

## DB PLATINUM IV CLINTON EQUITY STRATEGIES

Share Class: I1C-E (ISIN: LU1206293018), (WKN: A14QRH), (Currency: EUR)

a sub fund of DB Platinum IV. The Fund is managed by Deutsche Asset Management S.A., part of the DWS Group.

### Objectives & Investment Policy

**This product is in the process of being terminated. Further information on this is available on [www.systematic.dws.com](http://www.systematic.dws.com).**

The aim of the Fund is to seek capital appreciation while minimizing risk so as to achieve a high return.

The investment manager of the Fund which has been appointed by Deutsche Asset Management S.A. is Clinton Group, Inc. (the Investment Manager). The Fund invests generally in publicly-traded shares on a global basis, with a focus on the U.S., Canada, Europe, Asia Pacific, South Africa and Brazil.

The Investment Manager uses rules-based computer models which seek to identify anomalies in share prices. Using the results produced by these models, the Investment Manager will buy shares (take long positions) or enter financial contracts (derivatives) which derive their value from the price movement of shares (to take both long and short positions). The Fund's net exposure to the market is generally expected to be low.

The models and computer based-programmes used by the Investment Manager seek to exploit fundamental and price history factors to maximise returns for the Fund while minimising risk, where possible.

Financial contracts (derivatives) may be used for investment purposes and to aim to reduce inflation, interest rate and/or foreign currency exposure in respect of the assets (hedging). Derivatives may also be used to try to increase returns by increasing the exposure to certain investments (leverage). The gross leverage is not expected to exceed 1000% of the value of the Fund. The Fund's portfolio is rebalanced several times each day. This may result in relatively high transaction costs being incurred. These costs are paid from the assets of the Fund, in addition to the charges set out below.

No dividends will be paid on your shares.

You may redeem your investment on demand on a daily basis.

### Risk and Reward Profile

The risk and reward category is calculated using historical data which may not be a reliable indicator of the Fund's future risk profile.

The risk and reward category may shift over time and is not a target or a guarantee.

The lowest category (i.e. Category 1) does not mean a risk-free investment.

The Fund is in Category 4 because of the high range and frequency of price movements (volatility) of the underlying investments referenced by the Fund.

The following are additional risks not covered by the risk and reward category.

The Fund may enter into one or more derivatives with a number of swap counterparties. If any of the counterparties fail to make payments (for example, it becomes insolvent) this may result in your investment suffering a loss.

Deutsche Asset Management entities and related companies may act in several roles in relation to the Fund such as distributor and management company which may involve conflicts of interest.

The Fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up.

The Fund may have increased exposure to particular investments known as leverage. A fall in value of such

investments can result in a proportionately greater loss to the Fund.

The Fund relies upon the performance of the investment manager of the underlying strategy. If that investment manager performs poorly the value of your investment is likely to be adversely affected.

The Fund has been designed for investors who are looking for long term capital growth through exposure to alternative investment strategies. As the Fund may therefore employ sophisticated strategies (including the use of derivatives), it is intended only for knowledgeable and experienced investors who are able to understand and evaluate both the investment strategy and its inherent risks (such understanding and evaluation may be gained through advice from a professional advisor).

The value of an investment in shares will depend on a number of factors including, but not limited to, market and economic conditions, sector, geographical region and political events.

The Fund may use derivatives i) for investment purposes; and ii) to try to reduce exposure to inflation, interest rates and/or movements in currency exchange rates. This may not always be successful and may result in greater fluctuations in the value of the Fund. This may negatively affect the value of the Fund and your investment.

More information in relation to risks in general may be found in the "Risk Factors" section of the prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest		The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser or distributor.
Entry charge	None	
Exit charge	None	
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).		The ongoing charges figure is based on expenses for the year ending October 2017. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any.
Charges taken from the Fund over a year		
Ongoing charges	1.99%	More detailed charges information may be found in the "Fees and Expenses" section of the prospectus.
Charges taken from the Fund under certain specific conditions		
Performance fee		
Where the Gross NAV (net asset value after deduction of certain fees but not performance fee) exceeds the higher of (i) the highest Gross NAV at any previous year end or (ii) the issue price (High Watermark), 20% of the amount, negative or positive, that the Gross NAV exceeds the higher of (i) the prior day's Gross NAV and (ii) the High Watermark, will accrue daily and be paid annually. In the last financial year 0.00% of daily average value of the share class was charged as performance fee.		

## Past Performance

Please be aware that past performance is not a reliable indicator of future results.

The fees for the ongoing Fund charges are included in the calculation of past performance. The entry/exit fees are excluded from the calculation of past performance.

The Fund was launched in 2015 and the share class was launched in 2015.

Past performance has been calculated in EUR.
