the ownership and custody of transferable securities.

There are significant risks inherent in investments in Russia (and in the CIS), such as delays in settling transactions and the risk of loss resulting from securities registration and custodian systems, the lack of provisions concerning corporate governance or general rules or regulations for the protection of investors or the difficulties associated with obtaining precise market values for many Russian (and CIS) securities, partly

because of the limited amount of information available to the public. There is also the risk that the governments of Russia and of the member States of the CIS or other executive or legislative bodies may decide not to continue to support the economic reform programs initiated since the dissolution of the Soviet Union. Furthermore, the proof of legal title will be held in the form of a written record and the SICAV could lose the registration and ownership of its securities following fraud, negligence or even an omission.

Investors should be aware that, due to the political and economic situations in emerging countries, investments in China present greater risk and is intended only for investors who are able to bear and assume this increased risk. In principle, sub-funds investing in China can only be offered to investors who wish to make a long-term investment. Investment in the aforementioned sub-funds may be subject, among other risks, to political risks, capital repatriation restrictions, counterparty risks, and volatility and/or illiquidity risks in the Chinese market.

The risks related to emerging market are magnified in frontier markets countries. Frontier market countries generally have smaller economies and even less developed capital markets or legal, regulatory and political systems than traditional emerging markets. Frontier market economies are less correlated to global economic fluctuations than developed economies and have low trading volumes and the potential for extreme price volatility and illiquidity. The government of a frontier market country may exercise substantial influence over many aspects of the private sector, including by restricting foreign investment, which could have a significant effect on economic conditions in the country and the prices and yields of securities in a Fund's portfolio.

Prospective investors are informed that investing in the SICAV's shares involves a relatively high risk: the leverage effect of investments in warrants on transferable securities and the volatility of prices for warrants on transferable securities increase the risk involved in investing in the SICAV's shares to a higher level than for traditional equities-based funds.

Investors are reminded that investing in High Yield products involves an increase in the risk since, in addition to the risks common to all investments in fixed-income products, such High Yield products are subject to additional fluctuations linked to the credit rating of issuers and the additional yield demanded by the market in return. This required additional yield is not stable over time, but fluctuates with the global economic cycle. As such, the net asset value of sub-funds investing in High Yield products may be more volatile than that of traditional fixed-income sub-funds.

Bonds from issuers in distress are often defined as those that have been given a speculative long-term rating by credit rating agencies, usually CCC- (S&P or FITCH) or Caa3 (Moody's). In some cases, the recovery of investments in distressed or defaulted debt securities is subject to uncertainty related to, among other things, court orderings and corporate reorganisations. Investment in this kind of securities may lead to capital losses and/or losses that can negatively affect the net asset value of the sub-funds.

The risks linked to emerging countries are political (e.g. unstable and volatile political situation and environment), economic (e.g. high rate of inflation, risks linked to investments in recently privatised companies and depreciation of currencies, lack of development on the financial markets), legal (legal insecurity and general difficulties getting rights recognised), and tax-related (in certain states, tax expenses may be very high and there is no guarantee of a standard and consistent interpretation of the laws; local authorities often have a discretionary power to create new taxes, sometimes effective retroactively).

There are also risks of losses due to a lack of suitable systems for the transfer, valuation, clearing, accounting recognition and the registration procedure for transferable securities, the custodianship of transferable securities and the liquidation of transactions, risks that are not as common on most markets in Western Europe, North America (USA and Canada) or other developed markets.

Since certain bond and derivative markets represent over-the-counter markets, the liquidity of securities may be affected by liquidity or systemic crises. This results in increased volatility and illiquidity for investments.

Structured products represent synthetic products. Such products may also incorporate derivative instruments and/or other investment techniques and instruments. As such, it is necessary to factor in not only the risks inherent to the transferable securities, but also the risks inherent to the derivative instruments and other investment techniques and instruments. In general, investors are exposed to the basic underlying instruments or market risks, as well as the issuer risk for the structured product and the underlying risk. Depending on their make-up, they may be more volatile and therefore entail more risks than direct

investments, while also involving a risk of losing yields or even losing all of the capital invested due to changes in market prices or the basic underlying instruments.

Risks linked to the use of derivative instruments and other specific investment techniques and financial instruments including efficient portfolio management techniques

Careful use of derivative instruments, such as but not limited to options, futures, swaps, CDS, etc., as well as of other specific investment techniques and financial instruments, may well represent a source of advantages, but also involves different risks than those linked to traditional forms of investment that, in certain cases, may even be greater. The following sections present a general description of the risk factors and key aspects concerning the use of derivative instruments as well as other specific investment techniques and financial instruments, which investors must take into consideration before any investment in a sub-fund.

Market risks: in general, these risks are linked to all forms of investment; as such, the change in the value of a specific financial instrument may in certain cases go against a sub-fund's interests.

Control and supervision: derivative instruments as well as other specific investment techniques and financial instruments represent special products that require different investments techniques and risk analyses than equities and bonds. Using a financial derivative instrument presupposes not only knowledge of the underlying instrument, but also knowledge of the derivative instrument itself, while changes in the value of the latter may not be able to be monitored under all possible market conditions. More specifically, the use and complexity of such products require suitable control mechanisms to be maintained for the supervision of transactions entered into, and the risks incurred by sub-funds in relation to such products and changes in the stock price, interest rate and exchange rate concerned must be able to be determined.

Liquidity risks: there are liquidity risks when a specific security is difficult to buy or sell. If there is a high volume of transactions or if markets are partially illiquid (notably in the event of many instruments traded on an individual basis), it may prove to be impossible to carry out a transaction or unwind a position at a beneficial stock price under certain circumstances.

Counterparty risks: with derivative instruments traded over the counter, the counterparty for a transaction may not be able to honour its commitments and/or contracts may be cancelled, for instance in the event of bankruptcy, subsequent illegality or changes to the legal prescriptions concerning taxation or the presentation of accounts compared with those in force when entering into the contract linked to over-the-counter derivative instruments.

Other risks: the other risks inherent to the use of derivative instruments as well as other specific investment techniques and financial instruments include the risk of a differing valuation of financial products, resulting from the application of different accredited valuation methods and the lack of any absolute correlation (model risks) between the derivative products and the underlying transferable securities, interest rates, exchange rates and indexes. Many derivative instruments, and particularly over-the-counter derivative instruments, are complex and often valued subjectively. Inaccurate valuations may result in higher cash payments to the counterparty or impairments in value for a sub-fund. The derivative instruments do not always fully or even to a great extent reflect changes in the transferable securities, interest rates, exchange rates or indexes which they are supposed to be aligned with. As such, the use of derivative instruments as well as other specific investment techniques and financial instruments by a sub-fund does not necessarily represent an effective means of achieving a sub-fund's investment objective and may even prove to be counter-productive.

Repurchase and reverse repurchase agreement risk: The risks associated with repurchase and reverse repurchase transactions arise if the counterparty to the transaction defaults and the compartment experiences losses or delays in recovering its investments. Although repurchase transactions are fully collateralized, the compartment could incur a loss if the value of the securities sold has increased in value relative to the value of the margin held by the compartment. In a reverse repurchase transaction, the compartment could incur a loss if the value of the purchased securities has decreased in value relative to the value of the margin held by the compartment.

Risks linked to investments in Credit Default Swaps (CDS)

When selling protection on a CDS, an investor will face many of the same risks as when investing in the corresponding underlying security, namely:

- A spread risk, i.e. a credit spread widening and thus a capital loss on the back of a credit deterioration
- A default risk
- A liquidity risk

In addition, the CDS investor will face additional risks compared to an investor in the corresponding underlying security, namely:

- A counterparty risk when the CDS instruments used are not cleared through a clearing house. Note that this risk can be mitigated by counterparty risk analysis, diversification and daily margin calls
- A credit event risk, i.e. a restructuring event which might "trigger" the CDS and therefore be equivalent to a default, although there is no equivalent event of default on the underlying issuer

On the other hand, unlike an investor in the corresponding underlying security, when selling protection on a CDS, an investor only faces marginal currency risk and marginal to no interest rate risk. It further does not face any early repayment risk (issuer's call optionality).

When buying protection on a CDS to hedge a risk on a corresponding underlying security, the investor faces additional risk, namely:

- A basis risk, i.e. the risk that the CDS might evolve differently than the underlying security, for instance because the maturity or the seniority of the CDS cannot be precisely matched with the underlying security or in the case of indices because the composition is different for CDS vs. traditional indices or because the two markets might evolve differently for a certain period of time due to differing investors' flows in each market.
- Incomplete protection: the investor in the underlying security might be exposed to a quasi-default or write-down risk in case of a restructuring and the CDS could fail to be "triggered" because the restructuring does not qualify as a "CDS credit event". In this case the CDS would not offer the expected compensation for the loss on the underlying security.

Risks linked to investments in mortgage-related or asset-backed bonds

Some sub-funds, and more specifically the bond sub-funds, may invest in mortgage-related derivative products and structured securities, and more specifically mortgage-related and asset-backed securities. Mortgage pass-through securities represent interests in "deposits" of mortgages which the capital and interest payments made each month by individual borrowers on the mortgage loans underlying the securities pass through. The early or late repayment of the principal in an underlying mortgage in relation to the repayment schedule for pass-through securities held by sub-funds may reduce the rate of profitability when sub-funds reinvest this principal.

Furthermore, as well as for bond securities that are repayable early in general, if sub-funds acquire premium securities, any repayment would reduce the value of the security in relation to the premium paid. If interest rates rise or fall, the value of a mortgage-related security generally decreases or increases, but to a lesser extent than for other securities without any early repayment clause.

Payment of the principal and interest on certain mortgage pass-through securities (but not the market value of the securities themselves) may be guaranteed by the American Federal Government or by American Federal Government agencies or organisations (for which guarantees are based solely on the American Federal Government's discretionary power to buy back commitments for such agencies or organisations). Certain mortgage pass-through securities issued by non-governmental institutions may be combined with different forms of guarantees or insurance, while others may only be backed with the underlying mortgage collateral.

The sub-funds concerned may also invest in first-rate "CMO" bonds, which represent structured products guaranteed by different sources of mortgage pass-through securities. As with a bond, in most cases the holder of a CMO receives the principal paid back early and the interest on a monthly basis.

The collateral for CMOs may be based directly on residential or commercial mortgages, although it is more generally based on portfolios of residential mortgage pass-through securities guaranteed by the American Federal Government or its agencies or organisations. CMOs are structured in several tranches of securities, each tranche with its own forecast average term and/or its own fixed maturity. Monthly payments of the principal, including early repayments, are assigned to the various tranches depending on the legal conditions associated with each instrument, and changes in the early repayment rates or calculation assumptions may have major consequences on the forecast average term and the value of a given tranche.

