2. Accounting Policies

The financial statements of the Company have been prepared according to accounting principles generally accepted in Luxembourg and applicable for investment funds. The significant accounting policies used detail as follows:

a) Valuation of investments

The Net Asset Value ("NAV") of Sub-Funds shall be determined in accordance with the following rules:

- (i) The value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is determined after making such discount as may be considered appropriate in such case to reflect the true value thereof.
- (ii) Contracts for difference (CFD) and credit default swaps (CDS) are valued at market value established by reference to the underlying financial instrument.
- (iii) The value of all securities which are listed or traded on an official stock exchange or traded on any other Regulated Market are valued on the basis of their last available prices on the Business Day immediately preceding the Valuation Day or on the basis of the last available prices on the main market on which the investments of the Sub-Funds are principally traded. The Board of Directors will approve a pricing service which will supply the above prices. If, in the opinion of the Board of Directors, such prices do not truly reflect the fair market value of the relevant securities, the value of such securities will be determined in good faith by the Board of Directors either by reference to any other publicly available source or by reference to such other sources as it deems in its discretion appropriate.
- (iv) Securities not listed or traded on a stock exchange or a Regulated Market are valued on the basis of the probable sales price determined prudently and in good faith by the Board of Directors.
- (v) Securities issued by open-ended investment funds are valued at their last available NAV or in accordance with item (iii) above where such securities are listed.
- (vi) The liquidating value of futures, forward or options contracts that are not traded on exchanges or on other organised markets shall be determined pursuant to the policies established by the Board of Directors, on a basis consistently applied. The liquidating value of futures, forward or options contracts traded on exchanges or on other organised markets shall be based upon the last available settlement prices of these contracts on exchanges and organised markets on which the particular futures, forward or options contracts are traded; provided that if a futures, forward or options contract could not be liquidated on such Business Day with respect to which a NAV is being determined, then the basis for determining the liquidating value of such contract is such value as the Board of Directors may deem fair and reasonable.
- (vii) Liquid assets and money market instruments may be valued at nominal value plus any accrued interest or using an amortised cost method. This amortised cost method may result in periods during which the value deviates from the price the relevant Sub-Fund would receive if it sold the investment. The Management Company may, from time to time, assess this method of valuation and recommend changes, where necessary, to ensure that such assets will be valued at their fair value as determined in good faith pursuant to procedures established by the Board of Directors. If the Board of Directors believes that a deviation from the amortised cost per Share may result in material dilution or other unfair results to Shareholders, the Board of Directors shall take such corrective action, if any, as it deems appropriate, to eliminate or reduce, to the extent reasonably practicable, the dilution or unfair results.
- (viii) The swap transactions will be valued on a consistent basis based on valuations to be received from the Swap Counterparty which may be bid, offer or mid prices as determined in good faith pursuant to procedures established by the Board of Directors. If, in the opinion of the Board of Directors, such values do not reflect the fair market value of the relevant swap transactions, the value of such swap transactions will be determined in good faith by the Board of Directors or by such other method as it deems in its discretion appropriate.

3. Taxation

Under current law and practice, the Company is not liable to any Luxembourg income tax.

The Company is, however, liable in Luxembourg to a subscription tax ("*Taxe d'Abonnement*") of 0.05 per cent per annum in respect of Shares of Class "R" and of 0.01 per cent per annum in respect of Shares of Class "I" in accordance with Article 174 of the Law.

Investments by a Sub-Fund in shares or units of another Luxembourg undertaking for collective investment are excluded from the Net Asset Value of the Sub-Fund serving as basis for the calculation of the *Taxe d'Abonnement* payable by that Sub-Fund.

Sub-Funds that comply with the following conditions are also exempt from the *Taxe d'Abonnement*: (i) the Sub-Fund's Shares are reserved for Institutional Investors and, (ii) the exclusive objective is the collective investment in money market instruments or deposits with credit institutions and, (iii) the weighted residual portfolio maturity does not exceed 90 days and (iv) the Sub-Fund has obtained the highest possible ranking by a recognised rating agency. In case of several Share Classes within a Sub-Fund, the exemption only applies to the Share Classes whose Shares are reserved for Institutional Investors.

The *Taxe d'Abonnement* is payable quarterly on the basis of the Net Asset Value of the Sub-Fund at the end of the relevant calendar quarter. The benefit of the 0.01 per cent *Taxe d'Abonnement* is available to Shares of Class "I" on the basis of the Luxembourg legal, regulatory and tax provisions as these are known to the Company at the time of admission of an investor in such Classes of Shares. Such assessment is subject to such changes in the laws and regulations of Luxembourg and to such interpretation on the status of an eligible investor in the Shares of Class "I" by any competent Luxembourg authority as will exist from time to time. Any such reclassification made by an authority as to the status of an investor may submit the entire class to a *Taxe d'Abonnement* at the rate of 0.05 per cent per annum.

