

DEGROOF PETERCAM ASSET MANAGEMENT

DPAM Bonds L

Prospectus

October 2021

SICAV with an umbrella structure incorporated under Luxembourg law

Subscriptions may only be made on the basis of this prospectus ("the Prospectus") including the fact sheets for each of the sub-funds and on the basis of the key investor information ("Key Information"). The Prospectus may only be distributed if accompanied by the latest annual report and the latest half-yearly report if the latter is more recent than the annual report.

The fact that the SICAV is listed on the official list drawn up by the Commission de Surveillance du Secteur Financier ("CSSF") should not, under any circumstances or in any way whatsoever, be considered as a positive appraisal by the CSSF as to the quality of the shares offered for subscription.

No person is authorised to give any information if it is not contained in this Prospectus and in these articles of association as well as the documents referred to therein.

NOTICE

DPAM Bonds L (hereinafter the "SICAV") is a société d'investissement à capital variable umbrella fund under Luxembourg law, which is subject to the Law of 2010.

The SICAV is listed on the official list of UCIs in accordance with the Law of 2010 and is subject to Part I of that Law. This listing should not, under any circumstances or in any way whatsoever, be considered as a positive appraisal by the Commission de Surveillance du Secteur Financier ("CSSF") of the contents of this Prospectus or as to the quality of the shares offered and held by the SICAV. Any statement to the contrary would be unauthorised and illegal.

The Board of Directors of the SICAV (hereinafter the "Board of Directors") has taken all necessary precautions to ensure that the facts set out in the Prospectus are accurate and precise and that there were no material facts whose omission may render inaccurate any of the statements referred to herein.

The Board of Directors accepts responsibility for the accuracy of the information contained in the Prospectus as at the date of its publication. Accordingly, any information or statement not contained in the Prospectus, in the appendices to the Prospectus, if any, in the key investor information documents (the "KIID") or in the annual and half-yearly reports that form an integral part of it, should be regarded as unauthorised.

This Prospectus is subject to updates that take into account significant changes to this Prospectus. Potential subscribers are therefore requested to inquire with the SICAV as to the publication of any more recent Prospectuses.

The Prospectus may not be used for the purpose of offer or solicitation for sale in any jurisdiction or in any circumstances in which such an offer or solicitation is not permitted. Potential subscribers who receive a copy of the Prospectus or of the subscription form in a country other than the Grand Duchy of Luxembourg may not consider such documents to be an invitation to purchase or subscribe to the shares unless such an invitation is fully legal in the country concerned and may take place without any registration or other procedure. It is necessary to verify before any subscription in which country or countries the SICAV is registered, and more specifically which sub-funds, classes or classes of shares are authorised for sale, as well as any legal constraints and exchange restrictions relating to the subscription, purchase, possession or sale of shares of the SICAV.

No action under the US Investment Company Act of 1940 ("Investment Company Act"), its amendments or any other law relating to transferable securities has been undertaken to register the SICAV or its securities with the US Securities and Exchange Commission. Accordingly, this Prospectus may not be introduced, transmitted or distributed in the United States of America or its territories or possessions, and delivered to a "US Person" as defined in Regulation S of the Securities Act of 1933 ("Regulation S of the US Securities Act of 1933", as amended), except in the framework of transactions exempt from

registration under the Securities Act of 1933. Failure to comply with these restrictions may constitute a violation of US securities laws.

The shares of the SICAV (hereinafter the "Shares") may not be offered or sold to "US Persons" or to persons who may not be legally entitled to do so or to whom solicitation for sale is illegal (hereinafter "unauthorised persons").

The Board of Directors will require the immediate redemption of Shares purchased or held by unauthorised persons, including investors who become unauthorised persons after the securities have been acquired.

Investors are required to notify the SICAV and/or the Transfer Agent and Registrar (i) if they become unauthorised persons, or (ii) if they hold Shares in violation of legal/regulatory provisions, of the Prospectus or the articles of association of the SICAV, or (iii) of any circumstances which may entail adverse tax or legal/regulatory consequences for the SICAV or the shareholders or which may otherwise be adverse to the interests of the SICAV or the other shareholders.

The SICAV draws investors' attention to the fact that an investor can only fully exercise his rights directly against the SICAV, in particular the right to participate in General Meetings of Shareholders, if he is listed in the SICAV's register of shareholders. In cases where an investor invests in the SICAV through an intermediary investing in the SICAV in its name but on behalf of the investor, certain rights attached to the status of shareholder may not necessarily be exercisable by the investor directly vis-à-vis the SICAV. Investors are recommended to obtain information on their rights.

Investing in the SICAV entails the risks stated in the chapter entitled "Risks". There is no guarantee that the investment objectives of the SICAV will be achieved. The value of the capital and income from investments of the SICAV is subject to fluctuation and investors may not get back the amount originally invested. In addition, past performance is not indicative of future results.

Before investing in the SICAV or in case of doubt about the risks associated with an investment in the SICAV or the suitability of a sub-fund about the risk of the investor with regard to his personal situation, investors are invited to consult their own financial, legal and tax advisors in order to determine whether an investment in the SICAV is appropriate for them and to request their assistance in order to be fully informed with regard to any legal or fiscal consequences and any repercussions concerning exchange restrictions or controls that may result from the subscription, holding, redemption, conversion or transfer of shares under the laws in force in their country of residence, domicile or place of establishment.

Any reference in this Prospectus to:

- "Euro" or "EUR" refers to the currency of the member countries of the European Union participating in the single currency.
- "Business day" refers to a full day when banks are open in Luxembourg.

Copies of the Prospectus are available under the conditions described above, at the head office of the SICAV.

Use of personal data

In accordance with the provisions of the data protection act applicable in the Grand Duchy of Luxembourg, and Regulation No. 2016/679 of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data applicable since 25 May 2018 (the "Data Protection Act"), the SICAV, acting as data controller, gathers, stores, modifies, processes and uses, in physical or electronic form, data provided by investors for the purposes of providing the services required by investors and complying with its legal and regulatory obligations. The data processed includes in particular the name, contact details (including postal or e-mail address), bank details and the amount invested by each investor (or, where the investor is a legal person, the data of its contact persons and/or owner(s)) ("Personal Data").

Investors may, at their discretion, refuse to disclose their Personal Data to the SICAV. In this case, however, the SICAV will reject the subscription application.

In accordance with the conditions set out in the Data Protection Act, each investor has the right:

- to access their Personal Data;
- to request that their Personal Data be corrected if they are inaccurate or incomplete;
- to object, in certain circumstances, to the processing of its Personal Data;
- to request the deletion of their Personal Data;
- to request that their Personal Data be transferred.

Each investor may exercise the above rights by writing to the registered office of the SICAV.

Investors also acknowledge the existence of their right to file a complaint with a data protection supervisory authority.

The Personal Data provided by investors is processed in particular in order to process subscriptions, redemptions and conversions of shares and the payment of distributions to investors, account management, client relationship management, tax identification required by Luxembourg or foreign

laws and regulations (including laws and regulations relating to CRS/FATCA) and compliance with applicable anti-money laundering rules. Personal Data provided by investors are also processed for the purpose of keeping the SICAV's shareholder register up to date. In addition, Personal Data may also be processed for commercial purposes. All investors have the right to object to the use of their personal data for commercial purposes by notifying the SICAV's registered office in writing of their refusal.

To this end, personal data may be transferred to affiliated and third-party entities supporting the activities of the SICAV, including the Management Company, the Manager, the Global Distributor, the Custodian, the Principal Paying Agent and Local Paying Agents, the Registered Auditor and/or any other agent/delegate of the SICAV, all acting as sub-contractors (the "Sub-contractors").

The Sub-contractors are located in the European Union or may be based in countries where data protection standards and legal protections are equal to or lower than those in force in the European Union with respect to the storage, modification and processing of such data. The Fund may transfer Personal Data to third parties such as governmental or regulatory agencies, including tax authorities, inside or outside the European Union, in accordance with applicable laws and regulations. In particular, such personal data may be disclosed to the Luxembourg tax authorities, which, in turn, as data controller, may disclose them to foreign tax authorities.

Personal data will not be stored longer than necessary for the purposes of data processing, subject to the applicable legal retention periods provided for by law.

When communication takes place by telephone for the purpose of giving investment instructions or other instructions, potential investors and Shareholders are deemed to have agreed that their telephone calls with the SICAV, the Management Company or its representatives may be recorded, monitored and stored, and that the SICAV or the Management Company may use them for any permitted purpose, including in legal proceedings.

The SICAV takes reasonable measures to ensure the accuracy and confidentiality of Personal and/or Confidential Data and does not use or disclose them beyond what is described in this Prospectus without the consent of the Shareholder or the potential investor concerned. In parallel, the SICAV, the Management Company and the Degroof Petercam entities disclaim any liability for the sharing of Personal and/or Confidential Data with third parties, except in the event of negligence on the part of the SICAV, the Management Company, a Degroof Petercam entity or their employees or managers.

The Management Company's Privacy Policy is available at www.dpas.lu under the heading "Investor Information".

The shares in the various sub-funds are only subscribed on the basis of the information contained in the key investor information document (the KIID). The KIID is a pre-contractual document that contains key information for investors. It contains appropriate information about the basic profile of each class or category of shares in a given sub fund.

If you plan to subscribe to shares, you should first carefully read the KIID, the Prospectus and its appendices, if applicable, which contain specific information about the investment policies of the various sub-funds. You should also read the latest annual and half-yearly reports published by the SICAV, copies of which are available at <https://www.dpas.lu/funds/list>, from local agents or entities retailing the shares in the SICAV. On request, free copies of the documents can be obtained from the SICAV's head office.

GENERAL DESCRIPTION

DPAM Bonds L is a Société d'Investissement à Capital Variable ("SICAV") umbrella fund constituted under Luxembourg law on 18 November 1985 in the form of a Société Anonyme (limited liability company) for an indefinite period. The SICAV is subject, in particular, to Part I of the Law of 2010 and the Law of 10 August 1915 on commercial companies (the "Law of 1915").

The minimum capital of the SICAV is EUR 1,250,000 (one million two hundred and fifty thousand euros), which must be reached within six months from the date of approval of the SICAV. The capital of the SICAV will at all times be equal to the sum of the net asset value of all sub-funds of the SICAV and is represented by fully paid-up shares with no par value. The capital of the SICAV is expressed in euro.

Changes in capital occur automatically and without the publicity and registration measures in the Register of Commerce and Companies of Luxembourg prescribed for increases and decreases of capital of public limited companies.

The Articles of Association of the SICAV (hereinafter the "Articles of Association") were published in the "Recueil des Sociétés et Associations" (the "RESA") on 12 February 1985 and were filed with the Luxembourg Court Registry. The Articles of Association were amended at Extraordinary General Meetings of Shareholders successively on 2 March 1990, 14 October 1996, 29 January 1999, 18 December 2000, 13 October 2005, 3 May 2007 and 2 January 2017; the amendments were published in the Recueil Electronique des Sociétés et Associations successively on 8 May 1990, 18 January 1997, 14 April 2001, 3 November 2005, 1 June 2017 and 6 January 2017. They may be consulted electronically on the website of the Registre de Commerce et des Sociétés (Commercial Register) in Luxembourg (www.lbr.lu). Copies of the Articles of Association are also available on request and free of charge at the registered office of the SICAV and can be consulted at <https://www.dpas.lu/funds/list>.

The SICAV may consist of different sub-funds, each representing a pool of specific assets and liabilities, and each corresponding to a separate investment policy and reference currency specific to it.

Within each sub-fund, the shares may be different classes of shares and within these classes, the shares may be of different categories (capitalisation shares and distribution shares).

The SICAV is therefore designed to be an umbrella fund UCI which enables investors to choose among various sub-funds whose management strategy best corresponds to their objectives and their profile.

The sub-funds available to investors are described in the annexes detailing each sub-fund.

The Board of Directors may decide to create new sub-funds. Therefore, the Prospectus will be amended accordingly and will contain detailed information on these new sub-funds, including the investment policy and terms of sale.

In each sub-fund, the Board of Directors may decide at any time to issue different classes of shares ("share classes" or "classes"), the assets of which will be jointly invested in accordance with the specific investment policy of the sub-fund in question, but will be subject to a specific fee structure or will have other distinctive characteristics for each class.

The following share classes currently offered by the various sub-funds of the SICAV are described in the annexes detailing each sub-fund:

The definition of these share classes can be found in the chapter entitled "The Shares".

In each sub-fund and/or share class, the Board of Directors may also decide at any time to issue two categories of shares ("share categories" or "categories") which will differ according to their distribution policy:

- The "distribution shares" category, corresponding to the distribution shares that will entitle the holder to a dividend.
- The "capitalisation shares" category, corresponding to the capitalisation shares that will not entitle the holder to a dividend.

Each shareholder may request the redemption of his shares by the SICAV, subject to the terms and conditions set out below in the chapter entitled "The Shares".

The SICAV is a sole and single legal entity vis-à-vis third parties. The assets of a given sub-fund only cover the debts, liabilities and commitments of that sub-fund. With regard to relations between shareholders, each sub-fund is treated as a separate entity.

MANAGEMENT AND ADMINISTRATION

1. BOARD OF DIRECTORS

The Board of Directors has full powers to act in all circumstances, in the name of the SICAV, subject to the powers expressly granted by Luxembourg law to the General Meeting of Shareholders.

The Board of Directors is responsible for the administration and management of the assets of each sub-fund of the SICAV. It may perform all acts of management and administration on behalf of the SICAV, including the purchase, sale, subscription or exchange of all securities, determine the objectives and investment policies to be followed by each sub-fund and exercise all rights directly or indirectly attached to the assets of the SICAV.

2. MANAGEMENT COMPANY

The Board of Directors has appointed DEGROOF PETERCAM ASSET SERVICES S.A. (DPAS) as management company (the “Management Company”) of the SICAV, charged with performing all the collective portfolio management functions referred to in appendix II to the Law of 2010, namely portfolio management and administration and marketing of the SICAV, as well as the function of domiciliary agent. As such, it assumes the administrative functions required by Luxembourg Law and the regulatory provisions in force, such as keeping the accounts and company books, including the shareholders' register. It shall also take charge of the calculation of the net asset value per share in each sub-fund and in each class, if applicable. These functions are referred to generically as Central Administration.

DEGROOF PETERCAM ASSET SERVICES S.A. is authorised as a management company within the meaning of chapter 15 of the Law of 2010. The Management Company exercises its mandate for an indefinite period and the Board of Directors may replace it.

Subject to the applicable legal provisions, the Management Company may delegate, under its control and supervision, the exercise of one or more of its functions to third parties holding the required approvals and licences to perform the functions that the Management Company intends to delegate to them.

The remuneration of DPAS with respect to the different sub-funds of the SICAV is described in the annexes detailing each sub-fund.

3. MANAGER AND INVESTMENT ADVISER

The Management Company can decide to delegate to one or more managers the day-to-day management of the assets of a sub-fund or to seek assistance by appointing an investment advisor.

This type of delegation and/or appointment relative to the different sub-funds of the SICAV, including remuneration, is described in the sub-fund annexes.

4. CUSTODIAN BANK AND PAYING AGENT

Banque Degroof Petercam Luxembourg S.A. was appointed as the SICAV's custodian (hereinafter the "Custodian") within the meaning of Article 33 of the Law of 2010.

Banque Degroof Petercam Luxembourg S.A. is a Luxembourg limited liability company. It was incorporated in Luxembourg on 29 January 1987 for an unlimited period, under the name Banque Degroof Luxembourg S.A. It is headquartered at L-2453 Luxembourg, 12, Rue Eugène Ruppert, and has performed banking activities since its incorporation.

The Custodian fulfils its duties under the terms of an open-ended custodian agreement made between Banque Degroof Petercam Luxembourg S.A. and the SICAV.

Under the terms of that agreement, Banque Degroof Petercam Luxembourg S.A. also acts as a paying agent for the financial service relating to the SICAV's shares.

The Custodian fulfils the obligations and duties set out under the laws of Luxembourg and, in particular, the tasks stipulated in Articles 33 to 37 of the Law of 2010.

The Custodian should act honestly, fairly, professionally, independently and in the interest of the SICAV and of the shareholders of the SICAV only.

The Custodian shall not carry out activities with regard to the SICAV or the management company acting on behalf of the SICAV that may create conflicts of interest between the SICAV, the shareholders, the management company and itself. An interest is a source of incentive of any nature whatsoever and a conflict of interest is a situation in which the Custodian's interests, when carrying out its activities, are not in line with those of the SICAV, the shareholders and/or the management company.

The Custodian may provide a number of banking services for the SICAV, either directly or indirectly, in addition to its custodian services, in the strict meaning of the term.

The provision of additional services, and capital links between the Custodian and some of the SICAV's partners, may lead to conflicts of interest between the SICAV and the Custodian.

Situations that may potentially lead to conflicts of interest for the Custodian in the exercise of its activities include the following:

- if the Custodian is likely to make a financial gain or avoid a financial loss at the expense of the SICAV;
- if the Custodian's interest in exercising its activities is not in line with the interest of the SICAV;
- if the Custodian, motivated by financial or other reasons, puts a client's interests before those of the

SICAV;

- if the Custodian receives or will receive a benefit for exercising its activities, in addition to its normal fees, from a counterparty other than the SICAV;
- if certain employees of Banque Degroof Petercam Luxembourg S.A. are members of the Board of Directors of the SICAV;
- if the Custodian and the Management Company are directly or indirectly linked to Banque Degroof Petercam S.A. and if certain employees of Banque Degroof Petercam Luxembourg S.A. are members of the Management Company;
- If the Custodian employs delegates and sub-delegates to perform its duties;
- If the Custodian provides a number of banking services for the SICAV in addition to its custodian services.

The Custodian may exercise this type of activity provided that it has separated, according to function and hierarchy, its Custodian duties and its other tasks that could give rise to a potential conflict of interests and if the potential conflicts of interest have been duly detected, managed, monitored and notified to the SICAV's shareholders.

The Custodian has implemented procedures and measures on conflicts of interest to mitigate, identify, prevent and ease potential conflicts of interest, to ensure, in particular, that in the event of a conflict of interest, the Custodian's interest is not unjustly favoured.

To that end:

- no employee of Banque Degroof Petercam Luxembourg S.A. performing or participating in safekeeping, surveillance and/or monitoring of cash flow duties may be a member of the Board of Directors of the SICAV;

The Custodian has published a list of its delegations and sub-delegations at <https://www.degroofpetercam.com/en-lu/general-terms-and-conditions-legal-documentation>.

The Custodian's selection and management of sub-delegates complies with the Law of 2010. The Custodian shall manage any conflicts of interest that may arise with its sub-delegates.

If a potential conflict of interest arises with the Custodian, despite the measures put in place to mitigate, identify, prevent and ease them, the Custodian must comply with its legal and contractual obligations to the SICAV at all times. If a conflict of interest is likely to have a significant adverse effect on the SICAV or the shareholders of the SICAV and cannot be resolved, the Custodian shall duly inform the SICAV, which will take appropriate action.

The shareholders can obtain up-to-date information about the Custodian on request.

The remuneration of the Custodian Bank with respect to the different sub-funds of the SICAV is described in the annexes detailing the sub-funds.

5. DISTRIBUTORS AND NOMINEES

The Management Company may, at any time, decide to name distributors and/or Nominees to assist it with the distribution and placement of the various sub-funds of the SICAV.

Distribution agreements will be concluded between the Management Company and the various Distributors/Nominees.

In accordance with these agreements, the Distributor actively manages the marketing, placement and sale of the shares of the sub-funds of the SICAV. The Distributor intervenes in relations between the investors and the Management Company with regard to subscription to the shares of the SICAV. The Distributor will be authorised to receive subscription, redemption and conversion orders from investors and shareholders on behalf of the SICAV, and offer shares at a price based on the respective net share value for those shares, plus any entry fee. The Distributor sends the Transfer Agent and Registrar the subscription and/or redemption and/or conversion orders it receives. The Distributor may also receive and make payments relating to the subscription and redemption orders it receives.

In accordance with these agreements, the Nominee will be entered in the register of shareholders in place of the clients who have invested in the SICAV. Inter alia, the terms and conditions of the distribution agreement stipulate that a client who has invested in the SICAV through the Nominee may at any time request the transfer in his name of the shares subscribed through the Nominee, whereby the client will be registered under his own name in the register of shareholders of the SICAV upon receipt of instructions to that effect from the Nominee.

Shareholders may subscribe for shares of the SICAV directly with the SICAV without having to subscribe through a distributor or Nominee, unless the use of a Nominee is essential, or even compulsory, for legal, regulatory or enforcement reasons.

The list of distributors will be mentioned in the annual and half-yearly reports of the SICAV.

6. OPERATIONAL CONTROL OF THE SICAV

KPMG Luxembourg, Société Coopérative, has been appointed as Statutory Auditor of the SICAV and fulfils the obligations and duties prescribed by law.

INVESTMENT OBJECTIVES, POLICIES AND RESTRICTIONS

1. GENERAL PROVISIONS

a) *Objectives of the SICAV*

The SICAV offers investments in a selection of securities and other eligible financial assets, with the aim of obtaining the highest possible value for the assets, combined with a high degree of liquidity. The choice of assets is not limited geographically, nor as to the type of securities or other eligible financial instruments, nor as to the currencies in which they are denominated, except for the applicable investment restrictions. The investment policy, and in particular the duration of the investments, is guided by the political, economic, financial and monetary situation at the time.

b) *Investment Policy of the SICAV*

The SICAV mainly expects to fulfil this objective through the active management of the eligible financial asset portfolios. In accordance with the conditions and limits set in the Law of 2010, and in accordance with the investment policy for each sub-fund as defined below, the eligible financial assets may, in particular, consist of units of UCITS and/or UCIs, securities, money market instruments, bank deposits and/or financial derivative instruments without, however, excluding other types of eligible assets.

