The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Allspring (Lux) Worldwide Fund - U.S. All Cap Growth Fund,

a sub-fund of Allspring (Lux) Worldwide Fund

Class I (CHF) Shares - acc. (hedged) (LU1241943775)

Management Company: Allspring Global Investments Luxembourg S.A.

Objectives and Investment Policy

The fund seeks long-term capital appreciation by investing at least two-thirds of its total assets in equity securities of U.S. companies of any size, and up to 25% of its total assets in equity securities of non-U.S. issuers through ADRs, CDRs, EDRs, GDRs, IDRs and similar depository receipts as well as U.S. dollar-denominated equity securities of non-U.S. issuers. U.S. equity securities are securities issued by companies with their principal office in the United States or exercising a predominant part of their economic activities in the United States. The fund promotes environmental and social characteristics but does not have a sustainable investment objective.

The fund may invest in any sector, and at times it may emphasise one or more particular sectors. The fund may use futures, forward contracts, options or swap agreements, as well as other derivatives, for hedging or efficient portfolio management purposes.

The fund invests principally in equity securities that it believes have prospects for robust and sustainable growth of revenues and earnings using a bottom-up research-driven approach to select securities.

Through the use of a negative screening process, the fund seeks to exclude certain securities in accordance with its exclusion policy. A copy of the methodology and list of excluded investments (including the revenue thresholds) is available under allspringglobal.com. Shareholders may also request a copy from the fund or the Management Company.

When selecting securities for the portfolio, the fund believes strong ESG policies and practices contribute to a company's long-term sustainability of growth, a core tenet of its investment process that focuses on companies with robust, sustainable, and underappreciated growth. Rather than favoring only companies that are perceived as strong ESG performers, the fund also looks for companies with underappreciated ESG characteristics that can drive future growth consistent with its forward-looking expectations. The fund promotes and influences a company's ESG trajectory through engagement.

This share class does not distribute dividends. Income is reinvested in the fund.

This share class will seek to be 100% hedged to USD, however it may not be possible to always hedge the class 100% against fluctuations of the reference currency.

You may sell your shares on each business day when banks in Luxembourg are open for normal business and the New York Stock Exchange is open for trading (a "Business Day").

The fund is actively managed but uses the Russell 3000® Growth Index for performance comparison. The investments of the fund may deviate significantly from the components of and their respective weightings in the benchmark.

Risk and Reward Profile

This rating system is based on the volatility of the fund's returns over the past 5 years, using returns from a comparable existing share class for the periods in which the share class was not operational. Please note past returns may not be a reliable indicator of the future risk and reward profile of the fund; the rating may change over time based on future returns; and category 1 does not mean a risk-free investment.

Lower Risk

< Typically Lower Rewards

Higher Risk

Typically Higher Rewards >

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The class is in category 6 because the average amount returns varied each year over the past 5 years was equal to or above 15.0% and less than 25.0%.

The following additional risks may impact the fund's returns:

Counter-Party Risk - The fund may incur a loss if the other party to an investment contract, such as a repurchase or reverse repurchase agreement or certain derivative contracts, fails to fulfill its contractual obligation to the fund.

Derivatives Risk - The use of derivatives, such as futures, options and swap agreements, can lead to losses, including those magnified by leverage, particularly when derivatives are used to enhance return rather than offset risk. In addition, there may be an absence of a liquid market for any particular instrument at any particular time.

Market Risk - The market price of securities owned by the fund may go up or down, sometimes rapidly or unpredictably. A security may decline in value due to factors affecting the issuer or securities markets generally or particular industries represented in the securities markets.

Smaller Company Securities Risk - Securities of companies with smaller market capitalizations tend to be more volatile and less liquid than larger company stocks.

The fund may not achieve its objective and/or you could lose money on your investment in the fund. For more information about the fund's risks, please see "Investment Objectives and Policies" and "Risk Warnings" in the prospectus, which is available at allspringglobal.com.

Charges for this Fund

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested.	

Charges taken from the fund over a year	
Ongoing Charges	0.95%
Charges taken from the fund under certain specific conditions	
Performance Fee	None

The **entry** and **exit charges** shown are the highest possible charges you would pay. Please consult your advisor or distributor to find out your actual charges, which might be less. The **ongoing charges** figure is based on the expenses for the period ending October 2021. **Ongoing charges** may vary from year to year. The **ongoing charges** do not include the portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

For more information about the fund's charges, please see "Fees and Expenses" in the prospectus.

Past Performance

Past performance is not a guide to future performance. Performance calculations are based on the net asset value, include ongoing charges but exclude entry and exit charges, if any, and are calculated in CHF with income reinvested. The base currency of the fund is USD.

Fund launch date: 2008. Share Class launch date: 2015.

This share class ceased operations on 21 September 2017. Performance during the period in which the share class was not in operation is based upon the performance of a similar share class.

The chart shows performance against the Russell 3000® Growth Index (USD). The fund does not track the index.