The sub-funds concerned may invest in stripped mortgage-backed securities, on which the repayment of the principal ("principal-only") or interest ("interest-only") is structurally deferred. Such securities are characterised by greater volatility than other types of mortgage-backed securities. Stripped mortgage-backed securities bought at a significant premium or discount are generally extremely sensitive not only to variations in the interest rates commonly applied, but also the speed with which the principal is repaid (including early repayments) on the underlying mortgage debts, and when the speed with which the principal is repaid is higher or lower than the expected rate on a lasting basis, the yield to maturity on such securities may fall sharply. In addition, stripped mortgage-backed securities may be less liquid than other differently structured securities and are characterised by greater volatility in the event of any unfavourable change in interest rates.

In addition to the abovementioned securities, the Manager concerned anticipates the issuing of new types of mortgage-backed securities by the federal government, governmental or para-governmental entities and private borrowers. As new types of mortgage-backed securities are developed and offered to investors, the Manager will consider investing in such securities provided that they are traded on an organised market.

Transferable asset-backed securities represent an equity interest in or are guaranteed by and repayable on the financial flows generated by specific debts, in most cases a source of similar debt facilities, such as motor loans, credit card debt, loans guaranteed by a real estate asset, construction loans or bank bonds.

The abovementioned sub-funds may also invest in collateralised loan obligations ("CLO") for which the underlying portfolio is made up of loans.

Risks linked to investments in convertible bonds

Certain sub-funds may invest in convertible bonds that experience market changes and hazards, as they are particularly influenced by the price of the underlying share, the general level of interest rates, the issuer's credit risk, the currency level (whether the issuing currency or that of the underlying share), and the volatility of the conversion option. The significance of those risks may vary over time.

UBAM - EUROPE 10-40 CONVERTIBLE BOND, UBAM - GLOBAL 10-40 CONVERTIBLE BOND, UBAM - GLOBAL CONVERTIBLE BOND and UBAM - SRI EUROPEAN CONVERTIBLE BOND, as feeder sub-funds shall invest at least 85% of their net assets in their respective master sub-funds which mainly invest in convertible bonds that experience market changes and hazards, as they are particularly influenced by:

- the price of the underlying share, - *Equity risk*;
- the general level of interest rates - *Interest-rate risk*;
- the level of the issuer's credit risk - *Credit risk*;
- the level of foreign currencies, be it that of the issuing currency or that of the underlying share's currency - *Exchange rate risk*;
- volatility of the conversion option - *Volatility risk*.

Principal risks linked to investments in contingent convertible capital bonds (Cocos)

Loss of principal investment: Cocos are being issued for regulatory capital adequacy purposes with the intention and purpose of being eligible as either Additional Tier 1 or Tier 2 capital. Such eligibility depends upon a number of conditions, which, in particular, require the securities and the proceeds of their issue to be available to absorb any losses of their issuers. The loss absorption is provided for by triggering principal equity conversion or principal write down (in whole or in part), if the issuer's capital ratio falls below a pre-specified threshold level. There is also a possibility of principal equity conversion or principal write down (in

whole or in part) upon the regulatory intervention, which can happen even if the capital ratio is still above the pre-specified threshold.

As a consequence of such a reduction to the outstanding principal, holders of securities may lose all or some of their investment.

By contrast with convertible bonds, in the case of contingent convertible capital bonds an exchange into shares is, as a rule, mandatory, if triggered.

Trigger risk: in the event that (i) the issuer falls below pre-determined capital ratio threshold levels or (ii) at the request of a financial regulator with supervisory authority causing CoCos to convert into equity or to be permanently written down. In the first case, the trigger event calculations may also be affected by changes in applicable accounting rules, the accounting policies of the issuer or its group and the application of these policies. In the event of a security being converted to equity, investors may suffer a loss depending on the conversion rate. Were the securities to be written down, the principal may be fully lost with no payment to be recovered. Some CoCos may be written back up to par over time, but the issuer may be under no obligation to fully do so. Following a trigger event, losses may not reflect the waterfall of subordination and in some circumstances CoCo bond holders may suffer losses prior to investors in the same financial institution holding equity or bonds ranking pari passu or junior to the CoCo instruments. Independent from the trigger risk, a financial regulator with supervisory authority may at any time deem the issuer to have reached a point of non-viability, meaning that public intervention would be needed to keep the issuer out of bankruptcy, causing losses across the capital structure for equity and bondholders alike. Under these circumstances CoCo bondholders would suffer losses in line with the subordination of the CoCo host instrument.

Coupon cancellation: CoCos issued in Additional Tier 1 format give the issuer an option to cancel any payment of interest any time at its sole discretion. In addition, the issuer may be required by the regulator to cancel the coming interest payments. Coupon cancellation will also be a subject of issuer breaching a certain capital ratio threshold.

Any cancellation of interest represents a forgone coupon payment and will not be reimbursed, in case issuer decides to resume interest payments at the later stage.

Extension risk: as there may be no incentive, in the form of a coupon step-up, for the issuer to redeem the securities issued, this would cause the securities' duration to lengthen and to expose investors to higher interest rate risk.

Capital structure inversion risk: contrary to classic capital hierarchy, CoCo investors may suffer a loss of capital when equity holders do not. In certain scenarios, holders of CoCos will suffer losses ahead of equity holders, e.g., when a high trigger principal write-down CoCo is activated. This cuts against the normal order of capital structure hierarchy where equity holders are expected to suffer the first loss. This is less likely with a low trigger CoCo when equity holders will already have suffered loss. Moreover, high trigger Tier 2 CoCos may suffer losses not at the point of gone concern but conceivably in advance of lower trigger AT1s and equity.

Unknown risk: The structure of the investments in Cocos is innovative and has not been fully tested as of today.

Cocos tend to have higher price volatility and greater liquidity risk than other securities which do not expose investors to the aforementioned risks.

Principal risks linked to investments in preferred shares

Subordination risk: Issuer's obligations under preferred shares are subordinated in the right of payment to all senior obligations. In the event of bankruptcy, insolvency or liquidation of the issuer the preferred shares holders rank behind the senior and subordinated debt in terms of principal repayment from the liquidation proceeds.

Risk related to distribution payments: Preferred shares give the issuer an option to cancel any payment of interest any time. In some cases, Interest/ dividend on preferred securities is payable only if declared by the board of directors of the issuer or by a duly authorized committee of the board. In addition, the issuer will pay no dividends/ interest, if its payment would cause it to fail to comply with any applicable law or regulation.

Finally, the regulator can, upon its discretion, limit the ability of the issuer to pay distributions on its preferred shares.

Distributions can be halted for very long or even indefinite periods without invoking a default. Any cancellation of distributions represents a forgone payment and will usually not be reimbursed, in case issuer decides to resume the payments at the later stage.

The level of these various risks varies greatly over time. Furthermore the general level of the markets has a significant influence on all these parameters.

Definition and risks linked to the use of Shanghai-Hong Kong Stock Connect

Definition of the Shanghai-Hong Kong Stock Connect

Some sub-funds may invest and have direct access to certain eligible China A-Shares via the Stock Connect. The Stock Connect is a securities trading and clearing linked program developed by Hong Kong Exchange and Clearing Limited ("HKEx"), Shanghai Stock Exchange ("SSE") and China Securities Depository and Clearing Corporation Limited ("ChinaClear"), with an aim to achieve mutual stock market access between Mainland China and Hong Kong.

The Stock Connect comprises a Northbound Trading Link (for investment in China A-Shares) by which investors, through their Hong Kong brokers and a securities trading service company to be established by the Stock Exchange of Hong Kong Limited ("SEHK"), may be able to place orders to trade eligible shares listed on SSE by routing orders to SSE.

Under the Stock Connect, overseas investors (including the sub-funds) may be allowed, subject to rules and regulations issued/amended from time to time, to trade certain China A-Shares listed on the SSE (the "SSE Securities") through the Northbound Trading Link. The SSE Securities include all the constituent stocks from time to time of the SSE 180 Index and SSE 380 Index and all the SSE-listed China A-Shares that are not included as constituent stocks of the relevant indices but which have corresponding H-Shares listed on SEHK, except (i) those SSE-listed shares which are not traded in RMB and (ii) those SSE-listed shares which are included in the "risk alert board". The list of eligible securities may be changed subject to the review and approval by the relevant People's Republic of China ("PRC") regulators from time to time.

Further information about the Stock Connect is available online at the website: http://www.hkex.com.hk/eng/market/sec_tradinfra/chinaconnect/chinaconnect.htm

Risk linked to the use of Shanghai-Hong Kong Stock Connect

Quota limitations risk: The Stock Connect is subject to quota limitations on investment, which may restrict the sub-fund's ability to invest in China A-Shares through the Stock Connect on a timely basis and the sub-fund may not be able to effectively pursue its investment policy.

Suspension risk: Both SEHK and SSE reserve the right to suspend trading if necessary to ensure an orderly and fair market and managing risks prudently which would affect the sub-fund's ability to access the Mainland China market via Stock Connect.

Differences in trading day: The Stock Connect operates on days when both the Mainland China and Hong Kong markets are open for trading and when banks in both markets are open on the corresponding settlement days. So it is possible that there are occasions when it is a normal trading day for the Mainland China market but Hong Kong investors (such as the sub-funds) cannot carry out any China A-Shares trading. The sub-funds may be subject to a risk of price fluctuations in China A-Shares during the time when the Stock Connect is not trading as a result.

Clearing, settlement and custody risks: The Hong Kong Securities Clearing Company Limited, a wholly-owned subsidiary of HKEx (the "HKSCC") and ChinaClear establish the clearing links and each is a participant of each other to facilitate clearing and settlement of cross-boundary trades. As the national central counterparty of the Mainland China's securities market, ChinaClear operates a comprehensive network of clearing, settlement and stock holding infrastructure. ChinaClear has established a risk management

framework and measures that are approved and supervised by the China Securities Regulatory Commission (CSRC). The chances of a ChinaClear default are considered to be remote.

Should the remote event of a ChinaClear default occur and ChinaClear be declared as a defaulter, HKSCC will in good faith, seek recovery of the outstanding stocks and monies from ChinaClear through available legal channels or through ChinaClear's liquidation. In that event, the sub-fund may suffer delay in the recovery process or may not be able to fully recover its losses from ChinaClear.

