Total Centr	ally Cleared Financial Derivative Instruments					\$ (18,687)	(0.03)

(1) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of

protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.

The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.

This instrument has a forward starting effective date. See Note 2, Securities Transactions and Investment Income, in the Notes to Financial Statements for further information.

OTC FINANCIAL DERIVATIVE INSTRUMENTS (amounts in thousands*)

* A zero balance may reflect actual amounts rounding to less than one thousand.

- (1) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (2) If the Fund is a buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) receive from the seller of protection an amount equal to the notional amount of the swap and deliver the referenced obligation or underlying securities comprising the referenced index or (ii) receive a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (3) The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.

⁽a) The Income Fund is investing in shares of an affiliated fund.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

- (1) If the Fund is a buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) receive from the seller of protection an amount equal to the notional amount of the swap and deliver the referenced obligation or underlying securities comprising the referenced index or (ii) receive a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (2) The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.
- (3) This instrument has a forward starting effective date. See Note 2, Securities Transactions and Investment Income, in the Notes to Financial Statements for further information.

- (a) The Inflation Strategy Fund is investing in shares of an affiliated fund.
- (b) Principal amount of security is adjusted for inflation.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

- (a) The Low Average Duration Fund is investing in shares of an affiliated fund.
- (b) Principal amount of security is adjusted for inflation.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

- (1) If the Fund is a buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) receive from the seller of protection an amount equal to the notional amount of the swap and deliver the referenced obligation or underlying securities comprising the referenced index or (ii) receive a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (2) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (3) The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.
- (4) This instrument has a forward starting effective date. See Note 2, Securities Transactions and Investment Income, in the Notes to Financial Statements for further information.

- (1) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (2) The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.

⁽a) The Low Duration Global Investment Grade Credit Fund is investing in shares of an affiliated fund.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

(1) Includes accrued interest.

Fair Value Measurements(1)

The following is a summary of the fair valuations according to the inputs used as at 31 December 2017 in valuing the Fund's assets and liabilities:

Category ⁽²⁾	Quoted Prices in Active Markets for Identical Investments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value
Transferable Securities	\$ 106,380	\$ 273,620	\$ 0	\$ 380,000
Financial Derivative Instruments ⁽³⁾	0	4,434	0	4,434
Totals	\$ 106,380	\$ 278,054	\$ 0	\$ 384,434

The following is a summary of the fair valuations according to the inputs used as at 31 December 2016 in valuing the Fund's assets and liabilities:

Category ⁽²⁾	Quoted Prices in Active Markets for Identical Investments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value
Transferable Securities	\$ 21,615	\$ 105,430	\$ 0	\$ 127,045
Financial Derivative Instruments ⁽³⁾	0	4,533	0	4,533
Totals	\$ 21,615	\$ 109,963	\$ 0	\$ 131,578

- (1) See note 3 in the Notes to Financial Statements for additional information.
- (2) Refer to the Schedule of Investments for additional information.
- (3) Financial Derivative Instruments may include open futures contracts, swap agreements, written options, purchased options and forward foreign currency contracts.

Collateral (Received)/Pledged for OTC Financial Derivative Instruments

The following is a summary by counterparty of the market value of OTC financial derivative instruments and collateral (received)/pledged as at 31 December 2017:

Counterparty	Total Market Value of OTC Derivatives	Collateral (Received)/Pledged	Net Exposures ⁽¹⁾
BOA	\$ 2,509	\$ (2,990)	\$ (481)
BPS	197	0	197
BRC	(4)	0	(4)
CBK	269	(440)	(171)
DUB	(18)	0	(18)
GLM	424	5	429
GST	33	1	34

Counterparty	Total Market Value of OTC Derivatives	Collateral (Received)/Pledged	Net Exposures ⁽¹⁾
HUS	\$ 289	\$ 0	\$ 289
JPM	295	0	295
MSB	9	0	9
MYI	77	0	77
RBC	6	0	6
SCX	(9)	0	(9)
SOG	(224)	0	(224)
UAG	581	(360)	221

⁽¹⁾ Net exposure represents the net receivable/(payable) that would be due from/to the counterparty in the event of default. See note 15, Financial Risks, in the Notes to Financial Statements for more information regarding credit and counterparty risk.

Comparative Information

The following is a summary of the comparative information for the Schedule of Investments as at 31 December 2017:

	31-Dec-2017 (%)	31-Dec-2016 (%)
Transferable Securities Admitted to Official Stock Exchange	34.08	27.09
Transferable Securities Dealt in on Another Regulated Market	65.58	0.53
Other Transferable Securities & Money Market Instruments	0.51	68.62
Centrally Cleared Financial Derivative Instruments	0.00	0.01
OTC Financial Derivative Instruments	1.17	3.43
Overnight Time Deposits	0.00	1.18

(a) The PIMCO MLP & Energy Infrastructure Fund is investing in shares of an

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

- (1) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (2) The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.

(a) The Mortgage Opportunities Fund is investing in shares of an affiliated fund.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

NOTES TO SCHEDULE OF INVESTMENTS (amounts in thousands*):

- * A zero balance may reflect actual amounts rounding to less than one thousand.
- ^ Security is in default.
- (a) Interest only security.
- (b) Zero coupon security.
- (c) Coupon represents a yield to maturity.
- (d) Principal amount of security is adjusted for inflation.
- (e) Perpetual maturity; date shown, if applicable, represents next contractual call date.
- (f) Affiliated to the Fund.
- (g) Contingent convertible security.

Cash of \$753 has been pledged as collateral for exchange-traded and centrally cleared financial derivative instruments as at 31 December 2017.

(h) Repurchase Agreements as at 31 December 2017:

⁽a) The PIMCO RAE Fundamental PLUS Emerging Markets Fund is investing in shares of an affiliated fund.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

⁽b) Principal amount of security is adjusted for inflation.

- (1) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (2) The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.
- (3) This instrument has a forward starting effective date. See Note 2, Securities Transactions and Investment Income, in the Notes to Financial Statements for further information.

NOTES TO SCHEDULE OF INVESTMENTS (amounts in thousands*):

- * A zero balance may reflect actual amounts rounding to less than one thousand.
- ^ Security is in default.
- (a) Interest only security.
- (b) Security did not produce income within the last twelve months.
- (c) Zero coupon security.
- (d) Coupon represents a yield to maturity.
- (e) Principal amount of security is adjusted for inflation.
- (f) Perpetual maturity; date shown, if applicable, represents next contractual call date.
- (g) Affiliated to the Fund.
- (h) Contingent convertible security.
- (i) Securities with an aggregate market value of \$116,522 have been pledged as collateral under the terms of the Master Repurchase Agreements and/or Global Master Repurchase Agreements as at 31 December 2017.
- (j) Securities with an aggregate market value of \$21,960 have been pledged as collateral under the terms of the Master Securities Forward Transaction Agreements as at 31 December 2017.

Cash of \$7,566 has been pledged as collateral for exchange-traded and centrally cleared financial derivative instruments as at 31 December 2017.

Cash of \$990 has been pledged as collateral for financial derivative instruments as governed by International Swaps and Derivatives Association, Inc. master agreements as at 31 December 2017.

⁽a) The PIMCO RAE Fundamental PLUS Global Developed Fund is investing in shares of an affiliated fund.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

⁽b) Principal amount of security is adjusted for inflation.

Schedule of Investments PIMCO RAE Fundamental PLUS US Fund (Cont.)

- (1) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (2) The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.
- (3) This instrument has a forward starting effective date. See Note 2, Securities Transactions and Investment Income, in the Notes to Financial Statements for further information.

NOTES TO SCHEDULE OF INVESTMENTS (amounts in thousands*):

- * A zero balance may reflect actual amounts rounding to less than one thousand.
- ^ Security is in default.
- (a) Interest only security.
- (b) When-issued security.
- (c) Security did not produce income within the last twelve months.
- (d) Zero coupon security.
- (e) Coupon represents a yield to maturity.
- (f) Principal amount of security is adjusted for inflation.
- (g) Perpetual maturity; date shown, if applicable, represents next contractual call date.
- (h) Affiliated to the Fund.
- (i) Contingent convertible security.
- (j) Securities with an aggregate market value of \$3,849 have been pledged as collateral under the terms of the Master Securities Forward Transaction Agreements as at 31 December 2017.

Cash of \$2,935 has been pledged as collateral for exchange-traded and centrally cleared financial derivative instruments as at 31 December 2017.

Cash of \$680 has been pledged as collateral for financial derivative instruments as governed by International Swaps and Derivatives Association, Inc. master agreements as at 31 December 2017.

(k) Repurchase Agreements as at 31 December 2017:

- (a) The PIMCO RAE Fundamental PLUS US Fund is investing in shares of an affiliated fund.
- (b) Principal amount of security is adjusted for inflation.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

- (1) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (2) The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.
- (3) This instrument has a forward starting effective date. See Note 2, Securities Transactions and Investment Income, in the Notes to Financial Statements for further information.

- (1) If the Fund is a buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) receive from the seller of protection an amount equal to the notional amount of the swap and deliver the referenced obligation or underlying securities comprising the referenced index or (ii) receive a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (2) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (3) The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.

⁽a) The Socially Responsible Emerging Markets Bond Fund is investing in shares of an affiliated fund.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

NOTES TO SCHEDULE OF INVESTMENTS (amounts in thousands*):

- * A zero balance may reflect actual amounts rounding to less than one thousand.
- ^ Security is in default.

Net Assets

- (a) Interest only security.
- (b) When-issued security.
- (c) Security did not produce income within the last twelve months.
- (d) Zero coupon security.

Schedule of Investments StocksPLUS[™] Fund (Cont.)

- (e) Coupon represents a yield to maturity.
- (f) Principal amount of security is adjusted for inflation.
- (g) Perpetual maturity; date shown, if applicable, represents next contractual call date.
- (h) Contingent convertible security.

Cash of \$7,961 has been pledged as collateral for exchange-traded and centrally cleared financial derivative instruments as at 31 December 2017.

Cash of \$10,990 has been pledged as collateral for financial derivative instruments as governed by International Swaps and Derivatives Association, Inc. master agreements as at 31 December 2017.

(i) Repurchase Agreements as at 31 December 2017:

(a) Principal amount of security is adjusted for inflation.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

⁽¹⁾ If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.

Schedule of Investments Strategic Income Fund (cont.)

- (2) If the Fund is a buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) receive from the seller of protection an amount equal to the notional amount of the swap and deliver the referenced obligation or underlying securities comprising the referenced index or (ii) receive a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (3) The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.

⁽¹⁾ If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.

The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.

(a) The Strategic Income Fund is investing in shares of an affiliated fund.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

- (1) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (2) The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.
- (3) This instrument has a forward starting effective date. See Note 2, Securities Transactions and Investment Income, in the Notes to Financial Statements for further information.

NOTES TO SCHEDULE OF INVESTMENTS (amounts in thousands*):

- A zero balance may reflect actual amounts rounding to less than one thousand.
- ^ Security is in default.
- (a) Interest only security.
- (b) When-issued security.
- (c) Security did not produce income within the last twelve months.
- (d) Zero coupon security.
- (e) Coupon represents a yield to maturity.
- (f) Principal amount of security is adjusted for inflation.
- (g) Perpetual maturity; date shown, if applicable, represents next contractual call date.
- (h) Affiliated to the Fund.
- (i) Contingent convertible security.
- (j) Securities with an aggregate market value of \$1,032,423 have been pledged as collateral under the terms of the Master Repurchase Agreements and/or Global Master Repurchase Agreements as at 31 December 2017.
- (k) Securities with an aggregate market value of \$30,137 have been pledged as collateral under the terms of the above master agreements as at 31 December 2017.

Cash of \$60,162 has been pledged as collateral for exchange-traded and centrally cleared financial derivative instruments as at 31 December 2017.

Cash of \$33,530 has been pledged as collateral for financial derivative instruments as governed by International Swaps and Derivatives Association, Inc. master agreements as at 31 December 2017.

(I) Repurchase Agreements as at 31 December 2017:

- (a) The Total Return Bond Fund is investing in shares of an affiliated fund.
- (b) Principal amount of security is adjusted for inflation.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

⁽a) The PIMCO TRENDS Managed Futures Strategy Fund is investing in shares of an affiliated fund.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

- (1) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (2) The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.
- (3) This instrument has a forward starting effective date. See Note 2, Securities Transactions and Investment Income, in the Notes to Financial Statements for further information.

- (1) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (2) The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.

NOTES TO SCHEDULE OF INVESTMENTS (amounts in thousands*):

- * A zero balance may reflect actual amounts rounding to less than one thousand.
- ^ Security is in default.
- (a) Payment in-kind security.
- (b) Zero coupon security.
- (c) Coupon represents a yield to maturity.
- (d) Perpetual maturity; date shown, if applicable, represents next contractual call date.
- (e) Affiliated to the Fund.
- (f) Contingent convertible security.
- (g) Restricted Securities:

		Maturity	Acquisition		Fair	% of	
Issuer Description	Coupon	Date	Date	Cost	Value	Net Assets	
Thames Water Utilities Finance Ltd.	5.050%	30/06/2020	19/10/2017	£ 1,304	£ 1,305	0.27	

(h) Securities with an aggregate market value of £28,145 have been pledged as collateral under the terms of the Master Repurchase Agreements and/or Global Master Repurchase Agreements as at 31 December 2017.

Cash of £4,833 has been pledged as collateral for exchange-traded and centrally cleared financial derivative instruments as at 31 December 2017.

(i) Repurchase Agreements as at 31 December 2017:

- (a) The UK Corporate Bond Fund is investing in shares of an affiliated fund.
- (b) Principal amount of security is adjusted for inflation.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

- (1) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (2) The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.
- (3) This instrument has a forward starting effective date. See Note 2, Securities Transactions and Investment Income, in the Notes to Financial Statements for further information.

⁽a) The UK Long Term Corporate Bond Fund is investing in shares of an affiliated fund.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

⁽b) Principal amount of security is adjusted for inflation.

- (1) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (2) If the Fund is a buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) receive from the seller of protection an amount equal to the notional amount of the swap and deliver the referenced obligation or underlying securities comprising the referenced index or (ii) receive a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (3) The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.
- (4) This instrument has a forward starting effective date. See Note 2, Securities Transactions and Investment Income, in the Notes to Financial Statements for further information.

NOTES TO SCHEDULE OF INVESTMENTS (amounts in thousands*):

- * A zero balance may reflect actual amounts rounding to less than one thousand.
- ^ Security is in default.
- (a) Interest only security.
- (b) Security is not accruing income as of the date of this report.
- (c) Security did not produce income within the last twelve months.
- (d) Zero coupon security.
- (e) Coupon represents a yield to maturity.
- (f) Principal amount of security is adjusted for inflation.
- (g) Perpetual maturity; date shown, if applicable, represents next contractual call date.
- (h) Affiliated to the Fund.
- (i) Contingent convertible security.
- (j) Securities with an aggregate market value of \$345,614 have been pledged as collateral under the terms of the Master Repurchase Agreements and/or Global Master Repurchase Agreements as at 31 December 2017.

Cash of \$46,494 has been pledged as collateral for exchange-traded and centrally cleared financial derivative instruments as at 31 December 2017.

Cash of \$2,090 has been pledged as collateral for financial derivative instruments as governed by International Swaps and Derivatives Association, Inc. master agreements as at 31 December 2017.

(k) Repurchase Agreements as at 31 December 2017:

- (a) The Unconstrained Bond Fund is investing in shares of an affiliated fund.
- (b) Principal amount of security is adjusted for inflation.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

- (1) If the Fund is a buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) receive from the seller of protection an amount equal to the notional amount of the swap and deliver the referenced obligation or underlying securities comprising the referenced index or (ii) receive a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (2) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (3) The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

- (1) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (2) If the Fund is a buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) receive from the seller of protection an amount equal to the notional amount of the swap and deliver the referenced obligation or underlying securities comprising the referenced index or (ii) receive a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- (3) The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.
- (4) This instrument has a forward starting effective date. See Note 2, Securities Transactions and Investment Income, in the Notes to Financial Statements for further information.

⁽a) The US Investment Grade Corporate Bond Fund is investing in shares of an affiliated fund.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

⁽b) Principal amount of security is adjusted for inflation.

- (a) The US Short-Term Fund is investing in shares of an affiliated fund.
- (b) Principal amount of security is adjusted for inflation.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Overnight investments and Repurchase Agreements of uninvested Fund cash which usually mature the next business day have been excluded from the Significant Changes in Portfolio Composition.

1. GENERAL INFORMATION

Each of the funds (hereinafter referred to individually as a "Fund" and collectively as the "Funds") discussed in this report is a sub-fund of the PIMCO Funds: Global Investors Series plc (the "Company"), an umbrella type open-ended investment company with variable capital and with segregated liability between Funds incorporated with limited liability under the Companies Act 2014 with registration number 276928 and authorised by the Central Bank of Ireland (the "Central Bank") pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), as amended (the "UCITS Regulations"). The Company is an umbrella type company in that classes of shares may be issued in relation to different Funds from time to time. More than one class of shares ("Class") may, at the discretion of the Board of Directors (the "Board"), be issued in relation to a Fund. A separate portfolio of assets is maintained for each Fund and is invested in accordance with the investment objectives and policies applicable to such Fund. Additional Funds may be created from time to time by the Board with the prior written approval of the Central Bank. Additional Classes may be created from time to time by the Board and will be notified and cleared in advance with the Central Bank. The Company was incorporated on 10 December 1997.

PIMCO Asia Pte Ltd. has been appointed as a sub-investment advisor with respect to the Emerging Asia Bond Fund and the Emerging Markets Corporate Bond Fund.

PIMCO Deutschland GmbH had been appointed as a discretionary sub-investment advisor with respect to the Euro Ultra-Long Duration Fund up to the date of liquidation.

PIMCO Europe Ltd. has been appointed as a discretionary sub-investment advisor with respect to the Dynamic Multi-Asset Fund, Emerging Local Bond Fund, Emerging Markets 2018 Fund, Emerging Markets Bond Fund, Emerging Markets Corporate Bond Fund, Emerging Markets Short-Term Local Currency Fund, Emerging Markets Full Spectrum Bond Fund, Global Advantage Fund, Global Bond Fund, Global Bond Ex-US Fund, Global Libor Plus Bond Fund, Global Multi-Asset Fund and the Socially Responsible Emerging Markets Bond Fund.

Pacific Investment Management Company LLC has appointed PIMCO Europe Ltd. as a sub-investment advisor with discretionary powers for Dynamic Multi-Asset Fund and Global Libor Plus Bond Fund.

