Risk profile

- Past performance is not a reliable guide to future performance
- The value of your investment is not guaranteed and may go up or down.
- Emerging markets risk: The performance of the Fund will have significant dependence on the economic environment of emerging markets. Because of this (i) the Fund's investments may be difficult to buy and sell, (ii) the price of the Fund's investments are likely to go up and down more than shares of companies in developed markets, (iii) the exchange rate of foreign currencies in emerging markets are subject to greater fluctuations, (iv) there may be restrictions on removing the funds or other assets from the jurisdiction, (v) there is less publicly available information about the companies, (vi) there may be higher costs, (vii) the markets may not be as well regulated, (viii) there may be governmental interference, (ix) there may be higher inflation and more social, economic and political uncertainties than in developed markets.
- Currency Risk: Currency fluctuations between the share class currency and the base currency of the Fund may adversely affect the value of an investment in the Fund.
- For more information on risks please refer to the Key Investor Information Document and Prospectus.
