### 2. Summary of Significant Accounting Policies

#### a) Presentation of Financial Statements

The financial statements are prepared in accordance with Luxembourg legal and regulatory requirements relating to undertakings for collective investment under the going concern basis of accounting.

#### b) Calculation of the Net Asset Value

The Net Asset Value of a Sub-fund and the Net Asset Value of the Share classes issued within that Sub-fund are determined in the relevant currency on every Dealing Day. The total Net Asset Value of a Sub-fund represents the market value of its assets less its liabilities. The Net Asset Value per Share in a Share class issued in a Sub-fund is determined by dividing the total Net Asset Value of all Shares in that class within the relevant Sub-fund by all outstanding Shares in the same class in the relevant Sub-fund. The Net Asset Values of the Sub-funds are calculated in accordance with the valuation regulations and guidelines set forth in the Articles and issued by the Board of Directors.

These Financial Statements are presented on the basis of the Net Asset Value ("NAV") calculated on 30 June 2021, the last business day of the period.

#### c) Investment Valuation

The valuation of securities held by a Sub-fund and listed on a stock exchange or on another regulated market is based on the latest available price on the principal market on which the securities are traded, using a procedure for determining prices accepted by the Board of Directors.

Unless otherwise provided for in the management regulations of the Company, the valuation of the assets of the Company shall be based, in the case of securities admitted to official listing on a stock exchange, on the last known stock exchange quotation, unless such quotation is not representative. For securities not so admitted on such a stock exchange and for securities which are so admitted on such a stock exchange but for which the latest quotation is not representative, the valuation shall be based on the probable realisation value, estimated with care and in good faith.

#### d) Foreign Exchange Transactions

Combined Statements are presented in Euro. Financial statements of each Sub-fund that is not EUR denominated have been converted into EUR at the following exchange rates:

#### e) Options, Futures and Swaps Contracts

Valuation of the derivatives is performed at each valuation date by use of the mark-to-market principle.

The value of futures contracts which are quoted or traded on any exchange is based on the last available price on that exchange on the applicable Valuation Day. The value of futures contracts traded on another market is based on the last available price on this market on the applicable Valuation Day.

In the event that any of these assets on the Valuation Day is not quoted or traded on any exchange or other market or if the price is not representative of the fair value, the value of such an asset is determined prudently and in good faith on the basis of the estimated realisable value.

Futures contracts involve, to varying degrees, risk of loss in excess of the values reflected in the Sub-fund Statement of Net Assets. The underlying face amount at value of any open futures contracts at the period-end is shown in the Schedule of Investments of the relevant Sub-fund. This amount reflects each contract's exposure to the underlying instrument at the period-end. Losses may arise from changes in the value of the underlying instruments or if the counterparties do not perform under the contract's terms. Gains (losses) are realised upon expiration or closing of the futures contracts.

The risks include price movements in the underlying securities, the possibility there may be an illiquid market, and/or the inability of the counterparties to fulfil their obligations under the contract.

#### i) Hedges against market risks and risks associated with stock market performance:

For the purpose of hedging against poor market performance, the Company may, for each Sub-fund, sell forward transactions and call options on share price indices, bond market indices or other indices or financial instruments or buy put options on share price indices, bond market indices or other indices or buy financial instruments or enter into swaps in which the payments between the Company and the counterparty depend on the development of certain share price indices, bond market indices or other indices or financial instruments.

As these call and put transactions are for hedging purposes, there must be a sufficient correlation between the structure of the securities portfolio to be hedged and the composition of the stock index employed.

### 2. Summary of Significant Accounting Policies (*continued*)

#### e) Options, Futures and Swaps Contracts (*continued*)

##### ii) Hedges against interest rate risks:

For the purpose of hedging against the risks associated with changes in interest rates the Company may sell interest rate futures and call options on interest rates, buy put options on interest rates and enter into interest rate swaps, forward rate agreements and options on interest rate swaps (swaptions) with highly rated financial institutions specialising in these kind of transactions as part of OTC transactions for each Sub-fund.

##### iii) Hedges against inflation risks:

For the purpose of hedging against risks resulting from an unexpected acceleration of inflation, the Company may conclude so-called inflation swaps with highly rated financial institutions specialising in this type of transaction as part of OTC transactions or make use of other instruments to hedge against inflation for each Sub-fund.

