SPECIFIC RISKS

- Emerging and Developing Markets Risk: Investing in emerging and developing markets involves additional risks not typically associated with investing in more established economies and markets. Such risks may include greater social, economic and political uncertainty.
- Operational Risk: Local custody services remain underdeveloped in many emerging market countries and in certain circumstances the Fund may not be able to recover some of its assets.
- Derivatives Risk: The Fund will enter into various financial contracts (derivatives) with other parties. There is a risk that the other party to a derivative will become insolvent or fail to make its payments which may result in the Fund and your investment suffering a loss. Investments in a derivative will not necessarily generate the same return as a direct investment in the underlying asset on which the derivative is based.
- Leverage Risk: The Fund implements a high use of leverage. Leverage presents opportunities for increasing both returns and losses because any event which affects the value of an investment is magnified to the extent leverage is employed.
- Liquidity Risk: The Fund can from time to time be invested in financial instruments that may have low levels of liquidity.
- Currency Risk: The Fund has exposure to securities that are issued in currencies other than the base currency of the Fund. As a result the Fund is subject to currency risk, which arises from changes in the exchange rates.

ABOUT THE FUND

The investment objective of the Fund is to achieve a consistent absolute return. The Fund seeks to consistently increase the value of its assets by investing in three asset classes; namely fixed income, currencies and shares.

The Fund is actively managed and not with reference to a benchmark. The Fund will gain exposure to fixed income (including fixed income indices and credit indices) by investing directly in debt and debt-related securities (which will be either fixed or floating rate, issued by governments, governmental authorities or corporations and rated or unrated, with a minimum credit rating at the time of purchase of CCC (or its equivalent), as rated by Standard & Poors (or equivalent rating agency)) and by utilising interest rate futures, bond forwards, swaps, options and exchange traded funds ("ETF"). In addition, the Fund may invest in Contingent Convertible Securities (CoCos). A CoCo is a debt security that is intended to either convert into equity or have its principal written down upon the occurrence of certain triggers. The Fund will employ a long/short approach in pursuing its objective. A long investment is an investment where the Investment Manager expects the value of the investment to go up. A short investment is an investment where the Investment Manager expects the value of the investment to go down. The Fund will gain exposure to currencies by investing directly in currencies and by utilising forwards, swaps, futures and options. The Fund will gain exposure to shares (including equity indices) by investing directly in shares and by utilising ETFs, futures, options, contracts for difference ("CFDs") and swaps (including total return swaps and credit default swaps). Furthermore, the Fund may engage in total return swaps and securities financing transactions ('SFTs'), which are contracts for difference, equity swaps, repurchase agreements, reverse repurchase agreements and securities lending.

PERFORMANCE EVOLUTION USD (NET OF FEES)

GLOSSARY

Benchmark

Index used as basis for measuring the performance of an investment fund. Also called reference index or comparison index.

Derivatives

Derivatives are financial instruments whose prices depend on the price movements in a reference variable, known as the underlying. Underlying assets may be shares, equity indices, government bonds, currencies, interest rates, commodities like wheat and gold, or also swaps. Derivative financial instruments may be unconditional forward transactions or they may be options. They are traded either on futures and options exchanges on standardised terms, or over-the-counter (OTC) on freely negotiated terms. Changes in the price of the underlying lead in certain situations to considerably higher price fluctuations in the derivative. Derivatives can be used to hedge against financial risks, to speculate on price changes (trading) or to take advantage of price differences between markets (arbitrage).

Duration

Duration is the average time to payout. This key figure is used to measure the influence of interest rate movements on the price of a bond or bond fund. Duration is defined in years (e. g. 3-year duration means that the value of a bond would increase by 3% if interest rates fall by 1% and vice versa).

This is a marketing document and is intended for informational and/or marketing purposes only. This document is confidential and is intended only for the use of the person(s) to whom it was delivered. This document may not be reproduced (in whole or in part) or delivered, given, sent or in any other way made accessible, to any other person without the prior written approval of Union Bancaire Privée, UBP SA or any entity of the UBP Group ("UBP"). This document reflects the opinion of UBP as of the date of issue.

This document is for distribution only to persons who are Qualified Investors in Switzerland or Professional Clients, Eligible Counterparties or equivalent category of investors as defined by the relevant laws (all such persons together being referred to as "relevant persons"). This document is directed only at relevant persons and must not be acted on or relied on by persons who are not relevant persons. It is not intended for distribution, publication, or use, in whole or in part, in any jurisdiction where such distribution, publication, or use would be unlawful, nor is it directed to any person or entity to which it would be unlawful to direct such a document. In particular, this document may not be distributed in the United States of America and/or to US Persons (including US citizens residing outside the United States of America).

This document has not been produced by UBP's financial analysts and is not to be considered as financial research. It is not subject to any guidelines on financial research and independence of financial analysis.

Reasonable efforts have been made to ensure that the content of this document is based on information and data obtained from reliable sources. However, UBP has not verified the information from third sources in this document and does not guarantee its accuracy or completeness. UBP accepts no liability whatsoever and makes no representation, warranty or undertaking, express or implied, for any information, projections or any of the opinions contained herein or for any errors, omissions or misstatements. The information contained herein is subject to change without prior notice. UBP gives no undertaking to update this document or to correct any inaccuracies in it which may become apparent.

This document may refer to the past performance of investment interests. **Past performance is not a guide to current or future results.** The value of investment interests can fall as well as rise. Any capital invested may be at risk and you may not get back some or all of your original capital. In addition, any performance data included in this document does not take into account fees and expenses charged on issuance and redemption of securities nor any taxes that may be levied. Changes in exchange rates may cause increases or decreases in your return.

All statements other than statements of historical fact in this document are "forward-looking statements". Forward-looking statements are not guarantees of future performance. The financial projections included in this document do not represent forecasts or budgets, but are purely illustrative examples based on a series of current expectations and assumptions which may not eventuate. The actual performance, results, financial condition and prospects of an investment interest may differ materially from those expressed or implied by the forward-looking statements in this document as the projected or targeted returns are inherently subject to significant economic, market and other uncertainties that may adversely affect performance. UBP disclaims any obligation to update any forward-looking statement, as a result of new information, future events or otherwise.

It should not be construed as advice or any form of recommendation to purchase or sell any security or funds. It does not replace a prospectus or any other legal documents that can be obtained free of charge from the registered office of a fund or from UBP. The opinions herein do not take into account individual investors' circumstances, objectives, or needs. Each investor must make his/her own independent decision regarding any securities or financial instruments mentioned herein and should independently determine the merits or suitability of any investment. In addition, the tax treatment of any investment in the fund(s) mentioned herein depends on each individual investor's circumstances. Investors are invited to read carefully the risk warnings and the regulations set out in the prospectus or other legal documents and are advised to seek professional advice from their financial, legal and tax advisors.

The tax treatment of any investment in the Fund depends on your individual circumstances and may be subject to change in the future. The document neither constitutes an offer nor a solicitation to buy, subscribe for or sell any currency, funds, product or financial instrument, make any investment, or participate in any particular trading strategy in any jurisdiction where such an offer or solicitation would not be authorised, or to any person to whom it would be unlawful to make such an offer or invitation.

The Swiss representative is 1741 Fund Solutions Ltd, Burggraben 16, CH-9000 St Gallen. The Swiss paying agent is Telco AG, Bahnhofstrasse 4, 6430 Schwyz. The prospectus, articles of association, KIID and annual and semi-annual reports may be obtained free of charge from UBP as well as from the Swiss representative. The Funds' Legal Documents may be obtained free of charge from UBP as well as from the Swiss representative.
