---	---	---	---	---	---	---

The definition of the risk and reward category is based on the historical performance data and/or the risk limit indicated in the Sub-Fund's investment policy.

It may not be a reliable indication of the future risk profile of the Sub-Fund.

The risk and reward category shown may change over time. Category 1 does not mean that an investment is risk-free.

Significant risks not taken into account in this indicator:

Credit Risk: When a significant level of investment is made in debt securities.

Liquidity Risk: The markets for some securities and instruments may have limited liquidity. This limited liquidity could be a disadvantage to the Sub-Fund, both in the realisation of the prices quoted and in the execution of orders at desired prices.

Impact of techniques such as derivative contracts: The use of derivatives instruments can infer a decrease of the asset more significant than the decrease of the invested underlying assets or markets.