The China A-Shares traded through the Stock Connect are issued in scriptless form, so investors such as the sub-fund will not hold any physical China A-Shares. Hong Kong and overseas investors, such as the sub-fund, who have acquired SSE Securities through Northbound Trading should maintain the SSE Securities with their brokers' or custodians' stock accounts with the Central Clearing and Settlement System operated by HKSCC for the clearing of securities listed or traded on SEHK. Further information on the custody set-up relating to the Stock Connect is available upon request at the registered office of the SICAV.

Nominee arrangements in holding China A-Shares: HKSCC is the "nominee holder" of the SSE securities acquired by overseas investors (including the sub-fund) through the Stock Connect. The CSRC Stock Connect rules expressly provide that investors such as the sub-fund enjoy the rights and benefits of the SSE securities acquired through the Stock Connect in accordance with applicable laws. However, the courts in Mainland China may consider that any nominee or custodian as registered holder of SSE securities would have full ownership thereof, and that even if the concept of beneficial owner is recognized under Mainland China law those SSE securities would form part of the pool of assets of such entity available for distribution to creditors of such entities and/or that a beneficial owner may have no rights whatsoever in respect thereof. Consequently, the sub-fund and the Depositary Bank cannot ensure that the sub-fund's ownership of these securities or title thereto is assured in all circumstances.

Under the rules of the Central Clearing and Settlement System operated by HKSCC for the clearing of securities listed or traded on SEHK, HKSCC as nominee holder shall have no obligation to take any legal action or court proceeding to enforce any rights on behalf of the investors in respect of the SSE securities in Mainland China or elsewhere. Therefore, although the sub-fund's ownership may be ultimately recognised, the sub-fund may suffer difficulties or delays in enforcing its rights to China A-Shares.

To the extent that HKSCC is deemed to be performing safekeeping functions with respect to assets held through it, it should be noted that the Depositary Bank and the sub-fund will have no legal relationship with HKSCC and no direct legal recourse against HKSCC in the event that a sub-fund suffers losses resulting from the performance or insolvency of HKSCC.

Investor compensation: Investments through Northbound Trading under the Stock Connect will not be covered by Hong Kong's Investor Compensation Fund. Hong Kong's Investor Compensation Fund is established to pay compensation to investors of any nationality who suffer pecuniary losses as a result of default of a licensed intermediary or authorised financial institution in relation to exchange-traded products in Hong Kong.

Since default matters in Northbound Trading via the Stock Connect do not involve products listed or traded in SEHK or Hong Kong Futures Exchange Limited, they will not be covered by the Investor Compensation Fund. On the other hand, since the sub-fund is carrying out Northbound Trading through securities brokers in Hong Kong but not Mainland China brokers, they are not protected by the China Securities Investor Protection Fund in Mainland China.

Operational risk: The Stock Connect provides a new channel for investors from Hong Kong and overseas, such as the sub-fund, to access the Mainland China stock market directly.

The Stock Connect is premised on the functioning of the operational systems of the relevant market participants. Market participants are able to participate in this program subject to meeting certain information technology capability, risk management and other requirements as may be specified by the relevant exchange and/or clearing house.

It should be appreciated that the securities regimes and legal systems of the two markets differ significantly and in order for the trial program to operate, market participants may need to address issues arising from the differences on an on-going basis.

Furthermore, the “connectivity” in the Stock Connect program requires routing of orders across the border. This requires the development of new information technology systems on the part of the SEHK and exchange participants (i.e. a new order routing system (“China Stock Connect System”) to be set up by SEHK to which exchange participants need to connect). There is no assurance that the systems of the SEHK and market participants will function properly or will continue to be adapted to changes and developments in both markets. In the event that the relevant systems fail to function properly, trading in both markets through the program could be disrupted. The sub-fund’s ability to access the China A-Share market (and hence to pursue its investment strategy) will be adversely affected.

Trading costs: In addition to paying trading fees and stamp duties in connection with China A-Share trading, the sub-fund may be subject to new portfolio fees, dividend tax and tax concerned with income arising from stock transfers which are yet to be determined by the relevant authorities.

Regulatory risk: The CSRC Stock Connect rules are departmental regulations having legal effect in the PRC. However, the application of such rules is untested and there is no assurance that Mainland China courts will recognize such rules, e.g. in liquidation proceedings of Mainland China companies.

The Stock Connect is novel in nature and is subject to regulations promulgated by regulatory authorities and implementation rules made by the stock exchanges in Mainland China and Hong Kong. Furthermore, new regulations may be promulgated from time to time by the regulators in connection with operations and cross-border legal enforcement in connection with cross-border trades under the Stock Connect.

The regulations are untested so far and there is no certainty as to how they will be applied. Moreover, the current regulations are subject to change. There can be no assurance that the Stock Connect will not be abolished. The sub-fund may be affected as a result of such changes.

Stock Connect Tax Risks: Pursuant to Caishui [2014] No. 81 (“**Notice 81**”), foreign investors investing in China A-Shares listed on the Shanghai Stock Exchange through the Stock Connect would be temporarily exempted from China corporate income tax and business tax on the gains on disposal of such China A-Shares. Dividends would be subject to Mainland China corporate income tax on a withholding basis at 10%, unless reduced under a double tax treaty with China upon application to and obtaining approval from the competent China tax authority.

It is noted that Notice 81 states that the corporate income tax exemption effective from 17 November 2014 is temporary. As such, as and when the PRC authorities announce the expiry date of the exemption, the sub-fund may in future need to make provision to reflect taxes payable, which may have a substantial negative impact on the net asset value of the sub-fund.

NET ASSET VALUE

The net asset value as well as the issue and redemption price per share for each share class of the SICAV’s various sub-funds is determined in the base currency of each class on a valuation day (the “Valuation Day”) which is defined as follows:

- for UBAM - MULTIFUNDS ALTERNATIVE sub-fund: each Friday which is a full bank business day in Luxembourg (weekly net asset value). If the Friday is not a full bank business day in Luxembourg, the Valuation Day will be set on the next full bank business day in Luxembourg;
- for all other sub-funds each full bank business day in Luxembourg (daily net asset value).

“Business Day” refers to full bank business days in Luxembourg, with the exception of:

- days when the stock exchanges in the main countries hosting the sub-fund’s investments are closed and 50% or more of the sub-fund’s investments cannot be appropriately valued or
- times when the stock exchanges in the main countries hosting the sub-fund’s investments are closed for at least half-a-day and the Investment Manager is not able to place investment/disinvestment orders according to the subscription or redemption request received.

There will only be net asset values dated on the days which are considered as ‘Business Day’ according to the definition above.

STANDARD RULE

The net asset value as well as the issue and redemption price per share for each share class of the SICAV's various sub-funds is determined based on the closing prices from the Business Day preceding the Valuation Day.

The date of the net asset value thus determined is the one of the Business Day preceding the Valuation Day;

EXCEPTIONS

For Fund of Funds sub-funds with daily net asset value, the Valuation Day is determined 2 Business Days following the net asset value date. The net asset value calculated is based on the underlying funds' prices dated as of the date of the relevant sub-fund's net asset value.

In case an underlying fund's price is not available as of the relevant sub-fund's net asset value date, the last preceding net asset value available will be taken into consideration as basis for the calculation.

The date of the net asset value thus determined is the one dated from 2 Business Days preceding the Valuation Day.

For UBAM - ANGEL JAPAN SMALL CAP EQUITY and UBAM - SNAM JAPAN EQUITY VALUE, the net asset value is determined based on the closing prices of the Valuation Day.

The date of the net asset value thus determined is the one of the Valuation Day.

For some sub-funds whose net asset value is not daily, the SICAV may at its discretion determine an estimated net asset value on days that are not Valuation Days. This estimated net asset value cannot be used for subscription, redemption or conversion and will be provided solely for information. In this way, for the UBAM - MULTIFUNDS ALTERNATIVE sub-fund, a net asset value will be calculated based on prices of the last Business Day of the month in the various markets concerned, which cannot be used for subscription, redemption or conversion and will be provided solely for information.

The net asset value is calculated by dividing the value of net assets for each class from each Type in the SICAV's various sub-funds by the total number of shares outstanding on this date in the class concerned, rounding off the amount obtained to the nearest whole hundredth for each share in the currency for the class concerned. The SICAV's Board of Directors reserves the right to have the net asset value of certain sub-funds calculated to three decimal places, rounding off to the nearest whole thousandth for each share in the currency for the class concerned. The value of the net assets of each sub-fund within the SICAV is equal to the difference between the assets and liabilities due for this sub-fund, factoring in, as relevant, the breakdown of this sub-fund's net assets between the Types and classes in accordance with Article 23 of the Articles of Association. To determine the net assets, income and expenses are recorded on a daily basis. The valuation of assets of the different sub-funds is determined as follows:

- 1) The value of cash at hand or in deposits, bills and notes payable on sight and accounts receivable, accrued expenses, dividends and interest announced or accrued but not yet received, is based on the nominal value of such assets, unless it is unlikely that this value may be received; in this last case, the value is determined by deducting a certain amount as deemed appropriate by the SICAV in order to reflect the actual value of such assets.
- 2) Transferable securities that are traded or listed on a stock exchange are valued based on closing prices on the full bank business day preceding the Valuation Day, unless such prices are not representative.
- 3) Transferable securities traded on another regulated market are valued based on the latest available prices the Day preceding the Valuation Day, unless such prices are not representative.
- 4) If any transferable securities held in the portfolio on the Valuation Day are not traded on a regulated market or, if for securities traded on another regulated market, the price determined in accordance with subparagraph (2) is not representative of the actual value of such transferable securities, they are valued based on the likely realisable value, which must be estimated with caution and good faith.
- 5) Derivative financial instruments listed on a stock exchange or traded on a regulated market will be valued at their closing price on the Business Day preceding the Valuation Day on the stock exchanges or regulated markets in this way.

- 6) The value of any derivative financial instruments that are not listed on a stock exchange or traded on another regulated market will be determined each day on a reliable basis and verified by a competent professional appointed by the Company in line with market practices.
- 7) Shares in underlying open-ended investment funds will be valued based on the net asset value available on the Business Day preceding the Valuation Day, provided said net asset value is dated on prior to the Valuation Day, after deducting any fees applicable.
- 8) The value of money market instruments that are not listed on a stock exchange or traded on another regulated market will be based on the nominal value plus any capitalised interest or based on the amortisation of costs.
- 9) Regarding the valuation of money market instruments and other debt securities with a residual duration of less than 12 months, the valuation rate is gradually aligned with the buy-back rate based on the net purchase price, and taking into account the returns generated. The valuation thus calculated may differ from the actual market price. In case of significant variations in market conditions, the basis for evaluating the different investments is adjusted based on the new market returns.
- 10) If, further to specific circumstances, a valuation based on the rules set out above becomes unworkable or inaccurate, other generally accepted and verifiable valuation criteria are applied in order to obtain a fair valuation.