Each sub-fund may (a) invest in derivatives with a view to achieving the investment objectives and for hedging purposes and (b) use techniques and instruments related to the securities and money market instruments with a view to efficient portfolio management, under the terms and conditions laid down by law, regulations and administrative practice, in accordance with the restrictions mentioned in the objectives and investment policies of the different sub-funds, and in this Prospectus.

When used in the description of the sub-funds, the term “largely” must be understood as equivalent to at least half and the term “predominantly” as equivalent to at least two thirds. These concepts of “largely” and “predominantly” can apply to the type of financial asset, the geographical or industrial area, the level of stock market capitalisation of the companies, the quality of issuers or the investment currency. The use of these concepts in the description of the investment policy of the sub-funds indicates a minimum threshold defined as an objective by the SICAV’s Board of Directors and is not a constraint. The sub-fund may therefore temporarily make an exception to these minimum limits, for example to take account of specific market situations or due to the availability of liquidities awaiting investment opportunities.

Each sub-fund of the SICAV will present its own investment policy.

The investment policies of the different sub-funds created by the SICAV’s Board of Directors are described in the annexes detailing the sub-funds.

c) Risk Profile of the SICAV

The risks specific to each sub-fund and their management objective are described more fully in the investment policy for each sub-fund.

As the various sub-funds are subject to fluctuations in the financial markets and to the risks inherent in any investment in securities, it cannot be guaranteed that these objectives will be achieved.

Therefore, there can be no guarantee that the objectives of the SICAV and of the sub-funds will be met and that the investors will recover the amount of their initial investment.

The conditions and limits of the Law of 2010 are nonetheless aimed at ensuring a diversification of the portfolios to reduce these risks.

Investors who would like to know about the past performance of the sub-funds are asked to read the section of the KIID that relates to the sub-fund in question, which gives the figures for the last three financial years. Investors should note that this data is in no way intended to be an indication of the future performance of the various sub-funds of the SICAV.

The investment objectives and policies determined by the Board of Directors along with the risk profile and the profile of the typical investor are described in the annexes detailing the sub-funds.

d) General information on SFDR and sustainability risk integration

Regulation (EU) 2019/2088 of 27 November 2019 on sustainability disclosure in the financial services sector (the “Regulation”) establishes harmonised rules for the SICAV on transparency with regard to the integration of sustainability risks and the consideration of negative sustainability effects in its processes and the provision of sustainability information.

For example, environmental, social and personnel issues, respect for human rights and the fight against corruption and bribery may represent a risk defined as an event or situation in the environmental, social or governance areas which, if it occurs, could have a material adverse effect, actual or potential, on the value of the SICAV’s investments.

The likely effects of these risks on the value of the SICAV’s investments are essentially that one or more investments of the SICAV which have been made after taking into account sustainability factors will underperform as a result of a sustainability risk compared to one or more investments which have not been made after taking into account such factors or that investments outperform comparable investments made by the SICAV after taking into account sustainability factors.

It should be noted that at present there are no definitive frameworks or factors to be taken into consideration when assessing the sustainability of an investment. The relevant legal framework is still being developed at European level. This lack of common standards can lead to a divergence between

actors in their approaches to this subject and thus introduce a certain subjectivity by these actors with respect to environmental, social or governance factors by introducing a judgment factor and various interpretations applied within this area. A further point to mention in relation to the above is that environmental, social or governance information from data providers may therefore be incomplete, unavailable or inaccurate.

Finally, the approach to issues in the environmental, social or governance areas is likely to evolve as a result of applicable legal and regulatory developments, as well as market practice. The SICAV reserves the right to take such action as it deems necessary or desirable to ensure that it complies with all applicable requirements. In particular, the SICAV and the Management Company are awaiting the finalisation of Level 2 regulatory technical standards. This document and/or the website of the Management Company and the Investment Manager may be updated from time to time to include additional information.

These sustainability risks are currently being addressed by Degroef Petercam Asset Services acting as the SICAV's Risk Management Company in accordance with the sustainability risk integration policy published on Degroef Petercam Asset Services' website: www.dpas.lu. However, in accordance with Article 4 of the Regulation, the Management Company may not take into account the negative impact of investment decisions on sustainability factors as defined in the Regulations. At this stage, it does not take these impacts into account for the following reasons:

1. as of the date of this prospectus, the regulatory requirements associated with the consideration, on a voluntary basis, of adverse sustainability impacts await clarification. This is particularly the case for the technical regulatory standards still to be adopted by the European Commission, detailing the content, methods and presentation for information on sustainability indicators concerning negative climate and other negative environmental impacts, social and personnel issues, respect for human rights and the fight against corruption and bribery, as well as the presentation and content of information with regard to the promotion of environmental or social aspects and sustainable investment objectives to be published in pre-contractual documents, annual reports and on the websites of financial market participants, and
2. on the other hand, taking into account the investment policy of the SICAV's sub-funds, it is not certain at the date of this prospectus that qualitative and quantitative data relating to sustainability indicators, which have yet to be adopted by the European Commission, are publicly available for all issuers and financial instruments concerned.

The Management Company will reassess its decision once the regulatory framework relating to the consideration of the negative impact of its investment decisions on sustainability factors is fully known.

Degroof Petercam Asset Management S.A., to whom the Management Company of the SICAV has delegated the discretionary management of the SICAV, is also required by the Regulation to publish on its website information about its policies regarding the integration of sustainability risks in its investment decision-making process.

According to SFDR, the sub-funds can be classified into 3 categories:

- Sub-funds that have sustainable investment as their objective and for which an index has been designated as the benchmark (referred to as "Article 9" sub-funds): sustainable investment is defined as an investment in an economic activity that contributes to an environmental objective, measured for example by means of key resource efficiency indicators relating to the use of energy, renewable energy, raw materials, water and land, waste production and greenhouse gas emissions or effects on biodiversity and the circular economy, or an investment in an economic activity that contributes to a social objective, in particular an investment that contributes to the fight against inequality or promotes social cohesion, social inclusion and labour relations, or an investment in human capital or economically or socially disadvantaged communities, provided that such investments do not materially prejudice any of these objectives and that the companies in which the investments are made apply good governance practices, in particular with regard to sound management structures, employee relations, remuneration of competent staff and compliance with tax obligations.
- Sub-funds promoting, among other aspects, environmental or social aspects or a combination of these aspects, provided that the companies in which investments are made apply good governance practices (referred to as "Article 8" sub-funds).

Sub-fund	Classification	Risk ESG (*)
CORPORATE EUR EUR INFLATION-LINKED EUR SELECTION GOVERNMENT GLOBAL	Article 8	Moderate. The sustainability aspect is taken into account in the investment selection and screening process of the sub-fund, with environmental and/or social aspects being highlighted. The sustainability risk remains, however, as the integration of compliance with these rules is strongly advised but not binding for investment decisions, with the exception of the normative screening on the 10 principles of the UN Global Compact and the negative screening on the severity of controversies that issuers may face. The impact of adverse sustainability events may lead to material sustainability risks which could have negative effects on the performance of the sub-fund.

- Sub-funds for which sustainability risks are either integrated taking into account the assessment of the likely impact of sustainability risks on the performance of financial products or are not relevant (referred to as "Article 6" sub-funds).

Sub-fund	Classification	Risk ESG (*)
CORPORATE HIGH YIELD EUR 2023 CREDIT DURATION HEDGED EUR	Article 6	High. Sustainability risk is considered material, as sustainability aspects are not systematically part of the sub-fund's investment selection process, with the exception of investments in

		<p>companies with exposure to controversial activities such as tobacco, the manufacture, use or possession of anti-personnel mines, cluster munitions, and depleted uranium ammunition and armour which are basically excluded.</p> <p>The impact of adverse sustainability events may lead to material sustainability risks which could have negative effects on the performance of the sub-fund.</p>
--	--	--

*The probability of occurrence of an environmental, social or governance event that could lead to an actual or potential material loss in the value of the sub-fund as a result of that event.

As the SFDR classification may change over time, the Prospectus will be updated accordingly.

2. INVESTMENT OBJECTIVES AND POLICIES, RISK PROFILE AND INVESTOR PROFILE OF THE DIFFERENT SUB-FUNDS

The investment policies, risk profile and investor profile of the different sub-funds of the SICAV are described in the annexes detailing the sub-funds.

3. ELIGIBLE FINANCIAL ASSETS

The Board of Directors, based on the principle of risk diversification, is authorised to determine the social and investment policy for the investments of each sub-fund, the reference currency for each sub-fund and the principles for conducting the administration and affairs of the SICAV.

Save where more restrictive rules concerning a specific sub-fund are laid down in the sub-fund appendix, the investment policy must comply with the rules and restrictions described below.

When a UCITS is made up of several sub-funds, each sub-fund shall be considered as a separate UCITS for the purposes of this section.

To facilitate understanding, the following concepts are defined below:

Group of Companies

The companies that belong to the same group and that must prepare consolidated accounts pursuant to Council Directive 83/349/EEC of 13 June 1983 on consolidated accounts or in accordance with recognised international accounting rules

Member State

A Member State of the European Union

Money market instruments

Instruments normally traded on the money market, which are liquid and have a value that can be accurately determined at any time

Other regulated market	A regulated, regularly functioning, recognised and open market, in other words a market (i) that meets the following cumulative criteria: liquidity; multilateral order matching (general matching of buy and sell orders in order to establish a single price); transparency (dissemination of maximum information giving clients the possibility to monitor the status of their orders to ensure that they have been executed at current conditions); (ii) whose securities are traded at a specific fixed frequency; (iii) which is recognised by a State or by a public authority delegated by this State or by another entity such as a professional association recognised by this State or by this public authority; and (iv) whose securities must be available to the public
Other State	Any other State of Europe that is not a Member State, and any other State of America, Africa, Asia or Oceania.
Reference currency	The reference currency of the Share Class or of the Sub-fund concerned.
Regulated market	A regulated market as defined by Council Directive 2004/39/EC of 21 April 2004 on markets in financial instruments ("Directive 2004/39/E"), namely a market appearing on the list of regulated markets drawn up by each Member State, that operates regularly, is characterised by the fact that rules issued or approved by the competent authorities govern the market's operating conditions, access conditions and the conditions to be fulfilled by a financial instrument before being admitted to trading on the market, in compliance with all reporting and transparency requirements set out by Directive 2004/39/EC
Regulatory authority	The Commission de Surveillance du Secteur Financier or its successor in charge of overseeing undertakings for collective investment in the Grand Duchy of Luxembourg
Securities	<ul style="list-style-type: none"> - shares and equivalent securities - bonds and other forms of securitised debts (debt); - any other negotiable securities which carry the right to acquire any such securities by subscription or exchange, with the exception of techniques and instruments
UCI	Undertakings for Collective Investment
EU	The European Union
Value at Risk (VaR)	Value at Risk (VaR) provides a measure of the potential loss that

could occur within a given timeframe under normal market conditions and at a given confidence level

The investments of the various of funds in the SICAV must comprise exclusively:

Transferable securities and money market instruments

- a) securities and money market instruments listed or traded on a regulated market as recognised by the Member State of origin and included on the list of regulated markets published in the Official Journal of the European Union ("EU") or on its website;
- b) securities and money market instruments traded on another market located in a Member State, which is regulated, operates on a regular basis, is recognised and open to the public;
- c) securities and money market instruments admitted to official listing on a stock exchange in another State or traded on another market in another State which is regulated, operates regularly, is recognised and open to the public;
- d) newly-issued transferable securities and money market instruments provided that (i) the terms of the issue include an undertaking that application will be made for admission to official listing on a stock exchange or another regulated market, which operates regularly, is recognised and open to the public; and (ii) admission is obtained no later than one year from the date of issue;
- e) money market instruments other than those traded on a regulated market insofar as the issue or issuer of these instruments are themselves subject to regulations protecting investors and savings and providing these instruments are:
 - issued or guaranteed by a central, regional or local government authority, by a central bank of a Member State, by the European Central Bank, by the EU or by the European Investment Bank, by another State or, in the case of a federal State, by one of the members of the federation, or by an international public body of which one or more Member States are members; or
 - issued by a company whose shares are traded on the regulated markets referred to under points a), b) and c) above; or
 - issued or guaranteed by an institution subject to prudential supervision in line with the criteria defined by Community law, or by an institution subject to and complying with prudential rules considered by the CSSF to be at least as strict as those stipulated in Community legislation; or

- issued by other bodies belonging to the categories approved by the CSSF, insofar as investments in these instruments are subject to investor protection rules which are equivalent to those laid down under the first, second or third points, and that the issuer is a company with capital and reserves amounting to at least ten million euros (EUR 10,000,000) and which presents and publishes its annual accounts pursuant to the Fourth Directive 78/660/EEC, or a body which, within a group of companies including one or more listed companies, is dedicated to the financing of the group, or a body dedicated to financing securitisation vehicles benefiting from a line of bank finance.

Any sub-fund of the SICAV may also invest its net assets up to 10% of the maximum, in transferable securities and money market instruments other than those mentioned in points a) to e) above.

Units in Collective Investment Undertakings

- f) units in undertakings for collective investment in transferable securities ("UCITS") and/or other undertakings for collective investment ("UCIs") within the meaning of Article 1(2), points a) and b) of European Directive 2009/65/EC, whether or not they are established in a Member State, provided that:
 - such other UCIs are authorised under a law which provides that they are subject to supervision considered by the CSSF (Commission de Surveillance du Secteur Financier, Luxembourg's financial sector supervisory authority) to be equivalent to that laid down in Community law and that cooperation between authorities is sufficiently assured;
 - the level of protection for unit holders in such other UCIs is equivalent to that provided for unit holders of UCITS and, in particular, that the rules on asset segregation, borrowings, lending and short selling of transferable securities and money market instruments are equivalent to the requirements of European Directive 2009/65/EC;
 - the business of such other UCIs is reported in half-yearly and annual reports enabling an assessment to be made of the assets, liabilities, revenues and operations over the reporting period;
 - the proportion of the assets that such UCITS or other UCIs may acquire in units of other UCITS or UCIs may not, according to their management regulations or formation documents, be more than 10% invested in aggregate in units of other UCITS or other UCIs.

Deposits with a credit institution

- g) deposits with a credit institution repayable on demand or that can be withdrawn and mature in no more than 12 months, provided that the credit institution has its registered office in a Member

State or, if its registered office is in a non-Member State, that it is subject to prudential rules considered by the CSSF to be equivalent to those laid down in Community law.

Derivative financial instruments

- h) financial derivatives, including equivalent instruments giving rise to a settlement in cash, which are traded on a regulated market of the type referred to in points a), b) and c) above, or derivative financial instruments traded over-the counter ("OTC derivatives"), provided that:
- the underlying consists of instruments covered by points a) to g) above, of financial indices, interest rates, foreign exchange rates or foreign currencies in which the SICAV may invest according to its investment objectives;
 - the counterparties to OTC derivative transactions are institutions subject to prudential supervision and belonging to the categories approved by the CSSF;
 - the OTC derivative instruments are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed out by an offsetting transaction at any time and at their fair value at the initiative of the SICAV; and
 - under no circumstances may these operations cause the SICAV to deviate from its investment objectives.

The SICAV may in particular intervene in transactions relating to options, forward contracts on financial instruments and options on such contracts.

Liquid assets

The SICAV may hold liquid assets on an ancillary basis.

Cross investments

A sub-fund of the SICAV ("Investor Sub-fund") may subscribe to, acquire and/or hold securities issued or to be issued by one or more other sub-funds of the SICAV (each referred to as a "Target Sub-fund"), without the SICAV being subject to the requirements stipulated by the Law of 1915, in terms of the subscription, acquisition and/or holding by a company of its own shares, providing however that:

- the Target Sub-fund does not in turn invest in the Investor Sub-fund which is invested in this Target Sub-fund; and

- the total proportion of assets that the Target Sub-funds to be acquired may invest in the units of other Target Sub-funds of the same UCI in accordance with their investment policy does not exceed 10%; and
- any voting rights attached to the securities held are suspended for as long as they are held by the Investor Sub-fund, without prejudice to an appropriate treatment in the accounts and the periodic reports; and
- in any case, for as long as these securities are held by the Investor Sub-fund, their value is not taken into account in the calculation of the SICAV's net assets for verification of the minimum threshold of net assets imposed by the Law of 2010.

4. INVESTMENT RESTRICTIONS

Transferable securities and money market instruments

1. The SICAV may not invest its net assets in transferable securities and money market instruments from the same issuer in proportions that exceed the limits stipulated below, on the understanding that (i) these limits must be respected within each sub-fund, and that (ii) the issuing companies grouped for accounts consolidation purposes are treated as a single entity when calculating the limitations described in points a) to e) below.

- a) A sub-fund may invest no more than 10% of its net assets in transferable securities or money market instruments issued by the same issuer.

The total value of the transferable securities and money market instruments held by the sub-fund with issuers in each of which it invests more than 5 % of its net assets may not exceed 40 % of the total value of its net assets. This limit does not apply to deposits with financial institutions which are subject to prudential supervision or to OTC derivative transactions with such institutions.

- b) The same sub-fund may invest a cumulative figure of up to 20 % of its net assets in transferable securities or money market instruments issued by a single group.
- c) The limit of 10% mentioned in point a) above may be increased to 35% as a maximum, if the securities and money market instruments are issued or guaranteed by a Member State, by its regional authorities, by a non-EU state or by international public bodies of which one or more EU Member States are members.
- d) The 10% limit mentioned in point a) above may be increased up to a maximum of 25% for certain bonds if they are issued by a credit institution headquartered in a Member State and are subject, by law, to special public supervision designed to protect bondholders. In particular, the amounts resulting from the issue of these bonds must be invested, by law, in

assets that provide sufficient coverage throughout the validity of the bonds, for the resulting obligations and which are allocated in priority to the repayment of capital and the payment of interest accruing, in the event of a default by the issuer. To the extent that a sub-fund invests more than 5 % of its net assets in the bonds mentioned above, issued by the same issuer, the total value of those investments may not exceed 80 % of the value of the net assets.

- e) The transferable securities and money market instruments mentioned in points c) and d) above are not taken into consideration to apply the 40 % limit mentioned in point a) above.
- f) **By way of exception, any sub-fund may, according to the risk distribution principle, invest up to 100% of its net assets in different issues of securities and money market instruments issued or guaranteed by a Member State, by its regional authorities, by an OECD member state, by another State belonging to the Group of 20 ("G-20"), Singapore, Brazil, Russia or by international public bodies of which one or more EU Member States are members.**

If a sub-fund takes advantage of this option, it must hold securities from at least six different issues, and the securities from a single issue may not exceed 30 % of the total value of the net assets.

- g) Without prejudice to the limitations imposed in point 7 below, the 10 % limit mentioned in point a) above will be increased to a maximum of 20 % for investments in bonds and/or debt securities issued by the same entity, if the sub-fund's investment policy is aimed at reproducing the composition of a specific share or debt securities index recognised by the CSSF, on the following basis:
 - the composition of the index is sufficiently diversified;
 - the index represents an adequate benchmark for the market to which it refers;
 - it is published in an appropriate manner.

The 20 % limit will be increased to 35 % if and when this proves to be justified by exceptional market conditions, in particular on regulated markets where certain transferable securities or certain money market instruments are highly dominant. Investment up to this limit is permitted for only one issuer.

Deposits with a credit institution

- 2. The SICAV may not invest more than 20 % of the net assets of each sub-fund in bank deposits with the same entity. Companies grouped for the purposes of account consolidation shall be treated as a single entity for the purposes of calculating this limitation.

Derivative financial instruments

3. a) The counterparty risk in an OTC derivative instrument transaction may not exceed 10% of its net assets if the counterparty is one of the credit institutions referred to in section 3 point g) above, or 5% of its net assets in other cases.
- b) Investments in derivatives may be made, provided that globally the risks to which the underlying assets are exposed do not exceed the investment limits stipulated in points 1. a) to e), 2., 3. a) above and 5. and 6. below. If the SICAV invests in derivative financial instruments which are based on an index, these investments will not be combined with the limits set forth in points 1. a) to e), 2., 3. a) above and 5. and 6. below.
- c) If a transferable security or money market instrument is a derivative, it must be taken into account when applying the provisions of points 3. d) and 6. below, and the appreciation of the risks of transactions on derivatives, if the global risk of the financial derivatives does not exceed the total net value of the assets.
- d) Each sub-fund must ensure that its overall risk relating to derivatives does not exceed the total net value of its portfolio. The risk is calculated taking account of the current value of the underlying assets, counterparty risk, foreseeable market trends and the time available to liquidate the positions.

Units in Collective Investment Undertakings

Subject to other more restrictive specific provisions relating to a given sub-fund and described in the annexes detailing the sub-funds, where applicable:

4. a) The SICAV may not invest more than 20% of the net assets of each sub-fund in the units of the same UCITS or other open UCI, as defined in section 3 point f) above.
- b) Total investments in the units of other UCIs may not exceed a total of 30 % of the SICAV's net assets.

If a sub-fund acquires units of UCITS and/or other UCIs, the assets of these UCITS or other UCIs are not combined for the purposes of the limits set forth in point 7. a) to e) below.