Parametric Portfolio Associates, LLC has been appointed to assist with implementing the investment policy of the PIMCO RAE Fundamental Emerging Markets Fund, PIMCO RAE Fundamental Europe Fund, PIMCO RAE Fundamental US Fund and Strategic Income Fund and has limited investment discretion. In this regard, Parametric Portfolio Associates, LLC has discretionary powers subject to certain parameters and restrictions as agreed with the Investment Advisors and Research Affiliates, LLC. Research Affiliates, LLC has been appointed as a sub-investment advisor with discretionary powers in respect of the aforementioned Funds.

Research Affiliates, LLC has been appointed as a sub-advisor with no discretionary powers with respect to the PIMCO RAE Fundamental PLUS Emerging Markets Fund, PIMCO RAE Fundamental PLUS Global Developed Fund and PIMCO RAE Fundamental PLUS US Fund.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the significant accounting policies and estimation techniques adopted by the Company and applied in the preparation of these financial statements:

(a) Basis of Preparation The financial statements have been prepared in accordance with accounting standards generally accepted in Ireland and Irish statute comprising the Companies Act 2014 and the UCITS Regulations. They have been prepared in accordance with Financial Reporting Standard ("FRS") 102: "The financial reporting standard applicable in the UK and Republic of Ireland". The accounting standards generally accepted in Ireland in preparing financial statements are those promulgated by the Institute of Chartered Accountants in Ireland and issued by the Financial Reporting

Council ("FRC"). The financial statements are prepared on a going concern basis for all Funds except the Euro Real Return Fund, Euro Ultra-Long Duration Fund and UK Low Duration Fund whose shares were fully redeemed during the financial year ended 31 December 2017 and Emerging Markets 2018 Fund which is intended to terminate in accordance with the provisions of the Articles of Association in or around 30 November 2018.

The information required to be included in the Statement of Total Recognised Gains and Losses and a Reconciliation of Movements in Shareholders Funds, is, in the opinion of the Directors, contained in the Statement of Operations and the Statement of Changes in Net Assets.

The Company has availed of the exemption available to open-ended investment funds under FRS 102 not to prepare a cash flow statement.

The financial statements are prepared under the historical cost convention as modified by the revaluation of financial assets and liabilities held at fair value through profit or loss.

The Company maintains separate accounts for each Fund. Shares are issued by the Company and allocated to whichever Fund is selected by the shareholder. The proceeds of issue and the income arising thereon are credited to each Class of each Fund in proportion to the total valuation of each Class. Upon redemption, shareholders are only entitled to their portion of the net assets held in the Fund in respect of which shares have been issued to them.

Certain prior year comparatives have been reclassified to conform with current financial year presentation. These reclassifications have had no impact on reported shareholder dealing net assets.

Financial statement figures have been rounded to thousands unless otherwise indicated throughout the report.

(b) Determination of Net Asset Value The Net Asset Value (the "NAV") of each Fund and/or each Class will be calculated as of the close of regular trading on each Dealing Day as disclosed in the Company's most recent Prospectus or the relevant supplement.

The Company has chosen to apply the recognition and measurement provisions of International Accounting Standard ("IAS") 39 Financial Instruments: Recognition and Measurement, and the disclosure and presentation requirements of FRS 102 to account for its financial instruments. In accordance with IAS 39, Fund securities and other assets are valued at the last traded price on the 31 December 2017 to determine the Net Assets Attributable to Redeemable Participating Shareholders ("Net Assets").

(c) Securities Transactions and Investment Income Securities transactions are recorded as of the trade date for financial reporting purposes. Securities purchased or sold on a when-issued or delayed-delivery basis may be settled 15 days or more after the trade date. Realised gains and losses from securities sold are recorded on the identified cost basis. Dividend income is recorded on the ex-dividend date, except certain dividends from foreign securities where the ex-dividend date may have passed, which are recorded as soon as the Fund is informed of the ex-dividend date. Interest income, adjusted for the accretion of discounts and amortisation of premiums, is recorded on the accrual basis from settlement date and calculated using an effective interest methodology, with the exception of securities with a forward starting effective date, where interest income is recorded on the accrual basis from effective date using an effective interest methodology. For convertible securities, premiums attributable to the conversion feature are not amortised. Estimated tax liabilities on certain foreign securities are recorded on an accrual basis and are reflected as components of interest income or as withholding taxes on dividends and other investment income on the Statement of Operations, as appropriate.

Debt obligations may be placed on non-accrual status and related interest income may be reduced by ceasing current accruals and writing off interest receivable when the collection of all or a portion of interest has become doubtful based on the consistently applied procedures. A debt obligation is removed from non-accrual status when the issuer resumes interest payments or when collectability of interest is probable.

(d) Multi-Class Allocations Each Class of a Fund offered by the Company has equal rights, unless otherwise specified, to assets and voting privileges (except that shareholders of a Class have exclusive voting rights regarding any matter relating solely to that Class). Within each Class of each Fund, the Company may issue either or all Income Shares (shares which distribute income), Accumulation Shares (shares which accumulate income) and Income II Shares (shares which distribute enhanced yield). The multiple Class structure permits an investor to choose the method of purchasing shares that is most beneficial to the investor, given the amount of the purchase, the length of time the investor expects to hold the shares, and other circumstances. Where there are shares of a different Class or type in issue, the NAV per share amongst Classes may differ to reflect the fact that income has been accumulated or distributed, or may have differing fees and expenses. Realised and unrealised capital gains and losses of each Fund are allocated daily to each Class of shares based on the relative net assets of each Class of the respective Fund.

(e) Cash and Foreign Currency The financial statements of each Fund are presented using the currency of the primary economic environment in which it operates (the "functional currency"). The Funds in the Company have the same functional and presentation currency.

Certain Funds have multiple Classes of foreign shares, which are shown in the foreign currency where each Class operates and are considered foreign currencies for the measurement of the financial statements.

The presentation currency of the financial statements is primarily in US Dollars, except for certain Funds that are denominated in Euros or in British Pound Sterling. The Company totals of the Funds, required under Irish Company law, are presented in US Dollars, which is the primary economic environment of the Company. All amounts are in US Dollars unless otherwise indicated.

The fair values of foreign securities, currency holdings and other assets and liabilities are translated into the functional currency of each Fund based on the current exchange rate for each business day. Fluctuations in the value of currency holdings and other assets and liabilities resulting from changes in exchange rates are recorded as unrealised gains or losses on foreign currencies.

The unrealised gains or losses arising from the translation of securities denominated in a foreign currency are included in Net change in unrealised appreciation/(depreciation) on transferable securities and deposits with credit institutions and unrealised gains or losses arising from the translation of financial derivative instruments denominated in a foreign currency are included in Net change in unrealised appreciation/(depreciation) on financial derivative instruments in the Statement of Operations.

Currency gains and losses arising from sale of securities denominated in a foreign currency are included in Net realised gain/(loss) on transferable securities and deposits with credit institutions and currency gains or losses arising from the sale of financial derivative instruments denominated in a foreign currency are included in Net change in unrealised appreciation/(depreciation) on financial derivative instruments in the Statement of Operations.

Realised gains and losses arising between the transaction and settlement dates on purchases and sales of foreign currency denominated securities and financial derivative instruments are included in Net realised gain/(loss) on foreign currency in the Statement of Operations.

Currency gains and losses can arise where there is a difference between the amounts of foreign income/expense recorded on the Fund's books and the Fund's functional currency equivalent to the amounts actually received or paid. These gains or losses are included where appropriate in the income/expense figure in the Statement of Operations.

Certain Funds having a hedged class enter into forward foreign exchange contracts designed to offset the effect of hedging at the Fund level in order to leave the functional currency (the "Hedged Classes") with an exposure to currencies other than the functional currency.

With respect to the Hedged Classes, the Company intends to hedge against movements of the currency denominations of the Hedged Classes versus other currencies subject to the regulations and interpretations promulgated

by the Central Bank from time to time. The Hedged Classes shall not be leveraged as a result of these transactions. While the Company will attempt to hedge currency risk, there can be no guarantee that it will be successful in doing so. Hedging transactions will be clearly attributable to a specific Class. All costs and gains/losses of such hedging transactions shall substantially limit shareholders in the relevant Hedged Class from benefiting if the Class currency falls against the functional currency and/or the currency in which some or all of the assets of the relevant Fund are denominated. The Company may from time to time at its discretion and upon prior notification to and clearance from the Central Bank issue additional Classes of shares denominated in and hedged to other currencies.

The Statement of Assets and Liabilities are translated using exchange rates at the financial year end and the Statement of Operations and Statement of Changes in Net Assets are translated at an average rate over the financial year for inclusion in the combined financial statements of the Company. The method of translation has no effect on the value of net assets allocated to the individual Funds.

(f) Transaction Costs Transaction costs are costs incurred to acquire financial assets and liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisors, brokers and dealers. Transaction costs are included on the Statement of Operations within Net realised gain/(loss) and Net change in unrealised appreciation/ (depreciation) on transferable securities and deposits with credit institutions, Net realised gain/(loss) and Net change in unrealised appreciation/(depreciation) on financial derivative instruments, Net realised gain/(loss) and Net change in unrealised appreciation/ (depreciation) on foreign currency. For fixed income securities and certain derivatives, transaction costs are not separately identifiable from the purchase price of the security and therefore can not be disclosed separately.

(g) Equalisation The Company follows the accounting practice known as income equalisation. The income equalisation adjustment ensures income distributed to the shareholders investing in the Income and Income II Class Shares is in proportion to the time of ownership in the distribution period. A sum equal to that part of the issued price per Share which reflects net income (if any) accrued but undistributed up to the date of issue of the Shares will be deemed to be an equalisation payment and treated as repaid to the relevant Shareholder on (i) the redemption of such Shares prior to the payment of the first dividend thereon or (ii) the payment of the first dividend to which the Shareholder was entitled in the same accounting period as that in which the Shares are issued. The payment of any dividends subsequent to the payment of the first dividend thereon or the redemption of such Shares subsequent to the payment of the first dividend will be deemed to include net income (if any) accrued but unpaid up to the date of the relevant redemption or declaration of dividend.

3. INVESTMENTS AT FAIR VALUE

This category has two sub-categories: financial assets and liabilities held for trading, and those designated by management at fair value through profit or loss at inception. Financial assets or liabilities held for trading are acquired or incurred principally for the purpose of selling or repurchasing in the short term. Derivatives are also categorised as held for trading, as the Company does not designate any derivatives as hedges in a hedging relationship. Financial assets and liabilities designated at fair value through profit or loss at inception are financial instruments that are not classified as held for trading but are managed, and their performance is evaluated on a fair value basis in accordance with the Fund's documented investment strategy.

The Funds' policy requires Pacific Investment Management Company LLC, PIMCO Europe Ltd., PIMCO Asia Pte Ltd. and PIMCO Deutschland GmbH ("PIMCO" or "Investment Advisors") and the Board to evaluate the information about these financial assets and liabilities on a fair value basis together with other related financial information.

Gains and losses arising from changes in the fair value of financial assets and liabilities at fair value through profit or loss are included on the Statement of Operations in the financial year in which they arise.

Fund securities and other assets for which market quotes are readily available are valued at fair value. Fair value is generally determined on the

basis of last reported sales prices, or if no sales are reported, based on quotes obtained from a quotation reporting system, established market makers, or pricing services.

Investments initially valued in currencies other than the functional currency of the Fund are converted using exchange rates obtained from pricing services. As a result, the NAV of the Fund's shares may be affected by changes in the value of currencies in relation to the Fund's functional currency. The value of securities traded in foreign markets or denominated in currencies other than the Fund's functional currency may be affected significantly on a day that the relevant stock exchange is closed and the NAV may change on days when an investor is not able to purchase, redeem or exchange shares.

If the value of a security that is solely traded on a foreign exchange has materially changed after the close of the security's primary exchange or principal market but before the close of the dealing day, the security will be valued at fair value based on procedures established and approved by the Board. Securities that do not trade when a Fund is open are also valued at fair value. A Fund may determine the fair value of investments based on information provided by pricing service providers and other third party vendors, which may recommend fair value prices or adjustments with reference to other securities, indices or assets. In considering whether fair value pricing is required and in determining fair values, a Fund may, among other things, consider significant events (which may be considered to include changes in the value of securities or securities indices) that occur after the close of the relevant market and before the close of the dealing day. A Fund may utilise modelling tools provided by third party vendors to determine fair values of securities impacted by significant events. Foreign exchanges may permit trading in foreign securities on days when the Company is not open for business, which may result in a Fund's portfolio of investments being affected when the Fund is unable to buy or sell shares. A Fund has retained a pricing service to assist in determining the fair value of foreign securities. This service utilises statistics and programs based on historical performance of markets and other economic data to assist in making fair value estimates. Fair value estimates used by a Fund for foreign securities may differ from the value realised from the sale of those securities and the difference could be material to the financial statements. Fair value pricing may require subjective determinations about the value of a security or other asset, and fair values used to determine a Fund's NAV may differ from quoted or published prices, or from prices that are used by others, for the same investments. In addition, the use of fair value pricing may not always result in adjustments to the prices of securities or other assets held by a Fund. Investments in funds within the PIMCO Funds, as detailed in the Schedule of Investments, are valued at their unaudited NAV as reported by the underlying funds.

FRS 102 Section 11.27 on "Fair Value: Disclosure" requires disclosure relating to the fair value hierarchy in which fair value measurements are categorised for assets and liabilities. The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value. In March 2016 amendments were made to paragraphs 34.22 and 34.42 of this FRS, revising the disclosure requirements for financial institutions and retirement benefit plans. An entity shall apply these amendments for accounting periods beginning on or after 01 January 2017. Early application is permitted and the amendment was early adopted in the preparation of the Company's prior year annual financial statements.

FRS 102 defines fair value as the amount for which an asset could be exchanged, a liability settled, or an equity instrument granted could be exchanged, between knowledgeable, willing parties in an arm's length transaction. FRS 102 establishes and requires disclosure of a fair value hierarchy, separately for each major category of assets and liabilities, that segregates fair value measurements into levels (Levels 1, 2, and 3). The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. Levels 1, 2, and 3 of the fair value hierarchy are defined as follows:

- Level 1 The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.
- Level 2 Inputs other than quoted prices included within Level 1 that
 are observable (ie developed using market data) for the asset or liability,
 either directly or indirectly.
- Level 3 Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

Level 1 and Level 2 trading assets and trading liabilities, at fair value The valuation techniques and significant inputs used in determining the fair values of financial instruments classified as Level 1 and Level 2 of the fair value hierarchy are as follows:

Fixed income securities including corporate, convertible and municipal bonds and notes, US government agencies, US treasury obligations, sovereign issues, bank loans, convertible preferred securities and non-US bonds are normally valued by pricing service providers that use broker dealer quotations, reported trades or valuation estimates from their internal pricing models. The service providers' internal models use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar assets. Securities that use similar valuation techniques and inputs as described above are categorised as Level 2 of the fair value hierarchy.

Fixed income securities purchased on a delayed-delivery basis are marked to market daily until settlement at the forward settlement date. These securities are categorised as Level 2 of the fair value hierarchy.

Mortgage-related and asset-backed securities are usually issued as separate tranches, or classes, of securities within each deal. These securities are also normally valued by pricing service providers that use broker dealer quotations or valuation estimates from their internal pricing models. The pricing models for these securities usually consider tranche-level attributes, current market data, estimated cash flows and market-based yield spreads for each tranche, and incorporates deal collateral performance, as available. Mortgage-related and asset-backed securities that use similar valuation techniques and inputs as described above are categorised as Level 2 of the fair value hierarchy.

Common stocks, exchange-traded funds and financial derivative instruments, such as futures contracts or options contracts that are traded on a national securities exchange, are stated at the last reported sale or settlement price on the day of valuation. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorised as Level 1 of the fair value hierarchy. Valuation adjustments may be applied to certain securities that are solely traded on a foreign exchange to account for the market movement between the close of the foreign market and the close of the local exchange. These securities are valued using pricing service providers that consider the correlation of the trading patterns of the foreign security to the intraday trading in the local markets for investments.

Securities using these valuation adjustments are categorised as Level 2 of the fair value hierarchy. Preferred securities and other equities traded on inactive markets or valued by reference to similar instruments are also categorised as Level 2 of the fair value hierarchy.

Investments in registered open-end investment funds will be valued based upon the unaudited NAVs of such investments and are categorised as Level 1 of the fair value hierarchy. Investments in unregistered open-end investment funds will be calculated based upon the unaudited NAV of such investments and are considered Level 1 provided that the NAV is observable, calculated daily and is the value at which both purchases and sales will be conducted. Investments in privately held investment funds will be valued based upon the unaudited NAVs of such investments and are categorised as Level 2 of the fair value hierarchy. Investments in privately held investment funds where the inputs of the NAVs are unobservable will be calculated based upon the NAVs of such investments and are categorised as Level 3 of the fair value hierarchy.

Short-term debt instruments (such as commercial paper) having a remaining maturity of 60 days or less may be valued at amortised cost, so long as the amortised cost value of such short-term debt instruments is approximately the same as the fair value of the instrument as determined without the use of amortised cost valuation. These securities are categorised as Level 2 or Level 3 of the fair value hierarchy depending on the source of the base price.

Over-the-counter financial derivative instruments, such as forward foreign currency contracts, options contracts, or swap agreements, derive their value from underlying asset prices, indices, reference rates, and other inputs or a combination of these factors. These contracts are normally valued on the basis of broker dealer quotations or pricing service providers. Depending on the product and the terms of the transaction, the value of the derivative contracts can be estimated by a pricing service provider using a series of

techniques, including simulation pricing models. The pricing models use inputs that are observed from actively quoted markets such as issuer details, indices, spreads, interest rates, curves, dividends and exchange rates. Derivatives that use similar valuation techniques and inputs as described above are categorised as Level 2 of the fair value hierarchy.

Centrally cleared swaps listed or traded on a multilateral or trade facility platform, such as a registered exchange are valued at the daily settlement price determined by the respective exchange. For centrally cleared credit default swaps the clearing facility requires its members to provide actionable levels across complete term structures. These levels along with external third party prices are used to produce daily settlement prices. These securities are categorised as level 2 of the fair value hierarchy. Centrally cleared interest rate swaps are valued using a pricing model that references the underlying rates including the overnight index swap rate and LIBOR forward rate. These securities are categorised as Level 2 of the fair value hierarchy.

Level 3 trading assets and trading liabilities, at fair value The valuation techniques and significant inputs used in determining the fair values of Fund assets and financial instruments classified as Level 3 of the fair value hierarchy are as follows:

Securities and other assets for which market quotes are not readily available are valued at fair value as determined in good faith by the Board or persons acting at their direction and are categorised as Level 3 of the fair value hierarchy.