Furthermore, with reference to point 9 above, the SICAV's Board of Directors reserves the right, particularly for the bond sub-funds, to use the same stock price as that used by the indexes against which the performances of such sub-funds are benchmarked according to the annual report, when these are taken at a specific time.

Any assets not expressed in the currency of the sub-fund that they belong to are converted into this sub-fund's currency at the exchange rate in force on the Business Day concerned or at the exchange rate provided for under the forward agreements.

Swing Pricing Mechanism

Sub-fund may suffer a reduction in value of the net asset value per share due to transaction costs incurred in the purchase and sale of their underlying investments and/or the spread between the buying and selling prices of such investments when underlying investments trades are undertaken by the Investment Manager to accommodate subscriptions, redemptions and/or conversions.

In order to counter this and to protect Shareholders' interests, the Management Company adopted a Swing Pricing Mechanism.

The Swing Pricing Mechanism means that in certain circumstances, the Management Company will make adjustments in the calculation of the net asset values per Share. The net asset value per share may be adjusted upwards or downwards to reflect net inflows and net outflows respectively. The extent of the adjustments will be set by the Management Company to reflect the above mentioned transactions costs and/or spread when these are deemed to be significant. The maximum adjustment will not exceed 2% of the original net asset value per share.

The Swing Pricing Mechanism may be applied across all Bond sub-funds with the exception of UBAM - DYNAMIC EURO BOND, UBAM - DYNAMIC US DOLLAR BOND, UBAM - EURO BOND, UBAM - GLOBAL HIGH YIELD SOLUTION, UBAM - HIGH GRADE EURO INCOME, UBAM - US DOLLAR BOND, UBAM - US HIGH YIELD SOLUTION and UBAM - US SHORT TERM INFLATION LINKED BOND and will be applied in an equitable manner to all shareholders of a same sub-fund on the same net asset value Date.

No Swing Pricing Mechanism will be applied for Feeder bond sub-funds, Feeder convertible sub-funds, Equity sub-funds, Asset Allocation sub-funds and Fund of funds sub-funds.

The net asset value per share of each class of each Type within the various sub-funds, and their issue, redemption and conversion prices may be obtained each full bank business in Luxembourg from the SICAV's registered office.

ISSUE OF SHARES

For each class of each Type of the different sub-funds, the SICAV's Board of Directors is authorised to issue shares at any time and without any limitations (cf. chapter "[INTRODUCTION](#)").

The Board of Directors has decided to launch the following new sub-funds according to the below mentioned conditions:

	1 st subscription price	Initial subscription period	Payment of 1 st subscription price	Date of 1 st NAV
UBAM - HIGH GRADE EURO INCOME	EUR/USD/CHF/GBP 100 SEK 1'000	TBC	TBC	TBC
UBAM - BEST SELECTION ASIA EQUITY	USD/EUR/CHF/GBP 100 SEK 1'000	TBC	TBC	TBC
UBAM - BEST SELECTION EURO EQUITY	EUR/USD/CHF/GBP 100 SEK 1'000	TBC	TBC	TBC
UBAM - TECH GLOBAL LEADERS	USD/EUR/CHF/GBP 100 SEK 1'000	TBC	TBC	TBC
UBAM - TECH GLOBAL LEADERS HEDGE	USD/EUR/CHF/GBP 100 SEK 1'000	TBC	TBC	TBC

At the end of the initial subscription period, the shares are issued at a price corresponding to the net asset value per share of the share Type of the relevant sub-fund. This price may be increased by a front-end load representing up to 3% of the net value payable to intermediaries involved in the subscription process for all Types of shares.

* Based on the closing prices as of the NAV Date

If accepted, the applications are processed at the net asset value per share calculated on the Valuation Day. For sub-funds issuing different classes of shares, applications must indicate the share class concerned.

The subscription price for shares is applied in the currency in which the net asset value is calculated for the assets of the relevant class. Any bank charges connected with the payment of subscriptions are borne by the SICAV.

Under the conditions defined by the Board of Directors and subject to the provisions of the law, the subscription price may be paid by a contribution in kind. Such contribution in kind shall be subject to an audit report to the extent required by Luxembourg law. In principle, the costs linked to such contribution in kind shall be borne by the concerned investors.

A subscription by a private investor (a natural person) will not be considered valid and will only be processed after receipt of the request and subscription price by the administrative agent.

No share certificates are issued.

The SICAV reserves the right to reject any subscription application or accept only some of them. In addition, the Board of Directors reserves the right to interrupt the issue and sale of shares at any time and without any prior notice.

No shares are issued if the net asset value calculation is suspended by the SICAV. Each shareholder who makes a subscription application is advised of that suspension, and any subscription requests that are pending may be withdrawn further to written notification received by the SICAV before the suspension revocation.

Unless applications have been withdrawn, they will be taken into consideration on the first Valuation Day following the end of the suspension.

Subscription applications in a currency other than a sub-fund's base currency (list of currencies to be approved by the SICAV's Board of Directors) will only be accepted if the Depositary Bank clears the funds.

The Depositary Bank will carry out the foreign exchange transactions on behalf on the sub-fund, at the investor's risks and expenses.

Subscription applications made in countries in which the SICAV is authorised to carry on public retailing activities can be submitted by local paying agents and distributors acting in their own name but on behalf of end investors. Said local paying agents and distributors will be listed in the SICAV's list of shareholders in lieu of the end investors. Local paying agents have the right to charge fees to investors for handling subscriptions to, redemptions of and the conversion of the SICAV's shares.

Fight against money laundering

The legal and regulatory provisions set various obligations for financial professionals with a view to preventing the use of Undertakings for Collective Investment for money laundering.

As a result, the identity of subscribers and, if applicable, any economic beneficiaries, will need to be revealed and documented in accordance with these legal and regulatory provisions.

If any information or documents required for identification purposes is missing, this may result in subscription and/or redemption applications being suspended.

Ban on LATE TRADING and MARKET TIMING

Late Trading is defined as accepting an application for subscription, conversion, or redemption of shares after the time limit (as set out above) on the Valuation Day in question and the performance of such requests based on the net asset value which applies on such a day. *Late Trading* is strictly prohibited.

Market Timing is an arbitrage transaction by means of which an investor systematically subscribes to and buys back or converts the SICAV shares in a short period of time, exploiting the time differences and/or imperfections or deficiencies in the system used to determine the net asset value of the sub-fund concerned. *Market Timing* practices can disrupt the management of investment portfolios and damage the performance of the sub-fund concerned.

In order to prevent such practices, shares will be issued at an unknown price and neither the SICAV nor the SICAV's share sales agents will accept orders received after the applicable time limits.

The SICAV reserves the right to refuse subscription orders, conversion orders, or buy-back orders for a sub-fund made by any person suspected of carrying out *Market Timing*.

REDEMPTION OF SHARES

Shareholders wishing to redeem all or part of their shares may submit a written request to the SICAV at any time. The request must indicate the number of shares to be redeemed, the sub-fund / share class concerned, the name they are registered under, as well as details of the party to which the redemption price is to be paid.

Sub-fund Name	Redemption Notice	Cut-off (LU time)	NAV Date	Valuation Day (J)	Redemption Settlement (at the latest)

* Based on the closing prices as of the NAV Date

Payments are made by transfers to shareholders' accounts or by cheque sent to the address they have indicated, with the risks and costs to be borne by shareholders. Any bank charges linked to the payment of redemptions are borne by the SICAV.

The Redemption price for the SICAV's shares may be higher or lower than the purchase price paid by the shareholder, depending on fluctuations in the SICAV's net asset value per share.

Under the conditions defined by the Board of Directors, with the express consent of the concerned investors and subject to the provisions of the law, the redemption price may be paid in kind. Such redemption in kind shall be subject to an audit report to the extent required by Luxembourg law. In principle, the costs linked to such redemption in kind shall be borne by the concerned investors.

Redemption rights are suspended for any period during which the calculation of the net asset value per share is suspended. All shareholders submitting redemption applications are notified of this suspension and any redemption applications pending in this way may be withdrawn further to written notification received by the SICAV before the suspension revocation.

In the absence of such notice, the shares in question are redeemed on the first Valuation Day following the end of the suspension.

The shares that are redeemed are cancelled.

The redemption price for shares is applied in the currency in which the net asset value is calculated for the class in question.

If all of the redemption applications concerning a sub-fund for a given Valuation Day represent 10% or more of this sub-fund's net assets, the SICAV's Board of Directors reserves the right to only settle redemption applications once, without any undue delay, the corresponding asset elements have been sold. If such a measure proves to be necessary, all redemption applications submitted on the same date will be treated equally.

Redemption applications in a currency other than a sub-fund's base currency (list of currencies to be approved by the SICAV's Board of Directors) will only be accepted if the Depositary Bank clears the funds.

The Depositary Bank will carry out the foreign exchange transactions on behalf of the sub-fund, with the risks and costs borne by the investors.

In addition, the SICAV's Board of Directors may at any time redeem the shares held by investors that are not entitled to subscribe or hold shares in breach of an exclusion measure set out in the Articles of Association which notably applies to investors from the United States of America and non-institutional investors investing in shares reserved for institutional investors.

CONVERSION OF SHARES

All shareholders may request the conversion of their shares into shares from another sub-fund. Similarly, those holding shares from a given class will be entitled to convert them into shares from another class, both within a given sub-fund and switching from one sub-fund to another, as permitted in this prospectus.

Shareholders wishing to make such a conversion may submit a written request to the SICAV indicating the same information as for redemptions and, as relevant, the class of shares that they would like to receive. They must indicate the address where the payment of any balance resulting from the conversion is to be sent. This conversion request must reach the SICAV or the transfer agent, complying with the subscription and redemption procedures of the sub-fund whose rules are most restrictive, for the net asset value applicable to be that from the first common net asset value date for the two sub-funds concerned.

The notice periods for the conversion of shares are identical to those applied for the subscription and redemption of shares.