- c) When the SICAV invests in units or shares of other UCITS and/or other CIS which are managed directly or on a delegated basis by the same Management Company or by any other company to which the Management Company is linked by common

management or control or by a significant direct or indirect equity interest, the Management Company or other company may not invoice subscription or redemption fees for the SICAV's investment in units or shares of other UCITS and/or CIS.

The maximum management fee that may be charged to both the SICAV and the UCITS and/or other UCIs in which the SICAV intends to invest will be that indicated in the particular investment policy of the relevant sub-fund.

To the extent that the UCITS or UCI is a legal entity with multiple sub-funds, all the assets in a sub-fund correspond exclusively to the rights of the investors in that sub-fund and those of the creditors whose debt arose from the formation, operations or liquidation of this sub-fund, each sub-fund is considered as a separate issue, for the purposes of applying the above risk distribution rules.

Combined limits

5. Notwithstanding the individual limits set in points 1.a.), 2. and 3.a) above, a sub-fund may not combine several of the following components if this would result in the investment of more than 20% of its net assets in a single entity:
 - investments in transferable securities or money market instruments issued by said entity,
 - deposits with said entity, or
 - risks stemming from OTC derivative instrument transactions with said entity.
6. The limits stated in points 1.a., 1.c., 1.d., 2. 3.a. and 5. may not be combined. Consequently, the investments in the transferable securities and money market instruments issued by a single entity in deposits or in derivative instruments with this entity in accordance with points 1.a., 1.c., 1.d., 3.a. and 5.e. may not exceed 35 % of the sub-fund concerned.

Limitations on control

7.
 - a) The SICAV may not acquire shares carrying voting rights which would enable it to exercise a significant influence over the management of an issuer.
 - b) The SICAV may not acquire more than 10 % of non-voting shares of the same issuer.
 - c) The SICAV may not acquire more than 10 % of the debt securities from the same issuer.

- d) The SICAV may not acquire more than 10 % of money market instruments from a single issuer.
- e) The SICAV may not acquire more than 25 % of units in the same UCITS and/or other UCI within the meaning of Article 2(2) of the Law of 2010.

The limits laid down in points 7. c) to e) above may be disregarded at the time of acquisition if, at that time, the gross amount of the debt securities or money market instruments, or the net amount of the securities issued, cannot be calculated.

The limits laid down in points 7. a) to e) do not apply to:

- securities and money market instruments issued or guaranteed by an EU Member State or its regional public authorities;
- securities and money market instruments issued or guaranteed by another State;
- securities and money market instruments issued by public international bodies of which one or more EU Member States are members;
- shares held in the capital of a company based in another State, provided that (i) the company essentially invests its assets in securities from issuers who are nationals of that State where, (ii) under the laws of this other State, such investment is the only possibility the SICAV has to invest in securities from issuers of this other State, and (iii) that company, in its investment policy, respects rules on risk diversification, counterparty and limitation of controls as set out in points 1. a), 1. c), 1. d), 2., 3. a), 4. a) et b), 5., 6. and 7. a) - e) above;
- shares held in the capital of subsidiaries carrying on the activities of management, advisory services or sales in the country where the subsidiary is based, as regards the redemption of units at the request of shareholders, exclusively on its or their behalf.

Loans

- 8. Each sub-fund may loan up to 10 % of its net assets provided that the loans are temporary. Each sub-fund may also acquire currencies by means of a back-to-back loan.

Commitments related to options contracts, purchases and sales of futures contracts are not considered as loans for the purposes of calculating this investment limit.

Finally, the SICAV ensures that the investments of each sub-fund comply with the following rules:

9. The SICAV may not grant loans or act as guarantor behalf of a third party. This restriction does not prevent the acquisition of transferable securities, money market instruments or other financial instruments which are not fully paid-up.
10. The SICAV may not short-sell transferable securities, money market instruments or other financial instruments referred to in section 3 points e), f) and h) above.
11. The SICAV may not acquire immovable property except where the purchase is essential for the direct exercise of its business.
12. The SICAV may not acquire commodities, precious metals or certificates representing them.
13. The SICAV may not use its assets to guarantee securities.
14. The SICAV may not issue warrants or other instruments giving the right to buy shares in the SICAV.
15. The SICAV may not invest in asset backed securities ("ABS"), mortgage backed securities ("MBS") or similar securities.

Notwithstanding the foregoing provisions:

16. The above limits may not always be respected at the time of the exercise of subscription rights to the transferable securities or money market instruments of which the sub-fund's assets are made up.

While ensuring compliance with the principle of risk diversification, each sub-fund may deviate from the limits set forth above for a period of six months following the date of its being approved.

17. Where the maximum percentages indicated above are exceeded for reasons beyond the SICAV's control, or following the exercise of rights attached to the portfolio securities, the SICAV shall, in its sales operations, prioritise the regularisation of the situation, and take into account the shareholders' interests.

The SICAV may, at any time, introduce other investment restrictions provided that they are essential in order to comply with the laws and regulations in force in certain countries in which the SICAV's shares may be offered and sold.

Financial derivative instruments

1. General

As indicated in section 3 h) above, the SICAV may invest, on behalf of each sub-fund, in financial derivative instruments, including among others, financial futures contracts, options (on shares, interest rates, indices, bonds, currencies, commodities indices or other instruments), forward contracts (including foreign exchange forward contracts), swaps (including total return swaps, foreign exchange swaps, commodity swaps, interest rate swaps and equity basket swaps), credit derivatives (including default risk derivatives, default swaps and credit spread derivatives), warrants, TBA-type mortgages (to-be-announced) and structured financial derivative instruments such as credit-linked securities and equity-linked securities.

The use of financial derivative instruments may not lead the SICAV to deviate from the investment objectives defined in each sub-fund's investment objectives and policies, risk profile and investor profile. If a sub-fund is likely to use financial derivative instruments for purposes other than efficient portfolio management or as hedges for market or foreign exchange risks, this will be mentioned in the policy of the given sub-fund.

Each sub-fund may invest in financial derivative instruments within the limits set out in point 3) a) to c) of section 4 above.

2. Overall exposure

The overall risk related to financial derivative instruments is calculated taking into account the current value of underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions.

Overall exposure to financial derivative instruments can be calculated using the Value at Risk (VaR) method or the commitment method.

a. Value at Risk (VaR) method

Certain sub-funds can use the Value at Risk (VaR) method to calculate their overall exposure; if applicable, this will be indicated, for each sub-fund concerned, in the investment objectives and policies, risk profile and investor profile.

VaR is an instrument used to measure a sub-fund's potential loss due to market risk; it is expressed as the maximum potential loss measured at a confidence level of 99% over a 20-day timeframe. The holding period relative to financial derivative instruments, for the purposes of calculating overall exposure, is 20 days.

Sub-funds using the VaR approach indicate the projected leverage in their investment objectives and policies, risk profile and investor profile.

In this context, leverage constitutes a measure of the overall use of derivatives and corresponds to the sum of the notional exposures of the financial derivatives used, without recourse to netting arrangements. To the extent that the calculation does not take account of any increase or decrease of the investment risk arising from a given financial derivative instrument, or of the different sensitivities of the notional exposure of the financial derivative instruments to market movements, it might not be representative of the level of investment risk of a sub-fund.

VaR is calculated according to either an absolute or relative approach:

- **Absolute VaR**

The absolute Value at Risk of a sub-fund is calculated as a percentage of the sub-fund's net asset value per share and is measured against an absolute limit of 20% as laid down by ESMA (European Securities and Markets Authority) Directives 10-788. Absolute VaR is generally an adequate method in the absence of a reference portfolio or an identifiable benchmark index, for example for funds with absolute performance objectives.

- **Relative VaR**

The relative VaR method is used for sub-funds for which a benchmark portfolio or index with no derivatives and that reflects the investment strategy implemented by the sub-fund has been defined. The relative VaR of a sub-fund is expressed in the form of a multiple of the VaR of a benchmark portfolio or index and is limited to at most twice the VaR of the said benchmark portfolio or index. The benchmark portfolio used in the context of the VaR, as modified where appropriate, may differ from the benchmark index mentioned in the investment objectives and policies, risk profile and investor profile of the different sub-funds, in the risk section of a given sub-fund.

b. Commitment method

Unless indicated otherwise in the investment objectives and policies, risk profile and investor profile of the different sub-funds, in the risk section of a given sub-fund, the sub-funds calculate the overall exposure arising from their use of financial derivative instruments on the basis of their commitments. The use of financial derivative instruments by these sub-funds will not significantly change their risk profile compared to what it would be without the use of such instruments.

The SICAV shall ensure that the overall exposure to financial derivative instruments of any sub-fund does not exceed 100% of its net asset value at any time.

The overall exposure of a sub-fund may therefore not exceed 200% of its net asset value. In addition, this overall exposure may not be extended by more than 10% by means of temporary borrowing (referred to in section 4, point 8) such that it may not exceed 210% of the net asset value of a sub-fund under any circumstances.

Specific provisions on Credit Default Swaps (CDS)

The sub-funds are authorised to use credit default swaps (CDS). A CDS consists of transferring the risk related to a given borrower (a company or a sovereign State) from one of the parties (buyer of the CDS) to the other party (seller of the CDS). The result is the net transfer from the seller to the buyer of the risk corresponding to the difference between the face value and the market value of the debt instrument issued by the borrower, which constitutes the underlying of the CDS. The transfer occurs only in the event of the borrower's default of payment, an event that may cover, among other things, its liquidation, incapacity to restructure its debt or incapacity to comply with an agreed repayment schedule.

Most CDS contracts are based on a physical settlement in which the seller pays the face value of the underlying debt instrument to the buyer in exchange for delivery of the instrument. Another possibility is to settle the contract for payment, in other words, the seller pays the buyer the difference between the face value and the market value. In return for this protection, the buyer of a CDS pays a regular premium to the seller. Default of payment results in the suspension of the premiums.

The SICAV may conclude CDS contracts only if these are standard documents (such as ISDA contracts) and only with leading financial institutions specialised in this type of transaction.

The market value of this type of instrument will be valued with every calculation of the net asset value.

The exposure of each sub-fund to CDS, combined with its exposure to other techniques and instruments, may not exceed 100% of the net asset value of its portfolio.

CDS contracts may be entered into:

- (a) For hedging purposes: each sub-fund may sign CDS contracts to protect itself against general or specific risks in the context of its credit activities, by buying such a hedge.
- (b) For reasons of sound portfolio management: each sub-fund may sign CDS contracts to acquire general or specific exposure in the context of its credit activities, in order to achieve its investment objectives.

Total exposure to the underlying assets, including exposure to CDS and to other derivative instruments, may never exceed the maximum level set in the investment restrictions.

Exposure to sold CDS contracts corresponds to the underlying face value of the contract, whereas exposure to bought CDS contracts corresponds to the value of premiums still due, after discounting.

Master-Feeder Structures

Each sub-fund can act as a feeder sub-fund (the "Feeder") of another UCITS or sub-fund thereof (the "Master") that is not itself a UCITS/feeder sub-fund and does not hold shares/units of a UCITS/feeder sub-fund. In this case the Feeder shall invest at least 85% of its assets in shares/units of the Master.

The Feeder may not invest more than 15% of its assets in one or more of the following:

- a) cash on an ancillary basis in accordance with Article 41 (2), second subparagraph of the Law of 2010;
- b) derivative financial instruments, which can be used only for the purpose of hedging, in accordance with Article 41(1) (g) and 42, paragraphs (2) and (3) of the Law of 2010;
- c) the moveable assets and real estate essential for the direct exercise of the activity of the SICAV.

Where a sub-fund qualified as a Feeder invests in shares/units of a Master, the Master may not charge a subscription or redemption fee to the Feeder sub-fund for the acquisition or disposal of the shares/units of the Master.

If a sub-fund qualifies as a Feeder, a description of all fees and all reimbursements of costs owed by the Feeder because of its investment in shares/units of the Master, and the total expenses of the Feeder and the Master will be indicated in the Prospectus. The annual report of the SICAV will mention the total cost of the Feeder and the Master.

If a sub-fund is qualified as a Master of another UCITS, this sub-fund will not charge subscription or redemption fees to the Feeder.

5. TOTAL RETURN SWAPS

The SICAV may carry out on an ancillary basis one or more total return swaps to obtain an exposure to reference assets, which may be used in accordance with the investment policy of the sub-fund concerned. A total return swap ("TRS") is a contract whereby one party (the payer of the total return) transfers the entire economic output of a reference bond to the other party (the receiver of the total return). The entire economic output includes interest income and expense, gains or losses related to market movements, and credit losses. The SICAV may carry out such transactions only through a

regulated financial institution with at least an investment grade credit rating and having its registered office in an OECD country.

None of the sub-funds will aim to achieve its investment objective mainly through the use of one or more TRS.

RISKS

An investment in the SICAV carries risks, in particular the risks associated with the fluctuations of the market and those inherent in any investment in financial assets. Investments may also be affected by any changes to laws and regulations governing exchange controls or taxes, including withholding tax, or changes to economic and monetary policy.

No guarantee can be given that the objectives of the SICAV and of the sub-funds will be met and that the investors will recover their initial investment.

Past performance is not an indicator of future results or performance.

The conditions and limits set by the Law of 2010 are nevertheless aimed at ensuring a certain level of diversification of the portfolio in order to reduce such risks.

The sub-funds are exposed to various risks depending on the respective investment policy. The main risks to which they may be exposed are described below.

Market risk

Risks relating to equity securities (and related instruments) cover price fluctuations, negative information about the issuer or the market, and the subordination of the shares in a company to its bonds. Furthermore, these fluctuations are often amplified in the short term.

Credit risk

This is the risk that may result from the downgrading of the rating or the default of a bond issuer to which the sub-funds are exposed and that can lead to a decrease in the value of the investments. These risks are linked to an issuer's ability to honour its debts.

A downgrading of the rating of an issue or an issuer may lead to a fall in the value of the bonds in which the sub-funds are invested.

Certain strategies used may be based on bonds issued by issuers with a high credit risk ("junk bonds").

Sub-funds investing in high-yield bonds involve a higher than average risk because of the greater fluctuations of their currency or the quality of the issuer.

Interest rate risk

The value of an investment may be affected by variations in interest rates. Interest rates may be influenced by a number of factors or events, such as monetary policies, the discount rate, inflation, etc.

Investors are advised that an increase in interest rates leads to a fall in the value of investments in bonds and debt instruments.

Liquidity risk

There is a risk that investments in sub-funds may lose their liquidity due to an excessively restricted market (often characterised by a very wide bid-ask spread or large price movements), if their rating is downgraded or if the economic situation deteriorates, making it impossible to buy or sell these investments quickly enough to prevent or keep to a minimum a loss in the sub-funds.

Inflation risk

The return on investments might not keep pace with inflation over time, leading to a reduction in an investor's purchasing power.

Tax risk

The value of an investment may be affected by the application of tax laws in different countries, including withholding taxes and changes of public policy or the economic or monetary policy of the country concerned. Consequently, no guarantee can be given that the financial objectives will be attained.

Counterparty risk

This risk is linked to the quality or default of the counterparty with which the SICAV deals, notably for settlement or delivery of financial instruments and the conclusion of financial futures agreements. This risk is related to the counterparty's capacity to meet its commitments (notably payment, delivery or repayment). This risk is also related to techniques and instruments associated with efficient portfolio management. The counterparty's non-compliance with its contractual obligations may have repercussions on investors' results.

Risk linked to warrants

Investors should note that warrants are complex, volatile, high-risk instruments: there is a large risk of losing all of the capital invested. Also, one of the main characteristics of warrants is the leverage effect, namely that a change in the value of the underlying asset may have a disproportionate effect on the

value of the warrant. In the event of market illiquidity, there is no guarantee that it will be possible to sell the warrant on a secondary market.

Operational risk and custody risk

Certain markets (emerging markets) are less regulated than most of the regulated markets in developed countries. Their custodian and fund liquidation services may therefore be riskier. Operational risk concerns risks related to the conclusion of contracts on financial markets, back-office operations, the safekeeping of securities and administrative problems that may lead to a loss for the sub-funds. This risk could result in omissions and inefficient procedures in the processing of securities or IT systems or human errors.

Foreign exchange risk

A sub-fund may hold securities denominated in currencies other than the reference currency. It may be impacted by exchange rate fluctuations between its reference currency and these other currencies, or by a possible change in exchange control regulations. If the currency in which an asset is denominated appreciates against the reference currency of the sub-fund, the equivalent value of the security in this reference currency will also appreciate. Conversely, a depreciation in the currency will result in a reduction in the equivalent value of the security in the reference currency.

Exchange rate fluctuations can also arise between the trading date of a transaction and the date on which the currency is acquired to honour the settlement obligations.

When the Management Company wishes to cover a transaction's exchange risk, the effectiveness of this operation cannot be guaranteed.

Risk linked to emerging and frontier markets

Investors are advised that markets in certain emerging or less developed countries can have an operational and supervisory mode that differs from standards prevailing in large international markets.

The sub-funds that invest in emerging or frontier markets will probably experience above-average volatility due to a high degree of concentration, greater uncertainty due to the lack of information available, less liquidity or greater sensitivity to market conditions (social, political and economic). In addition, certain emerging markets offer less security than the majority of developed international markets and some are not currently considered as regulated markets. In these circumstances, the services of portfolio transactions, liquidation and safekeeping on behalf of funds invested in emerging markets may carry a higher risk.

Registration risk

In certain countries with emerging markets, the proof of legal ownership of shares is kept only in the form of a bookkeeping entry. The role of the registrar in such deposit and registration processes is crucial and greater risks are associated with this form of registration. The investor might lose his registration due to fraud, negligence or a mere omission on the part of the registrar and will have no effective recourse. If the company's register must be destroyed or mutilated, the investor's holding of shares of the company could be considerably reduced or in some cases eliminated. Insurance for such eventualities is not common. Furthermore, following the destruction of the company's register, the registrar or the company concerned could deliberately refuse to recognise the investor as the registered owner of the shares previously bought by him.

Risk of Russian and Eastern European markets

The securities of issuers in Russia, in Eastern European countries and in the newly independent states such as Ukraine and the countries formerly under the influence of the Soviet Union imply significant risks and special considerations. These come in addition to the risks associated with emerging countries.

In particular, the Russian market carries a series of risks related to the settlement and custody of securities. These risks result from the fact that there are no physical securities; therefore their ownership is only recorded in the issuer's register of shareholders. Each issuer is responsible for designating its own bookkeeper. There is a large geographical distribution of several hundred registration agents across Russia. The Russian Federal Commission for Securities and Capital Markets has defined the responsibility for registrar activities, including with regard to the proof of transfer and ownership procedures. However, the problems in having the Commission's regulations respected means that there is still a potential risk of loss or error, and no guarantee can be given that the registrars will act in accordance with the applicable laws and regulations. At the time of registration, the registrar produces an extract from the register of shareholders. From that point in time, the ownership of the shares is placed on record, but it is not proven by a copy of the extract from the shareholders' register. The extract only proves that the registration has taken place. However, the excerpt cannot be traded and has no intrinsic value. In addition, the registrar will not generally accept an extract as proof of ownership of the shares and is under no obligation to inform the Custodian or its local agents in Russia if or when the shareholders' register is amended. Russian transferable securities are not physically deposited with the Custodian or local agents in Russia. Similar risks apply to the Ukrainian market.

Therefore, neither the Custodian nor its local agents in Russia or Ukraine can be considered to exercise a function of custody or physical depositing, in the traditional sense. The registrars are neither agents of the Custodian or of its local agents in Russia or Ukraine, nor are they responsible for them. The Custodian's responsibility only extends to personal negligence and deliberate fault, and to any loss caused by negligence or the deliberate misconduct of its local agents in Russia or Ukraine and does not cover any losses from the liquidation, bankruptcy, negligence or deliberate misconduct of any registrar.

In the event of such losses, the SICAV must take proceedings directly against the issuer and/or the appointed registrar.

However, securities traded on the MICEX-RTS Stock Exchange in Russia may be treated as an investment in securities negotiated on a regulated market. Investments on the MICEX-RTS Stock Exchange bring together a large number of Russian issuers and enable almost full coverage of all Russian shares. Use of the MICEX-RTS Stock Exchange benefits from the liquidity of the Russian market without having to use the local currency, as the MICEX-RTS Stock Exchange allows trading with all issuers directly in USD.

Chinese market risk

An investment in the securities markets in China implies significant risks and special considerations. These come in addition to the risks associated with emerging countries.

Companies in China are required to comply with the Chinese standards and accounting practices, which to a certain extent follow international accounting standards.

However, there may be significant differences between the financial reports prepared by accountants in accordance with the Chinese standards and those prepared in accordance with the international ones.

The securities markets of Shanghai and Shenzhen are both undergoing development and modification. This may result in volatile trading, difficulties with settlement and registration of transactions and difficulties in interpreting and applying these regulations.

In the context of the prevailing fiscal policy in China, there are certain fiscal incentives for foreign investment. However, no assurances can be given that these incentives will not be abolished in the future.

Investments in China will be subject to any significant changes in the political, social or economic actions in the People's Republic of China. This sensitivity may have adverse effects on the growth of capital and therefore on the performance of these investments.

Controls on monetary conversion and future movements in the exchange rate, by the Chinese government, may adversely affect the operations and financial results of companies invested in China.

Investors might not recover their initial investment.

Risk linked to Bond Connect

Bond Connect is a mutual bond market access link established between Hong Kong and the People's Republic of China (PRC) that facilitates investment in the China Interbank Bond Market (CIBM) through

mutual access and connection arrangements for trading, custody and settlement between related financial infrastructures in Hong Kong and the PRC.