Market quotes are considered not readily available in circumstances where there is an absence of current or reliable market-based data (e.g., trade information, bid/ask information), including where events occur after the close of the relevant market, but prior to the close of the Fund's Dealing Day, that materially affect the values of the Fund's securities or assets. In addition, market quotes are considered not readily available when, due to extraordinary circumstances, the exchanges or markets on which the securities trade, do not open for trading for the entire day and no other market prices are available. The Board has delegated to PIMCO the responsibility for monitoring significant events that may materially affect the value of the Fund's securities or assets and for determining whether the value of the applicable securities or assets should be re-evaluated in light of such significant events.

The Board has adopted methods for valuing securities and other assets in circumstances where market quotes are not readily available, and has delegated the responsibility for applying the valuation methods to PIMCO. For instances in which daily market quotes are not readily available investments may be valued, pursuant to guidelines established by the Board, with reference to other securities or indices. In the event that the security or asset cannot be valued pursuant to one of the valuation methods established by the Board, the value of the security or asset will be determined in good faith by the Pricing Committee of the Board, generally based upon recommendations provided by PIMCO. When the Fund uses fair valuation methods applied by PIMCO that use significant unobservable inputs to determine its NAV, securities will be priced by another method that the Board or persons acting at their direction believe accurately reflects fair value and are categorised as Level 3 of the fair value hierarchy. These methods may require subjective determinations about the value of the security.

While the Fund's policy is intended to result in a calculation of the Fund's NAV that fairly reflects security values as of the time of pricing, the Fund cannot guarantee that values determined by the Board or persons acting at their direction would accurately reflect the price that the Fund could obtain for a security if it were to dispose of that security as of the time of pricing (for instance, in a forced or distressed sale). The prices used by the Fund may differ from the value that would be realised if the securities were sold.

4. CASH, SECURITIES AND OTHER INVESTMENTS

(a) Cash and Other Liquid Assets Cash and other liquid assets are valued at their face value with interest accrued, where applicable. All cash at bank balances are held either by State Street Bank and Trust Co. or directly with a sub-custodian. Certain Funds may also invest in the PIMCO US Dollar Short-Term Floating NAV Fund, a Fund of PIMCO Funds Ireland p.l.c. in connection with their cash management activities. The main investments of the PIMCO US Dollar Short-Term Floating NAV Fund are money market

instruments and short maturity fixed income instruments. The PIMCO US Dollar Short-Term Floating NAV Fund may incur expenses related to its investment activities, but the PIMCO Funds only invest in the Z Class and thus no Management Fees are incurred.

(b) Delayed-Delivery Transactions Certain Funds may purchase or sell securities on a delayed-delivery basis. These transactions involve a commitment by a Fund to purchase or sell securities for a predetermined price or yield, with payment and delivery taking place beyond the customary settlement period. When delayed-delivery transactions are outstanding, a Fund will designate or receive as collateral liquid assets in an amount sufficient to meet the purchase price or respective obligations. When purchasing a security on a delayed-delivery basis, a Fund assumes the rights and risks of ownership of the security, including the risk of price and yield fluctuations, and takes such fluctuations into account when determining its NAVs. A Fund may dispose of or renegotiate a delayed-delivery transaction after it is entered into, which may result in a realised gain or loss. When a Fund has sold a security on a delayed-delivery basis, the Fund does not participate in future gains and losses with respect to the security.

(c) Exchange-Traded Funds Certain Funds may invest in exchange-traded funds ("ETFs"), which typically are index-based investment companies that hold substantially all of their assets in securities representing their specific index, but may also be actively-managed investment companies. Shares of ETFs trade throughout the day on an exchange and represent an investment in a portfolio of securities and assets. As a shareholder of another investment company, a Fund would bear its pro-rata portion of the other investment company's expenses, including advisory fees, in addition to the expenses a Fund bears directly in connection with its own operations.

(d) Inflation-Indexed Bonds Certain Funds may invest in inflation-indexed bonds. Inflation-indexed bonds are fixed income securities whose principal value is periodically adjusted to the rate of inflation. The interest rate on these bonds is generally fixed at issuance at a rate lower than typical bonds. Over the life of an inflation-indexed bond, however, interest will be paid based on a principal value, which is adjusted for inflation. Any increase or decrease in the principal amount of an inflation-indexed bond will be included as interest income on the Statement of Operations, even though investors do not receive their principal until maturity.

(e) Loan Participations and Assignments Certain Funds may invest in direct debt instruments which are interests in amounts owed to lenders or lending syndicates by corporate, governmental, or other borrowers. A Fund's investments in loans may be in the form of participations in loans or assignments of all or a portion of loans from third parties. A loan is often administered by a bank or other financial institution (the "lender") that acts as agent for all holders. The agent administers the terms of the loan, as specified in the loan agreement. A Fund may invest in multiple series or tranches of a loan, which may have varying terms and carry different associated risks. When a Fund purchases assignments from lenders it acquires direct rights against the borrower of the loans. These loans may include participations in bridge loans, which are loans taken out by borrowers for a short period (typically less than one year) pending arrangement of more permanent financing through, for example, the issuance of bonds, frequently high yield bonds issued for the purpose of acquisitions.

The types of loans and related investments in which a Fund may invest include, among others, senior loans, subordinated loans (including second lien loans, B-Notes and mezzanine loans), whole loans, commercial real estate and other commercial loans and structured loans. In the case of subordinated loans, there may be significant indebtedness ranking ahead of the borrower's obligation to the holder of such a loan, including in the event of the borrower's insolvency. Mezzanine loans are typically secured by a pledge of an equity interest in the mortgage borrower that owns the real estate rather than an interest in a mortgage.

Investments in loans may include unfunded loan commitments, which are contractual obligations for funding. Unfunded loan commitments may include revolving credit facilities, which may obligate the Funds to supply additional cash to the borrower on demand. Unfunded loan commitments represent a future obligation in full, even though a percentage of the

committed amount may not be utilised by the borrower. When investing in a loan participation, a Fund has the right to receive payments of principal, interest and any fees to which it is entitled only from the lender selling the loan agreement and only upon receipt of payments by the lender from the borrower. A Fund may receive a commitment fee based on the undrawn portion of the underlying line of credit portion of a floating rate loan. In certain circumstances, a Fund may receive a penalty fee upon the prepayment of a floating rate loan by a borrower. Fees earned or paid are recorded as a component of interest income or interest expense, respectively, on the Statement of Operations.

As of 31 December 2017, the Income Fund and the Strategic Income Fund were the only Funds which had unfunded loan commitments of \$3,111,391 and \$35,357 respectively (31 December 2016 no Funds had unfunded loan commitments).

(f) Mortgage Related and Other Asset-Backed Securities Certain Funds may invest in mortgage related and other asset-backed securities that directly or indirectly represent a participation in, or are secured by and payable from, loans on real property. Mortgage related securities are created from pools of residential or commercial mortgage loans, including mortgage loans made by savings and loan institutions, mortgage bankers, commercial banks and others. These securities provide a monthly payment which consists of both interest and principal. Interest may be determined by fixed or adjustable rates. The rate of prepayments on underlying mortgages will affect the price and volatility of a mortgage related security, and may have the effect of shortening or extending the effective duration of the security relative to what was anticipated at the time of purchase. The timely payment of principal and interest of certain mortgage related securities is guaranteed with the full faith and credit of the US Government. Pools created and guaranteed by non-governmental issuers, including government-sponsored corporations, may be supported by various forms of insurance or guarantees, but there can be no assurance that private insurers or quarantors can meet their obligations under the insurance policies or quarantee arrangements. Many of the risks of investing in mortgage related securities secured by commercial mortgage loans reflect the effects of local and other economic conditions on real estate markets, the ability of tenants to make lease payments, and the ability of a property to attract and retain tenants. These securities may be less liquid and may exhibit greater price volatility than other types of mortgage related or other asset-backed securities. Other asset-backed securities are created from many types of assets, including auto loans, credit card receivables, home equity loans, and student loans.

- (g) Collateralised Mortgage Obligations ("CMOs") are debt obligations of a legal entity that are collateralised by whole mortgage loans or private mortgage bonds and divided into classes. CMOs are structured into multiple classes, often referred to as "tranches", with each class bearing a different stated maturity and entitled to a different schedule for payments of principal and interest, including prepayments. CMOs may be less liquid and may exhibit greater price volatility than other types of mortgage related or asset-backed securities.
- (h) Stripped Mortgage-Backed Securities ("SMBS") are derivative multi-class mortgage securities. SMBS are usually structured with two classes that receive different proportions of the interest and principal distributions on a pool of mortgage assets. A SMBS will have one class that will receive all of the interest (the interest-only or "IO" class), while the other class will receive the entire principal (the principal-only or "PO" class). Payments received for IOs are included in interest income on the Statement of Operations. Because no principal will be received at the maturity of an IO, adjustments are made to the cost of the security on a monthly basis until maturity. These adjustments are included in interest income on the Statement of Operations. Payments received for POs are treated as reductions to the cost and par value of the securities.
- (i) Collateralised Debt Obligations ("CDOs") include Collateralised Bond Obligations ("CBOs"), Collateralised Loan Obligations ("CLOs") and other similarly structured securities. CBOs and CLOs are types of assetbacked securities. A CBO is a trust which is backed by a diversified pool of high risk, below investment grade fixed income securities. A CLO is a trust typically collateralised by a pool of loans, which may include, among others, domestic and foreign senior secured loans, senior unsecured loans, and subordinate corporate loans, including loans that may be rated below

investment grade or equivalent unrated loans. The risks of an investment in a CDO depend largely on the type of the collateral securities and the class of the CDO in which a Fund invests. In addition to the normal risks associated with fixed income securities discussed elsewhere in this report and the Company's Prospectus and statement of additional information (e.g., prepayment risk, credit risk, liquidity risk, market risk, structural risk, legal risk and interest rate risk (which may be exacerbated if the interest rate payable on a structured financing changes based on multiples of changes in interest rates or inversely to changes in interest rates)), CBOs, CLOs and other CDOs carry additional risks including, but not limited to, (i) the possibility that distributions from collateral securities will not be adequate to make interest or other payments, (ii) the quality of the collateral may decline in value or default, (iii) a Fund may invest in CBOs, CLOs, or other CDOs that are subordinate to other classes, and (iv) the complex structure of the security may not be fully understood at the time of investment and may produce disputes with the issuer or unexpected investment results.

- (j) Payment In-Kind Securities Certain Funds may invest in payment in-kind securities ("PIKs"). PIKs may give the issuer the option at each interest payment date of making interest payments in either cash or additional debt securities. Those additional debt securities usually have the same terms, including maturity dates and interest rates, and associated risks as the original bonds. The daily market quotations of the original bonds may include the accrued interest (referred to as a "dirty price") which is reflected as a component of Financial Assets at fair value through profit or loss on Transferable securities on the Statement of Assets and Liabilities.
- **(k) Repurchase Agreements** Certain Funds may engage in repurchase agreements. Under the terms of a typical repurchase agreement, a Fund takes possession of an underlying debt obligation (collateral) subject to an obligation of the seller to repurchase, and a Fund to resell, the obligation at an agreed-upon price and time. The market value of the collateral must be equal to or exceed the total amount of the repurchase obligations, including interest. Repurchase agreements, including accrued interest, are included on the Statement of Assets and Liabilities. Interest earned is recorded as a component of interest income on the Statement of Operations. In periods of increased demand for collateral, a Fund may pay a fee for receipt of collateral, which may result in interest expense to the Fund.
- (I) Restricted Securities Certain Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities may be sold privately, but are required to be registered or exempted from such registration before being sold to the public. Private placement securities are generally considered to be restricted. Disposal of restricted securities may involve time-consuming negotiations and expenses, and prompt sale at an acceptable price may be difficult to achieve. Restricted securities outstanding at 31 December 2017 are disclosed in the Schedule of Investments.
- (m) Reverse Repurchase Agreements Certain Funds may enter into reverse repurchase agreements. In a reverse repurchase agreement, a Fund delivers a security in exchange for cash to a financial institution, the counterparty, with a simultaneous agreement to repurchase the same or substantially the same security at an agreed upon price and date. A Fund is entitled to receive principal and interest payments, if any, made on the security delivered to the counterparty during the term of the agreement. Cash received in exchange for securities delivered plus accrued interest payments to be made by a Fund to counterparties are reflected as a liability on the Statement of Assets and Liabilities. Interest payments made by a Fund to counterparties are recorded as a component of interest expense on the Statement of Operations. In periods of increased demand for the security, a Fund may receive a fee for use of the security by the counterparty, which may result in interest income to a Fund. A Fund will segregate assets determined to be liquid by the Investment Advisors or will otherwise cover its obligations under reverse repurchase agreements.
- (n) Short Sales Certain Funds may enter into short sales transactions. A short sale is a transaction in which a Fund sells securities it may not own in anticipation of a decline in the fair value of the securities. Securities sold in short sale transactions and the interest payable on such securities, if any, are reflected as a liability on the Statement of Assets and Liabilities. A Fund is obligated to deliver securities at the trade price at the time the short position is covered. Possible losses from short sales may be unlimited, whereas losses from purchases cannot exceed the total amount invested.

(o) US Government Agencies or Government-Sponsored **Enterprises** Certain Funds may invest in securities of US Government agencies or government-sponsored enterprises. US Government securities are obligations of and, in certain cases, guaranteed by, the US Government, its agencies or instrumentalities. Some US Government securities, such as Treasury bills, notes and bonds, and securities guaranteed by the Government National Mortgage Association ("GNMA" or "Ginnie Mae"), are supported by the full faith and credit of the US Government; others, such as those of the Federal Home Loan Banks, are supported by the right of the issuer to borrow from the US Department of the Treasury (the "US Treasury"); and others, such as those of the Federal National Mortgage Association ("FNMA" or "Fannie Mae"), are supported by the discretionary authority of the US Government to purchase the agency's obligations. US Government securities may include zero coupon securities. Zero coupon securities do not distribute interest on a current basis and tend to be subject to a greater risk than interest-paying securities.

Government-related guarantors (i.e., not backed by the full faith and credit of the US Government) include FNMA and the Federal Home Loan Mortgage Corporation ("FHLMC" or "Freddie Mac"). FNMA is a government-sponsored corporation. FNMA purchases conventional (i.e., not insured or guaranteed by any government agency) residential mortgages from a list of approved seller/servicers which include state and federally chartered savings and loan associations, mutual savings banks, commercial banks and credit unions and mortgage bankers. Pass-through securities issued by FNMA are guaranteed as to timely payment of principal and interest by FNMA, but are not backed by the full faith and credit of the US Government. FHLMC issues Participation Certificates ("PCs"), which are pass-through securities, each representing an undivided interest in a pool of residential mortgages. FHLMC guarantees the timely payment of interest and ultimate collection of principal, but PCs are not backed by the full faith and credit of the US Government.

A Fund may engage in strategies where it seeks to extend the expiration or maturity of a position, such as a To Be Announced ("TBA") security on an underlying asset, by closing out the position before expiration and opening a new position with respect to the same underlying asset with a later expiration date. TBA securities purchased or sold are reflected on the Statement of Assets and Liabilities as an asset or liability, respectively.

(p) When-Issued Transactions Certain Funds may purchase or sell securities on a when-issued basis. These transactions are made conditionally because a security, although authorised, has not yet been issued in the market. A commitment is made by a Fund to purchase or sell these securities for a predetermined price or yield, with payment and delivery taking place beyond the customary settlement period. A Fund may sell when-issued securities before they are delivered, which may result in a realised gain or loss.

(q) Sale-Buybacks Certain Funds may enter into financing transactions referred to as 'sale-buybacks'. A sale-buyback transaction consists of a sale of a security by a Fund to a financial institution, the counterparty, with a simultaneous agreement to repurchase the same or substantially the same security at an agreed-upon price and date. A Fund is not entitled to receive principal and interest payments, if any, made on the security sold to the counterparty during the term of the agreement. The agreed-upon proceeds for securities to be repurchased by a Fund are reflected as a liability on the Statement of Assets and Liabilities. A Fund will recognise net income represented by the price differential between the price received for the transferred security and the agreed-upon repurchase price. This is commonly referred to as the 'price drop. A price drop consists of (i) the foregone interest and inflationary income adjustments, if any, a Fund would have otherwise received had the security not been sold and (ii) the negotiated financing terms between a Fund and counterparty. Foregone interest and inflationary income adjustments, if any, are recorded as components of interest income on the Statement of Operations. Interest payments based upon negotiated financing terms made by a Fund to counterparties are recorded as a component of interest expense on the Statement of Operations. In periods of increased demand for the security, a Fund may receive a fee for use of the security by the counterparty, which may result in interest income to a Fund. A Fund will segregate assets determined to be liquid by the Investment Advisors or will otherwise cover its obligations under sale-buyback transactions.

(r) Equity-Linked Securities Certain Funds may purchase equity-linked securities, also known as participation notes, equity swaps, and zero strike calls and warrants. Equity-linked securities are primarily used by a Fund as an alternative means to more efficiently and effectively access what is generally an emerging securities market. A Fund deposits cash with its depositary (or broker, if legally permitted) in an amount near or equal to the selling price of the underlying security in exchange for an equity-linked security. Upon sale, a Fund receives cash from the broker or depositary equal to the value of the underlying security. Aside from market risk of the underlying securities, there is a risk of default by the counterparty to the transaction. In the event of insolvency of the counterparty a Fund might be unable to obtain its expected benefit. In addition, while a Fund will seek to enter into such transactions only with parties that are capable of entering into closing transactions with a Fund, there can be no assurance that the Fund will be able to close out such a transaction with the counterparty or obtain an offsetting position with any counterparty, at any time prior to the end of the term of the underlying agreement. This may impair a Fund's ability to enter into other transactions at a time when doing so might be advantageous.

5. FINANCIAL DERIVATIVE INSTRUMENTS

The following disclosures contain information on how and why the Funds use financial derivative instruments and how financial derivative instruments affect the Funds' financial position, results of operations and cash flows. The financial derivative instruments outstanding as of financial year end as disclosed in the Schedule of Investments and the amounts of realised and changes in unrealised gains and losses on financial derivative instruments during the financial year, as disclosed in the Statement of Operations, serve as indicators of the volume of financial derivative activity for the Funds.

(a) Forward Foreign Currency Contracts Certain Funds may enter into forward foreign currency contracts in connection with settling planned purchases or sales of securities, to hedge the currency exposure associated with some or all of a Fund's securities or as a part of an investment strategy. A forward foreign currency contract is an agreement between two parties to buy and sell a currency at a set price on a future date. The market value of a forward foreign currency contract fluctuates with changes in foreign currency exchange rates. Forward foreign currency contracts are marked to market daily, and the change in value is recorded by a Fund as an unrealised gain or loss. Realised gains or losses are equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed and are recorded upon delivery or receipt of the currency. These contracts may involve market risk in excess of the unrealised gain or loss reflected on the Statement of Assets and Liabilities. In addition, a Fund could be exposed to risk if the counterparties are unable to meet the terms of the contracts or if the value of the currency changes unfavourably to the functional currency. To mitigate such risk, cash or securities may be exchanged as collateral pursuant to the terms of the underlying contracts.