##### iv) Hedges against credit default risk and the risk of a deterioration in a borrower's credit standing:

For the purpose of hedging against credit default risk and the risk of losses owing to a deterioration in the borrower's credit standing, the Company may engage in credit options, credit spread swaps ("CSS"), credit default swaps ("CDS"), CDS (index) baskets, credit-linked total return swaps and similar credit derivatives with highly rated financial institutions specialising in these kind of transactions as part of OTC transactions for each Sub-fund.

As at 30 June 2021, the Company had outstanding futures contracts that are detailed in the Schedule of Investments. There are no swaps or OTC contracts open at period end.

#### f) Repurchase Agreements (Repos)

The Company may as buyer or seller enter into repurchase agreements.

A repurchase agreement is an agreement under which, on payment of the purchase price, the Company receives (purchases) securities from a seller who agrees to repurchase them at or within a specified time at a specified price. A repurchase agreement is similar in effect to a loan by the fund to the seller collateralised by the securities. The fund does not record the purchase of the securities received but does record the repurchase agreement as if it were a loan, and is disclosed in the Combined Statement of Net Assets under "Receivable for repurchase agreements", including any interest receivable on such transaction. Because a repurchase agreement between the two specific parties involved is generally for a relatively short time and is not transferable, it is not readily marketable. The fund carries repurchase agreements at cost, which, combined with accrued interest, approximates market value. The interest received is recorded in the Combined Statement of Operations and Changes in Net Assets under "Interest income". There was no outstanding repurchase agreement made by the Company as at 30 June 2021.

#### g) Forward Foreign Exchange Contracts

Each Sub-fund may buy and sell forward currency contracts, which are agreements between two parties to buy and sell currencies at a set price on a future date. These contracts are used to protect against a decline in value relative to the sub fund's currency as compared to the currencies in which its portfolio securities are denominated or for other investment purposes. The value of forward currency contracts is determined using current forward currency exchange rates supplied by a quotation service. The market value of the contract will fluctuate with changes in currency exchange rates. The contract is marked to market daily and the change in market value is recorded as an unrealised gain or loss. When the contract is closed, the fund records a realised gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The fund could be exposed to risk if the value of the currency changes unfavourably, if the counterparties to the contracts are unable to meet the terms of their contracts or if the fund is unable to enter into a closing position. Risks may exceed amounts recognised on the Combined Statement of Net Assets. Forward currency contracts outstanding at period end, if any, are listed in the Schedule of Investments of the relevant Sub-funds.

### 2. Summary of Significant Accounting Policies (*continued*)

#### h) Security transactions and related investment income

Security transactions are recorded on the day following the actual trade date (the date the order to buy or sell is executed). Gains or losses on securities are determined on the average cost basis. Interest income is recorded on the accrual basis. Dividend income, net of applicable withholding taxes, is recognised on the ex-dividend date or as soon as the fund is informed of the ex-dividend date. Non-cash dividends, if any, are recorded at the fair market value of the securities received. All premiums/discounts are amortised/accreted on a yield-to maturity basis.

#### i) Organisation Costs

The organisation costs of individual Sub-funds may be capitalised and amortised on a straight-line basis over a period of up to five years from the date of commencement of individual Sub-funds.

#### j) To be announced securities

The Company may invest in mortgage-backed securities To Be Announced (“TBA”) commitments. These commitments reflect future dated purchases and sales of agency Mortgage Backed Securities (“MBS”).

#### k) Swing Pricing Adjustment

A Sub-fund may suffer dilution of the Net Asset Value per Share due to investors buying or selling Shares in a Sub-fund at a price that does not reflect the dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows. In order to counter this impact, a Swing Pricing Adjustment may be adopted to protect the interests of Shareholders of a Sub-fund. If on any Valuation Day, the aggregate net transactions in Shares of a Sub-fund exceed a pre-determined threshold, as determined and reviewed for each Sub-fund on a periodic basis by the Management Company, the Net Asset Value per Share may be adjusted upwards or downwards to reflect net inflows and net outflows respectively.

Net inflows and net outflows will be determined by the Management Company based on the latest available information at the time of calculation of the Net Asset Value per Share. A Swing Pricing Adjustment may be applied across all Sub-funds, as defined by the Prospectus. The extent of the price adjustment will be set by the Management Company to reflect dealing and other costs. Such adjustment may vary from Sub-fund to Sub-fund and will not exceed 3% of the original Net Asset Value per Share. The official Net Asset Value per Share as at period-end, disclosed in the Statistical Information section of this report, may therefore include a Swing Pricing Adjustment, which would not be recognised in the Statement of Net Assets, in the Statement of Operations and in the Statement of Changes in Net assets.

