

## DB PLATINUM MCP TERRA GROVE PAN ASIA

Share Class: R1C-E (ISIN: LU1283663851), (WKN: A14ZLE), (Currency: EUR)

a sub fund of DB Platinum. The Fund is managed by Deutsche Asset Management S.A., part of the Deutsche Bank Group.

### Objectives & Investment Policy

**This product is in the process of being terminated. Further information on this is available on [www.systematic.dws.com](http://www.systematic.dws.com).**

The aim of the Fund is to increase the value of your investment over the long term.

The investment manager of the Fund which has been appointed by Deutsche Asset Management S.A. is MCP Asset Management Company Limited (the Investment Manager). The Fund generally invests in publicly-traded shares with a focus on the Pan-Asia area, including Japan, Hong Kong, Australia, Korea and Taiwan.

The Investment Manager uses rules-based computer models which seek to assess various elements of the value of shares, including the amount by which shares will outperform the market generally. Using the results produced by these models, the Investment Manager will either (1) invest in shares directly, or through financial contracts (derivatives), the value of which may rise or fall based on the market value of the shares (take long

positions) or (2) enter into derivatives in order to benefit from the decline in the value of particular shares (take short positions).

Derivatives may also be used with the aim of reducing inflation, interest rate and/or foreign currency exposure in respect of the assets (hedging).

Derivatives will also be used to try to increase returns by increasing the exposure to certain investments (leverage). The gross leverage is not expected to exceed 800% of the value of the Fund.

The Fund's portfolio is rebalanced several times each day. Prospective investors should note that as a result of this frequent rebalancing of the positions in the portfolio, relatively high transaction costs may be incurred. These costs are paid from the assets of the Fund, in addition to the charges set out below.

No dividends will be paid on your shares.

You may redeem your investment on demand on a weekly basis.

### Risk and Reward Profile

The risk and reward category is calculated using historical data which may not be a reliable indicator of the Fund's future risk profile.

The risk and reward category may shift over time and is not a target or a guarantee.

The lowest category (i.e. Category 1) does not mean a risk-free investment.

The Fund is in Category 3 because of the low range and frequency of price movements (volatility) of the underlying investments referenced by the Fund.

The following are additional risks not covered by the risk and reward category.

The Fund will enter into derivatives with one or more counterparties. If a counterparty fails to make payments (for example, it becomes insolvent) this may result in your investment suffering a loss.

The Fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up.

Deutsche Asset Management entities and related companies may act in several roles in relation to the Fund such as distributor and management company which may involve conflicts of interest.

The value of an investment in shares will depend on a number of factors including, but not limited to, market and economic conditions, sector, geographical region and political events.

The Fund is exposed to market movements in a single country or region which may be adversely affected by political or economic developments, government action or natural events that do not affect a fund investing in broader markets.

The Fund relies upon the performance of the investment manager of the underlying strategy. If that investment manager performs poorly the value of your investment is likely to be adversely affected.

The Fund has been designed for investors who are looking for long term capital growth through exposure to alternative investment strategies. As the Fund may therefore employ sophisticated strategies (including the use of derivatives), it is intended only for knowledgeable and experienced investors who are able to understand and evaluate both the investment strategy and its inherent risks (such understanding and evaluation may be gained through advice from a professional advisor).

The Fund may use derivatives i) for investment purposes; and ii) to try to reduce exposure to inflation, interest rates and/or movements in currency exchange rates. This may not always be successful and may result in greater fluctuations in the value of the Fund. This may negatively affect the value of the Fund and your investment.

More information in relation to risks in general may be found in the "Risk Factors" section of the prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

<b>One-off charges taken before or after you invest</b>		<p>The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser or distributor.</p> <p>The ongoing charges figure shown here is an estimate of the charges as there is insufficient historical data. It excludes portfolio transaction costs and performance fees, if any. The Fund's annual report for each financial year will include detail on the exact charges made.</p> <p>More detailed charges information may be found in the "Fees and Expenses" section of the prospectus.</p>
Entry charge	5.00%	
Exit charge	None	
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).		
<b>Charges taken from the Fund over a year</b>		
Ongoing charges	2.55%	
<b>Charges taken from the Fund under certain specific conditions</b>		
<b>Performance fee</b>		
Where the Gross NAV (net asset value after deduction of certain fees but not performance fee) exceeds the higher of (i) the highest Gross NAV at any previous year end or (ii) the issue price (High Watermark), 20% of the amount, negative or positive, that the Gross NAV exceeds the higher of (i) the prior day's Gross NAV and (ii) the High Watermark, will accrue daily and be paid annually. In the last financial year 0.00% of daily average value of the share class was charged as performance fee.		

## Past Performance

Please be aware that past performance is not a reliable indicator of future results.

The Fund was launched in 2015 and the share class was launched in 2015.

--- The share class was not issued for the complete year of 2017. As a result, performance information for 2017 has not been shown.