For Class level hedges the realised and unrealised gains or losses are allocated solely to the relevant share classes. The unrealised gains or losses are reflected as a component of financial derivative instruments on the Statement of Assets and Liabilities. In connection with these contracts, securities may be identified as collateral in accordance with the terms of the respective contracts.

(b) Futures Contracts Certain Funds may enter into futures contracts. A Fund may use futures contracts to manage its exposure to the securities markets or to movements in interest rates and currency values. The primary risks associated with the use of futures contracts are the imperfect correlation between the change in market value of the securities held by a Fund and the prices of futures contracts and the possibility of an illiquid market. Futures contracts are valued based upon their quoted daily settlement prices. Upon entering into a futures contract, a Fund is required to deposit with its futures broker an amount of cash, US Government and Agency Obligations, or select sovereign debt, in accordance with the initial margin requirements of the broker or exchange. Futures contracts are marked to market daily and based on such movements in the price of the contracts, an appropriate payable or receivable for the change in value may be posted or collected by the Fund ("Financial Derivatives Margin"). Gains or losses are recognised but not considered realised until the contracts expire or

close. Futures contracts involve, to varying degrees, risk of loss in excess of the Financial Derivation Margin included on the Statement of Assets and Liabilities.

(c) Options Contracts Certain Funds may write or purchase options to enhance returns or to hedge an existing position or future investment. A Fund may write call and put options on securities and financial derivative instruments they own or in which they may invest. Writing put options tends to increase a Fund's exposure to the underlying instrument. Writing call options tends to decrease a Fund's exposure to the underlying instrument. When a Fund writes a call or put, an amount equal to the premium received is recorded as a liability and subsequently marked to market to reflect the current value of the option written. These liabilities are included on the Statement of Assets and Liabilities. Premiums received from writing options which expire are treated as realised gains. Premiums received from writing options which are exercised or closed are added to the proceeds or offset against amounts paid on the underlying futures, swap, security or currency transaction to determine the realised gain or loss. Certain options may be written with premiums to be determined on a future date. The premiums for these options are based upon implied volatility parameters at specified terms. A Fund as a writer of an option has no control over whether the underlying instrument may be sold ("call") or purchased ("put") and as a result bears the market risk of an unfavourable change in the price of the instrument underlying the written option. There is the risk a Fund may not be able to enter into a closing transaction because of an illiquid market.

A Fund may also purchase put and call options. Purchasing call options tends to increase a Fund's exposure to the underlying instrument. Purchasing put options tends to decrease a Fund's exposure to the underlying instrument. A Fund pays a premium which is included as an asset on the Statement of Assets and Liabilities and subsequently marked to market to reflect the current value of the option. Premiums paid for purchasing options which expire are treated as realised losses. Certain options may be purchased with premiums to be determined on a future date. The premiums for these options are based upon implied volatility parameters at specified terms. The risk associated with purchasing put and call options is limited to the premium paid. Premiums paid for purchasing options which are exercised or closed are added to the amounts paid or offset against the proceeds on the underlying investment transaction to determine the realised gain or loss when the underlying transaction is executed.

Credit Default Swaptions Certain Funds may write or purchase credit default swaptions to hedge exposure to the credit risk of an investment without making a commitment to the underlying instrument. A credit default swaption is an option to sell or buy credit protection to a specific reference by entering into a pre-defined swap agreement by some specified date in the future.

Foreign Currency Options Certain Funds may write or purchase foreign currency options. Purchasing foreign currency options gives a Fund the right, but not the obligation to buy or sell the specified amounts of currency at a rate of exchange that may be exercised by a certain date. These options may be used as a short or long hedge against possible variations in foreign exchange rates or to gain exposure to foreign currencies.

Inflation-Capped Options Certain Funds may write or purchase inflation-capped options to enhance returns or for hedging opportunities. When a Fund writes an inflation-capped option, an amount equal to the premium received is recorded as a liability and subsequently marked to market to reflect the current value of the option written. When a Fund purchases an inflation-capped option, the Fund pays a premium which is recorded as an asset and subsequently marked to market to reflect the current value of the option. The purpose of purchasing inflation-capped options is to protect a Fund from inflation erosion above a certain rate on a given notional exposure. A floor can be used to give downside protection to investments in inflation-linked products.

Interest Rate-Capped Options Certain Funds may write or purchase interest rate-capped options to enhance returns or for hedging opportunities. When a Fund writes an interest rate-capped option, an amount equal to the premium received is recorded as a liability and subsequently marked to market to reflect the current value of the option written. When a Fund purchases an interest rate-capped option, the Fund pays a premium which is

recorded as an asset and subsequently marked to market to reflect the current value of the option. The purpose of purchasing interest rate-capped options is to protect a Fund from floating rate risk above a certain rate on a given notional exposure. A floor can be used to give downside protection to investments in interest rate linked products.

Options on Exchange-Traded Futures Contracts Certain Funds may write or purchase options on exchange-traded futures contracts ("Futures Option") to hedge an existing position or future investment, for speculative purposes or to manage exposure to market movements. A Futures Option is an option contract in which the underlying instrument is a single futures contract.

Options on Commodity Futures Contracts Certain Funds may write or purchase options on commodity futures contracts ("Commodity Option"). The underlying instrument for the Commodity Option is not the commodity itself, but rather a futures contract for that commodity. The exercise for a Commodity Option will not include physical delivery of the underlying commodity but will rather settle the amount of the difference between the current market value of the underlying futures contract and the strike price directly into a Fund's depositary account. For an option that is in-the-money, a Fund will normally offset its position rather than exercise the option to retain any remaining time value.

Barrier Options Certain Funds may write or purchase a variety of options with non-standard payout structures or other features ("Barrier Options"). Barrier Options are generally traded OTC. A Fund may invest in various types of Barrier Options including down-and-in, and up-and-in options. Down-and in and up-and-in options are similar to standard options, except that the option expires worthless to the purchaser of the option if the price of the underlying instrument does, or does not reach a specific barrier price level prior to the option's expiration date.

Interest Rate Swaptions Certain Funds may write or purchase interest rate swaptions which are options to enter into a pre-defined swap agreement by some specified date in the future. The writer of the swaption becomes the counterparty to the swap if the buyer exercises. The interest rate swaption agreement will specify whether the buyer of the swaption will be a fixed-rate receiver or a fixed-rate payer upon exercise.

Options on Securities Certain Funds may write or purchase options on securities. An option uses a specified security as the underlying instrument for the option contract. A Fund may write or purchase options to enhance returns or to hedge an existing position or future investment.

Straddle Options Certain Funds may enter into differing forms of straddle options ("Straddle"). A straddle is an investment strategy that uses combinations of options that allow a Fund to profit based on the future price movements of the underlying security, regardless of the direction of those movements. A written straddle involves simultaneously writing a call option and a put option on the same security with the same strike price and expiration date. The written straddle increases in value when the underlying security price has little volatility before the expiration date. A purchased straddle involves simultaneously purchasing a call option and a put option on the same security with the same strike price and expiration date. The purchased straddle increases in value when the underlying security price has high volatility, regardless of direction, before the expiration date.

(d) Swap Agreements Certain Funds may invest in swap agreements. Swap agreements are bilaterally negotiated agreements between a Fund and a counterparty to exchange or swap investment cash flows, assets, foreign currencies or market-linked returns at specified, future intervals. Swap agreements are privately negotiated in the over-the-counter market ("OTC swaps") or may be executed in a multilateral or other trade facility platform, such as a registered exchange ("centrally cleared swaps"). A Fund may enter into asset, credit default, cross-currency, interest rate, total return, variance and other forms of swap agreements to manage its exposure to credit, currency, interest rate, commodity, equity and inflation risk. In connection with these agreements, securities or cash may be identified as collateral or margin in accordance with the terms of the respective swap agreements to provide assets of value and recourse in the event of default or bankruptcy/insolvency.

Centrally cleared swaps are marked to market daily based upon valuations as determined from the underlying contract or in accordance with the requirements of the central counterparty or derivatives clearing organisation. Changes in market value, if any, are reflected as a component of net change in unrealised appreciation/(depreciation) on the Statement of Operations. Daily changes in valuation of centrally cleared swaps ("Swap Variation Margin"), if any, are recorded as a receivable or payable for the change in value as appropriate on the Statement of Assets and Liabilities. OTC swap payments received or paid at the beginning of the measurement period are included on the Statement of Assets and Liabilities and represent premiums paid or received upon entering into the swap agreement to compensate for differences between the stated terms of the swap agreement and prevailing market conditions (credit spreads, currency exchange rates, interest rates, and other relevant factors). Upfront premiums received (paid) are initially recorded as liabilities (assets) and subsequently marked to market to reflect the current value of the swap. These upfront premiums are recorded as realised gains or losses on the Statement of Operations upon termination or maturity of the swap. A liquidation payment received or made at the termination of the swap is recorded as realised gain or loss on the Statement of Operations. Net periodic payments received or paid by a Fund are included as part of realised gains or losses on the Statement of Operations.

For purposes of applying a Fund's investment policies and restrictions, swap agreements are generally valued by the Fund at market value. In the case of a credit default swap (see below), however, in applying certain of the Fund's investment policies and restrictions, the Fund will value the credit default swap at its notional value or its full exposure value (i.e., the sum of the notional amount for the contract plus the market value), but may value the credit default swap at market value for purposes of applying certain of the Fund's other investment policies and restrictions. For example, a Fund may value credit default swaps at full exposure value for purposes of the Fund's credit quality quidelines (if any) because such value reflects the Fund's actual economic exposure during the term of the credit default swap agreement. In this context, both the notional amount and the market value may be positive or negative depending on whether the Fund is selling or buying protection through the credit default swap. The manner in which certain securities or other instruments are valued by the Fund for purposes of applying investment policies and restrictions may differ from the manner in which those investments are valued by other types of investors.

Entering into these agreements involves, to varying degrees, elements of interest, credit, market and documentation risk in excess of the amounts recognised on the Statement of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreements may default on its obligation to perform or disagree as to the meaning of contractual terms in the agreements and that there may be unfavourable changes in interest rates.

A Fund's maximum risk of loss from counterparty credit risk is the discounted net value of the cash flows to be received from the counterparty over the contract's remaining life, to the extent that amount is positive. The risk is mitigated by having a master netting arrangement between a Fund and the counterparty and by the posting of collateral to a Fund to cover a Fund's exposure to the counterparty.

Correlation Swap Agreements Certain Funds may enter into correlation swap agreements to gain or mitigate exposure to the underlying reference assets. Correlation swap agreements involve two parties agreeing to exchange cash flows based on the measured correlation of specified underlying assets. One party agrees to exchange a "fixed rate" or strike rate payment for the "floating rate" or realised price correlation on the underlying asset with respect to the notional amount. At inception, the strike rate is generally chosen such that the fair value of the swap is zero. At the maturity date, a net cash flow is exchanged, where the payoff amount is equivalent to the difference between the realised price correlation of the underlying asset and the strike rate multiplied by the notional amount. As a receiver of the fixed strike rate price correlation, the Fund would receive the payoff amount when the realised price correlation of the underlying asset is less than the strike rate and would owe the payoff amount when the correlation is greater than the strike. As a payer of the fixed strike rate price correlation, the Fund would owe the payoff amount when the realised price correlation of the underlying asset is less than the strike rate and would

receive the payoff amount when the correlation is greater than the strike. This type of agreement is essentially a forward contract on the future realised price correlation of the underlying asset.

Credit Default Swap Agreements Certain Funds may use credit default swaps on corporate, loan, sovereign, US municipal or US Treasury issues to provide a measure of protection against defaults of the issuers (i.e., to reduce risk where a Fund owns or has exposure to the referenced obligation) or to take an active long or short position with respect to the likelihood of a particular issuer's default. Credit default swap agreements involve one party making a stream of payments (referred to as the buyer of protection) to another party (the seller of protection) in exchange for the right to receive a specified return in the event that the referenced entity, obligation or index, as specified in the swap agreement, undergoes a certain credit event. As a seller of protection on credit default swap agreements, the Fund will generally receive from the buyer of protection a fixed rate of income throughout the term of the swap provided that there is no credit event. As the seller, a Fund would effectively add leverage to its portfolio because, in addition to its total net assets, the Fund would be subject to investment exposure on the notional amount of the swap.

If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation, other deliverable obligations or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index. If the Fund is a buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) receive from the seller of protection an amount equal to the notional amount of the swap and deliver the referenced obligation, other deliverable obligations or underlying securities comprising the referenced index or (ii) receive a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index. Recovery values are estimated by market makers considering either industry standard recovery rates or entity specific factors and considerations until a credit event occurs. If a credit event has occurred, the recovery value is determined by a facilitated auction whereby a minimum number of allowable broker bids, together with a specified valuation method, are used to calculate the settlement value. The ability to deliver other obligations may result in a cheapest-to-deliver option (the buyer of protection's right to choose the deliverable obligation with the lowest value following a credit event).

Credit default swap agreements on credit indices involve one party making a stream of payments to another party in exchange for the right to receive a specified return in the event of a write-down, principal shortfall, interest shortfall or default of all or part of the referenced entities comprising the credit index. A credit index is a basket of credit instruments or exposures designed to be representative of some part of the credit market as a whole. These indices are made up of reference credits that are judged by a poll of dealers to be the most liquid entities in the credit default swap market based on the sector of the index. Components of the indices may include, but are not limited to, investment grade securities, high yield securities, assetbacked securities, emerging markets, and/ or various credit ratings within each sector. Credit indices are traded using credit default swaps with standardised terms including a fixed spread and standard maturity dates. An index credit default swap references all the names in the index, and if there is a default, the credit event is settled based on that name's weight in the index. The composition of the indices changes periodically, usually every six months, and for most indices, each name has an equal weight in the index. The Fund may use credit default swaps on credit indices to hedge a portfolio of credit default swaps or bonds, which is less expensive than it would be to buy many credit default swaps to achieve a similar effect. Credit default swaps on indices are instruments for protecting investors owning bonds against default, and traders use them to speculate on changes in credit quality.

Implied credit spreads, represented in absolute terms, utilised in determining the market value of credit default swap agreements on corporate, loan, sovereign or US municipal issues as of period end are disclosed in the Schedule of Investments. They serve as an indicator of the current status of the payment/performance risk and represent the likelihood or risk of default for the referenced entity. The implied credit spread of a particular reference entity reflects the cost of buying/selling protection and may include upfront payments required to be made to enter into the agreement. Wider credit spreads represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement. For credit default swap agreements on asset-backed securities and credit indices, the quoted market prices and resulting values serve as the indicator of the current status of the payment/performance risk. Increasing market values, in absolute terms when compared to the notional amount of the swap, represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.

The maximum potential amount of future payments (undiscounted) that a Fund as a seller/buyer of protection could be required to make under a credit default swap agreement equals the notional amount of the agreement. Notional amounts of each individual credit default swap agreement outstanding as of 31 December 2017 for which the Fund is the seller/buyer of protection are disclosed in the Schedule of Investments. These potential amounts would be partially offset by any recovery values of the respective referenced obligations, upfront payments received upon entering into the agreement, or net amounts received from the settlement of buy protection credit default swap agreements entered into by the Fund for the same referenced entity or entities.

Cross-Currency Swap Agreements Certain Funds may enter into cross-currency swap agreements to gain or mitigate exposure to currency risk. Cross-currency swap agreements involve two parties exchanging two different currencies with an agreement to reverse the exchange at a later date at specified exchange rates. The exchange of currencies at the inception date of the contract takes place at the current spot rate. The re-exchange at maturity may take place at the same exchange rate, a specified rate, or the then current spot rate. Interest payments, if applicable, are made between the parties based on interest rates available in the two currencies at the inception of the contract. The terms of cross-currency swap contracts may extend for many periods. Cross-currency swaps are usually negotiated with commercial and investment banks. Some cross-currency swaps may not provide for exchanging principal cash flows, but only for exchanging interest cash flows.

For Class level hedges the realised and unrealised gains or losses are allocated solely to the relevant share classes. The unrealised gains or losses are reflected in Financial derivative instruments on the Statement of Assets and Liabilities. In connection with these contracts, securities may be identified as collateral in accordance with the terms of the respective contracts.

Interest Rate Swap Agreements Certain Funds are subject to interest rate risk exposure in the normal course of pursuing their investment objectives. Because a Fund holds fixed rate bonds, the value of these bonds may decrease if interest rates rise. To help hedge against this risk and to maintain its ability to generate income at prevailing market rates, a Fund may enter into interest rate swap agreements. Interest rate swap agreements involve the exchange by the Fund with another party for their respective commitment to pay or receive interest on the notional amount of principal. Certain forms of interest rate swap agreements may include: (i) interest rate caps, under which, in return for a premium, one party agrees to make payments to the other to the extent that interest rates exceed a specified rate, or "cap", (ii) interest rate floors, under which, in return for a premium, one party agrees to make payments to the other to the extent that interest rates fall below a specified rate, or "floor", (iii) interest rate collars, under which a party sells a cap and purchases a floor or vice versa in an attempt to protect itself against interest rate movements exceeding given minimum or maximum levels, (iv) callable interest rate swaps, under which the buyer pays an upfront fee in consideration for the right to early terminate the swap transaction in whole, at zero cost and at a predetermined date and time prior to the maturity date, (v) spreadlocks, which allow the interest rate swap users to lock in the forward differential (or spread) between the interest rate swap rate and a specified benchmark, or (vi) basis swaps, under which two parties can exchange variable interest rates based on different segments of money markets.

Total Return Swap Agreements Certain Funds may enter into total return swap agreements. Total return swap agreements on commodities involve commitments where cash flows are exchanged based on the price of a commodity in return for either a fixed or floating price or rate. One party would receive payments based on the market value of the commodity involved and pay a fixed amount. Total return swap agreements on indices involve commitments to pay interest in exchange for a market-linked return. One counterparty pays out the total return of a specific reference asset, which may be an equity, index, or bond, and in return receives a regular stream of payments. To the extent the total return of the security or index underlying the transaction exceeds or falls short of the offsetting interest rate obligation, the Fund will receive a payment from or make a payment to the counterparty.

Certain Funds may invest in total return equity swaps ("equity swaps"). Equity swaps can be used to secure a profit or avoid a loss by reference to fluctuations in the value or price of equities or financial instruments or in an index of such equities or financial instruments. An equity swap is a derivative instrument designed to replicate the economic performance and the cash flows of a conventional share investment.