A sub-fund may purchase interest rate instruments traded on the CIBM through Bond Connect (the "Bond Connect Securities"). As the sub-fund's investments in the CIBM are made through the Bond Connect, these investments may be exposed to additional risk factors.

Under current PRC regulations, eligible overseas investors wishing to invest in Bond Connect Securities may do so through an offshore custodian approved by the Hong Kong Monetary Authority (the "Offshore Custodian"), which will be responsible for opening an account with the relevant onshore custodian approved by the PRC central bank. As the opening of an account to invest in the CIBM market through Bond Connect must be done through an Offshore Custodian, the relevant sub-fund is exposed to the risks of default or errors on the part of the Offshore Custodian.

Trading in Bond Connect Securities may be subject to clearing and settlement risk. If the PRC clearing house defaults on its obligation to deliver securities/make a payment, the sub-fund may experience delays in recovering its losses or may not be able to recover its losses in full.

Investments through Bond Connect are not subject to a quota but the competent authorities may suspend the opening or trading through Bond Connect, and in the absence of direct access to the CIBM or an RQFII quota, the ability of the sub-fund to invest on the CIBM will be limited and the sub-fund may not be able to effectively pursue its investment strategy or it may adversely affect the performance of the sub-fund. The sub-fund may also suffer losses as a result.

The Bond Connect Securities of a sub-fund will be held in accounts with the Central Moneymarkets Unit (CMU), as the central securities depository in Hong Kong.

As CMU is only a holder and not the beneficial owner of the Bond Connect Securities, in the unlikely event that CMU becomes subject to winding-up proceedings in Hong Kong, investors are advised that the Bond Connect Securities will not be considered part of the general assets of CMU available for distribution to creditors, even under PRC law.

However, CMU will not be required to institute any legal proceedings or take any action in the courts to enforce any rights on behalf of investors in Bond Connect Securities in the PRC. A failure or delay by CMU to perform its obligations may result in a failure to settle, or the loss of, Bond Connect Securities and/or monies related thereto and a sub-fund and its investors may suffer losses as a result. The SICAV, the Management Company and the Manager shall not be responsible or liable for any such loss.

A sub-fund's ownership of or interest in Bond Connect Securities and its rights therein (whether legal, equitable or otherwise) will be subject to applicable requirements, including laws relating to any foreign ownership disclosure requirements or restrictions, if any. Chinese courts may not recognise investors'

ownership of securities and investors may not be able to bring legal proceedings against Chinese entities in the event of a dispute. Bond Connect Securities may be declared ineligible for trading through Bond Connect for various reasons, in which case Bond Connect Securities may be sold, but not purchased. This may affect the portfolio or the investment strategies of the sub-fund. Transactions conducted through Bond Connect are not covered by the Hong Kong Investor Compensation Fund or the Chinese Securities Investor Protection Fund. Investments in Bond Connect Securities are exposed to various risks related to the legal and technical framework of Bond Connect. Due to differences in public holidays between Hong Kong and the PRC or for other reasons such as adverse weather conditions, there may be differences in trading days and times on the markets accessible through Bond Connect. Bond Connect only operates on days when these markets are open simultaneously and when the banks in these markets are open on the corresponding settlement days. There may be occasions when, on a normal trading day for the PRC CIBM, it is not possible to trade Bond Connect Securities in Hong Kong.

Impact of low interest rates

Very low interest rates can impact the return on certain short-term assets held by money market funds, which is sometimes insufficient to cover the fund's management and operating costs, resulting in a structural decline in the sub-fund's net asset value.

Risk linked with small caps and specialised or restricted sectors

The sub-funds that invest in small caps or in specialised or restricted sectors will probably experience above-average volatility due to a high degree of concentration, greater uncertainty due to the lack of information available, less liquidity or greater sensitivity to market conditions.

Small companies may not be able to generate new funds to support their growth and development, they may lack management vision or they may develop products for new, uncertain markets.

Derivatives risk

With a view to efficient portfolio management, the Manager may, in the context of a global investment policy for the sub-fund and within the limits set by the investment restrictions, carry out certain transactions that use derivatives such as (i) put and call options on securities, indices and currencies including OTC options; (ii) futures on stock indices and interest rates, and options on these; (iii) structured products, for which the security is linked to another security or derives its value from another security; (iv) warrants; (v) credit derivatives, in particular Credit Default Swaps ("CDF"), and contracts for difference (CFD).

Investors should note that these derivatives have a leverage effect. Therefore, the volatility of these sub-funds may be higher.

By using derivatives, the sub-fund may carry out futures transactions and OTC transactions on indexes and other financial instruments and on index swaps or other financial instruments with leading banks or specialised brokerage houses acting as counterparty.

Specific risks of exchange transactions in traded derivatives
Trading suspensions

All securities exchanges and commodity markets have the right to suspend or limit trading of all the securities or commodities that they deal with. Such suspension would prevent the sub-funds from liquidating their positions and therefore expose the SICAV to losses and delays in terms of its capacity to redeem the shares.

Special risks of operations on OTC derivatives
Lack of regulation; default by counterparty

In general, operations on OTC markets (on which the forward, spot and option contracts on currencies, credit default swaps, total return swaps and certain options on currencies are generally traded) are less subject to regulation and governmental supervision than transactions carried out on regulated exchanges. Also, many of the protections available to investors on certain regulated exchanges, such as the performance guarantee of a compensation body may be unavailable for OTC operations. Therefore, a sub-fund that engages in OTC operations will be subject to the risk that the direct counterparty does not fulfil its obligations in connection with the operations and the sub-fund suffers losses. A sub-fund only enters into operations with counterparties it considers solvent, and may reduce its exposure to these operations by receiving letters of credit or pledge for certain counterparties. Whatever the measures that the SICAV may seek to implement in order to reduce the counterparty credit risk, no assurance can be given that the counterparty will not default or that the SICAV will not suffer a loss as a consequence.

Risk linked with investments in other UCITS and UCI

These investments expose a sub-fund to the risks related to the financial instruments held in the portfolio of the UCI/UCITS in question. However, certain risks are directly related to the holding of units/shares in a UCI/UCITS. Certain UCIs/UCITS may be indebted due to the use of financial derivative instruments or borrowing. The use of leverage increases the volatility of the value of the UCI/UCITS and therefore the risk of loss of capital. Investments in units or shares of such UCIs/UCITS may also present a liquidity risk which is higher than that associated with investing directly in a portfolio of securities. In contrast, investments in units or shares of UCIs/UCITS offer the sub-fund a flexible and effective way to access several professional management styles and also make possible a degree of diversification of its investments.

A sub-fund largely invested in UCIs/UCITS will ensure that its portfolio of UCIs/UCITS presents an adequate liquidity profile so as to be able to meet its own liquidity needs. The selection of these UCIs/UCITS will take account of their liquidity profile and any sub-fund investing largely in UCIs/UCITS

with variable capital shall ensure that the targeted UCI/UCITS has a liquidity profile matching that of the sub-fund.

If the sub-fund invests in units of other UCITS and/or other UCIs that are managed directly or on a delegated basis by the same Management Company or by any other company to which the Management Company is linked by common management or control or by a significant direct or indirect equity interest, the Management Company or other company may not invoice subscription or redemption fees for the sub-fund's investment in units of other UCITS and/or UCIs.

Investing in other UCITS and/or other UCIs may lead to a multiplication of certain costs and expenses. The cumulative management costs (including investment management costs and performance fees) invoiced both to the sub-fund and to the other UCITS and/or UCIs may not as a rule exceed 5%.

Commodities risk:

Commodities markets can experience large and sudden price fluctuations likely to have a direct effect on the value of shares and equivalent securities in which a sub-fund may invest and/or indices to which a sub-fund may be exposed.

In addition, the underlying assets may evolve very differently from traditional securities markets (share markets, bond markets, etc.).

Risk linked with structured debt securities:

Structured debt securities and securitisation instruments entail the following risks: credit risk, default risk, rating downgrading risk (on the different tranches of underlying assets) and liquidity risk.

Concentration risk

The sub-funds that invest in a concentrated portfolio can be exposed to greater volatility than sub-funds whose portfolio is more diversified.

Total Return Swaps

Accordingly, it is anticipated that the risk of loss related to total return swaps will be limited to the net difference between the total return of a reference investment, index or basket of investments and the fixed or floating payments. In the event of default by the counterparty to a total return swap, and in normal circumstances, the risk of loss for the sub-fund consists of the net amount of interest payments or of the total return that the sub-fund is contractually entitled to receive.

The use of total return swaps is a highly specialised activity that involves different investment techniques and risks from those associated with ordinary transactions on the securities in the portfolio. If the Manager's projections of market values, interest rates or exchange rates are incorrect, the sub-fund's performance will be less favourable than it would be if this investment technique had not been used.

The above information is not exhaustive. It is not intended to constitute, nor does it constitute, a legal opinion. In the case of doubt, potential investors should carefully read the Prospectus and consult their tax advisers as to the implications of subscribing or trading shares.

THE SHARES

1. GENERAL

The capital of the SICAV is represented by the assets of the various sub-funds of the SICAV. Subscriptions are invested in the assets of the respective sub-fund.

All shares of the SICAV must be fully paid up. Their issue is not limited in number.

The shares of each sub-fund must have no indication of nominal value, and do not benefit from any preferential subscription rights during the issue of new shares. The rights attached to shares are those set out in the Law of 1915, unless exempted by the Law 2010. Each full share confers the right to one vote at General Meetings of Shareholders, regardless of its net asset value.

The SICAV is a sole and single legal entity. However, the assets of a given sub-fund only cover the debts, liabilities and commitments of that sub-fund. In relations among shareholders, each sub-fund is considered as a separate entity.

For each sub-fund, the Board of Directors may decide at any time to issue different share classes, which can also be subdivided into different share categories (capitalisation shares or distribution shares).

In principle, distribution shares give their owners the possibility of receiving cash dividends, taken from the quota of net assets of the sub-fund or class attributable to the distribution shares in that sub-fund or that class (in this regard, see the "Distributions" chapter).

Capitalisation shares do not confer the possibility of receiving dividends. Following each annual or interim cash distribution of dividends on the distribution shares, the quota of net assets in the sub-fund or class attributed to all the distribution shares will be reduced by an amount equal to the amount of dividends distributed, and this will therefore reduce the percentage of net assets in the sub-fund or class attributable to all the distribution shares, while the quota of net assets in the sub-fund or class attributable to all the capitalisation shares will remain the same, thus leading to an increase in the percentage of net assets of the sub-fund or class attributable to all the capitalisation shares.

The breakdown of the value of net assets in a sub-fund or class, between all the distribution shares on the one hand and all the capitalisation shares on the other, is carried out in accordance with the SICAV's Articles of Association.

The net value of a share thus depends on the value of the net assets in the sub-fund or class for which that share was issued and, within the same sub-fund or the same share class, its net value may vary depending on whether it is a distribution share or capitalisation share.

The Board of Directors will create a separate pool of net assets for each sub-fund. With regard to relations between shareholders, this pool will be attributed only to the shares issued for the sub-fund concerned, taking into account, if applicable, the breakdown of that pool between the classes and the distribution shares and capitalisation shares in that sub-fund.

The Board of Directors is authorised to split or consolidate shares.

In accordance with the specifics given in the annexes describing the sub-funds, shares may be issued in either registered or paperless form.

Registered shares are registered in the register of shares of the SICAV. A confirmation of registration will be provided to the shareholder. No registered certificate will be issued to the shareholders.

Transfer documents for transfers of registered shares are available at the registered office of the SICAV or from the Transfer Agent and the Registrar.

Paperless shares are represented by an entry in a securities account in the name of their owner or holder, with an approved account holder or settlement body.

The entry in the securities account will apply in the absence of specific instructions.

Registered shares may be converted into paperless shares and vice versa at the request and expense of the shareholder.

Fractions of shares may be issued, up to 3 decimal places. Fractions of shares do not have the right to vote at General Meetings. Conversely, fractions of shares have the right to dividends or other distributions that may be paid out.

2. DESCRIPTION OF SHARES

The annexes detailing the sub-funds of the SICAV will propose one or more share classes from among those described below:

- Class A** > distribution shares offered to the public.
- Class A EUR Hedged** > distribution shares which differ from class A shares in that the exchange risk against the euro is hedged. The Manager must take measures to systematically hedge the exchange risk in relation to the sub-fund's reference currency within a tolerance threshold defined in the information on the sub-fund. *Investors are advised that implementing an exchange risk hedging policy may result in additional costs as mentioned in the information on the sub-fund.*
- Class B** > capitalisation shares offered to the public.
- Class B EUR** > capitalisation shares which differ from class B shares in that the exchange risk

- Hedged** against the euro is hedged. The Manager must take measures to systematically hedge the exchange risk in relation to the sub-fund's reference currency within a tolerance threshold defined in the information on the sub-fund. *Investors are advised that implementing an exchange risk hedging policy may result in additional costs as mentioned in the information on the sub-fund.*
- Class E** > distribution shares which differ from class A shares in that they are reserved for institutional investors within the meaning of Article 174 (2) of the Law of 2010.
- Class E EUR Hedged** > distribution shares which differ from class "E" shares in that the exchange risk against the euro is hedged. The Manager must take measures to systematically hedge the exchange risk in relation to the sub-fund's reference currency within a tolerance threshold defined in the information on the sub-fund. *Investors are advised that carrying out an exchange risk hedging policy may result in additional costs as mentioned in the information on the sub-fund.*
- Class F** > capitalisation shares which differ from class B shares in that they are reserved for institutional investors within the meaning of Article 174 (2) of the Law of 2010.
- Class F EUR Hedged** > capitalisation shares which differ from class F shares in that the exchange risk against the euro is hedged. The Manager must take measures to systematically hedge the exchange risk in relation to the sub-fund's reference currency within a tolerance threshold defined in the information on the sub-fund. *Investors are advised that carrying out an exchange risk hedging policy may result in additional costs as mentioned in the information on the sub-fund.*
- Class I** > distribution shares which differ from class E shares in that (i) they are reserved (i) for institutional or professional investors currently holding one or more discretionary management mandates with one or more Degroof Petercam Group companies, (ii) for the account(s) to which these discretionary management mandates apply, and in that (iii) they have a different management fee.
- Class J** > capitalisation shares which differ from class F shares in that (i) they are reserved (i) for institutional or professional investors for which there are currently one or more discretionary management mandates with one or several companies of the Degroof Petercam Group, (ii) for the account(s) to which these discretionary management mandates apply, and in that (iii) they have a different management fee.
- Class J EUR Hedged** > capitalisation shares which differ from class "J" shares in that the exchange risk against the euro is hedged. The Manager must take measures to systematically hedge the exchange risk in relation to the sub-fund's reference currency within a tolerance threshold defined in the information on the sub-fund. *Investors are advised that carrying out an exchange risk hedging policy may result in additional costs as mentioned in the information on the sub-fund.*
- Class M** > distribution shares which differ from class A shares in that (i) they are reserved for investors for which there are currently one or more discretionary management

mandates with one or more companies of the Degroef Petercam Group, (ii) they are reserved for the account(s) to which these discretionary management mandates apply, and due to the fact (iii) they are reserved for “all-in” mandates within the meaning of the rates charged by Banque Degroef Petercam or the group company concerned and in that (iv) they have a different management fee. In this context, “all-in” includes at least the management fees and custody fees charged on the account(s) to which these “all-in” discretionary management mandates apply.

Class M EUR Hedged > distribution shares which differ from class “M” shares in that the exchange risk against the euro is hedged. The Manager must take measures to systematically hedge the exchange risk in relation to the sub-fund’s reference currency within a tolerance threshold defined in the information on the sub-fund. *Investors are advised that carrying out an exchange risk hedging policy may result in additional costs as mentioned in the information on the sub-fund.*

Class N > capitalisation shares which differ from class B shares in that (i) they are reserved for investors for which there are currently one or more discretionary management mandates with one or more companies of the Degroef Petercam Group, (ii) they are reserved for the account(s) to which these discretionary management mandates apply, and due to the fact (iii) they are reserved for “all-in” mandates within the meaning of the rates charged by Banque Degroef Petercam or the group company concerned and in that (iv) they have a different management fee. In this context, “all-in” includes at least the management fees and custody fees charged on the account(s) to which these “all-in” discretionary management mandates apply.

Class N EUR Hedged > capitalisation shares which differ from class “N” shares in that the exchange risk against the euro is hedged. The Manager must take measures to systematically hedge the exchange risk in relation to the sub-fund’s reference currency within a tolerance threshold defined in the information on the sub-fund. *Investors are advised that carrying out an exchange risk hedging policy may result in additional costs as mentioned in the information on the sub-fund.*

Class P > capitalisation shares which differ from class F shares by the absence of (i) a management fee and (ii) a minimum initial subscription amount and in that they are (i) they are reserved for investors currently holding one or more discretionary management mandates with Degroef Petercam Asset Management and (ii) they are reserved for the account(s) to which these discretionary management mandates apply.

Class P EUR Hedged > capitalisation shares which differ from class P shares in that the exchange risk against the euro is hedged. The Manager must take measures to systematically hedge the exchange risk in relation to the sub-fund’s reference currency within a tolerance threshold defined in the information on the sub-fund. *Investors are*

advised that implementing an exchange risk hedging policy may result in additional costs as mentioned in the information on the sub-fund.

- Class V**
 - > distribution shares which differ from class A shares in that (i) at the discretion of the Management Company they may be offered, under certain special circumstances, in the United Kingdom, Switzerland and European Union Member States, excluding Banque Degroof Petercam Belgium and Bank Degroof Petercam Luxembourg, (ii) that they may be distributed by certain distributors and platforms which have separate remuneration agreements with their customers that are not subject to a rebate, and (iii) that they are not subject to any rebate on management fees.
- Class W**
 - > capitalisation shares which differ from class B shares in that (i) at the discretion of the Management Company they may be offered, in the United Kingdom, Switzerland and European Union Member States, excluding Banque Degroof Petercam Belgium and Bank Degroof Petercam Luxembourg, (ii) that they may be distributed by certain distributors and platforms which have separate remuneration agreements with their customers that are not subject to a rebate, and (iii) that they are not subject to any rebate on management fees.
- Class Z**
 - > capitalisation shares which differ from class F shares in that they are reserved (i) for investors initially subscribing the minimum amount of EUR 25,000,000 and in that (ii) they have a different management fee, it being understood that shareholders investing in this class may not request the redemption of their shares so as to reduce their level of investment to below the minimum initial subscription amount.

The available share classes for each sub-fund are shown in the fact sheet for each sub-fund.

3. ISSUE AND SUBSCRIPTION PRICE OF SHARES

In each sub-fund, class and category, the SICAV may issue shares at the subscription price determined on each day of valuation of the net share price (the "Valuation Day").

When the sub-funds are open for subscription, the SICAV may set an initial subscription period during which the shares may be issued at a fixed subscription price, plus the applicable share issue fees.

The shares will be issued in the various sub-funds, classes and categories at a subscription price that is formed of:

- the net value of a share plus where applicable an entry fee or
- a fee in accordance with the specifics given in the annexes describing the sub-funds.

The Valuation Days, deadlines for receipt of subscription applications and deadlines for payment of subscriptions, and where applicable the minimum subscription amounts are described in the annexes detailing the sub-funds.

The Board of Directors reserves the right to delay subscription applications if it is uncertain that the corresponding payment will reach the Custodian Bank within the payment deadlines.

If a payment is received in connection with a subscription application after the expiry of the deadline provided for, the Board of Directors or its agent may process the request by either (i) applying a charge which reflects the interest owed at the customary market rate, or (ii) cancelling the allocation of the shares and, if necessary, accompanying it with a request for compensation for any loss resulting from the non-payment before the expiry of the deadline.

The SICAV may also accept subscriptions in the form of a transfer of an existing portfolio provided that the securities and assets in that portfolio compatible with the investment policy and investment restrictions applicable to the sub-fund concerned. For all securities and assets accepted in settlement of a subscription, a report shall be drawn up by the approved auditor of the SICAV in accordance with the provisions of Article 26-1 of the amended Law of 10 August 1915. The investor concerned will be liable for the costs of this report.

The shares will be allocated on the first business day following receipt of the subscription price.

When an investor subscribes shares of the SICAV through a financial agent, he could also be liable for the costs arising from the financial agent's activity in the jurisdiction where the offer is made.

The SICAV authorises the subscription of shares through savings plans, the conditions for which shall be determined in accordance with laws and practices in the jurisdiction in which the offer is made. The conditions will be detailed in the sales documentation available for subscriptions in these countries.

The SICAV reserves the right to reject any subscription application or to accept only part of it. The Board of Directors may also, at any time, and without notice, interrupt the issue and sale of shares in one or more or all of the sub-funds or classes.

The Board of Directors of the SICAV may at any time suspend or interrupt the issue of the shares of a sub-fund of the SICAV. In particular, it may do so in the circumstances described in the "Net Asset Value of the Shares" chapter, section 2 "Suspension of the calculation of the net asset value and the issue, redemption and conversion of shares". In addition, it may at its discretion and without justification:

- (a) refuse all or part a share subscription application,
- (b) redeem at any time shares held by persons who are not authorised to buy or hold shares in the SICAV.

When the Board of Directors decides to resume the issue of the shares of a sub-fund after suspending the issue for any period of time, all pending subscriptions will be executed on the basis of the same net asset value corresponding to the Valuation Day of the resumption of calculation.

The central administration will put in place adequate procedures to ensure that the subscription applications are received prior to the deadline for acceptance of orders, for the applicable Valuation Day.

