## REGISTERED OFFICE OF THE SICAV

8-10, rue Jean Monnet  
L-2180 Luxembourg  
Grand Duchy of Luxembourg <sup>1</sup>

5, Allée Scheffer  
L-2520 Luxembourg  
Grand Duchy of Luxembourg <sup>2</sup>

## CORPORATE GOVERNANCE/ ALFI CODE OF CONDUCT

The SICAV is subject to corporate governance based, inter alia, on:

1. Its obligations as defined by the amended Law of 17 December 2010 relating to Undertakings for Collective Investment in Transferable Securities of the Grand Duchy of Luxembourg and circulars issued by the *Commission de Surveillance du Secteur Financier* ("CSSF") which complements the regulatory framework.
2. Its Articles of Incorporation which are available for inspection at the registered office of the SICAV and at the Luxembourg corporate and trade register, *Registre de Commerce et des Sociétés* ("RCSL").
3. The obligations in respect of the management of the Company, for which the SICAV has appointed Pioneer Asset Management S.A.
4. The Association of the Luxembourg Fund Industry ("ALFI") code of conduct, which the Management Company has voluntarily adopted.

## BOARD OF DIRECTORS OF THE SICAV

### Chairman

#### Enrico TURCHI

Deputy Chief Executive Officer and Managing Director of Amundi Luxembourg S.A.,  
residing in Luxembourg

### Members

#### David GLASSEY

Head of Legal Luxembourg/International Product, Pioneer Investment Management Limited,  
residing in Ireland

#### Marco ATZENI

Chief of Staff for Multi-Asset Investments, Pioneer Investment Management SGRpA,  
residing in Italy

## CONDUCTING OFFICERS OF THE MANAGEMENT COMPANY

Within the meaning of Article 102 (1) c) of the amended law of 17 December 2010, the Management Company has appointed the following Conducting Officers:

Mr Marco Malguzzi, Head of Outsourcing Control, Pioneer Asset Management S.A. and residing in Luxembourg;  
Mr Tilo Reichert, Head of Organisation, Pioneer Asset Management S.A. and professionally residing in Luxembourg; <sup>3</sup>  
Mr Andreas Roth, Global Head of Investment Risk, Pioneer Asset Management S.A. and professionally residing in Luxembourg; <sup>4</sup>

Mr Enrico Turchi, Deputy Chief Executive Officer and Managing Director of Amundi Luxembourg S.A. and residing in Luxembourg.

Main responsibilities of the Conducting Officers are to ensure:

- the implementation of strategies and guiding principles for central administration and internal governance through written internal policies and procedures
- the implementation of adequate internal control functions
- that the Management Company has technical infrastructure and human resources adequate to perform its activities.

## BOARD OF DIRECTORS OF THE MANAGEMENT COMPANY

### Chairman

#### Patrick ZURSTRASSEN

Member of the Board of Directors of various fund management companies,  
residing in Luxembourg

### Members

#### Julien FAUCHER (since July 28, 2017)

Managing Director  
Amundi Luxembourg S.A.  
residing in Luxembourg

#### David HARTE

Deputy Head Operations, Services & Technology Division,  
Pioneer Investment Management Limited,  
residing in Ireland

#### Claude KREMER

Partner, Arendt & Medernach S.A.,  
residing in Luxembourg

<sup>6</sup> From 25 September 2017.

## ■ Economy

The year 2017 was characterised by accelerated global growth, across both emerging and developed economies. Meanwhile, inflation recovered partly but was still at historically low levels, as global inflation levels rose on average to 2.7% compared to 2.3% in 2016. Monetary policies remained accommodative, thanks to liquidity injections by the main central banks, in particular the European Central Bank (ECB) and the Bank of Japan. Throughout the year official interest rates persisted at historically low levels. The United States' Federal Reserve (Fed), continued to normalise rates but confirmed a gradual and cautious approach with regard to a directional change of monetary policy.

Generally, in 2017 the **Eurozone** performed positively. While the year started with modest growth estimates, latest data showed that the Eurozone should finish 2017 with around 2.2% year-on-year growth. Growth strengthened in all the main Eurozone countries, thanks to robust internal demand (both consumption and investments). The labour market improved steadily as unemployment fell from 9.6% to 8.8% in the first ten months of the year, undoubtedly a driver in the aforementioned recovery of household consumption levels. GDP in Italy moved from +0.9% in 2016 to +1.6% in 2017, whilst Germany and France went from +1.9% to +2.5% and from +1.2% to +1.8%, respectively. On a sector level, third quarter data showed a significant expansion of the Manufacturing sector and growth for the Service sector. Overall, Business and Consumer Confidence indicators were on the up and showed no sign of abating. The Eurozone's improvement of economic conditions went hand in hand with the ECB's continued monetary stimulus policies. In October 2017 the ECB called for a reduction in liquidity injections in the coming year, but it was apparent that even at a lower level those stimulus policies will support growth in 2018. Furthermore, in the last meeting of the year the ECB's Governing Council confirmed that a large degree of monetary accommodation will be necessary to meet the inflation target of 2%.