The risks inherent in equity swaps are dependent on the position that a Fund may take in the transaction: by utilising equity swaps, a Fund may put itself in a long position on the underlying value, in which case the Fund will profit from any increase in the value of the underlying stock, and suffer from any decrease. The risks inherent in a long position are identical to the risks inherent in the purchase of the underlying stock. Conversely, a Fund may put itself in a short position on the value of the underlying stock, in which case the Fund will profit from any decrease in the underlying stock, and suffer from any increase. The risks inherent in a short position are greater than those of a long position: while there is a ceiling to a maximum loss in a long position if the underlying stock is valued at zero, the maximum loss of a short position is that of the increase in the underlying stock, an increase that, in theory, is unlimited.

It should be noted that a long or short equity swap position is based on the Investment Advisors' opinion of the future direction of the underlying security. The position could have a negative impact on the Fund's performance.

Variance Swap Agreements Certain Funds may invest in variance swap agreements to gain or mitigate exposure to the underlying reference securities. Variance swap agreements involve two parties agreeing to exchange cash flows based on the measured variance (or square of volatility) of a specified underlying asset. One party agrees to exchange a "fixed rate" or strike price payment for the "floating rate" or realised price variance on the underlying asset with respect to the notional amount. At inception, the strike price is generally chosen such that the fair value of the swap is zero. At the maturity date, a net cash flow is exchanged, where the payoff amount is equivalent to the difference between the realised price variance of the underlying asset and the strike price multiplied by the notional amount. As a receiver of the realised price variance, the Fund would receive the payoff amount when the realised price variance of the underlying asset is greater than the strike price and would owe the payoff amount when the variance is less than the strike. As a payer of the realised price variance, the Fund would owe the payoff amount when the realised price variance of the underlying asset is greater than the strike price and would receive the payoff amount when the variance is less than the strike. This type of agreement is essentially a forward contract on the future realised price variance of the underlying asset.

6. EFFICIENT PORTFOLIO MANAGEMENT

To the extent permitted by the investment objectives and policies of the Funds and subject to the limits set down by the Central Bank from time to time and to the provisions of the Prospectus, utilisation of financial derivative instruments and investment techniques shall be employed for efficient portfolio management purposes by all the Funds. The Funds may use these financial derivative instruments and investment techniques to hedge against changes in interest rates, non-functional currency exchange rates or securities prices or as part of their overall investment strategy.

The total interest income/(expense) arising from Repurchase Agreements during the financial year ended 31 December 2017 \$22,823,803/ (\$2,853,455) (31 December 2016 \$5,210,920/(\$2,177,974)).

The total interest income/(expense) arising from Reverse Repurchase Agreements during the financial year ended 31 December 2017 \$3,934,957/(\$59,359,999) (31 December 2016 \$4,530,205/(\$43,534,034)).

The total interest income/(expense) arising from Sale-Buyback Financing transactions during the financial year ended 31 December 2017 \$4,878,455/(\$5,265,291) (31 December 2016 \$12,250,572/(\$3,750,069)).

7. TAXATION

Under current law and practice the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares, and the holding of shares at the end of each eight year period beginning with the acquisition of such shares.

No Irish tax will arise on the Fund in respect of chargeable events in respect of:

(a) A shareholder who is neither an Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Fund or the Fund has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and

(b) Certain exempted Irish tax resident shareholders who have provided the Fund with the necessary signed statutory declarations.

The Finance Act 2010 provides that the Revenue Commissioners may grant approval for investment funds marketed outside of Ireland to make payments to non-resident investors without deduction of Irish tax where no relevant declaration is in place, subject to meeting the "equivalent measures". A Fund wishing to receive approval must apply in writing to the Revenue Commissioners, confirming compliance with the relevant conditions.

Dividends, interest and capital gains (if any) received on investments made by the Funds may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Funds or its shareholders.

In accordance with the reporting fund regime introduced by the United Kingdom HM Revenue and Customs, each share class will be viewed as a separate "offshore fund" for UK tax purposes. The reporting regime permits an offshore fund to seek advance approval from HM Revenue and Customs to be treated as a reporting fund. Once an offshore fund has been granted "reporting fund" status it will maintain that status for so long as it continues to satisfy the conditions to be a "reporting fund" without a requirement to apply for further certification by HM Revenue and Customs. Each Share Class in the Company is treated as a "reporting fund". This has been approved by HM Revenue and Customs.

8. DIVIDEND DISTRIBUTION POLICY

As set out in the relevant Fund Supplement, dividend distributions may be declared out of;

- (i) Net investment income which consists of interest and dividends.
- (ii) Realised profits on the disposal of investments less realised and unrealised losses (including fees and expenses). In the event that the realised profits on the disposal of investments less realised and unrealised losses are negative the Funds may still pay dividends out of net investment income and/or capital.
- (iii) Other funds (including capital) as may be lawfully distributed from the relevant Fund or Share Class of the relevant Fund.
- (iv) Net investment income and/or capital.
- (v) Gross income whereby management fees and other fees, or a portion thereof, may be charged to capital and as a result capital may be eroded and income may be achieved by foregoing the potential for

future capital growth. This cycle may continue until all capital is depleted. The rationale for charging to capital is to maximise the amount distributable to investors.

In the case of the Income II Class (which seeks to provide an enhanced yield to Shareholders) the Directors may, at their discretion, pay fees out of capital as well as take into account the yield differential between the relevant hedged Share Class and the base Share Class (which constitutes a distribution from capital). The yield differential can be positive or negative and is calculated on the basis of the difference between the implied yield of the relevant hedged Share Class currency and the base currency of the Fund.

In the case of the Emerging Asia Bond Fund, Euro Income Bond Fund, Euro Short-Term Fund, Income Fund, US Short-Term Fund, Mortgage Opportunities Fund and Class M Retail Shares dividend distributions will be declared monthly and, depending on the shareholder's election, paid in cash or reinvested in additional shares monthly.

In the case of the Class G Retail, G Institutional and Investor Income A Classes, dividends will be declared annually and depending upon the shareholder's election, paid in cash or reinvested in additional Shares on an annual basis.

In the case of all other Funds with Income Class Shares, dividends distributions will be declared quarterly and, depending upon the shareholder's election, paid in cash or reinvested in additional shares after declaration.

Dividend distributions to holders of redeemable shares are classified as finance costs on the Statement of Operations. The income or gains allocated to Accumulation Shares will neither be declared or distributed but the NAV per share of Accumulation Shares will be increased to take account of such income or gains. Dividend distributions not reinvested in shares will be paid to the shareholder by way of bank transfer. Any dividend distribution unclaimed after a period of six years from the date of declaration of such dividend distribution shall be forfeited and shall revert to the account of the relevant Fund. Shareholders can elect to reinvest dividend distributions in additional shares or have the dividend distributions paid in cash by ticking the appropriate box on the Application Form.

A portion of dividend distributions per the Statement of Operations was paid out of capital for the below Funds (amounts in thousands);

Fund	Year ended 31 December 2017	Year ended 31 December 2016
Emerging Asia Bond Fund	\$ 197	\$ 837
Euro Income Bond Fund	€ 828	-
Global Multi-Asset Fund	\$ 1,936	-
Income Fund	233	-

9. SOFT COMMISSIONS

The Company or its Investment Advisor may effect transactions on behalf of the Funds with or through the agency of execution brokers, which may, in addition to routine order execution, from time to time, provide to or procure for the Company or its delegates goods, services or other benefits such as research and advisory services. The Company or its Investment Advisor may pay these brokers full-service brokerage rates part of which may be applied in the provision of permitted goods or services. Those Investment Advisors which are MiFID investment firms shall pay for any third party research which it purchases relating to the management of the assets of each Fund directly out of its own resources.

10. SEGREGATED LIABILITY

Further to the relevant provisions of the Companies Act 2014, the Company has adopted segregated liability between Funds. Accordingly, any liability on behalf of or attributable to any Fund of the Company shall be discharged solely out of the assets of that Fund, and neither the Company nor any Director, receiver, examiner, liquidator, provisional liquidator or other person shall apply, nor be obliged to apply, the assets of any such Fund in satisfaction of any liability incurred on behalf of or attributable to any other Fund of the Company, irrespective of when such liability was incurred.

11. CHANGES TO THE PROSPECTUS AND TO THE MEMORANDUM AND ARTICLES OF ASSOCIATION

The Prospectus and Supplements of the Company were updated and noted by the Central Bank on 03 July 2017.

Supplements to the Consolidated Prospectus were amended for the following:

- For amendments to the PIMCO TRENDS Managed Futures Strategy Fund (31 July 2017)
- For amendments to the Global Advantage Real Return Fund (13 October 2017)
- For amendments to the Mortgage Opportunities Fund (13 November 2017)
- For amendments to the PIMCO Capital Securities Fund (01 December 2017)
- For amendments to the Strategic Income Fund (01 December 2017)

12. FEES AND EXPENSES

(a) Fees Payable to the Manager

The fees payable to PIMCO Global Advisors (Ireland) Ltd. (the "Manager") as set out in the Prospectus shall not exceed 2.50% per annum of the NAV of each Fund.

(b) Management Fee

The Manager, in respect of each Fund and as described in the Prospectus, provides or procures investment advisory, administration, depositary and other services in return for which each Fund pays a single management fee to the Manager. The Management Fee (as defined in the Prospectus) for each Fund is accrued on each Dealing Day (as defined in the relevant Fund's Supplement) and is payable monthly in arrears. The Manager may pay the Management Fee in full or in part to the Investment Advisors in order to pay for the investment advisory and other services provided by the Investment Advisors and in order for the Investment Advisors to pay for administration, depositary and other services procured for the Funds by the Manager. The Management Fee for each class of each Fund (expressed as a per annum percentage of its NAV) is as follows:

- (1) For all Classes (except Class E, G Retail, M Retail and Class T) the figure takes account of a fee waiver by the Manager in the amount of 0.10% p.a. from 01 January 2017 to 31 December 2017 (0.15% p.a. during financial year ended 31 December 2016). From 01 January 2018 to 31 December 2018 the fee waiver by the Manager will be in the amount of 0.05%. The fee waiver will expire from 01 January 2019.
- (2) Since 01 July 2017 Class Institutional rate takes into account a fee waiver by the Manager in the amount of 0.08% p.a. The fee waiver will expire from 01 July 2018. The figure shown in the chart is not inclusive of the fee waiver applicable to the Institutional class.
- (3) Since 01 July 2017 Class Institutional rate takes into account a fee waiver by the Manager in the amount of 0.15% p.a. The fee waiver will expire from 01 July 2018. The figure shown in the chart is not inclusive of the fee waiver applicable to the Institutional class.
- (4) For all Classes except Class R the figure takes account of a fee waiver by the Manager in the amount of 0.20% p.a. Class R rate takes account of a fee waiver by the Manager in the amount of 0.11% p.a. The fee waivers will extend until 30 June 2018. The fee waiver will expire from 01 July 2018.
- (5) For all Classes except Class R the figure takes account of a fee waiver by the Manager in the amount of 0.10% p.a. Class R rate takes account of a fee waiver by the Manager in the amount of 0.05% p.a. The fee waivers will extend until 30 June 2018. The fee waiver will expire from 01 July 2018.
- (6) For all Classes except Class R the figure takes account of a fee waiver by the Manager in the amount of 0.10% p.a. Class R rate takes account of a fee waiver

- by the Manager in the amount of 0.06% p.a. The fee waivers will extend until 30 June 2018. The fee waiver will expire from 01 July 2018.
- (7) For all Classes the figure takes account of a fee waiver by the Manager in the amount of 0.05% to 31 December 2018.
- (8) For all Classes the figure takes account of a fee waiver by the Manager in the amount of 0.25% p.a. until 31 July 2018.
- (9) Since 01 July 2017, Class Institutional rate takes into account a fee waiver by the Manager in the amount of 0.07% p.a. The fee waiver will expire from 01 July 2018. The figure shown in the chart is not inclusive of the fee waiver applicable to the Institutional class.
- (10) Classes E, G Retail and M Retail rates take into account a fee waiver by the Manager in the amount of 0.30% p.a. Class R rate takes into account a fee waiver by the Manager in the amount of 0.16% p.a. The fee waivers will extend until such time as the Manager, on prior written notice to shareholders in the Fund, decides to discontinue or disapply this fee or to reduce it for any future period.

During the financial year ended 31 December 2017, the Management Fees were unchanged from 2016 with the exception of fee waiver amendments noted above.

The Euro Real Return Fund, the Euro Ultra-Long Duration Fund and the UK Low Duration Fund have terminated, with no remaining investors and no further subscriptions being accepted into the Funds.

The Management Fee attributable to the Class H Institutional, Class E, Class G Retail, Class M Retail and Class T share classes is generally higher than the Management Fee attributable to the other share classes. From this higher fee the Manager may pay for the expense of distribution, intermediary and other services rendered to shareholders in these share classes of the Funds directly or indirectly by distributors or broker dealers, banks, financial intermediaries, or other intermediaries. Given the fixed nature of the Management Fee, the Manager, and not shareholders, takes the risk of any price increases in the cost of the services covered by the Management Fee and takes the risk of expense levels relating to such services increasing above the Management Fee as a result of a decrease in net assets. Conversely, the Manager, and not shareholders, would benefit from any price decrease in the cost of services covered by the Management Fee, including decreased expense levels, as a percentage of net assets, resulting from an increase in net assets.

Due to the nature of the Class Z offering there is no Management Fee disclosed on the Statement of Operations (the Class Z Shares are offered primarily for other Funds of the Company or for direct investment by institutional investors who have entered into an investment management or other agreement with the Investment Advisors or a PIMCO affiliate) and in an effort to avoid the duplication of fees, the Management Fee for the Class Z Shares will be set at 0.00% per annum.

(c) Investment Advisory Services

On behalf of the Company, the Manager provides and/or procures investment advisory services. Such services include the investment and reinvestment of the assets of each Fund. The fees of the Investment Advisors (together with VAT, if any thereon) are paid by the Manager from the Management Fee.

(d) Administration, Depositary Services and Other Services

On behalf of the Company, the Manager provides and/or procures administration, depositary and other services. Such services include administration, transfer agency, fund accounting, depositary and sub-custody in respect of each Fund. The fees and expenses of the Administrator and Depositary (together with VAT, if any thereon) are paid by the Manager from the Management Fee, or by the Investment Advisors.

On behalf of the Company, the Manager provides and/or procures certain other services. These may include listing sponsor services, paying agent and other local representative services, accounting, audit, legal and other professional advisor services, company secretarial services, printing, publishing and translation services, and the provision and co-ordination of certain supervisorial, administrative and shareholder services necessary for operation of the Funds. Fees and any ordinary expenses in relation to these services (together with VAT, if any thereon) are paid by the Manager, or by the Investment Advisors on behalf of the Manager, from the Management Fee.

The Funds will bear other expenses related to their operation that are not covered by the Management Fee which may vary and affect the total level of expenses within the Funds including, but not limited to, taxes and governmental fees, brokerage fees, commissions and other transaction expenses, costs of borrowing money including interest expenses, establishment costs, extraordinary expenses (such as litigation and indemnification expenses) and fees and expenses of the Company's independent Directors and their counsel.

The Company paid Directors' fees of €120,000 during the financial year ended 31 December 2017 (amount at 31 December 2016 was €120,000). In addition, each independent Director is reimbursed for any reasonable out-of-pocket expenses. Directors' fees are a component of "Other expenses" on the Statement of Operations.

The following table sets out the fees the Company was charged by the statutory auditors during the years ended 31 December 2017 and 31 December 2016:

	Year Ended		
Auditors' Remuneration	2017 €	2016 €	
Audit of entity financial statements	558,413	557,959	
Other assurance services	438,866	-	
Tax advisory services	-	-	
Other non-audit services	-	-	

Service Fee

The Service Fee which applies to the Investor Classes only is paid to the Manager and may be used to reimburse broker-dealers, financial intermediaries, or other intermediaries that provide services in connection with the distribution and marketing of Shares and/or the provision of certain shareholder services or the administration of plans or programmes that use Fund Shares as their funding medium, and to reimburse other related expenses. The services are provided directly by the Manager or indirectly through broker-dealers, financial intermediaries, or other intermediaries to all shareholders of the Investor Classes. The same services apply to all shareholders of the Investor Classes for the fees levied. These services may include responding to shareholder inquiries about the Funds and their performance; assisting shareholders with purchases, redemptions and exchanges of Shares; maintaining individualised account information and providing account statements for shareholders; and maintaining other records relevant to a shareholder's investment in the Funds.

Plans or programmes that use Fund Shares as their funding medium may include unit-linked insurance products and pension, retirement or savings plans maintained by employers. All shareholders in the Investor Classes will receive services pursuant to agreements entered into with financial intermediaries with whom those shareholders have a servicing relationship. The Service Fee is calculated on the basis of 0.35% per annum of the NAV of each Fund attributable to the Investor Classes. The Service Fee was unchanged from 2016 to 2017. The Service Fee is paid out of the NAV attributable to the Investor Classes of the NAV of those Funds. The Service Fee for each Fund is accrued on each Dealing Day and is payable monthly in arrears. The Manager may retain for its own benefit in whole or in part any Service Fee not payable to broker dealers, financial intermediaries or other intermediaries.

Trail Fee

The Trail Fee which applies to Administrative Class shares is paid to the Distributor for personal services rendered to shareholders of the Funds and the maintenance of shareholder accounts, including compensation to, and expenses (including telephone and overhead expenses) of, financial consultants or other employees of participating or introducing brokers, certain banks and other financial intermediaries who assist in the processing of purchase or redemption requests or the processing of dividend payments, who provide information periodically to shareholders showing their positions in a Fund's shares, who forward communications from the Company to shareholders, who render ongoing advice concerning the suitability of particular investment opportunities offered by the Funds in light of the shareholders' needs, who respond to inquiries from shareholders relating to such services, or who train personnel in the provision of such services.

The services are provided directly by the Distributor or indirectly through broker dealers, banks, financial intermediaries, or other intermediaries to all shareholders of Administrative Class shares. The Trail Fee for each Fund is accrued on each Dealing Day and is payable monthly in arrears. The Distributor may retain for its own benefit in whole or in part any Trail Fee not payable to broker dealers, banks, financial intermediaries or other intermediaries.

The Trail Fee of each Fund (expressed as a per annum percentage of its NAV), with the exception of the StocksPLUS™ Fund, is 0.50% per annum of the NAV attributable to the Administrative classes. The Trail Fee of the StocksPLUS™ Fund (expressed as a per annum percentage of its NAV) is 0.75% per annum of the NAV attributable to the Administrative Classes.

The Trail Fees were unchanged during 2017.

(e) Distribution Fee

The Distribution Fee which applies to Class T Shares is paid to the Distributor for services rendered to shareholders of the Funds.

