

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

KAMES
CAPITAL

Kames Emerging Market Bond Fund

a sub-fund of Kames Capital Investment Company (Ireland) plc

US Dollar Class C - Income shares (ISIN: IE00BYNFP485)

Objectives and investment policy

Objective: to maximise total return (income plus capital).

Policy: invests predominately in emerging market bonds, investment grade bonds (lower risk) bonds and high yield (higher risk) bonds and cash. Bonds will be issued by companies and governments worldwide.

The Fund must invest at least 80% of its net assets in emerging market bonds, defined as a country, jurisdiction or territory comprised within, or a constituent of, any of the following indices:

- J.P. Morgan Emerging Markets Bond Index Global
- J.P. Morgan Corporate Emerging Markets Bond Index
- J.P. Morgan Government Bond Index - Emerging Markets

and:

The Fund will, at all times, hold at least 80% of its assets in Emerging Market bonds and separately, 80% in Investment Grade Bonds. While some of the Emerging Market bonds may be investment grade, not all of them will be.

The Fund may use derivatives (financial contracts whose value is linked to an underlying asset).

Within the limits set out above, the Fund is not restricted by country or market sector. It may also hold a limited range of other investments and it is not constrained by any benchmark or index, including those which are set out above for the purpose of defining the Fund's investment universe.

The Fund may use investment techniques to manage risks and costs.

These techniques include 'hedging' (using derivatives to reduce the risk associated with making investments in other currencies).

Other information

You can buy, sell or exchange the Fund's shares on any business day (see 'Dealing Day' in the Prospectus Definitions for more information).

Income the Fund receives will be paid out every three months.

It is expected that the Fund will be held as part of a diversified portfolio which may include other assets such as bonds, equities, property and cash.

Risk and reward profile

| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
|---|---|---|---|---|---|---|
| Lower risk / potentially lower rewards | | | | | | Higher risk / potentially higher rewards |

The risk/reward profile shows the risk of investing in the Fund, based on the rate at which its value has changed in the past. This Fund has the above risk/reward rating because bond prices can change quickly and unpredictably, for example due to political or economic events, and changes in interest rates.

The Fund's category is not guaranteed and may change over time. It is calculated using historical data, which may not be a reliable indication for the future. Category 1 does not mean 'risk free'.

Note: as there is less than 5 years performance data available (see Past performance section), the risk/reward profile is calculated using simulated historical data.

The following risks, which are not, or are not fully, reflected in the risk/reward profile are also relevant to the Fund:

Credit: An issuer of bonds may be unable to make payments due to the Fund (known as a default). The value of bonds may fall as default becomes more likely. Both default and expected default may cause the Fund's value to fall. High yield bonds generally offer higher returns because of their higher default risk and investment grade bonds generally offer lower returns because of their lower default risk.

Emerging Market: Investing in Emerging Markets involves additional risks and special considerations not typically associated with investing in other more established economies or securities markets. These markets may have less developed political, economic and legal systems and which provide fewer investor protections. Difficulties in buying, selling, safekeeping or valuing investments in such countries may reduce the value of the Fund.

Liquidity: The Fund's value may fall if bonds become more difficult to trade or value due to market conditions or a lack of supply and demand. This risk increases where the Fund invests in high yield bonds.

Counterparty: Investments such as derivatives are made using financial contracts with third parties. Those third parties may fail to meet their obligations to the Fund due to events beyond our control. The Fund's value could fall because of: (i) loss of monies owed by the counterparty; and/or (ii) the cost of replacement financial contracts.

Derivatives: The value of derivatives depends on the performance of an underlying asset. Small changes in the price of that asset can cause larger changes in the value of the derivative. This increases potential gain but also potential loss.

Fund charges: The Fund charges its fees against capital, which will increase the amount of income available for distribution to Shareholders, but may constrain capital growth.

Interest Rate Risk: Bond values are affected by changes in interest rates. When interest rates rise, the value of the Fund is likely to fall.

Full details of risks are disclosed in the 'Risk Factors' section of the Fund Supplement to the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

| | |
|--------------|-------|
| Entry charge | 0.00% |
| Exit charge | 3.00% |

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

| | |
|-----------------|-------|
| Ongoing charges | 0.64% |
|-----------------|-------|

Charges taken from the fund under certain specific conditions

| | |
|-----------------|------|
| Performance fee | None |
|-----------------|------|

The entry and exit charges shown are the maximum figures, and in some cases you may pay less. You can find out specific charges which apply to your investment by contacting your financial adviser, distributor, or by contacting us using the details given in the Practical Information section.

The ongoing charge is based on expenses for the year to 31 December 2016. This figure may vary from year to year. It excludes any portfolio transaction costs (except in the case of an entry/exit charge paid by the Fund when buying and selling shares in another fund).

Ongoing charges are taken from capital rather than income. This may have a material effect on any capital growth of the Fund.

Exchanging your holdings into another sub-fund of the Company: 1st 5 in any calendar year are free, and subject to a charge of 1.5% on each transaction thereafter.

More detailed information on charges can be found in the 'Fees and Expenses' section of the Fund Supplement to the Prospectus.

Past performance

Past performance is not a guide to future performance.

Fund launch date: 29 October 2015

Share class launch date: 29 October 2015

Performance is calculated in USD.

The past performance calculation does not take into account the entry and exit charges but does take into account the ongoing charge, as shown in the 'Charges' section.

Practical information

Kames Capital Investment Company (Ireland) plc (the Company) is an umbrella fund with segregated liability between sub-funds.

You can exchange your holdings into another share class of the Fund, or another sub-fund of the Company, at any time. More detailed information on exchanging can be found in the 'Exchange of Shares' section of the Prospectus.

The assets and liabilities of the Fund are segregated by law. Accordingly, the assets of this Fund belong exclusively to it and may not be used to meet the liabilities of, or claims against, any other fund within the Company. Any liability incurred on behalf of, or attributable to, the Fund shall be discharged solely out of the assets of the Fund.

The Custodian of the Fund is Citi Depository Services Ireland Limited.

The prices of shares will be published daily on our website (www.kamescapital.com).

Further information about the Fund and copies of the Prospectus, Supplement, latest Annual and Semi-Annual Reports of the Company can be obtained free of charge from our website (www.kamescapital.com) or by calling +353 1 622 4493. These documents are available in English.

You should be aware that Irish tax legislation may have an impact on your personal tax position.

Kames Capital Investment Company (Ireland) plc may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.

Details of the up to date remuneration policy of Kames Capital Investment Company (Ireland) plc ("the Company") including but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits, are available at www.kamescapital.com. A paper copy will be available free of charge upon request at the registered office of the Company.