The **United Kingdom's** economy slowed down during the year, achieving +1.5% in 2017, compared to +1.8% in 2016. The pound's depreciation contributed to price increases which inevitably negatively affected household consumption. Striking a delicate balance between supporting growth and containing inflation, the Bank of England was compelled to adjust rates upwards, in order to counteract the jump in consumer prices.

The **United States** economy was set to close 2017 with growth of +2.2%, compared to the modest +1.5% increase in 2016. After a somewhat disappointing first quarter, the pace of growth quickened. The labour market recovery, with around 2 million new jobs, supported the dominant role of household consumption in the United States' GDP. Additional factors such as the depreciation of the US dollar in the first half of the year and the oil price recovery, offered further support to the economic momentum. Business and Consumer Confidence indicators stayed at high levels. At year-end, the approval of the tax reform bill represented another strengthening element. Throughout the year, the Fed continued the process of interest rate normalisation, with four rate hikes, each of 25 bps, and at the end of 2017 started a process of gradual reduction of its balance sheet.

In **Japan**, tax policy and monetary stimulus supported the recovery of the Japanese economy which continued in 2017 with a GDP expansion of +1.5% compared to +1.0% achieved in 2016. Exports and investments, combined with strong corporate profits and the Bank of Japan's supportive monetary policy should continue to buttress the Japanese economy in 2018.

Among **emerging economies**, economic growth remained buoyant. India and China in particular were both veritable global growth engines with growth rates over 6%. Moreover, the economies of Russia and Brazil recovered, as both grew again after the deep recessions of previous years. Globally, the recovery of oil and commodities prices, the depreciation of the US dollar and the Fed's gradual approach to normalising monetary policy supported the economies of exporting countries, notwithstanding recurring geopolitical risks.

## ■ Markets

**Equity markets** experienced general price rises, supported by positive economic data and growing corporate profitability. The **European stock markets** closed the year on a positive note, but performance during the year was far from smooth. After an initial weakness due to fears linked to the French presidential elections, the European equity markets later benefited from the election of Mr Macron, pushing share prices in May to record highs for the year. Later in the year, growing uncertainties regarding the Trump administration's ability to implement reforms, and ECB overtures in favour of a reduction of Quantitative Easing, put a brake on the rise of European markets. Cautious investors started to discount implications for economic growth and corporate profits in light of the strong Euro, which was at its highest level since 2015. Profit taking was the order of the day, especially with regard to export companies. Starting from September, however, European equities experienced an upturn thanks to investor optimism on domestic economic conditions and corporate profitability. The European markets received a further lift following the recalibration of ECB interventions announced by President Draghi in October, which confirmed the reduction in asset purchases, but extended the asset purchase program into 2018. European indices performed best between October and November, which coincided with the recovery of the US dollar against the Euro. Performance stalled in December, when the Euro started to strengthen again against the US dollar, resulting in a relatively subdued year-end for European markets.

The best performing countries were Italy, supported by the resolution of the banking crises and by the growth of the economy, and Germany, due to positive economic growth. Growth was more subdued in Spain, as the economy was adversely affected by the Catalan independence referendum in the second half of the year. With regard to sectors, Technology and Cyclical Consumer stocks were top performers, as these sectors benefitted from a robust domestic demand, while Pharmaceuticals and Telecommunications proved to be the weakest.

2017 was also a positive year for **U.S. equities**, which achieved record highs. Investors remained attracted by the vigorous U.S. economy, by healthy corporate earnings combined with the emphasis on a gradual normalisation of monetary policy by the Fed. At year-end, the approval of the tax reform bill by the U.S. Congress gratified investors. At sector level, the following sectors were in the spotlight: Technology, due to good corporate earnings combined with positive growth estimates for the upcoming quarters; Cyclical Consumer stocks, which were supported by optimism on global growth expectations; Pharmaceuticals, on expectations of streamlined regulations for the new drugs approval; Financial stocks, which were favoured by the rise in interest rates and Basic Materials, which benefitted from the rise in commodities prices. On the other hand, Telecommunications stocks suffered from an increasingly competitive market.

**Equities in the Pacific area** performed positively; Asian equities in particular, benefited from a favourable environment for economic growth and diminishing fears regarding possible protectionist policies of the Trump administration.