No shares will be issued for a sub-fund during any period in which calculation of the net value of the shares in that sub-fund has been temporarily suspended by the SICAV by virtue of its powers under Article 12 of the Articles of Association.

a) Combating late trading and market timing

The Transfer Agent and Registrar of the SICAV will put in place adequate procedures to ensure that the request for subscription, redemption and conversion are received prior to the deadline for acceptance of orders, for the applicable Valuation Day. Subscriptions, redemptions and conversion orders are executed at an unknown net asset value.

The SICAV does not authorise Late Trading or Market Timing practices as defined in Circular CSSF 04/146. Both the active trading and market timing practices are unfavourable to other shareholders as they affect the performance of the sub-fund and disrupt the management of assets.

The Board of Directors may reject any subscription or conversion orders that are suspected of late trading or market timing. The Board of Directors may take all necessary measures to protect the other shareholders of the SICAV when such practices are suspected, in particular by applying an additional redemption fee of up to 2% in favour of the sub-fund; under this scenario, the shareholder will be notified beforehand to enable him to withdraw his redemption request.

b) Combating money laundering and terrorism financing

In connection with the fight against money laundering and terrorism financing, the SICAV will apply national and international measures which obligate subscribers to prove their identity to the SICAV. This is why, in order for a subscription to be deemed valid and acceptable by the SICAV, the subscriber must attach to the subscription form,

- if an *individual*, a copy of an identity document (passport or ID card), or,
- if a legal entity, a copy of the corporate documents (coordinated articles of association, published financial statements, extracts from the commercial register, list of authorised signatories, list of

shareholders who hold, directly or indirectly, 25% or more of the capital or the voting rights, list of directors, etc.), an ID document (passport or identity card) of the financial beneficiaries and the persons authorised to give instructions to the transfer and registrars.

The documents must be duly certified by a public authority (that the Notary Public, police commissioner, consulate, or ambassador) in the country of residence.

This obligation is absolute, unless:

- a) the subscription form was delivered to the SICAV by one of its distributors (i) in a European Union member state, in the European economic area or in a third-party country with equivalent obligations to those in the amended law of 12 November 2004 on the fight against money laundering and terrorism financing, or (ii) by a branch or subsidiary of one of its distributors located in another country, if the parent company of that subsidiary or office is located in one of these countries and if the laws in that country and the internal rules of the parent company can guarantee the application of rules on the prevention of money laundering and terrorism financing, for that branch or subsidiary, or
- b) the subscription form is sent directly to the SICAV and the subscription is paid either by:
 - a bank transfer originated by a financial institution resident in one of these countries, or
 - a cheque drawn on the personal account of the subscriber, in a bank resident in one of these countries, or a banker's draft issued by bank resident in one of these countries.

However, the Board of Directors must obtain a copy of the above ID documents, upon first request, from its Distributors or directly from the investor.

Before accepting a subscription, the SICAV may carry out additional enquiries in accordance with the national and international measures currently in force with regard to money laundering and the financing of terrorism.

4. REDEMPTION OF SHARES

a) General

By virtue of the Articles of Association and subject to the following provisions, any shareholder may at any time request that the SICAV redeem his shares. Shares redeemed by the SICAV will be cancelled.

b) Redemption procedure

Shareholders wishing to have the SICAV redeem all or part of their shares must make an irrevocable written request to the SICAV or the Transfer Agent and the Registrar. The application must contain the following information: the identity and full address of the person requesting the redemption, with the fax number, number of shares to be redeemed, the sub-fund in question, the class (if applicable), details of whether the shares are registered or paperless, distribution or capitalisation shares, if applicable, the name in which the shares are registered, the name and bank details of the person who will receive the payment.

The redemption request must be accompanied by the documents necessary to carry out the transfer, before the redemption price can be paid.

The deadlines for receipt of redemption applications and for payment of the redemptions are described in the annexes detailing the sub-funds.

There will be no redemption of shares for a sub-fund during any period in which the calculation of the net asset value of the shares in that sub-fund has been temporarily suspended by the SICAV by virtue of its powers under Article 12 of the Articles of Association.

In the case of large requests for redemption and/or conversion representing more than 10% of the net assets in a given sub-fund, the SICAV may redeem the shares but only at the redemption price it has determined after it was able to sell the necessary assets, as quickly as possible, taking into account the interests of all the sub-fund's shareholders, and when it has access to the proceeds of those sales. In such a case, a single price will be calculated for all the redemption, subscription and conversion applications submitted at the same time for that sub-fund.

Any request for redemption may also be delayed in exceptional circumstances if the Board of Directors considers that the execution of a request for redemption or conversion on a Valuation Day may adversely affect or prejudice the interests of the sub-fund or the SICAV.

Payment will be made in the currency in which the net asset value of the relevant sub-fund or class/class of shares is calculated or in another currency in accordance with the instructions set out in the redemption request, in which case conversion costs will be borne by the shareholder.

The redemption price of the SICAV's shares may be higher or lower than the purchase price paid by the shareholder at the time of subscription, depending on whether the net asset value has appreciated or depreciated.

5. CONVERSION OF SHARES

In accordance with the Articles of Association and subject to the following provisions, each shareholder may request the conversion of all or part of their shares into shares of another sub-fund or another class/category (and with such other sub-fund, either of the same class/category or of another class/category) at a price based on the respective net asset values of the shares of the different sub-funds and classes/categories concerned.

Any shareholder requesting such conversion may make a written request to the Transfer Agent and Registrar stating the number and form of the shares to be converted and specifying whether the shares of the new sub-fund/the new class/category are to be registered or paperless. The procedure and prior notice regarding the redemption of shares also applies to conversion.

The number of shares to be allocated in the new sub-fund or the new class/category is determined using the following formula:

$$A = \frac{B \times C \times D}{E}$$

- A:** represents the number of shares to be allocated in the new sub-fund or the new class/category,
- B:** represents the number of shares to be converted in the initial sub-fund or class/category,
- C:** represents the net asset value, on the applicable Valuation Day, of the shares to be converted in the initial sub-fund or class/category,
- D:** is the exchange rate coefficient on the applicable Valuation Day between the currencies of the two sub-funds or classes/categories concerned. If the two sub-funds or classes/categories are held in the same currency, the coefficient is equal to 1,
- E:** represents the net asset value, on the applicable Valuation Day, of the shares to be allocated in the new sub-fund or new class/category.

Fractions of shares that may result from the conversion will be allocated up to 3 decimal places.

After the conversion, the Transfer Agent and the Registrar will inform the shareholders of the number of new shares obtained upon conversion, as well as their price.

There will be no conversion of shares during any period in which calculation of the net value of the shares in question has been temporarily suspended by the SICAV by virtue of its powers under Article 12 of the Articles of Association.

In the case of large requests for redemption and/or conversion representing more than 10 % of the net

assets in a given sub-fund, the SICAV may redeem the shares but only at the redemption price it has determined after it was able to sell the necessary assets, as quickly as possible, taking into account the interests of all the sub-fund's shareholders, and when it has access to the proceeds of those sales. In such a case, a single price will be calculated for all the redemption, subscription and conversion applications submitted at the same time for that sub-fund.

6. STOCK EXCHANGE LISTING

The annexes detailing the sub-funds will state whether the shares are admitted or not for official listing on the Luxembourg Stock Exchange or any other stock exchange.

NET ASSET VALUE OF THE SHARES

1. DEFINITION AND CALCULATION OF THE NET ASSET VALUE

The net asset value per share (the “net asset value” or “NAV”) of each sub-fund and each class/category, where applicable, of shares of the SICAV is calculated in Luxembourg by the Central Administration under the responsibility of the Board of Directors of the SICAV, on each Valuation Day indicated in the annexes detailing each sub-fund. If a Valuation Day falls on an official public holiday in Luxembourg, the Valuation Day will be the next bank business day.

The net asset value per share of each sub-fund and class and category of shares is obtained by dividing the net assets of the sub-fund, class and category concerned, if any, by the number of shares outstanding of such sub-funds, classes and categories, if any, and is rounded to two places after the decimal point, except for those currencies for which there are no decimals.

If the Board of Directors considers that the net asset value calculated for a given Valuation Day is not representative of the actual value of the shares of the sub-fund or class/category of shares concerned or, if since the calculation of the net asset value there have been significant fluctuations on the stock exchanges concerned, the Board of Directors may decide the same day to update the net asset value. In these circumstances, all subscription, redemption and conversion requests received for that day will be honoured on the basis of the net asset value as updated prudently and in good faith.

Swing Pricing

The Board of Directors of the SICAV is authorised to decide to apply swing pricing to the different sub-funds.

Swing pricing allows the various sub-funds of the SICAV to settle the transaction fees arising from the subscriptions and redemptions of entering and exiting investors. With swing pricing, existing investors should, in principle, no longer indirectly incur the transaction fees, which will now be directly integrated into calculation of the NAV and borne by the entering and exiting investors.

The NAV will be adjusted only when a given threshold value is reached. The board of directors of the SICAV determines a threshold value as the trigger event for net subscriptions and redemptions. This threshold value is defined per sub-fund and expressed as a percentage of the total net assets of the sub-fund in question.

In swing pricing, the NAV is adjusted to reflect the net transaction fees on each NAV calculation if this threshold value is exceeded.

The direction of the swing depends on the net flow of capital applicable to a NAV. In the case of a net inflow of capital, the swing factor linked to subscriptions of shares in the sub-fund will be added to the NAV. For net redemptions, the swing factor linked to redemptions of shares in the sub-fund in question will be deducted from the NAV. In both cases, all entering/exiting investors on a given date will have the same NAV applied.

The swing factors with which the NAV is adjusted are calculated on the basis of external brokerage charges, taxes and duties and estimated variances between the buy and sell prices of the transactions that the sub-fund carries out following share subscriptions and redemptions.

If a performance fee is due, it will be calculated prior to application of the swing factor on the applicable NAV.

When a threshold value defined by the Board of Directors is reached, the NAV may be adjusted for the net transaction fees. The swing factor is determined by the SICAV's Board of Directors and will not exceed 3% of the unadjusted NAV.

The Board of Directors will create a separate pool of net assets for each sub-fund. With regard to shareholder relations between themselves and with third parties, this pool will be attributed only to the shares issued for the sub-fund concerned, taking into account, if applicable, the breakdown of that pool between the categories and/or classes of shares of the sub-fund in accordance with the provisions of the Articles of Association.

For the purpose of establishing these different pools of net assets:

1. If two or more classes/categories of shares relate to a specific sub-fund, the assets allocated to such classes and/or categories will be invested together according to the investment policy of the relevant sub-fund, subject to the specific requirements associated with those classes and/or categories of shares;
2. The proceeds resulting from the issue of shares of a class and/or class of shares of a given sub-fund will be allocated in the books of the SICAV to the relevant class and/or category of that sub-fund, it being understood that if several classes and/or categories of shares are issued for that sub-fund, the corresponding amount will increase the proportion of the net assets of that sub-fund attributable to the class and/or category of shares to be issued;
3. The assets, liabilities, income and expenses relating to such sub-fund/class and/or category will be allocated to such sub-fund/class and/or category;

4. if an asset derives from another asset, the latter will be allocated in the accounts of the SICAV to the same sub-fund as the asset from which it derives, and each time an asset is revalued, any increase or decrease in value will be allocated to the corresponding sub-fund;
5. if the SICAV has a liability that is attributable to an asset of a specific sub-fund or a transaction undertaken in connection with the assets of a particular sub-fund, that liability will be allocated to that sub-fund;
6. if one of the SICAV's assets or liabilities cannot be allocated to a particular sub-fund, it will be allocated to all sub-funds in proportion to the net asset value of the classes and/or categories of shares concerned or in such other manner as the Board of Directors shall determine in good faith;
7. following the payment of dividends to distribution shares of a given class and/or category, the net asset value of this class and/or category attributable to these distribution shares will be reduced by the amount of such dividends.

The assets of each sub-fund will be valued according to the following principles:

The assets of the SICAV include:

- 1) 1. all cash in hand or on deposit, including interest due that is not yet received and accrued interest on such deposits until the Valuation Day;
- 2) all sight and demand drafts payable and accounts receivable, included proceeds from the sale of securities, the price of which has not yet been settled;
- 3) all securities, units, shares, bonds, subscription rights, warrants, options and other securities, financial instruments and similar assets owned by the SICAV or contracted by it, it being understood that the SICAV may make adjustments in a way that is not inconsistent with paragraph (a) below with regards to fluctuations in the market value of the securities caused by practices such as ex-dividend or ex-rights trading or similar processes;
- 4) all units or shares of other eligible undertakings for collective investment.
- 5) all dividends in cash or shares and distributions receivable by the SICAV in cash to the extent that the SICAV could reasonably be aware of them;
- 6) all accrued interest on the interest-bearing assets belonging to the SICAV, unless such interest is included or reflected in the price of such assets;
- 7) the SICAV's formation expenses insofar as they have not been amortised;
- 8) all other eligible assets held by the SICAV, of any type, including prepaid expenses.

The value of these assets shall be determined as follows:

- (a) The value of cash in hand or on deposit, the sight notes and bills and accounts receivable, prepaid expenses, dividends and interest that are announced or due, as mentioned above, but not yet received, shall consist of the nominal value of these assets. If, however, it is unlikely that this value will be collected in full, the value will be determined by subtracting an amount that the SICAV deems appropriate to reflect the true value of such assets.
- (b) The valuation of all of the securities negotiated or listed on a stock exchange will be determined using the last price known in Luxembourg which is normally the principal market for that security.
- (c) The valuation of all of the securities or any other asset that are traded on another regulated market which operates regularly, is recognized and which is open to the public (a "Regulated Market") will be based on its last available price in Luxembourg.
- (d) If transferable securities are not traded or quoted on a stock exchange or on another regulated market, or if the price determined for securities traded or quoted on such stock exchange or market in accordance with the provisions of (b) or (c) above is not, in the opinion of the Board of Directors, representative of the probable realisation value, they will be valued on the basis of their probable realisation value, which will be estimated prudently and in good faith;
- (e) Units or shares of undertakings for collective investment (including shares issued by the sub-funds of the SICAV that may be held by another sub-fund of the SICAV) will be valued at their last determined and available net asset value or, if such price is not, in the opinion of the Board of Directors, representative of the fair market value of these assets, then the price will be determined by the Board of Directors on a fair and equitable basis.
- (f) The liquidation value of spot contracts, forward contracts and option contracts which are not traded on the stock exchanges or other Regulated Markets shall be their net liquidation value defined in accordance with the policies set out by the Board of Directors on a basis which is applied consistently to each type of contract. The liquidation value of spot contracts, forward contracts or option contracts traded on stock exchanges or other Regulated Markets will be based on the last available settlement price for these contracts on the stock exchanges Regulated Markets on which these spot contracts, forward contracts or option contracts are traded by the investment company with variable capital; however, if a spot contracts, forward contracts or option contracts cannot be liquidated on the day the net assets are valued, the basis used to determine the liquidation value of this contract shall be determined by the Board of Directors in a fair and reasonable manner. Swaps are measured at their market value.
- (g) The value of money market instruments not traded or quoted on a stock exchange or other Regulated Market and having a residual maturity of less than 12 months and more than 90 days will be their nominal value plus accrued interest. Money market instruments with a residual maturity equal to or less than 90 days will be valued on an amortised cost basis, which approximates market value.
- (h) Interest rate swaps shall be valued at their market value which shall be calculated based on the curve for the applicable interest rates.

- (i) Values expressed in a currency other than the currency of expression of the sub-fund or class of shares in question are translated at the exchange rate on the Valuation Day. If exchange rates are not available, they are determined prudently and in good faith in accordance with the procedures established by the Board of Directors;

All the other assets are valued on the basis of the probable realisation value, which should be estimated with prudence and good faith.

The Board of Directors may, at its sole discretion, approve the use of a different valuation method if it believes that such valuation better reflects the fair value of an asset held by a SICAV.

2. SUSPENSION OF THE CALCULATION OF THE NET ASSET VALUE, THE ISSUE PRICE, REDEMPTION AND CONVERSION OF SHARES

The Board of Directors is authorised to temporarily suspend the calculation of the value of the net assets of one or more sub-funds of the SICAV, and the issue, redemption and conversion of shares in such sub-fund(s) in the following cases:

- a) throughout any period during which one of the leading stock exchanges, or one of the other leading markets on which a substantial part of the SICAV's investments attributable to the sub-fund concerned is listed or traded, is closed otherwise than for ordinary holidays, or during which transactions on these exchanges are restricted or suspended;
- b) during any event constituting an emergency situation, in the opinion of the Board of Directors, and rendering difficult the realisation or valuation of assets held by the SICAV and attributable to this sub-fund;
- c) during any breakdown of the communication means habitually used to determine the price or value of any investment of the sub-fund or the current prices and values, on any stock exchange or other market, of assets attributable to this sub-fund;
- d) throughout any period during which the SICAV is unable to repatriate funds for the purpose of making payments for the redemption of shares of this sub-fund or during which any transfer of funds necessary for making or acquiring investments or paying amounts due for the redemption of shares may not, in the opinion of the Board of Directors, take place at the normal exchange rate;
- e) when, for any other reason, it is impossible to determine quickly or accurately the price of any investment held by the SICAV and attributable to this sub-fund;
- f) in cases of notification or publication (i) of a notice for a General Meeting of shareholders at which a resolution for the dissolution and liquidation of the SICAV will be proposed, (ii) of a notice informing

the shareholders of the decision of the Board of Directors to liquidate one or more sub-funds, or (iii) to the extent that such suspension is justified by the need to protect shareholders, of a notice informing shareholders of the Board of Directors' decision to merge one or more sub-funds,

- g) throughout any period during which the market of a currency in which a substantial part of the SICAV's investments is denominated, is closed otherwise than for ordinary holidays, or during which transactions on this market are restricted or suspended;
- h) throughout any period during which political, military, monetary or fiscal circumstances beyond the control and the responsibility of the SICAV prevent it from disposing of the assets or determining in a usual and reasonable manner the net asset value of the SICAV;
- i) throughout any period during which calculation of the net value per unit or share of a substantial part of the undertakings for collective investment in which the SICAV invests is suspended, if such suspension significantly impacts the net value per share of a sub-fund;
- j) in cases of a feeder sub-fund, if its master UCITS temporarily suspends the redemption, repurchase or subscription of its units either on its own initiative or at the request of its competent authorities, and for the same period as the master UCITS,

Subscribers and shareholders offering shares for redemption or conversion will be appropriately notified of the suspension of the calculation of the net asset value.

Pending subscriptions and requests for redemption or conversion may be withdrawn by written notification provided that such notification is received by the SICAV before the end of the suspension.

Subscriptions, redemptions and/or conversions will be considered on the first Valuation Day following the end of the suspension.

DISTRIBUTIONS

Distribution policy

At the Annual General Meeting the shareholders in the SICAV will determine, upon a proposal by the Board of Directors, the total cash distributions to be made on the distribution shares for the various sub-funds or classes of shares in question, in accordance with the limits imposed by the Law of 2010 and by the Articles of Association. Therefore, the distributed amounts may not reduce the SICAV's capital below the fixed minimum of EUR 1,250,000.

The Board of Directors may decide, in any sub-fund and in each share class, if any, to distribute interim cash dividend on the distribution shares, in accordance with current laws.

Payment

Dividends and interim dividends allocated to distribution shares will be paid at the time and place determined by the Board of Directors.

Any declared dividend that has not been claimed by the beneficiary within five years from the date of allocation may not be claimed and shall revert to the sub-fund or the share class in question. No interest will be paid on a dividend declared by the SICAV and kept for the availability of the beneficiary.

TAXATION

1. FISCAL TREATMENT OF THE SICAV

The SICAV is subject in Luxembourg to a tax corresponding to 0.05% p.a. of its net assets. This tax falls to 0.01% p.a. of net assets in the case of share classes reserved for institutional investors as defined by the Law of 2010. This tax is calculated and payable quarterly on the basis of the net assets of the SICAV at the end of the relevant quarter. Subscription tax is not payable on round lots of assets invested in UCIs already subject to this tax.

No stamp duty or other tax is payable in Luxembourg at the time of issue of shares in the SICAV.

No taxes are paid in Luxembourg on any gains that are realised or not realised on the SICAV's assets. The income on investments received by the SICAV may be subject to variable levels of withholding tax in the countries concerned. These withholding taxes cannot, on principle, be recovered. The above indications are based on the laws and current practices and are subject to change.

2. FISCAL TREATMENT OF SHAREHOLDERS

From the fact of their ownership of shares of the SICAV, shareholders are not required to pay any tax in Luxembourg on income and capital gains tax, withholding tax (except, however, in respect of shareholders having their domicile or residence or permanent establishment in Luxembourg, and certain categories of former residents of Luxembourg if they own more than 10% of the share capital of the SICAV).

3. AUTOMATIC EXCHANGE OF INFORMATION

European Directive 2014/107/EU of 9 December 2014 (the "Directive") amending Directive 2011/16/EU regarding the automatic and mandatory exchange of tax information, along with other international agreements such as those made and to be made within the framework of the standard in terms of exchanges of information produced by the OECD (more generally known under the name of "Common Reporting Standards" or "CRS") requires participating jurisdictions to obtain information from their financial institutions and to exchange this information with effect from 1 January 2016.

Pursuant notably to the Directive, investment funds, as financial institutions, are required to collect specific information in order to properly identify their investors.

The Directive also provides that the personal and financial data¹ of investors who are:

- of natural or legal persons required to make declarations² or
- passive non-financial entities (NFE)³ which are controlled by persons who are required to submit declarations⁴,

shall be forwarded by the Financial Institution to the relevant local tax Authorities which in turn shall notify this information to the tax Authorities in the country or countries where the Investor resides.