The number of shares allocated in the new share class will be determined based on the following formula:

$$A = \frac{B \times C \times D}{E}$$

Where:

- A: represents the number of shares to be assigned to the new share class (as relevant, capitalisation or distribution shares; shares in the sub-fund's base currency or another currency)
- B: represents the number of shares to be converted in the initial share class (as relevant, capitalisation or distribution shares; shares in the sub-fund's base currency or another currency)
- C: represents the net asset value, on the Valuation Day applicable, for shares to be converted in the initial class (as relevant, capitalisation or distribution shares; shares in the sub-fund's base currency or another currency)
- D: represents the exchange rate applicable on the day of the transaction between the currencies for the two share classes
- E: represents the net asset value on the Valuation Day applicable for shares to be assigned in the new sub-fund (as relevant, distribution or capitalisation shares; shares in the sub-fund's base currency or another currency).

No shares may be converted if the net asset value calculation is suspended for any of the sub-funds concerned.

MASTER-FEEDER STRUCTURES ARRANGEMENTS

As described in "[COMMON PROVISIONS](#)" chapter, master-feeder structures can be set-up within UBAM.

Consequently in order to ensure an adequate interaction between the feeder sub-fund (the "Feeder") and its master structure (the "Master"):

- cut off times for the Feeder are set-up so that valid subscription, redemption and conversion orders for shares in the Feeder placed before the cut-off time can be reflected, if necessary, in the Feeder's investment into the Master on the following Business Day at the latest (taking into consideration public holidays which can vary between the Feeder and the Master's jurisdictions);
- days when subscriptions, redemptions and conversions of shares are open in the Feeder correspond to days where subscriptions, redemptions and conversions of shares are authorised in the Master (taking into consideration public holidays which can vary between the Feeder and the Master's jurisdictions);
- Valuation Days for the Feeder and the Master are coordinated, as the Feeder's investment into the Master will be valued at the latest available net asset value per share as published by the Master (taking into consideration public holidays which can vary between the Feeder and the Master's jurisdictions).

Additionally, each time a master-feeder structure is set-up within UBAM, information agreements and internal rules are put in place in order to coordinate interactions between the Feeder and the Master, as required by the Law and the EU Directive 2009/65/CE, as amended:

- internal conduct of business rules describing, especially, the appropriate measures to mitigate conflicts of interest that may arise between the Feeder and the Master, the basis of investment and divestment by the SICAV, standard dealing arrangements, events affecting dealing arrangements and standard arrangements for the audit report OR a master-feeder agreement between the Master and the Feeder (and their respective umbrella structure and/or their respective management companies as the case may be) which foresees:
 - that the Feeder is provided with all documents and information necessary for the latter to meet the requirements laid down in the Law;
 - the basis of investment and divestment by the Feeder, standard dealing arrangements, events affecting dealing arrangements and standard arrangements for the audit reports;
 - the measures to coordinate the timing of their net asset value calculation and publication, in order to avoid market timing in their shares/units, preventing arbitrage opportunities;
 - the measures to be taken in case the Master suspends the repurchase, redemption or subscription of its shares/units
- an agreement between the Master's depositary bank and the Feeder's depositary bank in order to share information regarding the Master. This agreement describes, especially, the documents and categories of information to be routinely shared between both depositary banks or available upon request, the manner and timing of transmission, the coordination of involvement of each depositary in operational matters in view of their duties under their respective national law, the coordination of accounting year-end procedures, reportable breaches committed by the Master, the procedure for ad hoc requests for assistance, and particular contingent events reportable on an ad hoc basis.
- an agreement between the Master's auditor and the Feeder's auditor in order to share information regarding the Master. This agreement describes, especially, the documents and categories of information to be routinely shared between auditors or available upon request, the manner and timing of transmission of information, the coordination of involvement of each auditor in accounting year-end procedures of the Feeder and the Master, reportable irregularities identified in the Master Fund and standard arrangements for ad hoc requests for assistance.

Complete information about the Master sub-funds, including prospectus, KIIDs, articles of incorporation and financial reports can be obtained free of charge at the SICAV's registered office.

PERFORMANCE FEE

For the shares which include the letter "P" in their name, the Management Company may receive a performance fee as described below.

The fee will correspond to a percentage of the sub-fund's higher net return, respectively for each class in relation to a benchmark index or a fixed return rate. If this difference is negative or equal to zero, the sub-fund will not pay any performance fee.

The performance fee is payable on a yearly basis in arrears at the end of each 12-month period (financial year) and is equivalent to a percentage of the NAV performance, when it is higher than the benchmark NAV and a minimum return rate or benchmark index ("high water mark"). The performance fee is calculated based on the net asset value after deducting any expenses and the management fee (but not the performance fee) and is adjusted in order to take subscriptions and redemptions into consideration.

In order to predict the performance fee that will need to be paid at the end of the year, for each net asset value calculation, if the sub-fund's net return, respectively for each class, since the last performance fee was paid, outperforms the benchmark index or minimum return rate, the sub-fund records provisions each valuation day.

During the financial year, if the sub-fund's net return, respectively for each class, is lower than that of the benchmark index or the minimum return rate, the sub-fund writes back a provision equivalent to the total amount of performance fees each time the net asset value concerned is calculated. If these provisions are reduced to zero, no performance fee will be charged.

If, at the end of the financial year, the net return is positive, but is not higher than the benchmark index or minimum return rate, the net return will be calculated during the next financial year in relation to the NAV at the previous financial year-end.

The performance fee calculation is reset to zero each year. In any case, for a performance fee to be paid, the NAV (since the initial date on which the performance fee was applied to the sub-fund) must have reached a new historical maximum value after deducting the performance fee paid and at the same time must have exceeded the benchmark index or minimum return rate p.a. (hurdle). If the relative change between the old and new maximum historical NAV is less than the higher performance achieved, the performance fee may only be received based on the relative change between the old and new maximum historical value for the NAV. If the performance fee is charged, the new maximum historical value for the NAV, less the performance fee paid, will represent the new starting point for determining the hurdle.

If investors ask for their shares to be redeemed before the end of the financial year, the total outstanding performance fees corresponding to such shares will be paid to the Management Company at the end of the year.

When calculating the performance fee, the term "return" is defined as the percentage positive change in the net asset value per share – as calculated on each valuation date – over the reference period for the performance fee.

The period for the first performance fee calculation will start at the end of the initial subscription period and run through to the end of the first financial year for the relevant sub-fund. Thereafter, the calculation periods will correspond to the fund's accounting year.

Percentages applicable:

Sub-fund*	Performance percentage*	Benchmark index <u>or</u> Minimum return rate p.a. (hurdle)*
UBAM - ABSOLUTE RETURN FIXED INCOME	10%	EONIA **
UBAM - ABSOLUTE RETURN LOW VOL FIXED INCOME	20%	Eonia + 1% **

UBAM - ASYMMETRY 50 EUR	10%	Hurdle 5%
UBAM - ASYMMETRY 50 USD	10%	Hurdle 5%

* Only applicable for share classes having a letter "P" in their denomination

** For these sub-funds, instead of Eonia, the benchmark for the non EUR Share Class will be:

USD Share class	US Dollar Overnight Deposit Offered Rate
GBP Share class	British Pound Overnight Deposit Offered Rate
CHF Share class	Swiss Franc Overnight Deposit Offered Rate
SEK Share class	Swedish Krona Overnight Deposit Offered Rate

No performance fee or management fee is charged for Type Z shares.

AGGREGATE CHARGES WITHIN MASTER-FEEDER STRUCTURES

As Feeder sub-funds, UBAM - EURO HIGH YIELD SOLUTION, UBAM - EUROPE 10-40 CONVERTIBLE BOND, UBAM - GLOBAL 10-40 CONVERTIBLE BOND, UBAM - GLOBAL CONVERTIBLE BOND and UBAM - SRI EUROPEAN CONVERTIBLE BOND, are investing in **Type Z shares** of their respective Master structures (respectively UBAM FCP EURO HIGH YIELD SOLUTION, UBAM CONVERTIBLES EUROPE 10-40, UBAM CONVERTIBLES GLOBAL 10-40, UBAM CONVERTIBLES GLOBAL and CONVERTIBLES EUROPE RESPONSABLE). At the level of the Masters, the fees, charges and expenses associated with the investments are an operating and management fee covering all the expenses invoiced directly to the Master structures, with the exception of transaction charges (the "Operating and Management Fee"). Transaction charges include intermediation expenses (brokerage, stock-exchange taxes, etc...) and the transaction fees, if applicable, which may be charged in particular by the depositary bank and the management company of the Master structures.

For Type Z shares in the Master structures (UBAM FCP EURO HIGH YIELD SOLUTION, UBAM CONVERTIBLES EUROPE 10-40, UBAM CONVERTIBLES GLOBAL 10-40, UBAM CONVERTIBLES GLOBAL and CONVERTIBLES EUROPE RESPONSABLE), the Operating and Management Fee is set at maximum 0.20% inclusive of tax.

The Operating and Management Fee, as described by the UBAM FCP EURO HIGH YIELD SOLUTION, UBAM CONVERTIBLES and CONVERTIBLES EUROPE RESPONSABLE prospectuses, may be increased by:

- performance fees. The latter remunerates the management company when the Master has exceeded its targets. They are therefore charged to the Master;
- transaction fees invoiced to the Master;
- part of the income from sale and repurchase agreements.

Details on the actual charges and expenses incurred at the level of the Master structures are disclosed in the Master's prospectus and KIIDs which are available at the registered office of the SICAV.

Consequently, the maximum aggregate charges of UBAM - EURO HIGH YIELD SOLUTION, UBAM - EUROPE 10-40 CONVERTIBLE BOND, UBAM - GLOBAL 10-40 CONVERTIBLE BOND, UBAM - GLOBAL CONVERTIBLE BOND and UBAM - SRI EUROPEAN CONVERTIBLE BOND, is equal to the sum of the respective fee rates mentioned in "[INVESTMENT MANAGEMENT](#)", "[DEPOSITARY BANK](#)", "[ADMINISTRATION AGENT, REGISTRAR AND TRANSFER AGENT](#)", "[MARKETING AGENT](#)", "[GENERAL DISTRIBUTOR](#)" chapters and the Operating and Management Fee of the Masters mentioned hereabove.

The KIIDs issued for shares available for Feeder sub-funds also contain additional information on ongoing charges incurred by Feeder sub-funds aggregated at the level of the Masters.

Master funds are not authorised to charge any subscription or redemption fees for the investment of Feeder sub-funds into their shares or the divestment thereof.