At the start of the year **Japanese equities** suffered from the recovery of the yen against the Euro and the US dollar, with adverse effect for export companies. Starting from mid-April, the improving global growth prospects and the declarations of the Bank of Japan's Governor excluding the possibility of a reduction of its monetary policy, boosted share prices. After a rather subdued third quarter, the Japanese market experienced a significant rally in the latter part of the year. Factors that favoured the equity rally were: The outcome of the early general elections, which saw the triumph of incumbent Prime Minister Abe, confirming his mandate to continue with pro-growth policies; investor optimism regarding the Japanese economy and the continued willingness of the Bank of Japan to maintain an expansive monetary policy.

**Taiwanese equities** also experienced growth, largely thanks to supplies to the US Technology sector, even if uncertainty regarding sales for new Apple products impacted overall results. **Australian equities** also gained and had a powerful rally from October onwards, driven by the strong rise in commodities prices, particularly supporting companies in the Energy and Basic Materials sectors.

**Emerging market equities** ended 2017 on a positive note, although below the maximum levels reached in November. Emerging countries continued to attract investors' interest due to a sound macro-economic environment. Asia proved to be the best performing area, in particular thanks to China. The **Chinese economy** grew in line with the Chinese government expectations (just under 7% per annum). The Chinese market was supported by positive corporate results and the inclusion of Chinese Class A shares in the MSCI EM index at the end of June. The **Indian economy** continued to post high growth rates and boosted an expansive budget and the probability of further reforms after the victory of the governing party in a number of local elections.

**Latin America** also posted a positive year, albeit at lower growth rates than Asia. The spotlight was on Brazil which, after a weak first half of the year, experienced a strong rally, benefitting from the rise in commodities prices and investors' relief at the rejection of corruption allegations against President Temer. Growth in **Eastern Europe** was significant, supported by the favourable macroeconomic environment in the Eurozone with which it has strong trade links. Russia was in the spotlight in the second half of the year, benefitting from the recovery of the oil price.

The figures stated in this report are historical and not necessarily indicative of future performance.

With regard to **fixed income markets**, 2017 was a generally positive for government bonds of developed countries', in a volatile global environment for government bond yields. In the Euro segment, the first half of the year was characterised by positive economic data, political uncertainty and not always straightforward monetary policy guidance. Following the June address of ECB President Draghi, who conveyed a move towards a reduction in financial asset purchases by the ECB, the 10-year Bund was boosted to 0.47% (up from 0.21% at the end of 2016). In the second half of the year the absence of inflationary pressures amid positive growth put a downward pressure on the German 10-year Bund to 0.30% which then recovered to close the year at 0.43%.

Short-term rates were influenced by uncertainties regarding the start of the monetary policy normalisation process of the ECB. The German two-year government bond (-0.77% at the end of 2016) reached a record low of -0.95% in February but then returned to -0.57% at the end of June, in response to President Draghi's statements. In the second half of the year the confirmation of the ECB's cautious approach to normalising monetary policy supported short-term German government bonds. During the ECB's October meeting asset purchases were halved from €60 billion to €30 billion for the period from January to September 2018. However, the asset purchase program remained open, with the possibility of change in duration or in asset purchase amounts and in any case until the ECB's inflation target level is reached. In 2017 reference rates remained unchanged and should stay at these levels in the long term. As a result German two-year government bond yields dropped to -0.63%. Similar movements were recorded also for government bonds of peripheral Eurozone countries.

In the U.S. the yield curve showed an upward trend, especially at the short-term end. The continuing normalisation of the monetary policy by the Fed, three key rate increases in 2017 and from October onwards the start of the process of shrinking the Fed's own balance sheet pushed the two-year interest rate up. The 2-year rate rose from 1.19% at the end of 2016 to 1.88% at the end of 2017, the highest level in the last 10 years. The medium to long end of the yield curve was held in check both by the absence of inflationary pressures and by political uncertainties. The 10-year bond yield fell from 2.44% at the end of 2016 to 2.30% at the end of June 2017. This trend was reversed in the second half of the year in response to positive economic data and the Congressional approval of the tax reform and the 10-year yield closed the year at 2.40%.

In 2017 investors' interest in corporate bonds persisted and the asset class closed the year with overall gains.

The falling yields of higher-rated corporate bonds can be explained by the reduction of the spread compared to reference rates: the average yield moved from 0.93% to 0.88% with spreads experiencing a decrease to 87 bps (-37 bps). At sector level, Non-Financial issuers experienced stable yields of 0.87%, while spreads were down to 85 bps (-30 bps). Wider variations were experienced by Financial issuers, whose average yield settled at 0.89% (-15 bps) with spreads falling to 90 bps (down from 139 bps), a movement which confirmed investors' greater confidence in the overall health of the European banking system. The progress in recapitalisation of weaker banks, the decrease in new non-performing loans, together with a sounder economic cycle, were the factors at the root of the renewed market confidence in the Banking sector. Yields on lower-rated European corporate bonds, fell from 3.86% to 3.07% with spreads experiencing a more marked decrease (from 376 to 272), confirming the greater sensitivity of this sector to economic cycle expectations.