If the units of the SICAV are held in an account with a financial institution, it is the responsibility of the latter to exchange the information.

Consequently, the SICAV, directly or indirectly (i.e. through an intermediary appointed to this effect):

- may, at any time and for whatever reason, ask for and obtain from each investor an update of the documents and information already provided, as well as any other document or additional information;
- is obliged, by the Directive, to notify all or part of the information provided by the investor regarding the investment in the SICAV to the relevant local tax authorities.

Investors are advised of the potential risk of inaccurate and/or incorrect exchange of information in the event that the information they provide is no longer accurate or complete. In the event of a change affecting the notified information, the investor undertakes to inform the SICAV (or any intermediary appointed to this effect), as soon as possible and to provide, where applicable, new certification within 30 days with effect from the event that rendered this information inaccurate or incomplete.

The mechanisms and scope of application of these arrangements for exchanging information may change in future. It is recommended that all investors consult their own tax advisers to ascertain the possible impact of CRS regulations on an investment in the SICAV.

¹ Including but not limited to: name, address, country of residence, tax identification number, place and date of birth, bank account number, income, value of sales redemption or repayment proceeds, valuation of the "account" at the end of the calendar year or at the end thereof.

² Natural or legal persons not residing in the country of incorporation of the Fund but residing in a participating country. The list of countries taking part in the automatic exchange of information may be consulted on the <http://www.oecd.org/tax/automatic-exchange/> site.

³ Non-Financial Organisation Entity, that is an Organisation Entity which is not a Financial Organisation Entity according to the Directive.

⁴ Natural or legal persons not residing in the country of incorporation of the Fund but residing in a participating country. The list of countries taking part in the automatic exchange of information may be consulted on the <http://www.oecd.org/tax/automatic-exchange/> site.

4. FOREIGN ACCOUNT TAX COMPLIANCE ACT ("FATCA")

The Foreign Account Tax Compliance Act ("FATCA"), consisting of the American HIRE Law, was adopted in the USA in 2010 and came into force on 1 July 2014. It obligates financial institutions established outside of the USA (foreign financial institutions - FFI) to transmit information about the financial accounts held by Specified US Persons or non-US entities of which one or more controlling persons is/are a Specified US Person(s) (These financial accounts are collectively referred to as "Declarable US Accounts") to the Internal Revenue Service, "IRS") each year. A 30% withholding tax is also levied on income originating from the USA paid to a FFI that is not conform to the FATCA requirements ("Non-participating FFI").

On 28 March 2014, the Grand Duchy of Luxembourg made an intergovernmental agreement with the USA ("the Luxembourg IGA"). The Funds, considered as FFI, are obliged to conform to the Luxembourg IGA as enacted into national law following ratification, rather than directly complying with the FATCA regulations as issued by the American government.

Under the Luxembourg IGA, the Funds are required to collect specific information to identify their shareholders/unit holders and all intermediaries ("Nominees") acting on their behalf. The data on the Declarable US Accounts held by the Fund, and information about the non-participating FFI will be shared with the Luxembourg tax authorities who will automatically exchange the information with the relevant authorities in the USA.

The SICAV is committed to respecting the provisions of the Luxembourg IGA as enacted into national law following ratification, in order to be deemed compliant with FATCA, and may not be subjected to the withholding tax of 30% on its investments than American or deemed to be such. In order to guarantee such compliance, the SICAV and its authorised agents

- a. may require information or additional documentation including American tax forms (Forms W-8/W-9), a GIIN (Global Intermediary Identification Number) if required, or any other documentary evidence identifying the Shareholder/Unitholder, the intermediary and their status with regard to FATCA regulations.
- b. will inform the Luxembourg tax authorities of information about a Shareholder and his account, if deemed to be a Declarable US Account under the Luxembourg IGA, or whether that account is deemed to be held by a non-participating FFI for FATCA purposes, and
- c. if required by the situation, it may ensure that the US withholding taxes applicable to the payments made to certain Shareholders/Unitholders in accordance with FATCA, are made.

The concepts and terms of FATCA must be interpreted and understood in the light of the definitions of the Luxembourg IGA and the terms of its enactment into national law, and only on a secondary basis according to the definitions in the Final Regulations issued by the American government. (www.irs.gov).

The SICAV may, in accordance with FATCA compliance, be required to inform the American tax authorities or Luxembourg tax authorities of personal data related to certain US persons, non-participating FFI and passive non-financial foreign entities (Passive NFFE), of which one or more of the controlling Persons is a US Person.

In the case of any doubt as to their status for FATCA purposes or regarding the implications of the FATCA law or the IGA in their personal circumstances, investors should consult their financial, legal or fiscal advisers before subscribing to shares in the SICAV.

5. DIRECTIVE 2018/822/EU - "CAD 6"

Directive (EU) 2018/822 amending EU Council Directive 2011/16 on the automatic and obligatory exchange of information for tax purposes in relation to reportable cross-border arrangements, known as "CAD 6", entered into force on 25 June 2018. Luxembourg transposed it into national law on 25 March 2020. In view of the COVID-19 pandemic, on 24 June 2020 the EU Council adopted the possibility of postponing the initial notification dates for declarations by 6 months. Therefore, in Luxembourg, the original effective date of the CAD 6 Directive of 1 July 2020 is replaced by 1 January 2021.

The primary objective of the CAD 6 Directive is to ensure that Member States obtain information on "potentially aggressive" cross-border tax arrangements, i.e. arrangements that are set up in different jurisdictions that allow taxable profits to be shifted to more favourable tax regimes or that have the effect of reducing the taxpayer's total tax base.

As a result, from 1 January 2021, any intermediary⁵ (as defined in the CAD 6 Directive) is obliged to notify, by means of a declaration, within 30 days from the first steps of the implementation of the structure, any potentially aggressive cross-border device, depending on the marker⁶ identified.

The Management Company is a potential intermediary within the meaning of CAD 6 and may have to report cross-border devices that have one or more markers.

The CAD 6 Directive covers any scheme that was implemented on or after 25 June 2018, the date of entry into force of the Directive.

As a transitional measure, where the first step for the implementation of a cross-border scheme was taken between 25 June 2018 and 30 June 2020 and between 1 July 2020 and 31 December 2020, the scheme had to be declared by 28 February 2021 and 31 January 2021, respectively.

⁵ Any person who designs, markets or organises a notifiable transboundary device, makes it available for implementation or manages its implementation (Article 3, point 21).

⁶ A characteristic or feature of a cross-border arrangement that indicates a potential risk of tax evasion, [...] (Article 3, point 20).

Shareholders, as taxpayers, are likely to be secondarily responsible for the reporting of cross-border arrangements falling within the scope of the CAD 6 Directive and should therefore consult their tax advisors for further information.

COSTS AND EXPENSES

MANAGEMENT COMMISSION

The Management Company's remuneration in respect of management of the SICAV's various sub-funds is described in the appendices dedicated to these sub-funds. The Manager is remunerated directly by the Management Company.

CENTRAL ADMINISTRATION FEE AND DOMICILIARY FEE

In return for its services as central agent and domiciliary agent for the SICAV, the Management Company will receive, at the expense of each sub-fund of the SICAV, an annual fee at a maximum rate of 0.045% p.a.

Compensation is payable on a quarterly basis and calculated based on average net assets in each of the sub-funds during the quarter under review.

The Management Company will also receive an annual flat-rate fee of EUR 2,000 per active share class in the sub-fund concerned chargeable to each SICAV sub-fund, distributed among all the active share classes of the sub-fund concerned in proportion to the assets of each share class concerned.

+ VAT if applicable

DEPOSITARY FEE

As compensation for its depositary services for the SICAV, the Depositary shall receive an annual flat-rate fee of at a minimum rate of 0.025% p.a., chargeable to each SICAV sub-fund, excluding trading fees and corresponding charges.

This fee is payable on a quarterly basis and calculated based on average net assets in each of the sub-funds during the quarter under review.

+ VAT if applicable

OTHER COSTS AND EXPENSES

The SICAV will bear all its other operating costs including, without limitation, formation costs, costs of amendment of the Articles of Association and other instruments of incorporation, fees payable to supervisory authorities, fees payable to its Management Company, managers and investment advisers, including performance fees where applicable, and to distributors, costs and fees payable to accountants and auditors, to the custodian and its correspondents where applicable, to domiciliary, administrative, register and transfer agents, to the listing agent, to any paying agent, to the permanent representatives of the places where the SICAV must be registered and to any other employee of the SICAV, the remuneration of directors (where applicable) and employees of the SICAV as well as expenses

reasonably incurred by them, insurance costs and reasonable travel costs relative to meetings of the Board of Directors, costs incurred for legal assistance and auditing of the SICAV's annual accounts, costs incurred for legal, tax and accounting assistance and costs incurred on the advice of other experts or consultants, costs and expenses incurred for registering and maintaining registration of the SICAV with government authorities and stock exchanges in the Grand Duchy of Luxembourg or abroad, advertising costs including the preparation, printing, translation and distribution of the prospectus, key investor information documents, regular reports and registration declarations, the costs of reports to shareholders, all taxes and duties levied by government authorities and all similar taxes, all expenses related to development of the SICAV such as marketing costs, and all other operating expenses, including the costs of buying and selling assets, financial, bank or brokerage fees, postal service, telephone and telex costs and costs related to winding-up of the SICAV. The SICAV may take into account administrative and other expenses of a regular or periodic nature by estimating them for the year or for any other period.

REMUNERATION OF DIRECTORS

The SICAV may use the services of directors who are not employees of the Degroof Petercam Group. This may result in costs for the SICAV of at most EUR 15,000.00 per year, per director, to be paid by the SICAV. This does not include any taxes such as VAT where applicable, or any other related costs and expenses.

FINANCIAL YEAR - MEETINGS

1. COMPANY YEAR

The financial year starts on 1 January and ends on 31 December of the same year.

2. MEETINGS

The Annual General Meeting of Shareholders is held in Luxembourg at the registered office of the SICAV or at such other place as may be specified in the notice of meeting, on the second Wednesday of April at 11 a.m.

If this day is not a Business Day in Luxembourg, the Annual General Meeting shall be held on the following Business Day.

The notice of the Annual General Meetings specifying the date, time, place, conditions of admission, agenda and requirements of Luxembourg law with regard to the necessary quorum and majority will be published or sent in accordance with Luxembourg law. Subject to the conditions provided for by Luxembourg laws and regulations, the notice of convocation of any General Meeting of Shareholders may specify that the applicable quorum and majority shall be determined by reference to the shares issued and outstanding at a certain date and an hour before the General Meeting (the "Registration Date"), it being understood that the right of a shareholder to attend the General Meeting of Shareholders and the voting rights attached to his share(s) will be determined by reference to the shares held by the shareholder on the Registration Date.

The shareholders of the class(es)/category(ies) of shares issued for a sub-fund may at any time hold General Meetings for the purpose of considering matters relating solely to that sub-fund.

In addition, the shareholders of the class(es)/category(ies) of shares may at any time hold General Meetings for the purpose of considering matters relating solely to that class/category of shares.

Resolutions taken at such meetings apply to the SICAV, the sub-fund and/or the class/category of shares concerned.

DISSOLUTION AND LIQUIDATION OF THE SICAV

1. GENERAL

The SICAV may be dissolved on a voluntary basis or on a judicial basis.

The SICAV is, after its dissolution, deemed to exist for its liquidation. In case of voluntary liquidation, it is subject to the supervision of the CSSF.

The net product of the liquidation of each sub-fund and, if applicable, each class/category of shares, will be distributed by the liquidators to the shareholders in proportion to their quota of the net assets of the sub-fund or the class/category of shares from which the shares come, in accordance with the Articles of Association.

Liquidation proceeds which cannot be distributed to their beneficiaries within nine months of the decision to liquidate will be deposited with the Caisse de Consignation in Luxembourg in favour of their beneficiaries until the end of the legal prescription period.

2. VOLUNTARY LIQUIDATION

Any voluntary liquidation will be carried out in accordance with the Law of 2010 and the Law of 1915, which define the procedure and the measures to be taken.

The SICAV may be wound up at any time by a decision of the General Meeting of Shareholders which shall issue its decision according to the conditions required for amendment of the Articles of Association.

In addition, if the Company's capital falls below two-thirds of the minimum capital, currently EURO 1,250,000, the Board of Directors must submit the question of dissolution of the SICAV to the General Meeting, which shall issue its decision without any conditions on attendance, according to the simple majority of the shares present or represented at the Meeting. If the capital falls to less than one-quarter of the minimum capital, the Board of Directors must submit the issue of the SICAV's dissolution to the General Meeting, which shall issue a decision without any conditions on attendance; the dissolution may be declared by shareholders owning one-quarter of the shares present or represented at the Meeting. The meeting must be called in such a way that it is held within forty days of the date on which it is ascertained that the net assets have fallen below two-thirds or one quarter of the minimum capital, as the case may be.

When the SICAV is dissolved, the liquidation shall be carried out by one or more liquidators who may be individuals or legal entities, previously approved by the CSSF and appointed by the General Meeting, which shall also determine their powers and fees.

3. LEGAL LIQUIDATION

Any legal liquidation will be carried out exclusively in accordance with the Law of 2010, which defines the procedure and the measures to be taken.

LIQUIDATION OF SUB-FUNDS, CLASSES OR CATEGORIES OF SHARES

The Board of Directors may decide to liquidate a sub-fund, a class/category of shares by compulsory redemption of all the shares issued for that sub-fund or that class/category of shares at the net asset value per share applicable on the Valuation Day on which the decision takes effect (taking into account liquidation costs) if the net assets of that sub-fund, of that class/category of shares are less than or remain less than an amount considered by the Board of Directors to be the minimum threshold below which the sub-fund, the class/category of shares can no longer be adequately managed, or if a change in the economic or political situation has a harmful influence on the sub-fund, the class/category of shares in question which would justify such liquidation.

The decision on liquidation will be notified to the shareholders of the sub-fund, the class/category of shares before the effective date of liquidation. The notification will indicate the reasons, and the liquidation procedure. Unless the Board of Directors decides otherwise in the interests of shareholders or to maintain equal treatment between them, holders of shares in the sub-fund, the class/category of shares concerned may continue to apply for the redemption or conversion of their shares, free of charge, on the basis of the applicable net asset value per share, while taking into account the estimated liquidation fees. The SICAV will reimburse each shareholder proportionally to the number of shares they hold in the sub-fund, the class/category of shares concerned.

Liquidation proceeds which cannot be distributed to their beneficiaries within nine months of the decision to liquidate the sub-fund, the class/category of shares will be deposited with the Caisse de Consignation in Luxembourg in favour of their beneficiaries until the end of the legal prescription period.

MERGER OF THE SICAV AND/OR SUB-FUNDS, CLASSES OR CATEGORIES OF SHARES

1. MERGER DECIDED BY THE BOARD OF DIRECTORS

The Board of Directors may decide to proceed with a merger (within the meaning of the Law of 2010) of the SICAV or one of its sub-funds, whether as an absorbed company or sub-fund or as an absorbing company or sub-fund under the conditions and according to the procedures imposed by the Law of 2010, in particular the proposed merger and disclosures to shareholders, as follows:

a) Merger of the SICAV

The Board of Directors may decide to merge the SICAV, whether as an absorbed company or as an absorbing company, with:

- another Luxembourg or foreign UCITS (the "New UCITS"); or
- a sub-fund thereof,

and, if appropriate, to re-designate the shares of the SICAV as shares of the New UCITS, or of the relevant sub-fund of the UCITS, if applicable.

In the event that the SICAV is the absorbing company (within the meaning of the Law of 2010), only the Board of Directors will decide on the merger and the effective date thereof.

In the event that the SICAV is the absorbed company (within the meaning of the Law of 2010) and it ceases to exist because of the merger, the merger's entry into effect shall be decided by a General Meeting of Shareholders deliberating without quorum and by simple majority of the votes cast at such meeting.

b) Merger of sub-funds

The Board of Directors may decide to merge any sub-fund, whether as an absorbed sub-fund or as an absorbing sub-fund, with:

- another existing sub-fund of the SICAV or another sub-fund of a New UCITS (the "New Sub-Fund"); or
- a New UCITS,

and, if appropriate, to re-designate the shares of the sub-fund concerned as shares of the New UCITS, or of the New sub-fund, if applicable.

2. MERGER DECIDED BY THE SHAREHOLDERS

Notwithstanding the provisions in the above section "Merger decided by the Board of Directors", the General Meeting of Shareholders may decide to proceed with a merger (within the meaning of the Law of 2010) of the SICAV or one of its sub-funds, whether as an absorbed company or sub-fund or as an absorbing company or sub-fund, subject to the conditions and procedures imposed by the Law of 2010, in the conditions and procedures imposed by the Law of 2010, in particular the proposed merger and disclosures to shareholders, as follows:

a) Merger of the SICAV

The General Meeting of Shareholders may decide to merge the SICAV, whether as an absorbed company or as an absorbing company, with:

- a New UCITS; or
- a sub-fund thereof,

The merger decision must be adopted by the General Meeting of Shareholders with (a) a quorum of at least half of the capital of the Company and (b) a majority of two thirds of the votes cast.

b) Merger of sub-funds

The General Meeting of Shareholders of a sub-fund may also decide to merge a sub-fund, whether as an absorbed sub-fund or as an absorbing sub-fund, with:

- a New UCITS; or
- a New sub-fund.

The merger decision must be adopted by the General Meeting of Shareholders of the sub-fund concerned with (a) a quorum of at least half of the shares of the sub-fund concerned and (b) a majority of two thirds of the votes cast.

3. SHAREHOLDER RIGHTS AND COSTS CHARGED TO THE SHAREHOLDER

In all mergers described in the sections below, the shareholders have the right to demand that their shares be redeemed or reimbursed, free of charges other than those deducted by the SICAV or the sub-fund to cover the cost of divestment, repurchase or repayment of their share or, where possible, that they be converted into shares or units of another UCITS that applies a similar investment policy and is managed by the Management Company or by any other company with which the Management Company is linked by common management or control or by direct or indirect holding, in accordance with the provisions of the Law of 2010.

All costs associated with the preparation and realisation of the merger (such as legal, advisory or administrative costs) may not be charged to the SICAV or its shareholders.

INFORMATION – AVAILABLE DOCUMENTS

1. AVAILABLE INFORMATION

a) *Publication of the net asset value*

The net asset value of each class and/or category of shares of each sub-fund, the issue prices and redemption prices shall be made public on each Valuation Day at the registered office of the SICAV. The Board of Directors may subsequently decide to publish these net asset values in the newspapers of the countries in which the shares of the SICAV are offered or sold. They can also be obtained from the Management Company.

b) *Financial advice*

Financial notices will be published or disseminated whenever such publication or dissemination is required by applicable law and regulations.

c) *Periodic reports*

Each year, the SICAV publishes a detailed report about its activities and the management of assets, including a balance sheet and profit and loss account expressed in Euros, a detailed breakdown of the assets in each sub-fund, and a report by the approved auditors.

After the end of each half-year, it will also publish a report including, the composition of the portfolio, the changes in the portfolio over the period, the number of shares in circulation and the number of shares issued and redeemed since the last publication.

The Board of Directors of the SICAV may decide to issue interim reports.

2. DOCUMENTS AVAILABLE TO THE PUBLIC

a) *Available documents*

In addition to the Prospectus, the subscription form, the KIID, the latest annual and half-yearly reports published by the SICAV, copies of the Articles of Association of the SICAV may be obtained without charge during office hours every business day from the head office of the SICAV at 12, Rue Eugène Ruppert, L-2453 Luxembourg.

Copies of the Prospectus, the KIID, the Articles of Association and the latest yearly and half-yearly reports can also be obtained on the following website: <https://www.dpas.lu/funds/list>.

Information about the procedure for the processing of investors' complaints, with a brief description of the strategy of the Management Company to determine when and how the voting rights tied to the instruments held in the sub-funds' portfolios are to be exercised can be found on the Management Company's website: www.dpas.lu.

b) Remuneration policy of the Management Company

The Management Company has a remuneration policy ("the Policy") within the meaning of Article 111bis of the Law of 2010 and in compliance with the principles laid down by Article 111ter of the Law of 2010.

The Policy aims essentially to prevent risk-taking incompatible with sound and effective risk management, with the economic strategy, objectives, values and interests of the Management Company or the SICAV, with the interests of the SICAV's shareholders, to avoid conflicts of interest and to uncouple the decisions on control operations from the performance obtained. The Policy includes an assessment of the performance within a multiannual framework adapted to the holding period recommended to the SICAV's investors so as to ensure that the assessment process is based on the SICAV's long-term performance and investment risks. The variable component of remuneration is also based on a number of other qualitative and quantitative factors. The Policy contains an appropriate balance of fixed and variable remuneration components.

This Policy is adopted by the Management Company which is also responsible for its implementation and supervision. It applies to all benefits paid by the Management Company, and to all amounts paid directly by the SICAV itself including any performance commission, and to any transfer of shares in the SICAV to a category of personnel governed by the Policy.

Its general principles are reviewed at least once a year by the Management Company, and depend on the size of the Management Company and/or on the size of the UCITS it manages.

Details of the Management Company's updated Policy can be found at www.dpas.lu (under the section "Investor Information"). A hard copy can be provided free of charge, upon request.

c) Subscription form

The subscription form can be obtained upon request, from the head office of the SICAV.

d) Official language

The official language of the Prospectus and the Articles of Association is French, however the Board of Directors of the SICAV and the Custodian Bank, the Administrative Agent, the Domiciliary Agent, the Transfer Agent and Registrar, and the Management Company may, on their own behalf and on behalf of the SICAV, consider translations into the languages in which the SICAV's shares are offered and sold to

be obligatory. The French version shall prevail in the event of any discrepancy between the French text and any other language into which the Prospectus is translated.