As at period end, a Swing Pricing Adjustment had been applied to the following Sub-funds as follows:

### 3. Fees and Expenses

#### a) Depository, Central Administrator, Registrar and Transfer Agent and Paying Agent Fees

The fees payable to the Depository and to the Central Administrator, Registrar and Transfer Agent and Paying Agent are at such rates and/or amounts as may be agreed from time to time with the Company. The maximum fee payable per Sub-fund to the Depository is 0.004% per annum and to the Central Administrator, Registrar and Transfer Agent and Paying Agent is 0.025% per annum (excluding specific fees payable for the processing of multiple Share Classes), in each case based on the Net Asset Value of the relevant Sub-fund. In addition, the Depository and the Central Administrator, Paying Agent, Registrar and Transfer Agent are entitled, as the case may be, to a charge per transaction, a flat fee for certain services or products, reimbursements by the Company for out-of-pocket expenses and disbursements and for charges of any correspondents.

These Investment Management Fees will be accrued daily based on the Net Asset Value of the Sub-funds as of the relevant Dealing Day and will be paid monthly in arrears.

The total expense ratios ("TER") attributable to the Share classes of the Sub-funds, as set out below, incorporate the fees and expenses of the Investment Manager, Central Administrator, Depositary, any distribution fee not covered by the Subscription Fee where appropriate, and certain other expenses of the relevant Sub-fund set forth in the Prospectus.

The Management Company has agreed to reimburse such portions of its fees as is necessary to ensure that the total expense ratio attributable to all Shares shall currently not exceed the following rates set forth below. The Shareholders will be given prior notification if the Management Company is ceasing these reimbursements in the future.

### 4. Taxation

The Company is subject to the Luxembourg tax jurisdiction. Under Luxembourg law and the current practice, the Company is subject neither to income tax nor to any tax on capital gains in respect of realised or unrealised valuation profits. No taxes are payable in Luxembourg on the issue of Shares.

The Net Asset Value corresponding to the "P" and the "A" Shares (Shares for retail and institutional investors) is subject to the *taxe d'abonnement* at the rate of 0.05% per annum of the Net Asset Value as valued at the end of each quarter, and payable quarterly by the Sub-fund. The "P" and the "A" Shares classes are available to retail and institutional investors. To the extent that parts of the Company's assets are invested in other Luxembourg UCITS which are subject to the *taxe d'abonnement*, assets will not be subject to additional tax.

The Net Asset Value corresponding to the "I" and the "B" Shares (Shares for institutional investors) is subject to a reduced tax rate of 0.01% per annum payable quarterly by the Sub-fund, on the basis that the Company classifies the investors in this Share class as institutional investors as defined in Articles 174 to 176 of the 2010 Law. This classification is based on the Company's understanding of the current legal situation.

Capital gains and income from dividends, interest and interest payments originating in other countries may be subject to a non-recoverable withholding tax or capital gains tax in such countries. Tax effects are booked in accounting on a cash basis principle. However, a daily monitoring is performed on such balances to ensure that when material, appropriate provisions will be accordingly reflected.

In accordance with Article 175 of the 2010 Law, each share class subject to listing on a stock exchange and part of a Sub-fund which replicate the performance of an index is not subject to *taxe d'abonnement*. The subscription tax (*taxe d'abonnement*) is a registration fee established on the negotiability of securities issued by Undertakings for Collective Investment.

### 8. Currency Adjustment

The opening value of the Company has been restated at the exchange rate ruling at 30 June 2021. The resulting gain of EUR 628,457,879 represents the movement in exchange rates between 1 January 2021 and 30 June 2021. This is a translation gain, which has no impact on the Net Asset Value of the individual Sub-funds.

### 9. Cross investments

A Sub-fund may acquire shares of one or more other Sub-funds of the Company (the target Sub-fund), provided that there shall be no duplication of fees between the fees at the level of the Sub-fund that invested in the target Sub-fund and the fees at the level of the target Sub-fund.

The value of those cross-investments per Sub-fund as at 30 June 2021 amounted to:

| Name of the Sub-fund  | Currency | Market Value in EUR |
|---|----------|---------------------|
| State Street Emerging Markets Local Currency Government Bond Index Fund | USD      | 5,706,630           |

## Notes to the Financial Statements

for the period ended 30 June 2021 (continued)

### 9. Cross investments (continued)

At 30 June 2020 the total of cross Sub-Funds' investments amounts to EUR 5,706,630 and therefore total combined NAV as at period-end without cross-investments would amount to EUR 29,210,524,526.