The U.S. corporate bond market, following the reduction in spreads, remained positive. Investment grade U.S. bonds benefitted from a yield reduction to 3.29% (-0.10%); spreads also experienced a decrease, to 98 bps (-31 bps). Positive expectations about macroeconomic conditions supported high-yield issues which average yield was 6.15% (-0.31%), thanks to the significant narrowing of spreads (-63 bps to 358 bps).

## 1 INTRODUCTION

Pioneer Fund Solutions (the "SICAV") is an open-ended investment company incorporated under the laws of Luxembourg as a *Société d'Investissement à Capital Variable* ("SICAV") in accordance with the provisions of Part I of the amended Law of 17 December 2010 relating to Undertakings of Collective Investment. The SICAV was incorporated for an unlimited period on 24 October 2014. The Articles were published in the *Mémorial C, Recueil des Sociétés et Associations du Grand-Duché de Luxembourg* on 12 November 2014. The SICAV is registered with the Luxembourg Trade and Companies Register (*Registre de Commerce et des Sociétés - R.C.S.*) under number B 191.464.

The SICAV's initial capital of thirty one thousand Euro (EUR 31,000) divided into three hundred and ten (310) Shares of no par value fully held by Pioneer Asset Management S.A. has been unblocked after the effective launch of Pioneer Fund Solutions.

The SICAV has appointed Pioneer Asset Management S.A. (the "Management Company") as its management company, within the meaning of Part I of the amended Law of 17 December 2010. The Management Company is responsible, subject to the overall supervision of the Board of Directors of the SICAV, for the provision of investment management services, administrative, marketing and distribution services to the SICAV.

The assets of the different Sub-Funds are separately invested in accordance with their respective investment policies and objectives. All Sub-Funds are denominated in euros (the "Base Currency") and all assets and liabilities of each Sub-Fund are valued in the Base Currency of such Sub-Fund.

Pioneer Asset Management S.A. ("PAMSA") was until July 2, 2017 a wholly owned subsidiary of Pioneer Global Asset Management S.p.A. ("PGAM"). On December 12, 2016, UniCredit S.p.A. (the parent company of PGAM) entered into a binding agreement to sell the operating subsidiaries of PGAM's asset management business to Amundi (the "Transaction"). The Transaction was completed on July 3, 2017 after which PAMSA became a wholly owned subsidiary of Amundi Asset Management S.A. and ceased to be part of the UniCredit banking group.

Amundi is the largest European asset manager by assets with over €1 trillion in assets under management as of December 31, 2016 and has been a publicly listed company on the Euronext exchange since November 2015.

The following Sub-Fund has been launched:

- Pioneer Fund Solutions - Diversified Income Best Select on 20 January 2017.

As at 31 December 2017, 5 Sub-Funds were active as detailed below:

Pioneer Fund Solutions - Conservative  
 Pioneer Fund Solutions - Balanced  
 Pioneer Fund Solutions - Diversified Growth  
 Pioneer Fund Solutions - Diversified Income Best Select  
 Pioneer Fund Solutions - Diversified Alpha

Detailed Share Classes active as at 31 December 2017 are listed in the "Statement of Share Statistics" and description of Shares Classes are disclosed in the last prospectus.

## 2 PRINCIPAL ACCOUNTING CONVENTIONS

### ■ PRESENTATION OF FINANCIAL STATEMENTS

These financial statements are prepared in accordance with Luxembourg legal and regulatory requirements relating to undertakings for collective investment in transferable securities and generally accepted accounting principles.

The financial statements reflect the Net Asset Values ("NAV") as calculated on the last business day of the year based on latest available market prices of the investments.

### Valuation of investments and other instruments

The following pricing policy applies:

- **Valuation of investments** - Investments which are quoted or dealt in on an official stock exchange or on a Regulated Market or any Other Regulated Market are valued at the last available prices at close of business of the relevant Valuation Day.  
 In the event that any assets held in a Sub-Fund's portfolio on the relevant day are not quoted or dealt in on any stock exchange or on any Regulated Market, or on any Other Regulated Market or if, with respect of assets quoted or dealt in on any stock exchange or dealt in on any such markets, the last available price (as determined pursuant to the previous paragraph) is not representative of the fair market value of the relevant assets, the value of such assets is based on a reasonably foreseeable sales price determined prudently and in good faith by the Board of Directors of the SICAV.
- **Open-ended and closed-ended UCIs** - Units or shares of open-ended UCIs are valued at their last determined and available Net Asset Value or, if such price is not representative of the fair market value of such assets, then the price is determined prudently and in good faith by the Board of Directors of the SICAV. Units or shares of a closed-ended UCI are valued at their last available market value.
- **Forward foreign exchange contracts** - Forward foreign exchange contracts are valued at the forward rate applicable at the "Statement of Net Assets" date for the period until their maturity. Net unrealised gains and losses on forward foreign exchange contracts are recorded in the "Statement of Net Assets"; net realised and net changes in unrealised gains and losses from forward foreign exchange contracts are recorded in the "Statement of Operations and Changes in Net Assets". The SICAV also offers Hedged Share Class. All gain/(losses) on forward exchange contracts used for Hedged Share Classes are allocated solely to the relevant Share Class.
- **Financial futures contracts** - Financial futures contracts are valued at the quoted price available on an official stock exchange (following the pricing policy as described above under "Valuation of Investments"). Initial margin deposits are made in cash upon entering into futures contracts. Subsequent payments, referred to as variation margins, are made or received by the Sub-Fund periodically and are based on changes in the market value of open futures contracts. Net unrealised gains and losses on financial futures contracts are recorded in the "Statement of Net Assets"; net realised and net changes in unrealised gains and losses from financial futures contracts are recorded in the "Statement of Operations and Changes in Net Assets". When the contract is closed, the concerned Sub-Fund records a realised gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the opening transaction.
- **Upfront premium Options contracts** - When the Sub-Fund purchases an option contracts with an upfront premium, it pays a premium and an amount equal to that premium is recorded as an asset. When the Sub-Fund writes an option with an upfront premium, it receives a premium and an amount equal to that premium is recorded as a liability.  
 The asset or liability is adjusted daily to reflect the current market value of the options contracts.  
 Options contracts which are quoted or dealt in on a stock exchange or on a Regulated Market or any Other Regulated Market are valued at the exchange quoted price (following the pricing policy described above under "Valuation of Investments"). OTC options are marked-to-market based upon daily prices calculated by third party agents and verified against the value received from the counterparty.  
 If the last known prices are not representative, the valuation will be based on the potential realisation value estimated by the Board of Directors of the SICAV with prudence and in good faith.

If an option expires unexercised, the Sub-Fund realises a gain or loss to the extent of the premium received or paid. Premiums received or paid, net unrealised gains and losses from options contracts are recorded in the "Statement of Net Assets" under the account balances "Upfront premium Options contracts purchased at market value" or "Upfront premium Options contracts written at market value".

Net realised gains and losses and net changes in unrealised gains and losses from upfront premium options contracts are recorded in the "Statement of Operations and Changes in Net Assets".

- **Futures-Style Options contracts** - Futures-style options contracts are valued at the quoted price available on an official stock exchange (following the pricing policy as described above under "Valuation of Investments"). Initial margin deposits are paid in cash upon entering into the contract. Subsequent positive or negative cashflows, referred to as variation margins, are paid or received by the Sub-Fund periodically and are based on changes in the market value of open option contracts. When the contract is closed, the concerned Sub-Fund records a realised gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the opening transaction.

Net unrealised gains and losses on futures-style options contracts are recorded in the "Statement of Net Assets".

Net realised gains and losses and net changes in unrealised gains and losses from futures-style options contracts are recorded in the "Statement of Operations and Changes in Net Assets".

- **Swaps contracts** - Sub-Funds may enter into different types of swaps agreements such as interest rate swaps, swaptions, inflation-linked swaps, credit default swaps and total return swaps. Net unrealised gains and losses on swaps contracts are recorded in the "Statement of Net Assets". Net realised gains and losses from swap contracts are recorded in the "Statement of Operations and Changes in Net Assets". Swaps contracts are valued at fair market value as determined in good faith pursuant to procedures established by the Board of Directors of the SICAV.

Swaps contracts are marked-to-market at each Net Asset Valuation calculation date. The market value is based on the valuation of elements laid down in the contract, and it is obtained from third party agents, market makers or internal models, pursuant to the procedures established by the Board of Directors of the SICAV.

Effective interest expenses/incomes on swaps contracts are booked in full in the "Statement of Operations and Changes in Net Assets". Accrued expense/income on swaps contracts are netted on each Net Asset Valuation calculation date for each swap contract and the resulting net balance is posted per swap, either as interest expense on swap or interest income on swap, in the "Statement of Operations and Changes in Net Assets".

- **Income** - Interest income is accrued on a daily basis. Dividends are shown net of withholding taxes deducted at source, and are recorded as income on the ex-dividend date.
- **Net realised gain and loss** - Net realised gain and loss comprise the gain or loss arising on the trading of securities and other investments, financial futures contracts, forward foreign exchange contracts, options contracts, swaps contracts and other investments during the year, and differences arising on the revaluation of other assets and liabilities denominated in foreign currencies at year end. Net realised gains or losses are determined on the basis of weighted average cost of the investments sold except for futures contracts, where the First-In First-Out ("FIFO") methodology is applied.
- **Combined financial statements** - The figures of each Sub-Fund are presented in their respective Base Currency. The combined financial statements are expressed in euros and the sum of the Sub-Funds' net assets which are in another currency are converted in euros at the exchange rates prevailing at year end. The combined financial statements are presented for information purposes only.

### 3 EXCHANGE RATES USED AS OF 31 DECEMBER 2017

Assets and liabilities expressed in currencies other than the Base Currency of the Fund are converted at exchange rates prevailing as at 31 December 2017. Profit and losses arising on foreign exchange operations are recorded in the "Statement of Operations and Changes in Net Assets". Transactions in foreign currencies are converted into the Base Currency of the Fund at exchange rates prevailing on the transaction dates.

The exchange rates used as at 31 December 2017 are as follows:

1 EUR =	1 EUR =
1.53525 AUD	9.82175 NOK
3.98320 BRL	1.68840 NZD
1.50450 CAD	4.17250 PLN

### 4 MANAGEMENT, INVESTMENT MANAGEMENT AND DISTRIBUTION FEES

The management fee is a percentage of the Net Asset Value of each Sub-Fund, which ranges, according to the prospectus, from 0.50% to 2.25% p.a, depending on the relevant Share Class.

The management fee rates effectively applied as at 31 December 2017 are as follows:

Sub-Fund	Class A	Class C	Class E	Class F	Class H	Class I	Class N
Pioneer Fund Solutions - Conservative	1.20%	1.20%	1.20%	1.80%	*	0.55%	0.60%

Pioneer Fund Solutions - Diversified Alpha	0.00%	*	*	*	*	0.00%	0.00%

\* Not launched and/or not applicable

## 5 PERFORMANCE FEES

The performance fee, set up at a maximum rate of 5% (where applicable and depending on the Share Class), is calculated by reference to the increase in the Class's assets over and above the increase in the benchmark or performance hurdle as adjusted for subscriptions into and redemptions out of the relevant Classes of Shares during the Performance Period. The calculation is as follows:

- 1) where the benchmark or performance returns are positive, the Management Company earns a performance fee equal to the percentage listed in Appendix I of the Prospectus of the outperformance the relevant Classes of Units achieved over its respective benchmark subject, where applicable, to the High Watermark Principle (as defined below) during the Performance Period.
- 2) where the Sub-Fund's benchmark or performance hurdle declines over the Performance Period, the Management Company earns a performance fee equal to the percentage listed in Appendix I of the Prospectus of the positive performance that the relevant Classes of Shares achieved subject, where applicable, to the High Watermark Principle during the Performance Period.
- 3) where a Class performance exceeds the High Watermark and the benchmark or performance hurdle, but the excess performance against the High Watermark is less than the excess performance against benchmark or performance hurdle, then the performance fee is calculated by reference to the portion of the excess performance over the High Watermark and not the benchmark or performance hurdle.

As defined in the prospectus, the High Watermark principle establishes a Net Asset Value per Share below which performance fees is not paid.

It is set at the Net Asset Value per Share of the relevant Classes at which the last performance fee was paid or, if no performance fee has ever been paid on that Class, at the Net Asset Value per Share at which the Class was launched or, where a performance fee is introduced to that Class for the first time, at the Net Asset Value per Share of the Class on the Business Day immediately preceding the date of introduction of the performance fee on that Class.

The benchmarks or performance hurdles are calculated gross of management and other fees and charges based on a Total Return index unless otherwise specified. In respect of the Class Shares F, the performance calculation is performed on a "Price Index", i.e., the calculation of the performance of the benchmark or performance hurdle will be net of dividends.

In respect of the Class X Units, performance fee, if any, are charged and collected by the Management Company directly from the Shareholders and are not, therefore, reflected in the Net Asset Value.

Performance fees charged during the year are detailed in the "Statement of Operations and Changes in Net Assets" for the relevant Sub-Funds.

In addition to the Management Fees disclosed above, as per Prospectus, for Sub-Funds investing a substantial portion of their assets in investment funds, the maximum management fee of other UCIs or UCITS in which the Sub-Fund invests in shall not exceed 3% of such target Sub-Funds.