The services are provided directly by the Distributor or indirectly through broker-dealers, banks, financial intermediaries, or other intermediaries to all shareholders of Class T Shares. The Distribution Fee is calculated on the basis of 0.40% per annum of the NAV of each Fund attributable to the Class T Shares, except in relation to PIMCO Credit Absolute Return Fund, Euro Bond Fund, Global Bond ESG Fund, Global Bond Fund, Global Bond Ex-US Fund, Global Libor Plus Bond Fund, Global Low Duration Real Return Fund, Global Real Return Fund, PIMCO RAE Fundamental PLUS US Fund, Total Return Bond Fund and Unconstrained Bond Fund which attract a Distribution Fee of 0.30% per annum of the NAV of those Funds.

The Distributor Fee for each Fund is accrued on each Dealing Day and is payable monthly in arrears. The Distributor may retain for its own benefit in whole or in part any Distribution Fee not payable to broker-dealers, banks, financial intermediaries or other intermediaries.

(f) Expense Limitation (including Management Fee Waiver and Recoupment)

The Manager has agreed with the Company, pursuant to the Management Agreement between the Company and the Manager dated as of 28 January 1998, as amended, to manage total annual fund operating expenses for any Class of Fund, by waiving, reducing or reimbursing all or any portion of its Management Fee, to the extent that (and for such period of time that) such operating expenses would exceed, due to the payment of establishment costs and pro rata Directors' Fees, the sum of such Class of such Fund's Management Fee (prior to the application of any applicable Management Fee waiver), any Service or Trail Fees, as applicable, and other expenses borne by such Fund's share Class not covered by the Management Fee as described above (other than establishment costs and pro rata Directors' fees), plus 0.0049% per annum (calculated on a daily basis based on the NAV of the Fund).

In any month in which the Management Agreement is in effect, the Manager may recoup from a Fund any portion of the Management Fee waived, reduced or reimbursed pursuant to the Management Agreement (the "Reimbursement Amount") during the previous 36 months, provided that such amount paid to the Manager will not 1) exceed 0.0049% per annum of the Class of the applicable Fund's average net assets (calculated on a daily basis); 2) exceed the total Reimbursement Amount; 3) include any amounts previously reimbursed to the Manager; or 4) cause any Class of a Fund to maintain a net negative yield.

The Management Fee as disclosed in the Statement of Operations is recognised gross of the relevant management fee waiver where applicable. Management fee waivers are recognised within Reimbursement by Investment Advisors in the Statement of Operations. The Management Fee is paid to the Manager net of the waiver.

13. RELATED PARTY TRANSACTIONS

The Manager, Investment Advisors, Distributors and Directors are related parties. Fees payable to these parties are disclosed in note 12.

At 31 December 2017, the Manager held 1,431,711 (31 December 2016: 1,397,346) shares of the US Short-Term Fund.

At 31 December 2017, V. Mangala Ananthanarayanan held 8,758.00 (31 December 2016: Nil) shares of the Dynamic Multi-Asset Fund, 7,239.00 (31 December 2016: Nil) shares of the Global Investment Grade Credit Fund and 18,801.00 (31 December 2016: Nil) shares of the Income Fund, all Funds of the Company.

At 31 December 2017, David M. Kennedy held 6,033.93 (31 December 2016: 6,412.93) shares of the Emerging Markets Bond Fund and 16,786.79 (31 December 2016: 16,786.79) shares of the Global Multi-Asset Fund, both Funds of the Company.

At 31 December 2017, Michael J. Meagher held 2,218.88 (31 December 2016: Nil) shares of the Global Low Duration Real Return Fund, which is a Fund of the Company.

At 31 December 2017 and 31 December 2016 the Global Multi-Asset Fund invested in the Class Z of Global Advantage Real Return Fund, Income Fund and PIMCO MLP & Energy Infrastructure Fund. The Dynamic Multi-Asset Fund invested in the Class Z of Income Fund and Mortgage Opportunities Fund. The Diversified Income Fund, Diversified Income Duration Hedged Fund, Global Bond Fund, Low Average Duration Fund, Total Return Bond Fund and Unconstrained Bond Fund invested in the Class Z of US Short-Term Fund. Due to the nature of the Class Z offering and in an effort to avoid the duplication of fees, the Management Fee for the Class Z of these Funds is set at 0.00% per annum.

Certain Funds invest in the Class Z of the PIMCO China Bond Fund which are considered to be affiliated with the Company. Due to the nature of the Class Z offering and in an effort to avoid the duplication of fees, the Management Fee for the Class Z of both funds is set at 0.00% per annum.

Certain Funds invest into the PIMCO Euro Short Maturity Source UCITS ETF Fund, PIMCO Sterling Short Maturity Source UCITS ETF Fund and PIMCO US Dollar Short Maturity Source UCITS ETF Fund, and these are considered to be affiliated with the Company. Since these Funds do not offer a zero fee share class, Management Fees are paid by both the Fund investing and the underlying affiliated Fund. Therefore, an Investment Advisory Fee Waiver is offset prior to payment by the investing Fund to the Manager, which is accounted for on the Statement of Operations within Reimbursement by Investment Advisors.

During the financial years ended 31 December 2017 and 31 December 2016 the Funds below engaged in purchases and sales of securities among affiliated Funds, purchases and sales relating to cross-investments and purchases and sales of investments into affiliated Funds (amounts in thousands):

14. EXCHANGE RATES

For the purposes of combining the financial statements of the Funds, to arrive at Company figures (required under Irish Company law), the amounts on the Statement of Assets and Liabilities have been translated at the exchange rate ruling at 31 December 2017 from Euro to US Dollar (USD/EUR 0.83278) (31 December 2016 USD/EUR 0.94809) and from British Pound Sterling to US Dollar (USD/GBP 0.73924) (31 December 2016 USD/GBP 0.80929). The amounts on the Statement of Operations and the Statement of Changes in Net Assets have been translated at an average exchange rate for the financial year ended 31 December 2017 from Euro to US Dollar (USD/ EUR 0.88677) (31 December 2016 USD/EUR 0.90351) and from British Pound Sterling to US Dollar (USD/GBP 0.77667) (31 December 2016 USD/ GBP 0.73779).

The following table reflects the exchange rates used as at 31 December 2017 and 31 December 2016, to convert the British Pound Sterling, Euro and US Dollar balances. They were also used to convert the investments and other assets and liabilities denominated in currencies other than British Pound Sterling, Euro and US Dollars:

15. FINANCIAL RISKS

The main risks arising from the Company's financial instruments are market price, foreign currency, interest rate, liquidity and credit and counterparty risks. The risks relating to Funds that have closed during the financial year are consistent with the comparative information for 31 December 2016 up to date of termination.

(a) Market Price Risk Market risk arises mainly from uncertainty about future prices of financial instruments held. It represents the potential loss the Fund might suffer through holding market positions in the face of adverse price movements. The Investment Advisors consider the asset allocation of the portfolio in order to minimise the risk associated with particular countries or industry sectors whilst continuing to follow the Funds' investment objectives.

The Investment Advisors use a number of quantitative techniques to assess the impact of market risks including credit events, changes in interest rates, credit spreads and recovery values on the Funds' investment portfolio.

The Investment Advisors use Value at Risk ("VaR") analysis, a technique widely used by financial institutions to quantify, assess, and report market risk. VaR is a statistical framework that supports the quantification of market risk within a portfolio at a specified confidence interval over a defined holding period. Certain Funds may use the Relative VaR model or Absolute VaR model. Where the Relative VaR model is used, the VaR of a Fund's portfolio will not exceed twice the VaR on a comparable benchmark portfolio or reference portfolio (i.e. a similar portfolio with no derivatives) which will reflect a Fund's intended investment style. Where the Absolute VaR model is used, the VaR of a Fund's portfolio may not exceed 20% of the Net Asset Value of a Fund and the holding period shall be 20 days and the length of the data history shall not be less than one year. VaR seeks to quantify the expected minimum, maximum and average dollar losses that may result from the interactive behaviour of all material market prices, spreads, volatilities, rates and other risks including foreign exchange, interest rate, emerging market and convexity risk based on the historically observed relationships between these markets.

Although the use of derivatives may give rise to an additional leveraged exposure, any such additional exposure will be covered and will be risk managed using the VaR methodology in accordance with the Central Bank's requirements. The Investment Advisors monitor portfolio risk using market factor exposures on a daily basis. Potential market risk is calculated using

the parametric delta-normal or factor model approach. VaR is calculated and reported automatically each day using the closing prices and market information of the most recent business day. Depending on the application of the risk statistics, various confidence levels (such as 99%) and time horizons (weeks or months) might be selected.

Stress tests also are conducted relating to the VaR model for each Fund on a monthly basis. The PIMCO Risk Group oversees the composition of stress tests and makes appropriate adjustments when market conditions or fund compositions make that appropriate. The stress tests estimate potential gains or losses from shocks to financial variables including nominal sovereign rates, nominal swap rates, real rates, credit spreads, equity valuations, commodity values, currency exchange rates, and implied volatilities. In addition to the monthly stress testing, three additional types of stress tests are also conducted, some of which are used daily and some of which are used for analysis interactively. The first are scenario duration tests that measure what happens to the value of the portfolio if unexpected movements in yields occur in the market. These durations are calculated every business day. The second test involves a database of historical crisis scenarios that can be executed to test reactions to these crises. The historical crisis scenarios contain many unexpected changes in market conditions and correlation matrices. The third test involves correlation matrices which can be manipulated manually to reflect conditions that may happen in the future but have not happened so far.

Calculations generally are done by using automated simulation methodologies. However, there are also methodologies to manually check what changes in the correlation matrices would have a big negative impact to the portfolios. These correlations changes can then be analysed and possible real world events that could bring about such changes can be assigned.

Of course, it cannot be ruled out that actual economic results will differ significantly from manually and automated scenarios.

The daily VaR measures are an estimate of the portfolio loss over the next one month period that would not be exceeded 99% of the time, relative to the assumptions of the VaR model.

Not all risks to which the portfolio may be exposed are intended to be captured by VaR and, in particular, the framework does not seek to capture liquidity risk, counterparty credit risk, or extreme credit events such as an issuer default. In practice, the actual trading results will differ from the VaR and may not provide a meaningful indication of profits and losses in stressed market conditions. To determine the reliability of the VaR models, actual outcomes are monitored to test the validity of the assumptions and parameters used in the VaR calculation. Market risk positions are also subject to regular stress tests to ensure that each Fund would withstand an extreme market event.

The following tables set out the minimum, maximum, average and period end VaR of each Fund as at 31 December 2017 and 31 December 2016:

Fund	Methodology	Benchmark	Min	31-De Max	ec-2017 Average	Period End

(1) The Fund changed benchmark during the finar		· · · · · · · · · · · · · · · · · · ·	5.57 /0	3.1070		5.07 /5

⁽¹⁾ The Fund changed benchmark during the financial year ended 31 December 2016.

The following sensitivity analysis in relation to the following Funds, PIMCO RAE Fundamental Europe Fund, PIMCO RAE Fundamental Global Developed Fund and PIMCO RAE Fundamental US Fund, assumes a change in the market price of investments while holding all other variables constant. In

practice this is unlikely to occur, and changes in some of the variables may be correlated. In addition, as the sensitivity analysis uses historical data as a basis for determining future events, it does not encompass all possible scenarios, particularly those that are of an extreme nature.

⁽²⁾ The Funds' methodology changed from Relative to Absolute during the financial year ended 31 December 2016.

At 31 December 2017 and 31 December 2016 had the fair value price of investments increased or decreased by 5% with all other variables held constant, this would have increased or reduced Net Assets Attributable to Holders of Redeemable Participating Shareholders from operations, respectively by approximately the amounts below (amounts in thousands):

	Impact to Net Asset Value						
Fund	Increase	Decrease					
PIMCO RAE Fundamental Europe Fund	€ 687	€ (687)					
PIMCO RAE Fundamental Global Developed Fund	\$ 5,115	\$ (5,115)					
PIMCO RAE Fundamental US Fund	\$ 700	\$ (700)					

	31-Dec-2016 Impact to Net Asset Value				
Fund	Increase	Decrease			
PIMCO RAE Fundamental Europe Fund	€ 621	€ (621)			
PIMCO RAE Fundamental Global Developed Fund	\$ 1,469	\$ (1,469)			
PIMCO RAE Fundamental US Fund	\$ 1,011	\$ (1,011)			

The PIMCO RAE Fundamental Emerging Markets Fund uses the commitment approach and leverage will not exceed 100% of the Fund's Net Asset Value. The following table set out the minimum, maximum, average and period end exposure of the Fund as at 31 December 2017 and 31 December 2016:

	IVIIN	IVIax	Average	Period End
31-Dec-2017	3.05%	6.88%	5.01%	5.18%
31-Dec-2016	1.52%	4.31%	2.82%	3.94%

The Central Bank requires that all funds disclose a measure of leverage calculated on a gross notional exposure basis. The gross notional exposure figure is calculated using the sum of the absolute value of notionals of the derivatives (which is deemed to include certain forward settling trades), as is required by the Central Bank and as such does not take into account any netting and hedging arrangements that the Fund has in place at any time. The use of derivatives (whether for hedging or investment purposes) may give rise to a higher gross notional exposure. The Funds' gross notional exposure is expected to increase to the higher levels, for example, at times when the Investment Advisors deem it most appropriate to use derivative instruments to alter the Funds' interest rate, currency or credit exposure.

The following tables set out the average level of gross notional exposure for the Funds for the financial years ended 31 December 2017 and 31 December 2016:

- (1) The Funds launched during the financial year ended 31 December 2017.
- (2) The Funds launched during the financial year ended 31 December 2016.
- * Note there are no figures included for the following Funds: PIMCO RAE Fundamental Emerging Markets Fund, PIMCO RAE Fundamental Europe Fund, PIMCO RAE Fundamental Global Developed Fund and PIMCO RAE Fundamental US Fund, as they do not include OTC financial derivative instruments.

(b) Foreign Currency Risk If the Funds invest directly in foreign currencies or in securities that trade in, and receive revenues in, foreign currencies, or in financial derivatives that provide exposure to foreign currencies, it will be subject to the risk that those currencies will decline in value relative to the functional currency of the Fund, or, in the case of hedging positions, that the Fund's functional currency will decline in value relative to the currency being hedged. Currency rates in foreign countries may fluctuate significantly over short periods of time for a number of reasons, including changes in interest rates, intervention (or the failure to intervene) by US or foreign governments, central banks or supranational entities such as the International Monetary Fund, or by the imposition of currency controls or other political developments in the United States or abroad. As a result, the Fund's investments in foreign currency denominated securities may reduce the returns of the Funds.

The investments of the PIMCO RAE Fundamental US Fund were acquired in the functional currency of the Fund, thus there is no foreign currency exposure.

PIMCO Capital Securities Fund, Commodity Real Return Fund, Diversified Income Duration Hedged Fund, Diversified Income Fund, Emerging Markets 2018 Fund, Euro Credit Fund, Euro Income Bond Fund, Euro Real Return Fund, Euro Ultra-Long Duration Fund, Global High Yield Bond Fund, Global Libor Plus Bond Fund, Global Low Duration Real Return Fund, Low Duration Global Investment Grade Credit Fund, PIMCO MLP & Energy Infrastructure Fund, Mortgage Opportunities Fund, PIMCO RAE Fundamental PLUS Emerging Markets Fund, PIMCO RAE Fundamental US Fund, UK Long Term Corporate Bond Fund, Unconstrained Bond Fund, US High Yield Bond Fund and US Investment Grade Corporate Bond Fund had no material foreign currency exposure at 31 December 2017 or 31 December 2016.

United States Dollar

Canadian Dollar

As at 31 December 2017 and 31 December 2016, had the respective base currencies of the Funds strengthened by 5% in relation to all other currencies held by the Fund, with all other variables held constant, Net Assets Attributable to Redeemable Participating Shareholders and the Increase/(Decrease) in Net Assets Attributable to Redeemable Participating Shareholders from operations per the Statement of Operations would have

increased/decreased as outlined in the table below.

	As at 31-Dec-2017	As at 31-Dec-2016
PIMCO RAE Fundamental Europe Fund	€ 292	€ 269
PIMCO RAE Fundamental Global	¢ 2.720	¢ 724
Developed Fund	\$ 2,730	\$ 724

A 5% weakening of the base currencies against all other currencies held by the Fund would have resulted in an equal but opposite effect on the above financial statement amounts to the amounts shown above, on the basis that all other variables remain constant.

(c) Interest Rate Risk Interest rate risk is the risk that fixed income securities will decline in value because of changes in interest rates. As nominal interest rates rise, the value of certain fixed income securities held by the Funds are likely to decrease. A nominal interest rate can be described as the sum of a real interest rate and an expected inflation rate. Fixed income securities with longer durations tend to be more sensitive to changes in interest rates, usually making them more volatile than securities with shorter durations. Duration is useful primarily as a measure of the sensitivity of a fixed income's market price to interest rate (i.e. yield) movements.

The majority of the financial assets and liabilities held by PIMCO RAE Fundamental Europe Fund, PIMCO RAE Fundamental Europe Fund, PIMCO RAE Fundamental Global Developed Fund and PIMCO RAE Fundamental US Fund are non-interest bearing. As a result, these Funds are not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates. All other Funds invested primarily in fixed income instruments and therefore are exposed to the risks associated with the effects of fluctuations in the prevailing levels of market interest rates on their financial position and cash flows. These investments are disclosed in the Schedule of Investments. Any excess cash and cash equivalents are invested at short-term market interest rates.

The sensitivity of the Company's exposure to interest rate risk is included in the overall VaR calculations shown in note 15 (a).

(d) Liquidity Risk A Fund's exposure to liquidity risk is primarily affected by the redemption of shares that investors may wish to sell. Participating shareholders may redeem some or all of their outstanding shares at any time without notice. Redeemable Shares are redeemed at the shareholders demand and are included on the Statement of Assets and Liabilities. The Fund's assets are primarily comprised of readily realisable securities, which can be readily sold to satisfy shareholder redemptions in accordance with the Prospectus. Liquidity risk exists when particular investments are difficult to purchase or sell. A Fund's investments in illiquid securities may reduce returns of a Fund because it may be unable to sell the illiquid securities at an advantageous time or price. Funds with principal investment strategies that involve foreign securities, derivatives, or securities with substantial market and/or credit risk tend to have the greatest exposure to liquidity risk.

The current known liabilities for the Funds are listed on the Statement of Assets and Liabilities and the majority of those liabilities are payable within three months with the exception of financial derivative instrument liabilities and securities sold short. The expected payment dates for financial derivative instrument liabilities and securities sold short can be more than three months based on analysis of the remaining period at the reporting date to the maturity date.