### 10. Securities Lending

The Company has appointed State Street Bank International GMBH and State Street Bank and Trust Company to act as Securities Lending Agents. Securities are lent to their approved Counterparties and collateral must be sufficiently liquid and valued at market value on a daily basis. Equity securities will only be accepted as collateral if either admitted to official listing on a stock exchange in a Member State or non-Member State or traded on a market which is regulated, operating regularly, officially recognised and open to the public in a Member State or non-Member State. "Member State" means a member state of the European Union.

The following table summarises the value of securities lent, analysed by borrowing counterparty as at 30 June 2021:

| Sub-funds name   | Currency | Counterparty                 | Counterparty's country of incorporation | Market Value of Securities Lent as at 30 June 2021 | % of Total Net assets | % of the fund's total lendable assets* |

### 11. Connected Parties Transactions

The ultimate holding company of the Management Company, the Distributor, the Sub - Investment Managers, the Investment Manager, the Central Administration, the Depositary, the Principal Paying Agent, the Transfer Agent, the Domiciliary Agent and the Securities Lending Agent is State Street Corporation.

When arranging transactions in securities for the Company, companies in the State Street Group may have provided securities brokerage, foreign exchange, banking and other services, or may have acted as principal, on their usual terms and may have benefited from it. Any such transactions would have been entered into in the ordinary course of business and on normal commercial terms. Fees have been paid to brokers and agents in accordance with the relevant market practice and the benefit of any bulk or other fee discounts or cash rebates provided by brokers or agents have been passed on to the Company.

The services of State Street Group companies could have been used by the Management Company and Investment Managers where it was considered appropriate to do so provided that their fees and other terms of business are generally comparable with those available from dissociated brokers and agents in the market concerned.

During the period there have been no transactions which were outside of the ordinary course of business or which were not on normal commercial terms entered into between the Company, the Management Company, the Distributor, the Sub - Investment Managers, the Investment Manager, the Central Administration, the Depositary, the Principal Paying Agent, the Transfer Agent, the Domiciliary Agent or the Directors of the Company.

#### Impact of COVID-19

An outbreak of a respiratory disease caused by a novel coronavirus (known as COVID-19) first detected in China in December 2019 has resulted in a global pandemic and major disruptions to economies and markets around the world. Beginning in January 2020, global financial markets have experienced and may continue to experience significant volatility resulting from the spread of coronavirus COVID-19. Trading in many instruments has been disrupted along with liquidity for many instruments being greatly reduced for periods of time. Interest rates in major currencies are very low and in some cases yields are negative. Governments and central banks have taken extraordinary and unprecedented actions to support local and global economies and the financial markets. The impact of these measures, and whether they will be effective to mitigate the economic and market disruption have yet to be fully determined. The outbreak of coronavirus COVID-19 has also resulted in travel and border restrictions, quarantines, supply chain disruptions, lower consumer demand and general market uncertainty.

The Directors of the Company and the Company's delegates are closely monitoring the developments and the advice relating to the spread of coronavirus COVID-19. State Street Corporation has a robust global business continuity programme that prioritises the health and safety of employees. The continuity programme continues to evolve from supporting staff in work from home arrangements through a comprehensive programme to plan for the return of staff to the office environment.

As of 26 March 2021 Bryan Greener resigned from Board of Director of the SICAV.

Eric Linnane was appointed as a Director on 26 March 2021.

The Management Company changed its name from State Street Global Advisors Funds Management Limited to State Street Global Advisors Europe Limited on 17 May 2021.

### 14. Subsequent events

The Sub-Fund State Street Euro Issuer Scored Corporate Bond ESG Screened Index Fund was put into liquidation as on 20 July 2021.

On 1 August 2021 (the 'merger effective date') State Street Global Advisors Ireland Limited and State Street Global Advisors GmbH and their respective branches merged into State Advisors Street Global Europe Limited as a merger by acquisition under the EU Cross Border Merger Directive and its implementing regulations in Ireland and Germany. On the merger effective date Street Global Advisors Europe Limited became the Investment Manager and Global Distributor to the Company.