No stamp or other tax will be payable in Luxembourg in connection with the issue of Shares by the Company.

Under current law and practice in Luxembourg, no capital gains tax is payable on the realised capital appreciation of the assets of the Company and no tax is payable on the investment income received in respect of the assets. Investment income for dividends and interest received by the Company may however be subject to withholding taxes in the country of origin at varying rates. Such withholding taxes are not recoverable.

Under the Belgian Finance Act of 22 December 2003, a 0.06% yearly tax was applied on all money originating from Belgium included in the Company at 31 December of the prior year. This tax rate has been increased to 0.07% in 2005, to 0.08% in 2007, to 0.0965% in 2013 and decreased to 0.0925% from 2014 onwards.

4. Management Company Fee

In accordance with and subject to the terms of the Management Company Agreement, the annual Management Company Fee is accrued on each calendar day and is calculated on each Valuation Day on the basis of a percentage of (i) the last available Net Asset Value / Gross Asset Value of each Sub-Fund or Class of Shares or (ii) the Initial Issue Price multiplied by the number of outstanding Shares of each Sub-Fund or Class of Shares (as indicated for each Sub-Fund or Class of Shares in the relevant Product Annex). The Management Company Fee is payable monthly. The Management Company is also entitled to receive reimbursements for any reasonable expenses that were made in its capacity as management company of the Company in the context of the execution of the Management Company Agreement and that were not reasonably foreseeable in the ordinary course of business.

17. Soft Commissions

Soft commission arrangements were entered into by the Investment Managers as follows:

No soft commission arrangements were entered into by the Management Company, MidOcean Credit Fund Management L.P., State Street Global Advisors Limited, Quantica Capital AG or DWS Investment S.A. with brokers during the period with respect to the Company.

18. Pre-Hedging

Sub-Funds to which a Maturity Date is designated will follow an investment strategy that aims at providing investors with one or more predefined payout(s) upon maturity of the Sub-Fund. The predefined payout(s) may be either relating to minimum payout(s) or to fixed payout(s).

The ability to provide investors with such a predefined payout is dependent upon a number of parameters, including certain market movements between the determination of the payout upon the inception of the Sub-Fund and the moment the Sub-Fund or one of its particular Share Classes is launched.

In order to avoid any adverse effect of such market movements, the Sub-Fund intends to take pre-hedging arrangements to the extent and size required to deliver the pre-defined payout and in accordance with the Investment Restrictions.

The cost per Share of such pre-hedging transactions will be equal to the difference between the Initial Issue Price per Share and the value per Share of the Sub-Fund's portfolio (or in the case of the launch of new Class, the value per Share of the Sub-Fund's portfolio attributable to such Class) (including such pre-hedging transactions) at the Launch Date.

This cost (the "Pre-Hedging Costs") represents the cost of the Swap Counterparty bearing the market risk of entering into such pre-hedging arrangements prior to the Launch Date. Such Pre-Hedging Costs will be accounted for in the relevant OTC Swap Transaction(s) and accordingly in determining the NAV per Share. Therefore, such Pre-Hedging Costs will, when positive, be borne by investors upon subscription. In the event that the value per Share of the Sub-Fund's portfolio at the Launch Date is higher than the Initial Issue Price per Share, the Pre-Hedging Costs will be negative and the Swap Counterparty will bear such negative Pre-Hedging Costs.

The Pre-Hedging Costs as determined above may continue to be borne by new investors in the Sub-Fund, or Class of Shares, as applicable, for a period after the Launch Date, in order to avoid any dilution of the investments made by the investors who invested into the Sub-Fund on or during such period after the Launch Date. Such period will be agreed by the Swap Counterparty and the Management Company on or about the Launch Date and shall expire no later than one year after the Launch date.

After such period of time, the Pre-Hedging Costs will be either written off or accrued, as appropriate, over a predefined period of time, unless otherwise specified in the Sub-Fund's Product Annex.

This note is not applicable for this financial period.

B) Determination of the Global Exposure

For the Sub-Funds listed below, the Value-at-Risk (VaR) approach is used. The VaR represents the maximum loss not exceeded with a given probability defined as the confidence level, over a given period of time to monitor the global exposure relating to derivative instruments.

The minimum, maximum and average VaR levels during the year are as follows:
