CS (Lux) Infrastructure Equity Fund

a subfund of CS Investment Funds 5 - Class UBH EUR

Investment policy

This sector-based equity fund invests along the value chain of the global infrastructure opportunity set. The investment universe encompasses companies that provide the facilities and services necessary to maintain and develop modern infrastructure, and also includes companies supplying infrastructure-related products and services. The objective is to maximize total return from capital appreciation and dividends over extended periods of time. It follows an unconstrained, non-benchmark oriented approach to identify attractively valued companies positioned to benefit from the infrastructure theme. This share class provides a hedge against currency risk versus the reference currency (USD).

¹⁾ The calculation of the risk indicator is based on the CESR/10-673 Directive. The risk indicator is based on historic and partly simulated data; it cannot be used to predict future developments. The classification of the Fund may change in future and does not represent a guarantee. A classification into category 1 is not a risk-free investment either.

²⁾ Historical performance indications and financial market scenarios are not reliable indicators of future performance. The performance data do not take into account the commissions and costs incurred on the issue and redemption of fund units.