TAXATION

SICAV taxation

Under current legislation, the SICAV is not subject to any income tax in Luxembourg. Similarly, dividends paid by the SICAV are not subject to any Luxembourg withholding taxes at the SICAV level. However, the SICAV is subject to an annual tax ("taxe d'abonnement") representing 0.05% of the SICAV's net asset value for Type A, U, R and X. This tax is payable quarterly based on the SICAV's net assets, calculated at the end of the quarter concerned by the tax.

Type I, I+, M, V, Y and Z shares may benefit from a discounted subscription duty ("taxe d'abonnement") representing 0.01% of the value of their dedicated net assets.

No duties or taxes are payable in Luxembourg further to the issuing of the SICAV's shares.

In line with current practices and legal provisions, no tax is payable on capital gains recorded on the SICAV's assets. The SICAV is not expected to be subject to any tax on capital gains as a result of the investment of its assets in other countries.

The SICAV's income through dividends and interest from sources outside of Luxembourg may be subject to withholding taxes, with variable rates, that are not normally recoverable.

Taxation for Shareholders

Under current legislation, shareholders are not subject to any tax in Luxembourg on capital gains, income, wealth or inheritance, or any withholding taxes (subject to the following paragraph), with the exception of shareholders domiciled, residing or owning a stable base in Luxembourg and certain former residents of Luxembourg owning more than 10% of the SICAV's capital.

Investors should consult their professional advisors on the possible tax or other consequences of buying, holding, transferring or selling the Sub-Fund's Shares under the laws of their countries of citizenship, residence or domicile.

Common Reporting Standard (CRS)

The Organisation for Economic Co-operation and Development ("OECD") has developed a common reporting standard ("CRS") to achieve a comprehensive and multilateral automatic exchange of information (AEOI) on a global basis. On 9 December 2014, Council Directive 2014/107/EU amending Directive 2011/16/EU as regards mandatory automatic exchange of information in the field of taxation (the "**Euro-CRS Directive**") was adopted in order to implement the CRS among the Member States. The Euro-CRS Directive was implemented into Luxembourg law by the law of 18 December 2015 on automatic exchange of information regarding financial accounts in tax-related matters and implementing Council Directive 2014/107/EU of 9 December 2014 (the "**CRS Law**"). The CRS Law requires Luxembourg financial institutions to identify financial asset holders and establish if they are fiscally resident in an EU Member State other than Luxembourg or in a country specified in a Grand-Ducal Regulation. Accordingly, the SICAV may require its Shareholders to provide information in relation to the identity and fiscal residence of financial account holders (including certain entities and their controlling persons) in order to ascertain their CRS status and report information regarding a Shareholder and his/her/its account to the Luxembourg tax authorities, if such account is deemed a CRS reportable account under the CRS Law. The Luxembourg tax authorities will therefore transfer this information to the competent foreign authorities on a yearly basis. Under the CRS Law, the first exchange of information will be applied by 30 September 2017 for information related to the calendar

year 2016. Under the Euro-CRS Directive, the first AEOI must be applied by 30 September 2017 to the local tax authorities of the Member States for the data relating to the calendar year 2016.

By investing in the SICAV, the Shareholder acknowledges that (i) the SICAV is responsible for the treatment of the personal data provided for in the CRS Law; (ii) the personal data will inter alia be used for the purposes of the CRS Law; (iii) the personal data may be communicated to the Luxembourg tax authorities; (iv) responding to CRS-related questions is mandatory; and (v) the Shareholders have a right of access to and rectification of the data communicated to the Luxembourg tax authorities. In addition, Luxembourg signed the OECD's multilateral competent authority agreement ("**Multilateral Agreement**") to exchange information automatically under the CRS. The Multilateral Agreement aims to implement the CRS among non-Member States; it requires agreements on a country-by-country basis. The investors undertake to inform the SICAV (or any third party appointed by it) within thirty (30) days and provide an updated self-certification form where any change in circumstances occurs, which causes any of the information contained in the self-certification form to be incorrect.

Investors should consult their professional advisers on the individual impact of the CRS.

Data protection

Investors are informed that the SICAV, as data controller (the "**Data Controller**"), collects, stores and processes by electronic or other means personal data (i.e. any information relating to an identified or identifiable natural person, hereafter, (the "**Personal Data**")) supplied by the Investors at the time of their subscription and at any other time during the contractual relationship, in accordance with data protection law applicable in Luxembourg (including, but not limited to, the amended law of 2 August 2002 on the protection of persons with regard to the processing of personal data (the "**2002 Law**") and, when applicable, the Regulation (EU) 2016/679 of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (the "**General Data Protection Regulation**", together with the Law of 2002, the "**Data Protection Law**")) for the purpose of fulfilling the services required by the Investors and/or for complying with legal and regulatory obligations as described below.

Personal Data processed includes amongst others (i) the name, address, telephone number, business contact information, employment and job history, financial and credit history information, current and historic investments, investment preferences and invested amount of the Investor as well as (ii) the same information concerning the Investor's representative(s) (including, without limitation, legal representatives), employees, directors, officers, trustees, settlors, authorised signatories, shareholders, unitholders, nominees and/or ultimate beneficial owner(s) (as applicable) (the "**Data Subjects**") and any other Personal Data that is necessary to the SICAV and/or the Entities (as defined below) for the purposes described thereafter. Personal Data will be collected directly from the Investor or the other Data Subjects and may also be collected through publicly accessible sources, social media, subscription services or other third party data sources.

In particular, Personal Data may be processed for the purpose of carrying out the services provided by the SICAV or the Entities (as defined below) such as, for the purposes of account and distribution, administration, processing subscriptions or drawdown of commitments, assessing the Investor's qualification as eligible or well-informed Investor, maintaining the register of Shareholders, handling communications to the Investors as well as to provide services relating from any agreement entered into between the SICAV and a service provider in relation to the SICAV's investments (the "**Investment Services**"). Personal Data may also be processed by the Data Controller and the Entities in order to comply with their legal or regulatory obligations including, but not limited to, legal or regulatory obligations under applicable SICAV and company law (such as due diligence relating to Investors and monitoring of transactions to comply with anti-money laundering and counter-terrorist financing law, tax law and similar laws and regulations in Luxembourg or at EU level).

The SICAV may collect, use, store, retain, transfer and/or otherwise process Personal Data: (i) on the basis of Investors' consent and/or; (ii) as a result of the subscription of the Investor where necessary to perform the

Investment Services or to take steps at the request of the Investor such subscription, including the holding of shares of the SICAV in general and/or; (iii) where necessary to comply with a legal or regulatory obligation of the SICAV and/or; (iv) in particular where the Subscription Agreement is not entered into directly by the Investor as natural persons, Personal Data may be processed where necessary for the purposes of the legitimate interests pursued by the SICAV or by the Entities (as defined below), which mainly consist in the provision of the Investment Services to the Investors, or compliance with foreign laws and regulations and/or any order of a foreign court, government, regulatory or tax authority, including when providing such Investment Services to any beneficial owner and any person holding a direct or indirect interest in the Investor.

In accordance with Data Protection Law, Personal Data may be disclosed to and / or processed by the AIFM, the Depositary, the Administrative Agent, the Domiciliary Agent, the Initiator, the Auditor of the SICAV, accountants, (foreign) court, governmental or regulatory bodies including tax authorities lenders, investment managers, investment advisers, paying agents and subscription and redemption agents, distributors as well as permanent representatives in places of registration, other service providers of the SICAV (including its information technology providers), any lender to the SICAV or related entities (including without limitation their respective general partner or management company/investment manager and service providers) in or through which the SICAV intend to invest, and any of the foregoing respective agents, delegates, affiliates, subcontractors and/or their successors and assigns (together hereafter, and solely for the purposes above mentioned, the "**Entities**"). The Entities may act as data processors on behalf of the Data Controller or, in certain circumstances, as data controller, in particular for compliance with their legal obligations in accordance with applicable laws and regulations (such as anti-money laundering identification) and/or order of competent jurisdiction. The Investors acknowledge that the Entities may be located outside of the European Economic Area ("**EEA**") in countries which do not ensure an adequate level of protection according to the European Commission and where data protection and/or professional secrecy laws might not exist or be of a lower standard than in the EEA.

The Data Controller undertakes not to transfer the Personal Data to any third parties other than the Entities, except as disclosed in the documentation provided to the Investors or if required or permitted by applicable laws and regulations or court order and in compliance with Data Protection Laws.

By subscribing or purchasing shares of the SICAV, investors acknowledge and accept to the processing of their information and the disclosure of Personal Data they provide to the Entities referred to above (including companies situated in countries outside of the EEA which may not have the same data protection laws as in Luxembourg) for the purposes described above. The transfer of data to the aforementioned Entities may transit via and/or be processed in countries which may not have data protection requirements deemed equivalent to those prevailing in the EEA.

The SICAV undertakes not to transfer the Personal Data to any third parties other than the Entities acting as data processors, except as disclosed herein or if required by applicable laws regulations or court order. This may include disclosure to third parties such as governmental or regulatory bodies including tax authorities, auditors or accountants as well as legal and financial advisers who may process the Personal Data for carrying out their services and complying with legal and regulatory obligations as described above. This transfer and disclosure of Personal Data may take place to countries which do not have equivalent data protection laws to those of the EEA, or that are not subject to an adequacy decision of the European Commission, including the Data Protection Law and the Luxembourg law of 5 April 1993 on the financial sector which provides for a professional secrecy obligation (including but not limited to, Switzerland). The Data Controller may only transfer the Personal Data for the purposes of providing the Investment Services to the Data Subjects or for compliance with applicable laws and regulations, as described herein.

The SICAV may transfer the Personal Data to the Entities (i) on the basis of an adequacy decision of the European Commission with respect to the protection of personal data and/or on the basis of the EU-U.S. Privacy Shield framework or, (ii) on the basis of appropriate safeguards listed by and subject to the provisions of Article 46 of the General Data Protection Regulation (when applicable), such as standard contractual clauses, binding corporate rules, an approved code of conduct, or an approved certification

mechanism or, (iii) on the basis of the Investor's explicit consent or, (iv) where necessary for the performance of the Investment Services or for the implementation of pre-contractual measures taken at the Investor's request or, (v) where necessary for the Entities to perform the Investment Services or other services rendered in connection with the Investment Services or, (vi) where necessary for important reasons of public interest or, (vii) where necessary for the establishment, exercise or defence of legal claims or, (viii) where the transfer is made from a register, which is legally intended to provide information to the public or, (ix) subject to the provisions of Article 49.1 of the General Data Protection Regulation (when applicable), where the transfer is necessary for the purposes of compelling legitimate interests pursued by the SICAV, which are not overridden by the interests or rights and freedoms of Data Subjects. Further details as to the legal basis of a transfer may be obtained by contacting UBP Asset Management (Europe) S.A., 287-289, route d'Arlon, L-1150 Luxembourg, Grand Duchy of Luxembourg, to the attention of the conducting officer in charge of compliance.