In respect of Sub-Fund's investments in UCITS and other UCIs whether managed or not by the Management Company or any other company linked to the Management Company, the maximum level of ongoing charges of such target funds as at 31 December 2017 are disclosed below:

Sub-Fund	Ongoing Charges rate
Pioneer Fund Solutions - Conservative	1.74%
Pioneer Fund Solutions - Balanced	1.74%
Pioneer Fund Solutions - Diversified Growth	2.00%
Pioneer Fund Solutions - Diversified Income Best Select	2.05%
Pioneer Fund Solutions - Diversified Alpha	2.25%

If the Fund invests in the units or shares of other UCITS and/or other UCIs that are managed, directly or by delegation, by the same Management Company or by any other company to which the Management Company is linked, that Management Company or other company may not charge subscription or redemption fees on account of the Fund's investment in the units or shares of other UCITS and/or other UCI.

## 6 DEPOSITARY AND PAYING AGENT, ADMINISTRATOR, REGISTRAR AND TRANSFER AGENT

The Depositary and Paying Agent, the Administrator and the Registrar and Transfer Agent receive out of the assets of the relevant Sub-Fund, a fee for their services as detailed below.

- **Depositary and Paying Agent:** The fee is a percentage of portfolio value at each month end of the Sub-Fund. It ranges from 0.003% to 0.50% p.a. depending on where the assets of the relevant Sub-Fund are held. The fee is calculated and accrued on each Valuation Day and is payable monthly in arrears.
- **Administrator:** The fee for the main services provided, amounts to an annual rate of 0.01%, is calculated and accrued on each Valuation Day on the basis of the Net Asset Value of the relevant Sub-Fund. It is payable monthly in arrears.
- **Registrar and Transfer Agent:** The main components of the compensation for the services provided are the number of the existing active share Classes, the number of clients' accounts and the number of transactions processed.

## 7 TAXATION OF THE FUND - TAXE D'ABONNEMENT

In accordance with the legislation currently prevailing in Luxembourg, the SICAV is not subject to any taxes on income or capital gains. The Sicav is subject to a subscription tax *Taxe d'abonnement*, which amounts to an annual rate of 0.05% based on the Net Asset Value of each Sub-Fund at the end of each calendar quarter, calculated and paid quarterly. However, this tax is reduced to 0.01% for Net Asset Value related to share classes only aimed at eligible institutional investors and for Sub-Funds whose sole object is collective investment in money market instruments and in deposits with credit institutions.

Pursuant to Article 175 (a) of the amended law of 17 December 2010, the net asset invested in UCIs already subject to *Taxe d'abonnement* is exempted from this tax. Interest and dividend income received by the SICAV may be subject to non-recoverable withholding tax in the countries of origin.

## 8 OPEN POSITIONS ON FUTURES CONTRACTS

As at 31 December 2017, certain sub-funds had the following positions on futures contracts:

The broker of all the futures listed is Morgan Stanley.

## 16 TRANSACTION COSTS

The transaction costs the SICAV incurred in the year 2017 related to purchase or sale of financial instruments are disclosed in a specific expenses line of the "Statement of Operations and Changes in the Net Assets". Transaction costs include costs directly linked to the acquisition or sale of financial instruments, to the extent that such costs are shown separately on transaction confirmations.

For some asset classes, transaction costs are usually incorporated in dealing prices and are not reported separately.

Depending on the nature of the investments of the Sub-Fund, this may result in no data being reported in the transaction costs section for some Sub-Funds.

## 17 PROXY VOTING POLICY

The Management Company has implemented a Proxy Voting Policy to enable the exercise of voting rights attached to the portfolio securities.

The Management Company aims to cast votes in a manner consistent with the best interest of the investors. In voting proxies, consideration is given to the economic effect of the proposal on the value of portfolio holdings on both the short and long-term impact. In general, the Management Company believes that supporting the company's strategy and voting "for" management's proposals builds portfolio value. In some cases, however, proposals set forth by management may have a negative effect on that value, and consideration of this may affect the votes cast by the Management Company.

The Management Company exercises voting rights and, where it has authorised delegated investment managers to vote on portfolio securities, it requires that they do so in accordance with the Proxy Voting Policy or another authorized policy. Together, the Management Company and/or the Investment Managers may engage the services of an independent third party to assist in analysing proxies, Shareholder meeting recommendations, record keeping and voting services provided that the service provider provides its services in accordance with the Proxy Voting Policy.

## 18 CLASS ACTION

A class action is an action that allows to a group of investors to claim from a company or public institution to obtain financial compensation in the event of losses.

The Management Company has engaged the services of two independent companies to assist in the class action activities and ensure a global coverage.

Costs paid upfront for the services related to the portfolio analysis, the collection of the depositary data and the assistance in the other activities related to class actions are booked in the financial statements under "Other charges".

The amounts received when the class action are settled, are booked in the financial statements under "Other income".

No income from this activity was recorded during the year 2017.

## REPORT OF THE *REVISEUR D'ENTREPRISES* AGREE

### Report on the Audit of the Financial Statements

#### Opinion

We have audited the financial statements of Pioneer Fund Solutions and of each of its Sub-Funds, which comprise the Statement of Net Assets, the Securities Portfolio as at December 31, 2017 and the Statement of Operations and Changes in Net Assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Pioneer Fund Solutions and of each of its Sub-Funds as at December 31, 2017, and of the results of its operations and changes in its net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### Basis for Opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "*Commission de Surveillance du Secteur Financier*" (CSSF). Our responsibilities under those Law and standards are further described in the "Responsibilities of *Reviser d'Entreprises Agréé* for the Audit of the Financial Statements" section of our report. We are also independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Other information

The Board of Directors of the SICAV is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of *Reviser d'Entreprises Agréé* thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regards.

#### Responsibilities of the Board of Directors of the SICAV for the Financial Statements

The Board of Directors of the SICAV is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the SICAV determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the SICAV is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the SICAV either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

#### Responsibilities of the *Reviser d'Entreprises Agréé* for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of *Reviser d'Entreprises Agréé* that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the SICAV.
- Conclude on the appropriateness of Board of Directors of the SICAV's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the *Réviseur d'Entreprises Agréé* to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the *Réviseur d'Entreprises Agréé*. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

For Deloitte Audit, *Cabinet de Révision Agréé*

Emmanuelle Miette, *Réviseur d'Entreprises Agréé*  
Partner

Luxembourg, 24 April 2018

## SFT REGULATION

During the year 2017, the SICAV did not engage in transactions which are the subject of EU regulation No 2015/2365 on the transparency of securities financing transactions and of reuse. Accordingly, no global, concentration or transaction data, or information on the reuse or safekeeping of collateral is required to be reported.

## REMUNERATION POLICY AND PRACTICES

Pioneer Asset Management S.A., the Management Company of Pioneer Fund Solutions acts as at 31 December 2017 as Management Company or AIFM for several umbrella and standalone UCITS and AIFs.

The total remuneration paid by the Management Company to its staff for the financial year 2017 is as follows:

	Nr. of beneficiaries	Fixed remuneration	Variable remuneration	Total
<b>Staff</b>	47	2,826,956.04	409,233.00	3,216,189.04
<b>Out of which</b>				
- Identified staff	7	714,010.91	191,000.00	905,010.91
- All other staff	40	2,112,945.13	218,233.00	2,331,178.13

The Fund represents as of 31 December 2017 around 0.92% of Total Net Assets under Management of Pioneer Asset Management S.A. The total remuneration figures shown above refer to activities in respect of all funds managed.

Pioneer Asset Management employees who are appointed to the Board of Directors of the Management Company waive the right to any remuneration in respect of their duties as Directors.

No employee of the Management Company receives any amount paid directly by the UCITS or AIFs, including carried interest and performance fees.

Pioneer Asset Management S.A. follows a responsible, performance-oriented remuneration policy, which considers long-term interests of the employees and the Management Company and which aims to contribute with consequence to the Management Company's strategic goals as well as to its business strategy.

Fixed remuneration components are linked to the roles covered, the professional services rendered and the scope of responsibilities, reflecting the level of academic qualification, market pay levels, experience and skills required for each position, as well as the level of excellence demonstrated.

Variable remuneration is designed to promote a sustainable long-term development of the Management Company and a solid and effective risk management system.

Pioneer Asset Management S.A. has adopted a remuneration policy whose principles are reviewed at least annually by the Board of Directors, who is also responsible for and oversees the implementation of the policy. The 2017 independent internal review for compliance with the policy evidenced no exceptions. There were no material changes to the adopted remuneration policy.

## GLOBAL EXPOSURE

### ■ THE ABSOLUTE VAR APPROACH:

The following Sub-Funds use the absolute Value-at-Risk (VaR) approach (99% confidence level, 1 month holding period) in order to monitor and measure the global exposure. The length of data history is 500 business days.

Sub-Fund	VaR Model	Reference Portfolio	VaR Limit	Lowest VaR	Highest VaR	Average VaR	Average Leverage
Pioneer Fund Solutions - Diversified Alpha	Parametric	N/A	20%	1.61%	2.47%	2.01%	0.00%

### ■ THE RELATIVE VAR APPROACH:

The following Sub-Funds use the relative Value-at-Risk (VaR) approach (99% confidence level, 1 month holding period) in order to monitor and measure the global exposure. The length of data history is 500 business days.

Sub-Fund	VaR Model	Reference Portfolio	VaR Limit	Lowest VaR	Highest VaR	Average VaR	Average Leverage
Pioneer Fund Solutions - Conservative	Parametric	75% Bloomberg Barclays Euro- Aggregate Index / 25% MSCI AC World Index <sup>1</sup>	200%	63.82%	109.68%	95.10%	122.34%