ANNEX - SUB-FUNDS

Corporate EUR	82
EUR Selection	90
EUR Inflation-Linked	96
Credit Duration Hedged EUR	102
Government Global	106
Corporate High Yield EUR 2023	113

CORPORATE EUR

1. Name

This sub-fund is named "Corporate EUR" (hereinafter the "Sub-fund").

2. Investment policy, risk profile and investors

Investment policy

The assets of this sub-fund are invested in bonds issued in all currencies, of investment or equivalent grade. Emphasis is placed on euro-denominated corporate bonds; bonds denominated in a currency other than the euro are in principle hedged, in whole or in part, against the euro. The objective of the sub-fund is to be broadly diversified.

The sub-fund will not invest more than 10% of its net assets in UCITS or UCIs.

Liquid assets in other currencies and/or in euro may be held on an ancillary basis.

Risk profile

The sub-fund's assets are subject to market fluctuations and to the risks inherent in any investment in bonds.

Investor profile

This sub-fund is intended for investors seeking a certain level of protection for the bond component of their investments.

This sub-fund is intended for individual clients and institutional investors.

Benchmark

Benchmark index: 80% iBoxx Euro Corporate ex-BBB / 20% iBoxx Euro Corporate BBB (hereinafter the "index" or "benchmark")

Use of the index:

- to compare performance

Level of deviation of the portfolio's composition from the index:

The sub-fund is actively managed, which means that the portfolio manager does not aim to replicate the performance of a benchmark. The selection and weighting of the assets in the sub-fund's portfolio may differ significantly from the composition of the benchmark.

Provider of the index: Iboxx

The provider of the index is an entity registered with ESMA in accordance with the provisions of Article 36 of Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and contracts or to measure the

performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014.

The Management Company, in accordance with the provisions of Article 28.2 of the above-mentioned Regulations, has established and maintains a robust written procedure defining the measures to be taken in the event that the reference index changes or ceases to be provided. A copy of this procedure may be obtained free of charge from the registered office of the SICAV or the Management Company.

Environmental, social and governance (ESG) considerations – Sustainability transparency

Environmental and social aspects promoted by the sub-fund

The promotion of environmental and social aspects within the meaning of the SFDR by the sub-fund consists of the exclusion of companies involved in controversial activities, as defined in the Manager's controversial activities policy (please refer to the section on "conventional" strategies accessible via the website www.dpamfunds.com ("Sustainable Investment" tab).

In addition, the sub-fund aims to defend fundamental rights as promoted by the 10 principles of the United Nations Global Compact. The sub-fund thus restricts investments in companies deemed to be non-compliant with the UN Global Compact principles and also restricts investments in companies whose behaviour is deemed to be highly controversial, i.e. companies involved in extremely serious controversies.

The sub-fund aims to invest at least 80% of its assets (excluding cash) in securities promoting environmental and social aspects, as defined by SFDR.

Finally, the sub-fund also has strong ESG integration, consisting of the consideration – flexibly according to the material challenges of the sectors of activity – of several ESG criteria. Please refer to the "Investment Strategy" section for a description of this "ESG integration" approach and the criteria it covers.

The Manager's due diligence policies in relation to the main negative impacts of investment decisions are set out in the policy on sustainable and responsible investment which can be accessed at www.dpamfunds.com ("Sustainable Investment" tab).

No sustainable investment objective

The sub-fund does not have a sustainable investment objective within the meaning of the SFDR.

Nevertheless, the sub-fund aims to apply a precautionary principle so as not to "cause significant harm" to the environment or society. In doing so, the sub-fund applies the Manager's controversial activities policy for "conventional" strategies. It does not invest in companies that do not comply with the 10 principles of the United Nations Global Compact or in companies with controversies deemed to be extremely serious.

The Manager's controversial activities policy can be found at www.dpamfunds.com ("Sustainable Investment" tab).

Investment strategy

Investment selection methodology

The fund applies (i) binding investment restrictions in terms of company exposure to certain controversial activities and behaviours and (ii) a non-binding "ESG integration" investment approach:

- i) Binding investment restrictions apply to companies involved in controversial activities (a), companies not in compliance with the UN Global Compact principles (b), and companies involved in extremely serious controversies (c):

- (a) Exclusion of companies involved in controversial activities: The sub-fund excludes companies whose activity consists of the manufacture, use or possession of anti-personnel mines, cluster munitions, depleted uranium munitions and armour, chemical or biological weapons. The sub-fund also applies binding investment restrictions to the securities of companies whose business is the production or distribution of tobacco or raw materials and equipment necessary for the production of tobacco, the extraction of thermal coal, or the generation of electricity from coal. These exclusions apply both at the time of purchase of a position and during the holding of the position in the portfolio (e.g. in case of downgrading of an issuer to non-compliant status).

These exclusions are set out in the Manager's controversial activities policy (section on "conventional" strategies accessible via www.dpamfunds.com ("Sustainable Investment" tab)).

- (b) Compliance of the portfolio with the principles of the United Nations Global Compact: The sub-fund does not invest in companies that do not comply with the 10 principles of the United Nations Global Compact at the time the position is purchased. In the event of an issuer being downgraded to non-compliant status, engagement is undertaken with the company according to a timetable that is consistent with our engagement policy (accessible via www.dpamfunds.com ("Sustainable Investment" tab)) and an in-depth analysis is carried out to identify the issuer's responsibilities for the downgrade and in light of the company's ESG profile.

In the event that the company is declared ineligible, the Investment Manager will sell the relevant investment in the interest of the shareholders of the sub-fund within three months from the date of the final decision of ineligibility;

- (c) The portfolio's exposure to ESG extremely serious controversies: Companies facing extremely serious controversies are not eligible for investment at the time the position is purchased. In the event of an issuer being exposed to an extremely serious controversy, engagement is undertaken with the company according to a timetable that is consistent with our engagement policy (accessible via www.dpamfunds.com ("Sustainable Investment" tab)) and an in-depth analysis is carried out to identify the issuer's responsibilities for the downgrade and in light of the company's ESG profile.

In the event that the company is declared ineligible, the Investment Manager will sell the relevant investment in the interest of the shareholders of the sub-fund within three months from the date of the final decision of ineligibility;

Exclusion lists of individual companies excluded under criteria (a), (b) and (c) above are regularly updated and are fed into the portfolio investment monitoring systems.

- ii) The ESG integration approach consists of a flexible consideration of the following criteria:
- a. The portfolio's exposure to ESG controversies, other than extremely serious controversies (which are formally excluded as in (i) above), i.e. controversies relating to a company's environmental or social impact or governance practices. The managers are informed of the sub-fund's potential exposure to companies involved in ESG controversies, and are encouraged (but not formally constrained) to limit the sub-fund's investments in these companies as much as possible;
 - b. the ESG rating of the portfolio based on the ESG ratings of the companies held, provided by non-financial rating agencies;
 - c. the carbon footprint of the portfolio;
 - d. generally speaking, sector analysts take into account the most material and relevant ESG elements and information in their research and investment recommendations and managers integrate (without formal exclusions) these material elements and issues in their investment decisions.

The Manager intends to maintain flexibility in the consideration of the four criteria outlined in the ESG integration section above. These criteria therefore do not lead to any formal or systematic exclusion (without prejudice to the exclusions arising from the controversial activities policy listed above).

Good governance criteria

Good governance criteria, which are an integral part of active shareholding, engagement and responsible and sustainable investment policies, are included in the investment decision process through the various steps described in the "Methodology for selecting ESG investments" section above:

- i) Portfolio compliance with the UN Global Compact principles: prevention of corruption is one of the four main themes of the 10 principles.
- ii) The portfolio's exposure to extremely serious ESG controversies: good governance criteria (business ethics, political lobbying, corporate governance, corruption and accountability of governance bodies with regard to ESG aspects) are analysed for controversies, their severity and corrective measures.
- iii) Qualitative ESG approach: Much of the fundamental research of the Manager is devoted to governance and corporate governance issues.

The Manager's voting and engagement policies and other elements of good governance are available at www.dpamfunds.com ("Sustainable Investment" tab).

Financial derivative instruments

Derivative financial instruments used, where applicable, for the purpose of achieving the sub-fund's investment objectives will not be used for the purpose of promoting the environmental and/or social aspects of the sub-fund, as described above.

Company in charge of the evaluation of ESG criteria

The Manager is the company in charge of the evaluation of ESG selection criteria. It uses ESG research provided by non-financial rating agencies with international reputations. The Manager has its own internal ESG research capabilities, and ESG research provided by non-financial rating agencies is used as one source of information, among others. The Manager therefore also reserves the right to determine, on the basis of the information received, whether a company complies with the global ESG criteria, or whether it does not.

3. Reference currency

The net asset value of the sub-fund will be denominated in EUR.

4. Investment horizon

The investment horizon for the sub-fund is a minimum of 3 years.

5. Risk factors

Investors should refer to the "Risks" chapter of the main part of this prospectus to find out about the potential risks of investing in this sub-fund.

6. Form of shares

The sub-fund shares may be issued in registered and/or paperless form.

The shares may also be deposited in a securities account for their beneficiary, which will be the default arrangement unless specific instructions are given.

7. Share classes

The sub-fund currently offers the following share classes:

Share class	ISIN code	Currency
A	LU0029264156	EUR
B	LU0029260675	EUR
E	LU0238159312	EUR
F	LU0238158421	EUR
J	LU1515108253	EUR
M	LU1515108337	EUR
N	LU1515108410	EUR
P	LU1515108501	EUR

Share class	ISIN code	Currency
V	LU1943621372	EUR
W	LU1943621455	EUR

Investors should read the “Shares” chapter, section “2. Description of the shares” of the main part of this prospectus for a definition of the different share classes offered by the sub-fund.

The Board of Directors of the SICAV is authorised to decide to create and activate additional share classes in the sub-fund at any time (as detailed in the main part of the prospectus).

Shareholders and investors should contact the Management Company to find out which share classes may be subscribed.

8. Minimum investment and entry fee

The minimum initial investment required for any new investor is:

Sub-fund	Share class	Minimum initial amount	Subscription Fee
Corporate EUR	A	Not applicable	Max. 1.5%
	B	Not applicable	Max. 1.5%
	E	EUR 25,000.00	Max. 1.0%
	F	EUR 25,000.00	Max. 1.0%
	J	Not applicable	Max. 0.0%
	M	Not applicable	Max. 1.0%
	N	Not applicable	Max. 1.0%
	P	Not applicable	Max. 0.0%
	V	Not applicable	Max. 1.5%
	W	Not applicable	Max. 1.5%

9. Subscription procedure and fees

The shares will be issued at a subscription price formed of the net value of a share plus an entry fee representing a certain percentage of the net value of a share, as described above, to the benefit of the approved intermediaries.

Subscription applications received by the Registrar and Transfer Agent no later than 3 p.m. (Luxembourg time) on the Valuation Day will, if accepted, be processed at the subscription price calculated on the Business Day following that Valuation Day. Subscription applications received after this cut-off time will be processed on the following Valuation Day.

The subscription price for each share must be received by the SICAV no later than two Business Days following the Valuation Day applicable to the subscription, failing which that subscription will be cancelled.

10. Redemption procedure and fee

Redemption applications received by the Registrar and Transfer Agent no later than 3 p.m. (Luxembourg time) on the Valuation Day will, if accepted, be processed at a price (the "Redemption Price") equal to the net value of that share, as calculated on the next business day following that Valuation Day plus a

maximum exit fee of 0% to the benefit of the approved intermediaries. This exit fee will be paid to the approved intermediaries. Redemption applications received after this cut-off time will be processed on the following Valuation Day.

The redemption price will in principle be paid no later than two business days following the Valuation Day applicable to the redemption.

11. Frequency of Calculation of the Net Asset Value (NAV) and Valuation Day

The net asset value per share is dated each Business Day (a “Valuation Day”) and is calculated on the following Business Day on the basis of the prices known on that Valuation Day, as published in the relevant stock exchange and with reference to the value of the assets held on behalf of the sub-fund, in accordance with Article 11 of the Articles of Association.

12. Management Company remuneration

In return for its services, the Management Company receives an annual fee from the sub-fund at the rate of:

Sub-fund	Share class	Management fee
Corporate EUR	A	Max. 0.60% p.a.
	B	Max. 0.60% p.a.
	E	Max. 0.30% p.a.
	F	Max. 0.30% p.a.
	J	Max. 0.15% p.a.

This fee is payable quarterly and is calculated based on the average net assets of each class of shares of the Fund during the quarter under review.

13. Manager

The Management Company has delegated management of the sub-fund’s portfolio to Degroof Petercam Asset Management S.A.

DEGROOF PETERCAM ASSET MANAGEMENT S.A. is incorporated in Brussels as a limited liability company under Belgian law. Its purpose is the collective portfolio management of public, institutional or private undertakings for collective investment incorporated under Belgian or foreign law. It may perform the functions of investment portfolio management and administration and sale of undertakings for collective investment.

14. Remuneration of the Manager

The Manager will be remunerated by the Management Company out of the latter’s fee.

15. Other fees and charges

Other fees and charges chargeable to the sub-fund are listed in the section “COSTS AND EXPENSES” in the main part of the prospectus.

16. Stock exchange listing

Classes A and B of the Sub-fund are officially listed on the Luxembourg stock exchange.

EUR SELECTION

1. Name

This sub-fund is named "EUR Selection" (hereinafter the "Sub-fund").

2. Investment policy, risk profile and investors

Investment policy

The sub-fund's objective is to obtain the highest overall return possible for its shareholders by investing mainly in bonds denominated in one or more European currencies and issued or guaranteed by investment grade entities.

The assets of this sub-fund may be invested in government, quasi-government and supranational bonds issued by agencies of the State, by regions or by municipalities and in euro-denominated covered bonds.

These bonds will be investment grade, in other words rated between AAA and BBB-.

The sub-fund's assets may also be invested in bonds issued by banks and guaranteed by different States.

The sub-fund will not invest more than 10% of its net assets in UCITS or UCIs.

Liquid assets in other currencies and/or in euro may be held on an ancillary basis.

Risk profile

The sub-fund's assets are subject to market fluctuations and to the risks inherent in any investment in bonds.

Investor profile

This sub-fund is intended for investors seeking a certain level of protection for the bond component of their investments.

This sub-fund is intended for individual clients and institutional investors.

Benchmark

Benchmark index: JPM EMU Government Investment Grade Total Return (hereinafter the "index" or "benchmark")

Use of the index:

- to compare performance

Level of deviation of the portfolio's composition from the index:

The sub-fund is actively managed, which means that the portfolio manager does not aim to replicate the performance of a benchmark. The selection and weighting of the assets in the sub-fund's portfolio may differ significantly from the composition of the benchmark.

Provider of the index: JP Morgan

The provider of the index is an entity registered with ESMA in accordance with the provisions of Article 36 of Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014.

The Management Company, in accordance with the provisions of Article 28.2 of the above-mentioned Regulations, has established and maintains a robust written procedure defining the measures to be taken in the event that the reference index changes or ceases to be provided. A copy of this procedure may be obtained free of charge from the registered office of the SICAV or the Management Company.

Environmental, social and governance (ESG) considerations – Sustainability transparency

Environmental and social aspects promoted by the sub-fund

The **promotion** of environmental and social characteristics in the sense of SFDR by the sub-fund consists of four areas:

1. The exclusion of countries that do not respect a minimum of democratic requirements,
2. Strong integration of environmental, social and governance factors according to a strict and rigorous methodology, as described in the "Investment Strategy" section
3. A policy for impact bonds (such as green and social bonds), describing the criteria for verification and investment commitment, and
4. A policy of engagement with individual issuers.

The sub-fund aims to invest at least 80% of its assets (excluding cash) in securities promoting environmental and social aspects, as defined by SFDR.

The Manager's due diligence policies in relation to the main negative impacts of investment decisions are set out in the policy on sustainable and responsible investment which can be accessed at www.dpamfunds.com ("Sustainable Investment" tab).

No sustainable investment objective

The sub-fund does not have a sustainable investment objective within the meaning of the SFDR.

Nevertheless, the sub-fund aims to apply a precautionary principle so as not to "cause significant harm" to the environment or society. To achieve this, the sub-fund has a strong ESG integration policy, complemented by a policy on exclusion, engagement and impact bonds such as green and social bonds.

Investment strategy

Methodology for integrating environmental, social and governance factors

As part of the strong integration of environmental, social and governance factors, the countries that make up the investment universe are analysed on the basis of independent external research and/or internal research of the Manager. These selection criteria are as follows:

- Analysis and rating of the country's sustainability profile using a proprietary sustainability model: The Manager, through its country sustainability advisory board, has defined five pillars of sustainability and the related sustainability criteria.
- The five sustainable pillars defined are:
 - (i) transparency and democratic values: corruption index, press freedom, security, women's rights, ...
 - (ii) environment: GHG emissions, CO2 emissions, biodiversity, energy efficiency, etc.
 - (iii) education and innovation: expenditure on education, participation at different levels of education
 - (iv) population, health care & wealth distribution: GINI index, health expenditure, income distribution, poverty,
 - (v) economy: competitiveness index, unemployment, ...
- On the basis of some sixty indicators from government databases, international government agencies, etc., countries are evaluated against each other and given a score between 0 and 100.

The Manager intends to maintain flexibility in the consideration of the sustainability score. This score therefore does not lead to any formal or systematic exclusion (without prejudice to exclusions under the exclusion policy).

Good governance criteria

Good governance criteria are included in the process of integrating environmental, social and governance factors into the investment decision through the criteria retained in the "transparency and democratic values" pillar, which are based on the World Bank's governance indicators.

Financial derivative instruments

Derivative financial instruments used, where applicable, for the purpose of achieving the sub-fund's investment objectives will not be used for the purpose of promoting the environmental and/or social aspects of the sub-fund, as described above.

Company in charge of the evaluation of ESG criteria

The Manager is the company in charge of the evaluation of ESG selection criteria. It uses ESG research provided by non-financial rating agencies with international reputations. The Manager has its own internal ESG research capabilities, and ESG research provided by non-financial rating agencies is used as one source of information, among others. The Manager therefore also reserves the right to determine,

on the basis of the information received, whether a company complies with the global ESG criteria, or whether it does not.

3. Reference currency

The net asset value of the sub-fund will be denominated in EUR.

4. Investment horizon

The investment horizon for the sub-fund is a minimum of 3 years.

5. Risk factors

Investors should refer to the "Risks" chapter of the main part of this prospectus to find out about the potential risks of investing in this sub-fund.

6. Form of shares

The sub-fund shares may be issued in registered and/or paperless form.

The shares may also be deposited in a securities account for their beneficiary, which will be the default arrangement unless specific instructions are given.

7. Share classes

The sub-fund currently offers the following share classes:

Share class	ISIN code	Currency
A	LU0874385890	EUR
B	LU0757326946	EUR
E	LU1515108683	EUR
F	LU0238162969	EUR
J	LU1515108840	EUR
M	LU1515108923	EUR
N	LU1515109061	EUR
P	LU1515109145	EUR
V	LU1943621703	EUR
W	LU1943621885	EUR

Investors should read the "Shares" chapter, section "2. Description of the shares" of the main part of this prospectus for a definition of the different share classes offered by the sub-fund.

The Board of Directors of the SICAV is authorised to decide to create and activate additional share classes in the sub-fund at any time (as detailed in the main part of the prospectus).

Shareholders and investors should contact the Management Company to find out which share classes may be subscribed.

8. Minimum investment and entry fee

The minimum initial investment required for any new investor is:

Sub-fund	Share class	Minimum initial amount	Subscription Fee
EUR Selection	A	Not applicable	Max. 1.5%
	B	Not applicable	Max. 1.5%
	E	EUR 25,000.00	Max. 1.0%
	F	EUR 25,000.00	Max. 1.0%
	J	Not applicable	Max. 0.0%
	M	Not applicable	Max. 1.0%
	N	Not applicable	Max. 1.0%
	P	Not applicable	Max. 0.0%
	V	Not applicable	Max. 1.5%
	W	Not applicable	Max. 1.5%

9. Subscription procedure and fees

The shares will be issued at a subscription price formed of the net value of a share plus an entry fee representing a certain percentage of the net value of a share, as described above, to the benefit of the approved intermediaries.

Subscription applications received by the Registrar and Transfer Agent no later than 3 p.m. (Luxembourg time) on the Valuation Day will, if accepted, be processed at the subscription price calculated on the Business Day following that Valuation Day. Subscription applications received after this cut-off time will be processed on the following Valuation Day.

The subscription price for each share must be received by the SICAV no later than two Business Days following the Valuation Day applicable to the subscription, failing which that subscription will be cancelled.

10. Redemption procedure and fee

Redemption applications received by the Registrar and Transfer Agent no later than 3 p.m. (Luxembourg time) on the Valuation Day will, if accepted, be processed at a price (the "Redemption Price") equal to the net value of that share, as calculated on the next business day following that Valuation Day plus a maximum exit fee of 0% to the benefit of the approved intermediaries. This exit fee will be paid to the approved intermediaries. Redemption applications received after this cut-off time will be processed on the following Valuation Day.

The redemption price will in principle be paid no later than two business days following the Valuation Day applicable to the redemption.

11. Frequency of Calculation of the Net Asset Value (NAV) and Valuation Day

The net asset value per share is dated each Business Day (a "Valuation Day") and is calculated on the following Business Day on the basis of the prices known on that Valuation Day, as published in the relevant stock exchange and with reference to the value of the assets held on behalf of the sub-fund, in accordance with Article 11 of the Articles of Association.