Where the processing of Personal Data or transfer of Personal Data outside of the EEA takes place on the basis of the consent of the Data Subjects, the Data Subjects are entitled to withdraw their consent at any time without prejudice to the lawfulness of the processing and/or data transfers carried out before the withdrawal of such consent and the Data Controller will accordingly cease such processing or transfers. However, the Data Subjects acknowledge that, notwithstanding any withdrawal of their consent, the Data Controller may still continue to process and/or transfer Personal Data outside the EEA if permitted by Data Protection Law or if required by applicable laws and regulations. Any change to, or withdrawal of, the Data Subjects' consent must be communicated in writing to the SICAV to the attention of UBP Asset Management (Europe) S.A., 287-289, route d'Arlon, L-1150 Luxembourg, Grand Duchy of Luxembourg.

Each Investor further acknowledges and accepts that the SICAV will report any relevant information in relation to investments in the SICAV to the Luxembourg tax authorities which will exchange this information on an automatic basis with the competent authorities in the United States or other permitted jurisdictions as agreed in the FATCA Law, the CRS Law or similar laws and regulations in Luxembourg or at EU level.

Failure to provide relevant Personal Data requested in the course of their relationship with the SICAV may need to be reported by the SICAV to the relevant Luxembourg authorities to the extent required by applicable law and may prevent the SICAV from maintaining the relationship with the Investor.

Insofar as the Personal Data provided by Investors include Personal Data of their representatives and/or authorised signatories and/or shareholders and/or ultimate beneficial owners, the Investors confirm having informed them of the present section and of their rights as described below, and having secured their consent to the processing of their Personal Data as above described and, in particular, to the disclosure of their Personal Data to, and the processing of their Personal Data by, the various parties referred to above including in countries outside the European Union which may not offer a similar level of protection as that under applicable Data Protection Law in Luxembourg (including but not limited to Singapore and Hong-Kong). The Data Controller may assume, where applicable, that Data Subjects have, where necessary, given such consent and have been informed of the processing and transfer of their Personal Data and of their rights as described under this section.

Personal Data is held until the Investor ceases to hold shares in the SICAV, plus a period of 10 years thereafter where necessary to comply with applicable laws and regulations or to establish, exercise or defend actual or potential legal claims, subject to the applicable statutes of limitation, unless a longer period is required by applicable laws and regulations. In any case, Personal Data will not be held for longer than necessary with regard to the performance of the Investment Services, subject always to applicable legal minimum retention periods.

Each Data Subject may request (i) access to, rectification, or deletion of, any incorrect Personal Data concerning him, (ii) a restriction of processing of Personal Data concerning him and, (iii) to receive Personal Data concerning him in a structured, commonly used and machine readable format or to transmit those Personal Data to another controller in accordance with Data Protection Law and (iv) to obtain a copy of or access to the appropriate or suitable safeguards which have been implemented for transferring the Personal

Data outside of the EEA, in the manner and subject to the limitations prescribed in accordance with the Data Protection Law. In particular, Data Subjects may at any time object, on request and free of charge, to the processing of its Personal Data for direct marketing purposes or for other legitimate interests. Each Investor should address such requests to the SICAV to the attention of UBP Asset Management (Europe) S.A., 287-289, route d'Arlon, L-1150 Luxembourg, Grand Duchy of Luxembourg to the attention of the conducting officer in charge of compliance. For any additional information related to the processing of their Personal Data, Data Subjects can contact the Data Protection Officer of the Data Controller via post mail at UBP Asset Management (Europe) S.A., 287-289, route d'Arlon, L-1150 Luxembourg, Grand Duchy of Luxembourg or via email at LuxUBPAM@ubp.ch.

FEES AND EXPENSES BORNE BY THE SICAV

The SICAV bears all its operating expenses (notably including fees for the various parties involved, including the directors and managers provided for in this prospectus and certain expenses for directors, the Depositary Bank and its correspondents, the Listing Agent, the Registrar and Transfer Agent, the Administrative Agent, the Auditor, legal and tax advisers, costs for printing and distributing annual and semi-annual reports and this Prospectus, the KIID, publishing and marketing costs, costs related to establishing a rating for the various sub-funds), banking costs linked to share redemptions, brokerage fees, taxes to be paid by the SICAV, as well as the costs for registering the SICAV and maintaining this registration with all the government authorities, and the listing of the SICAV's shares on the stock exchange.

Fees and expenses relating to the SICAV's incorporation, the preparation and publication of this prospectus and the admission of the SICAV's shares to the Luxembourg stock exchange are borne by the SICAV and amortised over the first five financial years.

Fees and expenses that are not attributable to a specific share class are allocated to the various classes, prorated based on their respective net assets. Fees and expenses are first booked against the investment income recorded by the class or classes concerned. Fees and expenses attributable to a specific class are booked directly against this class.

All the assets concerning a specific sub-fund are only liable for the liabilities and obligations relating to this sub-fund.

A service fee based on the SICAV's average net assets, payable monthly and representing up to 0.365% per annum, with a minimum of EUR 35'000 per year will be paid to the Management Company. This service fee includes but is not limited to the fees for the Administrative, Registrar and Transfer Agent as well as the Depositary Bank. The Depositary Bank fee covers both the fees for (i) custody and (ii) monitoring of the assets. In addition to the service fee, a fix fee up to EUR 15 per subscription / redemption transaction is charged.

Transaction fees will also be charged separately.

GENERAL INFORMATION

The SICAV

The SICAV was incorporated as a variable capital investment company on 6 December 1990 for an indefinite period under the name of UBAM (Union Bancaire Asset Management).

Its Articles of Association were filed with the Luxembourg District Court Registry and published in the Luxembourg official gazette (Mémorial, Recueil des Sociétés et Associations, hereafter the "Official Gazette") on 7 January 1991. As decided at the Extraordinary General Meeting on 22 February 1991, the SICAV's name was changed to UBAM. This decision was published in the Official Gazette on 10 May 1991. The Articles of Association were further amended by notarial deeds dated 5 March 1996, 5 December 1998,

2 June 1999, 28 February 2000, 22 February 2002, 30 October 2003, 27 April 2004, 28 December 2005, 29 June 2007, 15 October 2009, 19 December 2011 and 16 December 2013 published in Section C of the Official Gazette on 2 April 1996, 5 December 1998, 14 August 1999, 15 June 2000, 13 April 2002, 10 November 2003, 3 June 2004, 16 February 2006, 16 July 2007, 3 December 2009, 6 February 2012, 3 March 2014. The Articles of Association were again amended by notarial deed on 28th August 2017 and published in the Recueil Electronique des Sociétés et Associations ("RESA") n° 2017_208 on 5th September 2017.

The SICAV is registered in the Luxembourg trade and company register under number B 35.412.

Shares

Subject to the following provisions, the SICAV's shares are freely transferable. The shares do not include any preferential or pre-emptive rights and each share is entitled to one vote, irrespective of its class or net asset value, at general shareholders' meetings. The shares are issued without any indication of their value and must be fully paid-up. The number of shares issued by the SICAV is not limited.

Any registered shares may be issued in fractions (three decimals, with the last rounded down to the nearest decimal). Such fractions of shares will represent a portion of the net assets and will proportionately entitle holders to any dividends paid out by the SICAV, as well as any income from the SICAV's liquidation. Fractions of shares are not entitled to voting rights. In principle, distribution shareholders will receive an annual dividend. The amount to be awarded to each Type will be determined by the Board of Directors.

With the exception of any distribution shares that are issued, the SICAV's capital gains and other income are reinvested for each one of the sub-funds and in principle no dividends are paid out to the shareholders. However, the SICAV's Board of Directors may submit a proposal to the General Meeting for the payment of a dividend in cash or the allocation of free shares of each class for which only capitalisation shares are issued.

The amount available for distribution is determined within the limits of Article 26 of the SICAV's Articles of Association and payouts may be made independently from any realised or unrealised capital gains or losses.

The Board of Directors may decide to pay out an interim dividend.

Each sub-fund's shares may be issued on a registered or bearer basis. No physical shares are issued. Bearer shares may always be converted to registered shares, and vice versa. The costs of such a change will be borne by the holder of the shares in question.

Temporary suspension of net asset value calculation

The SICAV's Board of Directors may suspend the determination of the net asset value of shares, the issuing and redemption of shares, as well as the conversion from these shares and into these shares from one or more sub-funds, in the following cases:

- a) for any period during which one of the main stock exchanges on which a significant portion of the SICAV's investments attributable to a given sub-fund are listed, is closed outside of a holiday period, or during which transactions on such a stock exchange are restricted or suspended;
- b) in the event of any situation that constitutes an emergency and, as a result of which, the SICAV may be unable to access its assets attributable to a given sub-fund under normal conditions or value them correctly;
- c) during any breakdown of the communication network normally used to determine the price or value of investments for a given sub-fund or the current price of stocks on a stock exchange;
- d) for any period during which the SICAV is unable to repatriate funds with a view to making payments further to the redemption of shares, or during which a transfer of funds involved in realisations, acquisitions of investments or payments due further to the redemption of such shares, cannot be carried out at what the directors consider to be a normal exchange rate;
- e) if for any reason whatsoever the price of one or more investments held by a sub-fund cannot be reasonably, quickly and correctly determined; or

- f) in the eventuality that the Company or a sub-fund is liquidated, from the date of the advance formal notice of the meeting of shareholders at which a resolution is put forward to liquidate the Company or the sub-fund.
- g) when the master UCITS of a feeder sub-fund temporarily suspends the repurchase, redemption or subscription of its shares, whether on its own initiative or at the request of its competent authorities.

Such a suspension will be published in the "Luxemburger Wort" as well as in any other newspaper as determined by the Board of Directors, and will be notified to any shareholders requesting the redemption or conversion of shares by the SICAV when they submit a definitive request in writing.

Such a suspension concerning a given share class will not have any effect on the net asset value calculation, issue, redemption or conversion of shares from other share classes.

General Meetings

The SICAV's Annual General Shareholders' Meeting is held each year at the SICAV's registered office in Luxembourg, at 10 am on the third Wednesday of April (if this day is not a legal or full bank business day in Luxembourg, the following full business day).

