

Capital Group European Growth and Income Fund (LUX)

Objective

The fund seeks to achieve long-term growth of capital and income by investing in companies domiciled and/or having their principal place of business in Europe. Preservation of capital is also a priority.

The Capital advantage

Since 1931 our firm, Capital Group, has been singularly focused on delivering superior, consistent results for long-term investors using high-conviction portfolios, rigorous research and individual accountability.

Fund essentials

Launch date	30 October 2002
Fund size	US\$ 656 million
Number of holdings	74
Turnover	33.6%
Gross income yield	3.0%
Net income yield	2.8%

Turnover is calculated over the last 12 months as the lesser of monthly purchases and sales divided by average net assets. **Yield** is calculated over the same period as income earned by the fund, on both a before (gross) as well as an after (net) withholding taxes basis (in each case before fees), divided by average total net assets. This differs from the yield of each share class.

Fund results in USD (Zh-USD shares) as at 28 February 2018, %

Calendar year, %

	2016	2017
Fund	6.2	11.7

Fund results are shown after fees and expenses and are calculated as the increase or decrease in net asset value of the fund over the relevant period. The net asset value is calculated based on close-of-business prices for performance and fee calculation purposes only. No dealing activity can be based on such net asset value. Please refer to capitalgroup.com for further information on net asset value applicable to any dealing activity in the fund, and for other share classes; these have different fees and expenses, and returns will differ. Includes exceptional withholding tax refund. Results data does not take account of costs incurred on the issue of shares. Inception of the fund share class on 14 April 2015. Results prior to this relate to the older share classes, adjusted where necessary to reflect the management fee of the recipient share class. Past results are not a guarantee of future results. Source: Capital Group.

One-off charges taken before and/or after you invest

Entry charge	5.25%
Exit charge	2.00%

This is the maximum that might be taken out of your money before it is invested and/or before the proceeds of your investment are paid out

Country breakdown, %

Sector breakdown, %

Country and sector breakdowns are data that are likely to change over time and do not constitute a commitment from the management company.

Risk statistics (Zh-USD shares)

Lifetime risk statistics

Standard deviation	9.6
--------------------	-----

Risk statistics are based on close of market returns (T+1).

Standard deviation (absolute volatility) is a measure of the absolute variability of returns and the larger the standard deviation, the greater the likelihood (and risk) that a fund's results will fluctuate from the average return. It is based on monthly observations using a population standard deviation calculation.

36 observations are required for statistical significance

Share class information (further share classes available at capitalgroup.com)

Class	NAV	Management fee p.a.	TER	Dividend yield	Bloomberg	ISIN	SEDOL
Zh-USD (Acc)	US\$ 37.37	0.750%	0.90%	n/a	CIGEGZU LX	LU1217766937	BWV0S42

d the dividend distributed will generally represent all of the net investment income (i.e. investment income net of withholding taxes less expenses) of such Classes.

gd the dividend distributed will generally represent a substantial part of the gross investment income (i.e. investment income net of withholding taxes but gross of expenses) of such Classes.

Dividend yield is the income return on the share class and is shown for distributing share classes only. It is calculated over the last 12 months as income earned by the fund after withholding taxes, fees and expenses. Where hedged share classes are listed, for the purpose of currency hedging all assets attributable to them in this fund will be deemed to constitute exposure to EUR. The fund will aim to hedge 100% (with reasonable margin of tolerance) of this deemed currency exposure back into the currency referred to in the relevant Class's designation.

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. In addition to the Total Expense Ratio (TER), entry charges may apply according to provisions described in the Prospectus. However, exit penalties may apply when there is excessive trading or market timing. Data is likely to change over time and does not constitute a commitment from the management company. Past results are not a guarantee of future results.

Total Expense Ratio (TER) is calculated over the last 12 months with a one month lag. TER data is therefore as at 31 January 2018.

Past results are not a guarantee of future results. The value of shares and income from them can go down as well as up and you may lose some or all of your initial investment. This information does not constitute an offer or solicitation to deal in units in the fund or investment advice or recommendation and was prepared without regard to the specific objectives, financial situation or needs of any particular person who may receive it. The information in this presentation is based on certain assumptions, information and conditions available as at the relevant date(s) and may be subject to change at any time without notice. Investments in the fund involve risks, including the possible loss of the principal amount invested, and are not obligations of, deposits in, or guaranteed or insured by Capital International or any of their subsidiaries, associates or affiliates ('Capital Group') or distributors of the fund. Investors should read the fund's prospectus before investing. You should consider carefully whether the fund is suitable for you. You may wish to seek advice from a financial advisor before making a commitment to invest in the fund.