Financial derivative instruments consist of the fair value of forward foreign currency contracts, futures contracts, option contracts and swap agreements as at the financial year end. Financial derivative instruments are financial assets and liabilities that are held for trading, and are acquired principally for the purpose of selling in the short term. As the instruments are not expected to be held to maturity or termination, the current fair value represents the estimated cash flow that may be required to dispose of the positions. Future cash flows of the Funds and realised liabilities may differ from current liabilities based on changes in market conditions.

The Investment Advisors manage liquidity risk by monitoring the portfolios and considering investments deemed to be illiquid or not readily and easily sold, to ensure there are sufficient liquid assets to cover the outstanding liabilities of the Funds.

The below Funds may have a significant concentration of risk as the below Shareholders own more than 50% of the Net Assets of the Fund. Such concentration of Shareholders interests could have a material effect on the Fund in the event this Shareholder requests the withdrawal of substantial amounts of capital.

(e) Credit and Counterparty Risks The Funds will be exposed to credit
risk to parties with whom they trade and will also bear the risk of settlement
default. The Funds minimise concentrations of credit risk by undertaking
transactions with a large number of customers and counterparties on
recognised and reputable exchanges, where applicable. OTC derivative
transactions are subject to the risk that a counterparty to the transaction will
not fulfill its contractual obligations to the other party, as many of the
protections afforded to centrally cleared derivative transactions might not be
available for OTC derivative transactions. For financial derivatives
instruments traded on exchanges or clearinghouses, the primary credit risk is
the creditworthiness of the Fund's clearing broker or the exchange or
clearinghouse itself. The Funds could lose money if the issuer or guarantor of
a fixed income security, or the counterparty to a financial derivatives
instruments contract, repurchase agreement or a loan of portfolio securities,
is unable or unwilling to make timely principal and/or interest payments, or
to otherwise honour its obligations. Securities and financial derivative

instruments are subject to varying degrees of credit risk, which are often

reflected in credit ratings.

Similar to credit risk, the Funds may be exposed to counterparty risk, or the risk that an institution or other entity with which the Funds have unsettled or open transactions will default. PIMCO, as the Investment Advisors, minimise counterparty risks to the Fund through a number of ways. Prior to entering into transactions with a new counterparty, the PIMCO Counterparty Risk Committee conducts an extensive credit review of such counterparty and must approve the use of such counterparty. Furthermore, pursuant to the terms of the underlying contract, to the extent that unpaid amounts owed to a Fund exceed a predetermined threshold, such counterparty shall advance collateral to the Fund in the form of cash or securities equal in value to the unpaid amount owed to a Fund. The Funds may invest such collateral in securities or other instruments and will typically pay interest to the counterparty on the collateral received. If the unpaid amount owed to each Fund subsequently decreases, the Fund would be required to return to the counterparty all or a portion of the collateral previously advanced.

All transactions in listed securities are settled/paid for upon delivery using approved counterparties. The risk of default is considered minimal, as delivery of securities sold is only made once the Funds have received payment. Payment is made on a purchase once the securities have been delivered by the counterparty. The trade will fail if either party fails to meet its obligation.

Master Netting Arrangements Certain Funds may be subject to various netting arrangements ("Master Agreements") with selected counterparties. Master Agreements govern the terms of certain transactions, and reduce the counterparty risk associated with relevant transactions by specifying credit protection mechanisms and providing standardisation that improves legal certainty. Each type of Master Agreement governs certain types of transactions. Different types of transactions may be traded out of different legal entities or affiliates of a particular organisation, resulting in the need for multiple agreements with a single counterparty. As the Master Agreements are specific to unique operations of different asset types, they allow the Funds to close out and net its total exposure to a counterparty in the event of a default with respect to all the transactions governed under a

31-Dec-2017		31-Dec-2016	
Shareholder Name	Shareholding %	Shareholder Name	Shareholding %

Shareholder E	58.39	Shareholder E	63.64

single Master Agreement with a counterparty. For financial reporting purposes the Statement of Assets and Liabilities generally present derivative assets and liabilities on a gross basis, which reflects the full risks and exposures prior to netting.

Master Agreements can also help limit counterparty risk by specifying collateral posting arrangements at pre-arranged exposure levels. Under most Master Agreements, collateral is routinely transferred if the total net exposure to certain transactions (net of existing collateral already in place) governed under the relevant Master Agreement with a counterparty in a given account exceeds a specified threshold, which typically ranges from zero to \$250,000 depending on the counterparty and the type of Master Agreement. United States Treasury Bills and US Dollar cash are generally the preferred forms of collateral, although other forms of AAA rated paper or sovereign securities may be used depending on the terms outlined in the applicable Master Agreement. Securities and cash pledged as collateral are reflected as assets on the Statement of Assets and Liabilities as either a component of Financial Assets at fair value through profit or loss (Transferable securities) or Deposits with counterparty (cash). Cash collateral received is not typically held in a segregated account and as such is reflected as a liability on the Statement of Assets and Liabilities as Deposits from counterparty. The market value of any securities received as collateral is not reflected as a component of NAV. The Fund's overall exposure to counterparty risk can change substantially within a short period, as it is affected by each transaction subject to the relevant Master Agreement.

Master Repurchase Agreements and Global Master Repurchase Agreements (individually and collectively "Master Repo Agreements") govern repurchase, reverse repurchase, and sale-buyback transactions between the Funds and select counterparties. Master Repo Agreements maintain provisions for, among other things, initiation, income payments, events of default, and maintenance of collateral. The market value of transactions under the Master Repo Agreement, collateral pledged or received, and the net exposure by counterparty as of financial year end are disclosed in the Notes to Schedule of Investments.

Master Securities Forward Transaction Agreements ("Master Forward Agreements") govern certain forward settling transactions, such as To-Be-Announced securities, delayed-delivery or sale-buyback transactions by and between the Funds and select counterparties. The Master Forward Agreements maintain provisions for, among other things, initiation and confirmation, payment and transfer, events of default, termination, and maintenance of collateral. The market value of forward settling transactions, collateral pledged or received, and the net exposure by counterparty as of financial year end is disclosed in the Notes to Schedule of Investments.

International Swaps and Derivatives Association, Inc. Master Agreements and Credit Support Annexes ("ISDA Master Agreements") govern bilateral OTC derivative transactions entered into by the Funds with select counterparties. ISDA Master Agreements maintain provisions for general obligations, representations, agreements, collateral and events of default or termination. Events of termination include conditions that may entitle counterparties to elect to terminate early and cause settlement of all outstanding transactions under the applicable ISDA Master Agreement. Any

election to terminate early could be material to the financial statements. In limited circumstances, the ISDA Master Agreement may contain additional provisions that add counterparty protection beyond coverage of existing daily exposure if the counterparty has a decline in credit quality below a predefined level. These amounts, if any, may be segregated with a third party depositary. The fair value of OTC financial derivative instruments, collateral received or pledged, and net exposure by counterparty as of financial year end are disclosed in the Notes to Schedule of Investments.

The Investment Advisors conduct extensive research and analysis to identify and quantify credit risk within the Funds. Credit exposure within the Funds is reviewed frequently by the Investment Advisors to generate returns either through investments made or avoided. Securities are subject to varying degrees of credit risk, which are often reflected in credit ratings. The tables below summarise the credit rating composition for each of the Fund's Net Assets.

Substantially all of the Company's securities as of 31 December 2017 are held on a fiduciary basis by State Street Custodial Services (Ireland) Limited ("Depositary") (31 December 2016 held with Brown Brother Harriman Trustee Services (Ireland) Limited). These assets are held in segregated accounts of each Fund (in accordance with Central Bank UCITS Regulations), reducing the credit risk of holding the assets in safekeeping. The Company will however be exposed to the credit risk of a credit institution holding its deposits.

16. SHARE CAPITAL

(a) Authorised Shares

The authorised share capital of the Company is \in 38,092 divided into 30,000 subscriber shares at \in 1.27 each and 50,000,000,000 shares at no par value initially designated as unclassified shares.

(b) Subscriber Shares

All but seven of the original 30,000 subscriber shares have been redeemed. The subscriber shares do not form part of the NAV of the Company and are thus disclosed in the financial statements by way of this note only. In the opinion of the Board, this disclosure reflects the nature of the Company's business as an investment fund.

(c) Redeemable Participating Shares

The issued participating share capital is at all times equal to the NAV of the Funds. Redeemable participating shares are redeemable at the shareholders option and are classified as financial liabilities. The movement in the number of participating shares for the financial years ending 31 December 2017 and 31 December 2016 are as follows (amounts are in thousands):

17. NET ASSET VALUES

Each Fund's net assets attributable to redeemable participating shareholders, shares issued and outstanding and net asset value per share for the last three periods are as follows (amounts are in thousands, except per share amounts). Net Assets divided by Shares issued and outstanding may not equal the NAV per share due to rounding:

18. REGULATORY AND LITIGATION MATTERS

The Company is not named as a defendant in any material litigation or arbitration proceedings and is not aware of any material litigation or claim pending or threatened against it.

The foregoing speaks only as of the date of this report.

19. CREDIT FACILITY

The US High Yield Bond Fund and Global High Yield Bond Fund (the "Funds" and each a "Fund") entered into a syndicated amended and restated credit facility dated 29 September 2017 (the "Credit Agreement") between, amongst others, the Funds, certain lenders including The Bank of Tokyo-Mitsubishi UFJ, Ltd. ("BTUFJ") (as lenders) and BTUFJ (as agent and lead arranger). Each Fund is permitted to utilise the facility for temporary purposes to fund shareholder redemptions and other short-term liquidity purposes which are provided for in its investment policies.

The aggregate commitment available for utilisation by the Funds, is, subject to the terms of the Credit Agreement, \$421,000,000. The Funds, together with the other borrowers (together, the "Borrowers"), may, subject to the terms of the Credit Agreement, request an increase to the aggregate amount committed by the Lenders under the Credit Agreement of up to \$125,000,000. This increased commitment would be available for utilisation by the Borrowers in accordance with the terms of the Credit Agreement.

There are two rates of interest available under the Credit Agreement. Each Fund, when utilising a loan will elect which interest rate will apply to the relevant loan with the applicable interest rate being determined by reference to (i) the Alternate Base Rate or (ii) the Adjusted Offered Rate. The Alternate Base Rate is 1.125% above the Federal Funds Rate (as defined in the Credit Agreement) in effect on the relevant determination date. The interest rate determined by reference to the Adjusted Offered Rate is the sum of the Applicable Margin (being 1.125%) and the applicable Adjusted Offered Rate. The Adjusted Offered Rate applicable to any Interest Period (as defined in the Credit Agreement) is a rate per annum equal to the quotient obtained by dividing (a) the LIBOR Offered Rate (as defined in the Credit Agreement) by (b) 1.00 minus the Reserve Percentage (as defined in the Credit Agreement).

A loan which is subject to the Alternate Base Rate is, subject to the terms of the Credit Agreement, repayable within 60 days of drawdown. A loan which is subject to the Adjusted Offered Rate is, subject to the terms of the Credit Agreement, repayable on the last day of an applicable interest period (which can, subject to selection by a Fund, be a one week, one month or two month period).

All loans are provided on an unsecured basis and the recourse of the Lenders to the Funds are limited to the assets of the Funds.

As at 31 December 2017 and 31 December 2016, neither Fund had borrowings under the Credit Agreement.

20. SECURITIES FINANCING TRANSACTIONS REGULATION

Securities Financing Transactions Regulation ("SFTR") introduces reporting and disclosure requirements for securities financing transactions ("SFTs") and total return swaps. SFTs are specifically defined as per Article 3(11) of the SFTR as follows:

- a repurchase/reverse repurchase agreement
- securities or commodities lending/borrowing
- a buy-sellback or sell-buyback transactions
- a margin lending transaction

(a) Global Data and Concentration of SFT Counterparties

As at 31 December 2017 the Funds held the following types of SFTs and total return swaps:

- Repurchase Agreements
- Reverse Repurchase Agreements
- Sell-buyback Financing Transactions
- Buy-sellback Financing Transactions

The fair value of assets/(liabilities) across all SFTs and total return swaps as at 31 December 2017, grouped by SFT and the ten largest counterparties are as follows. If fewer than ten counterparties are used then all counterparties are detailed.

As at 31 December 2016 the Funds held the following types of SFTs and total return swaps:

- Repurchase Agreements

- Reverse Repurchase Agreements Buy-sellback Financing Transactions Sell-buyback Financing Transactions

The fair value of assets/(liabilities) across all SFTs and total return swaps as at 31 December 2016, grouped by SFT and the ten largest counterparties, are as follows. If fewer than ten counterparties are used then all counterparties are detailed.

The collateral market value for Repurchase Agreements does not include interest accrued.

Master Forward Agreements cover a combination of Buy-sellback Financing Transactions, Sale-buyback Financing Transactions and other financing transactions not included above. The total amount of the collateral received as at 31 December 2017 and 31 December 2016 for all transactions entered into under these Agreements is included above. It is not possible to separately analyse the collateral for each specific SFT.

iv) Data on Reuse of Collateral:

Securities received as collateral are not reused as of 31 December 2017 or 31 December 2016.

Cash collateral is received into the custody account for the Funds and therefore is not tracked specifically to determine if it is re-used. Therefore any cash collateral re-used cannot be reasonably verified.

Collateral received as at 31 December 2017 is held within the custodial network of State Street Bank and Trust.

v) Safekeeping of Collateral Granted:

The collateral pledged by the Funds as of 31 December 2017 and 31 December 2016 are held by the counterparties in accounts other than segregated or pooled accounts.

(c) Returns/Costs

The tables below detail the data on returns and costs for each type of SFT and total return swap for the financial years ended 31 December 2017 and 31 December 2016. Amounts are shown in the base currency of the Fund.

All returns from SFT derivative transactions will accrue to the Fund and are not subject to any returns sharing agreement with the Company's Manager or any other third parties.

For total return swaps transactions costs are not separately identifiable. For these investments, transaction costs are included in the purchase and sales price and are part of the gross investment performance of each Fund. Returns are identified as the realised gains and change in unrealised gains on the swap contract during the reporting period which are included within Net realised gain/(loss) on financial derivative instruments within the Statement of Operations.

21. SIGNIFICANT EVENTS

On 01 July 2017, State Street Fund Services (Ireland) Limited took over as Administrator and Company Secretary for the Company. The address and registered office of the Company changed to 78 Sir John Rogerson's Quay, Dublin, D02 HD32, Ireland with effect from 01 July 2017.

On 01 July 2017, State Street Custodial Services (Ireland) Limited took over as Depositary of the Company.

Other than the above, there were no other significant events during the financial year.

22. SUBSEQUENT EVENTS

John Bruton and Frances Ruane were appointed to the Board of Directors effective 28 February 2018.

The Manager made a subscription of US\$5,000,000 into the US Short-Term Fund, a sub-fund of PIMCO Funds: Global Investors Series plc, on 20 February 2018.

The Manager made a redemption of US\$2,000,000 from the US Short-Term Fund, a sub-fund of PIMCO Funds: Global Investors Series plc, on 20 April 2018.

Other than the above, there were no other subsequent events after the financial year end.

23. APPROVAL OF FINANCIAL STATEMENTS

The financial statements were approved by the Board on 24 April 2018.

Directors' Report

The Directors present to the shareholders their audited financial statements for the financial year ended 31 December 2017.

DIRECTORS' RESPONSIBILITIES

The Directors are responsible for preparing the annual report and the financial statements in accordance with applicable Irish Law and Generally Accepted Accounting Practice in Ireland including the accounting standards issued by the Financial Reporting Council and published by the Institute of Chartered Accountants in Ireland.

Under Irish law, the Directors shall not approve the financial statements unless they are satisfied that they give a true and fair view of the Company's assets, liabilities and financial position as at the end of the financial year and the profit or loss of the Company for the financial year.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departures from those standards being disclosed and explained in the notes to the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to:

- correctly record and explain the transactions of the Company;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy; and
- enable the Directors to ensure that the financial statements comply with the Companies Act 2014 and enable those financial statements to be audited.

The Directors are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

DIRECTORS' COMPLIANCE STATEMENT

It is the policy of the Company to comply with its relevant obligations (as defined in the Companies Act 2014). As required by Section 225(2) of the Companies Act 2014, the Directors acknowledge that they are responsible for securing the Company's compliance with the relevant obligations. The Directors have drawn up a compliance policy statement as defined in Section 225(3)(a) of the Companies Act 2014 and a compliance policy which refers to the arrangements and structures that are in place and which are, in the Directors' opinion, designed to secure material compliance with the Company's relevant obligations and have conducted a review during this financial year of any such arrangements or structures that have been put in place. In discharging their responsibilities under Section 225, the Directors relied upon, among other things, the services provided, advice and/or representations from third parties whom the Directors believe have the requisite knowledge and experience in order to secure material compliance with the Company's relevant obligations.

STATEMENT OF RELEVANT AUDIT INFORMATION

The Directors in office at the date of this report have each confirmed that:

- As far as he/she is aware, there is no relevant audit information of which the Company's auditor is unaware; and
- He/she has taken all the steps that he/she ought to have taken as a director in order to make himself/herself aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

RESULTS, ACTIVITIES AND FUTURE DEVELOPMENTS

The results of operations and dividends declared are set out on the Statement of Operations on pages 90 through 109. A review of the Funds' investment performance and portfolio insights is contained on pages 7 through 64.

RISK MANAGEMENT OBJECTIVES AND POLICIES

Details of the financial risk management objectives and policies of the Company, and the exposure of the Company to market price risk, foreign currency risk, interest rate risk, liquidity risk and credit and counterparty risk are set out in note 15 in the Notes to Financial Statements.

SIGNIFICANT EVENTS

On 01 July 2017, State Street Fund Services (Ireland) Limited took over as Administrator and Company Secretary for the Company. The address and registered office of the Company changed to 78 Sir John Rogerson's Quay, Dublin, D02 HD32, Ireland with effect from 01 July 2017.

On 01 July 2017, State Street Custodial Services (Ireland) Limited took over as Depositary of the Company.

Other than the above, there were no other significant events during the financial year.

POST BALANCE SHEET EVENTS

Frances Ruane and John Bruton were appointed to the Board of Directors effective 28 February 2018.

Other than the above, there were no other subsequent events after the financial year end.

ACCOUNTING RECORDS

The measures taken by the Directors to secure compliance with the Company's obligation to keep adequate accounting records are the use of appropriate systems and procedures and employment of competent persons. The accounting records are kept at State Street Fund Services (Ireland) Limited, 78 Sir John Rogerson's Quay, Dublin D02 HD32, Ireland.