12. Management Company remuneration

In return for its services, the Management Company receives an annual fee from the sub-fund at the rate of:

Sub-fund	Share class	Management fee
EUR Selection	A	Max. 0.40% p.a.
	B	Max. 0.40% p.a.
	E	Max. 0.20% p.a.
	F	Max. 0.20% p.a.
	J	Max. 0.10% p.a.
	M	Max. 0.20% p.a.
	N	Max. 0.20% p.a.
	P	Max. 0% p.a.
	V	Max. 0.20% p.a.
	W	Max. 0.20% p.a.

This fee is payable quarterly and is calculated based on the average net assets of each class of shares of the Fund during the quarter under review.

13. Manager

The Management Company has delegated management of the sub-fund's portfolio to Degroof Petercam Asset Management S.A.

DEGROOF PETERCAM ASSET MANAGEMENT S.A. is incorporated in Brussels as a limited liability company under Belgian law. Its purpose is the collective portfolio management of public, institutional or private undertakings for collective investment incorporated under Belgian or foreign law. It may perform the functions of investment portfolio management and administration and sale of undertakings for collective investment.

14. Remuneration of the Manager

The Manager will be remunerated by the Management Company out of the latter's fee.

15. Other fees and charges

Other fees and charges chargeable to the sub-fund are listed in the section "COSTS AND EXPENSES" in the main part of the prospectus.

16. Stock exchange listing

The classes of the sub-fund are not listed.

EUR INFLATION-LINKED

1. Name

This sub-fund is named "EUR Inflation-Linked" (hereinafter the "Sub-fund").

2. Investment policy, risk profile and investors

Investment policy

The sub-fund will largely comprise bonds issued by first-ranking international issuers.

The sub-fund will not invest more than 10% of its net assets in UCITS or UCIs.

The sub-fund may hold liquid assets on an ancillary basis.

Risk profile

The sub-fund's assets are subject to market fluctuations and to the risks inherent in any investment in bonds.

Investor profile

This sub-fund is intended for investors seeking a certain level of protection for the bond component of their investments.

This sub-fund is intended for individual clients and institutional investors.

Benchmark

Benchmark index: JPM Euro Linkers Securities Total Return (hereinafter the "index" or "benchmark")

Use of the index:

- to compare performance

Level of deviation of the portfolio's composition from the index:

The sub-fund is actively managed, which means that the portfolio manager does not aim to replicate the performance of a benchmark. The selection and weighting of the assets in the sub-fund's portfolio may differ significantly from the composition of the benchmark.

Provider of the index: JP Morgan

The provider of the index is an entity registered with ESMA in accordance with the provisions of Article 36 of Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014.

The Management Company, in accordance with the provisions of Article 28.2 of the above-mentioned Regulations, has established and maintains a robust written procedure defining the measures to be taken in the event that the reference index changes or ceases to be provided. A copy of this procedure may be obtained free of charge from the registered office of the SICAV or the Management Company.

Environmental, social and governance (ESG) considerations – Sustainability transparency

Environmental and social aspects promoted by the sub-fund

The **promotion** of environmental and social characteristics in the sense of SFDR by the sub-fund consists of four areas:

1. The exclusion of countries that do not respect a minimum of democratic requirements,
2. Strong integration of environmental, social and governance factors according to a strict and rigorous methodology, as described in the "Investment Strategy" section
3. A policy for impact bonds (such as green and social bonds), describing the criteria for verification and investment commitment, and

2. Investment policy, risk profile and investors

Investment policy

At least two thirds of the sub-fund's net assets will be invested in:

- bonds and equivalent securities denominated in currencies of OECD member States, and/or
- issued by or guaranteed by an OECD member State, government agencies, local authorities established in an OECD Member State or supranational bodies, and
- at the time of their acquisition, having a long-term "investment grade" rating (i.e. minimum Baa3/BBB- granted by at least one of the three leading ratings agencies, i.e. Moody's, S&P & Fitch)

Short-term money market instruments and deposits with credit institutions may be held on an ancillary basis.

The sub-fund may invest up to 30% of its net assets in securities traded in the Chinese interbank bond market through the Bond Connect program.

The sub-fund will not invest more than 10% of its net assets in UCITS or UCIs.

The sub-fund may use financial derivative instruments for hedging and/or investment purposes.

The net asset value of the share classes and of the sub-fund is expressed in euros.

Risk profile

The sub-fund's assets are subject to market fluctuations and to the risks inherent in any investment in bonds.

Investor profile

This sub-fund is intended for investors seeking a certain level of protection for the bond component of their investments.

This sub-fund is intended for individual clients and institutional investors.

Benchmark

Benchmark index: Bloomberg Barclays Global Developed Treasuries GDP Weighted Index (hereinafter the "index" or "benchmark")

Use of the index:

- to compare performance

Level of deviation of the portfolio's composition from the index:

The sub-fund is actively managed, which means that the portfolio manager does not aim to replicate the performance of a benchmark. The selection and weighting of the assets in the sub-fund's portfolio may differ significantly from the composition of the benchmark.

Provider of the index: Bloomberg Barclays

The provider of the index is an entity registered with ESMA in accordance with the provisions of Article 36 of Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014.

The Management Company, in accordance with the provisions of Article 28.2 of the above-mentioned Regulations, has established and maintains a robust written procedure defining the measures to be taken in the event that the reference index changes or ceases to be provided. A copy of this procedure may be obtained free of charge from the registered office of the SICAV or the Management Company.

Environmental, social and governance (ESG) considerations – Sustainability transparency

Environmental and social aspects promoted by the sub-fund

The **promotion** of environmental and social characteristics in the sense of SFDR by the sub-fund consists of four areas:

1. The exclusion of countries that do not respect a minimum of democratic requirements,
2. Strong integration of environmental, social and governance factors according to a strict and rigorous methodology, as described in the "Investment Strategy" section
3. A policy for impact bonds (such as green and social bonds), describing the criteria for verification and investment commitment, and
4. A policy of engagement with individual issuers.

The sub-fund aims to invest at least 80% of its assets (excluding cash) in securities promoting environmental and social aspects, as defined by SFDR.

The Manager's due diligence policies in relation to the main negative impacts of investment decisions are set out in the policy on sustainable and responsible investment which can be accessed at www.dpamfunds.com ("Sustainable Investment" tab).

No sustainable investment objective

The sub-fund does not have a sustainable investment objective within the meaning of the SFDR.

Nevertheless, the sub-fund aims to apply a precautionary principle so as not to "cause significant harm" to the environment or society. To achieve this, the sub-fund has a strong ESG integration policy, complemented by a policy on exclusion, engagement and impact bonds such as green and social bonds.

Investment strategy

Methodology for integrating environmental, social and governance factors

As part of the strong integration of environmental, social and governance factors, the countries that make up the investment universe are analysed on the basis of independent external research and/or internal research of the Manager. These selection criteria are as follows:

- Analysis and rating of the country's sustainability profile using a proprietary sustainability model: The Manager, through its country sustainability advisory board, has defined five pillars of sustainability and the related sustainability criteria.
- The five sustainable pillars defined are:
 - (i) transparency and democratic values: corruption index, press freedom, security, women's rights, ...
 - (ii) environment: GHG emissions, CO2 emissions, biodiversity, energy efficiency, etc.
 - (iii) education and innovation: expenditure on education, participation at different levels of education
 - (iv) population, health care & wealth distribution: GINI index, health expenditure, income distribution, poverty,
 - (v) economy: competitiveness index, unemployment, ...
- On the basis of some sixty indicators from government databases, international government agencies, etc., countries are evaluated against each other and given a score between 0 and 100.

The Manager intends to maintain flexibility in the consideration of the sustainability score. This score therefore does not lead to any formal or systematic exclusion (without prejudice to exclusions under the exclusion policy).

Good governance criteria

Good governance criteria are included in the process of integrating environmental, social and governance factors into the investment decision through the criteria retained in the "transparency and democratic values" pillar, which are based on the World Bank's governance indicators.

Financial derivative instruments

Derivative financial instruments used, where applicable, for the purpose of achieving the sub-fund's investment objectives will not be used for the purpose of promoting the environmental and/or social aspects of the sub-fund, as described above.

Company in charge of the evaluation of ESG criteria

The Manager is the company in charge of the evaluation of ESG selection criteria. It uses ESG research provided by non-financial rating agencies with international reputations. The Manager has its own internal ESG research capabilities, and ESG research provided by non-financial rating agencies is used as one source of information, among others. The Manager therefore also reserves the right to determine, on the basis of the information received, whether a company complies with the global ESG criteria, or whether it does not.

3. Reference currency

The net asset value of the sub-fund will be denominated in EUR.

4. Investment horizon

The recommended investment horizon is approximately 2 to 3 years minimum.

5. Risk factors

Investors should refer to the "Risks" chapter of the main part of this prospectus to find out about the potential risks of investing in this sub-fund.

6. Form of shares

The sub-fund shares may be issued in registered and/or paperless form.

The shares may also be deposited in a securities account for their beneficiary, which will be the default arrangement unless specific instructions are given.

7. Share classes

The sub-fund currently offers the following share classes:

Share class	ISIN code	Currency
A	LU1515111984	EUR
A EUR Hedged	LU1554272135	EUR
B	LU1515112016	EUR
B EUR Hedged	LU1554272218	EUR
E	LU1515112107	EUR
E EUR Hedged	LU1554272309	EUR
F	LU1515112289	EUR
F EUR Hedged	LU1554272481	EUR
J	LU1515112446	EUR
J EUR Hedged	LU1867711415	EUR
M	LU1515112529	EUR
M EUR Hedged	LU1867711506	EUR
N	LU1515112792	EUR
N EUR Hedged	LU1867711761	EUR
P	LU1515112875	EUR
P EUR Hedged	LU1554272721	EUR

Share class	ISIN code	Currency
V	LU1515112958	EUR
W	LU1515113097	EUR

Investors should read the “Shares” chapter, section “2. Description of the shares” of the main part of this prospectus for a definition of the different share classes offered by the sub-fund.

The Board of Directors of the SICAV is authorised to decide to create and activate additional share classes in the sub-fund at any time (as detailed in the main part of the prospectus).

Shareholders and investors should contact the Management Company to find out which share classes may be subscribed.

8. Minimum investment and entry fee

The minimum initial investment required for any new investor is:

Sub-fund	Share class	Minimum initial amount	Subscription Fee
Government Global	A	Not applicable	Max. 2.0%
	A EUR Hedged	Not applicable	Max. 2.0%
	B	Not applicable	Max. 2.0%
	B EUR Hedged	Not applicable	Max. 2.0%
	E	EUR 25,000.00	Max. 1.0%
	E EUR Hedged	EUR 25,000.00	Max. 1.0%
	F	EUR 25,000.00	Max. 1.0%
	F EUR Hedged	EUR 25,000.00	Max. 1.0%
	J	Not applicable	Max. 0.0%
	J EUR Hedged	Not applicable	Max. 0.0%
	M	Not applicable	Max. 1.0%
	M EUR Hedged	Not applicable	Max. 0.0%
	N	Not applicable	Max. 1.0%
	N EUR Hedged	Not applicable	Max. 0.0%
	P	Not applicable	Max. 1.0%
	P EUR Hedged	Not applicable	Max. 1.0%
	V	Not applicable	Max. 2.0%
	W	Not applicable	Max. 2.0%

9. Subscription procedure and fees

The shares will be issued at a subscription price formed of the net value of a share plus an entry fee representing a certain percentage of the net value of a share, as described above, to the benefit of the approved intermediaries.

Subscription applications received by the Registrar and Transfer Agent no later than 3 p.m. (Luxembourg time) on the Valuation Day will, if accepted, be processed at the subscription price calculated on the Business Day following that Valuation Day. Subscription applications received after this cut-off time will be processed on the following Valuation Day.

The subscription price for each share must be received by the SICAV no later than two Business Days following the Valuation Day applicable to the subscription, failing which that subscription will be cancelled.

10. Redemption procedure and fee

Redemption applications received by the Registrar and Transfer Agent no later than 3 p.m. (Luxembourg time) on the Valuation Day will, if accepted, be processed at a price (the "Redemption Price") equal to the net value of that share, as calculated on the next business day following that Valuation Day plus a maximum exit fee of 0% to the benefit of the approved intermediaries. This exit fee will be paid to the approved intermediaries. Redemption applications received after this cut-off time will be processed on the following Valuation Day.

The redemption price will in principle be paid no later than two business days following the Valuation Day applicable to the redemption.

11. Frequency of Calculation of the Net Asset Value (NAV) and Valuation Day

The net asset value per share is dated each Business Day (a "Valuation Day") and is calculated on the following Business Day on the basis of the prices known on that Valuation Day, as published in the relevant stock exchange and with reference to the value of the assets held on behalf of the sub-fund, in accordance with Article 11 of the Articles of Association.

12. Management Company remuneration

In return for its services, the Management Company receives an annual fee from the sub-fund at the rate of:

Sub-fund	Share class	Management fee
Government Global	A	Max. 0.45% p.a.
	A EUR Hedged	Max. 0.45% p.a.
	B	Max. 0.45% p.a.
	B EUR Hedged	Max. 0.45% p.a.
	E	Max. 0.225% p.a.
	E EUR Hedged	Max. 0.225% p.a.
	F	Max. 0.225% p.a.
	F EUR Hedged	Max. 0.225% p.a.
	J	Max. 0.11% p.a.
	J EUR Hedged	Max. 0.11% p.a.
	M	Max. 0.225% p.a.
	M EUR Hedged	Max. 0.225% p.a.
	N	Max. 0.225% p.a.
	N EUR Hedged	Max. 0.225% p.a.
	P	Max. 0% p.a.
	P EUR Hedged	Max. 0% p.a.
	V	Max. 0.225% p.a.
	W	Max. 0.225% p.a.

This fee is payable quarterly and is calculated based on the average net assets of each class of shares of the Fund during the quarter under review.

The Management Company may receive an additional fee from each class concerned, for classes hedging the exchange risk, of 0.01% per month for this exchange risk hedging policy. This concerns the following share classes: A EUR Hedged, B EUR Hedged, E EUR Hedged, F EUR Hedged, J EUR Hedged, M EUR Hedged and N EUR Hedged.

The minimum exposure to the hedged currency is 80% of the net asset value of the class concerned.

13. Manager

The Management Company has delegated management of the sub-fund's portfolio to Degroof Petercam Asset Management S.A.

DEGROOF PETERCAM ASSET MANAGEMENT S.A. is incorporated in Brussels as a limited liability company under Belgian law. Its purpose is the collective portfolio management of public, institutional or private undertakings for collective investment incorporated under Belgian or foreign law. It may perform the functions of investment portfolio management and administration and sale of undertakings for collective investment.

14. Remuneration of the Manager

The Manager will be remunerated by the Management Company out of the latter's fee.

15. Other fees and charges

Other fees and charges chargeable to the sub-fund are listed in the section "COSTS AND EXPENSES" in the main part of the prospectus.

16. Stock exchange listing

The classes of the sub-fund are not listed.

CORPORATE HIGH YIELD EUR 2023

1. Name

This sub-fund is named “Corporate High Yield EUR 2023” (hereinafter the “sub-fund”).

2. Investment policy, risk profile and investors

Investment policy

The sub-fund is a sub-fund of limited duration, maturing on 31 December 2023. The objective of the sub-fund is to achieve a capital gain on maturity. At least one month before 31 December 2023, the Board of Directors of the SICAV will approve the decision to liquidate the sub-fund and will immediately propose to shareholders to subscribe to a new sub-fund having a similar objective and investment policy and with a new maturity date. The shareholders will be informed of this decision and the Prospectus will be updated. Shareholders not interested in investing in the new sub-fund will be repaid at the latest net asset value of the sub-fund applicable on 31 December 2023.

The sub-fund will invest exclusively in corporate bonds. Emphasis is placed on high-yield euro-denominated corporate bonds; corporate bonds denominated in a currency other than the euro are in principle hedged, in whole or in part, against the euro. The sub-fund will not invest more than 10% of its net assets in UCITS or UCIs. Cash and other liquid assets and short-term instruments may also be held, notably during the period preceding the sub-fund’s maturity date.

Restriction specific to the Sub-fund

The sub-fund securities lending refrains from all types of securities lending.

Risk profile

The sub-fund's assets are subject to market fluctuations and to the risks inherent in any investment in bonds.

Investor profile

The sub-fund is intended for investors wishing to benefit from a credit risk premium on high-yield bonds, higher on average than investment-grade enterprises.

This sub-fund is intended for individual clients and institutional investors.

Benchmark

Benchmark index: n/a

The sub-fund is actively managed and no benchmark is used.

3. Reference currency

The net asset value is expressed in euros.

4. Investment horizon

The recommended investment horizon is approximately 4 years minimum.

5. Risk factors

Investors should refer to the "Risks" chapter of the main part of this prospectus to find out about the potential risks of investing in this sub-fund.

6. Form of shares

The sub-fund shares may be issued in registered and/or paperless form.

The shares may also be deposited in a securities account for their beneficiary, which will be the default arrangement unless specific instructions are given.

7. Share classes

The sub-fund currently offers the following share classes:

Share class	ISIN code	Currency
A	LU1619836247	EUR
B	LU1619836320	EUR
E	LU1619836593	EUR
F	LU1619836676	EUR
J	LU1726119826	EUR
M	LU1726120089	EUR
N	LU1726120162	EUR
P	LU1619836759	EUR
V	LU1619836833	EUR
W	LU1619836916	EUR

Investors should read the "Shares" chapter, section "2. Description of the shares" of the main part of this prospectus for a definition of the different share classes offered by the sub-fund.

The Board of Directors of the SICAV is authorised to decide to create and activate additional share classes in the sub-fund at any time (as detailed in the main part of the prospectus).

Shareholders and investors should contact the Management Company to find out which share classes may be subscribed.

8. Minimum investment and entry fee

The minimum initial investment required for any new investor is:

Sub-fund	Share class	Minimum initial amount	Subscription Fee
Corporate High Yield EUR 2023	A	Not applicable	Max. 2.0%
	B	Not applicable	Max. 2.0%
	E	EUR 25,000.00	Max. 1.0%
	F	EUR 25,000.00	Max. 1.0%
	J	Not applicable	Max. 0.0%

Corporate High Yield EUR 2023	M	Not applicable	Max. 1.0%
	N	Not applicable	Max. 1.0%
	P	Not applicable	Max. 1.0%
	V	Not applicable	Max. 2.0%
	W	Not applicable	Max. 2.0%

9. Subscription procedure and fees

The shares will be issued at a subscription price formed of the net value of a share plus an entry fee representing a certain percentage of the net value of a share, as described above, to the benefit of the approved intermediaries.

Subscription applications received by the Registrar and Transfer Agent no later than 3 p.m. (Luxembourg time) on the Valuation Day will, if accepted, be processed at the subscription price calculated on the Business Day following that Valuation Day. Subscription applications received after this cut-off time will be processed on the following Valuation Day.

The subscription price for each share must be received by the SICAV no later than two Business Days following the Valuation Day applicable to the subscription, failing which that subscription will be cancelled.

10. Redemption procedure and fee

Redemption applications received by the Registrar and Transfer Agent no later than 3 p.m. (Luxembourg time) on the Valuation Day will, if accepted, be processed at a price (the "Redemption Price") equal to the net value of that share, as calculated on the next business day following that Valuation Day plus a maximum exit fee of 0% to the benefit of the approved intermediaries. This exit fee will be paid to the approved intermediaries. Redemption applications received after this cut-off time will be processed on the following Valuation Day.

The redemption price will in principle be paid no later than two business days following the Valuation Day applicable to the redemption.

11. Frequency of Calculation of the Net Asset Value (NAV) and Valuation Day

The net asset value per share is dated each Business Day (a "Valuation Day") and is calculated on the following Business Day on the basis of the prices known on that Valuation Day, as published in the relevant stock exchange and with reference to the value of the assets held on behalf of the Sub-fund, in accordance with Article 11 of the Articles of Association.

12. Management Company remuneration

In return for its services, the Management Company receives an annual fee from the sub-fund at the rate of:

Sub-fund	Share class	Management fee
Corporate High Yield EUR 2023	A	Max. 0.20% p.a.
	B	Max. 0.20% p.a.
	E	Max. 0.10% p.a.

Sub-fund	Share class	Management fee
Corporate High Yield EUR 2023	F	Max. 0.10% p.a.
	J	Max. 0.05% p.a.
	M	Max. 0.10% p.a.
	N	Max. 0.10% p.a.
	P	Max. 0% p.a.
	V	Max. 0.10% p.a.
	W	Max. 0.10% p.a.

This fee is payable quarterly and is calculated based on the average net assets of each class of shares of the Fund during the quarter under review.

13. Manager

The Management Company has delegated management of the sub-fund's portfolio to Degroof Petercam Asset Management S.A.

DEGROOF PETERCAM ASSET MANAGEMENT S.A. is incorporated in Brussels as a limited liability company under Belgian law. Its purpose is the collective portfolio management of public, institutional or private undertakings for collective investment incorporated under Belgian or foreign law. It may perform the functions of investment portfolio management and administration and sale of undertakings for collective investment.

14. Remuneration of the Manager

The Manager will be remunerated by the Management Company out of the latter's fee.

15. Other fees and charges

Other fees and charges chargeable to the sub-fund are listed in the section "COSTS AND EXPENSES" in the main part of the prospectus.

16. Stock exchange listing

The classes of the sub-fund are not listed.