Notice of any general meeting is sent out to all registered shareholders at the address indicated in the shareholder register, at least eight days before the general meeting. This notice indicates the time and place of the general meeting and the conditions for admission, the agenda and the quorum and majority requirements under Luxembourg law. In addition, if there are any bearer shares, notices are published in the "RESA" (Registre Electronique des Sociétés et Associations) and the "Luxemburger Wort".

The requirements concerning the convening of meetings, participation, quorum for presence and voting at any general meeting are those set under Articles 67, 67-1 and 70 of the Grand-Duchy of Luxembourg Law of 10 August 1915, as amended.

Resolutions adopted at a general meeting are binding on all of the SICAV's shareholders, independently from the class of shares they hold. However, if the decisions to be taken only concern the specific rights of shareholders from a given share class, they must be taken by a meeting representing the shareholders from the share class in question. The requirements concerning the holding of such meetings are the same as those indicated in the previous paragraph.

Management report and annual and semi-annual financial statements

The reports for shareholders concerning the previous financial year, verified by the Auditor, are available from the SICAV's registered office. In addition, unaudited semi-annual reports are also available from the registered office to the holders of registered shares. The SICAV's financial year runs from 1 January to 31 December each year.

The SICAV's accounts will be expressed in EUR. The accounts for share classes that are expressed in different currencies will be converted into EUR and combined in order to draw up the SICAV's accounts.

Liquidation

A. Liquidation of the SICAV

If the SICAV is liquidated, the procedure will be based on the conditions stipulated by the 2010 Law.

The SICAV may be dissolved:

- 1) as decided by the General Shareholders' Meeting, ruling under the same conditions as for amendments to the Articles of Association.
- 2) if the SICAV's share capital is less than two thirds of the minimum capital, the directors must submit the issue of the SICAV's dissolution to the General Meeting deliberating without any presence conditions and ruling based on a simple majority of the shares represented at the Meeting.
- 3) if the SICAV's share capital is lower than one quarter of the minimum capital, the dissolution may be decided on by shareholders owning one quarter of the shares represented at the Meeting.

The Meeting must be convened in such a way that it can be held within 40 days of the date on which the net assets were found to be lower than two thirds or one quarter of the minimum capital respectively.

In the event of liquidation, all shares entitle holders to an equal prorated amount of income from the liquidation relating to the sub-fund of assets that the share is part of. If the liquidation is closed, any outstanding amount of the liquidation income that has not been distributed before such closure will be deposited with the Caisse des Consignations in Luxembourg, where it will be kept available to beneficiaries until the end of the period of limitation.

The decisions of the General Meeting or the court declaring the SICAV's liquidation will be published in the "RESA", "Luxemburger Wort" and where applicable, in the countries where the SICAV's shares are distributed, in accordance with applicable national rules.

B. Pure and simple liquidation of one of the SICAV's sub-funds

The SICAV's Board of Directors may decide on the pure and simple liquidation of a sub-fund in the following cases:

- if the net assets of the sub-fund concerned represent less than EUR 10 million (or equivalent value in another currency);
- if the economic and/or political environment was to change;
- for any economic and financial reasons for which the SICAV's Board of Directors considers that it is in the general best interests of shareholders to liquidate the sub-fund.

The liquidation decision must be published in accordance with the corresponding disclosure rules. More specifically, it must give details on the grounds and conditions of the liquidation process.

Unless decided otherwise by the Board of Directors, the SICAV may, pending the execution of the liquidation decision, continue to redeem shares from the sub-fund which is to be liquidated. For such redemptions, the SICAV must base itself on the net asset value that is determined in order to factor in liquidation costs, although without deducting a redemption fee or any other withholding charge. Capitalised start-up costs are to be depreciated in full as soon as the liquidation decision has been taken.

Assets that have not been distributed to beneficiaries on the closing date for the liquidation of the sub-fund or sub-funds must be deposited with the Caisse des Consignations, where they will be kept available to beneficiaries until the end of the period of limitation.

The annual report for the financial year during which the liquidation decision has been taken must expressly report on this decision and provide details on the level of progress made with liquidation operations.

C. Closure of a sub-fund through a transfer to another sub-fund

Under the same circumstances as set out under Point B above, the Board of Directors may decide to close a sub-fund through a transfer to another sub-fund within the SICAV. The Board of Directors may also decide on such a merger if it is in the best interests of all the shareholders in the sub-fund concerned. This decision will be published as set out in the previous paragraph, and the publication will also contain information relating to the merging sub-fund. This publication will take place one month before the effective date of the merger in order to allow shareholders to request the redemption of their shares, at no cost, before the merger with another sub-fund becomes effective.

All shareholders who have not requested the redemption of their shares by the end of a one-month period will be bound by the merger decision.

D. Closure of a sub-fund through a merger with another undertaking for collective investment

Similarly, under the same circumstances as set out above, the Board of Directors may decide to close a sub-fund by merging it with another undertaking for collective investment governed by Part I of the 2010 Law or another European UCITS subject to Directive 2009/65/EC as amended. The Board of Directors may also decide on such a merger if it is in the best interests of all the shareholders in the sub-fund

concerned. This decision will be published as set out above, and the publication will also contain information relating to the undertaking for collective investment concerned.

This publication will take place one month before the effective date of the merger in order to allow shareholders to request the redemption of their shares, at no cost, before the merger with the other undertaking for collective investment becomes effective. In the event of a merger with another undertaking for collective investment such as a mutual fund, only the shareholders from the sub-fund concerned who expressly agree to the merger will be bound by it.

The decision to liquidate or merge a sub-fund under the circumstances and based on the conditions set out in the previous paragraphs may also be taken at a meeting of shareholders from the sub-fund to be liquidated or merged, during which no quorum will be required and the decision to liquidate or merge must be approved by shareholders owning at least 50% of the shares represented at the meeting.

The merger of a sub-fund with another foreign undertaking for collective investment subject to the Directive 2009/65/EC, as amended, is only possible with the agreement of the shareholders by a simple majority.

Important information

Investors should note that any shareholder may exercise his rights fully as an investor directly against the SICAV, including the right to attend shareholders' meetings, only if the investor is listed itself, by name, in the SICAV register of shareholders. If a shareholder investing in the SICAV through an intermediary investing in its name but on behalf of the shareholder, certain shareholder rights may not necessarily be exercised by the investor directly. Shareholders are recommended to inquire about their rights

Documents available

Copies of the following documents may be consulted during office hours each bank business day in Luxembourg at the SICAV's registered office at 287-289 route d'Arlon, Luxembourg:

- (a) The SICAV's Articles of Association;
- (b) The SICAV's complete prospectus and KIID;
- (c) The Management Company Agreement between UBP Asset Management (Europe) S.A. and the SICAV;
- (d) The Investment Management Agreements between the SICAV, UBP Asset Management (Europe) S.A. and the Managers;
- (e) The Depositary Bank Agreement between UBP Asset Management (Europe) S.A., BNP Paribas Securities Services Luxembourg Branch and the SICAV;
- (f) The Administrative Agent, Registrar and Transfer Agent Agreement between UBP Asset Management (Europe) S.A., CACEIS Bank Luxembourg Branch and the SICAV;
- (g) The Paying Agent Agreement between UBP Asset Management (Europe) S.A., CACEIS Bank Luxembourg Branch and the SICAV;
- (h) The General Distribution Agreement between UBP Asset Management (Europe) S.A., Union Bancaire Privée, UBP SA and the SICAV;
- (i) The annual and semi-annual reports.

Copies of the documents indicated in subparagraphs (a) (b) and (i) may be obtained from the SICAV's registered office each bank business day in Luxembourg.

ADDITIONAL INFORMATION FOR INVESTORS IN THE FEDERAL REPUBLIC OF GERMANY

For the following sub-funds of UBAM no notification for distribution in the Federal Republic of Germany was submitted and shares in these sub-funds may NOT be offered to investors within the scope of the German Investment Code. As a consequence, the following sub-funds are NOT available to investors in Germany:

- UBAM - Asymmetry 50 EUR
- UBAM - Asymmetry 50 USD
- UBAM - Global Carry
- UBAM - Euro Equity Short Overlay
- UBAM - Global Equity Sustainable Growth
- UBAM - Real Return
- UBAM - US Short Term Inflation Linked Bond
- UBAM - Best Selection Asia Equity
- UBAM - Tech Global Leaders Equity
- UBAM - Tech Global Leaders Equity Hedge

Sal. Oppenheim jr & Cie. AG & Co. KGaA, Unter Sachsenhausen 4, D-50667 Köln, Germany, has undertaken the function of Paying and Information Agent in the Federal Republic of Germany (the "German Paying and Information Agent").

Applications for the redemption and conversion of shares may be sent to the German Paying and Information Agent. All payments to investors, including redemption proceeds and potential distributions, may, upon request, be paid through the German Paying and Information Agent.

The prospectus, the key investor information documents, the Articles of Association of the company, the annual and semi-annual reports may be obtained free of charge in hardcopy form at the office of the German Paying and Information Agent during normal opening hours.

The issue, redemption and conversion prices of the shares and the notices to shareholders are also available free of charge from the German Paying and Information Agent.

The issue, redemption and conversion prices of the shares will be published on the fund website <http://www.ubp.com>. The notices to shareholders will be sent by post to the German shareholders.

In addition, communications on the following cases to investors in the Federal Republic of Germany will be done by means of a durable medium pursuant to § 298 (2) of the Investment Code:

- suspension of the redemption of the shares,
- termination of the management of the fund or its liquidation,
- any amendments to the Articles of Association of the company which are inconstant with the previous investment principles, which affect material investor rights or which relate to remuneration and reimbursement of expenses that may be paid or made out of the asset pool,
- merger of the fund with one or more other funds and
- the change of the fund into a feeder fund or the modification of a master fund.

AVAILABLE SHARES WITHIN THE SUB-FUNDS

The tables below list the classes of shares available by sub-fund together with the maximum rates applicable to:

- Management Fee (please refer to "[INVESTMENT MANAGEMENT](#)" chapter);
- Marketing Fee (please refer to "[MARKETING AGENT](#)" chapter);
- General Distributor Fee (please refer to "[GENERAL DISTRIBUTOR](#)" chapter);
- Performance Fee (please refer to "[PERFORMANCE FEE](#)" chapter).

Please also refer to "[ADMINISTRATIVE AGENT, REGISTRAR AND TRANSFER AGENT](#)" and "[DEPOSITARY BANK](#)" chapters in connection with the applicable Administration Fee and Depositary Fee