CORPORATE GOVERNANCE STATEMENT

The Company is subject to and complies with Irish statute comprising the Companies Act 2014 and with the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), as may be amended (the "UCITS Regulations"), and the Global Exchange Market Rules for Investment Funds of the Irish Stock Exchange, trading as Euronext Dublin. The Board of Directors (the "Board") have assessed the measures included in the voluntary Corporate Governance Code for Collective Investment Schemes and Management Companies, as published by the Irish Fund Industry Association in December 2011 (the "IFIA Code"). The Board has adopted all corporate governance practices and procedures of the IFIA Code.

The Board has assessed the measures included in the IFIA Code as being consistent with its corporate governance practices and procedures for the financial year. Each of the service providers engaged by the Company is subject to their own corporate governance requirements.

Financial Reporting Process — description of main features
The Board is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of failure to achieve the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board has established processes regarding internal control and risk management systems to ensure its effective oversight of the financial reporting process. These include appointing the Administrator State Street Fund Administration Services (Ireland) Limited (Brown Brothers Harriman Fund Administration Services (Ireland) Limited up to 30 June 2017), to maintain the books and records. The Administrator is authorised and regulated by the Central Bank and must comply with the rules imposed by the Central Bank. The Administrator is also contractually obliged to prepare for review and approval by the Board the annual report including financial statements intended to give a true and fair view and the half yearly financial statements.

Directors' Report (Cont.)

The Board evaluates and discusses significant accounting and reporting issues as the need arises. From time to time the Board also examines and evaluates the Administrator's financial accounting and reporting routines and monitors and evaluates the external auditors' performance, qualifications and independence. The Administrator has operating responsibility in respect of its internal controls in relation to the financial reporting process and the Administrator's report to the Board.

Risk Assessment

The Board is responsible for assessing the risk of irregularities whether caused by fraud or error in financial reporting and ensuring the processes are in place for the timely identification of internal and external matters with a potential effect on financial reporting. The Board has also put in place processes to identify changes in accounting rules and recommendations and to ensure that these changes are accurately reflected in the Company's financial statements.

Control Activities

The Administrator maintains control structures to manage the risks over financial reporting. These control structures include appropriate division of responsibilities and specific control activities aimed at detecting or preventing the risk of significant deficiencies in financial reporting for every significant account in the financial statements and the related notes in the Company's annual report. Examples of control activities exercised by the Administrator include analytical review procedures, reconciliations and automated controls over IT systems. The method of valuing securities and other assets when prices are not available from external independent sources is detailed in note 3.

Information and Communication

The Company's policies and the Board's instructions with relevance for financial reporting are updated and communicated via appropriate channels, such as e-mail, correspondence and meetings to ensure that all financial reporting information requirements are met in a complete and accurate manner.

Monitoring

The Board receives regular presentations and reviews reports from the Depositary, Investment Advisors and Administrator. The Board also has an annual process to ensure that appropriate measures are taken to consider and address the shortcomings identified and measures recommended by the independent auditors.

Capital Structure

No person has a significant direct or indirect holding of securities in the Company. No person has any special rights of control over the Company's share capital.

There are no restrictions on voting rights.

Powers of the Directors

With regard to the appointment and replacement of Directors, the Company is governed by its Articles of Association, Irish statute comprising the Companies Act 2014 and with the UCITS Regulations and the Global Exchange Market Rules for Investment Funds of the Irish Stock Exchange, trading as Euronext Dublin. The Articles of Association themselves may be amended by special resolution of the shareholders.

The Board is responsible for managing the business affairs of the Company in accordance with the Articles of Association. The Directors may delegate certain functions to the Administrator and other parties, subject to the supervision and direction by the Directors. The Directors have delegated the day to day administration of the Company to the Administrator and the investment management and distribution functions to the Investment Advisors. Consequently none of the Directors is an executive Director.

The Articles of Association provide that the Directors may exercise all the powers of the Company to borrow money, to mortgage or charge its undertaking, property or any part thereof and may delegate these powers to the Investment Advisors.

The Directors may, at any time and from time to time temporarily suspend the calculation of the Net Asset Value of a particular Fund and the issue, repurchase and conversion of Shares in any of the following instances:

- (a) during any period (other than ordinary holiday or customary weekend closings) when any market or Recognised Exchange is closed and which is the main market or Recognised Exchange for a significant part of investments of the relevant Fund, or in which trading thereon is restricted or suspended;
- (b) during any period when an emergency exists as a result of which disposal by the Company of investments which constitute a substantial portion of the assets of the relevant class is not practically feasible; or it is not possible to transfer monies involved in the acquisition or disposition of investments at normal rates of exchange; or it is not practically feasible for the Directors or their delegate fairly to determine the value of any assets of the relevant Fund;
- (c) during any breakdown in the means of communication normally employed in determining the price of any of the investments of the relevant Fund or of current prices on any market or Recognised Exchange;
- (d) when for any reason the prices of any investments of the relevant class cannot be reasonably, promptly or accurately ascertained;
- (e) during any period when remittance of monies which will or may be involved in the realisation of or in the payment for any of the investments of the relevant class cannot, in the opinion of the Directors, be carried out at normal rates of exchange;
- (f) for the purpose of winding up the Company or terminating any Fund; or
- (g) if any other reason makes it impossible or impracticable to determine the value of a substantial portion of the investments of the Company or any Fund.

Notice of any such suspension and notice of the termination of any such suspension shall be given immediately to the Central Bank and to the Irish Stock Exchange and will be notified to applicants for Shares or to Shareholders requesting the repurchase of Shares at the time of application or filing of the written request for such repurchase. Where possible, all reasonable steps will be taken to bring any period of suspension to an end as soon as possible.

Registered Shares may be transferred by instrument in writing. The instrument of transfer must be accompanied by a certificate from the transferee that it is not acquiring such Shares on behalf of or for the benefit of a US Person. In the case of the death of one of joint Shareholders, the survivor or survivors will be the only person or persons recognised by the Administrator as having any title to or interest in the Shares registered in the names of such joint Shareholders. The Directors may decline to register a transfer if they are aware or reasonably believe the transfer would result in the beneficial ownership of Shares by a person in contravention of any restrictions on ownership imposed by the Directors or might result in legal, regulatory, pecuniary, taxation or material administrative disadvantage to the relevant Fund or Shareholders generally.

Shareholder Meetings

The Annual General Meeting of the Company will usually be held in Dublin, normally during the month of September or such other date as the Directors may determine. Notice convening the Annual General Meeting in each year at which the audited financial statements of the Company will be presented (together with the Directors' and Auditors' Reports of the Company) will be sent to Shareholders at their registered addresses not less than 21 clear days before the date fixed for the meeting. Other general meetings may be convened from time to time by the Directors in such manner as provided by Irish law.

Each of the shares entitles the holder to attend and vote at meetings of the Company and of the Fund represented by those shares. Matters may be determined by a meeting of shareholders on a show of hands unless a poll is requested by any shareholder having the right to vote at the meeting or unless the chairman of the meeting requests a poll. Each shareholder has one vote on a show of hands. Each share gives the holder one vote in relation to any matters relating to the Company which are submitted to shareholders for a vote by poll.

No class of shares confers on the holder thereof any preferential or pre-emptive rights or any rights to participate in the profits and dividends of any other share class or any voting rights in relation to matters relating solely to any other share class.

Any resolution to alter the class rights of the shares requires the approval of three quarters of the holders of the shares represented or present and voting at a general meeting of the class. The quorum for any general meeting of the class convened to consider any alteration to the class rights of the shares shall be such number of shareholders being two or more persons whose holdings comprise one third of the shares.

Each of the shares other than subscriber shares entitles the shareholder to participate equally on a pro-rata basis in the dividends and net assets of the Fund in respect of which the shares have been issued, save in the case of dividends declared prior to becoming a shareholder.

Management shares entitle the shareholders holding them to attend and vote at all general meetings of the Company but do not entitle the holders to participate in the dividends or net assets of the Company.

Composition and Operation of Board and Committees

There are seven Directors currently, all of whom are non-executive Directors and four of whom are independent of the Investment Advisors as required by the Global Exchange Market Rules for Investment Funds of the Irish Stock Exchange, trading as Euronext Dublin. The Directors may be removed by the shareholders by ordinary resolution in accordance with the procedures established under the Irish Companies Act 2014. The Board of Directors meets at least quarterly. The Board has an audit committee consisting of two Independent Directors which met five times during the financial year under review.

CONNECTED PERSONS TRANSACTIONS

Transactions carried out with the Manager or depositary to a UCITS; and the delegates or sub-delegates of such a Manager or depositary (excluding any non-group company sub-custodians appointed by a depositary); and any associated or group company of such a Manager, depositary, delegate or sub-delegate ("connected persons") must be carried out as if negotiated at arm's length and only when in best interests of the shareholders. The Directors are satisfied that there are arrangements (evidenced by written procedures) in place to ensure that connected party transactions are carried out as described above and that they have been complied with during the financial year.

DIRECTORS

The Directors who held office during the financial year ended 31 December 2017 were:

V. Mangala Ananthanarayanan — appointed 30 June 2016 Ryan P. Blute — appointed 30 May 2014 Craig A. Dawson — appointed 6 May 2009 David M. Kennedy — appointed 16 April 1999 Michael J. Meagher — appointed 10 December 1997

The following Independent Directors were appointed after the financial year end date:

John Bruton — appointed 28 February 2018 Frances Ruane — appointed 28 February 2018

The Articles of Association do not provide for the retirement of Directors by rotation.

SECRETARY

Brown Brothers Harriman Fund Administration Services (Ireland) Limited held the office of Secretary up to 30 June 2017. State Street Fund Administration (Ireland) Limited held the office of Secretary from 01 July 2017 to the financial year ended 31 December 2017.

DIRECTORS' AND SECRETARY'S INTERESTS IN SHARES AND CONTRACTS

At 31 December 2017, V. Mangala Ananthanarayanan held 8,758.00 (31 December 2016: Nil) shares of the Dynamic Multi-Asset Fund, 7,239.00 (31 December 2016: Nil) shares of the Global Investment Grade Credit Fund and 18,801.00 (31 December 2016: Nil) shares of the Income Fund, all are Funds of the Company.

At 31 December 2017, David M. Kennedy held 6,033.93 (31 December 2016: 6,412.93) shares of the Emerging Markets Bond Fund and 16,786.79 (31 December 2016: 16,786.79) shares of the Global Multi-Asset Fund, both are Funds of the Company.

At 31 December 2017, Michael J. Meagher held 2,218.88 (31 December 2016: Nil) shares of the Global Low Duration Real Return Fund, which is a Fund of the Company.

The Secretary held no interest in the shares of the Company during the financial year ended 31 December 2017.

None of the Directors have a service contract with the Company.

LEGAL ADVISOR AS TO IRISH LAW

Dillon Eustace was Legal Advisor (as to Irish Law) to the Company during the financial year ended 31 December 2017.

INDEPENDENT AUDITORS

The Independent Auditors, PricewaterhouseCoopers, have indicated their willingness to continue in office in accordance with section 383 of the Companies Act 2014.

On behalf of the Board of Directors

Director: Craig A. Dawson

Director: David M. Kennedy

Date: 24 April 2018

Independent auditors' report to the members of PIMCO Funds: Global Investors Series plc

Report on the audit of the financial statements

Opinion

In our opinion, PIMCO Funds: Global Investors Series plc's financial statements:

- give a true and fair view of the Company's and Funds' assets, liabilities and financial position as at 31 December 2017 and of their results for the year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and promulgated by the Institute of Chartered Accountants in Ireland and Irish law); and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report, which comprise:

- the Statement of Assets and Liabilities as at 31 December 2017;
- the Statement of Operations for the year then ended;
- the Statement of Changes in Net Assets for the year then ended;
- the Schedule of Investments for each of the Funds as at 31 December 2017; and
- the notes to the financial statements for the Company and for each of its Funds, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard as applicable to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Our audit approach

Overview

Materiality

 Overall materiality: 50 basis points of Net Asset Value ("NAV") at 31 December 2017 for each of the Company's Funds.

Audit scope

• The Company is an open-ended investment Company with variable capital and engages PIMCO Global Advisors (Ireland) Limited (the "Manager") to manage certain duties and responsibilities with regards to the day-to-day management of the Company. We tailored the scope of our audit taking into account the types of investments within the Funds, the involvement of the third parties referred to overleaf, the accounting processes and controls, and the industry in which the Company operates. We look at each of the Funds at an individual level and in aggregate.

Key audit matters

- Valuation of financial assets at fair value through profit or loss.
- · Existence of financial assets at fair value through profit or loss.

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the Directors made subjective judgements, for example the selection of pricing sources to value the investment portfolio. As in all of our audits, we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the Directors that represented a risk of material misstatement due to fraud.

Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

Key audit matter	How our audit addressed the key audit matter
Valuation of financial assets at fair value through profit or loss The transferable securities included on the Statement of Assets and Liabilities of the Funds at 31 December 2017 are valued at fair value in line with Generally Accepted Accounting Practice in Ireland. We focused on this area because it represents the principal element of the financial statements.	We tested the investment portfolio by independently agreeing the valuation of transferable securities held at 31 December 2017 to third party vendor sources and counterparty valuations. No material misstatements were identified from the performance of these procedures.
Existence of financial assets at fair value through profit or loss The transferable securities included on the Statement of Assets and Liabilities of the Funds are held in the Funds' names at 31 December 2017. We focused on this area because it represents the principal element of the financial statements.	We obtained independent confirmations from the Depositary and counterparties of the holdings of transferable securities as at 31 December 2017. We reconciled the holdings per the confirmations to the holdings per accounting records and a sample of reconciling items noted were tested to underlying supporting documentation. No material misstatements were identified from the performance of these procedures.

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the Company, the accounting processes and controls, and the industry in which it operates.

As at 31 December 2017 there are 53 Funds operating. The Company's Statement of Assets and Liabilities, Statement of Operations, and Statement of Changes in Net Assets are all reported individually and in aggregate.

The Directors control the affairs of the Company and are responsible for the overall investment policy which is determined by the various related Investment Advisors appointed by them. The Company engages the Manager to manage certain duties and responsibilities with regards to the day to day management of the Company. The Manager has delegated certain responsibilities to State Street Fund Services (Ireland) Limited (the 'Administrator'), (previously Brown Brothers Harriman Fund Administration Services (Ireland) Limited for the period of January 2017 through 30 June 2017). The financial statements, which remain the responsibility of the Directors, are prepared on their behalf by the Administrator. The Company has appointed State Street Custodial Services (Ireland) Limited (the "Depositary"), (previously Brown Brothers Harriman Trustee Services (Ireland) Limited for the period of January 2017 through 30 June 2017), to act as Depositary of the Company's assets. In establishing the overall approach to our audit we assessed the risk of material misstatement at a Fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the Company's interaction with the aforementioned administrators, and we assessed the control environment in place at the administrators.

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements of each of the Company's Funds as follows:

Overall materiality and how we determined it	50 basis points (2016: 50 basis points) of Net Asset Value ("NAV") at 31 December 2017 for each of the Company's Funds.
Rationale for benchmark applied	We have applied this benchmark because the main objective of the Company is to provide investors with a total return at a Fund level, taking account of the capital and income returns.

Independent Auditors' Report (Cont.)

We agreed with the Board of Directors that we would report to them misstatements identified during our audit above 5 basis points of each Fund's NAV, for NAV per share impacting differences (2016: 5 basis points of each Fund's NAV, for NAV per share impacting differences) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (Ireland) require us to report to you where:

- the Directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the Directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Company's and Funds' ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Company's and Funds' ability to continue as going concerns.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The Directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for
 the year ended 31 December 2017 is consistent with the financial statements and has been prepared in accordance with
 applicable legal requirements
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the Directors for the financial statements

As explained more fully in the Directors' Responsibilities on page 799, the Directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The Directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Company's and Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.

This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2014 opinions on other matters

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

Companies Act 2014 exception reporting

Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of Directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Felt o'Comell

Jonathan O'Connell for and on behalf of PricewaterhouseCoopers Chartered Accountants and Statutory Audit Firm Dublin 24 April 2018

Brown Brothers Harriman Trustee Services (Ireland) Limited Depositary's Report

We have enquired into the conduct of PIMCO Funds: Global Investors Series plc (the "Company") for the financial period from 1 January 2017 to 30 June 2017, in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, ('the UCITS Regulations'), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

RESPONSIBILITIES OF THE DEPOSITARY

Our duties and responsibilities are outlined in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's Memorandum and Articles of Association and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

BASIS OF DEPOSITARY OPINION

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the constitutional documentation and the appropriate regulations and (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

OPINION

In our opinion, the Company has been managed during the period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015 ('the Central Bank UCITS Regulations'); and
- (ii) otherwise in accordance with the provisions of the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations.

Brown Brothers Harriman Trustee Services (Ireland) Limited

30 Herbert Street Dublin 2

Ireland

Date: 24 April 2018

State Street Custodial Services (Ireland) Limited Depositary's Report

We have enquired into the conduct of PIMCO Funds: Global Investors Series plc (the "Company") for the financial period from 1 July 2017 to 31 December 2017, in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, ('the UCITS Regulations'), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

RESPONSIBILITIES OF THE DEPOSITARY

Our duties and responsibilities are outlined in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's Memorandum and Articles of Association and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

BASIS OF DEPOSITARY OPINION

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the constitutional documentation and the appropriate regulations and (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

OPINION

In our opinion, the Company has been managed during the period, in all material respects:

- (i) In accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015 ('the Central Bank UCITS Regulations'); and
- (ii) otherwise in accordance with the provisions of the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations.

State Street Custodial Services (Ireland) Limited, 78 Sir John Rogerson's Quay,

Dublin D02 HD32 Ireland

Date: 24 April 2018

PIMCO Global Advisors (Ireland) Limited (the "Manager"), in accordance with its obligations under Directive 2009/65/EC, as amended (the "UCITS Directive") is required to have remuneration policies and practices for those categories of staff, including senior management, risk takers, control functions, and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risktakers, whose professional activities have a material impact on the risk profiles of the Manager or any Undertakings for Collective Investment in Transferable Securities ("UCITS") under management, that are consistent with and promote sound and effective risk management and do not encourage risktaking which is inconsistent with the risk profiles, rules or instruments of incorporation of the Manager or PIMCO Funds: Global Investors Series plc (The "Company").

Details of the remuneration in respect of the financial year ending 31 December 2017 which is paid by the Company to its staff are set out below:

The Manager has no employees. The Manager has a Board of Directors, three of whom are employees of the PIMCO group and receive no remuneration from the Manager. The remaining two directors, both of whom are independent, receive a fixed fee only (for the year ended 31 December 2017; € 120,000 (31 December 2016; € 120,000) in aggregate) and do not receive variable remuneration. These fees are set at a level that is on par with the rest of the market and reflects the qualifications and contribution required in view of the Manager and the Company's complexity, the extent of the responsibilities and the number of board meetings. No pension contributions are payable on the fees paid by the Manager to the Directors.