#### Impact of COVID-19

As of August 2021 local lockdowns continue to be deployed as necessary and the emergence of further outbreaks are being seen, particularly in relation to variants of the coronavirus. While distribution of a vaccine began in early 2021 the pandemic and the measures taken to tackle COVID-19 and its variants continue to affect economies, equity and debt markets globally, all of which may negatively impact a Fund's performance.

| State Street EMU ESG Screened Index Equity Fund                      | MSCI EMU Index   | 0.68                                    | 1.00%                                | 0.24                            | The Fund outperformed because of the recurring tax advantage of the Company versus MSCI. The majority of outperformance for this period is due to this.   |
| State Street US Issuer Scored Corporate Bond ESG Screened Index Fund | Bloomberg Barclays US Issuer Scored Corporate Index    | -0.11                                   | 2.00%                                | 0.42                            | The ISCI benchmark has a fundamental rebalance twice a year and typically 30-40% of the Sub-Fund is turned-over at a rebalance. The underperformance comes from transaction costs from the fundamental rebalancing and from security selection. Given the size of the Sub-Fund, only about 20% of the benchmark bonds are held. Due to the semi-annual fundamental rebalances the Sub-Fund does not season to the same extent as a Sub-Fund managed versus a market weighted benchmark. |
| State Street Australia Index Equity Fund                             | MSCI Australia Index                                   | 0.50                                    | 1.00%                                | 0.47                            | Outperformance is mainly attributed to positive dividend income impact.   |
| State Street Europe ESG Screened Index Equity Fund                   | MSCI Europe Index                                      | 0.33                                    | 1.00%                                | 0.17                            | The Fund outperforms thanks to the recurring tax advantage of the Company versus MSCI, with a smaller contribution from geometric compounding.  |
| State Street Euro Corporate Bond ESG Screened Index Fund             | Bloomberg Barclays Euro-Aggregate Corporate Bond Index | 0.12                                    | 2.00%                                | 0.08                            | The fund has benefited from purchasing new issues on the primary market ahead of their inclusion in the benchmark. Capturing this new issue premium has led to an outperformance of the fund against the benchmark.   |

| State Street US Corporate Bond ESG Screened Index Fund                  | Citigroup US Dollar World BIG Corporate Bond Index                      | 0.25                                    | 1.00%                                | 0.41                            | Outperformance is due to a strong positive contribution from the primary market, efficiency in trading and security selection.   |
| State Street World ESG Screened Index Equity Fund                       | MSCI World Index  | 0.10                                    | 1.00%                                | 0.45                            | The performance of the Fund has been consistently in line with that of the index and within our tolerance levels. The slight outperformance is mainly attributed to the small positive additive affect from withholding tax impact, stock misweights, tax reclaim, compounding and securities lending. |
| State Street Global Emerging Markets ESG Screened Index Equity Fund     | MSCI Emerging Markets Index   | 0.55                                    | 1.00%                                | 5.51                            | The outperformance can be mainly attributed to a security weight deviation from the index along with uplift through beneficial withholding tax rates versus the index.   |
| State Street World ESG Index Equity Fund                                | MSCI World ESG Universal Index  | 0.26                                    | 1.00%                                | 0.51                            | The outperformance of the fund came mostly from securities misweights, and a small benefit from tax status.  |
| State Street Canada Index Equity Fund                                   | MSCI Canada Index   | 0.41                                    | 1.00%                                | 0.28                            | The outperformance of the fund can be mainly attributed to stock lending revenue earned during the period.   |
| State Street Japan ESG Screened Index Equity Fund                       | MSCI Japan Index  | 0.14                                    | 1.00%                                | 1.40                            | Outperformance is mainly attributed to active security weights on the fund, positive dividend income impact and trading strategy applied around quarterly index reviews.   |
| State Street Emerging Markets Local Currency Government Bond Index Fund | J.P. Morgan Government Bond Index – Emerging Markets Global Diversified | -0.16                                   | 2.00%                                | 0.52                            | The largest contributor to underperformance was tax.   |

### Total Expense Ratio (TER)

In Switzerland the “total expense ratio” (TER) taking account of Swiss requirements is reported and explained in each of the annual and semi-annual reports as well as in the KIID. The way of calculating the TER and the performance of the Sub-fund in these documents corresponds to the method recommended by the Swiss Funds & Asset Management Association (SFAMA), and is then calculated using the following formula:

$$\text{TER \%} = \frac{\text{Total operating expenses in CU}^*}{\text{Average fund assets in CU}^*}$$

\*CU = Currency units in the fund’s accounting currency
